All members of the police force may receive fifteen holidays with pay, however the board may grant additional holidays with pay, and one hundred four days off duty each year with pay, and the boards may from time to time grant additional days off duty each year with pay when in the judgment of the boards, the granting thereof will not materially impair the efficiency of the department.

86.394. Each member of the retirement board who is in active service with the police department of a city as either a police officer, as defined in section 86.370, or as an employee, as defined in section 86.600, shall be granted authorized leave with pay by such police department to attend any and all educational seminars and like functions that have been authorized by the retirement board, including travel time to and from such functions, not to exceed ten days in any calendar year. Leave granted under this section shall not reduce vacation or other authorized leave time to which such member may be entitled without reference to this section.

86.445. If a city and the police department of such city adopt any program of incentives to authorize or encourage early retirements, whether for employees not yet eligible for regular retirement or for employees who are eligible but have not yet chosen to retire or for both, the retirement board shall be authorized to administer and pay such incentives for retirees who accept such incentives and are members of this retirement system pursuant to sections 86.370 to 86.497, in addition to such other benefits as such members or their beneficiaries are entitled to receive pursuant to sections 86.370 to 86.497 provided such city shall so request and shall agree to increase the city's contribution pursuant to section 86.477 sufficiently to provide the full actuarial cost of any such incentives in addition to the contribution required of such city necessary, in conjunction with members' contributions pursuant to section 86.470, to provide all other benefits provided pursuant to sections 86.370 to 86.497.

86.676. If a city and the police department of such city adopt any program of incentives to authorize or encourage early retirements, whether for employees not yet eligible for regular retirement or for employees who are eligible but have not yet chosen to retire or for both, the retirement board shall be authorized to administer

and pay such incentives for retirees who accept such incentives and are members of this retirement system pursuant to sections 86.600 to 86.790, in addition to such other benefits as such members or their beneficiaries are entitled to receive pursuant to sections 86.600 to 86.790, provided such city shall so request and shall agree to increase said city's contribution pursuant to section 86.760 sufficiently to provide the full actuarial cost of any such incentives in addition to the contribution required of such city necessary, in conjunction with members' contribution pursuant to section 86.760, to provide all other benefits provided pursuant to sections 86.600 to 86.790.

86.690. 1. Upon death after August 28, 2001, of a member for any cause prior to retirement, the following amounts shall be payable subject to subsection 5 of this section, as full and final settlement of any and all claims for benefits under this retirement system:

(1) If the member has less than five years of creditable service, the member's surviving spouse shall be paid, in a lump sum, the amount of accumulated contributions and interest. If there be no surviving spouse, payment shall be made to the member's designated beneficiary, or if none, to the executor or administrator of the member's estate.

(2) If the member has at least five, but less than twenty years of creditable service, the member's surviving spouse may elect, in lieu of the lump sum settlement in subdivision (1) of this subsection, an annuity. Such annuity shall be one-half of the member's accrued annuity at date of death as computed in section 86.650. The effective date of the election shall be the latter of the first day of the month after the member's death or attainment of what would have been the member's early retirement date as provided in section 86.660.

(3) If the member has at least twenty years of creditable service, the member's surviving spouse may elect, in lieu of the lump sum settlement in subdivision (1) of this subsection, the larger of the annuity as computed in subdivision (2) of this subsection or an annuity determined on a joint and survivor's basis from the actuarial value of the member's accrued annuity at date of death.

(4) Any death of a retired member occurring before the date of first payment of the retirement annuity shall be deemed to be a death before retirement.

(5) Benefits payable pursuant to this section shall continue for the lifetime of such surviving spouse without regard to remarriage.

(6) No surviving spouse of a member who dies in service after August 28, 2001, shall be entitled to receive any benefits pursuant to sections 86.600 to 86.790 unless such spouse was married to the member at the time of the member's death in service.

2. Upon death following retirement for any cause after August 28, 2001, of a member who has not elected the optional annuity pursuant to section 86.650, the member's surviving spouse shall receive a pension payable for life, equaling one-half of the member's normal retirement allowance, computed under section 86.650, as of the member's actual retirement date,

Any surviving spouse who was married to such a member at the time of the member's retirement shall be entitled to all benefits for surviving spouses pursuant to sections 86.600 to 86.790 for the life of such surviving spouse without regard to remarriage. If there be no surviving spouse, payment of the member's accumulated contributions less the amount of any prior payments from the retirement system to the member or to any beneficiary of the member shall be made to the member's designated beneficiary or, if none, to the personal representative of the member's estate.

3. For such services, such surviving spouse shall be compensated in an amount equal to the benefits such spouse would have received pursuant to sections 86.600 to 86.790 in the absence of such remarriage.

4. Should the total amount paid from the retirement system to a member, the member's surviving spouse [and], any other beneficiary of the member, **and the funeral benefit under subsection 6 of this section** be less than the member's accumulated contributions, an amount equal to such difference shall be paid to the member's designated beneficiary or, if none, to the personal representative of the member's estate, and such payment shall constitute full and final payment of any and all claims for benefits under the retirement system.

5. Any beneficiary of benefits pursuant to sections 86.600 to 86.790 who becomes the surviving spouse of more than one member shall be paid all benefits due a surviving spouse of that member whose entitlements produce the largest surviving spouse benefits for such beneficiary but shall not be paid surviving spouse benefits as the surviving spouse of more than one member, except that any surviving spouse for whom an election has been made for an optional annuity under subsection 2 of section 86.650 shall be entitled to every annuity for which such surviving spouse has so contracted.

6. Upon receipt of the proper proof of death of a member in service after August 28, 2003, or the death of a member in service on or after August 28, 2003, who dies after having been retired and pensioned, there shall be paid in addition to all other benefits a funeral benefit of one thousand dollars.

(3) The total amount the state shall pay per month towards the cost of retiree and dependent coverage shall revert to the applicable amount being paid by the state in place at that time for retirees who did not retire during the time period indicated in subsection 1 of this section upon the occurrence of any of the following factors:

Exceptions to the twenty-five percent restriction may be made for critical or seasonal positions or any positions impacting federal fund matches. 2. Any uniformed member of the highway patrol, highway patrol employee or department of transportation employee, regardless of the length of time of creditable service, who is found by the board to be disabled as a result of injuries incurred in the performance of the employee's duties, shall be entitled to receive an initial disability benefit in an amount equal to seventy percent of the compensation that the employee was receiving on the date preceding the date of disability; provided, however, that the amount of the disability benefit, plus any primary Social Security disability benefits received by such member shall not exceed ninety percent of the monthly compensation such member was receiving on the date preceding the date of disability.

7. The board shall also provide or contract for long-term disability benefits for those members whose disability exists or is diagnosed as being of such nature as to exist for more than one year. 13. Any member who was receiving disability benefits from the board prior to August 28, 1997, or any member who has submitted an application for disability benefits before August 28, 1997, and would have been eligible to receive benefits pursuant to the eligibility requirements which were applicable at the time of application shall be eligible to receive or shall continue to receive benefits in accordance with such prior eligibility requirements until the member again becomes an employee.

(1) The obligation to provide such disability benefits shall be primarily that of the insurer or service organization and secondarily that of the board;

(2) Any employee who has been denied disability benefits by the insurer or service organization and has exhausted all appeal procedures provided by the insurer or service organization may appeal such decision by filing a petition against the insurer or service organization in a court of law in the employee's county of residence;

(3) The board and the system shall not be liable for the disability benefits provided for by an insurer or service organization pursuant to this section and shall not be subject to any cause of action with regard to disability benefits or the denial of disability benefits by the insurer or service organization unless the employee has obtained judgment against the insurer or service organization for disability benefits and the insurer or service organization is unable to satisfy that judgment.

17. An employee may elect to waive the receipt of any disability benefit provided for pursuant to this section at any time.

104.271. Notwithstanding any other provision of law to the contrary, a member of the Missouri transportation department and highway patrol retirement system or a member of the

Missouri state employees' retirement system shall be entitled to retire with a normal annuity and shall be entitled to elect any of the survivor benefit options and shall also be entitled to any other provisions of this chapter that relate to retirement with a normal annuity if the sum of the member's age and creditable service equals eighty years or more and if the member is at least [fifty] **forty-eight** years of age.

104.370. 1. Any member of the general assembly who has served at least three full biennial assemblies as a member of the general assembly and who meets the conditions for retirement at or after the member's normal retirement age shall be entitled to a normal annuity in a monthly amount equal to one hundred fifty dollars multiplied by the number of biennial assemblies in which such member has served. For the purpose of calculating benefits due under this subsection:

(1) Service in any portion of a biennial assembly after service in at least three biennial assemblies shall be credited as service in a full biennial assembly; and

(2) Any person who is elected as a member of the general assembly at a special election and who serves the remainder of that term to which he was elected at such special election shall receive credit for a full biennial assembly for such service.

2. If a member of either retirement system established by this chapter, who has served at least three full biennial assemblies as a member of the general assembly, is elected to a state office, appointed to a state office, or employed by the state before, after, or before and after his service as a member of the general assembly, the member may, at the end of such employment, receive upon retirement, at or after the member's normal retirement age, the amount which shall be due the member for creditable service as a member of the general assembly. If he has not fully vested as a result of his employment as other than a member of the general assembly, he shall be credited with additional service as a legislator just as though all of the service combined had in fact been rendered as a member of the general assembly and receive a normal annuity. If the member retires before normal retirement age, the member shall receive the actuarial reduction approved by the board. Nothing in this section shall allow any member to simultaneously accumulate service in more than one state retirement system as a member of the general assembly and an employee or state officer; **provided that, any member who otherwise would accrue simultaneous creditable service as a member of the general assembly and as an employee or state officer, may elect prior to retirement to receive such member's service as an employee or state officer in lieu of receiving such creditable service as a member of the general assembly pursuant to subdivision (1) of subsection 1 of this section. Any member who makes such election shall receive creditable service for the member's remaining legislative service equal the pro rata portion of the biennial assembly actually served by such member. The provisions of this subsection providing an election with regard to simultaneous creditable service**

shall apply to any member of the general assembly who is employed on or after August 28, 2003, or any former member of the general assembly who is employed as an employee or state officer on or after August 28, 2003. The term "state officer" as used in this subsection includes a statewide elected official as described pursuant to section 104.371, an administrative law judge or legal advisor as defined in section 287.812, RSMo, or a judge as defined in section 476.515, RSMo.

3. A member who has fully vested as a state officer or employee and has service as a member of the general assembly of less than three full biennial assemblies, upon retirement, at or after the member's normal retirement age, shall be credited with additional service as a state officer or employee for the time he served as a member of the general assembly. If the member retires before normal retirement age, he shall receive the actuarial reduction approved by the board.

4. Any member of the general assembly who has served at least three full biennial assemblies and whose service as such terminates on or after October 1, 1984, and who served as an employee, as that term is defined in section 104.010, prior to the respective dates on which the retirement systems to which such sections apply originally became effective, but was not such an employee on such dates, shall be entitled to the creditable prior service that such employee would have been entitled to in either or both systems had such employee become a member on the date of inception of either or both systems. The maximum number of years of creditable prior service to which a member may become entitled pursuant to this section is less than ten years. The benefits attributable to such service shall be calculated as if all service was rendered as a member of the general assembly.

5. Any former member of the general assembly who is receiving benefits under the provisions of this section shall, upon written request to the board, be made, constituted, appointed and employed by the board as a special consultant on the problems of retirement and other related matters and shall upon request of the board give opinions in writing or orally in response to such requests. As compensation for such services, the retired member shall have his retirement benefits recalculated the first of the month next following his application under this subsection to reflect that any portion of a year of creditable service shall be counted as one full biennial session.

6. Any retired member who is receiving benefits from the system and is elected to the general assembly but does not serve at least three biennial sessions shall receive creditable service for the time he served in the general assembly and upon leaving the general assembly shall have an additional benefit calculated using such service.

7. Benefits paid for service credited to legislative service shall be funded as provided in section 104.436.

8. Any former member of the general assembly not retired on August 28, 1994, who is

fifty-five years of age or more and who has creditable service in the general assembly of at least three full biennial assemblies and has not used such services as creditable services in any other retirement system shall be made and employed by the board as a special consultant on the problems related to retirement and shall, when requested by the board, give opinions either written or orally on such problems. As compensation for such duties the former member of the general assembly shall be entitled to retire with a normal annuity effective the first of the month following receipt by the board of a written application.

9. Notwithstanding any other law to the contrary, any active member of the Missouri state employees' retirement system who is vested, on August 28, 1994, under the provisions of subsection 1 of this section, and who has served as an elected county official and who, by virtue of such service was a member of a retirement system other than the Missouri state employees' retirement system but was not vested in such other retirement system, or was not a member of any retirement system, shall receive creditable prior service in the Missouri state employees' retirement system for such previous service as an elected county official.

104.806. 1. Employees who are earning creditable service in the closed plan of the Missouri state employees' retirement system and who are transferred to the department of transportation as a result of the provisions of executive order 03-05, will not become members of the closed plan of the highways and transportation employees' and highway patrol retirement system unless they elect to transfer membership and creditable service to the closed plan of the highways and transportation employees' and highway patrol retirement system. The election must be in writing and must be made within ninety days of July 1, 2003. Any election to transfer membership and creditable service to the highways and transportation employees' and highway patrol retirement system shall result in the forfeiture of any rights or benefits in the Missouri state employees' retirement system. Any failure to elect to transfer membership and creditable service pursuant to this subsection will result in the employees remaining in the closed plan of the Missouri state employees' retirement system. If an election is made, the effective date for commencement of membership and transfer of such creditable service shall be January 1, 2004.

2. Employees who are earning credited service in the year 2000 plan of the Missouri state employees' retirement system and who are transferred to the department of transportation as a result of the provisions of executive order 03-05 will remain in the year 2000 plan administered by the Missouri state employees' retirement system unless they elect to transfer membership and credited service to the year 2000 plan administered by the highways and transportation employees' and highway patrol retirement system. The election must be in writing and must be made within ninety days of July 1, 2003. Any election to transfer membership and credited service to the

year 2000 plan administered by the highways and transportation employees' and highway patrol retirement system shall result in the forfeiture of any rights or benefits in the Missouri state employees' retirement system. Any failure to elect to transfer membership and credited service pursuant to this subsection will result in the employees remaining in the year 2000 plan administered by the Missouri state employees' retirement system. If an election is made, the effective date for commencement of membership and transfer of such creditable service shall be January 1, 2004.

3. For any employee who elects pursuant to subsection 1 or 2 of this section to transfer to the highways and transportation employees' and highway patrol retirement system, the Missouri state employees' retirement system shall pay to the highways and transportation employees' and highway patrol retirement system, by December 31, 2003, an amount actuarially determined to equal the liability at the time of the transfer to the extent that liability is funded as of the most recent actuarial valuation, not to exceed one hundred percent.

4. In no event shall any employee receive service credit for the same period of service under more than one retirement system as a result of the provisions of this section.

5. For any transferred employee who elects pursuant to subsection 1 or 2 of this section to transfer to the highways and transportation employees' and highway patrol retirement system, the only medical coverage available for the employee shall be the medical coverage provided in section 104.270. The effective date for commencement of medical coverage shall be January 1, 2004. However, this does not preclude medical coverage for the transferred employee as a dependent under any other health care plan.

3. The contributions of members of the retirement system shall be collected by their employers through appropriate deductions from paychecks, except as provided for certain members and employers by section 104.342, RSMo. The total amount deducted from the paychecks of members during any school year shall equal such a percent of their salary rates as may be required by the contribution rate then in effect. Contributions transmitted to the

retirement system before February 20, 1996, based on salary rates which either included or excluded employer-paid medical benefits for members, shall be deemed to have been in compliance with this section. The retirement system shall not refund or adjust contributions or adjust benefit determinations with respect to any period before February 20, 1996, solely because of the treatment of employer-paid medical benefits for members. Effective December 31, 1995, compensation in excess of the limitations set forth in section 401(a)(17) of title 26 of the United States Code shall be disregarded for purposes of determining contributions under this section and calculating benefits paid by the public school retirement system of Missouri. The limitation on compensation for eligible employees shall not be less than the amount which was allowed to be taken into account under the system as in effect on July 1, 1993. For this purpose, an "eligible employee" is an individual who was a member of the system before July 1, 1996.

4. The [contribution rate shall be three percent for the first year of the system's operation. After the first year of operation the] board of trustees shall [have authority to] fix **and certify to the employers** the level rate of contribution[, not to exceed eleven and one-half percent, required for the operation of the system and to make adjustments in such rate as may thereafter be necessary; provided that if the level rate required for operation of the system shall exceed eleven and one-half percent for five consecutive years, all benefits provided herein shall be equitably reduced to such an extent that the rate required for the operation of the system shall be eleven and one-half percent.] **subject to the following:**

(1) **The level rate of contribution for a fiscal year shall not exceed the level rate of contribution for the prior fiscal year by more than one-half percent;**

(2) **The board shall fix and certify to the employers the rate of contribution for a fiscal year no later than six months prior to the date such rate is to be effective;**

(3) **The board shall fix and certify to the employers the rate of contribution for a fiscal year based on an actuarial valuation of the system as of a date not earlier than the last day of the second prior fiscal year. Such actuarial valuation of the system shall be performed using processes and actuarial assumptions that are in accordance with actuarial standards of practice in effect at the time the valuation is performed, as promulgated by the Actuarial Standards Board or its successor; provided that such actuarial valuation shall be based on the entry age normal actuarial cost method and an asset valuation method based on the market value of system assets that may provide for smoothing of investment gains and losses, and, further, that the level rate of contribution shall be the total of the normal cost rate and a rate which shall amortize the unfunded actuarial accrued liability over a period that shall not exceed thirty years from the date of the valuation, subject to the limitations of this subsection; and**

(4) **Not less than once every ten years the board shall have an actuary, other**

than the actuary performing the actuarial valuation pursuant to this section, review such actuarial valuation and perform an additional valuation of the system.

5. Regardless of the provisions of any law governing compensation and contracts, every teacher or employee shall be deemed to consent and agree to the deductions provided herein. Payment of salary or compensation less such deduction shall be a full and complete discharge of all salary or compensation claims and demands during the period covered by such payment, except as to the benefits provided under sections 169.010 to 169.141.

6. Notwithstanding any other provision of sections 169.010 to 169.141 to the contrary, no legislation shall be enacted after July 1, 2003, that increases benefits provided to members or retirees of the public school retirement system of this state above that which may be funded using a rate of contribution of ten and one-half percent as determined using an actuarial valuation as provided in subsection 4 of this section; provided that, notwithstanding the provision of this subsection, legislation may be enacted after July 1, 2003, that provides for an extension of time within which a member may make an election pursuant to subdivisions (3) to (8) of subsection 1 of section 169.070.

169.050. 1. On and after the effective date of sections 169.010 to 169.140, all employees as defined in sections 169.010 to 169.141 of districts included in the retirement system thereby created shall be members of the system by virtue of their employment, except as provided by section 104.342, RSMo. Individuals who qualify as independent contractors under the common law and are treated as such by their employer shall not be considered employees for purposes of membership in or contributions to the retirement system.

2. Any person who becomes a member before the end of the school year next following the date on which the system becomes operative may claim credit for service rendered as an employee in Missouri prior to such operative date, or for service rendered in the armed forces of the United States during a period of war, the same as if the person were a teacher, provided the person was a teacher in Missouri at the time the person was inducted, by filing with the board of trustees, within such time as the board may specify, a complete and detailed record of the service for which credit is claimed, together with such supporting evidence as the board may require for verification of the record. To the extent that the board finds the record correct, it shall credit the claimant with prior service and shall notify the claimant of its decision, but the amount of such credit shall not exceed thirty years.

3. No prior service credit shall be granted to any person who becomes a member after the first year of the system's operation, except as provided in subsection 5 of this section unless that person's failure to become a member before or during that year was due either to service in the armed forces of the United States or to attendance at a recognized educational institution for professional improvement; provided, that the board of trustees may grant prior service credit to

a teacher who taught prior to August 1, 1945, if the teacher returns to teaching before July 1, 1950, and if such teacher teaches in the public schools of Missouri not less than seven years after returning before retirement, or the board of trustees may grant prior service credit to a teacher who taught prior to August 1, 1945, if the teacher returns to teaching and teaches at least one-half of the number of years between July 1, 1946, and age sixty but not less than seven years after returning before retirement, except that a member who will have thirty-five or more years of teaching service in Missouri at retirement shall be required to teach not less than three years after returning and before retirement. A person serving in the armed forces of the United States shall have the same right to prior service credit as one who became a member before the end of the first year of the system's operation, if the person becomes a member within one year of the date of the person's discharge from such service or within one year of such date plus time spent as a student in a standard college or university in further preparation for service as a public school employee. A person attending a recognized educational institution for the person's professional improvement shall have the same right to prior service credit as one who became a member before the end of the first year of the system's operation, if the person becomes a member within three years following the date on which the system became operative, and within one year of the date on which the person's attendance at such institution ceased.

4. Membership shall be terminated by failure of a member to earn any membership credit as a public school employee under this system for five consecutive school years, by death, withdrawal of contributions, or retirement.

5. If a member withdraws or is refunded the member's contributions, the member shall thereby forfeit any creditable service the member may have; provided, however, if such person again becomes a member of the system, the person may elect to reinstate the creditable service forfeited at times of previous withdrawals or refunds. The reinstatement shall be effected by the [member's] **member** paying to the retirement system with interest the total amount of accumulated contributions withdrawn by the member or refunded to the member with respect to the service being reinstated. A member may reinstate less than the total service previously forfeited, in accordance with rules promulgated by the board of trustees. The payment [may be made over a period not longer than five years or the length of service to be reinstated whichever is longer, beginning from the date of election, or prior to retirement, whichever is earlier, and] **shall be completed prior to termination of membership with the retirement system** with interest on the unpaid balance; provided, however, that if a member is retired on disability before completing such payments, the balance due with interest may be deducted from the member's disability retirement allowance.

[6. Any person who elected to purchase creditable service pursuant to section 169.055, 169.056 or 169.057 and failed to complete payment within the time allowed may again elect to purchase creditable service pursuant to those provisions, if the election is made before July 1,

1998. The election may include a purchase of creditable service for the same period for which the earlier election was made.

7. Any person who would be entitled to elect to purchase creditable service pursuant to section 169.055 for unpaid maternity or paternity leave except for the fact that the person returned to employment in a position covered by the retirement system more than five years after the end of the leave period may elect to purchase such creditable service if the election is made before July 1, 1998.

8. Any person who would be entitled to purchase creditable service pursuant to subsection 1 of section 169.055 except for the fact that the application was made on or after June 19, 1997, may elect to purchase such creditable service if the election is made before July 1, 1998.]

169.056. 1. Members who have accrued at least one year of membership service credit for employment in a position covered by this **retirement system and who have covered employment with this retirement system following the service for which credit is being purchased** may purchase membership service credit under the circumstances, terms and conditions provided in this section. With respect to each such purchase authorized by this section the following provisions apply:

(1) The purchase shall be effected by the member paying to the retirement system [with interest,] the amount the member would have contributed and the amount the employer would have contributed had such member been an employee for the number of years for which the member is electing to purchase credit, and had the member's compensation during such period been the [same as the annual salary rate at which the member is first employed in a position qualifying for membership in the retirement system after the period being purchased, provided that the purchase cost shall not exceed the actuarial value of the credit being purchased] **highest annual salary rate on record with the retirement system on the date of election to purchase credit**. For purposes of this section, "annual salary rate" means the annual salary rate for full-time service for the position of employment. The contribution rate used in determining the amount to be paid shall be the contribution rate in effect on the date of election to purchase credit[. The interest rate used in determining the amount to be paid shall be the actuarially assumed rate of return on invested funds of the system in effect at the date of election to purchase credit];

(2) [Payment shall be made over a period not longer than the period of membership service credit being purchased, measured from the date of election, and with interest on the unpaid balance;

(3)] Membership service credit purchased pursuant to this section shall be deemed to be membership service in Missouri for purposes of subsection 7 of section 169.070;

[(4)] **(3)** An election to purchase membership service credit pursuant to this section and

payment for the purchase shall be completed prior to [retirement] **termination of membership with the retirement system with interest on the unpaid balance;**

[(5)] (4) Members may purchase membership service credit in increments of one-tenth of a year, and multiple elections to purchase may be made;

[(6)] (5) Additional terms and conditions applicable to purchase made pursuant to this section including, but not limited to, minimum payments, payment schedules and provisions applicable when a member fails to complete payment may be set by rules of the board.

2. Membership service credit shall not be allowed pursuant to this section **or sections 169.570 and 169.577** which exceeds in length the member's membership service credit for employment in a position covered by this system, and in no event may the member receive membership service credit with both this system and another public retirement [plan, as defined in section 105.660, RSMo,] **system** for the same service.

3. A member who [has rendered service] **was employed** for at least twenty hours per week [as a teacher outside of this state including service in] **on a regular basis** by a public **school district, public junior college, public community college, public college, or public** university [or who has rendered service in the University of Missouri or Lincoln University after July 1, 1946], **either inside or outside of this state**, may elect [prior to retirement] to purchase equivalent membership service credit [but not in excess of ten years. An affidavit shall be required stipulating that the member is not presently receiving compensation from another teacher retirement system and will not receive credit in another system for the creditable time purchased].

4. [(1)] A member who [enters the service of] **has served in** the armed forces of the United States of America **and** who [is an employee in a district included in the system at the time such member is inducted, enlisted or called to active duty, and who without voluntary reenlistment becomes an employee in a district within one year after discharge from such service shall not be subject to the provisions of subsection 4 of section 169.050 with regard to termination of membership due to the period of actual service in the armed forces of the United States. Such a member may elect prior to retirement to purchase membership service credit for the entire period of service in the armed forces of the United States, but not to exceed five years. The purchase may be made only if the member] was discharged or separated from the armed forces by other than a dishonorable discharge[.

(2) A member who had served in the armed forces of the United States prior to becoming a member, and who becomes employed in a position qualifying for membership in the retirement system after such member's discharge under honorable conditions] may elect, [prior to retirement,] to purchase membership service for the [entire] period of **active duty** service in the armed forces[, but not to exceed five years].

5. Any member granted unpaid maternity or paternity leave for a period, from a position

covered by the retirement system, who returned to employment in such a position, may elect [prior to retirement] to purchase membership service credit for the period of leave. [No member may purchase more than four years of membership service credit pursuant to this subsection.]

6. Any member who is or was certified as a vocational-technical teacher on the basis of having a college degree or who was required to have a period of work experience of at least two years in the area of the subject being taught in order to qualify for such certification may, upon written application to the board, purchase equivalent membership service credit for such work experience which shall not exceed the two years necessary for certification if the work experience was in the area that the member taught or is teaching and was completed in two years.

7. Any member who had membership service credit with the nonteacher school employee retirement system of Missouri governed by sections 169.600 to 169.715 but which membership service credit was forfeited by withdrawal or refund, may elect[, prior to retirement,] to purchase credit for such service [and receive pro rata credit not to exceed a total of ten years in this system for the service]. The nonteacher school employee retirement system of Missouri shall transfer to this system an amount equal to the employer contributions for the forfeited service being purchased, plus interest, which shall be applied to reduce the amount the member would otherwise pay for the purchase, provided that the amount transferred shall not exceed one-half of the purchase cost.

8. A member may elect to purchase membership service credit for service rendered while on leave from an employer, as defined in section 169.010, for a not-for-profit corporation or agency whose primary purpose is support of education or education research, [not to exceed two years] if the member was employed by that organization to serve twenty or more hours per week; provided the member has returned to service for at least one year as an employee of the employer that granted the leave] **on a regular basis.**

9. A member [having membership service credit in the retirement system provided by sections 169.010 to 169.141, after the member] **who** was employed by a private school, **private junior college, private community college, private college, or private university, either inside or outside of this state,** for at least twenty hours per week [and duly certified under the law governing the certification of teachers during all of such employment] **on a regular basis,** may elect to purchase **equivalent** membership service credit for **such** service rendered [to the private school, but not to exceed three years. As used in this subsection, the term "private school" means a school which is not a part of the public school system of this state and which charges tuition for the rendering of elementary and secondary education services].

169.070. 1. The retirement allowance of a member whose age at retirement is sixty years or more and whose creditable service is five years or more, or whose sum of age and creditable service equals eighty years or more, or who has attained age fifty-five and whose creditable service is twenty-five years or more or whose creditable service is thirty years or more regardless

of age, may be the sum of the following items, not to exceed one hundred percent of the member's final average salary:

(1) Two and five-tenths percent of the member's final average salary for each year of membership service;

(2) Six-tenths of the amount payable for a year of membership service for each year of prior service not exceeding thirty years.

In lieu of the retirement allowance otherwise provided in subdivisions (1) and (2) of this subsection, a member may elect to receive a retirement allowance of:

(3) Between July 1, 1998, and July 1, [2003] **2008**, two and four-tenths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-nine years or more but less than thirty years, and the member has not attained age fifty-five;

(4) Between July 1, 1998, and July 1, [2003] **2008**, two and thirty-five-hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-eight years or more but less than twenty-nine years, and the member has not attained age fifty-five;

(5) Between July 1, 1998, and July 1, [2003] **2008**, two and three-tenths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-seven years or more but less than twenty-eight years, and the member has not attained age fifty-five;

(6) Between July 1, 1998, and July 1, [2003] **2008**, two and twenty-five-hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-six years or more but less than twenty-seven years, and the member has not attained age fifty-five;

(7) Between July 1, 1998, and July 1, [2003] **2008**, two and two-tenths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-five years or more but less than twenty-six years, and the member has not attained age fifty-five;

(8) Between July 1, 2001, and June 30, 2008, two and fifty-five hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is thirty-one years or more regardless of age.

2. In lieu of the retirement allowance provided in subsection 1 of this section, a member whose age is sixty years or more on September 28, 1975, may elect to have the member's retirement allowance calculated as a sum of the following items:

(1) Sixty cents plus one and five-tenths percent of the member's final average salary for each year of membership service;

(2) Six-tenths of the amount payable for a year of membership service for each year of

prior service not exceeding thirty years;

(3) Three-fourths of one percent of the sum of subdivisions (1) and (2) of this subsection for each month of attained age in excess of sixty years but not in excess of age sixty-five.

3. (1) In lieu of the retirement allowance provided either in subsection 1 or 2 of this section, collectively called "option 1", a member whose creditable service is twenty-five years or more or who has attained the age of fifty-five with five or more years of creditable service may elect in the member's application for retirement to receive the actuarial equivalent of the member's retirement allowance in reduced monthly payments for life during retirement with the provision that:

Option 2. Upon the member's death the reduced retirement allowance shall be continued throughout the life of and paid to such person as has an insurable interest in the life of the member as the member shall have nominated in the member's election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance will be increased to the amount the retired member would be receiving had the retired member elected option 1;

OR

Option 3. Upon the death of the member three-fourths of the reduced retirement allowance shall be continued throughout the life of and paid to such person as has an insurable interest in the life of the member and as the member shall have nominated in an election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance will be increased to the amount the retired member would be receiving had the member elected option 1;

OR

Option 4. Upon the death of the member one-half of the reduced retirement allowance shall be continued throughout the life of, and paid to, such person as has an insurable interest in the life of the member and as the member shall have nominated in an election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance shall be increased to the amount the retired member would be receiving had the member elected option 1;

OR

Option 5. Upon the death of the member prior to the member having received one hundred twenty monthly payments of the member's reduced allowance, the remainder of the one hundred twenty monthly payments of the reduced allowance shall be paid to such beneficiary as the member shall have nominated in the member's election of the option or in a subsequent nomination. If there is no beneficiary so nominated who survives the member for the remainder of the one hundred twenty monthly payments, the reserve for the remainder of such one hundred twenty monthly payments shall be paid to the estate of the last person to receive a

monthly allowance;

OR

Option 6. Upon the death of the member prior to the member having received sixty monthly payments of the member's reduced allowance, the remainder of the sixty monthly payments of the reduced allowance shall be paid to such beneficiary as the member shall have nominated in the member's election of the option or in a subsequent nomination. If there is no beneficiary so nominated who survives the member for the remainder of the sixty monthly payments, the reserve of the remainder of such sixty monthly payments shall be paid to the estate of the last person to receive a monthly allowance.

(2) The election of an option may be made only in the application for retirement and such application must be filed prior to the date on which the retirement of the member is to be effective. If either the member or the person nominated to receive the survivorship payments dies before the effective date of retirement, the option shall not be effective, provided that:

(a) If the member or a person retired on disability retirement dies after acquiring twenty-five or more years of creditable service or after attaining the age of fifty-five years and acquiring five or more years of creditable service and before retirement, except retirement with disability benefits, and the person named by the member as the member's primary beneficiary has an insurable interest in the life of the deceased member, the designated beneficiary may elect to receive either survivorship benefits under option 2 or a payment of the accumulated contributions of the member. If survivorship benefits under option 2 are elected and the member at the time of death would have been eligible to receive an actuarial equivalent of the member's retirement allowance, the designated beneficiary may further elect to defer the option 2 payments until the date the member would have been eligible to receive the retirement allowance provided in subsection 1 or 2 of this section;

(b) If the member or a person retired on disability retirement dies before attaining age fifty-five but after acquiring five but fewer than twenty-five years of creditable service, and the person named as the member's primary beneficiary has an insurable interest in the life of the deceased member, the designated beneficiary may elect to receive either a payment of the member's accumulated contributions, or survivorship benefits under option 2 to begin on the date the member would first have been eligible to receive an actuarial equivalent of the member's retirement allowance, or to begin on the date the member would first have been eligible to receive the retirement allowance provided in subsection 1 or 2 of this section.

4. If the total of the retirement allowance paid to an individual before the death of the individual is less than the accumulated contributions at the time of retirement, the difference shall be paid to the beneficiary of the individual, or to the estate of the individual, if there be no beneficiary. If an optional benefit as provided in option 2, 3 or 4 in subsection 3 of this section had been elected, and the beneficiary dies after receiving the optional benefit, and if the

total retirement allowance paid to the retired individual and the beneficiary of the retired individual is less than the total of the contributions, the difference shall be paid to the estate of the beneficiary unless the retired individual designates a different recipient with the board at or after retirement.

5. If a member dies before receiving a retirement allowance, the member's accumulated contributions at the time of the death of the member shall be paid to the beneficiary of the member or to the estate of the member, if there be no beneficiary; except that, no such payment shall be made if the beneficiary elects option 2 in subsection 3 of this section, unless the beneficiary dies before having received benefits pursuant to that subsection equal to the accumulated contributions of the member, in which case the amount of accumulated contributions in excess of the total benefits paid pursuant to that subsection shall be paid to the estate of the beneficiary.

6. If a member ceases to be a public school employee as herein defined and certifies to the board of trustees that such cessation is permanent, or if the membership of the person is otherwise terminated, the member shall be paid the member's accumulated contributions with interest.

7. Notwithstanding any provisions of sections 169.010 to 169.141 to the contrary, if a member ceases to be a public school employee after acquiring five or more years of membership service in Missouri, the member may at the option of the member leave the member's contributions with the retirement system and claim a retirement allowance any time after reaching the minimum age for voluntary retirement. When the member's claim is presented to the board, the member shall be granted an allowance as provided in sections 169.010 to 169.141 on the basis of the member's age, years of service, and the provisions of the law in effect at the time the member requests the member's retirement to become effective.

8. The retirement allowance of a member retired because of disability shall be nine-tenths of the allowance to which the member's creditable service would entitle the member if the member's age were sixty, or fifty percent of one-twelfth of the annual salary rate used in determining the member's contributions during the last school year for which the member received a year of creditable service immediately prior to the member's disability, whichever is greater, except that no such allowance shall exceed the retirement allowance to which the member would have been entitled upon retirement at age sixty if the member had continued to teach from the date of disability until age sixty at the same salary rate.

9. Notwithstanding any provisions of sections 169.010 to 169.141 to the contrary, from October 13, 1961, the contribution rate pursuant to sections 169.010 to 169.141 shall be multiplied by the factor of two-thirds for any member of the system for whom federal Old Age and Survivors Insurance tax is paid from state or local tax funds on account of the member's employment entitling the person to membership in the system. The monetary benefits for a

member who elected not to exercise an option to pay into the system a retroactive contribution of four percent on that part of the member's annual salary rate which was in excess of four thousand eight hundred dollars but not in excess of eight thousand four hundred dollars for each year of employment in a position covered by this system between July 1, 1957, and July 1, 1961, as provided in subsection 10 of this section as it appears in RSMo, 1969, shall be the sum of:

(1) For years of service prior to July 1, 1946, six-tenths of the full amount payable for years of membership service;

(2) For years of membership service after July 1, 1946, in which the full contribution rate was paid, full benefits under the formula in effect at the time of the member's retirement;

(3) For years of membership service after July 1, 1957, and prior to July 1, 1961, the benefits provided in this section as it appears in RSMo, 1959; except that if the member has at least thirty years of creditable service at retirement the member shall receive the benefit payable pursuant to that section as though the member's age were sixty-five at retirement;

(4) For years of membership service after July 1, 1961, in which the two-thirds contribution rate was paid, two-thirds of the benefits under the formula in effect at the time of the member's retirement.

10. The monetary benefits for each other member for whom federal Old Age and Survivors Insurance tax is or was paid at any time from state or local funds on account of the member's employment entitling the member to membership in the system shall be the sum of:

(1) For years of service prior to July 1, 1946, six-tenths of the full amount payable for years of membership service;

(2) For years of membership service after July 1, 1946, in which the full contribution rate was paid, full benefits under the formula in effect at the time of the member's retirement;

(3) For years of membership service after July 1, 1957, in which the two-thirds contribution rate was paid, two-thirds of the benefits under the formula in effect at the time of the member's retirement.

11. Any retired member of the system who was retired prior to September 1, 1972, or beneficiary receiving payments under option 1 or option 2 of subsection 3 of this section, as such option existed prior to September 1, 1972, will be eligible to receive an increase in the retirement allowance of the member of two percent for each year, or major fraction of more than one-half of a year, which the retired member has been retired prior to July 1, 1975. This increased amount shall be payable commencing with January, 1976, and shall thereafter be referred to as the member's retirement allowance. The increase provided for in this subsection shall not affect the retired member's eligibility for compensation provided for in section 169.580 or 169.585, nor shall the amount being paid pursuant to these sections be reduced because of any increases provided for in this section.

12. If the board of trustees determines that the cost of living, as measured by generally

accepted standards, increases two percent or more in the preceding fiscal year, the board shall increase the retirement allowances which the retired members or beneficiaries are receiving by two percent of the amount being received by the retired member or the beneficiary at the time the annual increase is granted by the board with the provision that the increases provided for in this subsection shall not become effective until the fourth January first following the member's retirement or January 1, 1977, whichever later occurs, or in the case of any member retiring on or after July 1, 2000, the increase provided for in this subsection shall not become effective until the third January first following the member's retirement, or in the case of any member retiring on or after July 1, 2001, the increase provided for in this subsection shall not become effective until the second January first following the member's retirement. Commencing with January 1, 1992, if the board of trustees determines that the cost of living has increased five percent or more in the preceding fiscal year, the board shall increase the retirement allowances by five percent. The total of the increases granted to a retired member or the beneficiary after December 31, 1976, may not exceed eighty percent of the retirement allowance established at retirement or as previously adjusted by other subsections. If the cost of living increases less than five percent, the board of trustees may determine the percentage of increase to be made in retirement allowances, but at no time can the increase exceed five percent per year. If the cost of living decreases in a fiscal year, there will be no increase in allowances for retired members on the following January first.

13. The board of trustees may reduce the amounts which have been granted as increases to a member pursuant to subsection 12 of this section if the cost of living, as determined by the board and as measured by generally accepted standards, is less than the cost of living was at the time of the first increase granted to the member; except that, the reductions shall not exceed the amount of increases which have been made to the member's allowance after December 31, 1976.

14. Any application for retirement shall include a sworn statement by the member certifying that the spouse of the member at the time the application was completed was aware of the application and the plan of retirement elected in the application.

15. Notwithstanding any other provision of law, any person retired prior to September 28, 1983, who is receiving a reduced retirement allowance under option 1 or option 2 of subsection 3 of this section, as such option existed prior to September 28, 1983, and whose beneficiary nominated to receive continued retirement allowance payments under the elected option dies or has died, shall upon application to the board of trustees have his or her retirement allowance increased to the amount he or she would have been receiving had the option not been elected, actuarially adjusted to recognize any excessive benefits which would have been paid to him or her up to the time of application.

16. Benefits paid pursuant to the provisions of the public school retirement system of Missouri shall not exceed the limitations of Section 415 of Title 26 of the United States Code

except as provided pursuant to this subsection. Notwithstanding any other law to the contrary, the board of trustees may establish a benefit plan pursuant to Section 415(m) of Title 26 of the United States Code. Such plan shall be created solely for the purpose described in Section 415(m)(3)(A) of Title 26 of the United States Code. The board of trustees may promulgate regulations necessary to implement the provisions of this subsection and to create and administer such benefit plan.

In determining the minimum amount to be received, the amounts in subdivisions (3) and (4) of this subsection shall be adjusted in accordance with the actuarial adjustment, if any, that was applied to the person's retirement allowance. In determining the minimum amount to be received, beginning September 1, 1996, the amounts in subdivisions (1) and (2) of this subsection shall be adjusted in accordance with the actuarial adjustment, if any, that was applied to the person's retirement allowance due to election of an optional form of retirement having a continued monthly payment after the person's death. Beginning September 1, 1999, the designated beneficiary of the deceased member shall as compensation for such service have added, pursuant to this subsection, to the

monthly annuity as provided by this section a dollar amount equal to the lesser of sixty dollars or the product of two dollars multiplied by the member's number of years of creditable service. The total compensation provided by this section including the compensation provided by this subsection shall be used in calculating any future cost-of-living adjustments provided by subsection 12 of this section.

19. Any member who has retired prior to July 1, 1998, and the designated beneficiary of a deceased retired member shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging, and upon request shall give written or oral opinions to the board in response to such requests. As compensation for such duties the person shall receive a payment equivalent to eight and seven-tenths percent of the previous month's benefit, which shall be added to the member's or beneficiary's monthly annuity and which shall not be subject to the provisions of subsections 12 and 13 of this section for the purposes of the limit on the total amount of increases which may be received.

20. Any member who has retired shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging, and upon request shall give written or oral opinions to the board in response to such request. As compensation for such duties, the person shall receive as a part of compensation for these duties a death benefit of five thousand dollars.

Any member who has retired prior to July 1, 2000, and the designated beneficiary of a deceased retired member shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging, and upon request shall give written or oral opinions to the board in response to such requests. As compensation for such duties, the person shall receive a payment equivalent to three and five-tenths percent of the previous month's benefit, which shall be added to the member or beneficiary's monthly annuity and which shall not be subject to the provisions of subsections 12 and 13 of this section for the purposes of the limit on the total amount of increases which may be received.

23. Any member who has retired prior to July 1, 2001, and the designated beneficiary of a deceased retired member shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging, and upon request shall give written or oral opinions to the board in response to such requests. 169.073. 1. Any member eligible for a retirement allowance pursuant to section 169.070 and who has not previously received a retirement allowance, and whose sum of age and creditable service equals eighty-six years or more or whose creditable service is thirty-three years or more or whose age is sixty-three years or more and who has eight years or more of creditable service may elect a distribution under the partial lump-sum option plan provided in this section if the member notifies the retirement system on the application for retirement.

2. A member entitled to make an election pursuant to this section may elect to receive a lump-sum distribution in addition to the member's monthly retirement allowance pursuant to section 169.070, as reduced pursuant to this section. Such member may elect the amount of the member's lump-sum distribution from one, but not more than one, of the following options:

(2) A lump-sum amount equal to twenty-four times the retirement allowance the member would receive if no election were made pursuant to this section and the member had chosen Option 1 pursuant to section 169.070; or

(3) A lump-sum amount equal to thirty-six times the retirement allowance the member would receive if no election were made pursuant to this section and the member had chosen Option 1 pursuant to section 169.070.

3. When a member makes an election to receive a lump-sum distribution pursuant to this section, the retirement allowance that the member would have received in the absence of the election shall be reduced on an actuarially equivalent basis to reflect the payment of the lump-sum distribution and the reduced retirement allowance shall be the member's retirement allowance thereafter for all purposes in relation to retirement allowance amounts pursuant to section 169.070. A retirement allowance increased due to the death of a person nominated by the member to receive benefits pursuant to the provisions of option 2, 3, or 4 of subsection 3 of section 169.070 shall be increased pursuant to such provisions to the amount the retired member would be receiving had the retired member elected option 1 as actuarially reduced due to the lump-sum distribution made pursuant to this section. Any payment of accumulated contributions pursuant to the provisions of sections 169.010 to 169.141

shall be reduced by the amount of any lump-sum distribution made pursuant to this section in addition to any other reductions required by sections 169.010 to 169.141.

4. If the member dies before receiving a lump-sum distribution pursuant to this section the lump-sum distribution shall be paid in accordance with rules adopted by the board of trustees.

5. Benefits paid pursuant to this section in addition to all other provisions of the public school retirement system of Missouri shall not exceed the limitations of Section 415 of Title 26 of the United States Code except as provided in subsection 16 of section 169.070.

169.331. 1. Notwithstanding any other provision of sections 169.270 to 169.400 to the contrary, a retired certificated teacher receiving a retirement benefit from the retirement system established pursuant to sections 169.270 to 169.400 may, without losing his or her retirement benefit, teach full-time for up to two years for a school district covered by such retirement system; provided that the school district has a shortage of certified teachers, as determined by the school district. The total number of such retired certificated teachers shall not exceed, at any one time, fifteen certificated teachers.

2. The employer's contribution rate shall be paid by the hiring school district and the employee's contribution rate shall be paid by the employee.

3. Any additional actuarial costs resulting from the hiring of a retired certificated teacher pursuant to the provisions of this section shall be paid by the hiring school district.

4. In order to hire teachers pursuant to the provisions of this section, the school district shall:

(1) Show a good faith effort to fill positions with nonretired certificated teachers;

(2) Post the vacancy for at least one month;

(3) Have not offered early retirement incentives for either of the previous two years;

(4) Solicit applications through the local newspaper, other media, or teacher education programs;

(5) Determine there is an insufficient number of eligible applicants for the advertised position; and

(6) Declare a critical shortage of certificated teachers that is active for one year.

5. Any person hired pursuant to this section shall be included in the State Director of New Hires for purposes of income and eligibility verification pursuant to

42 U.S.C. Section 1320b-7.

169.560. Any person retired and currently receiving a retirement allowance pursuant to sections 169.010 to 169.141, other than for disability, may be employed in any capacity in a district included in the retirement system created by those sections on either a part-time or temporary-substitute basis not to exceed a total of **[five] seven** hundred fifty hours in any one school year, and through such employment may earn up to **[fifty] sixty-five** percent of the annual compensation payable under the employing district's salary schedule for the position or positions filled by the retiree, given such person's level of experience and education, without a discontinuance of the person's retirement allowance. If the employing school district does not utilize a salary schedule, or if the position in question is not subject to the employing district's salary schedule, a retiree employed in accordance with the provisions of this section may earn up to **[fifty] sixty-five** percent of the annual compensation paid to the person or persons who last held such position or positions. If the position or positions did not previously exist, the compensation limit shall be determined in accordance with rules duly adopted by the board of trustees of the retirement system; provided that, it shall not exceed **[fifty] sixty-five** percent of the annual compensation payable for the position in the employing school district that is most comparable to the position filled by the retiree. In any case where a retiree fills more than one position during the school year, the **[fifty-percent] sixty-five-percent** limit on permitted earning shall be based solely on the annual compensation of the highest paid position occupied by the retiree for at least one-fifth of the total hours worked during the year. Such a person shall not contribute to the retirement system or to the nonteacher school employee retirement system established by sections 169.600 to 169.715 because of earnings during such period of employment. If such a person is employed in any capacity by such a district on a regular, full-time basis, the person shall not be eligible to receive the person's retirement allowance for any month during which the person is so employed and shall contribute to the retirement system.

169.570. 1. [An employee having five or more years of membership service under one of the Missouri retirement systems as provided by sections 169.010 to 169.141, 169.270 to 169.400 or 169.410 to 169.540, who is subsequently employed in a position covered by another of the Missouri retirement systems, may leave the employee's contributions with the system under which the employee was first employed and be eligible to receive a benefit based upon the employee's services under that system when the employee becomes eligible for a service retirement benefit from another of such Missouri retirement systems or upon having reached retirement age having previously retired on disability. In the event the member does not become eligible for a retirement benefit, the employee shall be entitled to a refund of the employee's contributions with interest upon demand, or to such other benefits as may be provided by law.

2.] An employee having less than five years of membership service under one of the

Missouri retirement systems provided in sections 169.010 to 169.141, 169.270 to 169.400 or 169.410 to 169.540, who is subsequently employed in a position covered by another of the Missouri retirement systems, may elect within five years after employment in a district included in another of the Missouri retirement systems to purchase membership credit for service rendered under the first system; provided, however, that the employee shall be entitled to apply the membership credit thus purchased toward a service retirement only and not for any other benefit. The purchase shall be effected by the member paying to the retirement system the amount required by the rules and regulations established by the respective retirement system, or, absent such rules and regulations, an amount, with interest, based on the annual salary rate of the employee's initial employment in a district under the system in which credit is being purchased and the contribution rate in effect in that system at the date of election to purchase credit. In the retirement systems provided by sections 169.270 to 169.400 and 169.410 to 169.540, the school district shall contribute the amount required by the statutes and by the rules and regulations established by the system for each year of creditable service purchased by the incoming member.

[3.] 2. A member of any Missouri public school retirement system **established by sections 169.010 to 169.141, 169.270 to 169.400, 169.410 to 169.540, or 169.600 to 169.715** who has previous credit in one of the other Missouri public school retirement systems may elect to purchase equivalent credit[, not to exceed ten years,] in the member's present system provided such credit toward retirement is withdrawn and benefits terminated in the previous system. [A member of the system established by sections 169.600 to 169.715 who has previous credit in one of the Missouri public school retirement systems established by sections 169.270 to 169.400 or, 169.410 to 169.540 may elect to purchase equivalent credit, not to exceed ten years, in the member's present system provided such credit toward retirement is withdrawn and benefits terminated in the previous system.] The purchase shall be effected by the member paying to the retirement system the amount required by the rules and regulations established by the respective retirement system, or absent such rules and regulations, an amount, with interest, based on the annual salary rate of the member's initial employment in a district under the system in which credit is being purchased and the contribution rate in effect in that system at the date of election to purchase credit.

[4.] 3. Nothing in this section shall decrease or discontinue the benefits provided by the sections of the statutes relating to any of the public school retirement systems in the state of Missouri.

[5.] 4. Payment pursuant to the provisions of this section shall be [made before retirement and over a period of time] **completed prior to termination of membership with the retirement system**, with interest on the unpaid balance, [not to exceed the number of years of credit being purchased,] in accordance with rules and regulations **and statutes** established

by the respective retirement systems. The individual purchasing credit must have service credit as a member of the retirement system for at least as many years before retirement as the number of years of credit being purchased.

169.577. Any member of a retirement system subject to the provisions of this chapter, who is within five years of being eligible to retire with a retirement allowance as provided in this chapter, may elect to purchase additional creditable service of up to [four-tenths] **five-tenths** of a year which shall, when so purchased, be included in the total of the member's years of creditable service, used to enable the member to achieve the minimum creditable service time required for a retirement allowance, and applied in the computation of the member's annual service retirement allowance. **For any member of a retirement system established by sections 169.010 to 169.141 or 169.600 to 169.715, and notwithstanding any other provision within this section to the contrary, the purchase shall be effected in the same manner as provided in section 169.056.** The request for purchase of the additional creditable service shall be made in writing to the board of trustees of the system in which the applicant is a member. The purchase shall be effected by the member paying to the retirement system the amount required by the rules and regulations established by the respective retirement system, or absent such rules and regulations, the amount, with interest, the member would have contributed thereto and the amount the member's employer would have contributed thereto had the person been employed in a position covered by the retirement system for the number of months for which the member is electing to purchase credit, and had the member's compensation during such period been the same as the annual salary rate at which the member is receiving at the time of application, and the contribution rate in effect on the date of election to purchase credit. The payment [may be made over a period not longer than the period of membership service credit being purchased, measured from the date of election, and] **shall be completed prior to termination of membership with the retirement system** with interest on the unpaid balance. Nothing in this section shall be construed to allow a member to vest in the retirement system by using the creditable service purchased pursuant to the provisions of this section to reach the time of vesting.

169.590. 1. Any insurance contract or plan, including a noninsurance health benefit program, which provides group health insurance or benefits for employees who are members of any retirement system established pursuant to this chapter shall contain provisions that permit:

(1) Any employee who retires, or who has retired, and is receiving or is eligible to receive retirement benefits under this chapter to remain or become a member of the group, including a noninsurance health benefit program, and to receive benefits at the same rate as all other members of the group;

(2) The spouse or surviving spouse of any employee to remain or become a member of the group, including a noninsurance health benefit program, so long as such spouse is receiving

or is eligible to receive retirement benefits under this chapter; and

(3) The children or children who survive any employee to remain or become members of the group, including a noninsurance health benefit program, so long as they are receiving or are eligible to receive retirement benefits under this chapter.

2. The plan or contract may provide a different level of coverage for any person electing to remain or become a member of an eligible group, including a noninsurance health benefit program, as provided in subsection 1 of this section if such person is eligible for Medicare under the federal Health Insurance for the Aged Act, 42 U.S.C. 1395, as amended.

3. A person electing to become or remain a member of a group, including a noninsurance health benefit program, under subsection 1 of this section shall pay the premium for such coverage, including the premium for any covered dependents.

4. School districts entering into a contract with an insurance company which provides group health insurance or benefits for employees, including provisions for a noninsurance health benefit program, shall specify that such contract provides coverage for persons who have retired, their spouses and unmarried dependent children and that the enrollment period for such coverage shall be clearly stated for a period of time of not less than thirty days. [Those persons who retired prior to August 28, 1992, shall have one year from that date to qualify for the coverage provided. Those persons who retire after August 28, 1992,] **Employees shall have [one year] two years from the date [of retirement to qualify for the coverage provided] last employed by a school district that is subject to coverage pursuant to this section to qualify for the coverage provided.**

5. School districts failing to comply with the provisions of this section shall have deducted from the state aid due such school district an amount equal to the premium for group health insurance, including a noninsurance health benefit program, for those persons denied the benefits required under the provisions of this section.

6. As used in this section, the term "noninsurance health benefit program" includes all group health plans or programs providing coverage on an expense-incurred basis, group service or indemnity type contracts issued by a nonprofit corporation, and all self-insured group health benefit plans or programs, of any type or description.

169.596. 1. Notwithstanding any other provision of chapter 169 to the contrary, a retired certificated teacher receiving a retirement benefit from the retirement system established pursuant to section 169.010 to 169.141 may, without losing his or her retirement benefit, teach full-time for up to two years for a school district covered by such retirement system; provided that the school district has a shortage of certified teachers, as determined by the school district. The total number of such retired certificated teachers shall not exceed, at any one time, the lesser of ten percent of the total teacher staff for that school district, or five certificated teachers.

2. Notwithstanding any other provision of chapter 169 to the contrary, a person receiving a retirement benefit from the retirement system established pursuant to sections 169.600 to 169.715 may, without losing his or her retirement benefit, be employed full-time for up to two years for a school district covered by such retirement system; provided that the school district has a shortage of noncertificated employees, as determined by the school district. The total number of such retired noncertificated employees shall not exceed, at any one time, the lesser of ten percent of the total noncertificated staff for that school district, or five employees.

3. The employer's contribution rate shall be paid by the hiring school district.

4. In order to hire teachers and noncertificated employees pursuant to the provisions of this section, the school district shall:

(1) Show a good faith effort to fill positions with nonretired certificated teachers or nonretired noncertificated employees;

(2) Post the vacancy for at least one month;

(3) Have not offered early retirement incentives for either of the previous two years;

(4) Solicit applications through the local newspaper, other media, or teacher education programs;

(5) Determine there is an insufficient number of eligible applicants for the advertised position; and

(6) Declare a critical shortage of certificated teachers or noncertificated employees that is active for one year.

5. Any person hired pursuant to this section shall be included in the State Director of New Hires for purposes of income and eligibility verification pursuant to 42 U.S.C. Section 1320b-7.

169.620. 1. The funds required for the operation of the retirement system created by sections 169.600 to 169.715 shall come from contributions made in equal amounts by employees as herein defined and their employers, beginning November 1, 1965, and from such interest or income as may be derived from the investment of funds of the system. All contributions shall be transmitted to the board of trustees by employers in such manner and at such times as the board by rule shall require.

2. For each school year following the date on which the system becomes operative, each and every employer of one or more persons who are members of the system shall transmit to the board of trustees, in the manner and accompanied by such supporting data as the board shall prescribe, twice the amount that is deductible from the pay of such employee or employees during the school year. Failure or refusal to transmit such amount as required shall render the person or persons responsible therefor individually liable for twice the amount so withheld. Suits for the

recovery of amounts for which individuals are thus rendered liable shall be instituted and prosecuted by the board of trustees in the name of the retirement system. In addition to such civil penalty, and not in lieu thereof, any person or persons made responsible for the remittance of contributions who shall willfully and knowingly fail or refuse to transmit such contributions or any part thereof to the board of trustees shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not less than twenty-five dollars and not more than two hundred dollars. Each day such person or persons shall so fail or refuse to transmit such contributions shall be deemed a separate offense. The board of trustees may request the employer to provide the information necessary to administer the system and to advise each member of such member's status.

3. The contributions of members of the retirement system shall be collected by their employers through appropriate deductions from paychecks. The total amount deducted from the paychecks of members during any school year shall equal such a percent of their salary rates as may be required by the contribution rate then in effect. For contribution purposes any annual salary rate less than one thousand two hundred dollars shall be regarded as one thousand two hundred dollars. Contributions transmitted to the retirement system before February 20, 1996, based on salary rates which either included or excluded employer-paid medical benefits for members, shall be deemed to have been in compliance with this section. The retirement system shall not refund or adjust contributions or adjust benefit determinations with respect to any period before February 20, 1996, solely because of the treatment of employer-paid medical benefits for members. Effective December 31, 1995, compensation in excess of the limitations set forth in Section 401(a)(17) of Title 26 of the United States Code shall be disregarded for purposes of determining contributions pursuant to this section and calculating benefits paid by the nonteacher school employee retirement system of Missouri. The limitation on compensation for eligible employees shall not be less than the amount which was allowed to be taken into account under the system as in effect on July 1, 1993. For the purpose of this subsection, an "eligible employee" is an individual who was a member of the system before July 1, 1996.

4. [The contribution rate shall be three percent of earnings until July 1, 1982.] The board of trustees [is authorized to] **shall fix and certify to the employers** the level rate of contribution[, which shall not exceed five percent, required for the operation of the system and to make adjustments in such rate as may thereafter be necessary; provided that, if the level rate required for the operation of the system shall exceed five percent for five consecutive years, all benefits herein provided shall be equitably reduced to such an extent that the rate required for the operation of the system shall be five percent.] **subject to the following:**

(1) The level rate of contribution for a fiscal year shall not exceed the level rate of contribution for the prior fiscal year by more than one-quarter percent;

(2) The board shall fix and certify to the employers the rate of contribution for

a fiscal year no later than six months prior to the date such rate is to be effective;

(3) The board shall fix and certify to the employers the rate of contribution for a fiscal year based on an actuarial valuation of the system as of a date not earlier than the last day of the second prior fiscal year. Such actuarial valuation of the system shall be performed using processes and actuarial assumptions that are in accordance with actuarial standards of practice in effect at the time the valuation is performed, as promulgated by the Actuarial Standards Board or its successor; provided that such actuarial valuation shall be based on the entry age normal actuarial cost method and an asset valuation method based on the market value of system assets that may provide for smoothing of investment gains and losses, and further, that the level rate of contribution shall be the total of the normal cost and a rate which shall amortize the unfunded actuarial accrued liability over a period that shall not exceed thirty years from the date of the valuation, subject to the limitations of this subsection; and

(4) Not less than once every ten years the board shall have an actuary, other than the actuary performing the actuarial valuation pursuant to this section, review such actuarial valuation and perform an additional actuarial valuation of the system.

5. Regardless of the provisions of any law governing compensation and contracts, every employee shall be deemed to consent and agree to the deductions provided herein. Payment of salary or compensation less such deduction shall be a full and complete discharge of all salary or compensation claims and demands during the period covered by such payment, except as to the benefits provided pursuant to sections 169.600 to 169.715.

6. A person serving as an employee as defined in section 169.600, who became a member after November 1, 1965, and before July 1, 1974, and who was regularly employed to serve for twenty or more hours per week at some time during the period November 1, 1965, to July 1, 1974, may receive membership service credit for such service by paying into the system the amount, with interest at such rate as may be set by the board within the limits set by law for interest rates, the person would have contributed had the person been eligible for membership.

7. [Any member who rendered service as an employee as defined in section 169.600 for a junior college district at any time between October 31, 1965, and the effective date of an agreement between the junior college and the board of trustees as provided in section 169.600 may elect to purchase membership service credit for that service. The election shall include all service for which the member is eligible to purchase credit, and shall be made prior to retirement. The purchase shall be effected by the member's paying to the system with interest, and within the time period allowed by law for the election, the contributions which would have been deducted from the employee's salary had the employee been a member during the period or periods of such service, and had the contribution rate in effect at the date of election been in

effect at the time the service was rendered. Other provisions of law to the contrary notwithstanding, no membership credit shall be allowed pursuant to the provisions of this section which exceeds in length the member's creditable service for employment rendered after October 31, 1965.] **Notwithstanding any other provision of sections 169.600 to 169.715 to the contrary, no legislation shall be enacted after July 1, 2003 that increases benefits provided to members or retirees of the nonteacher school employee retirement system of Missouri above that which may be funded using a rate of contribution of five percent as determined using an actuarial valuation as provided in subsection 4 of this section; provided that, notwithstanding the provisions of this subsection, legislation may be enacted after July 1, 2003 that provides for an extension of time within which a member may make an election pursuant to subdivision (4) of subsection 1 of section 169.670.**

169.650. 1. On and after October 13, 1965, all employees as defined in section 169.600 of districts included in this retirement system shall be members of the system by virtue of their employment, and all persons who had five years of prior service who were employees of districts included in sections 169.600 to 169.710 during the school year next preceding October 13, 1965, but who ceased to be employees prior to October 13, 1965, because of physical disability, shall be members of this system by virtue of that prior service. Individuals who qualify as independent contractors under the common law and are treated as such by their employer shall not be considered employees for purposes of membership in or contributions to the retirement system.

2. Any member who rendered service prior to November 1, 1965, as an employee as defined in section 169.600 in a district or junior college district included in the system may claim credit for that service by filing with the board of trustees a complete and detailed record of the service for which the credit is claimed, together with such supporting evidence as the board may require for verification of the record. To the extent that the board finds the record correct, it shall credit the claimant with prior service and shall notify the claimant of its decision.

3. Membership shall be terminated by failure of a member to earn any membership service credit as a public school employee under this system for five consecutive school years, by death, withdrawal of contributions, or retirement.

4. If a member withdraws or is refunded the member's contributions, the member shall thereby forfeit any creditable service the member may have; provided, however, if such person again becomes a member of the system, the member may elect prior to retirement to reinstate any creditable service forfeited at the [time of withdrawal or refund] **times of previous withdrawals or refunds**. The reinstatement shall be effected by the member paying to the retirement system, with interest, the amount of accumulated contributions withdrawn by the member or refunded to the member with respect to the service being reinstated. A member may

reinstate less than the total service previously forfeited, in accordance with rules promulgated by the board of trustees. The payment [may be made over a period not to exceed the length of the service to be reinstated, beginning from the date of election, or prior to retirement, whichever is earlier, and] **shall be completed prior to termination of membership with the retirement system** with interest on the unpaid balance; provided, however, that if a member is retired on disability before completing such payments, the balance due, with interest, shall be deducted from the member's disability retirement allowance.

5. Any person who is an employee of any statewide nonprofit educational association or organization serving the active membership of the nonteacher school employee retirement system of Missouri and who works at least twenty hours per week on a regular basis in a position which is not covered by the public school retirement system of Missouri may be a member of the nonteacher school employee retirement system of Missouri. Certificated employees of such statewide nonprofit educational association or organization may not be members of the public school retirement system of Missouri unless such association or organization makes separate application pursuant to subsection 4 of section 169.130. The contributions required to be made by the employee will be deducted from salary and matched by the association or organization.

169.655. 1. [Effective January 1, 1997,] Members who have accrued at least one year of membership service credit for employment in a position covered by this [section] **retirement system and who have covered employment with this retirement system following the service for which credit is being purchased** may purchase membership service credit under the circumstances, terms and conditions provided in this section. With respect to each such purchase authorized by this section the following provisions apply:

(1) The purchase shall be effected by the member paying to the retirement system [with interest,] the amount the member would have contributed and the amount the employer would have contributed had such member been an employee for the number of years for which the member is electing to purchase credit, and had the member's compensation during such period been the [same as the annual salary rate at which the member is first employed in a position qualifying for membership in the retirement system after the period being purchased, provided that the cost shall not exceed the actuarial value of the credit being purchased] **highest annual salary rate on record with the retirement system on the date of election to purchase credit**. The contribution rate used in determining the amount to be paid shall be the contribution rate in effect on the date of election to purchase credit[. The interest rate used in determining the amount to be paid shall be the actuarially assumed rate of return on invested funds of the system in effect at the date of election to purchase credit];

(2) [Payment shall be made over a period not longer than the period of membership service credit being purchased, measured from the date of election, and with interest on the unpaid balance;

(3)] Membership service credit purchased pursuant to this section shall be deemed to be membership service as defined in subdivision (10) of section 169.600;

[(4)] (3) An election to purchase membership service credit pursuant to this section and payment for the purchase shall be completed prior to [retirement] **termination of membership with the retirement system with interest on the unpaid balance;**

[(5)] (4) Members may purchase membership service credit in increments of one-tenth of a year, and multiple elections to purchase may be made;

[(6)] (5) Additional terms and conditions applicable to purchases made pursuant to this section including, but not limited to, minimum payments, payment schedules and provisions applicable when a member fails to complete payment may be set by rules of the board.

2. Membership service credit shall not be allowed pursuant to this section **or sections 169.570 and 169.577** which exceeds in length the member's membership service credit for employment in a position covered by this system, and in no event may the member receive membership service credit with both this system and another public retirement [plan, as defined in section 105.660, RSMo.] **system** for the same service.

3. A member who [had rendered service as an employee] **was employed** for at least twenty hours per week [for] **on a regular basis by** a public school district, **public junior college, public community college, public college, or public university, either inside or** outside of this state [including service in a public university or who has rendered service in the University of Missouri or Lincoln University after November 1, 1965], may elect [prior to retirement] to purchase equivalent membership service credit [but not in excess of ten years. An affidavit shall be required stipulating that the member is not presently receiving compensation from another school employee retirement system and will not receive credit in another system for the creditable time purchased].

4. [(1)] A member who [enters the service of] **has served in** the armed forces of the United States of America **and** who [is an employee in a district included in the system at the time such member is inducted, enlisted or called to active duty, and who without voluntary reenlistment becomes an employee in a district within one year after discharge from such service shall not be subject to the provisions of subsection 3 of section 169.650 with regard to termination of membership due to the period of actual service in the armed forces of the United States. Such a member may elect prior to retirement to purchase membership service credit for the entire period of service in the armed forces of the United States, but not to exceed five years. The purchase may be made only if the member] was discharged or separated from the armed forces by other than a dishonorable discharge[.

(2) A member who had served in the armed forces of the United States prior to becoming a member, and who becomes employed in a position qualifying for membership in the retirement system after such member's discharge under honorable conditions] may elect[, prior to

retirement,] to purchase membership service credit for the [entire] period of **active duty** service in the armed forces[, but not to exceed five years].

5. Any member granted unpaid maternity or paternity leave for a period, from a position covered by the retirement system, who returned to employment **in such a position**, may elect [prior to retirement] to purchase membership service credit for the period of leave. [No member may purchase more than four years of membership service credit pursuant to this subsection.]

6. Any member who is or was certified as a vocational-technical teacher on the basis of having a college degree or who was required to have a period of work experience of at least two years in the area of the subject being taught in order to qualify for such certification may, upon written application to the board, purchase equivalent membership service credit for such work experience which shall not exceed the two years necessary for certification if the work experience was in the area that the member taught or is teaching and was completed in two years.

7. Any member who had membership service credit with the public school retirement system of Missouri governed by sections 169.010 to 169.141 but which membership service credit was forfeited by withdrawal or refund, may elect [prior to retirement,] to purchase credit for such service [and receive pro rata credit not to exceed a total of ten years in this system for the service]. The public school retirement system of Missouri shall transfer to this system an amount equal to the employer contributions for the forfeited service being purchased, plus interest, which shall be applied to reduce the amount the member would otherwise pay for the purchase, provided that the amount transferred shall not exceed one-half of the purchase cost.

8. A member may elect to purchase membership service credit for service rendered while on leave from an employer, as defined in section 169.600, for a not-for-profit corporation or agency whose primary purpose is support of education or education research[, not to exceed two years] if the member was employed by that organization to serve twenty or more hours per week; provided the member has returned to service for at least one year as an employee of the employer that granted the leave] **on a regular basis**.

9. A member [having membership service credit in the retirement system provided by sections 169.600 to 169.715, after the member] **who** was employed by a private school [to serve], **private junior college, private community college, private college, or private university, either inside or outside of this state, for at least** twenty or more hours per week **on a regular basis**, may elect to purchase membership service credit for **such** service rendered [to the private school, but not to exceed three years. As used in this subsection, the term "private school" means a school which is not a part of the public school system of this state and which charges tuition for the rendering of elementary and secondary educational services].

169.670. 1. The retirement allowance of a member whose age at retirement is sixty years or more and whose creditable service is five years or more, or whose sum of age and creditable service equals eighty years or more, or whose creditable service is thirty years or more regardless

of age, shall be the sum of the following items:

(1) For each year of membership service, one and sixty-one hundredths percent of the member's final average salary;

(2) Six-tenths of the amount payable for a year of membership service for each year of prior service;

(3) Eighty-five one-hundredths of one percent of any amount by which the member's average compensation for services rendered prior to July 1, 1973, exceeds the average monthly compensation on which federal Social Security taxes were paid during the period over which such average compensation was computed, for each year of membership service credit for services rendered prior to July 1, 1973, plus six-tenths of the amount payable for a year of membership service for each year of prior service credit;

(4) In lieu of the retirement allowance otherwise provided by subdivisions (1) to (3) of this subsection, between July 1, 2001, and July 1, [2003] **2008**, a member may elect to receive a retirement allowance of:

(a) One and fifty-nine hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-nine years or more but less than thirty years and the member has not attained the age of fifty-five;

(b) One and fifty-seven hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-eight years or more but less than twenty-nine years, and the member has not attained the age of fifty-five;

(c) One and fifty-five hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-seven years or more but less than twenty-eight years and the member has not attained the age of fifty-five;

(d) One and fifty-three hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-six years or more but less than twenty-seven years and the member has not attained the age of fifty-five;

(e) One and fifty-one hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-five years or more but less than twenty-six years and the member has not attained the age of fifty-five; and

(5) In addition to the retirement allowance provided in subdivisions (1) to (3) of this subsection, a member retiring on or after July 1, 2001, whose creditable service is thirty years or more or whose sum of age and creditable service is eighty years or more, shall receive a temporary retirement allowance equivalent to eight-tenths of one percent of the member's final average salary multiplied by the member's years of service until such time as the member reaches the minimum age for Social Security retirement benefits.

2. If the board of trustees determines that the cost of living, as measured by generally accepted standards, increases five percent or more in the preceding fiscal year, the board shall

increase the retirement allowances which the retired members or beneficiaries are receiving by five percent of the amount being received by the retired member or the beneficiary at the time the annual increase is granted by the board; provided that, the increase provided in this subsection shall not become effective until the fourth January first following a member's retirement or January 1, 1982, whichever occurs later, and the total of the increases granted to a retired member or the beneficiary after December 31, 1981, may not exceed eighty percent of the retirement allowance established at retirement or as previously adjusted by other provisions of law. If the cost of living increases less than five percent, the board of trustees may determine the percentage of increase to be made in retirement allowances, but at no time can the increase exceed five percent per year. If the cost of living decreases in a fiscal year, there will be no increase in allowances for retired members on the following January first.

3. The board of trustees may reduce the amounts which have been granted as increases to a member pursuant to subsection 2 of this section if the cost of living, as determined by the board and as measured by generally accepted standards, is less than the cost of living was at the time of the first increase granted to the member; provided that, the reductions shall not exceed the amount of increases which have been made to the member's allowance after December 31, 1981.

4. (1) In lieu of the retirement allowance provided in subsection 1 of this section, called "option 1", a member whose creditable service is twenty-five years or more or who has attained age fifty-five with five or more years of creditable service may elect, in the application for retirement, to receive the actuarial equivalent of the member's retirement allowance in reduced monthly payments for life during retirement with the provision that:

Option 2. Upon the member's death, the reduced retirement allowance shall be continued throughout the life of and paid to such person as has an insurable interest in the life of the member as the member shall have nominated in the member's election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance will be increased to the amount the retired member would be receiving had the member elected option 1;

OR

Option 3. Upon the death of the member three-fourths of the reduced retirement allowance shall be continued throughout the life of and paid to such person as has an insurable interest in the life of the member and as the member shall have nominated in an election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance will be increased to the amount the retired member would be receiving had the member elected option 1;

OR

Option 4. Upon the death of the member one-half of the reduced retirement allowance

shall be continued throughout the life of, and paid to, such person as has an insurable interest in the life of the member and as the member shall have nominated in an election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance shall be increased to the amount the retired member would be receiving had the member elected option 1;

OR

Option 5. Upon the death of the member prior to the member having received one hundred twenty monthly payments of the member's reduced allowance, the remainder of the one hundred twenty monthly payments of the reduced allowance shall be paid to such beneficiary as the member shall have nominated in the member's election of the option or in a subsequent nomination. If there is no beneficiary so nominated who survives the member for the remainder of the one hundred twenty monthly payments, the reserve for the remainder of such one hundred twenty monthly payments shall be paid to the estate of the last person to receive a monthly allowance;

OR

Option 6. Upon the death of the member prior to the member having received sixty monthly payments of the member's reduced allowance, the remainder of the sixty monthly payments of the reduced allowance shall be paid to such beneficiary as the member shall have nominated in the member's election of the option or in a subsequent nomination. If there is no beneficiary so nominated who survives the member for the remainder of the sixty monthly payments, the reserve for the remainder of such sixty monthly payments shall be paid to the estate of the last person to receive a monthly allowance;

OR

Option 7. A plan of variable monthly benefit payments which provides, in conjunction with the member's retirement benefits under the federal Social Security laws, level or near-level retirement benefit payments to the member for life during retirement, and if authorized, to an appropriate beneficiary designated by the member. Such a plan shall be actuarially equivalent to the retirement allowance under option 1 and shall be available for election only if established by the board of trustees under duly adopted rules.

(2) The election of an option may be made only in the application for retirement and such application must be filed prior to the date on which the retirement of the member is to be effective. If either the member or the person nominated dies before the effective date of retirement, the option shall not be effective, provided that:

(a) If the member or a person retired on disability retirement dies after attaining age fifty-five and acquiring five or more years of creditable service or after acquiring twenty-five or more years of creditable service and before retirement, except retirement with disability benefits, and the person named by the member as the member's primary beneficiary has an insurable

interest in the life of the deceased member, the designated beneficiary may elect to receive either survivorship payments under option 2 or a payment of the member's accumulated contributions. If survivorship benefits under option 2 are elected and the member at the time of death would have been eligible to receive an actuarial equivalent of the member's retirement allowance, the designated beneficiary may further elect to defer the option 2 payments until the date the member would have been eligible to receive the retirement allowance provided in subsection 1 of this section.

(b) If the member or a person retired on disability retirement dies before attaining age fifty-five but after acquiring five but fewer than twenty-five years of creditable service, and the person named as the primary beneficiary has an insurable interest in the life of the deceased member or disability retiree, the designated beneficiary may elect to receive either a payment of the person's accumulated contributions, or survivorship benefits under option 2 to begin on the date the member would first have been eligible to receive an actuarial equivalent of the person's retirement allowance, or to begin on the date the member would first have been eligible to receive the retirement allowance provided in subsection 1 of this section.

5. If the total of the retirement allowances paid to an individual before the person's death is less than the person's accumulated contributions at the time of the person's retirement, the difference shall be paid to the person's beneficiary or to the person's estate; provided, however, that if an optional benefit, as provided in option 2, 3 or 4 in subsection 4, had been elected and the beneficiary dies after receiving the optional benefit, then, if the total retirement allowances paid to the retired individual and the individual's beneficiary are less than the total of the contributions, the difference shall be paid to the estate of the beneficiary unless the retired individual designates a different recipient with the board at or after retirement.

6. If a member dies before receiving a retirement allowance, the member's accumulated contributions at the time of the member's death shall be paid to the member's beneficiary or to the member's estate, if there be no beneficiary; provided, however, that no such payment shall be made if the beneficiary elects option 2 in subsection 4 of this section, unless the beneficiary dies before having received benefits pursuant to that subsection equal to the accumulated contributions of the member, in which case the amount of accumulated contributions in excess of the total benefits paid pursuant to that subsection shall be paid to the estate of the beneficiary.

7. If a member ceases to be an employee as defined in section 169.600 and certifies to the board of trustees that such cessation is permanent or if the person's membership is otherwise terminated, the person shall be paid the person's accumulated contributions with interest.

8. Notwithstanding any provisions of sections 169.600 to 169.715 to the contrary, if a member ceases to be an employee as defined in section 169.600 after acquiring five or more years of creditable service, the member may, at the option of the member, leave the member's

contributions with the retirement system and claim a retirement allowance any time after the member reaches the minimum age for voluntary retirement. When the member's claim is presented to the board, the member shall be granted an allowance as provided in sections 169.600 to 169.715 on the basis of the member's age and years of service.

9. The retirement allowance of a member retired because of disability shall be nine-tenths of the allowance to which the member's creditable service would entitle the member if the member's age were sixty.

10. Notwithstanding any provisions of sections 169.600 to 169.715 to the contrary, any member who is a member prior to October 13, 1969, may elect to have the member's retirement allowance computed in accordance with sections 169.600 to 169.715 as they existed prior to October 13, 1969.

11. Any application for retirement shall include a sworn statement by the member certifying that the spouse of the member at the time the application was completed was aware of the application and the plan of retirement elected in the application.

12. Notwithstanding any other provision of law, any person retired prior to August 14, 1984, who is receiving a reduced retirement allowance under option 1 or 2 of subsection 4 of this section, as the option existed prior to August 14, 1984, and whose beneficiary nominated to receive continued retirement allowance payments under the elected option dies or has died, shall upon application to the board of trustees have the person's retirement allowance increased to the amount the person would have been receiving had the person not elected the option, actuarially adjusted to recognize any excessive benefits which would have been paid to the person up to the time of the application.

13. Benefits paid pursuant to the provisions of the nonteacher school employee retirement system of Missouri shall not exceed the limitations of Section 415 of Title 26 of the United States Code.

14. Any member who has retired prior to July 1, 1999, and the designated beneficiary of a deceased retired member upon request shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging. As compensation for such duties the person shall receive a payment equivalent to seven and four-tenths percent of the previous month's benefit, which shall be added to the member's or beneficiary's monthly annuity and which shall not be subject to the provisions of subsections 2 and 3 of this section for the purposes of the limit on the total amount of increases which may be received.

15. Any member who has retired prior to July 1, 2000, and the designated beneficiary of a deceased retired member upon request shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging. As compensation for such duties the person shall receive a payment equivalent to three and

four-tenths percent of the previous month's benefit, which shall be added to the member's or beneficiary's monthly annuity and which shall not be subject to the provisions of subsections 2 and 3 of this section for the purposes of the limit on the total amount of increases which may be received.

16. Any member who has retired prior to July 1, 2001, and the designated beneficiary of a deceased retired member upon request shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging. As compensation for such duties the person shall receive a payment equivalent to seven and one-tenth percent of the previous month's benefit, which shall be added to the member's or beneficiary's monthly annuity and which shall not be subject to the provisions of subsections 2 and 3 of this section for the purposes of the limit on the total amount of increases which may be received.

169.673. 1. Any member eligible for a retirement allowance pursuant to section 169.670 and who has not previously received a retirement allowance, and whose sum of age and creditable service equals eighty-six years or more or whose creditable service is thirty-three years or more or whose age is sixty-three years or more and who has eight years or more of creditable service may elect a distribution under the partial lump-sum option plan provided in this section if the member notifies the retirement system on the application for retirement of the member's effective date of retirement and election at least thirty days prior to retirement; provided that the partial lump sum option plan may not be elected if the member elects a retirement allowance under Option 7 of paragraph (1) of subsection 4 of section 169.670.

2. A member entitled to make an election pursuant to this section may elect to receive a lump-sum distribution in addition to the member's monthly retirement allowance payment pursuant to section 169.670 as reduced pursuant to this section. Such member may elect the amount of the member's lump-sum distribution from one, but not more than one, of the following options:

(1) A lump-sum amount equal to twelve times the retirement allowance, less any temporary retirement allowance payable pursuant to subdivision (5) of subsection 1 of section 169.670, the member would receive if no election were made under this section and the member had chosen Option 1 under section 169.670;

(2) A lump-sum amount equal to twenty-four times the retirement allowance, less any temporary retirement allowance payable pursuant to subdivision (5) of subsection 1 of section 169.670, the member would receive if no election were made pursuant to this section and the member had chosen Option 1 under section 169.670;
or

(3) A lump-sum amount equal to thirty-six times the retirement allowance, less

any temporary retirement allowance payable pursuant to subdivision (5) of subsection 1 of section 169.670, the member would receive if no election were made pursuant to this section and the member had chosen Option 1 under section 169.670.

3. When a member makes an election to receive a lump-sum distribution pursuant to this section, the retirement allowance that the member would have received in the absence of the election shall be reduced on an actuarially equivalent basis to reflect the payment of the lump-sum distribution and the reduced retirement allowance shall be the member's retirement allowance thereafter for all purposes in relation to retirement allowance amounts pursuant to section 169.670. If eligible, the member may also receive a temporary benefit, pursuant to subdivision (5) of subsection 1 of section 169.670, for the period of time described therein. A retirement allowance increased due to the death of a person nominated by the member to receive benefits pursuant to the provisions of Option 2, 3, or 4 of subsection 4 of section 169.670 shall be increased pursuant to such provisions to the amount the retired member would be receiving had the retired member elected Option 1 as actuarially reduced due to the lump sum distribution made pursuant to this section. Any payment of accumulated contributions pursuant to the provisions of sections 169.600 to 169.715 shall be reduced by the amount of any lump sum distribution made pursuant to this section in addition to any other reductions required by sections 169.600 to 169.715.

4. If the member dies before receiving a lump-sum distribution under this section, the lump-sum distribution shall be paid in accordance with rules adopted by the board of trustees.

5. Benefits paid pursuant to this section in addition to all other provisions of the nonteacher school employee retirement system of Missouri shall not exceed the limitations of Section 415 of Title 26 of the United States Code except as provided in subsection 13 of section 169.670.

169.712. 1. Notwithstanding any provision of law to the contrary, any person duly certificated under the law governing the certification of teachers in Missouri who, after August 28, 1997, is first employed in a position which would otherwise qualify the person for membership in the nonteacher school employee retirement system pursuant to the provisions of sections 169.600 to 169.710 shall be a member of the public school retirement system pursuant to the provisions of sections 169.010 to 169.141, and shall receive creditable service on a pro rata basis in that system for subsequent certificated services which would otherwise have been creditable in the nonteacher school employee retirement system. Any such person shall have the option of being a member of the nonteacher school employee retirement system. The option election must be filed with the board of trustees of the public school retirement system within ninety days of first such employment following August 28, 1997.

2. Notwithstanding any provision of law to the contrary, any person duly certificated under the law governing the certification of teachers in Missouri who, on or after August 28, 2003, is employed by a public school, as defined in section 169.010, for at least seventeen but less than twenty hours per week on a regular basis shall be a member of the public school retirement system pursuant to the provisions of sections 169.010 to 169.141, and shall receive creditable service on a pro rata basis in that system. The option election must be filed with the board of trustees of the public school retirement system within ninety days of first such employment or within ninety days of August 28, 2003, whichever later occurs.

3. Any person who is a member of the public school retirement system or the nonteacher school employee retirement system pursuant to subsection 2 of this section may purchase credit in such system for service after August 28, 1991, that would have qualified such person for membership in either retirement system pursuant to subsection 2 of this section had such subsection been in effect prior to August 28, 2003; provided that such purchase of credit in the public school retirement system shall be subject to the provisions of section 169.056 and such purchase of credit in the nonteacher school employee retirement system shall be subject to the provisions of section 169.655.

287.845. 1. The board shall administer the provisions of sections 287.812 to 287.855 and shall have the same powers, duties, and obligations in regard to the funds and the system provided for in such sections as it has in regard to the Missouri state employees' retirement system. The system shall calculate the annuity for an administrative law judge or legal advisor, as defined in section 287.812 based on the law in effect at the time the administrative law judge's or legal [advisory's] **advisor's** employment was terminated.

2.
