CONCURRENT RESOLUTIONS

Senator Klarich offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 23

WHEREAS, the Congress of the United States has required the use of reformulated motor fuel in many major urban centers of the nation, known as "non-attainment areas" for failure to attain air quality standards; and

WHEREAS, this reformulated motor fuel most often achieves the federal requirement for "oxygenated" components through inclusion of a substantial amount of methyl tertiary-butyl ether or MTBE; and

WHEREAS, motor fuels are often leaked into the ground surrounding a fuel station by leakage from underground storage tanks or splashing losses; and

WHEREAS, MTBE is more water-soluble than components in conventional gasoline; and

WHEREAS, MTBE is transported much more readily into aquifers used for drinking water supplies; and

WHEREAS, MTBE renders drinking water foul and unusable by humans; and

WHEREAS, MTBE has been used in reformulated motor fuel required throughout the St. Louis non-attainment area during the warm weather season beginning in 1999:

NOW THEREFORE BE IT RESOLVED, by the Missouri

Senate, Ninetieth General Assembly, Second Regular Session, the House of Representatives concurring therein, that the Department of Natural Resources be instructed to assess the extent of contamination of ground and surface water in the St. Louis non-attainment area and the risk of future contamination in that area from continuing use of reformulated motor fuel containing MTBE and to report its findings to the General Assembly and Governor no later than December 15, 2000; and

BE IT FURTHER RESOLVED that the Secretary of the Senate be instructed to prepare properly inscribed copies of this resolution for the Governor and the Director of the Department of Natural Resources.
