

Journal of the Senate

SECOND REGULAR SESSION

SIXTIETH DAY—WEDNESDAY, APRIL 28, 2010

The Senate met pursuant to adjournment.

Senator Stouffer in the Chair.

Reverend Carl Gauck offered the following prayer:

“God doesn’t always smooth the path, but sometimes he puts springs in the wagon.” (*Marshall Lucas*)

We are aware, O God, that this time of year can make our time together here a very rough road. We are grateful it isn’t as rough as previous years but not as smooth as we could hope. So we pray, put a spring in our step and as we move bills along this day help us accomplish more in an unruffled way. And may You truly bless our efforts, gracious Lord. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

(d) One member to represent all other districts levying ad valorem taxes in the proposed redevelopment area in a manner in which all such districts agree. No city, town, or village subject to this subsection shall

create or maintain a commission under subsection 2 of this section, except as necessary to complete a public hearing for which notice under section 99.830 has been provided prior to August 28, [2008] **2010**, and to vote or make recommendations relating to redevelopment plans, redevelopment projects, or designation of redevelopment areas, or amendments thereto that were the subject of such public hearing;

(2) Members appointed to the commission created under this subsection, except those six members appointed by either the county executive or presiding commissioner, shall serve on the commission for a term to coincide with the length of time a redevelopment project, redevelopment plan, or designation of a redevelopment area is considered for approval by the commission. The six members appointed by either the county executive or the presiding commissioner shall serve on all such commissions until replaced. The city, town, or village that creates a commission under this subsection shall send notice thereof by certified mail to the county executive or presiding commissioner, to the school districts whose boundaries include any portion of the proposed redevelopment area, and to the other taxing districts whose boundaries include any portion of the proposed redevelopment area. The city, town, or village that creates the commission shall also be solely responsible for notifying all other cities, towns, and villages in the county that have tax increment financing districts and shall exercise all administrative functions of the commission. The school districts receiving notice from the city, town, or village shall be solely responsible for notifying the other school districts within the county of the formation of the commission. If the county, school board, or other taxing district fails to appoint members to the commission within thirty days after the city, town, or village sends the written notice, as provided herein, that it has convened such a commission or within thirty days of the expiration of any such member's term, the remaining duly appointed members of the commission may exercise the full powers of the commission.

4. (1) Any commission created under this section, subject to approval of the governing body of the municipality, may exercise the powers enumerated in sections 99.800 to 99.865, except final approval of plans, projects and designation of redevelopment areas. The commission shall hold public hearings and provide notice pursuant to sections 99.825 and 99.830.

(2) Any commission created under subsection 2 of this section shall vote on all proposed redevelopment plans, redevelopment projects and designations of redevelopment areas, and amendments thereto, within thirty days following completion of the hearing on any such plan, project or designation and shall make recommendations to the governing body within ninety days of the hearing referred to in section 99.825 concerning the adoption of or amendment to redevelopment plans and redevelopment projects and the designation of redevelopment areas. The requirements of subsection 2 of this section and this subsection shall not apply to redevelopment projects upon which the required hearings have been duly held prior to August 31, 1991.

(3) Any commission created under subsection 3 of this section shall, within fifteen days of the receipt of a redevelopment plan meeting the minimum requirements of section 99.810, as determined by counsel to the city, town, or village creating the commission and a request by the applicable city, town, or village for a public hearing, fix a time and place for the public hearing referred to in section 99.825. The public hearing shall be held no later than seventy-five days from the commission's receipt of such redevelopment plan and request for public hearing. The commission shall vote and make recommendations to the governing body of the city, town, or village requesting the public hearing on all proposed redevelopment plans, redevelopment projects, and designations of redevelopment areas, and amendments thereto within thirty days following the completion of the public hearing. If the commission fails to vote within thirty days following the completion of the public hearing referred to in section 99.825 concerning the proposed

redevelopment plan, redevelopment project, or designation of redevelopment area, or amendments thereto, such plan, project, designation, or amendment thereto shall be deemed rejected by the commission.”; and

Further amend the title and enacting clause accordingly.

SENATE AMENDMENT NO. 7

Amend Senate Substitute No. 2 for Senate Committee Substitute for House Committee Substitute for House Bill No. 1290, Page 180, Section 165.071, Line 3, by inserting after all of said line the following:

“169.270. Unless a different meaning is clearly required by the context, the following words and phrases as used in sections 169.270 to 169.400 shall have the following meanings:

(1) “Accumulated contributions”, the sum of all amounts deducted from the compensation of a member or paid on behalf of the member by the employer and credited to the member's individual account together with interest thereon in the employees' contribution fund. The board of trustees shall determine the rate of interest allowed thereon as provided for in section 169.295;

(2) “Actuarial equivalent”, a benefit of equal value when computed upon the basis of formulas and/or tables which have been approved by the board of trustees. **The formulas and tables in effect at any time shall be set forth in a written document which shall be maintained at the offices of the retirement system and treated for all purposes as part of the documents governing the retirement system established by section 169.280. The formulas and tables may be changed from time to time if recommended by the retirement system's actuary and approved by the board of trustees;**

(3) “Average final compensation”, the highest average annual compensation received for any four consecutive years of service. In determining whether years of service are “consecutive”, only periods for which creditable service is earned shall be considered, and all other periods shall be disregarded;

(4) “Beneficiary”, any person designated by a member for a retirement allowance or other benefit as provided by sections 169.270 to 169.400;

(5) “Board of education”, the board of directors or corresponding board, by whatever name, having charge of the public schools of the school district in which the retirement system is established;

(6) “Board of trustees”, the board provided for in section 169.291 to administer the retirement system;

(7) “Break in service”, an occurrence when a regular employee ceases to be a regular employee for any reason other than retirement (including termination of employment, resignation, or furlough but not including vacation, sick leave, excused absence or leave of absence granted by an employer) and such person does not again become a regular employee until after sixty consecutive calendar days have elapsed, or after fifteen consecutive school or work days have elapsed, whichever occurs later. A break in service also occurs when a regular employee retires under the retirement system established by section 169.280 and does not again become a regular employee until after fifteen consecutive school or work days have elapsed. A “school or work day” is a day on which the employee's employer requires (or if the position no longer exists, would require, based on past practice) employees having the former employee's last job description to report to their place of employment for any reason;

(8) “Charter school”, any charter school established pursuant to sections 160.400 to 160.420, RSMo, and located, at the time it is established, within the school district;

(9) “Compensation”, the regular compensation as shown on the salary and wage schedules of the employer, including any amounts paid by the employer on a member's behalf pursuant to subdivision (5) of subsection 1 of section 169.350, but such term is not to include extra pay, overtime pay, consideration for entering into early retirement, or any other payments not included on salary and wage schedules. For any year beginning after December 31, 1988, the annual compensation of each member taken into account under the retirement system shall not exceed the limitation set forth in Section 401(a)(17) of the Internal Revenue Code of 1986, as amended;

(10) “Creditable service”, the amount of time that a regular employee is a member of the retirement system and makes contributions thereto in accordance with the provisions of sections 169.270 to 169.400;

(11) “Employee”, any person who is classified by the school district, a charter school, the library district or the retirement system established by section 169.280 as an employee of such employer and is reported contemporaneously for federal and state tax purposes as an employee of such employer. A person is not considered to be an employee for purposes of such retirement system with respect to any service for which the person was not reported contemporaneously for federal and state tax purposes as an employee of such employer, regardless of whether the person is or may later be determined to be or to have been a common law employee of such employer, including but not limited to a person classified by the employer as independent contractors and persons employed by other entities which contract to provide staff and services to the employer. In no event shall a person reported for federal tax purposes as an employee of a private, for-profit entity be deemed to be an employee eligible to participate in the retirement system established by section 169.280 with respect to such employment;

(12) “Employer”, the school district, any charter school, the library district, or the retirement system established by section 169.280, or any combination thereof, as required by the context to identify the employer of any member, or, for purposes only of subsection 2 of section 169.324, of any retiree;

(13) “Employer's board”, the board of education, the governing board of any charter school, the board

(15) "Medical board", the board of physicians provided for in section 169.291;

(16) "Member", any person who is a regular employee after the retirement system has been established hereunder ("active member"), and any person who (i) was an active member, (ii) has vested retirement benefits hereunder, and (iii) is not receiving a retirement allowance hereunder ("inactive member");

(17) "Minimum normal retirement age", the earlier of the date the member attains the age of sixty or the date the member has a total of at least seventy-five credits, with each year of creditable service and each year of age equal to one credit, with both years of creditable service and years of age prorated for fractional years;

(18) "Prior service", service prior to the date the system becomes operative which is creditable in accordance with the provisions of section 169.311. Prior service in excess of thirty-eight years shall be considered thirty-eight years;

(19) "Regular employee", any employee who is assigned to an established position which requires service of not less than twenty-five hours per week, and not less than nine calendar months a year. Any regular employee who is subsequently assigned without break in service to a position demanding less service than is required of a regular employee shall continue the employee's status as a regular employee. Except as stated in the preceding sentence, a temporary, part-time, or furloughed employee is not a regular employee;

(20) "Retirant", a former member receiving a retirement allowance hereunder;

(21) "Retirement allowance", annuity payments to a retirant or to such beneficiary as is entitled to same;

(22) "School district", any school district in which a retirement system shall be established under section 169.280.

169.280. 1. In each school district of this state (i) that now has or may hereafter have a population of not more than seven hundred thousand and (ii) not less than seventy percent of whose population resides in a city other than a city not within a county which now has or may hereafter have a population of four hundred thousand or more, according to the latest United States decennial census, there is hereby created and established a retirement system for the purpose of providing retirement allowances and related benefits for employees of the employer. Each such system shall be under the management of a board of trustees herein described, and shall be known as "The Public School Retirement System of (name of school district)", and by such name all of its business shall be transacted, all of its funds invested, and all of its cash and securities and other property held. When a school district first satisfies the foregoing population conditions, the board of education shall adopt a resolution certifying the same and take all actions necessary to cause the retirement system to begin operation on the thirtieth day of September following such certification.

2. In the event that (i) the population of a school district having a retirement system created hereunder should increase to a number greater than seven hundred thousand, or (ii) the population of the city in which not less than seventy percent of the population of the school district resides should decrease to a number

less than four hundred thousand, or (iii) less than seventy percent of the population of the school district should reside in a city having a population of at least four hundred thousand, or (iv) the corporate organization of the school district shall lapse in accordance with subsections 1 and 4 of section 162.081, RSMo, the retirement system of such school district shall continue to be governed by and subject to sections 169.270 to 169.400 and all other statutes, rules, and regulations applicable to retirement systems in school districts having a population of not more than seven hundred thousand and not less than seventy percent of whose population resides in a city, other than a city not within a county, of four hundred thousand or more, as if the population of such school district and city continued to be within such numerical limits.

3. The plan of retirement benefits administered by the retirement system established hereby is intended to be a qualified plan under the provisions of applicable federal law. The board of trustees shall interpret the statutes governing the retirement system and shall administer the retirement system in all respects consistent with such intent. The assets of the retirement system shall be held in trust for the exclusive benefit of members and their beneficiaries and for defraying reasonable administrative expenses of the retirement system. No part of such assets shall, at any time prior to the satisfaction of all liabilities with respect to members and their beneficiaries, be used for or diverted to any purposes other than for such exclusive benefit or for any purpose inconsistent with the requirements of sections 169.270 to 169.400.

169.301. 1. Any active member who has completed five or more years of actual (not purchased) creditable service shall be entitled to a vested retirement benefit equal to the annual service retirement allowance provided in sections 169.270 to 169.400 payable after attaining the minimum normal retirement age and calculated in accordance with the law in effect on the last date such person was a regular employee; provided, that such member does not withdraw such person's accumulated contributions pursuant to section 169.328 prior to attaining the minimum normal retirement age.

2. Any member who elected on October 13, 1961, or within thirty days thereafter, to continue to contribute and to receive benefits under sections 169.270 to 169.400 may continue to be a member of the retirement system under the terms and conditions of the plan in effect immediately prior to October 13, 1961, or may, upon written request to the board of trustees, transfer to the present plan, provided that the member pays into the system any additional contributions with interest the member would have credited to the member's account if such person had been a member of the current plan since its inception or, if the person's contributions and interest are in excess of what the person would have paid, such person will receive a refund of such excess. The board of trustees shall adopt appropriate rules and regulations governing the operation of the plan in effect immediately prior to October 13, 1961.

3. Should a retirant again become an active member, such person's retirement allowance payments shall cease during such membership and shall be recalculated upon subsequent retirement to include any creditable service earned during the person's latest period of active membership in accordance with subsection 2 of section 169.324.

4. In the event of the complete termination of the retirement system established by section 169.280 or the complete discontinuance of contributions to such retirement system, the rights of all members to benefits accrued to the date of such termination or discontinuance, to the extent then funded, shall be fully vested and nonforfeitable.

169.324. 1. The annual service retirement allowance payable pursuant to section 169.320 in equal monthly installments for life shall be the retirant's number of years of creditable service multiplied by one

and three-fourths percent of the person's average final compensation, subject to a maximum of sixty percent of the person's average final compensation. For any member who retires as an active member on or after June 30, 1999, the annual service retirement allowance payable pursuant to section 169.320 in equal monthly installments for life shall be the retirant's number of years of creditable service multiplied by two percent of the person's average final compensation, subject to a maximum of sixty percent of the person's average final compensation. Any member whose number of years of creditable service is greater than thirty-four and one-quarter on August 28, 1993, shall receive an annual service retirement allowance payable pursuant to section 169.320 in equal monthly installments for life equal to the retirant's number of years of creditable service as of August 28, 1993, multiplied by one and three-fourths percent of the person's average final compensation but shall not receive a greater annual service retirement allowance based on additional years of creditable service after August 28, 1993. Provided, however, that, effective January 1, 1996, any retiree who retired on, before or after January 1, 1996, with at least twenty years of creditable service shall receive at least three hundred dollars each month as a retirement allowance, or the actuarial equivalent thereof if the retiree elected any of the options available under section 169.326. Provided, further, any retiree who retired with at least ten years of creditable service shall receive at least one hundred fifty dollars each month as a retirement allowance, plus fifteen dollars for each additional full year of creditable service greater than ten years but less than twenty years (or the actuarial equivalent thereof if the retiree elected any of the options available under section 169.326). Any beneficiary of a deceased retiree who retired with at least ten years of creditable service and elected one of the options available under section 169.326 shall also be entitled to the actuarial equivalent of the minimum benefit provided by this subsection, determined from the option chosen.

2. Except as otherwise provided in sections 169.331, 169.580 and 169.585, payment of a retirant's retirement allowance will be suspended for any month for which such person receives remuneration from the person's employer or from any other employer in the retirement system established by section 169.280 for the performance of services except any such person other than a person receiving a disability retirement allowance under section 169.322 may serve as a nonregular substitute, part-time or temporary employee for not more than six hundred hours in any school year without becoming a member and without having the person's retirement allowance discontinued, **provided that through such substitute, part-time, or temporary employment, the person may earn no more than fifty percent of the annual salary or wages the person was last paid by the employer before the person retired and commenced receiving a retirement allowance, adjusted for inflation. If a person exceeds such hours limit or such compensation limit, payment of the person's retirement allowance shall be suspended for the month in which such limit was exceeded and each subsequent month in the school year for which the person receives remuneration from any employer in the retirement system.** If a retirant is reemployed by any employer in any capacity, whether pursuant to this section, or section 169.331, 169.580, or 169.585, or as a regular employee, the amount of such person's retirement allowance attributable to service prior to the person's first retirement date shall not be changed by the reemployment. If the person again becomes an active member and earns additional creditable service, upon the person's second retirement the person's retirement allowance shall be the sum of:

(1) The retirement allowance the person was receiving at the time the person's retirement allowance was suspended, pursuant to the payment option elected as of the first retirement date, plus the amount of any increase in such retirement allowance the person would have received pursuant to subsection 3 of this section had payments not been suspended during the person's reemployment; and

(2) An additional retirement allowance computed using the benefit formula in effect on the person's second retirement date, the person's creditable service following reemployment, and the person's average **final** annual compensation as of the second retirement date. The sum calculated pursuant to this subsection shall not exceed the greater of sixty percent of the person's average final compensation as of the second retirement date or the amount determined pursuant to subdivision (1) of this subsection. Compensation earned prior to the person's first retirement date shall be considered in determining the person's average final compensation as of the second retirement date if such compensation would otherwise be included in determining the person's average final compensation.

3. The board of trustees shall determine annually whether the investment return on funds of the system can provide for an increase in benefits for retirants eligible for such increase. A retirant shall and will be eligible for an increase awarded pursuant to this section as of the second January following the date the retirant commenced receiving retirement benefits. Any such increase shall also apply to any monthly joint and survivor retirement allowance payable to such retirant's beneficiaries, regardless of age. The board shall make such determination as follows:

(1) After determination by the actuary of the investment return for the preceding year as of December thirty-first (the "valuation year"), the actuary shall recommend to the board of trustees what portion of the investment return is available to provide such benefits increase, if any, and shall recommend the amount of such benefits increase, if any, to be implemented as of the first day of the thirteenth month following the end of the valuation year, and the first payable on or about the first day of the fourteenth month following the end of the valuation year. The actuary shall make such recommendations so as not to affect the financial soundness of the retirement system, recognizing the following safeguards:

(a) The retirement system's funded ratio as of January first of the year preceding the year of a proposed increase shall be at least one hundred percent after adjusting for the effect of the proposed increase. The funded ratio is the ratio of assets to the pension benefit obligation;

(b) The actuarially required contribution rate, after adjusting for the effect of the proposed increase, may not exceed the statutory contribution rate;

(c) The actuary shall certify to the board of trustees that the proposed increase will not impair the actuarial soundness of the retirement system;

(d) A benefit increase, under this section, once awarded, cannot be reduced in succeeding years;

(2) The board of trustees shall review the actuary's recommendation and report and shall, in their discretion, determine if any increase is prudent and, if so, shall determine the amount of increase to be awarded.

4. This section does not guarantee an annual increase to any retirant.

5. If an inactive member becomes an active member after June 30, 2001, and after a break in service, unless the person earns at least four additional years of creditable service without another break in service, upon retirement the person's retirement allowance shall be calculated separately for each separate period of service ending in a break in service. The retirement allowance shall be the sum of the separate retirement allowances computed for each such period of service using the benefit formula in effect, the person's average final compensation as of the last day of such period of service and the creditable service the person earned during such period of service; provided, however, if the person earns at least four additional years of creditable service without another break in service, all of the person's creditable service prior to and

including such service shall be aggregated and, upon retirement, the retirement allowance shall be computed using the benefit formula in effect and the person's average final compensation as of the last day of such period of four or more years and all of the creditable service the person earned prior to and during such period.

6. Notwithstanding anything contained in this section to the contrary, the amount of the annual service retirement allowance payable to any retirant pursuant to the provisions of sections 169.270 to 169.400, including any adjustments made pursuant to subsection 3 of this section, shall at all times comply with the provisions and limitations of Section 415 of the Internal Revenue Code of 1986, as amended, and the regulations thereunder, the terms of which are specifically incorporated herein by reference.

7. All retirement systems established by the laws of the state of Missouri shall develop a procurement action plan for utilization of minority and women money managers, brokers and investment counselors. Such retirement systems shall report their progress annually to the joint committee on public employee retirement and the governor's minority advocacy commission.

169.328. 1. Should a member cease to be a regular employee, except by retirement, the member, if living, shall be paid on demand, made by written notice to the board of trustees, the amount of the person's accumulated contributions (with interest as determined by the board of trustees as provided in sections 169.270 to 169.400) standing to the credit of the person's individual account in the employees' contribution fund. The accumulated contributions with interest shall not be paid to a member so long as the person remains a regular employee or before the member incurs a break in service. If the member dies before retirement such accumulated contributions (with interest) shall be paid to the member's estate or designated beneficiary unless the provisions of subsection 3 of section 169.326 apply.

2. If a former unvested member's accumulated contributions have not been withdrawn four years after the person has ceased to be a member (other than by reason of death or retirement), the board of trustees shall pay the same to such former member within a reasonable time after the expiration of such four-year period.

3. If, on account of undeliverability, improper mailing or forwarding address, or other similar problem, the board of trustees is unable to refund the accumulated contributions of a former unvested member or to commence payment of retirement benefits within four years after the end of the calendar year in which such former member ceased to be a regular employee, the board may transfer the accumulated contributions to the general reserve fund. If, thereafter, written application is made to the board of trustees for such refund or benefits, the board shall cause the same to be paid from the general reserve fund, but no interest shall be accrued after the end of the fourth year following the end of the calendar year in which such former member ceased to be a regular employee.

4. In its discretion the board of trustees may approve extensions of any time periods in this section on account of a former member's military or naval service, academic study or illness.

5. Any member or beneficiary who is entitled to receive a distribution that is an eligible rollover distribution, as defined in Section 402(c)(4) of the Internal Revenue Code, may elect to have that distribution transferred directly to another eligible retirement plan, as defined in Section 402(c)(8) of the Internal Revenue Code, designated by the member or beneficiary in accordance with procedures established by the board of trustees. An eligible rollover distribution shall include a distribution to a nonspouse beneficiary that is treated as an eligible rollover distribution under Section 402(c)(11) of the Internal Revenue Code. All such transfers shall be made in compliance with

the requirements of Section 401(a)(31) of the Internal Revenue Code and regulations thereunder.”;
and

Further amend the title and enacting clause accordingly.

Senator Justus moved that the above amendment be adopted, which motion prevailed.

Senator Engler offered **SA 8**:

4. A qualified manufacturing company may, upon the department's approval of a notice of intent and the execution of an agreement that meets the requirements of subsection 9 of this section, but no earlier than January 1, 2012, retain fifty percent of the withholding tax from full-time jobs at the facility for a period of ten years. Such qualified manufacturing company shall be eligible for participation in the Missouri quality jobs program under sections 620.1875 to 620.1890 for any new jobs for which it does not retain withholding tax pursuant to this section, provided all qualifications for such program are met.

6. Notwithstanding any other provision of this section, the maximum amount of withholding tax that may be retained by any one qualified manufacturing company pursuant to this section shall not

exceed ten million dollars per calendar year. The aggregate amount of withholding tax that may be retained by all qualified manufacturing companies pursuant to this section shall not exceed fifteen million dollars per calendar year.

7. Notwithstanding any provision of law to the contrary, any qualified manufacturing company that is awarded benefits under this section shall not simultaneously receive tax credits or exemptions under sections 100.700 to 100.850, sections 135.100 to 135.150, sections 135.200 to 135.286, section 135.535, or sections 135.900 to 135.906 for the jobs created or retained or capital improvement which qualified for benefits under this section. The benefits available to the qualified manufacturing company under any other state programs for which the qualified manufacturing company is eligible and which utilize withholding tax from the jobs at the facility shall first be credited to the other state program before the applicable withholding period for benefits provided under this section shall begin. These other state programs shall include, but are not limited to, the new jobs training program under sections 178.892 to 178.896, the job retention program under sections 178.760 to 178.764, the real property tax increment allocation redevelopment act, sections 99.800 to 99.865, or the Missouri downtown and rural economic stimulus act under sections 99.915 to 99.980. Any taxpayer who is awarded benefits under this section who knowingly hires individuals who are not allowed to work legally in the United States shall immediately forfeit such benefits and shall repay the state an amount equal to any withholding taxes already retained. Subsection 5 of section 285.530 shall not apply to taxpayers awarded benefits under this program.

8. The department may promulgate rules to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly under chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2010, shall be invalid and void.

9. Within six months of completion of a notice of intent required under this section, the qualified manufacturing company shall enter into an agreement with the department that memorializes the contents of the notice of intent, the requirements of this section, and the consequences for failing to meet such requirements, which shall include the following:

(1) If the number of full-time jobs of the qualified manufacturing company at the facility falls below the number of full-time jobs specified within the notice of intent at any time during the withholding period, or if the amount of capital investment made by the qualified manufacturing company is not made within the two-year period provided for such investment, the qualified manufacturing company shall immediately cease retaining any withholding tax with respect to jobs at the facility and it shall forfeit all rights to retain withholding tax for the remainder of the withholding period. In addition, the qualified manufacturing company shall repay any amounts of withholding tax retained plus interest of five percent per annum. However, in the event that such employment shortfall is due to economic conditions beyond the control of the qualified manufacturing

company, the director may, at the qualified manufacturing company's request, suspend rather than terminate its privilege to retain withholding tax pursuant to this section for up to three years. Any such suspension shall extend the withholding period by the same amount of time. No more than one such suspension shall be granted to a qualified manufacturing company;

(2) If the qualified manufacturing company discontinues the manufacturing of the new product and does not replace it with a subsequent or additional new product manufactured at the facility at any time during the withholding period, the qualified manufacturing company shall immediately cease retaining any withholding tax with respect to jobs at that facility and it shall forfeit all rights to retain withholding tax for the remainder of the withholding period.

10. Prior to March first each year, the department shall provide a report to the general assembly including the names of participating qualified manufacturing companies or qualified suppliers, location of facilities or suppliers, the annual amount of benefits provided, the estimated net state fiscal impact including direct and indirect new state taxes derived, and the number of new jobs created or jobs retained.

11. Under section 23.253, of the Missouri sunset act:

(1) The provisions of the new program authorized under this section shall automatically sunset six years after the effective date of this section unless reauthorized by an act of the general assembly; and

(2) If such program is reauthorized, the program authorized under this section shall automatically sunset twelve years after the effective date of the reauthorization of this section; and

(3) This section shall terminate on September first of the calendar year immediately following the calendar year in which the program authorized under this section is sunset.” ; and
