162.740. The district of residence of each child attending a state school for severely handicapped children[, an institution providing contractual services arranged pursuant to section 162.735,] or an educational program for a full-time patient or resident at a facility operated by the department of mental health, except school districts which are a part of a special district and except special school districts, shall pay toward the cost of the education of the child an amount equal to the average sum produced per child by the local tax effort of the district. The district of residence shall be notified each year, not later than December fifteenth, of the names and addresses of pupils enrolled in such schools. In the case of a special district, said special district shall be responsible for an amount per child not to exceed the average sum produced per child by the local tax efforts of the component districts. The district of residence of the child's parents or guardians shall be the district responsible for local tax contributions required by this section.

162.974. 1. The state department of elementary and secondary education shall reimburse school districts, including special school districts, for the educational costs of high-need children with an individualized education program exceeding three times the current expenditure per average daily attendance as calculated on the district annual secretary of the board report for the year in which expenditures are claimed.

the state board of education and such program must be approved by the state department of elementary and secondary education in accordance with regulations established pursuant to section 162.685.

2. Special educational programs shall be established which are designed to develop the individual pupil in order that he may achieve the best possible adjustment in society under the limitation of his handicap.

3. When special districts have been formed to serve handicapped and severely handicapped children under the provisions of sections 162.670 to 162.995, severely handicapped children residing in school districts comprising the special district shall be educated in programs of the special district.]

[162.735. The state department of elementary and secondary education may assign severely handicapped children, except severely handicapped children residing in special school districts and in districts providing approved special educational services for severely handicapped children, to state schools for severely handicapped children, the school for the blind or the school for the deaf. Furthermore, the state board of education may contract for the education of a severely handicapped child with another public agency or with a private agency when the state department of elementary and secondary education determines that such an arrangement would be in the best interests of the severely handicapped child. Assignment of severely handicapped children under this section shall be made to a particular school or program which, in the judgment of the state department of elementary and secondary education, can best provide special educational services, and such assignment shall be made upon the basis of competent evaluations; provided, however, the assignment may be appealed by a parent or guardian pursuant to sections 162.945 to 162.965. Children who are not residents of this state may be admitted to these schools if the schools have the capacity to receive them and upon payment of full tuition and costs as prescribed by the state board of education.]
