

FIRST REGULAR SESSION

SENATE BILL NO. 52

91ST GENERAL ASSEMBLY

INTRODUCED BY SENATOR CHILDERS,

Pre-filed December 1, 2000, and 1,000 copies ordered printed.

TERRY L. SPIELER, Secretary.

0357S.02L

AN ACT

To repeal sections 301.010, 304.001, 304.015, 304.180, 304.200, 304.580 and 307.375, RSMo 2000, relating to traffic regulations, and to enact in lieu thereof eight new sections relating to the same subject, with penalty provisions.

Be it enacted by the General Assembly of the State of Missouri, as follows:

Section A. Sections 301.010, 304.001, 304.015, 304.180, 304.200, 304.580 and 307.375, RSMo 2000, are repealed and eight new sections enacted in lieu thereof, to be known as sections 301.010, 304.001, 304.015, 304.180, 304.200, 304.580, 307.375 and 1, to read as follows:

301.010. As used in this chapter and sections 304.010 to 304.040, 304.120 to 304.260, RSMo, and sections 307.010 to 307.175, RSMo, the following terms mean:

(1) "All-terrain vehicle", any motorized vehicle manufactured and used exclusively for off-highway use which is fifty inches or less in width, with an unladen dry weight of six hundred pounds or less, traveling on three, four or more low pressure tires, with a seat designed to be straddled by the operator, and handlebars for steering control;

(2) "Automobile transporter", any vehicle combination designed and used specifically for the transport of assembled motor vehicles, **including camper units**;

(3) "Axle load", the total load transmitted to the road by all wheels whose centers are included between two parallel transverse vertical planes forty inches apart, extending across the full width of the vehicle;

(4) "Boat transporter", any vehicle combination designed and used specifically to transport assembled boats and boat hulls;

(5) "Body shop", a business that repairs physical damage on motor vehicles that are not

EXPLANATION--Matter enclosed in bold-faced brackets [thus] in this bill is not enacted and is intended to be omitted in the law.

owned by the shop or its officers or employees by mending, straightening, replacing body parts, or painting;

(6) "Bus", a motor vehicle primarily for the transportation of a driver and eight or more passengers but not including shuttle buses;

(7) "Commercial motor vehicle", a motor vehicle designed or regularly used for carrying freight and merchandise, or more than eight passengers but not including vanpools or shuttle buses;

(8) "Cotton trailer", a trailer designed and used exclusively for transporting cotton at speeds less than forty miles per hour from field to field or from field to market and return;

(9) "Dealer", any person, firm, corporation, association, agent or subagent engaged in the sale or exchange of new, used or reconstructed motor vehicles or trailers;

(10) "Director" or "director of revenue", the director of the department of revenue;

(11) "Driveaway operation", the movement of a motor vehicle or trailer by any person or motor carrier other than a dealer over any public highway, under its own power singly, or in a fixed combination of two or more vehicles, for the purpose of delivery for sale or for delivery either before or after sale;

(12) "Dromedary", a box, deck, or plate mounted behind the cab and forward of the fifth wheel on the frame of the power unit of a truck tractor-semitrailer combination. A truck tractor equipped with a dromedary may carry part of a load when operating independently or in a combination with a semitrailer;

(13) "Farm tractor", a tractor used exclusively for agricultural purposes;

(14) "Fleet", any group of ten or more motor vehicles owned by the same owner;

(15) "Fleet vehicle", a motor vehicle which is included as part of a fleet;

(16) "Fullmount", a vehicle mounted completely on the frame of either the first or last vehicle in a saddlemount combination;

(17) "Gross weight", the weight of vehicle and/or vehicle combination without load, plus the weight of any load thereon;

(18) "Hail-damaged vehicle", any vehicle, the body of which has become dented as the result of the impact of hail;

(19) "Highway", any public thoroughfare for vehicles, including state roads, county roads and public streets, avenues, boulevards, parkways or alleys in any municipality;

(20) "Improved highway", a highway which has been paved with gravel, macadam, concrete, brick or asphalt, or surfaced in such a manner that it shall have a hard, smooth surface;

(21) "Intersecting highway", any highway which joins another, whether or not it crosses the same;

(22) "Junk vehicle", a vehicle which is incapable of operation or use upon the highways and has no resale value except as a source of parts or scrap, and shall not be titled or registered;

(23) "Kit vehicle", a motor vehicle assembled by a person other than a generally recognized manufacturer of motor vehicles by the use of a glider kit or replica purchased from an authorized manufacturer and accompanied by a manufacturer's statement of origin;

(24) "Land improvement contractors' commercial motor vehicle", any not-for-hire commercial motor vehicle the operation of which is confined to:

(a) An area that extends not more than a radius of one hundred miles from its home base of operations when transporting its owner's machinery, equipment, or auxiliary supplies to or from projects involving soil and water conservation, or to and from equipment dealers' maintenance facilities for maintenance purposes; or

(b) An area that extends not more than a radius of twenty-five miles from its home base of operations when transporting its owner's machinery, equipment, or auxiliary supplies to or from projects not involving soil and water conservation. Nothing in this subdivision shall be construed to prevent any motor vehicle from being registered as a commercial motor vehicle or local commercial motor vehicle;

(25) "Local commercial motor vehicle", a commercial motor vehicle whose operations are confined solely to a municipality and that area extending not more than fifty miles therefrom, or a commercial motor vehicle whose property-carrying operations are confined solely to the transportation of property owned by any person who is the owner or operator of such vehicle to or from a farm owned by such person or under the person's control by virtue of a landlord and tenant lease; provided that any such property transported to any such farm is for use in the operation of such farm;

(26) "Local log truck", a commercial motor vehicle which is registered pursuant to this chapter to operate as a motor vehicle on the public highways of this state, used exclusively in this state, used to transport harvested forest products, operated solely at a forested site and in an area extending not more than a fifty-mile radius from such site, carries a load with dimensions not in excess of twenty-five cubic yards per two axles with dual wheels, and is not operated on the national system of interstate and defense highways described in Title 23, Section 103(e) of the United States Code, does not have more than four axles and does not pull a trailer which has more than two axles. A local log truck may not exceed the limits required by law, however, if the truck does exceed such limits as determined by the inspecting officer, then notwithstanding any other provisions of law to the contrary, such truck shall be subject to the weight limits required by such sections as licensed for eighty thousand pounds;

(27) "Local transit bus", a bus whose operations are confined wholly within a municipal corporation, or wholly within a municipal corporation and a commercial zone, as defined in section 390.020, RSMo, adjacent thereto, forming a part of a public transportation system within such municipal corporation and such municipal corporation and adjacent commercial zone;

(28) "Log truck", a vehicle which is not a local log truck and is used exclusively to transport

harvested forest products to and from forested sites which is registered pursuant to this chapter to operate as a motor vehicle on the public highways of this state for the transportation of harvested forest products;

(29) "Major component parts", the rear clip, cowl, frame, body, cab, front-end assembly, and front clip, as those terms are defined by the director of revenue pursuant to rules and regulations or by illustrations;

(30) "Manufacturer", any person, firm, corporation or association engaged in the business of manufacturing or assembling motor vehicles, trailers or vessels for sale;

(31) "Mobile scrap processor", a business located in Missouri or any other state that comes onto a salvage site and crushes motor vehicles and parts for transportation to a shredder or scrap metal operator for recycling;

(32) "Motor change vehicle", a vehicle manufactured prior to August, 1957, which receives a new, rebuilt or used engine, and which used the number stamped on the original engine as the vehicle identification number;

(33) "Motor vehicle", any self-propelled vehicle not operated exclusively upon tracks, except farm tractors;

(34) "Motor vehicle primarily for business use", any vehicle other than a recreational motor vehicle, motorcycle, motortricycle, or any commercial motor vehicle licensed for over twelve thousand pounds:

(a) Offered for hire or lease; or

(b) The owner of which also owns ten or more such motor vehicles;

(35) "Motorcycle", a motor vehicle operated on two wheels;

(36) "Motorized bicycle", any two-wheeled or three-wheeled device having an automatic transmission and a motor with a cylinder capacity of not more than fifty cubic centimeters, which produces less than three gross brake horsepower, and is capable of propelling the device at a maximum speed of not more than thirty miles per hour on level ground;

(37) "Motortricycle", a motor vehicle operated on three wheels, including a motorcycle while operated with any conveyance, temporary or otherwise, requiring the use of a third wheel. A motortricycle shall not be included in the definition of all-terrain vehicle;

(38) "Municipality", any city, town or village, whether incorporated or not;

(39) "Nonresident", a resident of a state or country other than the state of Missouri;

(40) "Non-USA-std motor vehicle", a motor vehicle not originally manufactured in compliance with United States emissions or safety standards;

(41) "Operator", any person who operates or drives a motor vehicle;

(42) "Owner", any person, firm, corporation or association, who holds the legal title to a vehicle or in the event a vehicle is the subject of an agreement for the conditional sale or lease thereof with the right of purchase upon performance of the conditions stated in the agreement and

with an immediate right of possession vested in the conditional vendee or lessee, or in the event a mortgagor of a vehicle is entitled to possession, then such conditional vendee or lessee or mortgagor shall be deemed the owner for the purpose of this law;

(43) "Public garage", a place of business where motor vehicles are housed, stored, repaired, reconstructed or repainted for persons other than the owners or operators of such place of business;

(44) "Rebuilder", a business that repairs or rebuilds motor vehicles owned by the rebuilder, but does not include certificated common or contract carriers of persons or property;

(45) "Reconstructed motor vehicle", a vehicle that is altered from its original construction by the addition or substitution of two or more new or used major component parts, excluding motor vehicles made from all new parts, and new multistage manufactured vehicles;

(46) "Recreational motor vehicle", any motor vehicle designed, constructed or substantially modified so that it may be used and is used for the purposes of temporary housing quarters, including therein sleeping and eating facilities which are either permanently attached to the motor vehicle or attached to a unit which is securely attached to the motor vehicle. Nothing herein shall prevent any motor vehicle from being registered as a commercial motor vehicle if the motor vehicle could otherwise be so registered;

(47) "Rollback or car carrier", any vehicle specifically designed to transport wrecked, disabled or otherwise inoperable vehicles, when the transportation is directly connected to a wrecker or towing service;

(48) "Saddlemount combination", a combination of vehicles in which a truck or truck tractor tows one or more trucks or truck tractors, each connected by a saddle to the frame or fifth wheel of the vehicle in front of it. The "saddle" is a mechanism that connects the front axle of the towed vehicle to the frame or fifth wheel of the vehicle in front and functions like a fifth wheel kingpin connection. When two vehicles are towed in this manner the combination is called a double saddlemount combination. When three vehicles are towed in this manner, the combination is called a triple saddlemount combination;

(49) "Salvage dealer and dismantler", a business that dismantles used motor vehicles for the sale of the parts thereof, and buys and sells used motor vehicle parts and accessories;

(50) "Salvage vehicle", a motor vehicle, semitrailer or house trailer which, by reason of condition or circumstance, has been declared salvage, either by its owner, or by a person, firm, corporation, or other legal entity exercising the right of security interest in it, or by an insurance company as a result of settlement of a claim for loss due to damage or theft; or a vehicle, ownership of which is evidenced by a salvage title; or abandoned property which is titled pursuant to section 304.155, RSMo, or section 304.157, RSMo, and designated with the words "salvage/abandoned property";

(51) "School bus", any motor vehicle used solely to transport students to or from school or to transport students to or from any place for educational purposes;

(52) "Shuttle bus", a motor vehicle used or maintained by any person, firm, or corporation as an incidental service to transport patrons or customers of the regular business of such person, firm, or corporation to and from the place of business of the person, firm, or corporation providing the service at no fee or charge. Shuttle buses shall not be registered as buses or as commercial motor vehicles;

(53) "Special mobile equipment", every self-propelled vehicle not designed or used primarily for the transportation of persons or property and incidentally operated or moved over the highways, including farm equipment, implements of husbandry, road construction or maintenance machinery, ditch-digging apparatus, stone crushers, air compressors, power shovels, cranes, graders, rollers, well-drillers and wood-sawing equipment used for hire, asphalt spreaders, bituminous mixers, bucket loaders, ditchers, leveling graders, finished machines, motor graders, road rollers, scarifiers, earth-moving carryalls, scrapers, drag lines, concrete pump trucks, rock-drilling and earth-moving equipment. This enumeration shall be deemed partial and shall not operate to exclude other such vehicles which are within the general terms of this section;

(54) "Specially constructed motor vehicle", a motor vehicle which shall not have been originally constructed under a distinctive name, make, model or type by a manufacturer of motor vehicles. The term "specially constructed motor vehicle" includes kit vehicles;

(55) "Stinger-steered combination", a truck tractor-semitrailer wherein the fifth wheel is located on a drop frame located behind and below the rearmost axle of the power unit;

(56) "Tandem axle", a group of two or more axles, arranged one behind another, the distance between the extremes of which is more than forty inches and not more than ninety-six inches apart;

(57) "Tractor", "truck tractor" or "truck-tractor", a self-propelled motor vehicle designed for drawing other vehicles, but not for the carriage of any load when operating independently. When attached to a semitrailer, it supports a part of the weight thereof;

(58) "Trailer", any vehicle without motive power designed for carrying property or passengers on its own structure and for being drawn by a self-propelled vehicle, except those running exclusively on tracks, including a semitrailer or vehicle of the trailer type so designed and used in conjunction with a self-propelled vehicle that a considerable part of its own weight rests upon and is carried by the towing vehicle. The term "trailer" shall not include cotton trailers as defined in subdivision (8) of this section and shall not include manufactured homes as defined in section 700.010, RSMo;

(59) "Truck", a motor vehicle designed, used, or maintained for the transportation of property;

(60) "Truck-tractor semitrailer-semitrailer", a combination vehicle in which the two trailing units are connected with a B-train assembly which is a rigid frame extension attached to the rear frame of a first semitrailer which allows for a fifth-wheel connection point for the second semitrailer

and has one less articulation point than the conventional "A dolly" connected truck-tractor semitrailer-trailer combination;

(61) "Truck-trailer boat transporter combination", a boat transporter combination consisting of a straight truck towing a trailer using typically a ball and socket connection with the trailer axle located substantially at the trailer center of gravity rather than the rear of the trailer but so as to maintain a downward force on the trailer tongue;

(62) "Used parts dealer", a business that buys and sells used motor vehicle parts or accessories, but not including a business that sells only new, remanufactured or rebuilt parts. "Business" does not include isolated sales at a swap meet of less than three days;

(63) "Vanpool", any van or other motor vehicle used or maintained by any person, group, firm, corporation, association, city, county or state agency, or any member thereof, for the transportation of not less than eight nor more than forty-eight employees, per motor vehicle, to and from their place of employment; however, a vanpool shall not be included in the definition of the term "bus" or "commercial motor vehicle" as defined by subdivisions (6) and (7) of this section, nor shall a vanpool driver be deemed a "chauffeur" as that term is defined by section 302.010, RSMo; nor shall use of a vanpool vehicle for ride-sharing arrangements, recreational, personal, or maintenance uses constitute an unlicensed use of the motor vehicle, unless used for monetary profit other than for use in a ride-sharing arrangement;

(64) "Vehicle", any mechanical device on wheels, designed primarily for use, or used, on highways, except motorized bicycles, vehicles propelled or drawn by horses or human power, or vehicles used exclusively on fixed rails or tracks, or cotton trailers or motorized wheelchairs operated by handicapped persons;

(65) "Wrecker" or "tow truck", any emergency commercial vehicle equipped, designed and used to assist or render aid and transport or tow disabled or wrecked vehicles from a highway, road, street or highway rights-of-way to a point of storage or repair, including towing a replacement vehicle to replace a disabled or wrecked vehicle;

(66) "Wrecker or towing service", the act of transporting, towing or recovering with a wrecker, tow truck, rollback or car carrier any vehicle not owned by the operator of the wrecker, tow truck, rollback or car carrier for which the operator directly or indirectly receives compensation or other personal gain.

304.001. As used in this chapter and chapter 307, RSMo, the following terms shall mean:

(1) "Abandoned property", any unattended motor vehicle, trailer, all-terrain vehicle, outboard motor or vessel removed or subject to removal from public or private property as provided in sections 304.155 and 304.157, whether or not operational;

(2) "Commercial vehicle enforcement officers", employees of the Missouri state highway patrol who are not members of the patrol but who are appointed by the superintendent of the highway patrol to enforce the laws, rules, and regulations pertaining to commercial vehicles,

trailers, special mobile equipment and drivers of such vehicles;

(3) "Commercial vehicle inspectors", employees of the Missouri state highway patrol who are not members of the patrol but who are appointed by the superintendent of the highway patrol to supervise or operate permanent or portable weigh stations in the enforcement of commercial vehicle laws;

(4) "Commission", the state highways and transportation commission;

(5) "Department", the state [transportation] department **of transportation**;

(6) "Freeway", a divided state highway with four or more lanes, with no access to the throughways except the established interchanges and with no at-grade crossings;

(7) "Interchange", a system of interconnecting roadways in conjunction with one or more grade separations that provides for the movement of traffic between two or more roadways or highways on different levels;

(8) "Intersection", where two or more roadways or highways meet at grade and provide an area for the cross movement of vehicular traffic;

[(7)] **(9)** "Interstate highway", a state highway included in the national system of interstate highways located within the boundaries of Missouri, as officially designated or as may be hereafter designated by the state highways and transportation commission with the approval of the Secretary of Transportation, pursuant to Title 23, U.S.C., as amended;

[(8)] **(10)** "Members of the patrol", the superintendent, lieutenant colonel, majors, captains, director of radio, lieutenants, sergeants, corporals and patrolmen of the Missouri state highway patrol;

[(9)] **(11)** "Off-road vehicle", any vehicle designed for or capable of cross-country travel on or immediately over land, water, ice, snow, marsh, swampland, or other natural terrain without benefit of a road or trail:

(a) Including, without limitation, the following:

- a. Jeeps;
- b. All-terrain vehicles;
- c. Dune buggies;
- d. Multiwheel drive or low-pressure tire vehicles;
- e. Vehicle using an endless belt, or tread or treads, or a combination of tread and low-pressure tires;
- f. Motorcycles, trail bikes, minibikes and related vehicles;
- g. Any other means of transportation deriving power from any source other than muscle or wind; and

(b) Excluding the following:

- a. Registered motorboats;
- b. Aircraft;

c. Any military, fire or law enforcement vehicle;
d. Farm-type tractors and other self-propelled equipment for harvesting and transporting farm or forest products;

e. Any vehicle being used for farm purposes, earth moving, or construction while being used for such purposes on the work site;

f. Self-propelled lawnmowers, or lawn or garden tractors, or golf carts, while being used exclusively for their designed purpose; and

g. Any vehicle being used for the purpose of transporting a handicapped person;

[(10)] **(12)** "Person", any natural person, corporation, or other legal entity;

[(11)] **(13)** "Right-of-way", the entire width of land between the boundary lines of a state highway, including any roadway;

[(12)] **(14)** "Roadway", that portion of a state highway ordinarily used for vehicular travel, exclusive of the berm or shoulder;

[(13)] **(15)** "State highway", a highway constructed or maintained by the state highways and transportation commission with the aid of state funds or United States government funds, or any highway included by authority of law in the state highway system, including all right-of-way;

[(14)] **(16)** "Towing company", any person or entity which tows, removes or stores abandoned property;

[(15)] **(17)** "Urbanized area", an area with a population of fifty thousand or more designated by the Bureau of the Census, within boundaries to be fixed by the state highways and transportation commission and local officials in cooperation with each other and approved by the Secretary of Transportation. The boundary of an urbanized area shall, at a minimum, encompass the entire urbanized area as designed by the Bureau of the Census.

304.015. 1. All vehicles not in motion shall be placed with their right side as near the right-hand side of the highway as practicable, except on streets of municipalities where vehicles are obliged to move in one direction only or parking of motor vehicles is regulated by ordinance.

2. Upon all public roads or highways of sufficient width a vehicle shall be driven upon the right half of the roadway, except as follows:

(1) When overtaking and passing another vehicle proceeding in the same direction pursuant to the rules governing such movement;

(2) When placing a vehicle in position for and when such vehicle is lawfully making a left turn in compliance with the provisions of sections 304.014 to 304.026 or traffic regulations thereunder or of municipalities;

(3) When the right half of a roadway is closed to traffic while under construction or repair;

(4) Upon a roadway designated by local ordinance as a one-way street and marked or signed for one-way traffic.

3. It is unlawful to drive any vehicle upon any highway or road which has been divided

into two or more roadways by means of a physical barrier or by means of a dividing section or delineated by curbs, lines or other markings on the roadway, except to the right of such barrier or dividing section, or to make any left turn or semicircular or U-turn on any such divided highway, except [in a crossover or] **at an intersection or interchange or at any signed location designated by the state highways and transportation commission or the department of transportation. The provisions of this subsection shall not apply to emergency vehicles, law enforcement vehicles or to vehicles owned by the commission or the department.**

4. The authorities in charge of any highway or the state highway patrol may erect signs temporarily designating lanes to be used by traffic moving in a particular direction, regardless of the center line of the highway, and all members of the Missouri highway patrol and other peace officers may direct traffic in conformance with such signs. When authorized signs have been erected designating off-center traffic lanes, no person shall disobey the instructions given by such signs.

5. Whenever any roadway has been divided into three or more clearly marked lanes for traffic, the following rules in addition to all others consistent herewith shall apply:

(1) A vehicle shall be driven as nearly as practicable entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety;

(2) Upon a roadway which is divided into three lanes a vehicle shall not be driven in the center lane, except when overtaking and passing another vehicle where the roadway ahead is clearly visible and such center lane is clear of traffic within a safe distance, or in preparation for a left turn or where such center lane is at the time allocated exclusively to traffic moving in the direction the vehicle is proceeding and is sign-posted to give notice of such allocation;

(3) Upon all highways any vehicle proceeding at less than the normal speed of traffic thereon shall be driven in the right-hand lane for traffic or as close as practicable to the right-hand edge or curb, except as otherwise provided in sections 304.014 to 304.026;

(4) Official signs may be erected by the highways and transportation commission or the highway patrol may place temporary signs directing slow moving traffic to use a designated lane or allocating specified lanes to traffic moving in the same direction and drivers of vehicles shall obey the directions of every such sign;

(5) Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and except when a roadway has been divided into traffic lanes, each driver shall give to the other at least one-half of the main traveled portion of the roadway whenever possible.

6. All vehicles in motion upon a highway having two or more lanes of traffic proceeding in the same direction shall be driven in the right-hand lane except when overtaking and passing another vehicle or when preparing to make a proper left turn or when otherwise directed by traffic

markings, signs or signals.

7. Violation of this section shall be deemed an infraction unless such violation causes an immediate threat of an accident, in which case such violation shall be deemed a class C misdemeanor, or unless an accident results from such violation, in which case such violation shall be deemed a class A misdemeanor.

304.180. 1. No vehicle or combination of vehicles shall be moved or operated on any [primary or interstate] highway in this state [plus a distance not to exceed ten miles from such highways,] having a greater weight than twenty thousand pounds on one axle, no combination of vehicles operated by transporters of general freight over regular routes as defined in section 390.020, RSMo, shall be moved or operated on any highway of this state having a greater weight than the vehicle manufacturer's rating on a steering axle with the maximum weight not to exceed twelve thousand pounds on a steering axle, and no vehicle shall be moved or operated on any [primary or interstate highways] **state highway** of this state having a greater weight than thirty-four thousand pounds on any tandem axle; the term "tandem axle" shall mean a group of two or more axles, arranged one behind another, the distance between the extremes of which is more than forty inches and not more than ninety-six inches apart [and further provided, however, that when any vehicle or combination of vehicles with six axles which includes a tandem axle group as above defined and a group of three axles which are fully equalized, automatically or mechanically, and the distance between the center of the extremes of which does not exceed one hundred ten inches, the chief engineer of the Missouri state transportation department shall issue a special permit for the movement thereof, as provided in section 304.200, for twenty thousand pounds for each axle of the tandem axle group and for sixteen thousand pounds for each axle of the group of three fully equalized axles which are equalized, automatically or mechanically, when said vehicle or combination of vehicles is used to transport excavation or construction machinery or equipment, road-building machinery or farm implements over routes in the primary system and other routes that are not a part of the interstate system of highways; provided, further, that the chief engineer of the Missouri state transportation department may issue permits on the interstate system].

2. An "axle load" is defined as the total load transmitted to the road by all wheels whose centers are included between two parallel transverse vertical planes forty inches apart, extending across the full width of the vehicle.

3. Subject to the limit upon the weight imposed upon a [primary or interstate] highway **of this state** through any one axle or on any tandem axle, the total gross weight with load imposed [upon a primary or interstate highway, plus a distance not to exceed ten miles from such highways,] by any group of two or more consecutive axles of any vehicle or combination of vehicles shall not exceed the maximum load in pounds as set forth in the following table:

Distance in feet

between the extremes
of any group of two or
more consecutive axles,
measured to the nearest
foot, except where
indicated otherwise

feet	Maximum load in pounds				
	2 axles	3 axles	4 axles	5 axles	6 axles
4	34,000				
5	34,000				
6	34,000				
7	34,000				
8	34,000	34,000			
More than 8	38,000	42,000			
9	39,000	42,500			
10	40,000	43,500			
11	40,000	44,000			
12	40,000	45,000	50,000		
13	40,000	45,500	50,500		
14	40,000	46,500	51,500		
15	40,000	47,000	52,000		
16	40,000	48,000	52,500	58,000	
17	40,000	48,500	53,500	58,500	
18	40,000	49,500	54,000	59,000	
19	40,000	50,000	54,500	60,000	
20	40,000	51,000	55,500	60,500	66,000
21	40,000	51,500	56,000	61,000	66,500
22	40,000	52,500	56,500	61,500	67,000
23	40,000	53,000	57,500	62,500	68,000
24	40,000	54,000	58,000	63, 000	68,500
25	40,000	54,500	58,500	63,500	69,000
26	40,000	55,500	59,500	64,000	69,500
27	40,000	56,000	60,000	65,000	70,000
28	40,000	57,000	60,500	65,500	71,000
29	40,000	57,500	61,500	66,000	71,500
30	40,000	58,500	62,000	66,500	72,000
31	40,000	59,000	62,500	67,500	72,500

32	40,000	60,000	63,500	68,000	73,000
33	40,000	60,000	64,000	68,500	74,000
34	40,000	60,000	64,500	69,000	74,500
35	40,000	60,000	65,500	70,000	75,000
36		60,000	66,000	70,500	75,500

Notwithstanding the above table, two consecutive sets of tandem axles may carry a gross load of thirty-four thousand pounds each if the overall distance between the first and last axles of such consecutive sets of tandem axles is thirty-six feet or more.

4. [Subject to the limit upon the weight imposed upon a supplementary highway through any one axle which shall not have a weight greater than eighteen thousand pounds or on any tandem axle which shall not have a weight greater than thirty-two thousand pounds, the total gross weight with load imposed upon the supplementary highway by any vehicle or combination of vehicles shall not exceed the gross weight given for the respective distance between the first and last axle of a single motor vehicle or by the first axle of a motor vehicle and the last axle of the last vehicle in any combination of vehicles measured longitudinally to the nearest foot as set forth in the following table:

Distance in feet
between the
extreme axles

The state highways and transportation commission, with respect to bridges on the supplementary system, or the person in charge of supervision or maintenance of the bridges on the county, township or city roads and streets may determine and by official order declare that certain designated bridges do not appear susceptible to unreasonable and unusual damage by reason of such higher weight limits and may legally be subjected to the higher limits in this section.]

Whenever the state highways and transportation commission finds that any state highway bridge in the state is in such a condition that use of such bridge by vehicles of the weights specified in subsection 3 of this section will endanger the bridge, or the users of the bridge, the commission may establish maximum weight limits and speed limits for vehicles using such bridge. The governing body of any city or county may grant authority by act or ordinance to the state highways and transportation commission to enact the limitations established in this section on those roadways within the purview of such city or county. Notice of the weight limits and speed limits established by the commission shall be given by posting signs at a conspicuous place at each end of any such bridge.

[6.] 5. Nothing in this section shall be construed as permitting lawful axle loads, tandem

axle loads or gross loads in excess of those permitted under the provisions of Section 127 of Title 23 of the United States Code.

[7. Additional routes may be designated by the state highways and transportation commission for movement or operation by vehicles or combinations of vehicles having the weights described in subsections 1 and 3 of this section.

8.] **6.** Notwithstanding the weight limitations contained in this section, any vehicle or combination of vehicles operating on highways other than the interstate highway system may exceed single axle, tandem axle and gross weight limitations in an amount not to exceed two thousand pounds. However, total gross weight shall not exceed eighty thousand pounds.

[9.] **7.** Notwithstanding any provision of this section to the contrary, the department of transportation shall issue a single-use special permit, or upon request of the owner of the truck or equipment, shall issue an annual permit, for the transporting of any concrete pump truck or well-drillers' equipment. The department of transportation shall set fees for the issuance of permits pursuant to this subsection. Notwithstanding the provisions of section 301.133, RSMo, concrete pump trucks or well-drillers' equipment may be operated on state maintained roads and highways at any time on any day.

304.200. 1. The chief engineer of the state department of transportation, for good cause shown and when the public safety or public interest so justifies, shall issue special permits for vehicles or equipment exceeding the limitations on width, length, height and weight herein specified, or which are unable to maintain minimum speed limits. Such permits shall be issued only for a single trip or for a definite period, not beyond the date of expiration of the vehicle registration, and shall designate the highways and bridges which may be used pursuant to the authority of such permit.

2. The chief engineer of the state department of transportation shall upon proper application and at no charge issue a special permit to any person allowing the movement on state and federal highways of farm products between sunset and sunrise not in excess of fourteen feet in width. Special permits allowing movement of oversize loads of farm products shall allow for movement between sunset and sunrise, subject to appropriate requirements for safety lighting on the load, appropriate limits on load dimensions and appropriate consideration of high traffic density between sunset and sunrise on the route to be traveled. The chief engineer may also issue upon proper application a special permit to any person allowing the movement on the state and federal highways of vehicles hauling lumber products and earth-moving equipment not in excess of [fourteen] **sixteen** feet in width. The chief engineer may also issue upon proper application a special permit to any person allowing the movement on the state and federal highways of concrete pump trucks or well-drillers equipment. For the purposes of this section, "farm products" shall have the same meaning as provided in section 400.9-109, RSMo.

3. Rules and regulations for the issuance of special permits shall be prescribed by the state

highways and transportation commission and filed with the secretary of state. No rule or portion of a rule promulgated pursuant to the authority of section 304.010 and this section shall become effective unless it has been promulgated pursuant to the provisions of chapter 536, RSMo.

4. The officer in charge of the maintenance of the streets of any municipality may issue such permits for the use of the streets by such vehicles within the limits of such municipalities.

5. In order to transport manufactured homes, as defined in section 700.010, RSMo, on the roads, highways, bridges and other thoroughfares within this state, only the applicable permits required by this section shall be obtained.

304.580. 1. As used in this section, the term "construction zone" or "work zone" means any area upon or around any highway as defined in section 302.010, RSMo, which is visibly marked by the department of transportation **or the appropriate political subdivision or a contractor performing work for the department of transportation or appropriate political subdivision** as an area where construction, maintenance, or other work is temporarily occurring.

2. Upon a conviction or a plea of guilty by any person for a moving violation as defined in section 302.010, RSMo, or any offense listed in section 302.302, RSMo, the court shall assess a fine of thirty-five dollars in addition to any other fine authorized to be imposed by law, if the offense occurred within a construction zone or a work zone.

3. Upon a conviction or a plea of guilty by any person for a speeding violation pursuant to either section 304.009 or 304.010, the court shall assess a fine of two hundred fifty dollars in addition to any other fine authorized to be imposed by law, if the offense occurred within a construction zone or a work zone and at the time the speeding violation occurred there was any person in such zone who was there to perform duties related to the reason for which the area was designated a construction or work zone. However, no person assessed an additional fine pursuant to this subsection shall also be assessed an additional fine pursuant to subsection 2 of this section and no person shall be assessed an additional fine pursuant to this subsection if no signs have been posted pursuant to subsection 4 of this section.

4. The penalty authorized by subsection 3 of this section shall only be assessed by the court if the department of transportation or the appropriate political subdivision or a contractor performing work for the department of transportation or appropriate political subdivision has erected signs upon or around a construction or work zone which are clearly visible from the highway and which state substantially the following message: "Warning: \$250 fine for speeding in this work zone".

5. Upon a conviction or a plea of guilty by any person for a speeding violation pursuant to a speed limit established by a county ordinance which exceeds the posted speed limit by ten miles per hour, the court shall assess a fine of seventy-five dollars in addition to any other fine authorized to be imposed by law, if the offense occurred

within a construction zone or a work zone and at the time there was any person in such zone who was there to perform duties related to the reason for which the area was designated a construction or work zone. The penalty authorized by this subsection shall only be assessed by the court if the county or a contractor performing work for the county has erected signs upon or around a construction or work zone which are clearly visible from the highway and which state substantially the following message: "Warning: \$75 fine for speeding in this work zone".

6. Municipalities may adopt ordinances establishing additional penalties for traffic violations in construction work zones subject to such ordinances and not to traffic regulations established in this chapter.

7. During any day in which no person is present in a construction zone or work zone established pursuant to subsection 3 or 5 of this section, to perform duties related to the purposes of the zone, the warning sign regarding an additional penalty shall not be visible to motorists. During any period of two hours or more where no person is present in such a zone on a day in which persons have been or will be present to perform duties related to the reason for which the area was designated as a construction or work zone, the warning sign regarding an additional penalty shall not be visible to motorists. The department of transportation or the political subdivision shall be responsible for compliance with provisions regarding warning signs about an additional penalty, when the work zone is established for work performed by employees of that entity. For work zones in which work is being performed by a contractor for the department of transportation or a political subdivision, the contract shall require compliance with the provisions of this subsection regarding warning signs about an additional penalty. Nothing in this subsection shall prohibit other warning or traffic control signs necessary for public safety in the construction zone or work zone being visible to motorists at all times, regardless of whether persons are present in the zone.

[3.] 8. This section shall not be construed to enhance the assessment of court costs or the assessment of points pursuant to section 302.302, RSMo.

307.375. 1. The owner of every bus used to transport children to or from school in addition to any other inspection required by law shall submit the vehicle to an official inspection station, and obtain a certificate of inspection, sticker, seal or other device annually, but the inspection of the vehicle shall not be made more than sixty days prior to operating the vehicle during the school year. The inspection shall, in addition to the inspection of the mechanism and equipment required for all motor vehicles under the provisions of sections 307.350 to 307.390, include an inspection to ascertain that the following items are correctly fitted, adjusted, and in good working condition:

- (1) All mirrors, including crossview, inside, and outside;
- (2) The front and rear warning flashers;

- (3) The stop signal arm;
- (4) The crossing control arm on public school buses required to have them pursuant to section 304.050, RSMo;
- (5) The rear bumper to determine that it is flush with the bus so that hitching of rides cannot occur;
- (6) The exhaust tailpipe [to determine that it does not protrude from the bus] **shall be flush with or may extend not more than two inches beyond the perimeter of the body or bumper;**
- (7) The emergency doors and exits to determine them to be unlocked and easily opened as required;
- (8) The lettering and signing on the front, side[,] and rear of the bus;
- (9) The service door;
- (10) The step treads;
- (11) The aisle mats or aisle runners;
- (12) The emergency equipment which shall include as a minimum, a first aid kit, flares or fuses, and a fire extinguisher;
- (13) The seats, including a determination that they are securely fastened to the floor;
- (14) The emergency door buzzer;
- (15) All hand hold grips;
- (16) The interior glazing of the bus.

2. In addition to the inspection required by subsection 1 **of this section**, the Missouri state highway patrol shall conduct an inspection after February first of each school year of all vehicles required to be marked as school buses under section 304.050, RSMo. This inspection shall be conducted by the Missouri highway patrol in cooperation with the department of elementary and secondary education and shall include, as a minimum, items in subsection 1 **of this section** and the following:

- (1) The driver seat belts;
- (2) The heating and defrosting systems;
- (3) The reflectors;
- (4) The bus steps;
- (5) The aisles.

3. If, upon inspection, conditions which violate the standards in subsection 2 **of this section** are found, the owner or operator shall have them corrected in ten days and notify the superintendent of the Missouri state highway patrol or those persons authorized by the superintendent. If the defects or unsafe conditions found constitute an immediate danger, the bus shall not be used until corrections are made and the superintendent of the Missouri state highway patrol or those persons authorized by the superintendent are notified.

4. The Missouri highway patrol may inspect any school bus at any time and if such inspection reveals a deficiency affecting the safe operation of the bus, the provisions of subsection 3 of this section shall be applicable.

Section 1. Any operator who knowingly avoids a weigh station shall be guilty of a violation pursuant to section 304.240, RSMo. Any operator who knowingly avoids a weigh station when he or she exits any highway, proceeds along an outer road, passes any weigh station and then reenters the same highway in the same direction as before, provided that such operator had actual knowledge of such weigh station, as demonstrated by a road sign or any other means, prior to exiting such highway, shall be guilty of a violation pursuant to section 304.240, RSMo.
