CONCURRENT RESOLUTIONS

Senator Crowell offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 20

Relating to recognition of October 3rd as
Science Day

WHEREAS, in 2006, more than 100 schools, science learning centers, and city and state leaders made the first ever Science Day in the heartland a big success; and

WHEREAS, governors from Illinois, Tennessee, and Missouri have previously proclaimed October 3rd as "Science Day"; and

WHEREAS, it is absolutely fitting and proper to designate a special day to raise public awareness of the importance of science

education; and

WHEREAS, such an important designation could raise enthusiasm for science and technology learning; and

WHEREAS, a solid educational foundation based on the sciences have inspired individuals to develop breakthrough cures for all types of disease, provide awareness about the importance of taking care of our environment, and create modern conveniences which better the lives for each one of us:

NOW THEREFORE BE IT RESOLVED that the members of the Missouri Senate, Ninety-Fourth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby recognize October 3rd of each year, as Science Day in Missouri; and

BE IT FURTHER RESOLVED that members of the Missouri Senate and the House of Representatives encourage citizens throughout Missouri to observe this day by honoring teachers in their community and by recognizing the importance of science in the classroom; and

BE IT FURTHER RESOLVED that the Secretary of the Missouri Senate be instructed to send properly inscribed copies of this resolution to the Governor for his approval or rejection pursuant to the Missouri constitution.

Read 1st time.

Senators Shoemyer, Graham, Wilson, Coleman, Bray and Justus offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 21

Whereas, Missouri's career and technical education delivery system consists of 536 local education agencies, including 451 comprehensive high schools (53 with area career centers), one technical college (also a career center), 12 community college districts (4 with area career centers), 8 four-year institutions, and two state agencies; and

Whereas, over 56% of Missouri high school students, grades 9 to 12, participated in career and technical education programs, services, and activities in fiscal year 2005; and

Whereas, more than 33,375 high school students from 428 school districts received occupational skill training in area career centers or districts offering approved career and technical education programs in fiscal year 2005; and

Whereas, the Department of Elementary and Secondary Education reported that female high school students comprise over 80% of students in courses that are traditional for their gender, such as cosmetology, childcare and development, and the health professions, whereas they make up less than 10% of enrolled students in high school courses that are nontraditional for their gender, such as automotive, construction and repair, and precision

production classes; and

Whereas, the percentage of female students enrolled in historically male career and technical education fields has not changed dramatically in almost 35 years, despite the fact that Title IX of the Education Amendments of 1972 and the Missouri Human Rights Act prohibit sex discrimination in education; and

Whereas, although traditionally female career and technical education courses provide important educational paths for many students and prepare those students to provide necessary and valuable services to the citizens of Missouri, the enrollment disparities outlined above have significant economic consequences both for students and for the State of Missouri; and

Whereas, according to the United States Bureau of Labor Statistics, male-dominated fields in Missouri pay a median hourly wage of \$18.95, while traditionally female fields pay a median hourly wage of just \$12.65, and some traditionally female occupations, such as childcare, pay a median hourly wage of less than \$8 per hour; and

Whereas, career and technical education courses and programs that are nontraditional for males or females provide important career pathways for advancement in math, engineering, science, and technology fields; and

Whereas, high technology jobs, as well as many jobs that are nontraditional for either females or males, are in high demand and thus promise stable employment; and

Whereas, as a result of these workplace realities, artificial or discriminatory limits on access to training for traditionally male or traditionally female fields can compromise students' future earning potential, economic self-sufficiency, and ability to provide for themselves and their families; and

Whereas, for these and other reasons, Missouri has an interest in developing the potential of all of its citizens and ensuring that all students have equal opportunities to excel in training for high-way, high-skill, high-demand fields, regardless of their gender; and

Whereas, reaching these goals will benefit Missouri as well as individual students by enabling the State of Missouri to compete in the knowledge-based economy, by preparing its workforce with world-class skills, and by fully utilizing the talents of all of its citizens; and

Whereas, effective policies that open opportunities for all students to pursue nontraditional career and technical education courses comports with the Missouri Math, Engineering, Technology and Science (METS) Alliance goal to expand the pool of students motivated to pursue METS careers; and

Whereas, effective policies that provide opportunities in Missouri for training in nontraditional careers support Missouri's compliance with the Carl D. Perkins Career and Technical Education Act of 2006, which requires states to meet accountability measures of student participation in and completion of career and technical education programs:

Now, therefore, be it resolved that the members of the Senate of the Ninety-fourth General Assembly, First Regular Session, the House of Representatives concurring therein, hereby establish a Joint Interim Committee on Access to Nontraditional Career and Technical Education; and

Be it further resolved that the committee be comprised of the following ten members to be appointed prior to the end of the First Regular Session of the Ninety-fourth General Assembly:

(1) Six members, three members from the House of Representatives with two members appointed by the Speaker of the House and one member appointed by the Minority Floor Leader of the House, and three members from the Senate, with two members appointed by the President Pro Tem of the Senate and one member appointed by the Minority Floor Leader of the Senate;

(2) The following members to be appointed by the Department of Elementary and Secondary Education:

(a) One career and technical education administrator;

(b) One career and technical education teacher;

(c) One career and technical education counselor; and

(d) One career and technical education student enrolled in a course that is nontraditional for his or her gender; and

Be it further resolved that the committee shall conduct a comprehensive investigation of the recruitment, enrollment, educational, and retention practices of the career and technical education programs in 20 school districts. Such school districts shall be selected by the committee in consultation with the Department. The investigation shall include a majority representation of school districts that house career centers and shall examine the barriers, policies, and practices that limit students' access and completion of career and technical education programs that are nontraditional for their gender and the practices that can effectively reduce those barriers and promote equal access to and completion of such career and technical education programs; and

Be it further resolved that the committee's investigation shall include, among other issues:

(1) Patterns revealed by enrollment and graduation data, disaggregated by gender and by race, ethnicity, disability, and socio-economic status within gender;

(2) The reasons students enroll in career and technical education programs generally and in specific fields in particular;

(3) The level of student awareness of career and technical education programs that are nontraditional for their gender;

(4) The affirmative steps taken by each district to recruit and retain students in career and technical education programs that are nontraditional for their gender and the efficiency of those steps;

(5) The existence of any artificial barriers in guidance counselor practices, classroom environment, internship and career placement services, or the like, that discourage students from pursuing or persisting in career and technical education programs

that are nontraditional for their gender; and

(6) The number of complaints of inequities or discrimination filed, if any, involving students enrolled in career and technical education classes; and

Be it further resolved that the committee may create subcommittees, hold hearings as it deems advisable, and obtain any input or information necessary to fulfill its obligations from the Department of Elementary and Secondary Education, the Missouri Center for Career Education, and any school district; and

Be it further resolved that the staffs of House Research, Senate Research, and the Joint Committee on Legislative Research shall provide such legal, research, clerical, technical, and bill drafting services as the committee may require in the performance of its duties; and

Be it further resolved that the committee will prepare a report to be submitted to the General assembly prior to the conclusion of the Ninety-fourth General Assembly that contains factual finding on each of the topics investigated by the committee and any recommendations for improving the recruitment and retention of students in career and technical education programs that are nontraditional for their gender; and

Be it further resolved that the committee will prepare a statewide comprehensive plan for implementation and public promotion of the report, including facilitating the coordination among state and local agencies and organizations regarding achieving the recommendations outlined in the report; and

Be it further resolved that the Secretary of the Missouri Senate be instructed to prepare properly inscribed copies of this resolution for the Department of Elementary and Secondary Education, Division of Career Education, the Missouri Center for Career Education, the Missouri Women's Council, the eight MCCE Career Education Centers, and the Math, Engineering and Science Alliance.

SENATE AMENDMENT NO. 1

Amend Senate Substitute for Senate Committee Substitute for Senate Bill No. 129, Page 3, Section 226.527, Line 3, by inserting after all of said line, the following:

“226.531. 1. As used in this section the following terms mean:

(1) “Adult cabaret”, a nightclub, bar, restaurant, or similar establishment in which persons appear in a state of nudity, as defined in section 573.500, RSMo, or seminudity, in the performance of their duties;

(2) “Seminudity”, a state of dress in which opaque clothing fails to cover the genitals, anus, anal cleft or cleavage, pubic area, vulva, nipple and areola of the female breast below a horizontal line across the top of the areola at its highest point. Seminudity shall include the entire lower portion of the female breast, but shall not include any portion of the cleavage of the human female breast exhibited by wearing apparel provided the areola is not exposed in whole or part;

(3) “Sexually oriented business”, any business which offers its patrons goods of which a substantial **or significant** portion are sexually oriented materials[. Any business where more than ten percent of display space is used for sexually oriented materials shall be presumed to be a sexually oriented business];

(4) “Sexually oriented materials”, any textual, pictorial, or three-dimensional material that depicts nudity, sexual conduct, sexual excitement, or sadomasochistic abuse in a way which is patently offensive to the average person applying

contemporary adult community standards with respect to what is suitable for minors.

2. No billboard or other exterior advertising sign for an adult cabaret or sexually oriented business shall be located within one mile of any state highway **if such billboard or sign displays any picture, photograph, image, or words describing, advertising, or discussing any material, product, performance, or other aspect that causes the business to be classified as an adult cabaret or sexually oriented business**, except if such business is located within one mile of a state highway then the business may display a maximum of two exterior signs on the premises of the business[, consisting]. **The exterior signs shall consist** of one identification sign and one sign solely giving notice that the premises are off limits to minors. The identification sign shall be no more than forty square feet in size and shall **not** include [no more than the following information: name, street address, telephone number, and operating hours of the business] **any picture, photograph, image, or words describing, advertising, or discussing any material, product, performance, or other aspect that causes the business to be classified as an adult cabaret or sexually oriented business. No adult cabaret or sexually oriented business shall have more than two billboards or other exterior advertising signs that are not located on its own premises.**

3. Signs existing on August 28, [2004] **2007**, which [did] **do** not conform to the requirements of this section, may be allowed to continue as a nonconforming use, but should be made to conform within [three] **two** years from August 28, [2004] **2007**.

4. Any owner of such a business who violates the provisions of this section shall be guilty of a class C misdemeanor. Each week a violation of this section continues to exist shall constitute a separate offense.

5. This section is designed to protect the following public policy interests of this state,

including but not limited to: to mitigate the adverse secondary effects of sexually oriented businesses, to improve traffic safety, to limit harm to minors, and to reduce prostitution, crime, juvenile delinquency, deterioration in property values, and lethargy in neighborhood improvement efforts.”; and

Further amend the title and enacting clause accordingly.
