The hospital official may designate a representative of an organ or tissue procurement organization to request consent.

2. When there is a patient who is a suitable candidate for organ or tissue donation based on hospital accepted criteria the designee shall request consent to a donation from the persons authorized to give consent as specified in subdivision (1), (2), (3), (4), (5) or (6) of subsection 2 of section 194.220. The request shall be made in the order of priority stated in subsection 2 of section 194.220. subsection 2 of section 194.220, then the hospital shall notify and request consent to a donation from a member of the class described in subdivision (7) of subsection 2 of section 194.220. Such notification to a member of the class described in subdivision (7) of subsection 2 of section 194.220 shall occur before death where practicable.

**3.] Each hospital shall comply with the requirements of 42 CFR 482.45, as amended, which establishes standards for hospital participation in the organ procurement and donation process.**

**2.** No request shall be required if the hospital designee has actual notice of a gift by the decedent under subsection 1 of section 194.220 or actual notice of contrary indications by the decedent.

**[4.] 3.** Consent shall be obtained by the methods specified in section 194.240.

**[5.] 4.** Where a donation is requested, the designee shall verify such request in the patient's medical record. Such verification of request for organ donation shall include a statement to the effect that a request for consent to an anatomical gift has been made, and shall further indicate thereupon whether or not consent was granted, the name of the person granting or refusing the consent, and his or her relationship to the decedent.

**[6.]** Upon the approval of the designated next of kin or other individual, as set forth in subsection 2 of section 194.220, the hospital shall then notify an organ or tissue procurement organization and cooperate in the procurement of the anatomical gift or gifts pursuant to applicable provisions of sections 194.210 to 194.290.

194.240. **1.** A gift of all or part of the body **[under] pursuant to** subsection 1 of section 194.220 may be made by will. The gift becomes effective upon the death of the testator without waiting for probate. If the will is not probated, or if it is declared invalid for testamentary purposes, the gift, to the extent that it has been acted upon in good faith, is nevertheless valid and effective.

**2.** A gift of all or part of the body **[under] pursuant to** subsection 1 of section 194.220 may also be made by document other than a will. The gift becomes effective upon the death of the donor. The document, which may be a card designed to be carried on the person, must be signed by the donor in the presence of two witnesses who must sign the document in **[his] the donor's** presence or before a notary or other official authorized to administer oaths generally. If the donor cannot sign, the document may be signed for **[him] the donor** at **[his] the donor's** direction and in **[his] the donor's** presence in the presence of two witnesses who must sign the document in **[his] the donor's** presence. Delivery of the document of gift during the donor's lifetime is not necessary to make the gift valid.

**3.** The gift may be made to a specified donee or without specifying a donee. If the latter,

the gift may be accepted by a physician as donee upon or following death. If the gift is made to a specified donee who is not available at the time and place of death or if the gift cannot be implemented, a physician upon or following death, in the absence of any expressed indication that the donor desired otherwise, may accept the gift as donee. The physician who becomes a donee **[under] pursuant to** this subsection shall not participate in the procedures for removing or transplanting a part.

4. Notwithstanding the provisions of subsection 2 of section 194.270, the donor may designate in his **or her** will, card, or other document of gift the surgeon or physician to carry out the appropriate procedures. In the absence of a designation or if the designee is not available, the donee or other person authorized to accept the gift may employ or authorize any surgeon or physician to carry out the appropriate procedures. For the purpose of removing an eye or part thereof, any medical technician employed by a hospital, physician or eye bank and acting under supervision may perform the appropriate procedures. Any medical technician authorized to perform such procedure shall successfully complete the course prescribed in section 194.295 for embalmers.

5. Any gift by a person designated in subsection 2 of section 194.220 shall be made by a document signed by him **or her** or made by his **or her** telegraphic, recorded telephonic, or other recorded message.

A gift of part of the body **[under] pursuant to** subsection 1 of section 194.220 may also be made by a statement on a form which shall be provided on the reverse side of all Missouri motor vehicle licenses issued pursuant to chapter 302, RSMo. The statement to be effective shall be signed by the owner of the license in the presence of two witnesses, who shall sign the statement in the presence of the donor. Use of the form is prima facie evidence that the owner of the license intended to make the anatomical gift, and there shall be no civil or criminal liability for removal of any part of the body indicated on the form by a licensed physician **[or]**, surgeon **or donee**. The gift becomes effective upon the death of the donor. Delivery of the license during the donor's lifetime is not necessary to make the gift valid. The gift shall become invalidated upon expiration, cancellation, revocation, or suspension of the license, and the gift must be renewed upon renewal of each license. Pertinent medical information which may affect the quality of the gift may be included in the statement of gift.

7. Any person eighteen years of age or older, or any person under the age of eighteen with parental consent who indicates the desire to make an organ donation through any method prescribed in this section may also contact the department of health and senior services when completing such form, so that the information may be included in the registry maintained by the department pursuant to subsection 1 of section 194.304. Failure to contact the department of health and senior services shall not be construed to challenge the validity of the organ donation.

8. Organ procurement organizations and tissue banks may **[employ] engage** coordinators

to assist in the procurement of cadaveric organs and tissue for transplant or research. A coordinator who assists in the procurement of cadaveric organs or tissue for transplantation or research must do so under the direction and supervision of a physician or surgeon. With the exception of organ procurement surgery, this supervision may be indirect supervision. For purposes of this subsection, the term "indirect supervision" means that a physician or surgeon is responsible for the medical actions of the coordinator, that the coordinator is acting under protocols expressly approved by a physician or surgeon, and that a physician or surgeon is available, in person or by telephone, to provide medical direction, consultation and advice in cases of organ and tissue donation and procurement.

9. The department of health and senior services shall collect information and publish an annual report which shall include the number of organ and tissue donations made in the state, the number of organ or tissue donations received by citizens of the state of Missouri, the number of organ or tissue donations transported outside the state boundaries and the cost of such organ or tissue donations.
