Senator Bill Stouffer Announces Tax Credit Approval for Carrollton Ethanol Producer

JEFFERSON CITY – State Sen. Bill Stouffer, R-Napton, today announced that Show Me Ethanol, LLC, has been approved for \$2,111,492 in state Enhanced Enterprise Zone tax credits.

“Ethanol production is the future for Missouri, the country, and the world,” Sen. Stouffer said. “I’m glad to see the investments being made in the production of alternative fuels benefitting the fine folks in the Carrollton area — a benefit that reaches across the state and ultimately coast to coast as the nation continues to move from dependence on foreign oil.”

The Missouri Department of Economic Development (DED) approved the tax credits, which will help create 30 new jobs, paying an average wage of \$30,000. Overall, the Carrollton-based plant represents an \$80 million investment.

“I am pleased that DED is playing an active role in Carrollton’s economic development efforts,” said Missouri Department of Economic Development Director Greg Steinhoff.

For more information, contact Sen. Stouffer’s Capitol office at (573) 751-1507 or toll free at (866) 768-3987.
