TERRY L. SPIELER, Secretary.

AN ACT

To repeal section 163.031, RSMo Supp. 1999, relating to state aid for public schools, and to enact in lieu thereof one new section relating to the same subject.

Be it enacted by the General Assembly of the State of Missouri, as follows:

Section A. Section 163.031, RSMo Supp. 1999, is repealed and one new section enacted in lieu thereof, to be known as section 163.031, to read as follows:

163.031. 1. School districts which meet the requirements of section 163.021 shall be entitled to an amount computed as follows: an amount determined by multiplying the number of eligible pupils by the lesser of the district's equalized operating levy for school purposes as defined in section 163.011 or two dollars and seventy-five cents per one hundred dollars assessed valuation multiplied by the guaranteed tax base per eligible pupil times the proration factor plus an amount determined by multiplying the number of eligible pupils by the greater of zero or the district's equalized operating levy for school purposes as defined in section 163.011 minus two dollars and seventy-five cents per one hundred dollars assessed valuation multiplied by the guaranteed tax base per eligible pupil times the proration factor. For the purposes of this section, the proration factor shall be equal to the sum of the total appropriation for distribution under subsections 1 and 2 of this section; and the state total of the deductions as calculated in subsection 2 of this section which do not exceed the district entitlements as adjusted by the same proration factor; divided by the amount of the state total of district entitlements before proration as calculated pursuant to this subsection; provided that, if the proration factor so calculated is greater than one, the proration factor for line 1(b) shall be the greater of one or the proration factor for line 1(a) minus five hundredths, and provided that if the proration factor so calculated is less than one, the proration factor for line 1(a) shall be the lesser of one or the proration factor for line 1(b) plus five hundredths.

2. From the district entitlement for each district there shall be deducted the following amounts: an amount determined by multiplying the district equalized assessed valuation by the district's equalized operating levy for school purposes times the district income factor plus ninety percent of any payment received the current year of protested taxes due in prior years no earlier than the 1997 tax year minus the amount of any protested taxes due in the current year and for which notice of protest was received during the current year; one hundred percent of the amount received the previous year for school purposes from intangible taxes, fines, forfeitures and escheats, payments in lieu of taxes and receipts from state assessed railroad and utility tax, except that any penalty paid after July 1, 1995, by a concentrated animal feeding operation as defined by the department of natural resources rule shall not be included; one hundred percent of the amounts received the previous year for school purposes from federal properties pursuant to sections 12.070 and 12.080, RSMo; federal impact aid received the previous year for school purposes pursuant to P.L. 81-874 less fifty thousand dollars multiplied by ninety percent or the maximum percentage allowed by federal regulation if that percentage is less than ninety; fifty percent, or the percentage otherwise provided in section 163.087, of Proposition C revenues received the previous year for school purposes from the school district trust fund pursuant to section 163.087; one hundred percent of the amount received the previous year for school purposes from the fair share fund pursuant to section 149.015, RSMo; and one hundred percent of the amount received the previous year for school purposes from the free textbook fund, pursuant to section 148.360, RSMo.

3. School districts which meet the requirements of section 163.021 shall receive categorical add-on revenue as provided in this subsection. There shall be individual proration factors for each categorical entitlement provided for in this subsection, and each proration factor shall be determined by annual appropriations, but no categorical proration factor shall exceed the entitlement proration factor established pursuant to subsection 1 of this section, except that the vocational education entitlement proration factor established pursuant to line 16 of subsection 6 of this section and the educational and screening program entitlements proration factor established pursuant to line 17 of subsection 6 of this section may exceed the entitlement proration factor established pursuant to subsection 1 of this section. The categorical add-on for the district shall be the sum of: seventy-five percent of the district allowable transportation costs pursuant to section 163.161 multiplied by the proration factor; the special education approved or allowed cost entitlement for the district, provided for by section 162.975, RSMo, multiplied by the proration factor; seventy-five percent of the district gifted education approved or allowable cost entitlement as determined pursuant to section 162.975, RSMo, multiplied by the proration factor; the free and reduced lunch eligible pupil count for the district, as defined in section 163.011, multiplied by twenty percent, for a district with an operating

levy in excess of two dollars and seventy-five cents per one hundred dollars assessed valuation, or twenty-two percent, otherwise times the guaranteed tax base per eligible pupil times two dollars and seventy-five cents per one hundred dollars assessed valuation times the proration factor plus the free and reduced lunch eligible pupil count for the district, as defined in section 163.011, times thirty percent times the guaranteed tax base per eligible pupil times the following quantity: ((the greater of zero or the district's operating levy for school purposes minus two dollars and seventy-five cents per one hundred dollars assessed valuation) times one or, beginning in the fifth year following the effective date of this section, the quotient of the district's fiscal instructional ratio of efficiency for the prior year divided by the fiscal year 1998 statewide average fiscal instructional ratio of efficiency, if the district's prior year fiscal instructional ratio of efficiency is at least five percent below the fiscal year 1998 statewide average) times the proration factor, minus court-ordered state desegregation aid received by the district for operating purposes; the career ladder entitlement for the district, as provided for in sections 168.500 to 168.515, RSMo, multiplied by the proration factor; the vocational education entitlement for the district, as provided for in section 167.332, RSMo, multiplied by the proration factor and the district educational and screening program entitlements as provided for in sections 178.691 to 178.699, RSMo, times the proration factor.

4. Each district's apportionment shall be the prorated categorical add-ons plus the greater of the district's prorated entitlement minus the total deductions for the district or zero.

5. (1) In the 1993-94 school year and all subsequent school years, pursuant to section 10(c) of article X of the state constitution, a school district shall adjust upward its operating levy for school purposes to the extent necessary for the district to at least maintain the current operating expenditures per pupil received by the district from all sources in the 1992-93 school year, except that its operating levy for school purposes shall not exceed the highest tax rate in effect subsequent to the 1980 tax year, or the minimum rate required by subsection 2 of section 163.021, whichever is less.

(2) The revenue per eligible pupil received by a district from the following sources: line 1 minus line 10, or zero if line 1 minus line 10 is less than zero, plus line 14 of subsection 6 of this section, shall not be less than the revenue per eligible pupil received by a district in the 1992-93 school year from the foundation formula entitlement payment amount plus the amount of line 14 per eligible pupil that exceeds the line 14 per pupil amount from the 1997-98 school year, or the revenue per eligible pupil received by a district in the 1992-93 school year from the foundation formula entitlement payment amount plus the amount of line 14(a) per eligible pupil times the quotient of line 1 minus line 10, divided by the number of eligible pupils, or zero if line 1 minus line 10 is less than zero, divided by the revenue per eligible pupil received by the district in the 1992-93 school

year from the foundation formula entitlement payment amount, whichever is greater, **provided that, beginning in the 2000-2001 school year no district shall receive less revenue per pupil pursuant to this subdivision than the district received in the 1999-2000 school year times the cumulative change in the general price level as measured by the consumer price index for all urban consumers for the United States, or its successor index, as defined and officially recorded by the United States Department of Labor or its successor agency, for the current year compared to the 1999-2000 school year.** The department of elementary and secondary education shall make an addition in the payment amount of line 19 of subsection 6 of this section to assure compliance with the provisions contained in this section.

(3) For any school district which meets the eligibility criteria for state aid as established in section 163.021, but which under subsections 1 to 4 of this section, receives no state aid for two successive school years, other than categorical add-ons, by August first following the second such school year, the commissioner of education shall present a plan to the superintendent of the school district for the waiver of rules and the duration of said waivers, in order to promote flexibility in the operations of the district and to enhance and encourage efficiency in the delivery of instructional services. The provisions of other law to the contrary notwithstanding, the plan presented to the superintendent shall provide a summary waiver, with no conditions, for the pupil testing requirements pursuant to section 160.257, RSMo. Further, the provisions of other law to the contrary notwithstanding, the plan shall detail a means for the waiver of requirements otherwise imposed on the school district related to the authority of the state board of education to classify school districts pursuant to section 161.092, RSMo, and such other rules as determined by the commissioner of education, except that such waivers shall not include the provisions established pursuant to sections 160.514 and 160.518, RSMo.

(4) In the 1993-94 school year and each school year thereafter for two years, those districts which are entitled to receive state aid under subsections 1 to 4 of this section, shall receive state aid in an amount per eligible pupil as provided in this subsection. For the 1993-94 school year, the amount per eligible pupil shall be twenty-five percent of the amount of state aid per eligible pupil calculated for the district for the 1993-94 school year pursuant to subsections 1 to 4 of this section plus seventy-five percent of the total amount of state aid received by the district from all sources for the 1992-93 school year for which the district is entitled and which are distributed in the 1993-94 school year pursuant to subsections 1 to 4 of this section. For the 1994-95 school year, the amount per eligible pupil shall be fifty percent of the amount of state aid per eligible pupil calculated for the district for the 1994-95 school year pursuant to subsections 1 to 4 of this section plus fifty percent of the total amount of state aid received by the district from all sources for the 1992-93 school year for which the district is entitled and which are distributed in the

1994-95 school year pursuant to subsections 1 to 4 of this section. For the 1995-96 school year, the amount of state aid per eligible pupil shall be seventy-five percent of the amount of state aid per eligible pupil calculated for the district for the 1995-96 school year pursuant to subsections 1 to 4 of this section plus twenty-five percent of the total amount of state aid received by the district from all sources for the 1992-93 school year for which the district is entitled and which are distributed in the 1995-96 school year pursuant to subsections 1 to 4 of this section. Nothing in this subdivision shall be construed to limit the authority of a school district to raise its district operating levy pursuant to subdivision (1) of this subsection.

(5) If the total of state aid apportionments to all districts pursuant to subdivision (3) of this subsection is less than the total of state aid apportionments calculated pursuant to subsections 1 to 4 of this section, then the difference shall be deposited in the outstanding schools trust fund. If the total of state aid apportionments to all districts pursuant to subdivision (1) of this subsection is greater than the total of state aid apportionments calculated pursuant to subsections 1 to 4 of this section, then funds shall be transferred from the outstanding schools trust fund to the state school moneys fund to the extent necessary to fund the district entitlements as modified by subdivision (4) of this subsection for that school year with a district entitlement proration factor no less than one and such transfer shall be given priority over all other uses for the outstanding schools trust fund as otherwise provided by law.

6. State aid shall be determined as follows:
