As Your Senator...

Missouri State Government Web Page

Missouri has a state-of-the-art Internet web site that is available to the public. From the main page you can access the executive, legislative and judicial branches of state government. The address is www.mo.gov Here you can find bills that have been introduced, track their progress, and find out about meeting schedules and floor debate. All state government agencies are on the main page. It is a terrific asset for us to use.

You can listen to legislative debate as it happens from the Senate or House of Representatives by visiting their respective websites at <http://www.senate.mo.gov> or <http://www.house.mo.gov> and clicking on the [Live Debate](#) links.

All the Senate and House bills are available online, and can be downloaded and printed at any time. If you prefer, feel free to contact my office and I will have information mailed directly to you. I or my staff will be happy to answer any questions you may have regarding Missouri legislation.
