**COMMUNITY  
SERVICES  
DIRECTORY**

*From your State Senator*

**TIMOTHY P. GREEN**

13TH SENATORIAL DISTRICT

Dear Neighbors,

There are many resources available to Missouri citizens through state and local agencies. However, in many cases, people fail to take advantage of these services because they are unfamiliar with existing organizations and the programs they offer.

It is my pleasure to present to you the **2008 Community Services Directory for the 13th Senatorial District**, with a brief Legislative Updated included. I hope that you will find it to be a quick and easy reference for locating city, county, state and federal telephone numbers and addresses for your reference and convenience. This guide includes phone numbers, addresses and other pertinent data that you may find helpful.

If you do not find the information you need in this directory, or find your questions still unanswered, please do not hesitate to contact my office. My staff will be happy to assist you.

As your state senator, it is a privilege to serve you and I take great pride in representing you in the 13th District. I am always interested in discussing legislative issues or to assist you with any problems involving state government. Your concerns are important to me, and my door is always open to you.

Sincerely,

Timothy P. Green  
State Senator  
13th Senatorial District

### **NOTICE REQUIRED ON UTILITY CUTOFFS**

During the winter heating season, Missouri gas and electric utilities regulated by the Missouri Public Service Commission must give customers at least ten days written notice before service may be disconnected and additional written or personal contact at least 96 hours prior to disconnection. Additionally, no disconnections may occur on any day in which the temperature is forecast to be below 30 degrees.

These rules, which are in effect between Nov. 1 and March 31, require also that customers whose service is about to be cut off be told that they might qualify for financial aid to help pay their utility bills. Elderly or handicapped customers who register with utilities in advance are given even greater protection by the new rules. The Hot Weather Rule establishes a hot weather rule during the time period from June 1st to September 30th. During this time, natural gas or electricity providers are prohibited from disconnecting service to residential customers on days when either the temperature is expected to rise above 95 degrees or the heat index is expected to rise above 105 degrees for the following twenty-four hour period or on days when service personnel will not be available to reconnect service and the temperature or heat index is expected to rise above these marks.

Customers can get more information on these regulations by calling:
