Senator Gary Nodler Declares Session A Success

JEFFERSON CITY— With the 93rd General Assembly adjourned for the year, Sen. Gary Nodler, R-Joplin, considers the past session a success after lawmakers accomplished many of their legislative goals.

“Thanks to remarkable support from the governor, we were able to make sweeping changes to areas in need of improvement,” Nodler said. “With thorough deliberation and efficient bill handling, we also were able to bring a finer balance to our priorities as a state.”

Nodler is pleased that the Legislature was able to craft a new school funding formula, promote a business-friendly economic climate, and responsibly plan the state budget to cover the most worthwhile programs and services without having to raise taxes for Missouri citizens.

“Although the session has ended, I will continue to serve the people of the 32nd Senate District,” Nodler said. “I encourage my constituents to bring their concerns to my office so that I can best represent them in Missouri’s upper chamber.”

During the interim, Nodler will discontinue writing weekly reports, but he will send out press releases as important events occur. The Second Regular Session of the 93rd General Assembly will convene Wed., Jan. 4.

-END-

*Senator Gary Nodler represents the people of Newton, Jasper
and Dade counties in the Missouri Senate.*
