

Journal of the Senate

FIRST REGULAR SESSION

THIRTY-FOURTH DAY—TUESDAY, MARCH 12, 2013

The Senate met pursuant to adjournment.

President Kinder in the Chair.

Reverend Carl Gauck offered the following prayer:

“Death and life are in the power of the tongue.” (Proverbs 18:21)

Almighty God, we are thankful for this time to share ideas and assist and improve the bills before us. Our words have great importance and power for those we address our concerns and direct our efforts. We pray that You will guide our tongues, for we know they have the power to change one’s life simply by the words we speak. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

The Journal of the previous day was read and approved.

Senator Richard announced photographers from KRCG-TV and KOMU-TV were given permission to take pictures in the Senate Chamber.

CONCURRENT RESOLUTIONS

Senator Brown offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 13

WHEREAS, the Army 2020 Force Structure Realignment Programmatic Environmental Assessment (PEA) includes a plan to reduce the Army's end strength and realign its forces over the coming years which will affect 21 Army installations across the country, including Fort Leonard Wood in Missouri; and

WHEREAS, these Army reductions and realignments that may occur from Fiscal Year 2013-2020 will result in significant impacts to a variety of economic measures in communities neighboring these 21 installations; and

WHEREAS, the PEA specifically references the impact of force structure reductions at Fort Leonard Wood in Missouri, including reduction in employment, income, regional population, and sales; and

WHEREAS, Fort Leonard Wood currently has a permanent workforce of approximately 9,500 soldiers and Army civilians, not including trainees, students, family members, other service members, contractors, and non-full time employees; and

WHEREAS, the Programmatic Environmental Assessment proposes a loss of up to 3,900 of these soldiers and Army civilians, which is a loss of 41% of permanent staff and an added loss of 450 direct and 504 indirect jobs across the community; and

WHEREAS, the economic impact across the three-county region, as defined in the study, would be devastating. The study shows a loss of 8% in annual sales, 6.75% in tax revenue, 11.21% in employment, and 7.5% in population; and

WHEREAS, as the study notes, only a portion of the potential loss is considered in the study. The study states that there may also be a loss of 10% of training load and an unknown percentage of other services not factored into the analysis. With this additional loss, the overall loss would be catastrophic for the region; and

WHEREAS, the majority of the impact would be felt in Pulaski County, Missouri; and

WHEREAS, the study projects a loss of almost 3,700 K-12 school students in the region, with a majority of the loss in the Waynesville School District that provides K-12 schools on Fort Leonard Wood and the immediate vicinity; and

WHEREAS, Waynesville School District has approximately 6,000 students enrolled today. Assuming 85% of the loss in that school district, the district would realize a 52% loss of its current enrollment; and

WHEREAS, to continue to provide the highest level of quality education, the Waynesville School District has recently invested in several new facilities, a high school, elementary school, and career center. These facilities are heavily dependent on continuing federal impact aid for construction bond funding. Based on the projected level of impact aid loss, the district would be placed in serious financial jeopardy; and

WHEREAS, the impact of these losses would be felt not only in the communities surrounding Fort Leonard Wood, but the entire State of Missouri. The full impact of the state if the troop reduction goes forward has yet to be determined, but it is certain it would be significant,

because Fort Leonard Wood is one of the largest employers in the State of Missouri; and

WHEREAS, Fort Leonard Wood is an important asset for the Army and the Department of Defense through pioneering the concepts of multiple schools at one location, and multi-service training and education; and

WHEREAS, the Army has made a multi-billion dollar investment in new infrastructure at the installation and its operating costs are among the lowest in the country. Fort Leonard Wood should be considered for additional mission growths, not reductions; and

WHEREAS, final decisions will be made over the next several years. The projected \$233 million in economic loss and 6,441 jobs affected as a result of the proposed Army reductions will have a significant impact to the State of Missouri and catastrophic to the region:

NOW, THEREFORE, BE IT RESOLVED by the members of the Missouri Senate, Ninety-seventh General Assembly, First Regular Session, the House of Representatives concurring therein, hereby strongly urge the Department of Defense to reconsider the reduction and realignment of Army forces at Fort Leonard Wood, Missouri, and continue full operation at this installation, which has one of the lowest installation operating costs in the country; and

BE IT FURTHER RESOLVED that the Secretary of the Senate be instructed to prepare a properly inscribed copy of this resolution for the Secretary of the United States Department of Defense, the United States Army Environment Command, and each member of the Missouri Congressional delegation.

Senator Lamping moved that **SCR 5**, with **SCS**, be taken up for adoption, which motion prevailed.
