Bless us this week to work diligently with one another, and grant us wisdom to discern what is brought before us. Let us be supportive of each other, and helpful in our discussion so that Your will is made complete through us. In Your Holy Name we pray. Amen.

MESSAGES FROM THE HOUSE

The following messages were received from the House of Representatives through its Chief Clerk:

Mr. President: I am instructed by the House of Representatives to inform the Senate that the House has taken up and adopted **HCR 5**.

HOUSE CONCURRENT RESOLUTION NO. 5

WHEREAS, the United States is still many years away from ending its dependency on nonrenewable resources despite recent focus on renewable energy. In order to fuel our economy, the United States will need more oil and natural gas, while also requiring additional alternative energy sources like ethanol and other renewables; and

WHEREAS, the United States currently depends on foreign imports for more than half of our petroleum usage. As the largest consumer of petroleum in the world, our dependence on foreign oil has created difficult geopolitical relationships with damaging consequences for our national security; and

WHEREAS, Canadian oil reserves are vast and are second only to Saudi Arabia, using current measurements. Oil sands now account for

more than half of western Canada's total oil output; and

WHEREAS, a recent study by the United States Department of Energy found that growing Canadian oil sands importation by the United States has the potential to substantially reduce the United States' dependency on sources outside of North America; and

WHEREAS, Canada is a friendly neighbor with whom the United States has an excellent trading and political relationship. Canada sends more than 99% of its oil exports to the United States, the bulk of which goes to Midwestern refineries. Canadian oil sands provide greater fuel supply reliability and reduce the risk of supply disruptions to consumers; and

WHEREAS, oil companies are investing large sums to expand and upgrade refineries in the Midwest and elsewhere to make gasoline and other refined products from the Canadian oil derived from oil sands; and

WHEREAS, some of the money used to buy Canadian oil will likely later be spent on imported U.S. goods and services, contrasting with the money sent to hostile oil-producing governments which may then be used to further anti-Western agendas; and

WHEREAS, supporting the continued shift towards reliable and secure sources of Canadian oil is of vital interest to the United States and the State of Missouri:

NOW THEREFORE BE IT RESOLVED that the members of the House of Representatives of the Ninety-seventh General Assembly, Second Regular Session, the Senate concurring therein, hereby:

- (1) Support continued and increased importation of Canadian oil sands;
- (2) Urge Congress to support continued and increased importation of Canadian oil sands;
- (3) Urge Congress to ask the United States Secretary of State to approve the TransCanada Keystone Coast Expansion pipeline project that has been awaiting a presidential permit since 2008 to reduce dependence on unstable governments, improve our national security, and strengthen ties with an important ally; and

BE IT FURTHER RESOLVED that the Chief Clerk of the Missouri House of Representatives be instructed to prepare properly inscribed copies of this resolution for each member of the Missouri Congressional delegation.

In which the concurrence of the Senate is respectfully requested.

Also,

Mr. President: I am instructed by the House of Representatives to inform the Senate that the House has taken up and adopted **HCR 11**.

HOUSE CONCURRENT RESOLUTION NO. 11

WHEREAS, women have served honorably and with courage in all of America's wars and conflicts since the American Revolution; and

WHEREAS, the United States military has evolved from a predominantly male force to a force of over 14% women who are currently serving on active duty, and nearly 17% serving in the Reserves and National Guard; and

WHEREAS, the population of women veterans is increasing exponentially from 1.1 million in 1980 to a projection of nearly 2 million by 2020, and will comprise more than 10% of the veteran population; and

WHEREAS, the projected population of male veterans is expected to continue to decline; and

WHEREAS, given that an unprecedented number of women are serving in the military and participating in Operation Enduring Freedom and Operation Iraqi Freedom, the United States Department of Veterans Affairs (VA) is working to provide consistent, comprehensive, and quality health care and benefits to women veterans of all eras; and

WHEREAS, the number of women veterans has increased over the last decade because there is an increasing number and proportion of women who are entering and leaving the military, and women are living longer than men and have a younger age distribution compared to male veterans; and

WHEREAS, even though the VA has been at the forefront of health care and lifestyle solutions affecting an aging male population, there is now a growing need to improve health care services for women veterans, ensure clinicians are properly trained to provide primary care and gender specific care to women of all ages, and identify innovative courses of treatment and solutions to obstacles that are unique to women veterans; and

WHEREAS, with a rapidly increasing number of women serving in the military today and returning from deployments as seasoned veterans, and some with exposure to combat, VA facilities and veterans service organizations are working to ensure that the post-deployment mental and physical health needs unique to women veterans are also met; and

WHEREAS, even though the roles of women in the military have changed over time and will continue to change, they deserve to be acknowledged for their military service and treated with equal respect:

NOW THEREFORE BE IT RESOLVED that we, the members of the Missouri House of Representatives, Ninety-seventh General Assembly, Second Regular Session, the Senate concurring therein, hereby encourages the Missouri Veterans Commission and its women veterans state coordinator to work in conjunction with the Center for Women Veterans at the United States Department of Veterans Affairs to reach out to all women veterans within the State of Missouri to encourage them to bring their specific needs and concerns to the attention of agency officials so that state legislators and agency officials may work together to identify unique issues impacting women veterans and consider policy solutions that will improve the quality of life for women veterans within this state; and

BE IT FURTHER RESOLVED that the Missouri General Assembly formally honors all of the women in this state who have heroically answered their call to duty and recognizes the important role women have played in shaping this great nation; and

BE IT FURTHER RESOLVED that the Chief Clerk of the Missouri House of Representatives be instructed to prepare a properly inscribed copy of this resolution for the Missouri Veterans Commission.

In which the concurrence of the Senate is respectfully requested.

Also,

Mr. President: I am instructed by the House of Representatives to inform the Senate that the House has taken up and adopted **HCS** for **HCR 20**.

HOUSE COMMITTEE SUBSTITUTE FOR
HOUSE CONCURRENT RESOLUTION NO. 20

WHEREAS, the total economic impact of agricultural sectors in Missouri is over \$31.4 billion annually and contributes to our nation's robust agricultural tradition; and

WHEREAS, Missouri's production of corn, cotton, and soybeans alone is valued at more than \$3.7 billion per year, with nearly 80 percent of corn and cotton and 50 percent of soybeans exported annually; and

WHEREAS, these yields are threatened due to no less than six weed species having developed glyphosate resistance throughout important agricultural counties in the state; and

WHEREAS, without access to new modes of action, farmers soon will be forced to revert to outdated, costly, and environmentally unsustainable farming practices to manage weeds such as tillage and weeding by hand; and

WHEREAS, crops tolerant to 2,4-D and dicamba represent new technologies that will inhibit herbicide-resistant weeds from reducing crop yields in Missouri and allow farmers to employ ecological and economical farming practices; and

WHEREAS, these new seed technologies have been under review by the United States Department of Agriculture (USDA) and Environmental Protection Agency (EPA) for three to four years or more; and

WHEREAS, these delays by federal regulatory agencies put Missouri farmers at a competitive disadvantage in the global marketplace as Canada and Brazil have already approved some of these crops; and

WHEREAS, American farmers also must have access to these same tools to provide a livelihood to their families and ensure that Missouri remains a top agricultural producing state:

NOW, THEREFORE, BE IT RESOLVED that the members of the House of Representatives of the Ninety-seventh General Assembly, Second Regular Session, the Senate concurring therein, hereby request the United States Congress to urge the USDA and EPA to quickly approve 2,4-D and dicamba tolerant crops to allow Missouri farmers fair access to needed advancements in agriculture; and

BE IT FURTHER RESOLVED that the Chief Clerk of the Missouri House of Representatives be instructed to prepare a properly inscribed copy of this resolution for the Majority and Minority Leaders of the United States Senate and the United States House of Representatives and each member of the Missouri Congressional delegation.

In which the concurrence of the Senate is respectfully requested.
