252.303. The department [shall] **may** develop and implement, in cooperation with the University of Missouri college of agriculture, **the University of Missouri Center for Agroforestry**, the University of Missouri extension service, the Missouri department of natural

resources, private industry councils, the United States Department of Agriculture, and the Missouri department of agriculture, an agroforestry program. The program shall be designed to [complement a new or extended federal conservation reserve plan which as part of its provisions allows and encourages] **encourage** the development of a state program of agroforestry, and shall encourage soil conservation and diversifications of the state's agricultural base through the use of trees planted [or otherwise established in lanes with grass strips or row crops or both in between the lanes] **in an agroforestry configuration to accommodate alley cropping, forested-riparian buffers, silvopasture and windbreaks.**

252.306. As used in sections 252.300 to 252.333, the following terms shall mean:

(1) **"Alley cropping", planting rows of trees at wide spacings and cropping the alleyways;**

(2) "Conservation reserve program", the conservation reserve program authorized by the Federal Food Security Act of 1985, as amended, (Title XII, P.L. 99-198), or its successor program;

[(2)] (3) "Department", the Missouri department of conservation;

[(3)] (4) "Director", the director of the Missouri department of conservation;

[(4)] (5) "Eligible land", agricultural land which is susceptible to soil erosion [and is placed in the federal conservation reserve program as of or after August 28, 1990, or other highly erosive land which is not enrolled in the conservation reserve program, as determined by the director of the department] **that has a recent cropping history, marginal pasture land, land surrounding livestock enclosures and riparian zones;**

(6) **"Eligible practices", single or multiple rows of trees, alone or combined with other plants such as grass, conventional row crops or horticulture crops, and animals located at intervals of distance within or around fields, around livestock enclosures, and along streams and rivers, specifically designed to provide production and environmental enhancement benefits in accordance with the practices identified in section 252.303;**

[(5)] (7) "Enhancement phase", the period of time, not to exceed ten years, immediately following the establishment phase, during which payments are made by the state of Missouri to landowners who use their eligible land for agroforestry purposes as required by the department;

[(6)] (8) "Establishment phase", the period of time during which eligible land is [placed and held in the federal conservation reserve program or a six-month period for other highly erosive land which is not enrolled in the conservation reserve program] **being prepared for planting trees and developing agroforestry practices,** as determined by the director of the department;

(9) **"Forested-riparian buffers", a combination of trees and other vegetation;**

(10) **"Silvopasture", combining trees with forage and livestock;**

(11) **"Windbreaks", planting single or multiple rows of trees for protection and enhanced production of crops and animals.**

252.309. 1. The director may enter into agreements with individual landowners to make [such] **incentive** payments **during the enhancement phase** to landowners. Recipients of such payments shall utilize the land for which such payment is made for agroforestry purposes as

required by the director [under] **pursuant to** sections 252.300 to 252.333. [In administering such payments, the director may make such agreements with the United States Department of Agriculture as the director deems necessary or appropriate.]

2. The amount of state incentive payment made to a landowner per acre of eligible land shall be [the lesser of:

(1)] an amount which, when added to any cash or in-kind **net** income produced by crops raised on the land, is substantially equal to the amount per acre previously paid or which would have been paid to the landowner under the federal conservation reserve program]; or

(2) An amount less than that provided in subdivision (1) of this subsection, if such lesser amount does not significantly reduce the number of acres for which agroforestry incentive payments are made under this section].

3. If an application made pursuant to section 252.315 is approved by the director, the director shall develop a schedule of annual payments to be made by the state.

4. The state shall not make any payment to a landowner to maintain the use of eligible land during the enhancement phase for agroforestry purposes after ten years have elapsed since the first such incentive payment is made.

252.315. 1. To participate in the program, the landowner shall make application to the director in writing. The written application shall show the number of acres to be placed in the program and that the land which is to be placed in the agroforestry program meets the eligibility requirements of this section. The application shall also contain a detailed plan of the landowner's proposal to meet the requirements of sections 252.300 to 252.333, including the type **and number** of [tree] **trees** to be planted, established, or managed, the type of compatible grass [and the row crop or crops to be grown in the alternative strips], **other crops** and such other information as may be deemed necessary. **The number of trees required to satisfy eligibility may vary with agroforestry practice, but in each case shall be a sufficient number to guarantee the success of the practice and shall be consistent with standards established for each practice.**

2. The director shall review each application. In reviewing the application the director shall determine the type or types of soil located in the area of the land proposed to be included in the agroforestry program and shall apply the land capability classification system to determine the potential or limitations of the land for inclusion in the program. Before the director acts upon the application, an on-site inspection shall be made by a representative of the department of conservation or its approved agent. The inspecting representative shall attest to the efficacy of the agroforestry plan to be used, the number of acres to be placed under agroforestry management, the species **and number** of trees to be planted, established, or managed, and [agronomic] **other crop** components of the proposed program. After the report of the on-site inspector and the review by the director, the director shall determine the landowner's eligibility to participate in the agroforestry program and shall determine the amount of cost sharing, including in-kind and labor components, for the landowner. If the director fails to approve an application, the aggrieved landowner may request a hearing before the conservation commission or its authorized representative within thirty

days of notice to the landowner of the failure of the conservation department to approve the application, or the landowner may proceed under the provisions of section 536.150, RSMo, as if the act of the conservation department was one not subject to administrative review. If an action is brought pursuant to section 536.150, RSMo, venue shall be in Cole County.

252.321. [The director shall develop demonstration agroforestry conservation programs to illustrate to landowners in this state the benefits and advantages of participation in such a program. Demonstration sites shall be selected by the director to involve various soil types and various erosion dangers and shall be geographically located among the major farming areas of the state. The director shall contract with the University of Missouri extension service for the delivery of the demonstration educational component of sections 252.300 to 252.333.] **The University of Missouri center of agroforestry and extension service, in consultation with the director, shall establish agroforestry demonstration areas, and develop and deliver the educational components of sections 252.300 to 252.333.**

252.324. 1. The director may promulgate rules and regulations necessary to carry out the provisions of sections 252.300 to 252.333. Before promulgating any such rule, the director shall seek the advice and comments of the University of Missouri college of agriculture, **the University of Missouri Center for Agroforestry**, the University of Missouri extension service, the Missouri department of natural resources, private industry councils, [the United States Department of Agriculture,] the Missouri department of economic development and the Missouri department of agriculture. **The director may seek advice and comments before promulgating rules and regulations from the United States Department of Agriculture and any other entities deemed advisable by the director.** No rule or portion of a rule promulgated under the authority of this chapter shall become effective unless it has been promulgated pursuant to the provisions of [section 536.024] **chapter 536**, RSMo.

2. The Missouri department of conservation may contract with the division of soil and water conservation of the Missouri department of natural resources for any administrative functions required under the provisions of sections 252.300 to 252.333.

252.330. During the establishment phase, the director may pay for the planting of trees on eligible land which is used for agroforestry pursuant to sections 252.300 to 252.333. Such payment shall be limited to expenses which are determined to be reasonable and necessary by the director, **but shall not exceed seventy-five percent of the cost of establishment.**

252.333. The director may make incentive payments for agroforestry purposes of land [which is susceptible to soil erosion] **enrolled in this program.** The duration of such payments shall not exceed ten years. The director may also expend funds to plant trees on such land. Such expenditures may include both planting and associated practices as determined by the director.

**262.800. Sections 262.800 to 262.810 shall be known and may be cited as the "Farmland Protection Act". The purpose of the farmland protection act shall be to:**

- (1) Protect agricultural, horticultural and forestry land;**
- (2) Promote continued economic viability of agriculture, horticulture and forestry as a business;**

- (3) Promote the continued economic viability of those businesses dependent on providing materials, equipment and services to agriculture, horticulture and forestry;**
- (4) Promote quality of life in the agriculture community; and**
- (5) Protect owners of property used for farming purposes from unreasonable costs associated with assessments for improvements running across the land.**

**262.801. For purposes of the farmland protection act, "farming purposes" shall be defined as at least three-fourths of the property used for farming, tillage of the soil, dairy farming, ranching, production or raising of crops, poultry or livestock, breeding, pasturing, training or boarding of equines or mules, and production of poultry or livestock products in an unmanufactured state.**

**262.802. 1. This state or any political subdivision of this state shall hold water and sewer assessments in abeyance, without interest, until improvements on such property are connected to the water or sewer system for which the assessment was made. However, if a political subdivision requires the property to be connected to the sewer system of the political subdivision pursuant to section 644.027, RSMo, such connection shall not trigger the payment of the assessment.**

**2. The provisions of this section shall apply only to tracts of real property:**

**(1) Comprised of ten or more contiguous acres; and**

**(2) Used for farming purposes.**

**3. At the time improvements on such property are connected to the water or sewer system, the owner shall pay to the political subdivision an amount equal to the proportionate charge for the number of system lines connected to improvements on such property.**

**4. The owner shall not be charged based on the total cost of running the water or sewer system to or across the owner's real property. Rather, the assessment shall be based on:**

**(1) A reasonable hookup charge;**

**(2) A proportionate charge for the number of improvements requested to be connected to such assessments in relation to the total capacity of the system; and**

**(3) The anticipated proportionate burden to the system.**

**5. The period of abeyance shall end when the property ceases to be used for farming purposes.**

**6. When the period of abeyance ends, the assessment is payable in accordance with the terms set forth in the assessment resolution, so long as such terms are not inconsistent with sections 262.800 to 262.810. To the extent that such terms are inconsistent, the provisions of sections 262.800 to 262.810 shall control.**

**7. All statutes of limitation pertaining to action for enforcement of payment for assessments shall be suspended during the time that any assessment is held in abeyance without interest.**

**8. In addition to any other federal, state or local requirements concerning**

assessments for improvements, the political subdivision responsible for assessments shall notify owners of all properties which are proposed to be assessed of the amount proposed to be charged and the terms of payment for each improvement and that the property may be subject to protection according to the provisions of the Missouri farmland protection act.

**(1) The notice shall:**

**(a) Be provided in writing to the owners and all parties of recorded interest, at the address listed on records of the county for the receipt of real property tax statements for such tract of land;**

**(b) Be sent certified mail, return receipt requested, restricted delivery to addressee;**

**(c) Clearly state the total amount of the proposed assessment for said parcel of real property;**

**(d) State in the body of the letter as follows:**

**"As owners of the property proposed to be assessed, you have one hundred eighty days from the date of receipt of this notice to accept, in writing, the amount of the assessment stated herein or to dispute the amount by filing an action in the circuit court of the county where the real property is located. If your property is comprised of ten or more contiguous acres, your property may be eligible for protection from payment of the assessment under the Missouri Farmland Protection Act as provided in chapter 262, RSMo, and you have sixty days from the date of receipt of this notice to notify (the political subdivision proposing the assessment), in writing, of your intent to claim protection for your property under the Act. Whether or not you claim the protection under the Farmland Protection Act, you have the right to dispute the amount of the assessment in circuit court.";**

**(e) Owners must be given the address for sending notice to the political subdivision with the letter; and**

**(f) A copy of the farmland protection act shall be included with the letter.**

**(2) An owner claiming protection under the farmland protection act does not forfeit the right to contest the amount of the assessment.**

**9. Any owner of property proposed to be assessed who chooses to dispute the amount of the assessment, shall file an action disputing the amount of the assessment in the circuit court of the county in which the real property subject to the assessment is located. The action disputing the assessment must be filed within one hundred eighty days of receipt of the notice in subsection 8 of this section.**

**10. Any political subdivision that disputes the applicability of the farmland protection act to property proposed to be assessed shall file an action in the circuit court of the county in which the real property subject to the assessment is located to dispute the applicability of the farmland protection act to said parcel of real property. Such action must be filed within thirty days of receipt of the notice of the**

**claim for protection under the farmland protection act.**

**11. Nothing in this section shall be construed as diminishing the authority of counties or other political subdivisions to hold assessments in abeyance.**

**12. The provisions of this section shall not apply to public water supply districts as defined by sections 247.010 to 247.227, RSMo, except that a public water supply district shall not require payment from landowners whose property is crossed to service another tract of land until any improvement on such property is connected to the rural water supply district. At the time such connection is made, the provisions of the farmland protection act shall apply.**

**13. In a city with a population of at least four hundred thousand located in more than one county, the assessments on a tract of property entitled to protection pursuant to the provisions of the farmland protection act shall be held in abeyance except that an initial payment of an amount not to exceed five hundred dollars per acre of the tract, up to an amount not to exceed ten thousand dollars may be assessed at the time of final judgment concerning the amount of the assessment or upon mutual agreement of the parties as to the amount of the assessment. In all other respects, the provisions of the farmland protection act shall apply.**

**14. If a political subdivision files any action challenging the constitutionality or to have all or any portion declared null and void or for declaratory judgement of sections 262.800 to 262.810, the state shall be added as a party to any such action and the attorney general of Missouri shall defend such action. Any owner of property that is subject to the provisions of the farmland protection act shall have the right to be apprised of the status of such action. If the property owner requests separate representation in writing, the attorney general may appoint a special assistant attorney general if the property owner asserts an argument in conflict with the arguments asserted by the attorney general. Such special assistant attorney general may continue to represent the property owner for purposes of all appeals. If the political subdivision fails to prevail, whether in whole or in part, in its action, the entire cost of providing representation to the landowner, including reasonable attorney fees and costs, shall be fully reimbursed to the State of Missouri by the political subdivision.**

**262.805. Purchasers of real property within one mile of areas zoned for agriculture or used for farming purposes as defined by the farmland protection act contained in sections 262.800 to 262.810, shall be presumed to have notice of such agriculture zoning or use for farming purposes. Agricultural zoned land or land used for farming purposes may be used for commercial or hobby operations that may include but is not limited to the following: breeding and rearing of livestock, weaning and treating of livestock, raising and harvesting of crops, application of fertilizers and pesticides, dust, noise, odors, gunfire, burning, extended hours of operation, seasonal operations, timber operations, cultivated and idle land. Agriculture operations typically consist of open and timbered spaces that are private property and are not open**

**to the public or to public access. Agriculture operations contain many hazards, including but not limited to, open water (including ponds, streams, ditches), open pits, brush, brush piles, snakes, untamed and unpredictable animals, electric and barbed fences, storage building and structure, tractors and equipment, and hidden obstacles. Children and adults are not permitted to roam, play or trespass on farm or agriculture property. These activities and conditions may already be regulated by state, federal or local law and nothing herein is meant to exempt such property from any such laws or regulations but is simply notification to purchasers that living in a rural environment does not mean you will live in an environment free of conditions you find irritating, dangerous, or unpleasant.**

**262.810. Property subject to the farmland protection act shall not be taken in whole or in part by any political subdivision of this state by eminent domain except after a public hearing pursuant to chapter 610, RSMo.**

272.010. All fields and enclosures **where animals are kept** shall be enclosed by [hedge, or with a fence sufficiently close, composed of posts and rails, posts and palings, posts and planks, posts and wires, palisades or rails alone, laid up in a manner commonly called a worm fence, or of turf, with ditches on each side, or of stone or brick] **a lawful fence as defined in section 272.020.**

272.020. [All hedges shall be at least four feet high, and all fences composed of posts and rails, posts and palings, posts and wire, posts and boards or palisades, shall be at least four and one-half feet high, with posts set firmly in the ground, not more than eight feet apart, and with rails, palings, wire, boards or palisades securely fastened thereto, and placed at proper distances apart, so as to resist horses, cattle, swine and like stock; and fences composed of woven wire, wire netting or wire mesh shall be at least four and one-half feet high, securely fastened to posts, such posts to be set firmly in the ground, and not more than sixteen feet apart, and such woven wire, wire netting or wire mesh to be of sufficient closeness and strength as to resist horses, cattle, swine and like stock; those composed of turf shall be at least four feet high and with ditches on either side at least three feet wide at the top and three feet deep; and what is known as a worm fence shall be at least five feet high to the top of the rider, or if not ridered, shall be five feet to the top rail or pole, and shall be locked with strong rails or poles or stakes; those composed of stone or brick shall be at least four and one-half feet high; provided, that in counties in this state in which swine are restrained from running at large, all fences built of posts set firmly in the ground, not more than sixteen feet apart, and three barbed wires tensely stretched and securely fastened thereto, and the upper wire being substantially four feet from the ground, and the two remaining wires placed at proper distances below to resist horses, cattle and like stock, and all fences built of posts and rails, or posts and slats, with posts set firmly in the ground, not more than ten feet apart, and with three rails or slats securely fastened thereto, and the upper rail or slat being placed substantially four and one-half feet from the ground, and the two remaining rails or slats to each panel being placed at proper distances below to resist horses, cattle and like stock, and all fences built of posts and boards, with posts set firmly in the ground, not more than eight feet apart, and board substantially one inch thick and six inches wide, securely fastened thereto, and the upper board being at least

four and one-half feet high, and the remaining boards placed at proper distances below, to resist horses, cattle and like stock, shall be deemed and held to be a good and lawful fence; provided, that nothing contained in this section shall be so construed as to relieve any railroad company from the obligation of fencing the right-of-way of said company against hogs, sheep, cattle, horses and like stock.] **1. Any fence consisting of posts and wire or boards at least four feet high which is mutually agreed upon by adjoining landowners or decided upon by the associate circuit court of the county is a lawful fence.**

**2. All posts shall be set firmly in the ground not more than twelve feet apart with wire or boards securely fastened to such posts and placed at proper distances apart to resist horses, cattle and other similar livestock.**

272.040. Upon complaint of [the party injured to any circuit or associate circuit judge of the county, such circuit or] **either party claiming to be injured because of the trespass or taking up of livestock as described in section 272.030, the** associate circuit judge shall, without delay, issue an order to three disinterested householders of the neighborhood, not of kin to either party, reciting the complaint, and requiring them to view the [hedge or] fence where the trespass is complained of, and take memoranda of the same, and appear before the [judge] **court** on the day set for trial; and their evidence shall determine the lawfulness of such fence. **The persons appointed by the associate circuit judge shall be paid twenty-five dollars each per day for the time actually employed which shall be taxed as costs in the case equally against the parties and collected accordingly.**

272.050. If any person [damnified for want of such] **who does not maintain a** sufficient [hedge or] fence, shall hurt, wound, lame, kill or destroy, or cause the same to be done by shooting, worrying with dogs, or otherwise, any of the animals in this chapter mentioned, such [persons] **person** shall satisfy the owner in double damages with costs.

272.060. [Whenever the fence of any owner of real estate, now erected or constructed, or which shall hereafter be erected or constructed, the same being a lawful fence, as defined by sections 272.010 and 272.020, serves to enclose the land of another, or which shall become a part of the fence enclosing the lands of another, on demand made by the person owning such fence, such other person shall pay the owner one-half the value of so much thereof as serves to enclose his land, and upon such payment shall own an undivided half of such fence.] **1. Whenever the owner of real estate desires to construct or repair a lawful fence, as defined by section 272.020, which divides his or her land from that of another, such owner shall give written notice of such intention to the adjoining landowner. The landowners shall meet and each shall construct or repair that portion of the division fence which is on the right of each owner as the owners face the fence line while standing at the center of their common property line on their own property. If the owners cannot agree as to the part each shall construct or keep in repair, either of them may apply to an associate circuit judge of the county who shall forthwith summon three disinterested householders of the township or county to appear on the premises, giving three days' notice to each of the parties of the time and place where such viewers shall meet, and**

**such viewers shall, under oath, designate the portion to be constructed or kept in repair by each of the parties interested and notify them in writing of the same. Such viewers shall receive twenty-five dollars each per day for the time actually employed, which shall be taxed as court costs.**

**2. Existing agreements not consistent with the procedure prescribed by subsection 1 of this section shall be in writing, signed by the agreeing parties, and shall be recorded in the office of the recorder of deeds in the county or counties where the fence line is located. The agreement shall describe the land and the portion of partition fences between their lands which shall be erected and maintained by each party. The agreement shall bind the makers, their heirs and assigns.**

272.070. [If the parties interested shall fail to agree as to the value of one-half of such fence, the owner of the fence may apply to a circuit or associate circuit judge of the county, who shall without delay, issue an order to three disinterested householders of the township, not of kin to either party, reciting the complaint, and requiring them to view the fence, estimate the value thereof, and make return under oath to the associate circuit judge on the day named in the order.] **If either party fails to construct or repair his or her portion of the fence in accordance with the provisions of section 272.060 within a reasonable time, the other may petition the associate circuit court of the county to authorize the petitioner to build or repair the fence in a manner to be directed by the court. If the court authorizes such action, the petitioner shall be given a judgment for that portion of the total cost of the fence which is chargeable as the other party's portion of the fence, court costs and reasonable attorney's fees. Any such judgment shall be a lien on the real estate of the party against whom the judgment may be given.**

272.100. The persons appointed by the associate circuit judge [under sections 272.070 and 272.090] **pursuant to section 272.040** to discharge the duties therein specified, shall receive [one dollar] **twenty-five dollars** each per day for the time actually employed, which [, together with the fees of the associate circuit judge and sheriff,] shall be taxed as costs in the case against the parties [in proportion to their respective interests,] and collected accordingly.

272.110. Every person owning a part of a division fence shall keep **his or her portion of** the same in good repair according to the requirements of this chapter, and [when said division fence is a hedge, shall properly trim the same at least once a year, to a height not greater than four and one-half feet, and to a breadth not greater than three feet, and for the purpose of trimming said hedge as aforesaid, he shall have the right to] **may** enter upon any land lying adjacent thereto **for such purpose**. [Either party owning land adjoining a division fence or hedge may, upon the failure of any of the other parties, have all that part of such division fence belonging to such other parties repaired, upon the failure of such other party to do so, such repairing or trimming to be at the cost of the party so failing to repair or trim his part of such fence; and the party so repairing or trimming such hedge shall always throw the brush trimmed off on his own side of such hedge; and upon neglect or refusal to keep said fence in repair, or to keep said hedge trimmed as provided in this section, such owner shall be liable in double damages to the party injured thereby, and such

injured party may enforce the collection of such damages by restraining any cattle or other stock that may break in or come upon his enclosure by reason of the failure of such other party to keep his portion of such division fence in repair and proceeding therewith under the provisions of sections 270.010 to 270.200, RSMo.]

272.130. Any person aggrieved by any order or judgment of the associate circuit judge made or entered [under] **pursuant to** the provisions of [sections 272.040, 272.070 and 272.090] **section 272.040 or 272.070** may have the same reviewed in the same manner as other civil actions.

**272.132. No actions taken by the trustees shall become effective until ratification of a majority of the governing boards has taken place. At the next regular meeting following any meeting of the trustees, each governing board may place on their agenda for approval or disapproval the actions taken by the trustees. Failure to take action by any board shall be construed as disapproval of all actions taken by the trustees. It shall be the responsibility of the secretary of the trustees to see that each governing board has a copy of the minutes of each meeting held by the trustees at least two days prior to the next regular meetings of these boards. If the governing board shall decide to continue meeting as a single board for purposes of governing the subdistrict, the trustees shall serve as an advisory body only. Such tracts of land shall be legally described and the names of the owners thereof shall be set forth beside the description of each tract so listed. 278.290. 1. After a [subdistrict] **watershed district** has been organized for more than five years and [said subdistrict] **that watershed district** does not have any outstanding bonds, has not constructed or contracted to construct any works of improvement, nor incurred any continuing obligations for maintenance and operation of any works of improvement or if any works of improvement have been constructed, if there are no bonds outstanding, and an agency of the United States government or the state of Missouri or a county or municipal corporation of this state has made arrangements satisfactory to the Secretary of Agriculture and the state soil and water districts commission to assume responsibility for operating and maintaining such improvement, not less than fifty percent of the landowners of the [subdistrict] **watershed district** may petition the governing body of the [subdistrict] **watershed district** to call for and conduct a referendum upon the disestablishment of the [subdistrict] **watershed district**. If sixty-five percent of the landowners voting in referendum do vote in favor of the disestablishment of the [subdistrict] **watershed district**, the [governing body] **watershed district board** shall declare the [subdistrict] **watershed district** to be disestablished; however, prior to any such declaration the [governing body] **watershed district board** shall pay or make arrangements to pay any outstanding indebtedness. After all property has been sold and the obligations of the [subdistrict] **watershed district** are met, any remaining funds shall be turned over to the county commissions of the respective counties.

278.300. If a soil and water conservation district is disestablished [as provided by] **pursuant to** section 278.150, the state soil and water districts commission shall [become the governing body of any subdistrict] **have the same responsibilities as the soil and water conservation district with respect to formation, consolidation and disestablishment of any watershed district** or portion thereof, organized within the boundaries of such soil and water conservation districts [and shall be entitled to all benefits and powers heretofore granted to such governing body by sections 278.160 to 278.300, including the levy and collection of taxes]. **In all other matters after a district is disestablished, the commission shall act in an advisory capacity to the watershed district board in lieu of the soil and water district board.**
