(5) Additional criteria that the sponsor will use for ongoing oversight of the charter; and

(6) Procedures to be implemented if a charter school should close, consistent with the provisions of subdivision (15) of subsection 1 of section 160.405.

The department shall provide guidance to sponsors in developing such policies and procedures.

Nothing shall preclude the department from undertaking an evaluation at any time for cause.

(2) If the department determines that a sponsor is in material noncompliance with its sponsorship duties, the sponsor shall be notified and given reasonable time for remediation. If remediation does not address the compliance issues identified by the department, the commissioner of education
shall conduct a public hearing and thereafter provide notice to the charter sponsor of corrective action that will be recommended to the state board of education. Corrective action by the department may include withholding the sponsor's funding and suspending the sponsor's authority to sponsor a school that it currently sponsors or to sponsor any additional school until the sponsor is reauthorized by the state board of education under section 160.403.

(3) The charter sponsor may, within thirty days of receipt of the notice of the commissioner's recommendation, provide a written statement and other documentation to show cause as to why that action should not be taken. Final determination of corrective action shall be determined by the state board of education based upon a review of the documentation submitted to the department and the charter sponsor.

(4) If the state board removes the authority to sponsor a currently operating charter school under any provision of law, the Missouri charter public school commission shall become the sponsor of the school.

18. If a sponsor notifies a charter school of closure under subsection 8 of section 160.405, the department of elementary and secondary education shall exercise its financial withholding authority under subsection 12 of section 160.415 to assure all obligations of the charter school shall be met. (4) Nonresident pupils who are residents of Missouri and have at least one parent employed by the charter school at which the nonresident pupil is seeking enrollment unless the pupil's enrollment will cause a resident student to be denied enrollment;

(5) Nonresident pupils from the same or an adjoining county who were enrolled in and attended an unaccredited school for at least one semester immediately prior to requesting the transfer and who were...
unable to transfer to an accredited school within their district of residence as provided in section 167.826, provided the school is an approved charter school, as defined in section 167.848, and subject to all other provisions of section 167.826;

(6) In the case of a charter school whose mission includes student drop-out prevention or recovery, any nonresident pupil from the same or an adjacent county who resides in a residential care facility, a transitional living group home, or an independent living program whose last school of enrollment is in the school district where the charter school is established, who submits a timely application; and

[(5)] (7) In the case of a workplace charter school, any student eligible to attend under subdivision (1) or (2) of this subsection whose parent is employed in the business district, who submits a timely application, unless the number of applications exceeds the capacity of a program, class, grade level or building. The configuration of a business district shall be set forth in the charter and shall not be construed to create an undue advantage for a single employer or small number of employers.

2. If capacity is insufficient to enroll all pupils who submit a timely application, the charter school shall have an admissions process that assures all applicants of an equal chance of gaining admission and does not discriminate based on parents’ ability to pay fees or tuition except that:

(1) A charter school may establish a geographical area around the school whose residents will receive a preference for enrolling in the school, provided that such preferences do not result in the establishment of racially or socioeconomically isolated schools and provided such preferences conform to policies and guidelines established by the state board of education;

(2) A charter school may also give a preference for admission of children whose siblings attend the school [or, for admission of children resident in the district in which it operates and whose parents are employed at the school, or, in the case of a workplace charter school, for admission of a child whose parent is employed in the business district or at the business site of such school; and

The student’s parent or legal guardian shall be responsible for the student's transportation to and from the charter school.

6. If a change in school district boundary lines occurs under section 162.223, 162.431, 162.441, or 162.451, or by action of the state board of education under section 162.081, including attachment of a school district's territory to another district or dissolution, such that a student attending a charter school prior to such change no longer resides in a school district in which the charter school is located, then the student may complete the current academic year at the
charter school. The student shall be considered a resident student. The student’s parent or legal guardian shall be responsible for the student’s transportation to and from the charter school.

7. The provisions of sections 167.018 and 167.019 concerning foster children's educational rights are applicable to charter schools.

A school district shall pay the amounts due pursuant to this subsection as the disbursal agent and no later than twenty days following the receipt of any such funds. The department of elementary and secondary education shall pay the amounts due when it acts as the disbursal agent within five days of the required due date.

3. A workplace charter school shall receive payment for each eligible pupil as provided under subsection 2 of this section, except that if the student is not a resident of the district and is participating in a voluntary interdistrict transfer program, the payment for such pupils shall be the same as provided under section 162.1060.

If a charter school declares itself as a local educational agency, the department of elementary and secondary education shall, upon notice of the declaration, reduce the payment made to the school district by the amount specified in this subsection and pay directly to the charter school the annual amount reduced from the school district's payment.

5. If a school district fails to make timely payments of any amount for which it is the disbursal agent, the state department of elementary and secondary education shall authorize payment to the charter school of the amount due pursuant to subsection 2 of this section and shall deduct the same amount from the next state school aid apportionment to the owing school district. If a charter school is paid more or less than the amounts due pursuant to this section, the amount of overpayment or underpayment shall be adjusted equally in the next twelve payments by the school district or the department of elementary and secondary education, as appropriate. Any dispute between the school district and a charter school as to the amount owing to the charter school shall be resolved by the department of elementary and secondary education, and the department's decision shall be the final administrative action for the purposes of review pursuant to chapter 536. During the period of dispute, the department of elementary and secondary education shall make every administrative and
statutory effort to allow the continued education of children in their current
public charter school setting.

6. **For purposes of calculation and distribution of state school aid**

average daily attendance shall include any nonresident pupil who is a
resident of Missouri, who attends the charter school, and whose parent
is employed at the charter school.

7. The charter school and a local school board may agree by contract for
services to be provided by the school district to the charter school. The charter
school may contract with any other entity for services. Such services may include
but are not limited to food service, custodial service, maintenance, management

   (2) One member selected by the governor from a slate of three
       recommended by the commissioner of higher education;
   (3) One member selected by the governor from a slate of three
       recommended by the president pro tempore of the senate;
   (4) One member selected by the governor from a slate of three
       recommended by the speaker of the house of representatives; and
   (5) Five additional members appointed by the governor, one of whom shall
be selected from a slate of three nominees recommended by the Missouri School Boards Association.

4. Members appointed to the commission shall collectively possess strong experience and expertise in governance, management and finance, school leadership, assessment, curriculum and instruction, and education law. All members of the commission shall have demonstrated understanding of and commitment to charter schooling as a strategy for strengthening public education.

5. The commission shall annually elect a chairperson and vice chairperson, who shall act as chairperson in his or her absence. The commission shall meet at the call of the chairperson. The chairperson may call meetings at such times as he or she deems advisable and shall call a meeting when requested to do so by three or more members of the commission. Members of the commission are not eligible to receive compensation.

6. The commission may approve proposed charters for its sponsorship under sections 160.400 to 160.425 and shall:

   (1) Comply with all of the requirements applicable to sponsors under sections 160.400 to 160.425;

7. Charter schools sponsored by the commission shall comply with all of the requirements applicable to charter schools under sections 160.400 to 160.425.

8. The commission shall conduct its business in accordance with chapter 610.

9. The department of elementary and secondary education shall provide start-up funding for the commission to operate. The commission shall reimburse the department's costs from any funds it receives as sponsor under section 160.400.

10. The commission is authorized to receive and expend gifts, grants, and donations of any kind from any public or private entity to carry out the purposes of sections 160.400 to 160.425, subject to the terms and conditions under which they are given, provided that all such terms and conditions are permissible under law.

11. The commission may employ staff including, but not limited to, an executive director as needed to carry out its duties. The commission may establish personnel, payroll, benefit, and other such
systems as needed and may provide death and disability benefits. Commission employees shall be considered state employees for the purposes of membership in the Missouri state employees' retirement system and the Missouri consolidated health care plan. Compensation paid by the commission shall constitute pay from a state department for purposes of accruing benefits under the Missouri state employees' retirement system.

12. There is hereby created in the state treasury the "Missouri Charter Public School Commission Revolving Fund", which shall consist of money collected under this section. The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a dedicated fund, and moneys in the fund shall be used solely by the Missouri charter public school commission for purposes of sections 160.400 to 160.425 and section 167.349. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

161.084. When classifying the public schools of the state under section 161.092, if there is no state board of education member who is a resident of the congressional district in which such school district under consideration is located, the state board of education shall assign such school district a classification designation of unaccredited or change a district's classification designation from accredited to provisionally accredited only after notifying the governor of its intent to change the classification of the district. The governor shall make the appointment under section 161.052 within thirty days of notification.

161.087. 1. When assigning classification designations to school districts pursuant to its authority to classify the public schools of the state under section 161.092, the state board of education shall use only the following classification designations:

(1) Unaccredited;
(2) Provisionally accredited;
(3) Accredited; and
(4) Accredited with distinction.
2. The state board of education shall develop and implement a process to provide assistance teams to borderline districts, as defined in section 167.848, as determined by the department of elementary and secondary education and to underperforming districts, as defined in section 167.848, upon assignment of a classification designation of unaccredited or provisionally accredited or determination made by the state board of education. The composition and size of the team may vary, based on academic, demographic, and financial circumstances of the district, but in no case will the team have fewer than ten members, two of whom shall be active classroom teachers in the district, two of whom shall be principals, and one of whom shall be a parent of a student in the district. The department staff member assigned to the region in which the district is located may be included in the assistance team's activities but shall not be formally assigned to the team. The team shall provide recommendations for improvement based on the needs of the community and the district and analysis of, at a minimum, the assessment data, classroom practices, and communication processes within attendance centers, within the district, and with the larger community. Separate teams may be used to provide analysis and recommendations at the discretion of the state board. Beginning with school year 2017-18, the team shall provide its recommendations no later than June 30, 2018, for underperforming districts and borderline districts. The state board shall prioritize the assignment of teams so that the districts with the lower annual performance report scores are addressed first. The assistance team's suggestions for improvement shall be mandatory for underperforming districts but shall not be mandatory for borderline districts. If an underperforming district disagrees with any suggestion of the assistance team, the district shall propose a different method of accomplishing the goal of the assistance team's suggestion and the state board of education shall be the final arbiter of the matter.

161.238. 1. Notwithstanding any provision of chapter 536 and subdivisions (9) and (14) of section 161.092 to the contrary, the state board of education shall adopt a policy to classify individual attendance centers. Attendance centers that do not offer classes above the second grade level are exempt from classification under this subsection. The policy shall require that an attendance center's
classification be based solely on a three-year average of the attendance center's annual performance report scores using the three most recent years. The state board shall assign a classification consistent with such three-year average score. The state board shall implement such policy and:

(1) Within forty-five days of the effective date of this section, for each district that is classified as unaccredited by the state board of education at that time, classify each of the unaccredited district's attendance centers separately from the district as a whole using the classification designations provided in section 161.087; and

(2) Within ninety days of the effective date of this section, for each district that is classified as provisionally accredited by the state board of education at that time, classify each of the provisionally accredited district's attendance centers separately from the district as a whole using the classification designations provided in section 161.087.

2. The classifications assigned by the state board under subsection 1 of this section shall become effective immediately and shall remain in effect until the state board develops, adopts, and implements the system of classification described in subsection 3 of this section. At such time, the state board shall classify attendance centers based on the system of classification described in subsection 3 of this section.

3. By January 1, 2018, the state board of education shall, through administrative rule, develop a system of classification that accredits attendance centers within a district separately from the district as a whole using the classification designations provided in section 161.087. The state board of education's system shall not assign classification designations to attendance centers that do not offer classes above the second grade level. When the state board adopts its system, it shall assign a classification designation to each attendance center, except for those attendance centers that do not offer classes above the second grade level. The state board of education may assign classification numbers outside the range of numbers assigned to high schools, middle schools, junior high schools, or elementary schools as classification designations for attendance centers that are exempt from the accreditation classification system. Public separate special
education schools within a special school district and within a school
district are exempted from the accreditation requirements of this
section and section 161.087. While not applicable for the purpose of
accreditation, a special school district shall continue to report all
scores on its annual performance report to the department of
elementary and secondary education for all its schools. Juvenile
detention centers within a special school district are also exempted
from the accreditation standards of this section and section 161.087.

4. Upon adoption of the classification system described in
subsection 3 of this section, the state board may change any
classification it has assigned to an attendance center under subsection
1 of this section.

5. An attendance center that does not offer classes above the
second grade level shall be exempt from any requirements related to
statewide assessments.

6. Notwithstanding the provisions of subdivision (9) of section
161.092, the rules and regulations promulgated under this section shall
be effective thirty days after publication in the code of state
regulations as provided in section 536.021 and shall not be subject to
the two-year delay contained in subdivision (9) of section 161.092.

7. Any rule or portion of a rule, as that term is defined in section
536.010, that is created under the authority delegated in this section
shall become effective only if it complies with and is subject to all of
the provisions of chapter 536 and, if applicable, section 536.028. This
section and chapter 536 are nonseverable, and if any of the powers
vested with the general assembly pursuant to chapter 536 to review, to
delay the effective date, or to disapprove and annul a rule are
subsequently held unconstitutional, then the grant of rulemaking
authority and any rule proposed or adopted after the effective date of
this section shall be invalid and void.

161.1005. 1. By July 1, 2018, the department shall employ a
dyslexia therapist, licensed psychometrist, licensed speech-language
pathologist, certified academic language therapist, or certified training
specialist to serve as the department's dyslexia specialist. Such
dyslexia specialist shall have a minimum of three years of field
experience in screening, identifying, and treating dyslexia and related
disorders.
2. The department shall ensure that the dyslexia specialist has completed training and received certification from a program approved by the legislative task force on dyslexia and is able to provide necessary information and support to school district teachers.

3. The dyslexia specialist shall:

   (1) Be highly trained in dyslexia and related disorders, including best practice interventions and treatment models;
   
   (2) Be responsible for the implementation of professional development; and
   
   (3) Serve as the primary source of information and support for districts addressing the needs of students with dyslexia and related disorders.

4. In addition to the duties assigned under subsection 3 of this section, the dyslexia specialist shall also assist the department with developing and administering professional development programs to be made available to school districts no later than the 2018-19 school year. The programs shall focus on educating teachers regarding the indicators of dyslexia, the science surrounding teaching a student who is dyslexic, and classroom accommodations necessary for a student with dyslexia.

162.081. 1. Whenever any school district in this state fails or refuses in any school year to provide for the minimum school term required by section 163.021 or is classified unaccredited, the state board of education shall, upon a district's initial classification or reclassification as unaccredited:

   (1) Review the governance of the district to establish the conditions under which the existing school board shall continue to govern; or
   
   (2) Determine the date the district shall lapse and determine an alternative governing structure for the district.

2. If at the time any school district in this state shall be classified as unaccredited, the department of elementary and secondary education shall conduct at least two public hearings at a location in the unaccredited school district regarding the accreditation status of the school district. The hearings shall provide an opportunity to convene community resources that may be useful or necessary in supporting the school district as it attempts to return to accredited status, continues under revised governance, or plans for continuity of educational services and resources upon its attachment to a neighboring
district. The department may request the attendance of stakeholders and district officials to review the district’s plan to return to accredited status, if any; offer technical assistance; and facilitate and coordinate community resources. Such hearings shall be conducted at least twice annually for every year in which the district remains unaccredited or provisionally accredited.

3. Upon classification of a district as unaccredited, the state board of education may:

   (1) Allow continued governance by the existing school district board of education under terms and conditions established by the state board of education; or

   (2) Lapse the corporate organization of all or part of the unaccredited district and:

      (a) Appoint a special administrative board for the operation of all or part of the district. If a special administrative board is appointed for the operation of a part of a school district, the state board of education shall determine an equitable apportionment of state and federal aid for the part of the district, and the school district shall provide local revenue in proportion to the weighted average daily attendance of the part. The number of members of the special administrative board shall not be less than five, the majority of whom shall be residents of the district. The members of the special administrative board shall reflect the population characteristics of the district and shall collectively possess strong experience in school governance, management and finance, and leadership. The state board of education may appoint members of the district’s elected school board to the special administrative board, but members of the elected school board shall not comprise more than forty-nine percent of the special administrative board’s membership. Within fourteen days after the appointment by the state board of education, the special administrative board shall organize by the election of a president, vice president, secretary and a treasurer, with their duties and organization as enumerated in section 162.301. The special administrative board shall appoint a superintendent of schools to serve as the chief executive officer of the school district, or a subset of schools, and to have all powers and duties of any other general superintendent of schools in a seven-director school district. Nothing in this section shall be construed to permit either the state board of education or a special administrative board to raise, in any way not specifically
allowed by law, the tax levy of the district or any part of the district without a vote of the people. Any special administrative board appointed under this section shall be responsible for the operation of the district or part of the district until such time that the district is classified by the state board of education as provisionally accredited for at least two successive academic years, after which time the state board of education may provide for a transition pursuant to section 162.083; or

(b) Determine an alternative governing structure for the district including, at a minimum:

   a. A rationale for the decision to use an alternative form of governance and in the absence of the district's achievement of full accreditation, the state board of education shall review and recertify the alternative form of governance every three years;

   b. A method for the residents of the district to provide public comment after a stated period of time or upon achievement of specified academic objectives;

   c. Expectations for progress on academic achievement, which shall include an anticipated time line for the district to reach full accreditation; and

   d. Annual reports to the general assembly and the governor on the progress towards accreditation of any district that has been declared unaccredited and is placed under an alternative form of governance, including a review of the effectiveness of the alternative governance; or

(c) Attach the territory of the lapsed district to another district or districts for school purposes; or

(d) Establish one or more school districts within the territory of the lapsed district, with a governance structure specified by the state board of education, with the option of permitting a district to remain intact for the purposes of assessing, collecting, and distributing property taxes, to be distributed equitably on a weighted average daily attendance basis, but to be divided for operational purposes, which shall take effect sixty days after the adjournment of the regular session of the general assembly next following the state board's decision unless a statute or concurrent resolution is enacted to nullify the state board's decision prior to such effective date.

4. If a district remains under continued governance by the school board under subdivision (1) of subsection 3 of this section and either has been unaccredited for three consecutive school years and failed to attain accredited status after the third school year or has been unaccredited for two consecutive
school years and the state board of education determines its academic progress is not consistent with attaining accredited status after the third school year, then the state board of education shall proceed under subdivision (2) of subsection 3 of this section in the following school year.

5. A special administrative board or any other form of governance appointed under this section shall retain the authority granted to a board of education for the operation of the lapsed school district under the laws of the state in effect at the time of the lapse and may enter into contracts with accredited school districts or other education service providers in order to deliver high-quality educational programs to the residents of the district. If a student graduates while attending a school building in the district that is operated under a contract with an accredited school district as specified under this subsection, the student shall receive his or her diploma from the accredited school district. The authority of the special administrative board or any other form of governance appointed under this section shall expire at the end of the third full school year following its appointment, unless extended by the state board of education. If the lapsed district is reassigned, the [special administrative board] governing board prior to lapse shall provide an accounting of all funds, assets and liabilities of the lapsed district and transfer such funds, assets, and liabilities of the lapsed district as determined by the state board of education. Neither the special administrative board nor any other form of governance appointed under this section nor its members or employees shall be deemed to be the state or a state agency for any purpose, including section 105.711, et seq. The state of Missouri, its agencies and employees shall be absolutely immune from liability for any and all acts or omissions relating to or in any way involving the lapsed district, [the] a special administrative board, any other form of governance appointed under this section, [its] or the members or employees of the lapsed district, a special administrative board, or any other form of governance appointed under this section. Such immunities, and immunity doctrines as exist or may hereafter exist benefitting boards of education, their members and their employees, shall be available to the special administrative board, any other form of governance appointed under this section, [its] and the members and employees of the special administrative board or any other form of governance appointed under this section.

6. Neither the special administrative board nor any other form of
governance appointed under this section nor any district or other entity
assigned territory, assets or funds from a lapsed district shall be considered a
successor entity for the purpose of employment contracts, unemployment
compensation payment pursuant to section 288.110, or any other purpose.

7. If additional teachers are needed by a district as a result of increased
enrollment due to the annexation of territory of a lapsed or dissolved district,
such district shall grant an employment interview to any permanent teacher of
the lapsed or dissolved district upon the request of such permanent teacher.

8. In the event that a school district with an enrollment in excess of five
thousand pupils lapses, no school district shall have all or any part of such lapsed
school district attached without the approval of the board of the receiving school
district.

9. If the state board of education reasonably believes that a
school district is unlikely to provide for the minimum number of school
hours required in a school term required by section 163.021 because of
financial difficulty, the state board of education may, prior to the start
of the school term:

   (1) Allow continued governance by the existing district school
   board under terms and conditions established by the state board of
   education; or

   (2) Lapse the corporate organization of the district and
   implement one of the options available under subdivision (2) of
   subsection 3 of this section.

10. The provisions of subsection 9 of this section shall not apply
to any district solely on the basis of financial difficulty resulting from
paying tuition and providing transportation for transfer students under
sections 167.825 to 167.827.

162.1303. 1. For purposes of this section, "transient student"
means any student who withdraws from one attendance center and
enrolls in any other attendance center two or more times within two
school years.

   2. The department of elementary and secondary education shall
annually calculate a transient student ratio for each attendance center,
each charter school, and each local educational agency. The
department shall annually calculate a transient student ratio for each
school district based on the transient student ratios of all the
attendance centers in such district. The department shall publish the
transient student ratio of each district, each attendance center, each 
charter school, and each local educational agency on its website.

3. The department shall include, or cause to be included, in each 
district's school accountability report card the transient student ratio 
of the district and of each attendance center operated by the district.

4. The department shall include the transient student ratios of 
attendance centers, charter schools, and local educational agencies in 
their respective school accountability report cards.

5. The department shall publish the state's aggregate transient 
student ratio on its website.

6. A transient student ratio shall be calculated as the product of:
   (1) One hundred; and
   (2) The quotient of:
       (a) The sum of the number of transient students and the number 
of students who withdrew from the district during the school year; and
       (b) The sum of the number of students who enrolled in the 
district on or before the last Wednesday in September and the number 
of students who enrolled in the district after the last Wednesday of 
September.

7. Each school district, charter school, and local educational 
agency shall annually report to the department, by a date established 
by the department, any information and data required to comply with 
and perform the calculation required by the provisions of this section.

162.1305. 1. For purposes of this section, "transient student" 
means any student who withdraws from one attendance center and 
enrolls in any other attendance center two or more times within two 
school years.

2. In the first year of attendance in a district or charter school, 
a transient student's score on a statewide assessment shall not be 
included when calculating the status or progress scores on the district's 
or charter school's annual performance report scores. A transient 
student's growth score shall be weighted at one hundred percent.

3. In the second year of attendance, a transient student’s score 
on a statewide assessment shall be weighted at thirty percent when 
calculating the district's or charter school's performance for purposes 
of the district's or charter school's annual performance report status or 
progress score, with the transient student’s growth score weighted at
SB 58

one hundred percent.

4. In the third year of attendance, a transient student's score on a statewide assessment shall be weighted at seventy percent when calculating the district's or charter school's performance for purposes of the district's or charter school's annual performance report status or progress score, with the transient student's growth score weighted at one hundred percent.

5. In the fourth year of attendance and any subsequent years of attendance, a transient student's score on a statewide assessment shall be weighted at one hundred percent when calculating the district's or charter school's performance for purposes of the district's or charter school's annual performance report status or progress score, with the transient student's growth score weighted at one hundred percent.

162.1310. If the state board of education classifies any district or attendance center as unaccredited, the district shall notify the parent or guardian of any student enrolled in the unaccredited district or unaccredited attendance center of the loss of accreditation within seven business days. The district shall also notify district taxpayers of the loss of accreditation within seven business days. The district's notice shall include an explanation of which students may be eligible to transfer, the transfer process under sections 167.825 to 167.827, and any services students may be entitled to receive. The district's notice shall be written in a clear, concise, and easy-to-understand manner. The district shall post the notice in a conspicuous and accessible place in each district attendance center. The district shall also send the notice to each municipality located within the boundaries of the district.

162.1313. The school board of any district that operates an underperforming school, as defined in section 167.848, shall adopt a policy regarding the availability of home visits by school personnel. Pursuant to such policy, the school may offer the parent or guardian of a student enrolled in any such school the opportunity to have one or more annual home visits. If the school decides to offer one or more annual home visits, the school shall offer an opportunity for each visit to occur at the attendance center or at a mutually agreeable site.

167.121. 1. If the residence of a pupil is so located that attendance in the
district of residence constitutes an unusual or unreasonable transportation hardship because of natural barriers, travel time, or distance, the commissioner of education or his or her designee may assign the pupil to another district. Subject to the provisions of this section, all existing assignments shall be reviewed prior to July 1, 1984, and from time to time thereafter, and may be continued or rescinded. The board of education of the district in which the pupil lives shall pay the tuition of the pupil assigned. The tuition shall not exceed the pro rata cost of instruction.

2. (1) For the school year beginning July 1, 2008, and each succeeding school year, a parent or guardian residing in a lapsed public school district or a parent or guardian residing in a district that has [scored] received an annual performance report score consistent with a state board of education classification of either unaccredited or provisionally accredited[ or a combination thereof, on two consecutive annual performance reports] may enroll the parent's or guardian's child in the Missouri virtual school created in section 161.670 provided the pupil first enrolls in the school district of residence. The school district of residence shall include the pupil's enrollment in the virtual school created in section 161.670 in determining the district's average daily attendance. Full-time enrollment in the virtual school shall constitute one average daily attendance equivalent in the school district of residence. Average daily attendance for part-time enrollment in the virtual school shall be calculated as a percentage of the total number of virtual courses enrolled in divided by the number of courses required for full-time attendance in the school district of residence.

(2) A pupil's residence, for purposes of this section, means residency established under section 167.020. Except for students residing in a K-8 district attending high school in a district under section 167.131, the board of the home district shall pay to the virtual school the amount required under section 161.670.

(3) Nothing in this section shall require any school district or the state to provide computers, equipment, internet or other access, supplies, materials or funding, except as provided in this section, as may be deemed necessary for a pupil to participate in the virtual school created in section 161.670.

(4) Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are
nonseverable and if any of the powers vested with the general assembly pursuant
to chapter 536 to review, to delay the effective date, or to disapprove and annul
a rule are subsequently held unconstitutional, then the grant of rulemaking
authority and any rule proposed or adopted after August 28, 2007, shall be
invalid and void.

167.127. If a school district contains a facility that serves
neglected children or delinquent children residing in a court-ordered
group home, an institution for neglected children, or an institution for
delinquent children, the department of elementary and secondary
education shall be prohibited from creating any report or publication
related to the Missouri school improvement program, or any successor
program, in which data from the district's regularly enrolled pupils is
aggregated with data from the children residing in such facilities,
unless the department creates an annotation to such report or
publication with the data collected only from the district's regularly
enrolled pupils and an explanation of the effects of the data from the
children enrolled in such facilities on the aggregate data of the district.

167.131. 1. The board of education of each district in this state that does
not maintain [an accredited] a high school [pursuant to the authority of the
state board of education to classify schools as established in section 161.092]
offering work through the twelfth grade shall pay [the] tuition [of] as
calculated by the receiving district under subsection 2 of this section
and provide transportation consistent with the provisions of section 167.241 for
each pupil resident therein who has completed the work of the highest
grade offered in the schools of the district and who attends an accredited
public high school in another district of the same or an adjoining county.

2. The rate of tuition to be charged by the district attended and paid by
the sending district is the per pupil cost of maintaining the district's grade level
grouping which includes the school attended. The rate of tuition to be charged
by the approved charter school attended and paid by the sending district is the
per pupil cost of maintaining the approved charter school's grade level
grouping. For a district, the cost of maintaining a grade level grouping shall be
determined by the board of education of the district but in no case shall it exceed
all amounts spent for teachers' wages, incidental purposes, debt service,
maintenance and replacements. For an approved charter school, the cost of
maintaining a grade level grouping shall be determined by the approved charter
school but in no case shall it exceed all amounts spent by the district in which the
approved charter school is located for teachers' wages, incidental purposes, debt
service, maintenance, and replacements. The term "debt service", as used in this
section, means expenditures for the retirement of bonded indebtedness and
expenditures for interest on bonded indebtedness. Per pupil cost of the grade
level grouping shall be determined by dividing the cost of maintaining the grade
level grouping by the average daily pupil attendance. If there is disagreement as
to the amount of tuition to be paid, the facts shall be submitted to the state board
of education, and its decision in the matter shall be final. Subject to the
limitations of this section, each pupil shall be free to attend the public school of
his or her choice.

3. For purposes of this section, "approved charter school" means a charter
school that has existed for less than three years or a charter school with a
three-year average score of seventy percent or higher on its annual performance
report.

167.132. 1. For purposes of this section, the following terms
mean:
   (1) "Available receiving district", an accredited district able to
receive transfer students under section 167.826;
   (2) "Average per-pupil current expenditure", the average per-
pupil current expenditure for a district as a whole as reported to the
department of elementary and secondary education in its most recent
school accountability report card under section 160.522;
   (3) "Receiving approved charter school", an approved charter
school, as defined in section 167.848, receiving transfer students under
section 167.826;
   (4) "Receiving district", a district receiving transfer students
under section 167.826;
   (5) "Sending district", a district from which students are
transferring to an available receiving district or an approved charter
school, as allowed under section 167.826.

2. Notwithstanding any other provisions of law to the contrary,
a receiving district or a receiving approved charter school may
negotiate with a sending district to accept a reduced tuition rate for
transfer students. The receiving district or receiving approved charter
school may limit the number of transfer students accepted at the
reduced tuition rate as calculated under subsection 3 of this section. If
the receiving district or receiving approved charter school elects to
accept tuition as calculated under subsection 3 of this section and does
not limit the number of transfer students accepted at such reduced
rate, such district or approved charter school shall receive students
through the education authority based solely on the parent request and
available seats.

3. In school year 2017-18 and subsequent years, if a sending
district and a receiving district or receiving approved charter school
have agreed upon a reduced tuition rate, such tuition shall be
calculated as the product of:
   (1) The sum of the average per-pupil current expenditures of all
available receiving districts for the sending district divided by the
number of all available receiving districts for the sending district; and
   (2) Seventy percent.

4. The appropriate education authority, as defined in section
167.848, that is coordinating the transfers for students in the sending
district shall perform the calculation in subsection 3 of this section
annually.

5. If there is disagreement as to the amount of tuition to be paid,
the facts shall be submitted to the state board of education, and its
decision in the matter shall be final.

6. For each of the first two full school years that a receiving
district or receiving approved charter school charges a rate of tuition
as calculated under subsection 3 of this section, accepts a minimum of
twenty-five transfer students at such reduced rate, and does not limit
the number of transfer students accepted at such reduced rate, if the
aggregate scores of student growth of all the transfer students in the
receiving district or receiving approved charter school meet or exceed
targets established in the state accountability system, the receiving
district or receiving approved charter school shall earn additional
credit in academic achievement on its annual performance report. The
department of elementary and secondary education shall promulgate
an administrative rule to implement the provisions of this
subsection. Any rule or portion of a rule, as that term is defined in
section 536.010, that is created under the authority delegated in this
section shall become effective only if it complies with and is subject to
59 all of the provisions of chapter 536 and, if applicable, section
60 536.028. This section and chapter 536 are nonseverable, and if any of
61 the powers vested with the general assembly pursuant to chapter 536
62 to review, to delay the effective date, or to disapprove and annul a rule
63 are subsequently held unconstitutional, then the grant of rulemaking
64 authority and any rule proposed or adopted after the effective date of
65 this section shall be invalid and void.
66
7. If a receiving district elects to accept tuition as calculated
67 under subsection 3 of this section and does not limit the number of
68 transfer students accepted at such reduced rate, the department of
69 elementary and secondary education shall consider such action as an
70 additional criterion when determining whether to assign the receiving
71 district a classification of accredited with distinction.
72
8. If a receiving district or receiving approved charter school
73 elects to accept tuition as calculated under subsection 3 of this section
74 and does not limit the number of transfer students accepted at such
75 reduced rate, ten percent of the amount calculated under subdivision
76 (1) of subsection 3 of this section for the receiving district or receiving
77 approved charter school shall be paid from the supplemental tuition
78 fund created in subsection 9 of this section.
79
9. There is hereby created in the state treasury the
80 "Supplemental Tuition Fund". The fund shall consist of any moneys
81 appropriated annually by the general assembly from general revenue
82 to such fund, any moneys paid into the state treasury and required by
83 law to be credited to such fund and any gifts, bequests, or public or
84 private donations to such fund. The state treasurer shall be custodian
85 of the fund. The department of elementary and secondary education
86 shall administer the fund. In accordance with sections 30.170 and
87 30.180, the state treasurer may approve disbursements. The fund shall
88 be a dedicated fund and, upon appropriation, moneys in the fund shall
89 be used solely for the administration of this section. Notwithstanding
90 the provisions of section 33.080 to the contrary, any moneys remaining
91 in the fund at the end of the biennium shall not revert to the credit of
92 the general revenue fund. The state treasurer shall invest moneys in
93 the fund in the same manner as other funds are invested. Any interest
94 and moneys earned on such investments shall be credited to the fund.
167.642. 1. No underperforming district, as defined in section
167.848, located in a county with a charter form of government and with more than nine hundred fifty thousand inhabitants shall promote a student from the fifth grade to the sixth grade or from the eighth grade to the ninth grade who is two years or more below grade level as measured by quantifiable student performance data designated by the local district to satisfy the requirements of this section. The term "quantifiable student performance data" shall be as defined in subsection 2 of section 161.096.

2. Notwithstanding subsection 1 of this section, the provisions of this section shall not apply to any student with an individualized education program or any student receiving services through a plan prepared under Section 504 of the Rehabilitation Act of 1973.

167.685. 1. Each unaccredited district shall offer free tutoring and supplemental education services to students who are performing below grade level or identified by the district as struggling, using funds from the school district improvement fund to the extent that such funds are available. A district may implement the free tutoring services requirement by entering into a contract with a public library for online tutoring services as provided in section 170.215.

2. There is hereby created in the state treasury the "School District Improvement Fund". The fund shall consist of any gifts, bequests, or public or private donations to such fund. Any person or entity that makes a gift, bequest, or donation to the fund may specify the district that shall be the recipient of such gift, bequest, or donation.

3. The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements of public moneys in accordance with distribution requirements and procedures developed by the department of elementary and secondary education and shall make disbursement of private funds according to the directions of the donor. If the donor did not specify how the private funds were to be disbursed, the state treasurer shall contact the donor to determine the manner of disbursement. The fund shall be a dedicated fund and, upon appropriation, moneys in the fund shall be used solely for the administration of this section. A district that receives moneys from the fund may use such moneys to cover the cost of online tutoring services provided through a contract with a public library under section...
4. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund.

5. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

167.688. 1. Any underperforming district, as defined in section 167.848, may perform any or all of the following actions including, but not limited to:

(1) Implement a new curriculum, including appropriate professional development, based on scientifically based research that offers substantial promise of improving educational achievement of low-achieving students;

(2) Retain an outside expert to advise the district or school on its progress toward regaining accreditation;

(3) Enter into a contract with an education management company or education services provider that has a demonstrated record of effectiveness operating a school or schools;

(4) For any unaccredited school, enter into a collaborative relationship and agreement with an accredited district in which teachers from the unaccredited school may exchange positions with teachers from an accredited school in an accredited district for a period of two school weeks; or

(5) Implement any other change that is suggested by the state board of education, an expert or contractor approved under this section, or an assistance team under section 161.087, in accordance with state law, that the school board has reason to believe will result in improved performance for accreditation purposes.

2. Any underperforming district that offers an attendance recovery program designed exclusively to allow students to recapture attendance hours lost due to absences shall be allowed to include such attendance recovery hours in the district's attendance rate for purposes of the Missouri school improvement program accreditation scoring. Districts may offer attendance recovery programs on Saturdays or at any time before or after the school's regularly scheduled school hours. Extended hour and day programs designed for
remediation or enrichment purposes shall not fulfill the criteria of attendance recovery programs as provided in this subsection.

167.730. 1. Beginning July 1, 2018, and continuing thereafter, every public school, including every charter school, in the metropolitan school district or in any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county shall incorporate a response-to-intervention tiered approach to reading instruction to focus resources on students who are determined by their school to need additional or changed instruction to make progress as readers. At a minimum, the reading levels of students in kindergarten through tenth grade shall be assessed at the beginning and middle of the school year, and students who score below district benchmarks shall be provided with intensive and systematic reading instruction.

2. Beginning January 1, 2018, and every January first thereafter, every public school, including every charter school, in the metropolitan school district or in any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county shall prepare a personalized learning plan for any kindergarten or first grade student whose most recent school-wide reading assessment result shows the student is working below grade level unless the student has been determined by other means in the current school year to be working at grade level or above. The provisions of this section shall not apply to students otherwise served under an individualized education program, to students receiving services through a plan prepared under Section 504 of the Rehabilitation Act of 1973 that includes an element addressing reading below grade level, or to students determined to have limited English proficiency.

3. For any student who is required by this section to have a personalized learning plan, the student's main teacher shall consult with the student's parent or guardian during the preparation of the plan and shall consult, as appropriate, any district personnel or department of elementary and secondary education personnel with necessary expertise to develop such a plan. The school shall require the written consent of the parent or guardian to implement the plan; however, if the school is unsuccessful in contacting the parent or
guardian by January fifteenth, the school may send a letter by certified
mail to the student's last known address stating its intention to
implement the plan by February first.

4. After implementing the personalized learning plan through the
end of the student's first grade year, the school shall refer any student
who still performs below grade level for assessment to determine if an
individualized education program is necessary for the student. A
student who is assessed as not needing an individualized education
program but who is reading below grade level at the end of the first
grade shall continue to be required to have a personalized learning
plan until the student is reading at grade level.

5. Notwithstanding any provision of law to the contrary, any
student in a metropolitan school district, in any urban school district
containing most or all of a home rule city with more than four hundred
thousand inhabitants and located in more than one county, or in any
charter school located in any such district who is not reading at
second-grade level by the end of second grade may be promoted to the
third grade only under one of the following circumstances:

(1) The school provides additional reading instruction during the
summer and demonstrates the student is ready for third grade at the
end of the summer school;

(2) The school provides a combined classroom in which the
student continues with the same teacher, sometimes referred to as
"looping". If the student in such a classroom is not reading at third-
grade level by the end of third grade, the student shall be retained in
third grade; or

(3) The student's parents or guardians have signed a notice that
they prefer to have their student promoted although the student is
reading below grade level. The school shall have the final
determination on the issue of retention.

6. The metropolitan school district, any urban school district
containing most or all of a home rule city with more than four hundred
thousand inhabitants and located in more than one county, and each
charter school located in them shall provide in its annual report card
under section 160.522 the numbers and percentages by grade from first
grade to tenth grade in each school of any students at any grade level
who have been promoted who have been determined as reading below
grade level, except that no reporting shall permit the identification of
an individual student.

7. School districts and charter schools under this section may
provide for a student promotion and retention program and a reading
instruction program that are equivalent to those that are described in
this section with the oversight and approval of the department of
elementary and secondary education.

167.825. 1. For school year 2017-18, students who transferred
from an unaccredited district to an accredited district in the same or
an adjoining county under section 167.131 as it existed on July 1, 2014,
shall be allowed to participate under the same terms that governed
such transfers in school years 2014-15 through 2016-17, except that
section 167.132 shall apply to determine the reimbursement of their
tuition.

2. For school year 2017-18, if an unaccredited district becomes
classified as provisionally accredited or accredited without provisions
by the state board of education, any resident student of the
unaccredited district who has transferred under section 167.131 as it
existed on July 1, 2014, shall be permitted to continue the student's
educational program through the completion of middle school, junior
high school, or high school, whichever occurs first, except that a
student who attends any school serving students through high school
graduation but starting at grades lower than ninth grade shall be
permitted to complete high school in the school to which he or she has
transferred.

3. Notwithstanding any other provision of law, any student who
was participating in the school transfer program before January 1,
2017, and who attended, for at least one semester immediately prior to
transferring, a school in an unaccredited district, shall have the option
of transferring to a virtual school as provided in subsection 8 of section
162.1250, an approved charter school, or another public school in the
student's district of residence that offers the student's grade level of
enrollment, as further provided in section 167.826.

167.826. 1. Any student may transfer to another public school in
the student's district of residence that offers the student's grade level
of enrollment and that is accredited without provisions by the state
board of education if such student is enrolled in and has attended an
unaccredited school in an unaccredited district for the full semester immediately prior to requesting the transfer.

2. Any student may transfer to another public school in the student's district of residence that offers the student's grade level of enrollment and that is accredited without provisions by the state board of education if such student is enrolled in and has attended an unaccredited school, for the full semester immediately prior to requesting the transfer, in:

(1) An urban school district;
(2) A metropolitan school district;
(3) A district that has most or all of its land area located in a county with a charter form of government and with more than nine hundred fifty thousand inhabitants; or
(4) A district that has most or all of its land area located in a county with a charter form of government and with more than six hundred thousand but fewer than seven hundred thousand inhabitants.

3. No such transfer under subsections 1 and 2 of this section shall result in a class size and assigned enrollment in a receiving school that exceeds the standards for class size and assigned enrollment as promulgated in the Missouri school improvement program's resource standards. If the student chooses to attend a magnet school, an academically selective school, or a school with a competitive entrance process within his or her district of residence that has admissions requirements, the student shall meet such admissions requirements in order to attend. The school board of each district described in subsections 1 and 2 of this section that operates an unaccredited school shall determine the capacity at each of the district's attendance centers that the state board of education has assigned a classification designation of accredited or accredited with distinction. The district's school board shall be responsible for coordinating student transfers from unaccredited schools to accredited schools within the district. No student enrolled in and attending an attendance center that does not offer classes above the second grade level shall be eligible to transfer under this section.

4. Any student who is enrolled in and has attended an unaccredited school in an unaccredited district for the full semester immediately prior to requesting the transfer and who has first
attempted but is unable to transfer to an accredited school within his or her district of residence under subsection 1 of this section due to a lack of capacity in accredited schools in the district of residence may apply to the appropriate education authority to transfer to:

(1) An accredited school in another district located in the same or an adjoining county; or

(2) An approved charter school, as defined in section 167.848, in another district located in the same or an adjoining county.

5. After the state board of education has assigned classification designations to all attendance centers under subsection 3 of section 161.238 and continuing thereafter, any student who is eligible to transfer under subsection 2 of this section and who has first attempted but is unable to transfer to an accredited school within his or her district of residence under subsection 2 of this section due to a lack of capacity in accredited schools in the district of residence may apply to the appropriate education authority to transfer to:

(1) An accredited school in another district located in the same or an adjoining county; or

(2) An approved charter school, as defined in section 167.848, in another district located in the same or an adjoining county.

6. The application to the education authority to transfer shall be made by March first before the school year in which the student intends to transfer.

7. A student who is eligible to begin kindergarten or first grade at an unaccredited school as described in subsection 1 or 2 of this section may apply to the appropriate education authority for a transfer if he or she resides in the attendance area of an unaccredited school on March first preceding the school year of first attendance. A student who does not apply by March first shall be required to enroll and attend for one semester to become eligible to transfer. If the student chooses to apply to attend a magnet school, an academically selective school, or a school with a competitive entrance process that has admissions requirements, the student shall furnish proof that he or she meets such admissions requirements. Any student who does not maintain residency in the attendance area of his or her attendance center in the district of residence shall lose eligibility to transfer. Any student who transfers but later withdraws shall lose eligibility to
transfer. The transfer provisions of this subsection shall not apply to a district created under sections 162.815 to 162.840 or to any early childhood programs or early childhood special education programs.

8. No unaccredited district, provisionally accredited district, unaccredited school, or provisionally accredited school shall be eligible to receive transfer students, except that, within an unaccredited district, students may transfer from unaccredited schools to accredited schools, and a transfer student who chooses to attend a provisionally accredited school in the district of residence shall be allowed to transfer to such school if there is an available slot.

9. If a charter school may receive nonresident transfer students under this section because it has been operating for less than three years but then loses its status as an approved charter school immediately after those three years because its three-year average score on its annual performance report is below seventy percent, any students who previously transferred to the charter school may remain enrolled in the charter school but no additional nonresident students may transfer to the charter school.

10. No attendance center with a three-year average score of seventy percent or lower on its annual performance report shall be eligible to receive any transfer students, irrespective of its state board of education classification designation, except that any student who was granted a transfer to such an attendance center prior to the effective date of this section may remain enrolled in that attendance center.

11. For a receiving district or receiving approved charter school, no acceptance of a transfer student shall require any of the following actions, unless the school board of the receiving district or the receiving approved charter school's governing board has approved the action:

(1) A class size and assigned enrollment in a receiving school that exceeds the number of students provided by its approved policy on class size under subsection 12 of this section;

(2) The hiring of additional classroom teachers; or

(3) The construction of additional classrooms.

12. Each receiving district and each receiving approved charter school shall have the right to establish and adopt, by objective means,
a policy for desirable class size and student-teacher ratios. A district’s policy may allow for estimated growth in the resident student population. An approved charter school may use the class size, student-teacher ratios, and growth projections for student enrollment contained in the charter school's charter application and charter when adopting a policy. Any district or approved charter school that adopts such a policy shall do so by January first annually. A receiving district or receiving approved charter school shall publish its policy and shall not be required to accept any transfer students under this section that would violate its class size or student-teacher ratio. If a student seeking to transfer is denied admission to a district or approved charter school based on a lack of space under the policy, the student or the student's parent or guardian may appeal the ruling to the state board of education if he or she believes the district's policy or approved charter school's policy is unduly restrictive to student transfers. If more than one student or parent appeals a denial of admission from the same district or approved charter school to the state board of education, the state board shall make an effort to hear such actions at the same time. If the state board of education finds that the policy is unduly restrictive to student transfers, the state board may limit the policy. The state board's decision shall be final.

13. For each student who transfers to another district or approved charter school, the student's district of residence shall pay the tuition amount for each transfer student to the receiving district or receiving approved charter school in two increments annually, once at the start of the school year and once at the start of the second semester of the school year. Each receiving district and receiving approved charter school shall adopt a policy establishing a tuition rate by February first annually.

14. If an unaccredited school becomes classified as provisionally accredited or accredited without provisions by the state board of education, any student who was assigned to such attendance center and who has transferred under this section shall be permitted to continue his or her educational program in that education option through the completion of middle school, junior high school, or high school, whichever occurs first, except that a student who attends any school serving students through high school graduation but starting at grades
lower than ninth grade shall be permitted to complete high school in the school to which he or she has transferred.

15. (1) Except as provided in subdivision (2) of this subsection, if a district described in subsection 1 or 2 of this section operates an unaccredited school, the education authority for the county in which the district is located shall designate at least one accredited district in the same or an adjoining county to which the district operating the unaccredited school shall provide transportation for transfer students. If the designated district reaches full student capacity and is unable to receive additional students, the education authority shall designate at least one additional accredited district to which the district operating an unaccredited school shall provide transportation for transfer students.

(2) For the 2017-18 school year, and until such time as the governor has appointed a number of members sufficient to constitute a quorum to the education authority whose geographic coverage area includes a district operating an unaccredited school, the department of elementary and secondary education shall designate at least one accredited district in the same or an adjoining county to which a district operating an unaccredited school shall provide transportation for transfer students. If the designated district reaches full student capacity and is unable to receive additional students, the department shall designate at least one additional accredited district to which a district operating an unaccredited school shall provide transportation for transfer students.

(3) During the 2017-18 school year, for any district in a county with a charter form of government and with more than nine hundred fifty thousand inhabitants that the state board of education classified as unaccredited effective January 1, 2014, the costs of providing transportation for transfer students to a designated accredited district in the same or an adjoining county shall be paid from the student transfer transportation fund. There is hereby created in the state treasury the "Student Transfer Transportation Fund", which shall consist of moneys appropriated to this fund. The state treasurer shall be custodian of the fund. The commissioner of education shall administer the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a
dedicated fund, and moneys in the fund shall be used solely by the department of elementary and secondary education for the purposes of this subdivision. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

16. Notwithstanding the provisions of subsection 13 of this section to the contrary, if costs associated with the provision of special education and related services to a student with a disability exceed the tuition amount established under this section, the transfer student's district of residence shall remain responsible to pay the excess cost to the receiving district or receiving approved charter school. If the receiving district is a component district of a special school district, the transfer student's district of residence, including any metropolitan school district, shall contract with the special school district for the entirety of the costs to provide special education and related services, excluding transportation pursuant to this section. The special school district may contract with the transfer student's district of residence, including any metropolitan district, for the provision of transportation of a student with a disability, or the transfer student's district of residence may provide transportation on its own.

17. A special school district shall continue to provide special education and related services, with the exception of transportation under this section, to a student with a disability transferring from an unaccredited school within a component district to an accredited school within the same or a different component district within the special school district.

18. If any metropolitan school district operates an unaccredited school, it shall remain responsible for the provision of special education and related services, including transportation, to students with disabilities. A special school district in an adjoining county to a metropolitan school district may contract with the metropolitan school district for the reimbursement of special education services pursuant to sections 162.705 and 162.710 provided by the special school district for transfer students who are residents of the district operating an
19. Regardless of whether transportation is identified as a related service within a student's individualized education program, a receiving district that is not part of a special school district shall not be responsible for providing transportation to a student transferring under this section. A district operating an unaccredited school may contract with a receiving district that is not part of a special school district pursuant to sections 162.705 and 162.710 for transportation of students with disabilities.

20. If a seven-director district or urban school district as described under subsection 1 or 2 of this section operates an unaccredited school, it may contract with a receiving district that is not part of a special school district in the same or an adjoining county for the reimbursement of special education and related services pursuant to sections 162.705 and 162.710 provided by the receiving district for transfer students who are residents of the district operating an unaccredited school.

167.827. 1. By August 1, 2017, and by January first annually, each district eligible to receive transfer students under section 167.826 shall report to the education authority for the county in which the district is located its number of available enrollment slots in accredited schools by grade level. Each district described in subsection 1 or 2 of section 167.826 operating an unaccredited school shall report to the education authority the number of available enrollment slots in the accredited schools of the district by August 1, 2017, and by January first annually. Each approved charter school that is eligible to receive transfer students under section 167.826 shall report the number of available enrollment slots by August 1, 2017, and by January first annually.

2. Any education authority whose geographic area includes a district described in subsection 1 or 2 of section 167.826 operating an unaccredited school shall make information and assistance available to parents or guardians who intend to transfer their child from an unaccredited school to an accredited school in another district in the same or an adjoining county or an approved charter school in another district in the same or an adjoining county.

3. The parent or guardian of a student who intends to transfer
his or her child from an unaccredited school to an accredited school in
another district in the same or an adjoining county or an approved
charter school in another district in the same or an adjoining county
shall send initial notification to the education authority for the county
in which he or she resides by March first for enrollment in the
subsequent school year.

4. The education authority whose geographic area includes a
district that operates an unaccredited school described in subsection
1 or 2 of section 167.826 shall assign those students who are unable to
transfer to an accredited school in their district of residence and seek
to transfer to an accredited school in another district in the same or an
adjoining county or an approved charter school in another district in
the same or an adjoining county. When assigning transfer students to
approved charter schools, an education authority shall coordinate with
each approved charter school and its admissions process if capacity is
insufficient to enroll all students who submit a timely application. An
approved charter school shall not be required to receive any transfer
students that would require it to institute a lottery procedure for
determining the admission of resident students. The authority shall
give first priority to students who live in the same household with any
family member within the first or second degree of consanguinity or
affinity who have already transferred and who apply to attend the same
school. If insufficient grade-appropriate enrollment slots are available
for a student to be able to transfer, that student shall receive first
priority the following school year. The authority shall only disrupt
student and parent choice for transfer if the available slots are
requested by more students than there are slots available. The
authority shall consider the following factors in assigning schools, with
the student's or parent's choice as the most important factor:

(1) The student's or parent's choice of the receiving school;
(2) The best interests of the student; and
(3) Distance and travel time to a receiving school.

The education authority shall not consider student academic
performance, free and reduced price lunch status, or athletic ability in
assigning a student to a school. When assigning transfer students to
approved charter schools, an education authority shall coordinate with
each approved charter school and its admissions process if capacity is
insufficient to enroll all students who submit a timely application.

5. An education authority may deny a transfer to a student who
in the most recent school year has been suspended from school two or
more times or who has been suspended for an act of school violence
under subsection 2 of section 160.261. A student whose transfer is
initially precluded under this subsection may be permitted to transfer
on a provisional basis as a probationary transfer student, subject to no
further disruptive behavior, upon a statement from the student's
current school that the student is not disruptive. A student who is
denied a transfer under this subsection has the right to an in-person
meeting with a representative of the authority. Each education
authority shall develop administrative guidelines to provide common
standards for determining disruptive behavior that shall include, but
not be limited to, criteria under the safe schools act.

6. Notwithstanding any other provision of law, the test scores of
transfer students attending schools in districts other than their district
of residence under section 167.826 shall be counted as follows:

(1) In the first year of attendance in a district or approved
charter school, a transfer student's score on a statewide assessment
shall not be included when calculating the status or progress scores on
the district's or charter school's annual performance report scores. The
growth score shall be weighted at one hundred percent;

(2) In the second year of attendance, a transfer student's score
on a statewide assessment shall be weighted at thirty percent when
calculating the district's or charter school's performance for purposes
of the district's or charter school's annual performance report status or
progress score, with the growth score weighted at one hundred percent;

(3) In the third year of attendance, a transfer student's score on
a statewide assessment shall be weighted at seventy percent when
calculating the district's or charter school's performance for purposes
of the district's or charter school's annual performance report status or
progress score, with the growth score weighted at one hundred percent;

(4) In the fourth year of attendance and any subsequent years of
attendance, a transfer student's score on a statewide assessment shall
be weighted at one hundred percent when calculating the district's or
charter school's performance for purposes of the district's or charter
school's annual performance report status or progress score, with the
growth score weighted at one hundred percent.

7. When performing the requirements of this section, section 167.132, or sections 167.830 to 167.845, if an education authority whose geographic area includes a district that operates an unaccredited school as described in subsection 1 or 2 of section 167.826 is not coordinating transfers due to insufficient funding or because the governor has not yet appointed a number of members sufficient to constitute a quorum to the education authority, the department of elementary and secondary education shall contract with or collaborate with any organizations it chooses, subject to the exception described in subsection 8 of this section, in order to coordinate transfers that each education authority is required to coordinate under such sections. The department of elementary and secondary education and such organization or organizations it chooses shall fulfill all functions of the education authorities, including the duty to perform the tuition calculation as described in subsection 4 of section 167.132.
