**SENATE AMENDMENT NO. 1**

Amend House Bill No. 515, Page 1, In the Title, Line 3, by striking the word “police” and inserting in lieu thereof the following: “local government”; and

Further amend said bill, page 4, section 86.200, line 114, by inserting immediately after said line the following:

“86.207. 1. **Except as provided herein**, all persons who become policemen and all policemen who enter or reenter the service of [the] **any city not within a county** after the first day of October, 1957, become members as a condition of their employment and shall receive no pensions or retirement allowance from any other pension or retirement system supported wholly or in part by the city **not within a county** or the state of Missouri, nor shall they be required to make contributions under any other pension or retirement system of the city **not within a county** or the state of Missouri **for the same period of service**, anything to the contrary notwithstanding. **Any employee of a city not within a county who is earning creditable service in a retirement plan established by said city under section 95.540 and subsequently becomes a policeman may elect to remain a member of said retirement plan and shall not be required to become a member of a police retirement system established under section 86.200. However, an employee of a city not within a county who is earning creditable service in a retirement plan established by said city under section 95.540 and who subsequently becomes a policeman may elect to transfer membership and creditable service to the police retirement system created under section 86.200. Such transfers are subject to the conditions and requirements contained in section 105.691 and are also subject to any existing agreements between the said retirement plans; provided however, transfers completed prior to January 1, 2016, shall occur without regard to the vesting requirements of the receiving plan contained in section 105.691. As part of the transfer process described herein, the respective retirement plans may require the employee to acknowledge and agree as a condition of transfer that any election made under this section is irrevocable, constitutes a waiver of any right to receive retirement and disability benefits except as provided by the police retirement system, and that plan terms may be modified in the future.**

2. If any member ceases to be in service for more than one year unless the member has attained the age of fifty-five or has twenty years or more of creditable service, or if the member withdraws the member’s accumulated contributions or if the member receives benefits under the retirement system or dies, the member thereupon ceases to be a member; except in the case of a member who has served in the Armed Forces of the United States and has subsequently been reinstated as a policeman. A member who has terminated employment as a police officer, has actually retired and is receiving retirement benefits under the system shall be considered a retired member.

3. A reserve officer shall not be considered a member of the system for the purpose of determining

creditable service, nor shall any contributions be due. A reserve officer shall not be entitled to any benefits from the system other than those awarded when the reserve officer originally retired under section 86.250, nor shall service as a reserve officer prohibit distribution of those benefits.”; and

SENATE AMENDMENT NO. 2

Amend House Bill No. 515, Page 13, Section 86.320, Line 22, by inserting after all of said line the following:

“86.1110. 1. Whenever a member is given a leave of absence for military service and returns to employment after discharge from the service, such member shall be entitled to creditable service for the years of employment prior to the leave of absence.

2. Except as provided in subsection 3 of this section, a member who served on active duty in the Armed Forces of the United States and who became a member, or returned to membership, after discharge under honorable conditions, may elect prior to retirement to purchase creditable service equivalent to such service in the Armed Forces, not to exceed two years, provided the member is not receiving and is not eligible to receive retirement credits or benefits from any other public or private retirement plan for the service to be purchased, other than a United States military service retirement system or United States Social Security benefits attributable to such military service, and an affidavit so stating is filed by the member with the retirement system. A member electing to make such purchase shall pay to the retirement system an amount equal to the actuarial cost of the additional benefits attributable to the additional service credit to be purchased, as of the date the member elects to make such purchase. Payment in full of the amount due from a member electing to purchase creditable service under this subsection shall be made over a period not to exceed five years, measured from the date of election, or prior to the commencement date for payment of benefits to the member from the retirement system, whichever is earlier, including interest on unpaid balances compounded annually at the interest rate assumed from time to time for actuarial valuations of the retirement system. If payment in full including interest is not made within the prescribed period, any partial payments made by the member shall be refunded, and no creditable service attributable to such election, or as a result of any such partial payments, shall be allowed; provided that if a benefit commencement date occurs because of the death or disability of a member who has made an election under this subsection and if the member is current in payments under an approved installment plan at the time of the death or disability, such election shall be valid if the member, the surviving spouse, or other person entitled to benefit payments pays the entire balance of the remaining amount due, including interest to the date of such payment, within sixty days after the member’s death or disability. The time of a disability shall be deemed to be the time when such member is retired by the board of police commissioners for reason of disability as provided in sections 86.900 to 86.1280.

3. Notwithstanding any other provision of sections 86.900 to 86.1280, **on or after August 28, 2015**, a member who [is on leave of absence for military service during any portion of which leave the United States is in a state of declared war, or a compulsory draft is in effect for any of the military branches of the United States, or any units of the military reserves of the United States, including the National Guard, are mobilized for combat military operations,] **returns to service from a leave of absence for active duty military**

**service** and who becomes entitled to reemployment rights and other employment benefits under Title 38, Chapter 43 of the U.S. Code, relating to employment and reemployment rights of members of the uniformed services by meeting the requirements for such rights and benefits under Section 4312 of said chapter, or the corresponding provisions of any subsequent applicable federal statute, shall be entitled to service credit for the time spent in such military service for all purposes of sections 86.900 to 86.1280 [and such member shall not be required to pay any member contributions for such time. If it becomes necessary for the years of such service to be included in the calculation of such member's compensation for any purpose, such member shall be deemed to have received the same compensation throughout such period of service as the member's base annual salary immediately prior to the commencement of such leave of absence; provided, however, that the foregoing provisions of this subsection shall apply only to such portion of such leave with respect to which the cumulative length of the absence and of all previous absences from a position of employment with the employer by reason of service in the uniformed services does not exceed five years except for such period of any such excess as meets the requirements for exceptions to such five-year limitation set forth in the aforesaid Section 4312] **only to the extent such member pays any required member contributions for such time. The amount of required member contributions shall be calculated on the base compensation the member would have received during such leave period. The total amount of service credit that will be granted at the member contribution rate is limited to a maximum of five years. The retirement board may waive the required contributions for military leave of absence, not to exceed three years of creditable service, if the member provides duty orders under Title 10 or Title 32 U.S.C. and discharge from active duty documentation in the form of a DD214 or NGB23.**

86.1270. 1. A retirement plan under sections 86.900 to 86.1280 is a qualified plan under the provisions of applicable federal law. The benefits and conditions of a retirement plan under sections 86.900 to 86.1280 shall always be adjusted to ensure that the tax-exempt status is maintained.

2. The retirement board shall administer the retirement system in a manner as to retain at all times qualified status under Section 401(a) of the Internal Revenue Code.

3. The retirement board shall hold in trust the assets of the retirement system for the exclusive benefit of the members and their beneficiaries and for defraying reasonable administrative expenses of the system. No part of such assets shall, at any time prior to the satisfaction of all liabilities with respect to members and their beneficiaries, be used for or diverted to any purpose other than such exclusive benefit or to any purpose inconsistent with sections 86.900 to 86.1280.

4. A member's benefit shall be one hundred percent vested and nonforfeitable upon the member's attainment of normal retirement age, which shall be the earlier of:

(1) Completion of twenty-five years of service for Tier I members and twenty-seven years of service for Tier II members;

(2) Age sixty for any Tier I member who has completed at least ten years of creditable service or age sixty for any Tier II member who has completed at least fifteen years of creditable service;

(3) Age seventy without regard to years of service; or

(4) To the extent funded, upon the termination of the system established under sections 86.900 to 86.1280 or any partial termination which affects the members or any complete discontinuance of contributions by the city to the system. Amounts representing forfeited nonvested benefits of terminated members shall not be used to increase benefits payable from the system but may be used to reduce

contributions for future plan years.

5. Distribution of benefits shall begin not later than April first of the year following the later of the calendar year during which the member becomes seventy and one-half years of age or the calendar year in which the member retires, and shall otherwise conform to Section 401(a)(9) of the Internal Revenue Code.

6. A member or beneficiary of a member shall not accrue a service retirement annuity, disability retirement annuity, death benefit, whether death occurs in the line of duty or otherwise, or any other benefit under sections 86.900 to 86.1280 in excess of the benefit limits applicable to the fund under Section 415 of the Internal Revenue Code. The retirement board shall reduce the amount of any benefit that exceeds those limits by the amount of the excess. If the total benefits under the retirement system and the benefits and contributions to which any member is entitled under any other qualified plan or plans maintained by the board of police commissioners that employs the member would otherwise exceed the applicable limits under Section 415 of the Internal Revenue Code, the benefits the member would otherwise receive from the retirement system shall be reduced to the extent necessary to enable the benefits to comply with Section 415 of the Internal Revenue Code.

7. The total salary taken into account for any purpose for any member of the retirement system shall not exceed two hundred thousand dollars per year, subject to periodic adjustments in accordance with guidelines provided by the United States Secretary of the Treasury, and shall not exceed such other limits as may be applicable at any given time under Section 401(a)(17) of the Internal Revenue Code.

8. If the amount of any benefit is to be determined on the basis of actuarial assumptions that are not otherwise specifically set forth for that purpose in sections 86.900 to 86.1280, the actuarial assumptions to be used are those earnings and mortality assumptions being used on the date of the determination by the retirement system's actuary and approved by the retirement board. The actuarial assumptions being used at any particular time shall be attached as an addendum to a copy of the retirement system's statute that is maintained by the retirement board and shall be treated for all purposes as a part of sections 86.900 to 86.1280. The actuarial assumptions may be changed by the retirement system's actuary annually if approved by the retirement board, but a change in actuarial assumptions shall not result in any decrease in benefits accrued as of the effective date of the change.

9. Any member or beneficiary who is entitled to receive any distribution that is an eligible rollover distribution, as defined by Section 402(c)(4) of the Internal Revenue Code, is entitled to have that distribution transferred directly to another eligible retirement plan of the member's or beneficiary's choice upon providing direction to the secretary of this retirement system regarding the transfer in accordance with procedures established by the retirement board. **Effective for distributions made on or after January 1, 2010, a nonspouse beneficiary may elect to directly rollover an eligible rollover distribution to an individual retirement account under Section 408(a) of the Internal Revenue Code of 1986, as amended; to an individual retirement annuity under Section 408(b) of the Internal Revenue Code of 1986, as amended; or if the participant satisfies the requirements for making a Roth contribution under Section 408(A)(c)(3)(B) of the Internal Revenue Code of 1986, as amended, to a Roth individual retirement account.**

10. For all distributions made after December 31, 2001:

(1) For the purposes of subsection 9 of this section, an eligible retirement plan shall also mean an annuity contract described in Section 403(b) of the Internal Revenue Code and an eligible plan under Section 457(b) of the Internal Revenue Code which is maintained by the state, political subdivision of a

state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from the retirement system. The definition of eligible retirement plan shall also apply in the case of a distribution to a surviving spouse or to a spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in Section 414(p) of the Internal Revenue Code; and

(2) For purposes of subsection 9 of this section, a portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions which are not includable in gross income. However, such portion may be paid only to an individual retirement account or annuity described in Section 408(a) or 408(b) of the Internal Revenue Code, or to a qualified defined contribution plan described in Section 401(a) or 403(a) of the Internal Revenue Code that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution that is includable in gross income and the portion of such distribution that is not so includable.

86.1500. 1. Whenever a member is given a leave of absence for military service and returns to employment after discharge from the service, such member shall be entitled to creditable service for the years of employment prior to the leave of absence.

2. Except as provided in subsection 3 of this section, a member who served on active duty in the Armed Forces of the United States and who became a member, or returned to membership, after discharge under honorable conditions, may elect prior to retirement to purchase creditable service equivalent to such service in the Armed Forces, not to exceed two years, provided the member is not receiving and is not eligible to receive retirement credits or benefits from any other public or private retirement plan for the service to be purchased, other than a United States military service retirement system or United States Social Security benefits attributable to such military service, and an affidavit so stating is filed by the member with the retirement system. A member electing to make such purchase shall pay to the retirement system an amount equal to the actuarial cost of the additional benefits attributable to the additional service credit to be purchased, as of the date the member elects to make such purchase. Payment in full of the amount due from a member electing to purchase creditable service under this subsection shall be made over a period not to exceed five years, measured from the date of election, or prior to the commencement date for payment of benefits to the member from the retirement system, whichever is earlier, including interest on unpaid balances compounded annually at the interest rate assumed from time to time for actuarial valuations of the retirement system. If payment in full including interest is not made within the prescribed period, any partial payments made by the member shall be refunded, and no creditable service attributable to such election, or as a result of any such partial payments, shall be allowed; provided that if a benefit commencement date occurs because of the death or disability of a member who has made an election under this subsection and if the member is current in payments under an approved installment plan at the time of the death or disability, such election shall be valid if the member, the surviving spouse or other person entitled to benefit payments pays the entire balance of the remaining amount due, including interest to the date of such payment, within sixty days after the member's death or disability. The time of a disability shall be deemed to be the time when such member is determined by the retirement board to be totally and permanently disabled as provided in section 86.1560.

3. Notwithstanding any other provision of sections 86.1310 to 86.1640, **on or after August 28, 2015**, a member who [is on leave of absence for military service during any portion of which leave the United States is in a state of declared war, or a compulsory draft is in effect for any of the military branches of the United States, or any units of the military reserves of the United States, including the National Guard, are

mobilized for combat military operations,] **returns to service from a leave of absence for active duty military service** and who becomes entitled to reemployment rights and other employment benefits under Title 38, Chapter 43 of the U.S. Code, relating to employment and reemployment rights of members of the uniformed services by meeting the requirements for such rights and benefits under Section 4312 of said chapter, or the corresponding provisions of any subsequent applicable federal statute, shall be entitled to service credit for the time spent in such military service for all purposes of sections 86.1310 to 86.1640 [and such member shall not be required to pay any member contributions for such time. If it becomes necessary for the years of such service to be included in the calculation of such member's compensation for any purpose, such member shall be deemed to have received the same compensation throughout such period of service as the member's base annual salary immediately prior to the commencement of such leave of absence; provided, however, that the foregoing provisions of this subsection shall apply only to such portion of such leave with respect to which the cumulative length of the absence and of all previous absences from a position of employment with the employer by reason of service in the uniformed services does not exceed five years except for such period of any such excess as meets the requirements for exceptions to such five-year limitation set forth in the aforesaid Section 4312] **only to the extent such member pays any required member contributions for such time. The amount of required member contributions shall be calculated on the base compensation the member would have received during such leave period. The total amount of service credit that will be granted at the member contribution rate is limited to a maximum of five years. The retirement board may waive the required contributions for military leave of absence, not to exceed three years of creditable service, if the member provides duty orders under Title 10 or Title 32 U.S.C. and discharge from active duty documentation in the form of a DD214 or NGB23.**

86.1630. 1. A retirement plan under sections 86.1310 to 86.1640 is a qualified plan under the provisions of applicable federal law. The benefits and conditions of a retirement plan under sections 86.1310 to 86.1640 shall always be adjusted to ensure that the tax-exempt status is maintained.

2. The retirement board shall administer this retirement system in such manner as to retain at all times qualified status under Section 401(a) of the Internal Revenue Code.

3. The retirement board shall hold in trust the assets of the retirement system for the exclusive benefit of the members and their beneficiaries and for defraying reasonable administrative expenses of the system. No part of such assets shall, at any time prior to the satisfaction of all liabilities with respect to members and their beneficiaries, be used for or diverted to any purpose other than such exclusive benefit or to any purpose inconsistent with sections 86.1310 to 86.1640.

4. A member's benefit shall be one hundred percent vested and nonforfeitable upon the member's attainment of normal retirement age, which shall be the earlier of:

(1) The attaining of the age of sixty-five or the member's tenth anniversary of employment, whichever is later for any Tier I member, or the attaining of the age of sixty-seven or the member's twentieth anniversary of employment, whichever is later for any Tier II member;

(2) For any Tier I member when the total sum of age and years of creditable service equals or exceeds eighty, or for any Tier II member when the total sum of age and years of creditable service equals or exceeds eighty-five; or

(3) To the extent funded, upon the termination of the system established under sections 86.1310 to 86.1640 or any partial termination which affects the member or any complete discontinuance of

contributions by the city to the system. Amounts representing forfeited nonvested benefits of terminated members shall not be used to increase benefits payable from the system but may be used to reduce contributions for future plan years.

5. Distribution of benefits shall begin not later than April first of the year following the later of the calendar year during which the member becomes seventy and one-half years of age or the calendar year in which the member retires, and shall otherwise conform to Section 401(a)(9) of the Internal Revenue Code.

6. A member or beneficiary of a member shall not accrue a service retirement annuity, disability retirement annuity, death benefit, whether death occurs in the line of duty or otherwise, or any other benefit under sections 86.1310 to 86.1640 in excess of the benefit limits applicable to the fund under Section 415 of the Internal Revenue Code. The retirement board shall reduce the amount of any benefit that exceeds the limits of this section by the amount of the excess. If the total benefits under the retirement system and the benefits and contributions to which any member is entitled under any other qualified plan or plans maintained by the board of police commissioners that employs the member would otherwise exceed the applicable limits under Section 415 of the Internal Revenue Code, the benefits the member would otherwise receive from the retirement system are reduced to the extent necessary to enable the benefits to comply with Section 415 of the Internal Revenue Code.

7. The total salary taken into account for any purpose for any member of the retirement system shall not exceed two hundred thousand dollars per year, subject to periodic adjustments in accordance with guidelines provided by the United States Secretary of the Treasury and may not exceed such other limits as may be applicable at any given time under Section 401(a)(17) of the Internal Revenue Code.

8. If the amount of any benefit is determined on the basis of actuarial assumptions that are not specifically set forth for that purpose in sections 86.1310 to 86.1640, the actuarial assumptions to be used are those earnings and mortality assumptions used on the date of the determination by the retirement system's actuary and approved by the retirement board. The actuarial assumptions used at any particular time shall be attached as an addendum to a copy of the retirement system's statute maintained by the retirement board and shall be treated for all purposes as part of sections 86.1310 to 86.1640. The actuarial assumptions may be changed by the retirement system's actuary annually if approved by the retirement board, but a change in actuarial assumptions shall not result in any decrease in benefits accrued as of the effective date of the change.

9. Any member or beneficiary who is entitled to receive any distribution that is an eligible rollover distribution, as defined by Section 402(c)(4) of the Internal Revenue Code, is entitled to have that distribution transferred directly to another eligible retirement plan of the member's or beneficiary's choice upon providing direction to the secretary of the retirement system regarding the transfer in accordance with procedures established by the retirement board. **Effective for distributions made on or after January 1, 2010, a nonspouse beneficiary may elect to directly rollover an eligible rollover distribution to an individual retirement account under Section 408(a) of the Internal Revenue Code of 1986, as amended; to an individual retirement annuity under Section 408(b) of the Internal Revenue Code of 1986, as amended; or if the participant satisfies the requirements for making a Roth contribution under Section 408(A)(c)(3)(B) of the Internal Revenue Code of 1986, as amended, to a Roth individual retirement account.**

10. For all distributions made after December 31, 2001:

(1) For the purposes of subsection 9 of this section, an eligible retirement plan shall also mean an annuity described in Section 403(b) of the Internal Revenue Code and an eligible plan under Section 457(b) of the Internal Revenue Code that is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from the retirement system. The definition for eligible retirement plan shall also apply in the case of a distribution to a surviving spouse or to a spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in Section 414(p) of the Internal Revenue Code; and

(2) For the purposes of subsection 9 of this section, a portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions which are not includable in gross income. However, such portion may be paid only to an individual retirement account or annuity described in Section 408(a) or 408(b) of the Internal Revenue Code, or to a qualified defined contribution plan described in Section 401(a) or 403(a) of the Internal Revenue Code that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution that is includable in gross income and the portion of such distribution that is not so includable.”; and

**SENATE AMENDMENT NO. 2**

Amend Senate Bill No. 497, Page 4, Section 67.955, Line 11, by inserting immediately after all of said line the following:

“644.145. 1. When issuing permits under this chapter that incorporate a new requirement for discharges from publicly owned combined or separate sanitary or storm sewer systems or **water or sewer** treatment works, or when enforcing provisions of this chapter or the Federal Water Pollution Control Act, 33 U.S.C. Section 1251, et seq., pertaining to any portion of a publicly owned combined or separate sanitary or storm sewer system or **water or sewer** treatment works, the department of natural resources shall make a finding of affordability on the costs to be incurred and the impact of any rate changes on ratepayers upon which to base such permits and decisions, to the extent allowable under this chapter and the Federal Water Pollution Control Act.

2. (1) The department of natural resources shall not be required under this section to make a finding of affordability when:

(a) Issuing collection system extension permits;

(b) Issuing National Pollution Discharge Elimination System operating permit renewals which include no new environmental requirements; or

(c) The permit applicant certifies that the applicable requirements are affordable to implement or otherwise waives the requirement for an affordability finding; however, at no time shall the department require that any applicant certify, as a condition to approving any permit, administrative or civil action, that a requirement, condition, or penalty is affordable.

(2) The exceptions provided under paragraph (c) of subdivision (1) of this subsection do not apply when the community being served has less than three thousand three hundred residents.

3. When used in this chapter and in standards, rules and regulations promulgated pursuant to this chapter, the following words and phrases mean:

(1) “Affordability”, with respect to payment of a utility bill, a measure of whether an individual customer or household with an income equal to [the] **or** lower [of] **than** the median household income for their community [or the state of Missouri] can pay the bill without undue hardship or unreasonable sacrifice in the essential lifestyle or spending patterns of the individual or household, taking into consideration the criteria described in subsection 4 of this section;

(2) “Financial capability”, the financial capability of a community to make investments necessary to make water quality-related improvements;

(3) “Finding of affordability”, a department statement as to whether an individual or a household

receiving as income an amount equal to [the] **or** lower [of] **than** the median household income for the applicant community [or the state of Missouri] would be required to make unreasonable sacrifices in [their] **the individual's or the household's** essential lifestyle or spending patterns or undergo hardships in order to make the projected monthly payments for sewer services. The department shall make a statement that the proposed changes meet the definition of affordable, or fail to meet the definition of affordable, or are implemented as a federal mandate regardless of affordability.

4. The department of natural resources shall adopt procedures by which it will make affordability findings that evaluate the affordability of permit requirements and enforcement actions described in subsection 1 of this section, and may begin implementing such procedures prior to promulgating implementing regulations. The commission shall have the authority to promulgate rules to implement this section pursuant to chapters 536 and 644, and shall promulgate such rules as soon as practicable. Affordability findings shall be based upon reasonably verifiable data and shall include an assessment of affordability with respect to persons or entities affected. The department shall offer the permittee an opportunity to review a draft affordability finding, and the permittee may suggest changes and provide additional supporting information, subject to subsection 6 of this section. The finding shall be based upon the following criteria:

- (1) A community's financial capability and ability to raise or secure necessary funding;
- (2) Affordability of pollution control options for the individuals or households at or below the median household income level of the community;
- (3) An evaluation of the overall costs and environmental benefits of the control technologies;
- (4) Inclusion of ongoing costs of operating and maintaining the existing wastewater collection and treatment system, including payments on outstanding debts for wastewater collection and treatment systems when calculating projected rates;
- (5) An inclusion of ways to reduce economic impacts on distressed populations in the community, including but not limited to low- and fixed-income populations. This requirement includes but is not limited to:
  - (a) Allowing adequate time in implementation schedules to mitigate potential adverse impacts on distressed populations resulting from the costs of the improvements and taking into consideration local community economic considerations; and
  - (b) Allowing for reasonable accommodations for regulated entities when inflexible standards and fines would impose a disproportionate financial hardship in light of the environmental benefits to be gained;
- (6) An assessment of other community investments and operating costs relating to environmental improvements and public health protection;
- (7) An assessment of factors set forth in the United States Environmental Protection Agency's guidance, including but not limited to the "Combined Sewer Overflow Guidance for Financial Capability Assessment and Schedule Development" that may ease the cost burdens of implementing wet weather control plans, including but not limited to small system considerations, the attainability of water quality standards, and the development of wet weather standards; and
- (8) An assessment of any other relevant local community economic condition.

5. Prescriptive formulas and measures used in determining financial capability, affordability, and

thresholds for expenditure, such as median household income, should not be considered to be the only indicator of a community's ability to implement control technology and shall be viewed in the context of other economic conditions rather than as a threshold to be achieved.

6. Reasonable time spent preparing draft affordability findings, allowing permittees to review draft affordability findings or draft permits, or revising draft affordability findings, shall be allowed in addition to the department's deadlines for making permitting decisions pursuant to section 644.051.

7. If the department of natural resources fails to make a finding of affordability where required by this section, then the resulting permit or decision shall be null, void and unenforceable.

8. The department of natural resources' findings under this section may be appealed to the commission pursuant to subsection 6 of section 644.051.

9. The department shall file an annual report by the beginning of the fiscal year with the governor, the speaker of the house of representatives, the president pro tempore of the senate, and the chairs of the committees in both houses having primary jurisdiction over natural resource issues showing at least the following information on the findings of affordability completed in the previous calendar year:

(1) The total number of findings of affordability issued by the department, those categorized as affordable, those categorized as not meeting the definition of affordable, and those implemented as a federal mandate regardless of affordability;

(2) The average increase in sewer rates both in dollars and percentage for all findings found to be affordable;

(3) The average increase in sewer rates as a percentage of median house income in the communities for those findings determined to be affordable and a separate calculation of average increases in sewer rates for those found not to meet the definition of affordable;

(4) A list of all the permit holders receiving findings, and for each permittee the following data taken from the finding of affordability shall be listed:

(a) Current and projected monthly residential sewer rates in dollars;

(b) Projected monthly residential sewer rates as a percentage of median [house] **household** income;

(c) Percentage of households at or below the state poverty rate."; and
