The exercise of daily prayer and meditation on Your Holy Word helps to create a spiritual climate that insures health of our souls and vigor of our daily living. So grant us this day fruits of the Spirit along with Your abiding presence as we seek to serve You in this place. In Your Holy Name we pray. Amen.

SENATE AMENDMENT NO. 1

Amend Senate Bill No. 90, Page 1, In the Title, Lines 3-4 of the title, by striking the following: “health care benefits provided to Medicare eligible participants participating in”; and

Further amend said bill and page, Section A, Line 2, by inserting after all of said line the following:
“103.080. 1. As used in this section, the following terms shall mean:

(1) “Health savings account” or “account”, shall have the same meaning ascribed to it as in 26 U.S.C. Section 223(d), as amended;

(2) “High deductible health plan”, a policy or contract of health insurance or health care plan that meets the criteria established in 26 U.S.C. Section 223(c)(2), as amended, and any regulations promulgated thereunder.

2. Beginning with the open enrollment period for the 2009 plan year, the board shall offer to all qualified state employees and retirees, in addition to the plans currently offered including but not limited to health maintenance organization plans, preferred provider organization plans, copay plans, and participating public entities the option of receiving health care coverage through a high deductible health plan and the establishment of a health savings account. [In no instance shall a qualified employee or retiree be required to enroll in a high deductible health plan with a deductible greater than the minimum allowed by law, however, a qualified employee or retiree shall have the option to enroll in a high deductible health plan up to the maximum allowed by law.] The health savings account shall conform to the guidelines to be established by the Internal Revenue Service for the [2009] **current** tax year but in no case shall a qualified employee or retiree be required to contribute more than the minimum amount allowed by law. A qualified employee or retiree may contribute up to the maximum allowed by law. In order for a qualified individual to obtain a high deductible health plan through the Missouri consolidated health care plan, such individual shall present evidence, in a manner prescribed by regulation, to the board that he or she has established a health savings account in compliance with 26 U.S.C. Section 223, and any amendments and regulations promulgated thereto.

3. Beginning with the open enrollment period for the 2012 plan year, the high deductible health plan offered under subsection 2 of this section shall have a monthly subscriber premium that is at least fifty percent lower than the non-high deductible health plan chosen by a plurality of qualified employees. The amount of the annual deductible for the high deductible health plan offered under subsection 2 of this section shall be no greater than one hundred and twenty-five percent of the minimum annual deductible for self-only coverage and family coverage as established by the Internal Revenue Service for the current tax year. The sum of the annual deductible and the other annual out-of-pocket expenses required to be paid under a high deductible health plan offered under subsection 2 of this section shall not exceed the amount set forth by the Internal Revenue Service for the current tax year. The coverage afforded by the high deductible health plan, after the applicable deductible has been met, shall be substantially similar to the coverage provided by the non-high deductible health plan chosen by a plurality of qualified employees.

4. It is the intent of the Missouri general assembly to promote the use of consumer-driven health care plans such as health savings account compatible high deductible health plans by active state employees as an alternative to using traditional managed care plans. If, after the completion of the open enrollment period for the 2012 plan year, fewer than ten percent of Missouri's active state

employees have enrolled in a high deductible health plan described in this section, then the board shall offer a more competitive high deductible health plan with increased financial and coverage incentives, including but not limited to alternative annual deductibles, out-of-pocket expenses, and other health plan design features, all within the established federal guidelines, with the goal of having forty percent of Missouri's active state employees enrolling in a health savings account compatible high deductible health plan by the open enrollment period for the 2015 plan year.

5. The board is authorized to promulgate rules and regulations for the administration and implementation of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2007, shall be invalid and void.

[4.] 6. The board shall issue a request for proposals from companies interested in offering a high deductible health plan in connection with a health savings account.”; and

SENATE AMENDMENT NO. 1

Amend Senate Bill No. 322, Page 1, Section 190.839, Line 2, by inserting after all of said line the following:

“191.1005. 1. Any provider who is subject to a reimbursement allowance or a provider tax shall be subject to the provisions of sections 191.1005 to 191.1011. For purposes of sections 191.1005 to 191.1011, the following terms shall mean:

(1) “Estimate of cost”, an estimate of the total cost and the out of pocket cost based on specific patient information or general assumptions about typical utilization and costs for medical services;

(2) “Insurer”, the same meaning as the term “health carrier” is defined in section 376.1350, and includes the state of Missouri for purposes of the rendering of health care services by providers under a medical assistance program of the state;

(3) “Provider”, the same meaning as such term is defined in section 376.1350.

2. For patients who do not have coverage under an individual or group health insurance policy or other third-party coverage arrangement, upon request by the patient, a provider shall be required to provide the patient a timely estimate of cost for any elective or nonemergent health care service to be performed by such provider. Such requirement shall not apply to emergency health care services. Any estimate of cost may include a disclaimer noting the actual amount billed may be different from the estimate of cost. Data regarding the estimate of cost may be provided to the public via the internet.

3. Every health carrier, as defined in section 376.1350, or third party benefit administrator shall, by July 1, 2012, utilize a web-based estimating system or other mechanism, by which covered individuals, or their parents or guardians, shall be able to enter, provide, or select from menus, the procedures, tests, or services the individual is considering having, and based upon the individual's benefit plan and the health carrier's internal data, receive timely estimates of the total cost and total out-of-pocket cost of the procedures, tests, or services specific to all available contracted providers or facilities for which such estimates are requested. The estimates of cost shall take into account any known unmet deductible obligation and shall be based upon assumptions of typical utilization and an assumption that, in the provision of the procedures, tests, or services, no complications or unexpected events would occur necessitating other expenses. The estimates of cost shall include related estimates of typically needed and expected ancillary costs such as those for radiology, pathology, or anesthesiology services, and shall indicate when no contracted providers of such services are available under the individual's benefit plan at a selected health care facility or provider. Any estimate given shall not be a guarantee of coverage and the health carrier shall not be held liable for differences between the estimated costs and the ultimate charges assessed to the individual and the estimate of cost on patient cost-sharing obligations may include a disclaimer noting the actual amount billed or owed may be different from the estimate of cost or cost-sharing. Nothing in this subsection shall be construed as violating any provider contract provisions with a health carrier that prohibits disclosure of a provider's fee schedule to third parties. Any health carrier that has not made a good faith effort to comply with the provisions of this section shall be subject to the provisions of section 374.280.

4. Programs of insurers that publicly assess and compare the quality and cost efficiency of health

care providers shall conform to the following criteria:

(1) The insurers shall retain, at their own expense, the services of a nationally recognized independent health care quality standard-setting organization to review the plan's programs for consumers that measure, report, and tier providers based on their performance. Such review shall include a comparison to national standards and a report detailing the measures and methodologies used by the health plan. The scope of the review shall encompass all elements described in this section and section 191.1008;

(2) The program measures shall provide performance information that reflects consumers' health needs. Programs shall clearly describe the extent to which they encompass particular areas of care, including primary care and other areas of specialty care;

(3) Performance reporting for consumers shall include both quality and cost efficiency information. While quality information may be reported in the absence of cost efficiency, cost efficiency information shall not be reported without accompanying quality information;

(4) When any individual measures or groups of measures are combined, the individual scores, proportionate weighting, and any other formula used to develop composite scores shall be disclosed. Such disclosure shall be done both when quality measures are combined and when quality and cost efficiency are combined;

(5) Consumers or consumer organizations shall be solicited to provide input on the program, including methods used to determine performance strata;

(6) A clearly defined process for receiving and resolving consumer complaints shall be a component of any program;

(7) Performance information presented to consumers shall include context, discussion of data limitations, and guidance on how to consider other factors in choosing a provider;

(8) Relevant providers and provider organizations shall be solicited to provide input on the program, including the methods used to determine performance strata;

(9) Providers shall be given reasonable prior notice before their individual performance information is publicly released;

(10) A clearly defined process for providers to request review of their own performance results and the opportunity to present information that supports what they believe to be inaccurate results, within a reasonable time frame, shall be a component of any program. Results determined to be inaccurate after the reconsideration process shall be corrected;

(11) Information about the comparative performance of providers shall be accessible and understandable to consumers and providers and shall recognize cost factors associated with medical education and research, patient characteristics, and specialized services;

(12) Information about factors that might limit the usefulness of results shall be publicly disclosed;

(13) Measures used to assess provider performance and the methodology used to calculate scores or determine rankings shall be published and made readily available to the public. Elements shall be assessed against national standards as defined in subdivision (17) of this subsection. Examples of

measurement elements that shall be assessed against national standards include risk and severity adjustment, minimum observations, and statistical standards utilized. Examples of other measurement elements that shall be fully disclosed include data used, how providers' patients are identified, measure specifications and methodologies, known limitations of the data, and how episodes are defined;

(14) The rationale and methodologies supporting the unit of analysis reported shall be clearly articulated, including a group practice model versus the individual provider;

(15) Sponsors of provider measurement and reporting shall work collaboratively to aggregate data whenever feasible to enhance its consistency, accuracy, and use. Sponsors of provider measurement and reporting shall also work collaboratively to align and harmonize measures used to promote consistency and reduce the burden of collection. The nature and scope of such efforts shall be publicly reported;

(16) The program shall be regularly evaluated to assess its effectiveness, accuracy, reliability, validity, and any unintended consequences, including any effect on access to health care;

(17) All quality measures shall be endorsed by the National Quality Forum (NQF), or its successor organization. Where NQF-endorsed measures do not exist, the next level of measures to be considered, until such measures are endorsed by the National Quality Forum (NQF), or its successor organization, shall be those endorsed by the Ambulatory Care Quality Alliance, the National Committee for Quality Assurance, or the Joint Commission on the Accreditation of Healthcare Organizations, Healthcare Effectiveness and Data Information Set (HEDIS);

(18) A health plan shall be deemed compliant with this section if the health plan currently offers a program that has been granted or awarded certification from the National Committee for Quality Assurance (NCQA) as of January 1, 2012. The health plan is deemed to be in compliance for the length of time the NCQA certification is granted; and

(19) A nonaccredited health plan shall be in compliance with this section upon a renewal of any contract with a provider on or after January 1, 2013.

191.1008. 1. Any person or entity who sells or otherwise distributes to the public health care quality and cost efficiency data for disclosure in comparative format to the public shall identify the measure source or evidence-based science behind the measure and the national consensus, multi-stakeholder, or other peer review process, if any, used to confirm the validity of the data and its analysis as an objective indicator of health care quality.

2. Articles or research studies on the topic of health care quality or cost efficiency that are published in peer-reviewed academic journals that neither receive funding from nor are affiliated with a health care insurer or by state or local government shall be exempt from the requirements of subsection 1 of this section.

3. (1) Upon receipt of a complaint of an alleged violation of this section by a person or entity other than a health carrier, the department of health and senior services shall investigate the complaint and, upon finding that a violation has occurred, shall be authorized to impose a penalty in an amount not

to exceed one thousand dollars. The department shall promulgate rules governing its processes for conducting such investigations and levying fines authorized by law.

(2) Any rule or portion of a rule, as that term is defined in section 536.010 that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2011, shall be invalid and void.

191.1011. All alleged violations of sections 191.1005 to 191.1008 by a health insurer shall be investigated and enforced by the department of insurance, financial institutions and professional registration under the department's powers and responsibilities to enforce the insurance laws of this state in accordance with chapter 374.”; and

Further amend said bill, page 3, section 338.550, line 17, by inserting after all of said line the following:

“374.184. 1. The director of the department of insurance, financial institutions and professional registration shall prescribe by rule[,];

(1) After due consultation with providers of health care or treatment and their respective licensing boards, [accident and sickness insurers, health services corporations and health maintenance organizations,] and after a public hearing, uniform claim forms for reporting by health care providers. Such prescribed forms shall include but need not be limited to information regarding the medical diagnosis, treatment and prognosis of the patient, together with the details of charges incident to the providing of such care, treatment or services, sufficient for the purpose of meeting the proof requirements of an accident and sickness insurance or hospital, medical or dental services contract. Such prescribed forms shall be based upon the UB-82 form, with respect to hospital claims, and the HCFA 1500 form, with respect to physician claims, as such forms are modified or amended from time to time by the National Uniform Billing Committee or the federal Health Care Financing Administration; **and**

(2) After due consultation with accident and sickness insurers, health services corporations, health maintenance organizations, and insurance producers, and after a public hearing, uniform application forms for group health insurance policies.

2. The adoption of any uniform claim forms **or uniform application forms** by the director pursuant to this section shall not preclude an insurer, health services corporation, or health maintenance organization from requesting any necessary additional information in connection with a claims investigation from the claimant, provider of health care or treatment, or certifier of coverage, **or in connection with an application for insurance from the applicant.** The provisions of this section shall not be deemed or construed to apply to electronic claims submission. Insurers and providers may by contract provide for modifications to the uniform billing document where both insurers and providers feel that such modifications streamline claims processing procedures relating to the claims of the insurer involved in such contract modification. However, a refusal by the provider to agree to modification of the uniform billing format shall not be used by the insurer as grounds for refusing to enter into a contract with the provider for

reimbursement or payment for health services rendered to an insured of the insurer.

3. Rules adopted or promulgated pursuant to this act shall be subject to notice and hearing as provided in chapter 536. The regulations so adopted shall specify an effective date, which shall not be less than one hundred eighty days after the date of adoption, after which no accident and sickness insurer, health services corporation or health maintenance organization shall require providers of health care or treatment to complete forms differing from those prescribed by the director pursuant to this section, [and] after which no health care provider shall submit claims except upon such prescribed forms; provided that the provisions of this section shall not preclude the use by any insurer, health services corporation or health maintenance organization of the UB-82 form or the HCFA 1500 form, **and after which no insurer shall require applicants for insurance coverage to complete forms differing from those prescribed by the director under this section.**”; and
