First Regular Session

MISSOURI SENATE

WEEKLY BILL STATUS REPORT

March 23 - 27, 2009

Prepared by
Divisions of Research and Computer Information Systems

*** SB 1 ***

HCS SS SCS SB 1

0404L.09C

SENATE SPONSOR: Scott

HOUSE HANDLER: Wasson

HCS/SS/SCS/SB 1 - This act establishes licensing requirements for preneed funeral contract sellers, providers, and seller agents and establishes requirements for all preneed contracts.

All preneed providers shall be registered to conduct business in Missouri and identify a custodian of records and any seller authorized by the provider to sell preneed contracts in connection with the seller. If the applicant is a corporation, each officer, director, manager, or controlling shareholder shall be of good moral character and be eligible for licensure if they were individually applying for licensure. (333.315)

All preneed sellers shall be registered to conduct business in Missouri and identify a custodian of records and any provider that has authorized the seller to designate such person as a provider under a preneed contract. If the applicant is a corporation, each officer, director, manager, or controlling shareholder shall be of good moral character and be eligible for licensure if they were individually applying for licensure. Sellers shall also establish a trust in order to sell trust funded preneed contracts. (333.320)

Preneed agents selling contracts on behalf of a seller shall be at least 18 years old and provide the name and address of each seller for whom the applicant is authorized to sell preneed contracts. (333.325)

The grounds for denial, suspension, and revocation of licenses and registrations are made the same for embalmers, funeral directors, preneed sellers, preneed providers, and preneed agents. Individuals whose license or registration are revoked shall wait three years to reapply. (333.330)

Persons shall not be designated as a preneed provider unless they have a written contractual agreement with the seller stating as such. (436.420)

The act enumerates provisions required to be included in all preneed contracts. (436.425)

In the case of a trust funded contract, sellers shall place at least 95% of the total amount of the contract into the trust. The calculation of the total contract amount shall include the origination fee which may be up to the first 5% which may be retained by the seller. All payments minus any origination fee must be deposited into the trust within 60 days of receipt. After the seller has deposited payments into the trust, the trustee may disburse up to 10% of the total of payments received into the trust on the contract. Payments of two or more contracts may be commingled in the same preneed trust if adequate records are kept. Expenses of establishing and administering the trust may be paid from income generated from the trust. If the income is insufficient to pay such fees, the seller is obligated to pay the fees. Sellers and providers are entitled to all of the income of the trust according to the terms of the contract, less the administration fees, which shall accrue through the life of the trust, the market value of which may be distributed upon termination of the trust. (436.430)

Trustees shall be held to the prudent investor standard and shall diversify the investments in the trust unless the trustee reasonably determines that the purpose of the trust is better served without diversification. (436.435)

Sellers, providers, and preneed agents shall not receive or collect from the purchaser of an insurance funded preneed contract, any amount in excess of what is required to pay the premiums on the insurance policy as assessed or required by the insurer as premium payments for the insurance policy. Sellers shall not collect any fees from the purchaser of an insurance funded preneed contract, other than those fees assessed by the insurer. Term life insurance policies shall not be used to fund a preneed contract unless a purchaser has a preexisting insurance policy and assigns benefits to qualify for public services. Providers, sellers, and agents shall not procure or accept a loan against an insurance contract used to fund a preneed contract. The purchaser or beneficiary shall be the owner of the insurance policy purchased to fund a preneed contract which shall only be valid if the seller or provider is named as the beneficiary or assignee of the policy. If the proceeds of the policy exceed the cost of goods and services provided pursuant to the contract, any overage shall be paid to the estate of the beneficiary or to the state if the beneficiary received public assistance. (436.450)

Sellers and purchasers may agree to use a joint account to fund the contract. A separate joint account shall be established for each preneed contract. All payments shall be deposited in the account within 10 days of receipt of the payment by the seller. Financial institutions shall not invest the funds of the account in term life insurance or any investment that does not reasonably have the potential to gain income. (436.455)

Purchasers may cancel a revocable contract any time without cause. In the case of a joint account funded contract, all deposited funds shall be returned to the purchaser and interest shall be distributed as provided in the agreement between the seller and purchaser. In the case of a trust funded contract, all of the trust property including any percentage allowed to be withdrawn but excluding interest, shall be returned to the purchaser. The insurance contract shall determine distribution in the case of an insurance funded contract. (436.456)

Sellers may cancel a trust funded or joint account funded contract if the purchaser is in default for over 60 days. Purchasers may remit payments in arrears if the seller chooses not to cancel the contract. If the purchaser fails to remit payments, the seller may cancel the contract or continue the contract where the purchaser will receive full credit for all payments the purchaser has made. Upon cancellation, 80% of the contract payments shall be refunded to the purchaser. (436.457)

Purchasers may select a different provider and shall not be assessed any fee for doing so. In such cases, the seller has the option of continuing the trust or transferring the funds to another preneed trust as designated by the new provider. (436.458)

Sellers shall file annual reports with the board that includes various information relating to the types of contracts they are holding and the details relating to the trusts and joint accounts holding assets for the contracts and the insurance contracts used to fund the contracts. (436.460)

The board shall have the authority to conduct random inspections, investigations, and audits of preneed providers, sellers and agents, and trust and joint accounts holding assets to fund preneed contracts. Financial examinations shall be conducted at least once every five years. The Attorney General shall have concurrent jurisdiction in conducting inspections, investigations, and audits. (436.470)

Those who knowingly and willfully violate any of the aforementioned provisions is guilty of a class C felony. (436.485)

Providers and sellers who cease to do business shall notify the board and certain providers, sellers, and purchasers that it is doing so. (436.490, 436.500)

Preneed contracts may offer the purchaser the option to acquire and maintain credit life insurance on the life of the purchaser to provide for the payment of death benefits to the seller in an amount equal to the total of all contract payments unpaid as of the date of the purchaser's death. (436.505)

SB 2 - This act prohibits certain activities from being committed on the rivers of this state, including:

- 1) Possessing or using beer bong or other devices intended for rapid consumption of alcohol;
- 2) Possessing or consuming any alcoholic substance that is produced in gelatin form (Jell-o shots);
- 3) Possessing or using any large volume alcohol containers that hold more than one gallon;
- 4) Distributing Mardi Gras bead necklaces or similar paraphernalia; and
- 5) Possessing Styrofoam coolers on or within fifty feet of any such river, unless in a campground, picnic area, landing, road, or parking lot.

Violation of these provisions is a Class A misdemeanor.

SB 3 - This act creates the "Business Premises Safety Act." The act provides that a business owners or operators shall not restrict any person from lawfully possessing a firearm in a motor vehicle, except for a motor vehicle owned or leased by such business.

The act also provides that business owners or operators have no duty to guard against the criminal acts of a third party, unless they know or have reason to know that the criminal acts are occurring or are about to occur on the premises, or if the same criminal acts have occurred on the premises within the prior 24 months.

A business also has no duty to implement security measure for the protection of its customers, but shall determine if such measures shall be implemented by considering the magnitude of the burden to the business and the foreseeability of the injury to be prevented. If past criminal activities have occurred, evidence of remedial action shall be inadmissible to show prior negligence.

Business owners or operators shall not be liable for injury or damage resulting from compliance with the provisions of this act.

This act is similar to HB 1383 (2008) and SB 1286 (2008).

SB 4 - This act requires the Department of Social Services in collaboration with the Departments of Health and Senior Services, Elementary and Secondary Education, and Mental Health to develop by September 1, 2009, a quality rating system for early childhood and before-and after-school programs licensed by the Department of Health and Senior Services that operate in this state. The licensing of such facilities shall be the baseline, while the highest rating includes accreditation. The departments shall utilize the model from the existing Missouri quality rating system pilots developed by the University of Missouri Center for Family Policy and Research to establish the system. The system will allow consumers and parents to evaluate and select high quality programs and creates a system of accountability for policymakers and those who fund such programs.

By July 1, 2012, all licensed child care facilities voluntarily receiving quality improvement funds and services shall, upon the facilities' request, be rated using the quality rating system established under this act. The Coordinating Board of Early Childhood shall develop a plan for a tiered system of reimbursement for child care subsidies based on the quality rating system established under this act. The proposed plan shall be submitted to the General Assembly with recommendations for implementation of the reimbursement system by December 31, 2010. The plan shall only become effective upon passage of a concurrent resolution by the General Assembly authorizing the implementation of the plan.

The Quality Rating System Program Improvement Grant Fund is established and shall consist of all gifts, donations, transfers, moneys appropriated by the General Assembly, and bequests to the fund. Money in the fund shall be used to provide grants directly to licensed providers seeking assistance for quality improvements to undergo evaluation under the quality rating system established under this act or to community-based organizations assisting providers with such improvements.

The Department of Social Services in collaboration with the Departments of Health and Senior Services, and Elementary and Secondary Education shall be responsible for promoting and distributing materials to educate the public and providers about the quality rating system established under this act. By January 1, 2011, the ratings of the quality rating system shall be posted on the Internet in a format easily understood and accessible by the public.

This act shall sunset in six years.

This act is similar to SS/SCS/SB 726 (2008).

SS#2 SCS SB 5

0233S.07P

SENATE SPONSOR: Griesheimer

SS#2/SCS/SB 5 - This act creates the Missouri County Planning Act. Nothing in this act shall affect the existence or validity of a county ordinance or order adopted prior to August 28, 2009. This act shall not be construed to authorize any county commission, county health center board, or planning commission to promulgate orders, ordinances, rules, or regulations that would apply to agricultural operations. The act shall not be applicable to property owned, used, or operated for rail purposes.

ESTABLISHMENT, POWERS, AND OPERATION OF PLANNING COMMISSIONS

This act allows any county with an assessed valuation of greater than \$200 million to create, adopt, amend, and carry out a county plan. Any such county commission may establish and appoint a planning commission.

Before appointing a planning commission, the county commission shall hold at least two public hearings in order to obtain public comments. At the hearings, the county must provide information regarding the scope, anticipated cost, and funding source for the county planning. The county commission shall appoint members to the planning commission, and shall, by resolution, ordinance, or order, establish the procedures for membership, compensation, terms, vacancies, and removal. The act specifies the membership of planning commissions in counties of the first, second, and third classification. In counties of the second and third classification, there shall be one member to represent each general farm organization with at least twenty-five members in the county, unless no member is willing to serve. Once formed, the planning commission shall elect officers and adopt rules.

The planning commission shall have various powers, including preparing and reviewing comprehensive plans, recommending regulations, reviewing plat applications, public improvements for accordance with the comprehensive plan, and zoning regulations, appointing employees, and other powers delegated to it by the county commission.

COMPREHENSIVE PLAN

The purpose of a comprehensive plan is to guide and accomplish the coordinated, efficient, and orderly physical development of the county. The planning commission may determine the applicability to the county of certain elements, such as land use, transportation, housing, community facilities, economic development, natural, cultural, or historical resources, human services, community design, and sustainability. The comprehensive plan developed by the commission may contain policies regarding any of these elements.

During the process of developing a plan, the commission shall accept and consider public comments. The commission must provide public notice and hold at least one public hearing prior to adopting a plan. The planning commission, by a majority vote, may adopt a comprehensive plan as a whole by a single resolution. The commission may also adopt portions of the plan at different times.

Upon adoption, the plan must be properly filed. A record of the public involvement must be attached to the resolution approving the plan. The plan may be adopted by the county commission by resolution only after a vote of the people. The planning commission may periodically review and amend the comprehensive plan. Amendments to the plan may be prepared at any time.

SUBDIVISION REGULATIONS

Under this act, the planning commission may recommend, and the county commission may adopt, regulations governing the subdivision of land. In lieu of immediate installation of work required by the regulations, the commission may, at the option of the developer, accept an escrow secured with cash or an irrevocable letter of credit or a surety bond, which provides for the construction of such improvements within a certain period of time.

If a developer transfers title of the subdivision property prior to full release of the escrow or bond, the county shall accept a replacement escrow or bond from the successor developer and release the original developer from further obligations. The county shall release any escrow or bond held to secure actual construction on a category of improvements or utilities within 30 days of completion. The county must inspect each category for completion within 20 business days after a request to do so. If the county does not release the escrow or bond in the time permitted, the county shall pay the owner or developer the funds due plus interest. Any developer aggrieved by the county's failure to meet these requirements may bring a civil action to enforce these requirements.

Before adopting or amending subdivision regulations, the planning commission must provide notice and hold a public hearing. A county commission may hold a public hearing, but no separate hearing is required for the adoption of subdivision regulations by the county commission after receiving the planning commission's recommendation.

After subdivision regulations are adopted, no subdivision plat shall be recorded until it is approved by the planning commission, unless the commission does not act within 30 days. The county commission may overrule the rejection of a plat by the planning commission after a public hearing. At the request of a municipality, a planning commission may subject subdivision plats to its regulations.

The planning commission, after a public hearing, may vacate any plat of a subdivision of land located in the unincorporated areas of the county.

REVIEW OF PUBLIC IMPROVEMENTS

After a planning commission adopts a comprehensive plan, no street, public improvement, or public utility may be constructed in a location within the plan, without review and approval by the commission. The act outlines a procedure for the aggrieved party to follow if the commission does not approve the construction.

MAJOR STREET PLAN

A planning commission may adopt a major street plan for all areas of the county in accordance with the transportation element of a comprehensive plan. The county may, by ordinance, establish building lines on any public street identified in the street plan.

ZONING REGULATIONS

A planning commission may recommend, and the county commission may adopt, zoning regulations. Prior to adopting zoning regulations, the county commission shall submit the question of whether it should adopt such regulations to the voters. The act describes what the zoning regulations may include and what they may regulate, including certain building specifications, land use, density of nonresidential structures, design of site elements and open spaces, and preservation of natural resources. The regulations must define the boundaries of zoning districts or other areas where the regulations differ from one another. One appointed person shall be responsible for interpreting the zoning ordinances.

Zoning regulations shall not apply to the raising of crops, livestock, orchards, or forestry, or to seasonal or temporary impoundments used for rice farming or flood irrigation. Also, zoning regulations shall not apply to the erection, maintenance, repair, alteration or extension of farm buildings or farm structures used for such purposes in an area not within the area shown on the flood hazard area map, nor shall they apply to underground mining where entrance is through an existing shaft or shafts or through a shaft or shafts not within the area shown on the flood hazard area map.

ZONING PROCEDURES

The planning commission must provide notice and shall hold a public hearing on proposed zoning regulations. The act provides how the commission shall approve recommendations and the procedure of the county commission when either approving or overruling the commission's recommendations.

The county commission may amend zoning regulations, maps, or districts. Amendments may be initiated by the planning commission, county commission, or a property owner. A procedure is established for making such amendments.

BOARD OF ZONING ADJUSTMENT

Any county commission, which has adopted a zoning map and regulations, shall appoint a county board of zoning adjustment. The board shall consist of 5 residents with not more than 2 being residents of incorporated areas. After the initial members have staggered terms, the members shall serve four-year terms.

The board shall have the following powers and it shall be its duty to:

- 1) hear and decide appeals about errors of law or any determination made by officials regarding zoning regulations;
- 2) hear and decide matters referred to it or matters it is required to determine under the zoning regulations; and
- 3) authorize a variance from the strict application of a regulation when it causes a property owner to endure an unreasonable hardship.

The board shall elect a chair and adopt rules of procedure. Meetings of the board shall be open to the public. This act outlines who may bring appeals and when such appeals may be brought before the board. With limited exceptions, an appeal shall stay all proceedings in furtherance of the action appealed. Any person aggrieved by a decision of the board may petition the circuit court for relief.

VIOLATIONS AND PENALTIES

Any violation of any regulation adopted under the authority of this act shall be a misdemeanor with each day of the offense being considered a separate offense. Any county commission that has appointed a county counselor may impose a civil fine for each violation under this act. The fines will be payable to the county

general revenue fund and go towards paying the costs of enforcing this act. The county may bring an action to enforce the regulations.

No land owner within a platting jurisdiction of a county that has adopted subdivision regulations may transfer such land before the plat has been approved by the county commission or planning commission and properly recorded, unless such owner discloses in writing that such plat has not been approved and the sale is contingent upon approval by the planning or county commission. Each improper transfer is a violation and may be enjoined by the county.

The county may designate a zoning inspector to examine and serve violation orders. The act sets out the penalties for persons who refuse to comply with such orders.

MISCELLANEOUS PROVISIONS

The authority granted under this act shall not be used to deprive the owner of any existing property of its use or maintenance for the purpose to which it is lawfully devoted. The authority granted shall also not interfere with public utility services or services of a rural electric cooperative.

Counties may enter into agreements with other public or private organizations, agencies, or bodies to perform planning duties and functions and adopt plans prepared pursuant to cooperative agreements. The county commission may adopt regulations created pursuant to such agreements.

This act is similar to HB 1832 (2008) and SB 729 (2008).

*** SB 7 ***

0196S.011

SENATE SPONSOR: Griesheimer

SS/SB 7 - This act modifies various provisions relating to political subdivisions.

SECTION 48.030

This section allows a county, after meeting the required assessed valuation, to become a second class county upon a vote of the governing body to change classifications. Currently, a county can only change classifications by a vote of the governing body if it is becoming a first class county; otherwise, the county must be at the required assessed valuation for five years before changing classifications. The effective date of the change in classification shall be at the beginning of the county fiscal year following the election by the governing body.

This section is identical to HCS/SB 820 (2008), SB 38 (2009), and HB 257 (2009).

SECTION 49.310

This section allows Caldwell County to establish a or holding facility outside of the county seat.

This section is identical to SB 457 (2009).

SECTION 49.710

Under this section, the county commission of any county without a charter form of government shall have the power to adopt ordinances requiring property owners to control brush on county right-of-ways or county maintenance easements that are part of the property owner's land that is adjacent to the county road.

Before charging a person with an ordinance violation, the county commission shall notify the property owner of the ordinance requirements, return receipt requested. The commission shall allow the owner thirty days from the date of return receipt or refusal of acceptance of delivery to control the brush. The property owner shall be granted an automatic thirty-day extension for hardship if the owner notifies the commission within the first thirty-day period of such reasons. The property owner may be granted a second thirty-day extension upon a vote of the commission.

Any property owner in violation of such a county ordinance may be ordered to pay a civil fine of not more than ten dollars per day. If the owner is found to be in violation of the ordinance, the county shall take action to control the brush as provided under Section 263.245, RSMo, not more than thirty-days after the fine was initially imposed.

This section is identical to SB 385 (2009).

SECTIONS 50.660 & 50.783

Under this section, a county is not required to obtain bids on purchases of \$6,000 or less. Currently, such amount is set at \$4,500.

Under current law, counties may waive competitive bidding when the County Commission determines that there is only one feasible source for the supply. This act requires counties to post notice on such proposed purchases of over \$6,000 and advertise the commission's intent to make such purchase in the newspaper at least ten days in advance. Currently, the commission must post notice for such proposed purchases of at least \$3,000 and also advertise in the newspaper for such purchases of at least \$5,000.

This section is identical to SB 256 (2009).

SECTIONS 52.290, 52.312, & 54.010

Currently, in counties without a charter form of government the collector collects a seven percent fee for the collection of delinquent taxes. In counties with a charter form of government and St. Louis City, the collector collects a two percent fee for the collection of such taxes. Under these sections, in counties adopting a charter form of government after January 1, 2008, the collector shall collect a seven percent fee for the collection of delinquent taxes, while the collector in counties adopting a charter form of government before January 1, 2008, shall collect a two percent fee.

Currently, all counties, except counties with a charter form of government excluding St. Charles County, are required to establish a "Tax Maintenance Fund" to be used solely as a depository for funds received or collected for the purpose of funding additional costs and expenses incurred in the collector's office. Under these sections, counties adopting a charter form of government after January 1, 2008, shall be required to

establish such a fund as well.

In the event a county of the third or fourth classification abolishes its township organization or the county collect becomes a collector-treasurer, the collector treasurer shall assume all duties, compensation, and requirements of the collector-treasurer.

These sections are identical to SCS/SB 123 (2009).

SECTIONS 52.361, 52.370, 55.140, 55.190, 139.031, 139.140, 139.150, 139.210, 139.220, 140.050, 140.070, 140.080, 140.160, and 165.071

These sections allow certain counties of the first and second classification to collect property taxes using electronic records and disbursements. County collectors of these counties are required by the fifteenth day of each month to file, with the county clerk and auditor, a detailed statement of all taxes and license fees collected during the preceding month. These sections modify the provisions regarding the payment of taxes in dispute.

These sections are similar to HB 148 (2009).

SECTION 59.319

This section increases certain user fees collected by county recorders from \$4 to \$7. Of the fee, three dollars, rather than two dollars, shall be deposited into the recorder's fund and two dollars, rather than one dollar, shall be used by the secretary of state for preservation of local records. Also, two dollars instead of one dollar shall be used to support land surveying activities. All requests for records dated after December 31, 1969, shall be made to the office in which the record was originally filed.

This section is identical to SCS/SB 362 (2009).

SECTION 65.610

This section allows the county commission, upon a majority vote, to put the issue of abolishing the county's township organization to a vote of the people. Currently, it requires a petition by 10% of the voters to submit the issue to a vote.

SECTION 67.280

This section requires communities to file one copy of any technical code adopted with the clerk's office to be available to the public, rather than three copies.

SECTION 67.281

A builder of family residences or multi-unit dwellings with no more than four units must offer purchasers to install fire sprinklers in the residence. No purchaser of such residences shall be denied the right to choose to install the fire sprinkler or decline the offer by the political subdivision's code, ordinance, rule, regulation, order or resolution. Such provisions must provide the mandatory option for purchasers to choose and the requirement that builders offer to purchasers such option.

SECTION 67.410

If a building commissioner issues an order to demolish, secure, repair, or clean up a property found to be a public nuisance, the cost shall be certified to the city clerk or officer in charge of finance, who shall cause the certified cost to be included in a special tax bill or added to the annual real estate tax bill, at the collecting official's option, for the property. The certified cost shall be collected by the city collector or other official collecting taxes. If the certified cost is not paid, the tax bill shall be considered delinquent.

This section removes the provision allowing the taxpayer to pay such tax bill back in installments over ten years and instead the collection of such taxes shall be governed by the general laws on delinquent taxes.

SECTION 67.1360

This section authorizes the City of Ashland to seek voter approval for the imposition of a transient guest tax of not less than two percent nor more than five percent per occupier room per night. The tax authorized by this act must be separately stated from all other charges and taxes.

This section authorizes the governing body of Montgomery County to seek voter approval for the imposition of a transient guest tax. The amount of the tax will be at least two, but not more than five percent

per occupied room per night, and all revenue derived from such tax will be used by the county to promote tourism.

This section is similar to SB 248 (2009) and SB 276 (2009).

SECTION 67.1361

This section allows the revenue derived from the transient guest tax for St. Joseph and Buchanan County be used for capital expenditures incurred in connection with tourism and convention facilities.

SECTION 67.2000

This section allows real property owners in Caldwell, Clinton, Daviess, and DeKalb counties to seek voter approval for the creation of exhibition center and recreational facility districts. If such a district is created, it may seek voter approval for the imposition of a one-quarter of one percent sales tax, for a period not to exceed twenty-five years, to fund the district.

This section is identical to SB 386 (2009).

SECTION 67.3000

It shall be lawful for Caldwell County to enter into a contract with private corporations engaged in delivering water at wholesale for domestic consumption. The county may also acquire, own, and hold, with private corporations, water mains.

This section is identical to SB 456 (2009).

SECTION 71.275

The governing body of a municipality may annex a research park that is compact and contiguous to the existing municipal boundaries if the property has not been sold within the previous six months and the municipality receives the written consent of all the property owners. The municipality and county shall adopt reciprocal ordinances authorizing the annexation. A "research park" is defined as an area developed by a university to be used by technology-intensive and research-based companies as a business location.

This section is identical to SB 377 (2009).

SECTIONS 79.450 & 320.121

If the governing body of Riverside enacts an ordinance prohibiting the selling of fireworks within its boundaries, any fireworks retailer located in a permanent building within such boundaries at the time of enactment shall not be subject to such ordinance and may continue to operate if otherwise properly licensed and remains in a permanent building.

SECTION 82.860

This section authorizes the City of Joplin to impose, upon voter approval, a transient guest tax of up to 8% per occupied room, per night for the promotion of tourism including, but not limited to, the construction, maintenance, and operation of tourism, cultural, artistic, and other attractions and amenities.

This section is identical to HB 710 (2009).

SECTION 94.271

This section authorizes the City of Grandview to seek voter approval to levy a sales tax of up to one-half percent to fund public safety improvements for the city. Such improvements may include expenditures on equipment, city employee salaries and benefits, and facilities for police, fire, and emergency medical providers.

This section is identical to SB 165 (2009).

SECTION 94.400

Currently, constitutional charter cities with a population between 10,000 and 300,000 are authorized to levy property taxes for certain municipal purposes, including libraries, hospitals, public health, and museum purposes. This act allows any city with a population of not less than 5,000 to do so.

This section is identical to HB 572 (2009).

SECTIONS 94.510 & 94.550

Currently, under the general city sales tax law, cities may impose a city sales tax, upon voter approval, at a rate of one-half of 1%, seven-eighths of 1%, or 1%, and the City of St. Louis may impose the tax at a rate not to exceed one and three-eighths percent, for the benefit of the city. These sections specify that the combined rate of sales taxes adopted under the city sales tax law cannot exceed 2%. This modification is not to be construed as a new tax or an increase in the current levy of an existing tax for the purpose of Section 22, Article X, of the Missouri Constitution, commonly known as the Hancock Amendment, which requires voter approval; and cities that have already imposed and collected taxes under the city sales tax law can continue to do so without voter approval as a continuation of a tax previously approved by the voters of the city.

These sections are similar to HB 169 (2009).

SECTION 94.577

Currently, under the capital improvements city sales tax law, cities not in St. Louis County may impose a sales tax, upon voter approval, at a rate of one-eighth, one-fourth, three-eighths, or one-half of 1% for the purpose of funding, operating, and maintaining capital improvements. Municipalities in charter counties are authorized to impose a capital improvements tax under Section 94.890, RSMo. This section specifies that the combined rate of sales taxes adopted under the capital improvement city sales tax law cannot exceed 1%. This modification is not to be construed as a new tax or an increase in the current levy of an existing tax for the purpose of the Hancock Amendment which requires voter approval; and cities that have already imposed and collected taxes under the city sales tax law can continue to do so without voter approval as a continuation of a tax previously approved by the voters of the city.

This section is similar to HB 169 (2009).

SECTION 94.902

This section authorizes the City of Grandview to seek voter approval to levy a sales tax of up to one-half percent to fund public safety improvements for the city. Such improvements may include expenditures on equipment, city employee salaries and benefits, and facilities for police, fire, and emergency medical providers.

This section is identical to SB 164 (2009).

SECTION 94.1011

This section authorizes the City of Waynesville, upon voter approval, to impose a transient guest tax of up to three percent per occupied hotel and motel room per night. The revenues derived from the tax must be used to fund the construction, maintenance, and repair of a multipurpose conference and convention center.

This section is identical to HB 1967 (2008), HB 28 (2009) and SB 387 (2009).

SECTION 137.1040

This section allows the governing body of a city, town, village or county to submit a proposal to the voters of such city, town village or county allowing the municipality to impose a property tax to fund cemetery maintenance. The tax authorized under this act shall not exceed one fourth of one cent per one hundred dollars assessed valuation and shall not become effective until approved by the voters of the city, town village or county.

This section is identical to the Perfected version of Senate Bill 822 (2008) and SB 168 (2009).

SECTIONS 140.150, 140.190, 140.230, 140.250, 140.260, 140.290, 140.310, 140.340, 140.405, and 140.420

These sections change the provisions regarding the sale of real property for the collection of delinquent taxes. The collector is required to send up to three notices prior to a tax sale to the publicly recorded owner of record of the real property. The first notice is by first class mail, the second by certified mail, and a third notice is sent if the certified mail is returned unsigned to both the owner of record and the occupant of the real property at least 15 days before the fourth Monday in August.

The purchase price of the property at a third offering must be at least equal to the sum of the delinquent taxes, interest, penalties, and costs. The certificate of purchase will be issued to an agent if the purchaser is a nonresident. The purchaser is required to pay a fee to the collector to record the certificate of purchase. After the third offering, the collector's deed or trustee's deed will have priority over all the other liens or

encumbrances on the property sold except for real property taxes or federal liens.

If the delinquent land tax sale results in an amount greater than the amount of debt, taxes, interest, and costs; the excess proceeds must be held in trust in the county treasury for three years for the publicly recorded owner or owners of the property sold or their legal representatives. After three years, any amount not called for will be deposited into the county's school fund.

The redemption periods for the owner of record to redeem tax sale property are revised; and the owner must reimburse the purchaser for all costs of sale, including the cost for recording the certificate of purchase, the fee to record the release of the certificate, the cost of the title search, the cost of the required certified mail notifications, interest at the rate specified on the certificate, and any taxes paid by the purchaser plus 8% interest.

These sections are identical to HB 261 (2009).

SECTION 141.160

In Jackson County and St. Louis County, the collector shall collect on behalf of the county and pay into the county general fund an additional fee for the collection of delinquent and back taxes of five percent on all sums collected to be added to the face of the tax bill and collected from the party paying the tax.

SECTION 182.802

This section authorizes public library districts to seek voter approval for a sales tax of not more than one half of one cent to fund the operation, and maintenance of libraries within the boundaries of such library district. Public library districts are defined as any city library district, county library district, city-county library district, municipal library district, consolidated library district or urban library district.

This section is identical to SB 266 (2009).

SECTION 190.054

This section provides that the current term of the director representing Subdistrict 6 of the St. Charles ambulance district shall be extended one year. At the end of such term, the district shall hold an election and the term of the new director shall be three years.

This section is identical to SB 337 (2009).

SECTION 190.056

Under this section, each member of an ambulance district board of directors shall be subject to recall from office by the registered voters of the election district from which he or she was elected. Proceedings for the recall are commenced by the filing of a notice of intention to circulate a recall petition.

The notice must be served personally, or by certified mail, on the board member and filed with the election authority. A separate notice is needed for each member sought to be recalled and must contain information explaining the reason for the recall. It must list at least one but not more than five proponents of the recall.

Within seven days, the board member may file a statement answering the statement of the proponents. The answer must be served on at least one proponent. The statement and answer are for the voters' informational purposes only.

A member cannot be recalled if he or she: 1) has not held office during the current term for more than 180 days; 2) has 180 days or less remaining on his or her current term; or 3) has had a recall election determined in his or her favor within the current term.

The person circulating the petition must sign an affidavit verifying certain information. A recall petition must be filed with the election authority not more than 180 days after the filing of the notice of intention. The number of signatures needed shall equal at least 25% of the number of voters who voted in the most recent gubernatorial election in the election district.

The election authority has twenty days from the date of filing the petition to determine if enough voters signed the petition. It must file a certificate showing whether there are enough signatures. If the election authority certifies the petition does not have enough signatures, it may be supplemented within ten days of

the date of certificate. The election authority must then certify the supplemented petition. If it is insufficient, no further action shall be taken.

If the petition is sufficient, the election authority shall submit its certificate to the board of directors and order an election within a certain amount of time. Nominations for board membership openings shall be made by filing a statement of candidacy with the election authority.

Any time prior to forty-two days before the election, the member sought to be recalled may offer his or her resignation and the recall question shall be removed from the ballot and the office declared vacant.

This section is identical to SB 978 (2008) and SB 122 (2009).

SECTION 204.569

This section provides an alternate procedure to approve the issuing of bonds for a common sewer subdistrict that is partially or completely located in Cass County. Bonds may be issued for such a subdistrict if the subdistrict receives the written assent of 75% of the political subdivisions that do business with the subdistrict.

The section contains an emergency clause.

This section is identical to SCS/SB 242 (2009).

SECTION 247.031

The section modifies provisions relating to the procedure for detaching territory from a public water supply district.

When a petition for detachment is submitted to the circuit court by someone other than the district's board of directors, the district shall be named as a defendant and a copy of the petition shall be provided to the district at least 35 days before the hearing.

Current law requires notice of the petition to detach to be published in a newspaper in each county containing any portion of the proposed territory. The act instead requires that notice be published in a newspaper in the county in which the hearing will be held as well as in a newspaper with circulation in the proposed territory.

The section adds the district itself as an allowable entity to make an exception or objection to a proposed detachment. The act modifies the language required to be posted in the newspaper to mirror the statutory requirements.

This section is identical to HB 234 (2009) and SB 196 (2009).

SECTION 321.227

This section authorizes any fire protection district, located within St. Louis County, which has property located within its jurisdiction for which taxes have been abated or redistributed to seek voter approval to impose a sales tax. The sales tax cannot exceed one percent and must result in a reduction to the district's property tax levy which will decrease property tax revenues by an amount equal to fifty percent of the district's sales tax revenues received from the fire protection district sales tax fund in the previous year.

SECTIONS 650.396 & 650.399

Under current law, any county which has established an emergency communications system commission may, upon voter approval, levy and collect a property tax to fund the establishment, operation, and maintenance of an emergency communications system. These sections would give such counties the option to seek voter approval to impose the property tax or a sales tax not to exceed one-tenth of one percent to fund the establishment, operation, and maintenance of an emergency communications system. The department of revenue will collect the sales tax revenues and deposit them into the newly created county emergency communications fund for distribution to the counties from which they were collected.

These sections are identical to SB 494 (2009).

SCS SB 8

0194S.02P

SENATE SPONSOR: Champion

SCS/SB 8 - This act creates a "Crime Laboratory Review Commission" to independently review the operations of crime laboratories in the state of Missouri that receive state-administered funding.

The commission shall consist of five members, including a senior manager of an accredited crime lab, a prosecuting attorney, a criminal defense attorney, a licensed law enforcement officer employed by a county or municipality in a management position, and the director of the Department of Public Safety or a designee. The commission members shall be appointed by the Governor with the advice and consent of the senate. The members shall serve terms of four years and the chairman shall be the director of the department or his or her designee. In the event the commission takes a vote concerning only a particular crime laboratory, the appointee serving as a senior crime laboratory manager or law enforcement officer shall recuse himself or herself from such vote if it involves the crime laboratory employing such manager or a crime laboratory operated by the municipality employing the officer.

The commission shall have the power to assess the capabilities and needs of the crime labs, authorize independent external investigations into allegations of misconduct or negligence, issue reprimands to crime labs and their employees or contractors found to be negligent or engaging in misconduct, make recommendations for crime lab procedure when labs are found to be negligent, and issue reports summarizing findings of negligence or misconduct and making recommendations regarding revocation or suspension of grant funding.

The commission shall submit an annual report to the department of public safety and to the governor making recommendations to improve the quality management systems within the crime laboratories in the state, but shall not make recommendations related to relocation or consolidation of such crime laboratories.

The Department of Public Safety shall have the authority to revoke grant money from a crime lab if it does not cooperate with the commission or if allegations of serious negligence or misconduct are substantiated by

the commission.

This act is similar to SB 790 (2008).

SB 13 - This act allows the Department of Transportation to construct toll roads under certain conditions.

TOLL ROADS AUTHORIZATION - This act authorizes the commission to construct, maintain and operate toll facilities on the state highway system. The commission is authorized to issue state toll facility revenue bonds to finance toll facility projects authorized by the General Assembly. Such bonds may be issued without the consent of the General Assembly. Bonds issued for toll facility projects shall not be deemed to constitute a debt or liability of the state and shall be payable solely from the state toll facility fund. Toll facility bonds shall be exempt from taxation. The commission is required to obtain a study of the proposed toll facility project by one or more qualified independent consultants prior to commencing any project (Section 226.1200).

TOLL FACILITY PROJECTS - Prior to the commencement of any toll facility project, the Director of Transportation shall obtain a study of the proposed toll facility project by a qualified independent consultant. If the Director of Transportation determines, based upon the study, that the toll facility project is in the best interest of the state, the Director of Transportation shall then be required to obtain approval of the toll facility project by the General Assembly (Section 226.1200.3).

SPECIFIC TOLL FACILITY PROJECTS - Under the enabling legislation, the General Assembly authorizes a toll facility projects to be constructed upon Interstate 70 between St. Louis and Kansas City. The commission is authorized to construct these toll facility projects with the design-build project delivery system (section 226.1205). The toll for traveling the entire length of Interstate 70 is capped at \$5 (indexed for inflation).

STATE TOLL FACILITY FUND - The act establishes within the state treasury the "State Toll Facility Fund" which shall stand appropriated without any legislative action (Section 226.205). All tolls, fees, state toll facility revenue bond proceeds, and other charges imposed for using toll facilities shall be credited to the fund. The fund shall be used to pay:

- (1) The costs of issuing state toll facility revenue bonds and refunding bonds, the costs of feasibility studies and the costs for constructing toll facilities;
- (2) The cost of collecting toll facility revenues;
- (3) The principal and interest on any outstanding state toll facility revenue bonds and refunding bonds.

If revenues in the state toll facility fund are insufficient to pay for authorized costs, the commission shall transfer amounts from the state road fund to keep the toll facility fund solvent. Transfers from the state road fund shall be repaid in the time and manner determined by the commission. The commission is authorized to continue to collect tolls and fees on all toll facilities until all costs have been repaid. Any amount in the state toll facility fund in excess of what is needed to pay authorized costs shall be transferred to the state road fund.

COLLECTION AND ENFORCEMENT OF TOLLS - The commission may use any method for imposing and collecting tolls, including toll tickets, barrier toll facilities, billing accounts, commuter passes and electronic recording or identification devices (Section 226.1215). The act further outlines the enforcement mechanisms the Department of Transportation may utilize to ensure that motorists pay for using state toll roads. The commission may enforce the payment of tolls by using automated enforcement technology, including automatic vehicle license plate identification photography and video surveillance. The use of such automated enforcement technology may be used only for the purpose of recording the image of the nonpaying motorist's license plate. Photo monitoring system evidence which shows that a motorist has failed to pay a toll shall raise a rebuttable presumption that the motor vehicle was used in violation of the law. A collection fee, not to exceed \$100, may be charged to recover the cost of collecting an unpaid toll (Section 226.1230). A motorist who fails to pay a toll shall be guilty of an infraction punishable by a fine not to exceed \$200 (Section 226.1230.6). The act allows a court to install a device on the nonpaying motor vehicle that prohibits its movement. The nonpaying motorist may also have his or her motor vehicle registration voided until the toll and all fines are paid. The act also outlines what procedures must be taken in order to collect tolls and issue traffic citations.

This act is contingent upon the passage of a constitutional amendment that authorizes the Department of Transportation to construct and operate toll facilities. This act is similar to SB 793 (2008), SB SB 652 (2006), 855 (2004) and SB 193 (2003).

SS/SCS/SB 18 - This act creates a Universal Health Assurance Commission to allow the study of implementing a universal health assurance program for the purpose of providing a single, publicly financed statewide program to provide comprehensive, necessary health care services, including preventive screening, for all residents of the state. The commission shall have as one of its goals the immediate implementation of less restrictive income methodologies for the MO HealthNet elderly and permanently and totally disabled population, facilitating the inclusion of small employers in the state employee health care plan and the study of any other possible coverage expansions in the MO HealthNet populations while the establishment of universal health coverage is achieved. The commission shall submit annual reports with a plan and recommendations for such implementation.

The Missouri Health Care Trust Fund is also created to allow for federal payments received as a result of

any waiver from the Department of Health and Human Services to be used for implementing a universal health assurance program.

This act also raises the income limit for eligibility for MO HealthNet services for the elderly and permanently and totally disabled populations from 85% of the federal poverty level to 100% of the federal poverty level. As to the permanently and totally disabled population, this act allows the Family Support division to exclude certain income or resources of a parent or parents in determining the applicant's eligibility for MO HealthNet benefits.

The definition of "affordable employer-sponsored health care insurance" for health care for uninsured children (CHIP) program is also modified. It is now defined as health insurance requiring no monthly premiums for families with a gross income between 151 and 225% of the federal poverty level and no more than a 50 dollar a month premium for families with a gross income between 226% and 300% of the federal poverty level.

This act also allows small employers to join the Missouri Consolidated Health Care Plan. For purposes of the act, the term small employer means an employer who employed an average of at least one but not more than fifty persons during the preceding calendar year and who employs at least one person on the first day of the plan year. A small employer includes a sole proprietor and a partner of a partnership. The state health care plan shall maintain a separate benefit trust fund account for premium payments and other income received from small employers.

The small employer health care portion of the bill is identical to SB 741 (2008), SB 267 (2007), SB 593 (2006), SB 277 (2005) and HB 1412 (1998).

SB 19 - This act brings Missouri sales and use tax laws into compliance with the streamlined sales and use tax agreement.

Compliance involves modifying many sections throughout Missouri law, based upon meeting the following criteria:

- (1) The sourcing of sales must be changed to be based on receipt. This means that current law is modified, where necessary, to consider the point of sale, and thus the applicable tax rate, to be the point of receipt of the product;
- (2) When a city annexes property, the change to the tax rate will take place on the first day of the second calendar quarter after the Director of Revenue receives notice of the boundary change;
- (3) The same provisions as in (2) shall apply to rate changes;
- (4) All sales taxes must be administered at the state level if they are not already;
- (5) All state and local sales taxes must have the same base. This means that exemptions at the state and local level must be identical;
- (6) Certain definitions, including a definitions for "delivery charges", "food" "lease or rental", "purchase price", "sales price", "tangible personal property" and other modified definitions, must be adopted from the streamlined sales and use tax agreement;
- (7) The Department of Revenue can require electronic filing and payment of the sales and use tax;
- (8) Registration for out of state sellers is simplified and no bond is required;
- (9) No caps or thresholds may exist on the collection of sales or use taxes; and
- (10) Out of state sellers must be offered uniform, simplified, electronic filing.

The act is similar to Senate Bill 1020 (2008), Senate Bill 576 (2007), Senate Bill 1173 (2006), and Senate

Bill 399 (2005).

SB 20 - This act amends the law relating to unsecured loans of \$500 or less. Under current law, lenders may renew such loans upon the borrower's request. This act prohibits lenders from renewing such loans.

Under current law, the director of the Division of Finance may issue a cease and desist order when lenders fail to make a good faith effort to comply with laws relating to consumer loans. This act allows the attorney general to do the same. The Attorney General may also file an action in any circuit court to enjoin the practice; impose a civil penalty; or to obtain an order of rescission, restitution, or disgorgement.

Under the act, a lender may only charge interest and fees up to the amount of \$15 per \$100 of principal for the first 30 days of the loan, and not more than 3% per month thereafter, which is an annual percentage rate of approximately 36%.

Under current law, the Division of Finance must report to the General Assembly, the number of licenses issued under this section every other year. This act requires the division to report every year.

The provisions in this section apply to all lenders, whether or not they are properly licensed.

This act is identical to HB 1171 (2006), SB 975 (2006), SB 96 (2007), and SB 744 (2008).

SB 29 - The act requires the Department of Agriculture to issue a determination once it finds that the price of biodiesel or biodiesel-blended fuel has on average been less than or equal to the cost of conventional diesel fuel for one year. By the later of either June 1, 2011, or 120 days after the Department's price determination issuance, all diesel fuel sold at retail in Missouri shall be a biodiesel-blended fuel. By the later of either May 1, 2011, or 90 days after the Department's price determination issuance, fuel terminals in Missouri that sell diesel fuel shall sell biodiesel, conventional diesel fuel, and biodiesel-blended fuel that contains 5% biodiesel by volume. It shall not be considered a violation for a terminal to sell biodiesel-blended fuel that contains more than 5% biodiesel by volume provided any such sale adheres to notification requirements promulgated by the Department of Agriculture.

The act allows distributors to purchase unblended gasoline at the terminal for the purpose of making fuel ethanol-blended gasoline in order to comply with the fuel ethanol content requirements in current law, if the distributor can make the fuel ethanol blended gasoline at the same or lower cost of purchasing the blended fuel directly from the terminal.

If the acquisition of biodiesel-blended fuel is more expensive for a distributor than acquisition of conventional diesel fuel, the distributor is not required to acquire biodiesel-blended fuel and neither this nor the sale of conventional diesel fuel at retail will be considered a violation of the act. The purchase of conventional diesel fuel by a distributor for the purpose of making five-percent biodiesel-blended fuel is allowable under the act. Position holders, suppliers, distributors, and retailers shall provide certain sales transaction and price information to the Departments of Agriculture and Revenue upon request. Such sales and price information shall be kept confidential by the departments.

Diesel fuel used by railroads and nuclear power generation facilities are exempt from the act's provisions. The Director of the Department of Agriculture may exempt additional fuel uses from the requirements of the act. Under current law, the Governor may issue an Executive Order to waive any of the current fuel-ethanol requirements for reasons related to air quality. The act removes the air quality criteria, thereby allowing the Governor to issue an Executive Order to waive the current fuel ethanol or the act's biodiesel requirements for any reason.

In promulgating rules for the act, the Department of Agriculture shall, as much as practicable, apply to biodiesel producers the requirements of an "accredited producer" in the BQ-9000 program of the National Biodiesel Accreditation Commission.

Current law allows fuel retailers, wholesalers, distributors, and marketers to purchase fuel ethanol from any terminal, position holder, fuel ethanol producer, wholesaler, or supplier. The act allows these entities to purchase biodiesel in the same manner.

The Department of Agriculture shall develop cold temperature operability standards for biodiesel and shall enforce the standards beginning January 1, 2011.

Anyone who manufactures biodiesel that does not meet the quality standard as promulgated by the Department of Agriculture may be subject to a penalty of up to \$10,000 per violation as well as be subject to a cease and desist order.

The Department of Agriculture may annually contract with the Food & Agricultural Policy Research Institute at the University of Missouri to study the effect of biodiesel and fuel ethanol production on the prices of fuel and food. The results of the study shall be submitted to the General Assembly each year by January 15th.

This act is similar to the perfected SCS/SB 759 (2008) and HCS/SS#2/SCS/SB 204 (2007).

SB 30 - Under this act, any person whose driver's license has been revoked or disqualified for a period for a period of one year or greater shall immediately surrender his or her current license plates to the director of the Department of Revenue for destruction. The person shall be issued a set of restricted license plates that shall bear a special series of numbers or letters so as to be readily identified by the highway patrol and other law enforcement officers. The restricted license plates shall be displayed on the motor vehicle or motor vehicles registered solely or jointly in the person's name for the period of the revocation, denial, or disqualification. The letters and numbers on the restricted license plates shall be codes or configured in a manner so as to be readily identified by law enforcement.

Under the act, law enforcement officers may stop vehicles bearing the restricted license plates to determine whether the driver of such vehicle has a valid driver's license. Under the act, a registered owner of a motor vehicle who has been issued restricted license plates may not sell the motor vehicle during the period the vehicle is required to display the plates unless the registered owner applies to the Department of Revenue for permission to transfer title to the motor vehicle. If the director is satisfied that the proposed sale is in good faith and for a valid consideration, and that the sale or transfer is not for the purpose of circumventing the provisions of the act, the director may certify its consent to the owner of motor vehicle. Any vehicle acquired by the applicant during the period of restriction shall display the restricted license plates (Section 302.305).

SB 32 - This act allows any city in this state to designate duty free zones within such city and grant such areas tax favored status for a term not to exceed twenty-three years. Tax favored status is defined as a reduction to or elimination of the rate of tax on transactions imposed under Missouri's sales and use tax laws. Duty free zones may only be established in blighted areas located within qualified census tracts. The act requires the governing body of the city to hold public hearings prior to the adoption of an ordinance designating an area of such municipality as a duty free zone. The act requires the governing body to provide notice of such hearings to affected taxing districts and the public. Upon receiving municipal approval, the designation must be approved, at the same rate of tax and term, by the county or counties in which the city is located and by the Missouri Development Finance Board.

Upon the issuance of a certificate of approval from the Missouri Development Finance Board, any business located within a duty free zone may receive tax favored status for a term not to exceed fifteen years. In order to receive tax favored status, a business owner must report the amount of taxes deferred, on an availability basis, for the duration of the time in which it receives tax favored status. Municipalities are prohibited from having more than one duty free zone in existence, within such municipality, at any given time.

The act contains a contingent effective date. The provisions of the act will become effective upon voter approval of a constitutional amendment authorizing tax free or reduced tax zones for the purpose of promoting economic development.

This act is similar to Senate Bill 1012 (2008).

SENATE SPONSOR: Wilson

SB 33 – This act creates the Missouri Strive to Succeed Graduation Program, to be implemented and administered by the Department of Elementary and Secondary Education. The Department must establish procedures to allow certain school districts to apply for grants to implement drop-out prevention strategies. The Department must give preference for grants to school districts that propose to target students across the age spectrum and that would adopt the following: a collaborative approach with various community organizations as described in the act; early intervention strategies; the implementation of various core strategies for drop-out prevention as described in the act; and the implementation of early intervention strategies for students not likely to graduate.

To qualify for a grant award, a school district must meet one of these three criteria: be classified as unaccredited, provisionally accredited, or interim accredited; have obtained an annual performance review score consistent with unaccredited or provisionally accredited; or have not met the graduation rate performance standard as indicated on its most recent annual performance review. Grants may be awarded for one to five consecutive years and are renewable.

The Department may stop grant payments to a district if it determines that the district is misusing funds or

if the district's program is deemed ineffective. The Department must provide written notice thirty days prior to cessation of funds.

The Department must report annually to the General Assembly the recipients and amount of grants and data for the preceding five years for each recipient district. The General Assembly must annually appropriate an amount sufficient to properly fund this act, a minimum of five million dollars in any fiscal year.

The provisions of this act will expire in six years unless reauthorized.

SB 35 - Currently, the Secretary of State submits fair ballot language statements to the Attorney General for approval before the measures are put on the ballot. This act requires that the Secretary of State submit the language to a newly created Fair Ballot Commission for approval.

The Commission is comprised of eight members. The pro tem and minority leader of the Senate and the speaker and minority leader of the House of Representatives shall each appoint one attorney licensed in the state and one private citizen of the state who is not an attorney to establish membership. The statements shall be approved by a majority of the Commission. If a statement is not so approved, the statement shall be returned to the Secretary of State along with an alternative statement approved by the majority of the Commission.

All statements shall include the current law governing the topic of the proposed change along with the fiscal impact on state and local governments.

SENATE SPONSOR: Goodman

SCS/SBs 36 & 112 - Currently, the penalty for forcible rape or sodomy of a child under the age of twelve is life imprisonment without eligibility for probation or parole until the person has served at least thirty years of such sentence. Under this act, the penalty for such crimes is life imprisonment without ever being eligible for probation, parole, or conditional release, if such forcible rape or sodomy of a child is outrageously or wantonly vile, horrible or inhuman in that it involved torture or depravity of mind.

This act prohibits any person convicted of a felony sexual offense under Chapter 566, RSMo, against a victim less than seventeen years of age, from being allowed to participate in the one hundred twenty day "shock incarceration program" in the Department of Corrections and being granted probation upon completion. Currently, only persons convicted of certain unclassified and Class A felony sexual offenses against children are prohibited from participating in the program and being granted probation upon completion.

SCS SB 37

0516S.02P

SENATE SPONSOR: Goodman

SCS/SB 37 - This act modifies various provisions relating to the public defender system.

SECTION 600.011

This section redefines various positions within the public defender system, including assistant public defenders, contract counsel, deputy directors, deputy district defenders, and district defenders. The definitions reflect the current administrative structure of the public defender system.

This section specifies that the deputy director exercises the duties of the director on a temporary basis only, when the director is absent or has resigned, until the commission appoints a new director.

SECTION 600.015

This section adds an additional member to the Public Defender Commission, for a total of eight. At least one member must be an assistant public defender with at least one year of experience.

SECTION 600.017

The public defender commission shall only continue to have the power to select the director and deputy directors and not other public defenders. This section specifies that the commission shall only continue to have the authority to draw up procedures to select division directors and district defenders and not other

public defenders and staff.

The commission shall also establish maximum public defender caseload standards in order to fulfill the constitutional obligation to provide effective counsel and comply with the rules of professional conduct. In doing so, the commission shall consider national defender caseload standards, particulars of local practice, the needs of the criminal justice system, and other pertinent factors.

SECTION 600.021

Under this section, the director of the system shall be the employer of the public defender system employees rather than the commission and the employees shall serve at the pleasure of the director rather than the local public defender.

Public defenders shall no longer have a term of four years.

This section repeals the provision providing that the commission may appoint and fix the compensation of personnel for the system.

Currently, the commission may contract with private attorneys. Under this act, the commission may authorize the director to contract with such attorneys.

SECTION 600.040

The state shall pay for the parking costs for public defender system employees.

SECTION 600.042

Under this section, the director shall fix the compensation of all public defender system employees except for the deputy directors.

This section states that the director and deputy directors may participate in cases based on their own discretion and not only upon an order of the commission. Currently, the director has no authority to direct or control the legal defense of specific cases. Under this section, the director shall have the authority to become involved in cases in order to ensure that the defendant is provided effective counsel.

Funds applied for and accepted on behalf of the public defender system, which are available through government grants, private gifts, donations, or any other source, shall be deposited into the Legal Defense and Defender Fund, rather than the general revenue fund.

The director shall also ensure that public defender caseloads remain within the maximum defender caseloads established by the commission. Where the number of cases exceeds the maximum caseload, the director shall contract the excess cases to private counsel when funds are available. If funds are not available, the director shall notify the court that the public defender is unavailable. Persons eligible for public defender services shall then be placed on a waiting list for services and the court shall proceed as provided in this section.

Currently, indigent persons are eligible for public defender services when detained or charged with a misdemeanor which will likely result in confinement. Under this section, such person shall only be eligible when the prosecuting attorney has requested a jail sentence for such misdemeanor.

SECTION 600.045

When the public defender is unavailable to accept additional cases because maximum caseload standards have been met, the court and the public defender shall proceed in the following manner:

(1) the public defender shall continue to make indigency determinations and inform the court of the status of defendants requesting services;

(2) If, after consulting with the prosecutor, the court determines a case can be disposed of without a jail or prison sentence, the court may proceed without the provision of counsel to the defendant;

(3) If a jail or prison sentence remains possible, the court shall place the case on a waiting list for defender services;

(4) The court shall determine the order in which cases will be placed on its waiting list for services.

The commission and Supreme Court may make rules and regulations regarding these provisions in order to ensure the defendant's constitutional right to effective assistance of counsel is met.

Nothing in this section shall prevent the court from using non-public defender resources to obtain counsel for a defendant on the waiting list or from making pro bono appointments. Private counsel may seek payment of litigation expenses from the public defender system for such services, but such expenses shall not include counsel fees and shall be limited to the expenses approved in advance by the director.

SECTION 600.086

This section requires state and local government offices to provide financial records and information about a person seeking services from the public defender system to any employee of the system, upon request and without a fee. Currently, only persons in certain positions within the system may request such information.

SECTION 600.090

Currently, a balance of not more than \$150,000 shall remain in the Legal Defense and Defender Fund at the end of the appropriation period and not be transferred to the general revenue fund. Under this section, the amount is increased to an amount equal to 20% of the current annual fund appropriation.

SECTION 600.096

This section requires public offices to provide public defenders with photographs, recordings, and electronic files at no cost.

This act is similar to SCS/SB 737 (2008).

SB 38 - This act allows a county, after meeting the required assessed valuation, to become a second class county upon a vote of the governing body to change classifications. Currently, a county can only change classifications by a vote of the governing body if it is becoming a first class county; otherwise, the county must be at the required assessed valuation for five years before changing classifications. The effective date of the change in classification shall be at the beginning of the county fiscal year following the

election by the governing body.

This act increases the assessed valuation a county must maintain in order to move into a higher classification. The assessed valuation for counties of the first classification is increased from \$600 million to \$750 million. The assessed valuation for counties of the second classification is increased from \$450 million to \$600 million. All counties with an assessed valuation of less than \$600 million will be counties of the third classification.

The required assessed valuation for each classification shall be increased by an amount equal to any percentage increase in the consumer price index.

This act is identical to HCS/SB 820 (2008) and SB 358 (2009).

*** SB 40 ***

0331S.021

SENATE SPONSOR: Rupp

SB 40 – This act makes changes to the Bright Flight Scholarship Program. It specifies that a student must be a Missouri resident in order to be eligible for a scholarship. In addition, it expands scholarship eligibility to individuals who have received a General Education Development diploma (GED) or who have completed a homeschooling program of study.

The qualifying score necessary for a student to receive a scholarship will be determined at the beginning of an eligible student's final year of secondary coursework.

Current law provides that in fiscal year 2011 and beyond, a student scoring between the top 3-5% of Missouri ACT or SAT test-takers will receive a \$1000 scholarship. This act provides that a student scoring in

the top 5% of Missouri ACT test-takers will be offered a \$1000 scholarship, with an additional result being that a test-taker scoring in the top 3% would receive \$4,000.

Current law allows a student to receive a renewal scholarship for the second, third, and fourth academic years. This act allows a student to renew the scholarship for as long as the student is in compliance with the renewal requirements described in the act.

If a scholarship recipient cannot attend an approved institution because of military service with the United States Armed Forces, the student will receive the scholarship if he or she returns to full-time status within six months after ending military service. The student must verify to the Coordinating Board for Higher Education that the military service was satisfactorily completed.

This act is similar to provisions contained in SB 984 (2008).

SB 41 – This act creates the "Amy Hestir Student Protection Act." (Section 160.085)

SECTION 37.710: This act grants the Office of the Child Advocate the authority to file any findings or reports of the child advocate regarding the parent or child with the court and to issue recommendations regarding the disposition of an investigation, which may be provided to the court and the investigating agency.

SECTION 160.261: If a student reports alleged sexual misconduct by a teacher or other school employee to a mandated reporter, the school district superintendent must forward the allegation to the Children's Division within twenty-four hours. This act changes the standard used when the school board considers allegations of alleged child abuse to a preponderance of the evidence. If the school board finds and concludes that the alleged child abuse is unsubstantiated, but the allegations contain an element of sexual misconduct, the record of allegations and the report of it being unsubstantiated must be retained in the information system of the Children's Division. In addition, if any allegations contain an element of sexual misconduct but the case is unresolved, the record of allegations will be retained in the information system of the Children's Division. These closed records will be retained for a period of five years if the allegations were initiated by a mandatory reporter or two years if the allegations were initiated by another party. A mandated reporter as described in the act, who is a school officer or employee, who fails to report, will be subject to a fine of up to \$5,000 or one year in jail, or both. A student who makes a false allegation will be subject to disciplinary action by school policy, including the attachment of a notice of the false allegation to the student's permanent record.

SECTION 160.262: This act authorizes the Office of the Child Advocate to offer mediation services when requested by either party when child abuse allegations arise in a school setting. No student or parent will be required to enter into mediation but a school district is required to participate if a parent requests mediation. The Department may also direct the average daily attendance of a student to be counted in the receiving district. Student participation in student activities at such school or school district will be on the basis of a resident basis. Procedures for mediation are described in the act.

SECTION 162.014: A registered sex offender, or a person required to be registered as a sex offender, is prohibited from being a school board member or candidate for school board.

SECTION 162.068: Beginning July 1, 2010, any school employee who is required to undergo a background check and register with the family care safety registry will be asked to sign a waiver to permit a school district access to closed records in the child abuse registry or information system if there are at least two records or reports of unsubstantiated or unresolved incidents. No applicant for employment will be required to sign the waiver to be considered for employment.

By July 1, 2010, every school district must adopt a written policy on information that the district may provide about former employees to other potential employers.

The act grants civil immunity to school district employees who report or discuss employee job performance for the purpose of making employment decisions that affect the safety and overall well-being of a student or students if done in good faith and without malice. The Attorney General will defend the employees in such an action as described in the act.

If a school district had an employee whose job involved contact with children and the district received allegations of the employee's sexual misconduct and the district dismisses the employee or allows the employee to resign and the district fails to disclose the allegations in a reference to another school district, the district will be liable for damages and have third-party liability for failure to disclose.

SECTION 162.069: By January 1, 2010, every school district must develop a written policy concerning teacher-student communication and employee-student communications. Each policy must include appropriate oral and nonverbal personal communication, which may be combined with sexual harassment policies, and appropriate use of electronic media as described in the act, including social networking sites. Teachers cannot establish, maintain, or use a work-related website unless it is available to school administrators and parents, or have a nonwork-related website that allows exclusive access with a current or former student.

By January 1, 2010, each school district must include in its teacher and employee training a component that provides information on identifying signs of sexual abuse in children and of potentially abusive relationships between children and adults, with an emphasis on mandatory reporting. Training must also include an emphasis on the obligation of mandated reporters to report suspected abuse by other mandatory reporters.

SECTION 168.021: In order to obtain a teaching certificate, an applicant must complete a background check as provided in section 168.133.

SECTION 168.071: The crimes of sexual contact with a student while on public school property as well as second and third degree sexual misconduct are added to the offenses for which a teacher's license or certificate may be revoked.

SECTION 168.133: This act changes, from two to one, the number of sets of fingerprints an applicant must submit for a criminal history background check. An employee employed after July 1, 2010, who is required to undergo a criminal background check must register with the family care safety registry. The Department of Elementary and Secondary Education must facilitate an annual check for employees with active teaching certificates against criminal history records in the central repository, sexual offender registry, and child abuse central registry. The Missouri Highway Patrol must provide ongoing electronic updates to criminal history background checks for those persons previously submitted by the Department of Elementary and Secondary Education.

SECTION 210.135: Third-party reporters of child abuse who report an alleged incident to school administrators are immune from civil and criminal liability under certain circumstances.

SECTION 210.145: The Children's Division must provide information about the Office of the Child Advocate and services it may provide to any individual who is not satisfied with the results of an investigation.

SECTION 210.152: The Children's Division may reopen a case for review at the request of any party to the investigation if information is obtained that the investigation was not properly conducted under the provisions of Chapter 210, RSMo, or if new information becomes available.

SECTIONS 210.915 and 210.922: This act adds the Department of Elementary and Secondary Education to the list of departments that must collaborate to compare records on child-care, elder-care, and personal-care workers, including those individuals required to undergo a background check under section 168.133 and who may use registry information to carry out assigned duties.

SECTION 556.037 - This act repeals the current twenty-year statute of limitations for the prosecution of unlawful sexual offenses involving a person eighteen years of age or younger.

This act is substantially similar to HCS/HB 1314 (2008), is similar to SB 1212 (2008) and contains provisions identical to HB 2334 (2008) and HB 2579 (2008).

SB 42 – This act modifies provisions relating to teacher pay.

SECTION 163.011: This act modifies the definition and calculation of the state adequacy target for the elementary and secondary education funding formula. It removes from the calculation of the state adequacy target the inclusion of the gaming revenues from the repeal of the loss limits. It also removes the requirement that the state adequacy target be recalculated every year.

SECTION 168.106: A teacher may opt out of his or her permanent contract and participate in the Teacher Choice Compensation Package.

SECTION 168.745: This act creates the "Teacher Choice Compensation Package" to permit performance-based salary stipends, upon the decision of a teacher, to reward teachers for objectively demonstrated superior performance. It also creates the Teacher Choice Compensation Fund in the State Treasury.

SECTION 168.747: A teacher must opt of his or her permanent contract for the duration of his or her employment with the school district to participate in the Teacher Choice Compensation Package. If a teacher chooses to no longer participate in the Compensation Package, he or she may not resume permanent teacher status with the district. If a teacher becomes employed by another school district, he or she may choose to remain in the Compensation Package or resume the process for an indefinite contract in that district. Teachers will qualify annually in October.

Stipends will be offered in increments of five thousand dollars, up to fifteen thousand dollars but must not exceed fifty percent of a teacher's base salary as described in the act. The Department of Elementary and Secondary Education will make a payment to the district in the amount of the stipend, which will be delivered as a lump sum in January following the October qualification. If funds are insufficient, the Department may prorate payments.

The Compensation Package will be open to every person employed by a school district regardless of certification status, provided the other requirements are satisfied. Stipends will be prorated for part-time employees and will be forfeited for any teacher dismissed for cause.

SECTION 168.749 & 168.750: Beginning with the 2010-2011 school year, teachers who opt out of their permanent contract may be eligible based on the following: student scores on a value-added test instrument as described in the act, evaluations by principals or other administrators, evaluations by parents, and evaluations by students. The Department of Elementary and Secondary Education must develop or identify model instruments for use by school districts, which may also use or develop their own instruments.

The Department of Elementary and Secondary Education must develop criteria for determining eligibility for stipend increments. Test-scores will be given more weight than evaluations. The level of scores required must take into account classroom demographics.

SECTION 313.778: This act provides that monies in the Schools First Elementary and Secondary Education Improvement Fund will be transferred to the Teacher Choice Compensation Fund to be used for purposes of the Teacher Choice Compensation Package.

This act is similar to HB 214 (2007).

SCS SB 44

0438S.04P

SENATE SPONSOR: Pearce

SCS/SB 44 - This act creates new requirements for private jails. Private jails are facilities not owned or operated by the state, a county, or a municipality that confine or detain prisoners who are awaiting trial, awaiting sentencing, or serving a sentence in jail.

When an employee of a private jail has reasonable cause to believe that a prisoner has been abused or a law has been violated, he or she shall immediately report the abuse or violation to the administrator of the jail in writing. The report shall contain certain information regarding the abuse or violation. The administrator shall immediately refer all reports to the county sheriff.

In the event that a prisoner is missing, the private jail shall take prompt and reasonable action to discover where the prisoner has escaped. Upon learning such an escape has occurred, the private jail shall promptly notify local law enforcement and provide them with all available information known about the escape and the escapee. The private jail shall also notify any court or government agency from which an escaped prisoner or offender was referred.

It shall be an infraction, subject to a civil penalty of not less than one hundred dollars but not more than one thousand dollars, for any person or company to willfully fail to make a report required by this act. The action to recover such penalty shall be a civil action brought by the county attorney in the name of the county where the report was required to be made. Except for such infraction, Section 221.095 and 221.097, RSMo, shall not create any new civil cause of action,

Any person who makes a report, or who testifies in an administrative or judicial proceeding arising from the report, shall be immune from any civil or criminal liability for making such a report or for testifying, unless the person acted with malice.

Persons confined in private jails shall be separated and confined by gender. Persons confined under civil process or for civil causes shall be kept separate from people confined regarding criminal matters. The administrator shall arrange for necessary health care services and provide adequate clothing, food, and bedding, for those persons confined in the private jail. Deprivation of such items shall not be used as a disciplinary action against a confined person. No person confined in a private jail shall be used in any manner for the profit, betterment, or personal gain of any county or private jail employee. Any law enforcement investigation of a report regarding necessary health care or use of a confined person for profit or gain shall be concluded in a timely manner and a written report shall be provided to the private jail.

The provisions of Section 221.095 and 221.097, RSMo, shall not be construed to grant law enforcement any power to inspect, control or direct the operations of private jails or to make reports or recommendations regarding their operation. Local law enforcement shall be given full and complete access to a private jail at any time to determine compliance with these provisions and other public safety requirements. Law enforcement shall not have the power to control or direct operations of a private jail except when there is a violation of law or a public emergency.

The state or its political subdivisions shall not contract with any private jail to provide services, unless such jail provides written documentation of its ability to indemnify for liability arising from the operation of the jail.

All private jails must meet the accreditation standards of the American Corrections Association. Those already operating shall have twenty-four months to obtain accreditation. If a private jail loses its accreditation

it must notify law enforcement immediately and cease operations. Upon such loss of accreditation, the private jail shall be responsible for costs associated with the transportation of prisoners or offenders.

Currently, a person is prohibited from bringing certain items, including controlled substances, alcohol, items prohibited by law or rule, and weapons, into a county jail. The punishment for such crime varies from a class A misdemeanor to a class C felony, depending on the item brought into the jail. Under this act, a person is prohibited from bring such items into a private jail as well. The administrator of a private jail may deny visitation privileges to or refer to the county prosecutor any person who knowingly brings, or tries to bring, items into the jail, which are prohibited by the jail's rules and regulations. Violation of this provision shall be an infraction if it is not covered by other statutes.

Currently, a person commits the crime of damage to jail property if such person: 1) knowingly damages a city or county jail building or property, or 2) knowingly starts a fire in a city or county jail. Such crime is a class D felony. Under this act, damaging property at a private jail shall have the same criminal penalty.

This act requires private jailers to check for outstanding warrants through MULES before releasing an individual, in the same manner as county jailers. If an outstanding charge or warrant exists, the private jail administrator must tell the appropriate agency and transfer the individual accordingly. If a private jail administrator purposefully fails to perform a warrant check with the intent to release the person, he or she is guilty of a class A misdemeanor. An administrator shall not be liable for failing to perform a warrant check if the MULES system is not accessible.

Currently, escaping or attempting to escape from a county or city jail is a class D felony, unless certain aggravating circumstances apply, in which case, the penalty is increased. Under this act, escaping from a private jail shall have the same criminal penalty.

Currently, if a person is serving a sentence in a county jail on conviction of a felony and he or she fails to return to confinement as required under a work-release program, while serving a sentence with a term that is not continuous, or under another type of sentence where he or she is temporarily permitted to go at without a guard, he or she is guilty of a class A misdemeanor. Under this act, failing to return to confinement to a private jail shall have the same criminal penalty.

Currently, a public servant with charge of a prisoner, who knowingly permits him or her to escape is guilty of a class D felony, unless the public servant allows the prisoner to have a deadly weapon or dangerous instrument, in which case, the crime is a class B felony. Under this act, knowingly permitting escape from a private jail shall have the same criminal penalty.

SENATE SPONSOR: Pearce

SS/SCS/SBs 45, 212, 136, 278, 279, 285 & 288 - This act modifies every state tax credit program in existence, except for the senior citizen property tax credit, the homestead preservation tax credit, financial and insurance tax credits, and the community college new job training and retention credit, by imposing cap on tax credit authorizations for FY 2010 and limiting the amount of tax credits available for authorization every fiscal year thereafter based upon an allocation made by enactment of the appropriation bill for public debt and a sunset date, after which tax credits may no longer be authorized. In addition, each tax credit program will now have sunset date, after which tax credits may no longer be authorized. (Section 32.105)

Effective thirty days after the effective date of the act, the authorization of development tax credits will be prohibited. (Section 32.105) No more than sixteen million dollars in neighborhood assistance tax credits may be authorized in fiscal year 2010. After June 30, 2010, no tax credits may be authorized under the Neighborhood Assistance Tax Credit Program, unless a fiscal year allocation has been made. Such allocation cannot exceed sixteen million dollars per fiscal year. The authorization of neighborhood assistance tax credits is prohibited after June 30, 2013. (Sections 32.110 and 32.115)

No more than eleven million dollars in affordable housing tax credits may be authorized in fiscal year 2010. The authorization of affordable housing tax credits is prohibited after June 30, 2010 unless a fiscal year allocation is made. Such allocation cannot exceed eleven million dollars in tax credits per fiscal year. Business firms will be required to file an application for affordable housing tax credits with the Missouri Housing Development Commission. If the amount of eligible applications exceed the allocation for tax credits, tax credits will be awarded on a first-to-file, first-to-receive basis. The authorization of affordable housing tax credits is prohibited after June 30, 2012. (Sections 32.111, 32.112, and 32.115)

Under current law, any city, town, or village located in St. Louis County, Jefferson County, or St. Charles county must create a county-wide TIF commission in order to implement a tax increment finance project. This act requires any city, town, or village in the state, which desires to implement a TIF project after August 28, 2009, to create a county-wide tax increment finance commission. (Section 99.820)

Tax increments for any project of a municipality which fails to provide the statutorily required report to the department of economic development will be returned to the taxing authorities as if no TIF were in effect. The State Auditor is required to make information on municipal tax increment finance projects available to the public in a searchable database on the Auditor's website. (Section 99.865)

The department of economic development is prohibited from issuing more than ten million dollars in land assemblage tax credits in fiscal year 2010. The authorization of distressed areas land assemblage tax credits is prohibited after June 30, 2010 unless a fiscal year allocation is made. Such allocation cannot exceed ten million dollars in tax credits per fiscal year. If the amount of eligible applications exceed the fiscal year allocation for tax credits, the department of economic development may either: award all tax credits allocated to the applicant, if there is only one applicant, or issue the credits to all applicants on a pro rata basis. The authorization of land assemblage tax credits is prohibited after June 30, 2013. (Section 99.1205)

Under current law, the Missouri Development Finance Board is prohibited from issuing the greater of ten million dollars or an amount equal to five percent of growth in general revenue receipts for the preceding three years in Missouri Development Finance Board Infrastructure Development Fund Contribution Tax Credits annually unless the Commissioner of Administration, the director of the Department of Economic Development, and the director of the Department of Revenue agree to exceed such limit. This act limits the authorization of infrastructure and development contribution credits in fiscal year 2010 to no more than ten million dollars. The authorization of infrastructure development contribution fund tax credits after June 30, 2010, is prohibited unless an allocation is made. Such allocation cannot exceed ten million dollars per fiscal year. The limitations on authorization and issuance of infrastructure development fund contribution tax credits may be exceeded by joint agreement of the Commissioner of Administration, the director of the Department of Economic Development, the director of the Department of Revenue, the Chairman of the House Budget Committee, and the Chairman of the Senate Appropriations Committee. Taxpayers must file an application with the department of economic development for infrastructure development contribution tax credits. If the amount of eligible applications exceed the allocation for tax credits, tax credits will be awarded on a first-to-file, first-to-receive basis. The authorization of infrastructure development fund contribution tax

credits is prohibited after June 30, 2013. (Section 100.286)

For fiscal year 2010, the Missouri Development Finance Board is barred from issuing more than ten million dollars in revenue bonds or notes for which tax credits are available under the bond guaranty program. Beginning July 1, 2010, the issuance of revenue bonds or notes under the Missouri Development finance board bond guaranty program will be prohibited, unless an allocation is made for the fiscal year of issuance. Such allocation cannot exceed ten million dollars in bond or note issuance. Bond guarantee tax credits are prohibited from being authorized after June 30, 2011. (Section 100.287)

The act removes the requirement that applicants for the BUILD program consider locating within another state and state the disparity in costs exist between such state and Missouri and increases the annual tax credit cap from fifteen million to twenty million dollars. (Sections 100.760 and 100.770) No more than twenty million dollars in BUILD tax credits may be authorized in fiscal year 2010. The authorization of BUILD tax credits is prohibited after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed twenty million dollars per fiscal year. The act prohibits the issuance of BUILD tax credits after June 30, 2012. (Section 100.850)

No more than one hundred thousand dollars in tax credits for surviving spouses of public safety officers may be authorized in fiscal year 2010. The authorization of tax credits for surviving spouses of public safety officers is prohibited after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed one hundred thousand dollars in tax credits per fiscal year. Taxpayers will be required to file an application for tax credits with the department of revenue. If the amount of eligible applications exceed the allocation for tax credits, tax credits will be awarded on a first-to-file, first-to-receive basis. Tax credits for surviving spouses of public safety officers are prohibited from being authorized after June 30, 2013. (Section 135.090)

The department of economic development is prohibited from authorizing more than four million dollars in wood energy producer tax credits in fiscal year 2010. The authorization of wood energy producer tax credits is prohibited after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed four million dollars in tax credits per fiscal year. Taxpayers must file an application with the department of economic development for wood energy producer tax credits. If the amount of eligible applications exceed the allocation for tax credits, tax credits will be awarded on a first-to-file, first-to-receive basis. (Section 135.305)

No more than four million dollars in children in crisis and special needs adoption tax credits may be authorized in fiscal year 2010. Children in crisis and special needs adoption tax credits may not be authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed four million dollars in tax credits per fiscal year. After June 30, 2010, if less than half of the amount of tax credits allocated have been issued for non-resident adoptions, the remaining amount will be available for resident adoptions. No special needs adoption tax credits or children in crisis tax credits may be authorized after June 30, 2012. (Section 135.327)

For fiscal year 2010, no more than sixty-five percent of the amount of tax credits which are made available for projects within the state under the federal low income housing tax credit program may be made available for authorization under the low income housing tax credit program. The authorization of low income housing tax credits is prohibited after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed sixty-five percent of the amount of tax credits which are made available for projects within the state under the federal low income housing tax credit program. Thirty days following the effective date of the act, low income housing tax credits will be issued in the form of a certificate, which will be fully transferrable. For all low income housing tax credits authorized on or after the thirtieth day following the effective date of the act, if recapture is triggered, such recapture shall be made against the original recipient of such credits. No low income housing tax credits may be authorized after June 30, 2015. (Section 135.352, 135.355, and 135.363)

The department of economic development is prohibited from authorizing more than six million dollars in youth opportunities tax credits in fiscal year 2010. No youth opportunities tax credits may be authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed six million dollars in tax credits per fiscal year. The act prohibits the authorization of youth opportunities tax credits after June 30, 2013. (Sections 32.115 and 135.460)

For fiscal year 2010, no more than sixteen million dollars in neighborhood preservation tax credits may be authorized. No neighborhood preservation tax credits may be authorized after June 30, 2010, unless a fiscal

year allocation is made. Such allocation cannot exceed sixteen million dollars. In each year in which an allocation is made, fifty percent of such allocation must be made available for residences located within a distressed community. The act prohibits the authorization of neighborhood preservation tax credits after June 30, 2012. (Section 135.484)

No more than one hundred thousand dollars in tax credits for expenses incurred by small businesses in the provision of disabled access may be authorized in fiscal year 2010. Tax credits for expenses incurred by small businesses in the provision of disabled access may not be authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed one hundred thousand dollars per fiscal year. Small businesses must file an application with the department of economic development for disabled access tax credits. If the amount of eligible applications exceed the allocation for tax credits, tax credits will be awarded on a first-to-file, first-to-receive basis. The act prohibits the authorization of disabled access tax credits after June 30, 2014. (Section 135.490)

The act prohibits the authorization of rebuilding communities tax on or after the thirtieth day following the effective date of the act. (Section 135.535)

For fiscal year 2010, no more than two million dollars in tax credits for contributions to shelters for victims of domestic violence may be authorized. No tax credits for contributions to shelters for victims of domestic violence may be authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed two million dollars per fiscal year. The act prohibits the authorization of tax credits for contributions to shelters for victims of domestic violence after June 30, 2014. (Section 135.550)

No more than one hundred thousand dollars in tax credits for expenses incurred in making a principal dwelling accessible to persons with disabilities may be authorized in fiscal year 2010. Tax credits for expenses incurred in making a principal dwelling accessible to persons with disabilities may not be authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed one hundred thousand dollars. The provisions of this act authorizing a tax credit for expenses incurred in making a principal dwelling accessible to persons with disabilities will automatically expire June 30, 2013. (Section 135.562)

For fiscal year 2010, no more than one million dollars in tax credits for contributions to the Missouri health care access fund may be authorized. Tax credits for contributions to the Missouri health care access fund are prohibited from being authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed one million dollars per fiscal year. No tax credits for contributions to the Missouri health care access fund may be authorized after June 30, 2012. (Section 135.575)

No more than two million dollars in tax credits for contributions to maternity homes may be authorized in fiscal year 2010. No tax credits for contributions to maternity homes may be authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed two million dollars per fiscal year. No tax credits for contributions to maternity homes may be authorized after June 30, 2014. (Section 135.600)

For fiscal year 2010, no more than two million dollars in tax credits for contributions to pregnancy resource centers may be authorized. Tax credits for contributions to pregnancy resource centers are prohibited from being authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed two million dollars in tax credits per fiscal year. No tax credits for contributions to pregnancy resource centers may be authorized after June 30, 2012. (Section 135.630)

No more than two million dollars in tax credits for contributions to local food pantries may be authorized in fiscal year 2010. No tax credits for contributions to local food pantries may be authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed two million dollars per fiscal year. No tax credits for contributions to local food pantries may be authorized after June 30, 2011. (Section 135.647)

For fiscal year 2010, no more than three million dollars in qualified beef tax credits may be authorized. Qualified beef tax credits are prohibited from being authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed three million dollars in tax credits per fiscal year. No qualified beef tax credits may be authorized after June 30, 2014. (Section 135.679)

Under current law, the Department of Economic Development is required to limit the monetary amount of qualified equity investments to a level necessary to limit tax credit utilization to no more than fifteen million

dollars annually. This act requires the Department of Economic Development to limit the monetary amount of qualified equity investments to a level necessary to limit tax credit authorization to no more than fifteen million dollars for fiscal year 2010. The department of economic development is prohibited from certifying qualified equity investments under the new markets tax credit program after June 30, 2010, unless a fiscal year allocation is made which is sufficient provide tax credits for such investments. Such allocation cannot exceed twenty-five million dollars in tax credits per fiscal year. The act prohibits the authorization of new markets tax credits after June 30, 2013. The department is required to deny any application received for certain other economic development incentives which, in addition to the benefits received under the new markets program by the entity, either directly or indirectly, would exceed the projected state benefit. (Section 135.680)

No more than five hundred thousand dollars in tax credits for contributions to local food pantries may be authorized in fiscal year 2010. Wine and grape production tax credits are prohibited from being authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed five hundred thousand dollars per fiscal year. Wine and grape producers must file an application with the department of economic development for disabled access tax credits. If the amount of eligible applications exceed the allocation for tax credits, tax credits will be awarded on a first-to-file, first-to-receive basis. No wine and grape producer tax credits may be authorized after June 30, 2014. (Section 135.700)

Under current law, taxpayers may receive a tax credit for the installation and operation of a qualified alternative fuel vehicle refueling property. This act prohibits the department of economic development from authorizing more than four million dollars in tax credits for all of the 2009 tax year and until June 30, 2010. Tax credits for the installation and operation of a qualified alternative fuel vehicle refueling property are prohibited from being authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed one million dollars in tax credits per fiscal year. No tax credits for the installation and operation of a qualified alternative fuel vehicle refueling property may be authorized after June 30, 2014. (Section 135.710)

The department of economic development is prohibited from authorizing more than four million five hundred thousand dollars in film production tax credits in fiscal year 2010. The authorization of film production tax credits is prohibited after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed four million five hundred thousand dollars in tax credits per fiscal year. Taxpayers must file an application with the department of economic development for film production tax credits. If the amount of eligible applications exceed the allocation for tax credits, tax credits will be awarded on a first-to-file, first-to-receive basis. No film production tax credits may be authorized after June 30, 2011. (Section 135.750)

The act modifies provisions of the Tax Credit Accountability Act of 2004 to require tax credit recipients to report job creation resulting from tax credit utilization. The act prohibits tax credit recipients from layering tax credit programs and requires the department of economic development to make certain tax credit utilization information available on the department's website and the Missouri Accountability Portal. (Sections 135.800, 135.802, 135.803, and 135.805.)

The act creates a procedure for the allocation of tax credit authorizations after June 30, 2010. Unless specifically allocated, no tax credits may be authorized after June 30, 2010. No later than October 1, 2010, the administering agency of each tax credit program, now or hereafter authorized by state law, must provide the House Budget Committee and the Senate Appropriations Committee with a request for tax credit allocation. Where Missouri law allows the issuance of tax credits to a recipient over the course of several years, such tax credit authorization must be allocated in the aggregate, and subsequent issuance of such tax credits will not be used in calculating any statutory limitation on the fiscal year authorization allocation of tax credits. Fiscal year allocations of tax credits must be made in the annual appropriations bill for public debt and specifically provide: the name of the tax credit program; the maximum amount which may be authorized by law; the actual amount allocated for authorization; the administering agency for the program; and whether the amount is authorized for streaming tax credit issuance and the amount of streamed credits. (Section 135.820)

The department of economic development is prohibited from authorizing more than twenty-four million dollars in enhanced enterprise zone tax credits in fiscal year 2010. Enhanced enterprise zone tax credits are prohibited from being issued after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed twenty-four million dollars per fiscal year. No enhanced enterprise zone tax credits may be authorized after June 30, 2015. (Section 135.967)

Tax credits may not be authorized for contributions to the family development account on or after the thirtieth day following the effective date of the act. (Section 208.770)

No more than fifty million dollars in historic preservation tax credits may be authorized in fiscal year 2010. The act prohibits the authorization of historic preservation tax credits after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed fifty million dollars per fiscal year. The department of economic development is required to limit tax credit authorizations for St. Louis and Jackson Counties, and the City of St. Louis to the percentage of each fiscal year's allocation that each such city or county bears to the state's population. Applications denied due to the limitations provided under this act will receive priority under the next fiscal year's allocation. No more than twenty-five thousand dollars in historic preservation tax credits may be awarded per project for residential rehabilitation projects. No historic preservation tax credits may be authorized after June 30, 2011. (Section 253.550)

The department of economic development is prohibited from authorizing more than five hundred thousand dollars in dry fire hydrant tax credits in fiscal year 2010. No dry fire hydrant tax credits may be authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed five hundred thousand dollars in tax credits per fiscal year. Taxpayers must file an application with the department of economic development for dry fire hydrant tax credits. If the amount of eligible applications exceed the allocation for tax credits, tax credits will be awarded on a first-to-file, first-to-receive basis. No dry fire hydrant tax credits may be authorized after June 30, 2011. (Section 320.093)

Subject to allocation, the Department of Economic Development is allowed to authorize tax credits per year to encourage equity investment in technology-based early stage Missouri companies, commonly referred to as angel investments. Investors who contribute the first five hundred thousand dollars in equity investment to a qualified Missouri business may be issued a tax credit equal to thirty percent of the investment or forty percent of the investment if the qualified business is located in a rural area or distressed community. An investor can receive a credit of up to fifty thousand dollars for an investment in a single qualified business and up to one hundred thousand dollars for investments in more than one qualified business per year. Tax credits for equity investment in technology-based early stage Missouri companies may be carried forward for up to three years or transferred. The department of economic development is prohibited from authorizing more than five million dollars in angel tax credits in fiscal year 2010. No angel tax credits may be authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed five million dollars in tax credits per fiscal year. No angel tax credits may be authorized after June 30, 2015. (Sections 348.273 and 348.274)

No more than six million dollars in new generation cooperative tax credits tax credits may be authorized in fiscal year 2010. The act prohibits the authorization of new generation cooperative tax credits after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed six million dollars per fiscal year. As of the first day of May each fiscal year, to the extent tax credits are allocated for a fiscal year remain unauthorized as new generation cooperative tax credits, the remaining may be issued as agricultural product tax credits. No new generation cooperative or agricultural product tax credits may be authorized after June 30, 2015. (Sections 348.430, 348.432, and 348.434)

For fiscal year 2010, no more than three hundred thousand dollars in family farm breeding livestock tax credits may be authorized. No family farm breeding livestock tax credits may be authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed three hundred thousand dollars in tax credits per fiscal year. No family farm breeding livestock tax credits may be authorized after June 30, 2011. (Section 348.505)

No more than twenty-five million dollars in brownfield redevelopment tax credits may be authorized in fiscal year 2010. Brownfield Redevelopment Tax Credits are prohibited from being authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed twenty-five million dollars in tax credits per fiscal year. Brownfield redevelopment credits will no longer be available for demolition costs, new investment, or new or retained jobs. No brownfield redevelopment tax credits may be authorized after June 30, 2013. (Section 447.708)

Records pertaining to a business project with which the Department of Economic Development, the Economic Development Export Finance Board, or a regional planning commission may be deemed closed records. (Sections 620.014)

The act creates an income tax credit for contributions to the Missouri job development fund equal to fifty percent of the contribution made. The tax credit is non-transferrable and non-refundable, but may be carried forward three years. The credit is limited to two thousand five hundred dollars per taxpayer. No more than one hundred thousand dollars in tax credits for contributions to the Missouri job development fund may be authorized in fiscal year 2010. No tax credits for contributions to the Missouri job development fund may be authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed one hundred thousand dollars in tax credits per fiscal year. No tax credits for contributions to the Missouri job development fund may be authorized after June 30, 2011. (Sections 620.470 and 620.478)

The Department of Economic Development is allowed to include pre-employment training in its new or expanding industry training. The act specifies what services may be provided including development of training plans, the provision of training through qualified training staff, fees for training professionals, and transportation expenses if the training can be more effectively provided outside the community where the jobs will be located. Any assistance provided which does not result in an increase in employment within one year from the date the department provides such assistance will be subject to a claw-back provision. (Section 620.472)

For fiscal year 2010, no more than one million dollars in small business incubator tax credits may be authorized. No small business incubator tax credits may be authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed one million dollars in tax credits per fiscal year. No small business incubator tax credits may be authorized after June 30, 2015. (Section 620.495)

The act modifies provisions of law which authorize a tax credit for qualified research expenses. The tax credit will be equal to ten percent of qualified research expenses incurred during the taxable year unless such expenses were incurred in a distressed community, in which case the credit will be equal to twenty-five percent of such expenses. Eligibility for receipt of the tax credit is limited to taxpayers with less than two hundred twenty-five employees, seventy-five percent of which must be employed within the state. Such taxpayers must be engaged, on a for-profit basis, in the development of medical instruments and devices, medical diagnostics and therapeutics, plant science products, or pharmaceutical or veterinary products with agricultural applications in order to receive the credit. Under current law, no qualified research expense tax credits may be approved, awarded or issued after January 1, 2005. This act removes the prohibition on approval and issuance of tax credits and provides that for fiscal year 2010, no more than three million dollars tax credits for qualified research expenses may be authorized. No tax credits for qualified research expenses may be authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed three million dollars in tax credits per fiscal year and no less than two-thirds of such allocation must be made available for qualified research expenses incurred in a distressed area. No more than five hundred thousand dollars may be allocated annually per taxpayer unless such taxpayer incurred the qualified research expenses in a distressed community in which case such taxpayer may not receive more than one million dollars in tax credits annually. No taxpayer may simultaneously receive tax credits under this tax credit program and the newly created tax credit in section 620.1041 of this act. No tax credits for qualified research expenses may be authorized after June 30, 2015. (Section 620.1039)

The act creates a new tax credit for qualified research expenses. The amount of the tax credit will be based upon the increase in a taxpayer's qualified research expenses over average of the three preceding year's expenses. A taxpayer can receive a tax credit equal to: three percent of the amount of increased expenses which do not exceed two million five hundred thousand dollars; five percent of the amount of increased expenses which exceed two million five hundred thousand but do not exceed five million dollars; and seven and one half percent of the amount of increased expenses which exceed five million dollars. No more than seven million dollars in tax credits for qualified research expenses may be authorized in fiscal year 2010. No tax credits for qualified research expenses may be authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed seven million dollars in tax credits per fiscal year. Qualified research expenses will be limited to those incurred in the research and development of agricultural biotechnology, plant genomics products, diagnostic and therapeutic medical devices, and prescription pharmaceuticals consumed by humans or animals. Expenses incurred in the research, development, or manufacturing of power system technology for aerospace, space, defense, or implantable or wearable medical devices are also permitted. The department director may allow a taxpayer to transfer up to forty percent of the tax credits issued, but not yet claimed, between January 1, 2010, and December 31, 2016. The Director of the Department of Economic Development must act between August 1 and August 15th on tax credit applications filed between January 1 and July 1st for claims from the previous year. A formula is provided by which tax credits will be issued if the eligible claims for the credits exceed the fiscal year allocation. No one taxpayer can be issued more than thirty percent of the total amount of tax credits

authorized in any calendar year. Taxpayers are prohibited from simultaneously receiving benefits under this program and the other qualified research tax credit program contained in the act. (Section 620.1041)

The act specifies that if the department fails to respond within thirty days of a Quality Jobs Program applicant's notice of intent, the notice is deemed a disapproval. Currently, the notice is deemed an approval if the department fails to respond within thirty days. The act specifies how the department must apply certain definitions when a business that has already received an approved notice of intent later files another notice of intent and eliminates the per-company annual cap on technology business projects. The per project caps for technology business projects and high impact projects are removed. No more than one hundred twenty million dollars in quality jobs tax credits may be authorized in fiscal year 2010. No quality jobs tax credits may be authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed one hundred twenty million dollars in tax credits per fiscal year. No quality jobs tax credits may be authorized after June 30, 2015. (Section 620.1881)

No more than two hundred thousand dollars in tax credits to defray the cost of caring for an elderly person, commonly known as shared care credits may be authorized in fiscal year 2010. Shared care credits, may not be authorized after June 30, 2010, unless a fiscal year allocation is made. Such allocation cannot exceed two hundred thousand dollars in tax credits per fiscal year. Registered care givers must file an application with the division of aging for shared care tax credits. If the amount of eligible applications exceed the allocation for tax credits, tax credits will be awarded on a first-to-file, first-to-receive basis. No shared care tax credits may be authorized after June 30, 2015. (Section 660.055)

Increases in user fees imposed by the state are prohibited for a three year period beginning on the effective date of the act. New regulations including administrative costs, fees, and procedures for obtaining a small business license may not be created for a period of no more than three years from the effective date of the act. (Section 1)

The act contains an emergency clause.

SB 46 - This act requires any person who pleads guilty to or is found guilty of a felony on or after August 28, 2009, to serve a minimum prison term of eighty-five percent of his or her sentence.

Nothing in this act shall prohibit the court from ordering a defendant to participate and complete substance abuse or mental health treatment as an alternative to serving a term of imprisonment and, upon successful completion of the treatment program, from having the defendant's charges, petition, or penalty

dismissed, reduced, or modified. However, if such defendant fails to complete the treatment ordered by the court and the court requires such defendant to serve his or her sentence, such person shall serve eighty-five percent of such sentence. Nothing in this act shall prohibit the court from making an authorized disposition of the defendant, including sentencing the defendant to serve a prison term or pay a fine, suspend the imposition of the sentence, or pronounce the sentence and suspend its execution.

SB 50 - This act prohibits employers from paying any employee lower wages than those paid to employees of the opposite gender for the same work. Under the act, employees may bring a civil cause of action against employers who engage in such a discriminatory practice. Wage payment differentials based on merit systems, regional economic factors, factors that measure pay due to output, or other bona fide factors other than gender, are not actionable. Varying local market rates are not bona fide factors under the act.

Employers cannot reduce wages to comply with this act or retaliate against employees that seek the legal protections from retaliation provided by this act. If employers retaliate, employees can recover actual and compensatory damages

Remedies for any unlawful gender-based pay practices include: actual and compensatory damages, injunction, and recovery of court costs and attorneys fees.

This act abolishes the six-month statute of limitations for filing an action for employer violations and requires that an action be brought within two years after the violation occurs or the date of reasonable discovery of such a violation.

The Equal Pay Commission is established to study the causes and consequences of wage disparities.

The act imposes certain record-keeping and reporting requirements upon employers to document wage rates.

This act is similar to SB 873 (2004), SB 119 (2005), SB 700 (2006), SB 336 (2007), and SB 742 (2008).

SB 52 - This act allows a law enforcement officer to remove a firearm from the scene if the officer has probable cause to believe domestic assault has occurred and has observed a firearm at the scene.

The act requires the officer to provide the owner of the firearm with information about retaking it and safe storage during the proceedings related to the alleged act if the firearm is taken from the scene. The owner may retake the firearm within fourteen days after the proceeding unless he or she is ordered to have the firearm confiscated and disposed.

The act makes it unlawful for certain persons to possess a firearm. Such persons include those who are subject to a court order that:

- (1) Was issued after a hearing of which the person had notice;
- (2) Restrains a person from harassing, stalking, or threatening a family or household member or his or her child; and
- (3) Includes a finding that such person represents a credible threat to the safety of the family or household member or child or has been convicted of a misdemeanor crime of domestic assault.

A violation of this provision is a Class D felony.

This act also modifies the definition of "family or household member" and "domestic violence" in several sections relating to highway patrol reporting of domestic violence and the crime of domestic assault to be consistent with the definition of such terms in chapter 455, relating to adult abuse, orders of protection, and domestic violence shelters.

This act is identical to SB 1184 (2008).

SB 53 - This act modifies provisions regarding adoption records. The State Registrar shall develop and, upon a birth parent's request, distribute both a contact preference and a medical history form to the birth parent. The contact preference form allows a birth parent to list his or her preference for contact by the adoptee. If a contact preference form is filed with the registrar, a medical history form shall also be so filed. Upon receipt of the forms, the State Registrar shall attach such forms to the original birth certificate of the adopted person.

This act allows for an adopted person, the adopted person's attorney, or the adopted person's descendants, if the adopted person is deceased, to obtain a copy of the adopted person's original birth certificate from the State Registrar upon written application and proof of identification. The adopted person shall be 18 years of age or older and born in Missouri. The adopted person shall also agree in writing to abide by the birth parent's contact preference, if such preference is included with the adopted person's original birth certificate. The State Registrar shall also provide a medical history form, if such form was completed by the birth parent.

The provisions of the act shall not apply to adoptions instituted or completed prior to August 28, 2009, except that a copy of the medical history form, which has had all identifying information redacted, shall be

issued to such adopted person. For adoptions completed prior to August 28, 2009, the state registrar shall release the original birth certificate only if the birth mother is deceased. If the birth mother is not deceased, the state registrar shall, within thirty days of application by the adopted person, contact the birth mother via telephone, personally and confidentially, to obtain the birth mother's written consent or denial to release the original birth certificate.

This act is identical to SCS/SB 1132 (2008) and similar to SB 322 (2003)

SB 54 - This act provides that the custodial parent of a minor, or the parent of an incapacitated person who has been appointed guardian of such person, may designate a person to act as a standby guardian of the minor or the incapacitated person by a will or by a separate written instrument.

If a parent who has designated a standby guardian is or becomes seriously ill, the parent or designated standby guardian may file a petition in probate court seeking appointment of the person as the standby guardian of the minor or the incapacitated person. The petition must be filed with a copy of the will or the written instrument designating the standby guardian, with consent to act as standby guardian by the person so designated.

The petition also must contain certain identifying and contact information for the minor or incapacitated person, the custodial parent and designated standby guardian, each parent of the minor or incapacitated person, the spouse and all living children of the minor or incapacitated person, information about any adjudication of incapacity for person, and the reasons why a standby guardian is sought.

The court shall determine appointment of a standby guardian after considering whether there is a parent other than the custodial parent willing, able and fit to care for the person, the suitability of any person nominated by the minor or incapacitated person to be standby guardian if the minor or incapacitated person can communicate such, and the desirability of minimizing stress and disruption and avoiding placement of the minor or incapacitated person in foster or similar care if the parent becomes incapacitated or dies.

The act also states that the authority of the person to act as standby guardian shall take effect if the person has previously been appointed by the court as a standby guardian, or, if the person has not yet been appointed, if the consent of the parent is given in a written instrument, if an entry of an order adjudicating the parent as incapacitated has been entered, or if the custodial parent dies, whichever first occurs. The standby guardian must notify the court within ten days after he or she begins acting as standby guardian, and within sixty days, must petition the court for appointment as a standby guardian or for another qualified person to be guardian for the minor or incapacitated person.

Nothing within this act shall be construed to deprive a parent of his or her legal rights or obligations towards a minor or incapacitated person, or to supersede such rights.

This act is similar to SB 596 (2006), SCS/SB 35 (2007) and SCS/SB 745 (2008).

SENATE SPONSOR: Stouffer

SCS/SB 57 - Under this act, on the date the commission approves funding for any phase or portion of construction or reconstruction of Interstate 70 or Interstate 44, the rules in effect for outdoor advertising on August 27, 1999, shall be reinstated for that section of highway scheduled for construction and there shall immediately be a moratorium imposed on the issuance of state sign permits for new sign structures.

Owners of existing signs which meet the requirements for outdoor advertising in effect on August 27, 1999, and the requirements of the federal/state agreement and who voluntarily execute a partial waiver and reset agreement may reset such signs on the same or adjoining property. Such reset agreements shall be contingent upon obtaining any required local approval to reset the sign structure. Any sign which has been reset must still comply with the August 27, 1999 outdoor advertising regulations after it has been reset.

Owners of existing signs who elect to reset qualifying signs shall receive compensation representing the actual cost to reset the existing sign. Signs which have been reset under the act must be reconstructed of the same type materials and may not exceed the square footage of the original sign structure.

Sign owners may elect to reset existing qualifying signs by executing a partial waiver and reset agreement with the commission.

Upon the completion of construction on any section of Interstate 70 or Interstate 44, the moratorium on new permits shall be lifted and the rules for outdoor advertising in effect on the date the construction is completed shall apply to such section of highway.

Local zoning authorities may prohibit the resetting of qualifying signs which fail to comply with local regulations, but local authorities which choose to prohibit such resetting shall reimburse the commission the cost to condemn such signs less the cost to reset the sign under the act.

This act is virtually identical to SCS/SB 809 (2008).

*** SB 58 ***

SS SB 58

0165S.05P

SENATE SPONSOR: Stouffer

SS/SB 58 - This act modifies several provisions of law relating to transportation.

TRANSPORTATION COMMISSION LEADERSHIP - Under this act, the chair and vice chair of the commission are given the option to rotate positions. The current law requires the vice chair to assume the position of chair when the one year term of the chair expires (Section 226.030). This provision is also contained in SB 343 (2009).

DAVID'S LAW - Under this act, the Department of Transportation shall establish and administer a drunk driving risk reduction awareness program . This act shall be known as "David's Law." The signs shall be placed at or near the scene of the accident. Under the act, signs shall be attached to an existing highway sign, street light, or guard rail. The signs shall be placed upon the state highways in accordance with placement guidelines adopted by the department, and any applicable federal limitations or conditions on highway signage, including location and spacing. The department shall adopt, by rules and regulations, program guidelines for the application for and placement of signs authorized by this section, including, but not limited to, the sign application and qualification process, the procedure for the dedication of signs, and procedures for the replacement or restoration of any signs that are damaged or stolen. Any person may apply to the Department of Transportation to sponsor a drunk driving victim memorial sign in memory of an immediate family member who died as a result of a motor vehicle accident caused by a person who was shown to have been operating a motor vehicle in violation of an alcohol-related traffic law at the time of the accident. Upon the request of an immediate family member of the deceased victim involved in a drunk driving accident, the department shall place a sign in accordance with the provisions of the act. A person who is not a member of the victim's immediate family may also submit a request to have a sign placed under this section if that person also submits the written consent of a victim's immediate family member. The department shall charge the sponsoring party a fee to cover the department's cost in designing, constructing, placing, and maintaining the sign. Signs erected under the act shall remain in place for a period of ten years. After such date, the signs may be renewed for another 10 years after payment of appropriate maintenance fees. The signs developed by the department shall resemble a Missouri license plate and shall feature the words "Drunk Driving Victim!", the initials of the deceased victim, the month and year in which the victim of the drunk driving accident was killed, and the phrase "Who's Next?". Under the act, all private roadside memorials or markers commemorating the death of a drunk driving victim are prohibited. No person, other than a Department of Transportation employee or the department's designee, may erect a drunk driving victim memorial sign. These provisions may be found in SB 93 (2009)(section 227.295).

EXPUNGEMENT OF RECORDS OF CDL HOLDERS - This act prohibits the expungement of a minor in possession (MIP) charge for holders of commercial driver's licenses or persons operating commercial motor vehicles at the time of the violation (Section 311.326). The act also provides that no records shall be expunged if a person is found guilty with a BAC of .04 or greater and is holding a commercial driver's license at the time of the offense (Section 302.545). This provision is also contained in SS/SCS/SB 761 and 774 (2008) and SS/SCS/SB 239 et al (2007).

FAILURE TO APPEAR - This act includes failure to appear by a commercial license holder or operator of a commercial motor vehicle as an commercial driver offense requiring indefinite suspension until compliance (Section 302.700 and 302.755). This provision is also contained in SS/SCS/SB 761 and 774 (2008) and SS/SCS/SB 239 et al (2007).

CDL MILITARY EXEMPTION - This act provides that a military member while driving a vehicle for military purposes is exempt from possessing a CDL. Current law provides that the military member must be driving a

military vehicle to qualify for the exemption (Section 302.775). This provision was contained in SS/SCS/SB 761 and 774 (2008) and SS/SCS/SB 239 et al (2007).

FARMER CDL EXEMPTION - This act clarifies the CDL exemption for persons driving farm vehicles. In order to qualify for the exemption, the farm vehicle must be controlled by a farmer or family member, be used to transport agricultural products, machinery, or supplies to or from a farm, not be used in the operations of a common or contract carrier, and be used within 150 miles of the farmer's farm (section 302.775). This provision was contained in SS/SCS/SB 761.

FALSE STATEMENTS - This act increases the penalty for making a false unsworn statement or affidavit in the driver's license process from a Class A misdemeanor to a Class D felony (Section 302.230).

HAZARDOUS MATERIAL ENDORSEMENT REVOCATION - This act requires the state to immediately revoke a hazardous material endorsement upon receipt of an Initial Determination of Threat Assessment and Immediate Revocation from the Transportation Security Administration. The state must revoke or deny a hazardous material endorsement within 15 days of receipt of a final determination (Section 302.735).

HAZARDOUS MATERIAL DEFINITION - This act modifies the definition of hazardous materials to correspond with federal law and regulations (Section 302.700).

DRIVING WHILE OUT OF SERVICE - This act provides that any person convicted for driving while out of service shall be disqualified from driving a commercial motor vehicle in a manner prescribed by the federal regulations (Section 302.755).

ALCOHOL-RELATED ENFORCEMENT CONTACT - Under this act, a person is disqualified from driving a commercial motor vehicle for a period of not less than 1 year if convicted for the 1st violation of an alcohol-related enforcement contact (Section 302.755).

TRANSPORTATION INSPECTOR GENERAL - This act eliminates the position of the Transportation Inspector General contained within the Joint Committee on Transportation Oversight. These provisions are contained in SB 31 (2009)(Sections 226.030 and 21.795).

TOWING BY LAW ENFORCEMENT - Under current law, property is deemed abandoned when it has been on the right-of-way of any highway or freeway in an urbanized area for 10 hours, but property on the right-of-way on any highway or freeway outside of an urbanized area is not abandoned until it has been on the right-of-way for 48 hours. This act amends the current law so that a law enforcement officer may authorize a towing company to remove property left unattended for 24 hours on the right-of-way on any highway or freeway outside of an urbanized area. This act authorizes law enforcement officers to tow abandoned vehicles abandoned by persons who elude arrest for offenses the officer would have taken the offender into custody. The act also authorizes law enforcement officers to immediately remove abandoned property from the right of way of any interstate highway, freeway, or state highway if the abandoned property is creating a traffic hazard. Currently, this provision of law only authorizes the department of transportation to immediately remove the hazard from a state highway (Section 304.155). This provision is similar to one contained in SCS/SB 88 (2009).

DEAD RED - This act provides that a person operating a motorcycle or bicycle who enters or crosses an intersection controlled by a traffic-control signal against a red light shall have an affirmative defense to that charge if the person establishes all of the following conditions:

- (1) The motorcycle or bicycle has been brought to a complete stop;
- (2) The traffic signal continues to show a red light for an unreasonable time;
- (3) The traffic signal is apparently malfunctioning or, if programmed or engineered to change to a green light only after detecting the approach of a motor vehicle, the signal has apparently failed to detect the arrival of the motorcycle; and
- (4) No motor vehicle or person is approaching on the street or highway to be crossed or entered or is so far away from the intersection that it does not constitute an immediate hazard.

The affirmative defense applies only to a violation for entering or crossing an intersection controlled by a traffic-control signal against a red light and does not provide a defense to any other civil or criminal action. This provision is contained in SB 368 (2009). A similar provision was contained in SB 614 (2007) and SCS/SB 969 (2006). This provision is also contained in SS/SCS/SB 239 et al (2007)(Section 304.285).

REVISION OF THE SPECIAL LICENSE PLATE PROCEDURE - Under the proposed act, the Joint Committee on Transportation Oversight's role in approving special license plates is repealed (subsection 6 of Section 21.795). In lieu of receiving approval by the Joint Committee on Transportation Oversight, the role of authorizing special license plates is returned to the General Assembly after the organization has been vetted by the Department of Revenue, as required by current law.

In order to obtain a special license plate, the sponsoring organization must submit an application to the Department of Revenue (as required under current law). The application must be sponsored by a member of the General Assembly (current law). The list shall be accompanied by a list of 200 potential special license purchasers and an application fee for issuing and developing the special license plate (not to exceed \$5,000). The documents and fees must be submitted to the Department of Revenue by July 1st prior to the beginning of the legislative session. Monies submitted by the sponsoring organization will be refunded if the special license plate is not approved by the General Assembly. If special license plate legislation is filed by a member of the General Assembly, the Department of Revenue shall forward to the oversight division of the committee on legislative research a copy of the organization's special license plate application and a statement describing whether or not the proposed special license plate complies with the special license plate procedure law (200 applicants, issuance and development fee, etc.). Special military license plates are not subject to the special license plate procedure (current law)(Sections 21.795, 23.140, 301.3150, 301.3152, and 301.3154).

FILED RATE DOCTRINE REPEALED FOR HOUSEHOLD GOODS MOVERS IN COMMERCIAL ZONES - Under this act, motor carriers are not required to file its schedules of rates, fares and charges for shipments of household goods that are transported wholly within a commercial zone (section 387.040).

REVISION OF MACKS CREEK LAW - Under this act, if a 4th class city with less than 1,000 persons and having an interstate traversing through its city limits receive more than 35% of its annual revenue from traffic fines, all revenues in excess of the 35% threshold must be sent to the Department of Revenue to be distributed to the state school system (Section 302.341).

RED LIGHT CAMERAS - This act prohibits the issuance of an automated photo red light enforcement system citation unless the driver is clearly identifiable by a police officer located within the municipality employing the use of an automated photo red light system. As used in the act, the term "automated photo red light enforcement system" shall mean a device, consisting of a camera or cameras and a vehicle sensor or sensors, installed to work in conjunction with a traffic control signal, which is used to produce recorded images of motor vehicles entering an intersection against a red signal indication (Section 304.284).

TRACTOR PARADES - This act exempts tractors used in tractor parades from certain width, length, height, and license plate display regulations provided the tractors are driven by licensed drivers during daylight hours only and with the approval of the superintendent of the Missouri State Highway Patrol (Sections 304.170 and 304.260). These provisions are contained in SB 293 (2009).

VETERANS MEMORIAL HIGHWAY - This act designates a portion of Missouri Highway 100 in Franklin County as the "Veterans Memorial Highway" (Section 227.310).

TEXT MESSAGING WHILE DRIVING - This act prohibits drivers from sending, reading, or writing text messages or electronic messages while operating motor vehicles on the highways in Missouri. The text messaging prohibition does not apply to persons operating emergency vehicles. The text messaging prohibition does not apply to a person operating a motor vehicle who sends a text message to report illegal activity, summon medical or other emergency help, prevent personal or property injuries, or to relay information between a for-hire operator and a dispatcher. A violation of the act is an infraction and is considered a moving violation for purposes of point assessment. The act's provisions supercede any local law that regulates the use of electronic wireless devices by the operator of a motor vehicle. A similar provision, but not identical, is contained in SCS/SB 130 (2009)(Section 304.820).

MOTOR VEHICLE SAFETY INSPECTION - This act modifies the current motor vehicle safety inspection process by exempting motor vehicles for the ten-year period following their model year of manufacture (Sections 301.147, 301.190, 307.350, 643.303, and 643.315). The modification of the state motor vehicle safety inspection process becomes effective January 1, 2010.

SB 59 - Under this act, shippers shipping radioactive waste in Missouri shall be subject to statutory fees established by the act. State-funded institutions of higher education who ship nuclear waste shall be exempt from the statutory fees but such institutions shall reimburse the Missouri Highway Patrol for costs associated with shipment escorts. The fee structure is described in the act and the Department of Natural Resources in coordination with the Departments of Health and Senior Services, and Public Safety may promulgate rules necessary to carry out the provisions of the act. Any shipper who fails to pay a fee or to provide notice of a shipment to the Department of Natural Resources shall be liable for a civil penalty of an amount not to exceed ten times the amount of the original fee assessed and not paid.

The fees assessed and collected under the act shall be deposited into the environmental radiation monitoring fund. The department of natural resources may use moneys in the fund for the purposes delineated in the act. The act requires the Department of Natural Resources to prepare a report for the General Assembly beginning December 31, 2009, and every two years thereafter on all activities relating to the environmental radiation monitoring fund.

The provisions of this act do not apply to radioactive waste being shipped by or for the federal government for military or national defense purposes. This portion of the act shall sunset six years after the effective date of the section unless reauthorized by the General Assembly (Sections 260.392 and 260.750). These provisions are contained in SB 919 and the perfected version of SB 761 (2008).

SB 60 – This act requires the Department of Elementary and Secondary Education to develop standards for teaching in Missouri public schools by June 30, 2010, including public schools, charter schools, and public virtual schools. The teaching standards must include: having students actively participate and be successful in the learning process; forms of assessment to monitor and manage student learning; having the teacher be prepared and knowledgeable of content and maintain students' on-task behavior; having the teacher be current on instructional knowledge and explore changes in teaching behavior; and having the teacher act as a responsible professional in the mission of the school.

The Department will provide guidance to districts in establishing criteria for teacher evaluations under the teaching standards. In developing the teaching standards and evaluation models, the Department must involve representatives from teacher organizations, administration and principal organizations, the Missouri Advisory Council for the Certification of Educators, the Missouri Staff Development Council, and colleges and universities.

This act is identical to SB 1273 (2008).

SENATE SPONSOR: Wilson

SB 62 - This act provides that in any case involving child custody or support, the court may appoint a parenting coordinator as a neutral third party to assist the parents in resolving disputes concerning parental responsibilities and the implementation of a court-ordered parenting plan.

The court order appointing such parenting coordinator shall specify the matters which the coordinator has authority to determine, however, appointment of a coordinator shall not divest the court of its exclusive jurisdiction and control of the case. The parenting coordinator shall possess the same qualifications as a mediator under Supreme Court Rule 88.05.

A parenting coordinator may be appointed despite party objection if the court makes findings that the case is high-conflict, and that appointment of a coordinator is in the best interest of the child or children. The court shall consider the effect of any evidence of domestic violence on the parties' ability to engage in parent coordination services.

The parenting coordinator shall assist the parties in implementing the terms of a court-ordered parenting plan. Upon appointment, the parenting coordinator shall attempt to resolve disputes between the parties

regarding the parenting plan, or other disputes regarding parental responsibilities. The parenting coordinator also shall have authority to make findings and recommendations to the court regarding modification or clarification of an existing court-ordered parenting plan. The parenting coordinator shall submit any findings and recommendations to the parties, along with a statement that such information shall be submitted to the court. Any party who disagrees with the findings or recommendations may file a motion, within fifteen days of the receipt of the information, to request a court hearing. The judge shall choose to adopt, modify, or reject the findings and recommendations of the parenting coordinator.

The order appointing a parenting coordinator shall be for a specified term. Upon agreement of the parties, the court may extend, modify, or terminate the appointment, or may choose to terminate the appointment at any time for good cause. The parenting coordinator may withdraw from the case at any time.

No parenting coordinator shall be appointed unless the court finds that the parties are able to pay the fees, and the court shall allocate fees between such parties after consideration of all relevant factors. In cases of hardship, the court may appoint a coordinator to serve on a volunteer basis.

The parenting coordinator shall not be competent to testify about the parenting coordination process in any proceeding between the parties to the action, and shall not be required to produce records as to any statement or decision made during the appointment, other than the findings and recommendations the coordinator submits to the court.

The coordinator shall be immune from liability for any act or omission occurring during the performance of his or her duties, except for willful and wanton acts or omissions.

This act is identical to SB 1249 (2008).

*** SB 63 ***

0318S.021

SENATE SPONSOR: Rupp

SB 63 - This act modifies various provisions relating to dog fighting.

SECTION 578.025

This act increases the penalty for being a spectator at a dog fighting event from a Class A misdemeanor to a Class D felony for a second or subsequent offense.

SECTION 578.026

Any authorized public health official or law enforcement officer may seek a warrant to allow him or her to enter private property to inspect, care for, or impound dogs that are the subject of a dogfighting violation. The county sheriff, or a designee, shall be notified when a public health official or law enforcement officer is seeking a warrant to enter property because of a dog fighting violation. The sheriff shall participate in serving the warrant.

Any law enforcement officer or public health official, who has probable cause to believe a violation of the dog fighting provisions has occurred and who has the authority to make a lawful seizure, shall take possession of the dogs and other property used in the violation.

The officer or official taking possession of the dog or property shall file with the court an affidavit verifying certain information relating to the violation and stating that he or she has reason to believe a violation has or was about to occur.

A person performing a lawful seizure because of a dog fighting violation, whether acting under the authority of a warrant or not, shall be given a disposition hearing within 30 days of the filing of the request in order to grant immediate disposition of the impounded dog. The person seizing the dog shall place it in the care of a veterinarian, animal shelter, or animal control authority. If such people are not available, the dog shall not be impounded unless diseased or disabled. The dog shall be humanely killed if a veterinarian determines the dog is diseased or disabled beyond recovery. No person who lawfully seizes a dog shall be

liable for necessary property damage.

Owners of an impounded dog may prevent disposition of the dog by posting bond in an amount sufficient to cover the dog's care for 30 days. The authority with custody may dispose of the dog at the end of such time unless there is a court order prohibiting it. The court order shall provide for a bond or other security in an amount to cover the cost of care, keeping, or disposal of the dog.

The owner of a dog humanely killed under this act shall not be entitled to recover damages for the value of the dog if it was found by a veterinarian to be diseased or disabled or if the owner failed to post bond for its care and disposition after being notified of the impoundment.

SECTION 578.030

This act repeals provisions requiring dogs that are subject to a dog fighting violation be kept until a conviction or final discharge occurs with the case.

This act is similar to SB 819 (2008).

*** SB 64 ***

0455S.011

SENATE SPONSOR: Rupp

SB 64 – This act modifies provisions relating to charter schools.

Section 160.400: Current law provides that charter schools may only be operated in the Kansas City and St. Louis City school districts. This act allows charter schools to be operated in school districts that are not classified as accredited by the State Board of Education or in any school district that for any two of the past three years has obtained a score on its annual performance evaluation consistent with the classification of provisionally accredited or unaccredited. Charter schools may continue to operate if the district in which they are located becomes classified as accredited at a later time. In addition, charter schools may continue to operate and serve the same geographic area if a change in school district boundary lines occurs because of annexation, consolidation, or dissolution.

Any private or public four-year college or university with an approved teacher preparation program and with its primary campus in Missouri may sponsor a charter school. The mayor of St. Louis City may sponsor a charter school.

When the Department retains and remits such funds to the sponsor of a charter school, the sponsor must make an appropriate determination of the following: it must expend no less than 90% of its sponsorship funds in support of its charter school sponsorship program, or as a direct investment in the sponsored schools; have fair procedures and rigorous criteria for its application process and grant charters only to developers who show capacity for establishing and operating a quality charter school; negotiates charter school contracts that clearly articulate the rights and responsibilities of each party as described in the act; conducts contract oversight; and designs and implements a transparent and rigorous process to make merit-based renewal decisions. In addition, charter schools may expend up to ten percent of their sponsorship funds for undesignated administrative costs.

Section 160.405: This act removes the condition that charter schools become local educational agencies for the sole purpose of seeking direct access to federal grants when a sponsor and governing board enter into a written agreement reflecting the charter school's decision to become a local educational agency.

Current law requires charter schools to maintain a surety bond based on the school's cash flow. This act would allow charter schools to maintain an insurance policy in the amount of \$500,000 or more to provide coverage in the event of employee theft.

Section 160.410: Charter schools whose mission includes student drop-out prevention or recovery must enroll nonresident pupils from an adjacent county who submit a timely application. Preference will be given to

resident pupils over non-resident pupils if there is insufficient capacity.

This act is similar to SB 1078 (2008), HB 2111 (2008) and contains a provision identical to SB 1027 (2008).

SCS SBs 65 & 43

0503S.03P

SENATE SPONSOR: Rupp

SCS/SBs 65 & 43 - The act expands eligibility on the state's no-call list to include personal cell phone numbers. Current law prohibits certain types of telephone solicitations to persons on the no-call list. This act additionally prohibits these same types of solicitations via faxing, graphic imaging, or data communication (which includes text messaging).

The act also adds automated phone calls to the types of calls prohibited to individuals who sign up on the no-call list. Certain automated calls are exempt, which are calls:

- that a person has given permission to receive;
- relating to a recent or current business relationship or a current personal relationship;
- that are preceded by a live operator who obtains the receiver's consent to play the message;
- from a public safety agency or other entity notifying a person of an emergency;
- from school districts to students, parents, or employees;
- from employers to employees about work-related issues;
- from a telecommunications company or its directory publisher affiliates made solely to verify the delivery of products or services provided at no charge to the individual called; and
- for the purpose of taking polls on public policy matters, political candidates, or issues to be put before the voters, provided such poll is not a push poll.

Entities that make automated calls shall not block their number from appearing on any caller identification service. Automatic dialing announcing devices are prohibited from being used to call Missourians' personal phones unless the device will disconnect within 10 seconds of the receiver hanging up. In addition to other penalties as described, violators of these provisions may be subject to penalties associated with certain unlawful merchandising practices.

Violators of this act may be subject to a civil penalty up to \$5,000 per knowing violation. Individuals who receive more than one automated call from the same entity in any twelve-month period in violation of this act may bring action to cease the calls and recover actual monetary loss or damages. A two-year statute of limitations exists on bringing suit for violations of this act. It shall not be considered a violation of the act for an automated call message to be left on the answering machine or voice mail of a person whose number is registered on the no-call list, provided that the automated message is announced by a live operator.

The act also requires that anyone making a political phone call to a Missouri resident must include a "paid for by" statement. A committee making political phone calls must be registered with the Missouri Ethics Commission. Businesses and other non-committee organizations making political phone calls must register with the Secretary of State and the Missouri Ethics Commission and must disclose on whose behalf the organization is making the calls. Records must be kept for 2 years after the date an organization receives payment for political solicitation services rendered.

Entities that give out the phone number of an elected official in a political radio advertisement must register with the Missouri Ethics Commission and disclose who is paying for the advertisement.

The Secretary of State shall provide a summary of the political phone call requirements to any candidate who files for an elective office.

Violations of the political-related solicitations may be referred to the Missouri Ethics Commission.

The act repeals section 407.1110, which required the Attorney General to create a no-call consumer

education advisory group as well as conduct certain no-call outreach and education activities.

This act is similar to SCS/SBs 840 & 857 (2008), SS/SCS/SBs 49, 65, 210, 251 (2007) and SCS/HB 801 (2007).

SB 67 - Under this act, the governing body of any municipality may by resolution or ordinance allow persons to operate golf carts or motorized wheelchairs upon any street under its jurisdiction. A golf cart or motorized wheelchair shall not be operated at any time on any state or federal highway, but may be operated upon such highway in order to cross a portion of the state highway system which intersects a municipal street. No golf cart or motorized wheelchair shall cross any highway at an intersection where the highway being crossed has a posted speed limit of more than forty-five miles per hour.

Golf carts operated on city streets must be equipped with adequate brakes and shall meet any other safety requirements imposed by the governing body. Golf carts are not subject to registration.

The act defines a "golf cart" as a motor vehicle that is designed and manufactured for operation on a golf course for sporting or recreational purposes and that is not capable of exceeding speeds of twenty miles per

hour.

SB 68 - This act makes criminally negligent storage of a firearm a Class A misdemeanor.

A person commits the crime of criminally negligent storage of a firearm if the person stores or keeps any loaded firearm or unloaded firearm with ammunition under his or her control and knows or reasonably should know a minor is capable of gaining access to the firearm and the minor uses the firearm to threaten or cause the death of or injury to any person.

A person does not commit this crime if: (1) the firearm is stored in a locked box; (2) the firearm has a locking mechanism; (3) the firearm is stored in a dismantled state and at least one part which is essential to the operation of the firearm is stored in a locked box; or (4) the ammunition is stored away from an unloaded firearm in a locked box.

A minor who uses a weapon in self-defense or is being supervised while engaged in hunting or another lawful purpose does not fall under this law. A person does not commit this crime if the minor obtained possession of the firearm due to unlawful entry onto the premises or the person is a peace officer and the minor obtains the firearm during such person performing his or her official duties.

This act requires firearm dealers to post a written warning about the provisions in a conspicuous place where firearms are sold.

SB 69 - This act modifies several provisions of law relating to homeowner's and property insurance.

Under this act, an insurer may cancel a homeowner's policy if physical changes in the property insured have significantly increased the hazards originally insured. Under the current law, an insurer may cancel the policy if physical changes have increased the hazards originally insured (Section 375.002).

Under this act, the insurer must give the insured 60 days notice prior to cancelling the insured's policy (Current law is 30 days). The insurer must also give the insured 60 days of its intention not to renew a policy (Sections 375.003 and 375.004).

Under this act, homeowner insurance companies shall not consider as a claim any inquiry made by the insured as to whether the policy covers a certain loss or whether the policy provides a certain type or level of coverage (Section 375.001). Homeowner insurance companies are prohibited from refusing to renew a policy on the basis of a weather-related claim (Section 375.004). Further, insurers are prohibited from using

a rating plan or a rating system which surcharges the insured's dwelling fire or homeowners insurance premium based upon the insured's weather-related claims or upon inquiries into whether the policy covers certain losses (Section 375.004).

FAIR PLAN - Under this act, the name of the Missouri Basic Property Insurance Inspection and Placement Program is changed to the Fair Access to Insurance Requirements (FAIR) plan. FAIR plans were created in the late 1960s to make property insurance more readily available to people who can't obtain it from private insurers because their property is considered "high risk." The plans are operated by the insurance industry and make insurance available to property owners meeting certain requirements. Under the act, the FAIR plan is to offer dwelling fire, commercial fire and homeowners coverage for property owners, renters, and condominium owners. These coverages shall be similar to what is available in the standard market and provide protection against loss from various hazards(Section 379.815).

The act increases the amount of property insurance coverage a person can obtain through the program on residential property from \$200,000 to \$300,000 and on commercial property from \$1,000,000 to \$3,000,000 (Section 379.820).

Under this act, the length of time in which the facility must approve or decline whether the FAIR plan will insure a potential insured is decreased from 5 days to 3 days after the inspection report and application are received (Section 379.830).

All property insurance plans and underwriting guidelines used in the FAIR plan must be submitted to the director for approval at least 60 days prior to their use (Section 379.840).

A FAIR plan insurance policy shall not be cancelled or nonrenewed unless the insured receives 60 days notice (up from 30 days)(Section 379.845).

The governing committee of the FAIR plan is increase by two members (for a total of 15 members). The two new members shall be consumer representatives. Under this act, the date of the annual meeting of the insurers and the governing committee must also be approved by the director (Section 379.860).

This act is similar to SB 1090 (2008), SB 639 (2007), SB 659 (2006) and SB 106 (2005).

SB 84 - This act designates various highways and bridges within Missouri.

SPECIALIST JAMES M. FINLEY MEMORIAL BRIDGE - This act designates a bridge in Laclede County as the "Specialist James M. Finley Memorial Bridge".

DRUNK DRIVING RISK REDUCTION AWARENESS PROGRAM - Under this act, the Department of Transportation shall establish and administer a drunk driving risk reduction awareness program. This act shall be known as "David's Law." The signs shall be placed at or near the scene of the accident. Under the act, signs shall be attached to an existing highway sign, street light, or guard rail. The signs shall be placed upon the state highways in accordance with placement guidelines adopted by the department, and any applicable federal limitations or conditions on highway signage, including location and spacing.

The department shall adopt, by rules and regulations, program guidelines for the application for and placement of signs authorized by this section, including, but not limited to, the sign application and qualification process, the procedure for the dedication of signs, and procedures for the replacement or restoration of any signs that are damaged or stolen.

Any person may apply to the Department of Transportation to sponsor a drunk driving victim memorial sign in memory of an immediate family member who died as a result of a motor vehicle accident caused by a person who was shown to have been operating a motor vehicle in violation of an alcohol-related traffic law at the time of the accident. Upon the request of an immediate family member of the deceased victim involved in a drunk driving accident, the department shall place a sign in accordance with the provisions of the act. A person who is not a member of the victim's immediate family may also submit a request to have a sign placed under this section if that person also submits the written consent of a victim's immediate family member. The department shall charge the sponsoring party a fee to cover the department's cost in designing, constructing, placing, and maintaining the sign. Signs erected under the act shall remain in place for a period of ten years. After such date, the signs may be renewed for another 10 years after payment of appropriate maintenance fees.

The signs developed by the department shall resemble a Missouri license plate and shall feature the words "Drunk Driving Victim!", the initials of the deceased victim, the month and year in which the victim of the drunk driving accident was killed, and the phrase "Who's Next?".

Under the act, all private roadside memorials or markers commemorating the death of a drunk driving victim are prohibited. No person, other than a Department of Transportation employee or the department's designee, may erect a drunk driving victim memorial sign. The drunk driving risk reduction awareness program provisions are contained in SB 93 (2009)(section 227.295).

HEROES WAY INTERSTATE INTERCHANGE DESIGNATION PROGRAM - This act establishes an interstate interchange designation program, to be known as the "Heroes Way Interstate Interchange Designation Program", to honor the fallen Missouri heroes who have been killed in action while performing active military duty with the armed forces in Afghanistan or Iraq on or after September 11, 2001.

Under the act, any person who is related by marriage, adoption, or consanguinity within the second degree to a member of the United States armed forces who was killed in action while performing active military duty with the armed forces in Afghanistan or Iraq on or after September 11, 2001, and who was a resident of this state at the time he or she was killed in action, may apply for an interstate interchange designation.

The family member may petition the Department of Transportation for an interstate interchange designation by submitting the following:

- (1) An application in a form prescribed by the director, describing the interstate interchange for which the designation is sought and the proposed name of the interstate interchange. The application shall include the name of at least one current member of the General Assembly who will sponsor the interstate interchange designation.
- (2) Proof that the family member killed in action was a member of the United States armed forces and proof that such family member was in fact killed in action while performing active military duty with the United States armed forces in Afghanistan or Iraq on or after September 11, 2001. Acceptable proof shall be a statement from the Missouri veterans commission or the United States Department of Veterans Affairs so certifying such facts;
- (3) A fee to be determined by the commission to cover the costs of constructing and maintaining the proposed interstate interchange signs. The fee shall not exceed the cost of constructing and maintaining each sign.

Under the act, the Department of Transportation shall submit for approval or disapproval all applications for interstate interchange designations to the Joint Committee on Transportation Oversight. If satisfied with the application and all its contents, the joint committee shall approve the application. The committee shall notify the Department of Transportation upon the approval or denial of an application for an interstate interchange designation. If the memorial interstate interchange designation request is not approved by the Joint Committee on Transportation Oversight, ninety-seven percent of the application fee shall be refunded to the applicant.

The act requires two signs to be erected for each interstate interchange designation processed under the act.

No interstate interchange may be named or designated after more than one member of the United States armed forces killed in action. Such person shall only be eligible for one interstate interchange designation under the provisions of this section.

Any highway signs erected for any interstate interchange designation under the provisions of this section shall be erected and maintained for a twenty-year period. After such period, the signs shall be subject to removal by the Department of Transportation and the interstate interchange may be designated to honor persons other than the current designee. An existing interstate interchange designation processed under the provisions of this act may be retained for additional twenty-year increments if, at least one year before the designation's expiration, an application to the Department of Transportation is made to retain the designation along with the required documents and all applicable fees required under the act.

The provision establishing the "Heroes Way Interstate Interchange Designation Program" is contained in SB 110 (2009)(section 227.297).

SENATE SPONSOR: Crowell

SB 85 - This act creates the Missouri Special Needs Scholarship Tax Credit Program, to be administered by the Department of Economic Development. The program provides grants to elementary and secondary education students through scholarship granting organizations to cover all or part of the costs at a qualified public or non-public school, including transportation. Scholarships are to be portable during the school year and may be prorated if a student changes schools. Students who may receive scholarships through the program include, but are not limited to, students with an individualized education program who are mentally handicapped, speech and language impaired, deaf or hard of hearing, visually impaired, dual sensory impaired, physically impaired, emotionally handicapped, specific learning disabled, diagnosed with an autism spectrum disorder, or hospitalized or homebound due to illness or disability. Students must also have attended public school in Missouri the preceding semester or will be attending school for the first time. Any eligible student who receives an educational scholarship and attends a non-public school will be included in the weighted average daily attendance calculation of the school district the student attended immediately prior to receiving the scholarship for each year the student receives the scholarship.

Beginning with tax year 2009, a taxpayer as described in the act may claim a tax credit against the taxpayer's state tax liability in an amount equal to eighty percent of the taxpayer's contribution to a scholarship granting organization. The amount of tax credits per taxpayer is limited to \$800,000 per year. The amount of tax credits claimed cannot exceed fifty percent of a taxpayer's state tax liability for the tax year in which it is claimed. An unclaimed tax credit may be carried over to the next four succeeding tax years until the full credit is claimed. Tax credits granted under the program are transferable as described in the act.

The director of the Department of Economic Development will determine which organizations may be classified as scholarship granting organizations. A scholarship granting organization that participates in the program must meet certain requirements and follow certain procedures as described in the act. An organization must spend at least 90% of its revenue from donations on educational scholarships and spend all revenue from interest or investments on educational scholarships. In addition, an organization must distribute scholarship payments as checks to parents and provide a Department of Economic Development-approved receipt to taxpayers who contribute. An organization must demonstrate financial accountability and viability as described in the act. An organization must also cooperate with the Department to conduct criminal background checks on its employees and board members and not employ individuals who could pose a risk to the use of contributed funds. The Department may hold a hearing before the director to bar a scholarship granting organization from participating in the program if it believes the organization has intentionally and substantially failed to comply with the requirements of the program. A scholarship granting organization may appeal to the Administrative Hearing Commission.

Participating schools must comply with health and safety laws that apply to non-public schools, hold a valid occupancy permit if required, certify they will comply with 42 USC 1981, and regularly report on the students' progress to parents. Schools must also operate in Missouri and comply with state laws regarding criminal background checks for employees; they must not employ individuals prohibited by state law from working in a non-public school.

The Department of Economic Development must conduct a study of the program using non-state funds. The Department may contract with qualified researchers to conduct the study. The state auditor is granted the power to audit any school district within the state in the same manner as any agency of the state. The school district must pay for the cost of the audit. No school district can be audited under this provision more than once in any three calendar or fiscal years.

The provisions of this act expire in six years unless reauthorized.

This act is similar to Senate Bill 993 (2008) and House Bill 1886 (2008).

SCS/SB 88 - Under current law, property is deemed abandoned when it has been on the right-of-way of any highway or freeway in an urbanized area for 10 hours, but property on the right-of-way on any highway or freeway outside of an urbanized area is not abandoned until it has been on the right-of-way for 48 hours. This act amends the current law so that property is deemed abandoned after it has been left unattended for 10 hours on the right-of-way of the state highway system. The urbanized and non-urbanized distinctions are repealed so that abandoned property is subject to subject to tow after the property has been left unattended for 10 hours.

This act authorizes law enforcement officers to tow abandoned vehicles abandoned by persons who elude arrest for offenses the officer would have taken the offender into custody. The act also authorizes law enforcement officers to immediately remove abandoned property from the right of way of any interstate highway, freeway, or state highway if the abandoned property is creating a traffic hazard. Currently, this provision of law only authorizes the Department of Transportation to immediately remove the hazard from a state highway.

SS/SCS/SB 89 -This act modifies provisions relating to safety in long-term care facilities.

FIRE SAFETY STANDARDS

This act specifies that any section of a facility in which a major renovation has been completed on or after August 28, 2007, shall install and maintain an approved sprinkler system in accordance with National Fire Protection Association (NFPA) 13. The act also specifies when the requirements for sprinklers shall be NFPA 13R (residential) or NFPA 13 (commercial). This act removes a fire sprinkler exemption for skilled nursing and intermediate care facilities that pertains to the Chapter 33 of existing residential board and care occupancies of NFPA life safety code.

A substantial step for obtaining a loan from the Fire Safety Standards Loan Fund shall be as specified for certain residential care and assisted living facilities and all skilled nursing and intermediate care facilities.

The Fire Safety Standards Loan Fund was modified to provide that the loans may be for implementing the sprinkler requirements for certain qualifying residential care and assisted living facilities and all types of qualifying skilled nursing and intermediate care facilities. The loan fund shall be administered by the Office of Administration rather than the Department of Health and Senior Services as in current law.

This act removes the requirement that the interconnected smoke detectors be in place throughout the facility and the requirement for inspections to be conducted annually by the state fire marshal or local fire protection districts. (SECTIONS 198.074 and 198.075)

BONDS FOR LONG-TERM CARE RESIDENT'S PROPERTY IN TRUST

This act modifies the current provision in law regarding a bond required for holding a resident's property in trust by specifying that the bond shall be obtained and filed with the department for the preceding twelve months rather than for the preceding calendar year. (SECTION 198.096)

INSPECTORS AND SURVEYORS

Under this act, the Department of Health and Senior Services shall not assign an individual to inspect or survey a long-term care facility in which the surveyor was an employee of such facility within the preceding two years.

The department shall require disclosure statements by newly hired and currently employed inspectors and surveyors of long-term care facilities regarding his or her past employment in long-term care facilities and the current or past employment of immediate family members in long-term care facilities.

Any person may notify the department if facts exist that would lead a reasonable person to conclude that any inspector or surveyor has any personal or business affiliation that would result in a conflict of interest in conducting an inspection or survey of a facility. Upon receiving that notice, the department, when assigning an inspector or surveyor to inspect or survey a facility, for any purpose, shall take steps to verify the information, and if the department has probable cause to believe that it is correct, shall not assign the inspector or surveyor to the facility in order to avoid an appearance of prejudice or favor to the facility or bias on the part of the inspector or surveyor.

SCS/SB 93 - Under this act, the Department of Transportation shall establish and administer a drunk driving risk reduction awareness program. This act shall be known as "David's Law." The signs shall be placed at or near the scene of the accident. Under the act, signs shall be attached to an existing highway sign, street light, or guard rail. The signs shall be placed upon the state highways in accordance with placement guidelines adopted by the department, and any applicable federal limitations or conditions on highway signage, including location and spacing.

The department shall adopt, by rules and regulations, program guidelines for the application for and placement of signs authorized by this section, including, but not limited to, the sign application and qualification process, the procedure for the dedication of signs, and procedures for the replacement or restoration of any signs that are damaged or stolen.

Any person may apply to the Department of Transportation to sponsor a drunk driving victim memorial sign in memory of an immediate family member who died as a result of a motor vehicle accident caused by a person who was shown to have been operating a motor vehicle in violation of an alcohol-related traffic law at the time of the accident. Upon the request of an immediate family member of the deceased victim involved in a drunk driving accident, the department shall place a sign in accordance with the provisions of the act. A person who is not a member of the victim's immediate family may also submit a request to have a sign placed under this section if that person also submits the written consent of a victim's immediate family member. The department shall charge the sponsoring party a fee to cover the department's cost in designing, constructing, placing, and maintaining the sign. Signs erected under the act shall remain in place for a period of ten years. After such date, the signs may be renewed for another 10 years after payment of appropriate maintenance fees.

The signs developed by the department shall resemble a Missouri license plate and shall feature the words "Drunk Driving Victim!", the initials of the deceased victim, the month and year in which the victim of the drunk driving accident was killed, and the phrase "Who's Next?".

Under the act, all private roadside memorials or markers commemorating the death of a drunk driving victim are prohibited. No person, other than a Department of Transportation employee or the department's designee, may erect a drunk driving victim memorial sign.

SCS/SB 94 - This act provides that the Children's Division within the Department of Social Services shall develop rules to become effective by July 1, 2010, modifying the income eligibility criteria for any person receiving state-funded child care assistance, either through vouchers or direct reimbursement to child care providers.

Eligible child care recipients under state law and regulation may pay a fee based on gross income and family size unit based on a child care sliding scale fee established by the Children's Division, which is subject to appropriations. However, a person receiving state-funded child care assistance whose income surpasses the annual appropriation level may continue to receive reduced subsidy benefits on a scale established by the Children's Division until such person's income reaches 45 percent above such annual appropriation level, at which time such person will have assumed the full cost of the maximum base child care subsidy benefits. "Annual appropriation level" is defined as the percentage of the federal poverty level for the applicable family size necessary to be eligible for the child care subsidy as determined by annual appropriation.

The sliding scale fee may be waived for children with special needs as established by the division. The maximum payment by the division shall be the applicable rate minus the applicable fee.

These provisions are similar to SCS/SB 776 (2008) and SCS/SB 260 and 71 (2007).

SENATE SPONSOR: Justus

SCS/SB 96 – This act establishes the "Foster Care Education Bill of Rights." Each school district must designate a staff person to be an educational liaison for foster care children. This liaison would assist with proper educational placements, transferring between schools, ensuring transfer of grades and credits, requesting school records, and submitting school records that have been requested.

A child placing agency will promote educational stability for foster care children when making placements. A foster care child may continue to attend his or her school of origin pending resolution of a dispute. Each school district must accept for credit any full or partial course work satisfactorily completed by a pupil while attending certain schools. A pupil who completes the graduation requirements of his or her school district of residence while under the jurisdiction of the juvenile court will receive a diploma

If a foster care pupil is absent from school because of a change in placement by the court or child placing agency, or because of a verified court appearance or related court-ordered activity, the pupil's grades and credits will be calculated as of the date the pupil left school. Such absence will not result in a lowering of the pupil's grades.

Subject to federal law, school districts are authorized to permit access of pupil school records to a child placing agency for the purpose of fulfilling educational case management responsibilities required by the juvenile officer or by law and to assist with the school transfer or placement of a pupil.

Each child who is in foster care or who is placed in a licensed residential care facility is entitled to a full school day of education unless the school district determines that fewer hours are warranted. A full school day is defined as six hours under the guidance and direction of teachers in the education process for children in foster care or for children placed for treatment in a licensed residential care facility by the Department of Social Services.

For children placed for treatment in a licensed residential care facility by the Department of Social Services, the Commissioner of Education, or his or her designee, will be an ombudsman to assist the family support team and school district. The ombudsman will have the final decision over discrepancies regarding school day length. A full school day of education will be provided pending the ombudsman's final decision.

This act is similar to SB 1000 (2008) and SB 630 (2007).

SB 99 - This act establishes the Predictable Property Tax Act which, beginning August 28, 2009, freezes the assessed valuation of real property at the 2006 assessed value or at the acquisition price of property purchased after the effective date of the act and sets the tax rate at one percent. The assessment can be adjusted for cost-of-living increases up to two percent annually. Real property tax revenues are limited to the 2006 real property tax revenues for each county, excluding new construction, improvements, and cost-of-living increases. If the market value of a home declines, the assessed valuation must decrease. The limitations will not apply to any voter-approved tax increase, bond indebtedness, or special assessment. Any taxpayer age fifty-five or older can transfer the assessed value of his or her current home to any replacement home of equal or lessor value. The act allows the transfer of property up to \$1 million in assessed value to children or grandchildren without reassessment.

The provisions of this act will only become effective upon voter approval of a constitutional amendment limiting increases in assessed value until a transfer of ownership occurs.

This act is similar to the introduced version of house bill 1471 (2008).

SCS/SB 100 - Shippers of radioactive waste in or through Missouri shall be subject to statutory fees established by the act. State-funded institutions of higher education that ship nuclear waste shall be exempt from the fees but such institutions shall reimburse the Missouri Highway Patrol for costs associated with shipment escorts. The fee structure is described in the act and the Department of Natural Resources, in coordination with the Departments of Health and Senior Services and Public Safety, may promulgate rules necessary to carry out the provisions of the act.

Fees collected under the act shall be deposited into the Environmental Radiation Monitoring Fund for use by the Department of Natural Resources for radioactive waste-related activities, including emergency response coordination, environmental remediation oversight, and administrative costs. Any unused balance over \$300,000 in the Fund in any fiscal year shall be returned to the fee payers on a pro-rata basis. The act requires the Department of Natural Resources to prepare a report for the General Assembly beginning December 31, 2009, and every two years thereafter on all activities relating to the Environmental Radiation Monitoring Fund.

The act provides notification requirements for shippers of radioactive waste. Any shipper who fails to pay

a fee or to provide notice of a shipment shall be liable for a civil penalty of an amount not to exceed ten times the amount of the original fee assessed and not paid.

The provisions of this act do not apply to radioactive waste being shipped by or for the federal government for military or national defense purposes.

The shipping fees and notification requirements, and the Department biennial report, shall sunset six years after the effective date of the section unless reauthorized by the General Assembly.

Shippers of certain radioactive waste by rail must provide dosimeters or personal radiation monitors to any railroad employee who is working in proximity to the shipment while in Missouri. The shipper must also notify each employee in writing of his or her recorded dosage of radiation within 90 days of the termination of the employee's exposure to the shipments.

This act is similar to SB 919 (2008), provisions in the perfected version of SB 761 (2008), SB 205 (2007), and SB 976 (2006).

SB 102 - This act creates the "Political Subdivision Services Bidding Standards Act". Contracts for services by any political subdivision shall be advertised and bids solicited and awarded in compliance with any federal, state, and local law specifically written for such political subdivision. If a political subdivision is not covered by a specific federal, state, or local law, it shall comply with the advertising and bidding requirements outlined in this act when soliciting bids and awarding contracts.

Contracts for services shall be advertised in advance of the acceptance of bids, once per week for four

consecutive weeks, with the first ad appearing at least 30 days in advance of the stated deadline for acceptance of bids. For contracts worth over \$50,000, bids shall also be advertised by providing information to at least one organization which regularly provides information to contractors providing the service needed. Ads and solicitations must include the submission deadline.

Unless otherwise specified by law, a contract shall be awarded to the lowest qualified responsible bidder. The bidder's qualification shall be determined by his or her education and training. However, the political subdivision may reject the low bidder based on the bidder's failure to provide a performance or payment bond, nonperformance on previous contracts, or other reasons specified as to the bidder's inability to adequately perform the contract. The reason for rejection shall be provided to the bidder within five business days of the rejection.

No contract shall be awarded in violation of certain requirements, including opening bids in advance of the advertising deadline, accepting bids that are unwritten, accepting bids after the advertised deadline, and failing to hold bids confidential. A person submitting a bid, or who would have submitted a bid except for such violations, may seek equitable relief and monetary damages for monetary losses.

Electronic bidding shall be allowed if it meets the standards of confidentiality. Nothing in this act shall require acceptance of a bid which exceeds the amount estimated by the political subdivision for the contract. Nor shall the act prohibit a political subdivision from contracting without bidding if there is an immediate danger to the public; however, the political subdivision shall produce a written public record documenting the need to contract for such services without competitive bidding.

This act is similar to SB 1254 (2008).

SCS/SB 104 - This act provides that female students enrolling in sixth grade in public school may receive, at the option of a parent or guardian, an immunization for the human papillomavirus (HPV). The Department of Health and Senior Services shall directly mail age appropriate information to parents or guardians of female students entering the sixth grade regarding the connection between HPV and cervical cancer and the availability of the HPV immunization. Such information shall include the risk factors for developing cervical cancer, the connection between HPV and cervical cancer, how it is transmitted and how transmission can be prevented, the latest scientific information about the immunization's effectiveness, information about the

importance of pap smears, and a statement explaining that questions from parents or guardians may be answered by a health care provider.

Each mailing shall request that the parents of female students entering grade 6 voluntarily furnish a written statement to the department, not later than 20 days after the first day of school, stating that they have received the information and that the student has received the immunization or the parents have decided not to have the student immunized. The informational mailing sent to parents shall have displayed in bold type that the request from the parent or guardian for the written statement is voluntary. The form to be returned by the parents shall not request identifying information about the student, parent or guardian. Nothing in the act shall be construed to prevent school attendance if a parent has opted not to have the student receive the HPV immunization or has not furnished the written statement.

Subject to appropriations, if a parent or guardian chooses to have the female student immunized for the HPV infection but is unable to pay, the student shall be immunized at public expense at or from the county, district, city public health center with the costs of immunization paid through the Mo HealthNet program, private insurance or in a manner to be determined by the Department of Health and Senior Services subject to state and federal appropriations.

Beginning July 1, 2010, the department shall submit to the General Assembly a report detailing the number of sixth grade female students who have and have not been immunized against the HPV infection and the number of non-responses to the request for the written statement. The information derived from the written statement shall be used for statistical purposes only and shall not be used to personally identify any parent or guardian, or any student.

This act is substantially similar to SCS/SB 514(2007) and HCS/SS/SCS/SB 778(2008).

SB 110 - This act establishes an interstate interchange designation program, to be known as the "Heroes Way Interstate Interchange Designation Program", to honor the fallen Missouri heroes who have been killed in action while performing active military duty with the armed forces in Afghanistan or Iraq on or after September 11, 2001.

Under the act, any person who is related by marriage, adoption, or consanguinity within the second degree to a member of the United States armed forces who was killed in action while performing active military duty with the armed forces in Afghanistan or Iraq on or after September 11, 2001, and who was a resident of this state at the time he or she was killed in action, may apply for an interstate interchange designation.

The family member may petition the Department of Transportation for an interstate interchange designation by submitting the following:

(1) An application in a form prescribed by the director, describing the interstate interchange for which the designation is sought and the proposed name of the interstate interchange. The application shall include the name of at least one current member of the General Assembly who will sponsor the interstate interchange designation.

(2) Proof that the family member killed in action was a member of the United States armed forces and proof that such family member was in fact killed in action while performing active military duty with the United States armed forces in Afghanistan or Iraq on or after September 11, 2001. Acceptable proof shall be a statement from the Missouri veterans commission or the United States Department of Veterans Affairs so certifying such facts;

(3) A fee to be determined by the commission to cover the costs of constructing and maintaining the proposed interstate interchange signs. The fee shall not exceed the cost of constructing and maintaining each sign.

Under the act, the Department of Transportation shall submit for approval or disapproval all applications for interstate interchange designations to the Joint Committee on Transportation Oversight. If satisfied with the application and all its contents, the joint committee shall approve the application. The committee shall notify the Department of Transportation upon the approval or denial of an application for an interstate interchange designation. If the memorial interstate interchange designation request is not approved by the Joint Committee on Transportation Oversight, ninety-seven percent of the application fee shall be refunded to the applicant.

The act requires two signs to be erected for each interstate interchange designation processed under the act.

No interstate interchange may be named or designated after more than one member of the United States armed forces killed in action. Such person shall only be eligible for one interstate interchange designation under the provisions of this section.

Any highway signs erected for any interstate interchange designation under the provisions of this section shall be erected and maintained for a twenty-year period. After such period, the signs shall be subject to removal by the Department of Transportation and the interstate interchange may be designated to honor persons other than the current designee. An existing interstate interchange designation processed under the provisions of this act may be retained for additional twenty-year increments if, at least one year before the

designation's expiration, an application to the Department of Transportation is made to retain the designation along with the required documents and all applicable fees required under the act.

SB 116 – This act creates the Persistence to Graduation Fund.

The Department of Elementary and Secondary Education will establish a procedure for school districts to apply for grants to implement drop-out prevention strategies. Grants may be available to school districts that have at least sixty percent of students eligible for a free and reduced lunch. Grants will be awarded for one to five consecutive years. Upon expiration, a school district may apply for an extension. The Department of Elementary and Secondary Education must give preferences to school districts that propose a holistic approach to drop-out prevention as described in the act. The Department may stop payments to a district if it determines that the district is misusing funds or if the district's program is deemed ineffectual. The Department must provide written notice thirty days prior to cessation of funds. The Department must report annually to the General Assembly the recipients and amount of grants and data for the preceding five years for each recipient district. The General Assembly must annually appropriate an amount equivalent to one percent of state funding for elementary and secondary education for this program.

This act is similar to SB 1128 (2008).

*** SB 118 ***

0586S.011

SENATE SPONSOR: Griesheimer

SB 118 - This act modifies duties of the Department of Natural Resources with regard to solid waste management plans.

Current law requires the department to develop a statewide solid waste management plan in cooperation with other state and local entities. This act adds the requirement that the plan be a "next generation" plan. Similarly, current law requires the department to establish criteria for awarding state solid waste management planning grants; this act requires that the grants be "next generation" planning grants. Research, demonstration projects, and investigations with applicable federal programs currently conducted by the department on solid waste management systems shall be conducted on "next generation" solid waste management systems. "Next generation" refers to innovative technology or methods.

The model solid waste management plans currently required to be prepared by the department shall be "next generation" model solid waste management plans. In developing the model plans, current law requires that the department must consider the findings of "the" resource recovery study under section 260.038, RSMo. This act simply allows the department the option of considering the findings of any such study.

Under current law, the model solid waste management plans are supposed to be designed to achieve a solid waste reduction of 40% by January 1, 1998. The act requires an additional 10% reduction by January 1, 2012, an additional 5% by January 1, 2015, and an additional 5% by January 1, 2018, bringing the total cumulative solid waste reduction to 60% over pre-1998 levels.

The act modifies, from December 1, 1991 to December 1, 2010, the date by which the model solid waste management plan must be distributed to solid waste districts and counties and cities not in districts.

Current law requires the department to utilize and develop resource recovery programs around existing enterprises; this act requires the programs to be "next generation" programs.

SB 119 - Under current law, the Office of Administration is authorized to distribute funds from the wireless service provider enhanced 911 service fund to wireless service providers and public safety answering points based upon a formula established by the Office of Administration. Such formula may be based upon a variety of factors, but at least ten percent of the funds must be distributed equally to all public safety answering points in the state. This act requires the Office of Administration and the Director of the Department of Public Safety

or his or her designee to establish the formula; removes the requirement that at least ten percent of the funding be distributed equally among all public safety answering points in the state; and limits the number of public safety answering points which may receive funding based upon the classification of the county in which they are located.

This act also authorizes the Office of Administration, upon voter approval, to establish a fee of up to twenty-five cents per month on every wireless telephone number to fund wireless enhanced 911 services.

Provisions of this act are similar to those contained in Senate Bill 1118 (2008).

SB 122 - Under this act, each member of an ambulance district board of directors shall be subject to recall from office by the registered voters of the election district from which he or she was elected. Proceedings for the recall are commenced by the filing of a notice of intention to circulate a recall petition.

The notice must be served personally, or by certified mail, on the board member and filed with the

election authority. A separate notice is needed for each member sought to be recalled and must contain information explaining the reason for the recall. It must list at least one but not more than five proponents of the recall.

Within seven days, the board member may file a statement answering the statement of the proponents. The answer must be served on at least one proponent. The statement and answer are for the voters' informational purposes only.

A member cannot be recalled if he or she: 1) has not held office during the current term for more than 180 days; 2) has 180 days or less remaining on his or her current term; or 3) has had a recall election determined in his or her favor within the current term.

The person circulating the petition must sign an affidavit verifying certain information. A recall petition must be filed with the election authority not more than 180 days after the filing of the notice of intention. The number of signatures needed shall equal at least 25% of the number of voters who voted in the most recent gubernatorial election in the election district.

The election authority has twenty days from the date of filing the petition to determine if enough voters signed the petition. It must file a certificate showing whether there are enough signatures. If the election authority certifies the petition does not have enough signatures, it may be supplemented within ten days of the date of certificate. The election authority must then certify the supplemented petition. If it is insufficient, no further action shall be taken.

If the petition is sufficient, the election authority shall submit its certificate to the board of directors and order an election within a certain amount of time. Nominations for board membership openings shall be made by filing a statement of candidacy with the election authority.

Any time prior to forty-two days before the election, the member sought to be recalled may offer his or her resignation and the recall question shall be removed from the ballot and the office declared vacant.

This act is identical to SB 978 (2008).

SB 125 - This act requires the Department of Transportation to embrace principles of context sensitive design and context sensitive solutions in its policies and procedures for the planning, design, construction, and operation of transportation projects.

The act further provides that context sensitive design and context sensitive solutions principles shall promote the exploration of innovative solutions, commensurate with the scope of each project, that can effectively balance safety, mobility, community, and environmental objectives in a manner that will enhance the relationship of the transportation facility with its setting. Under the terms of the act, context sensitive design and context sensitive solutions principles shall complement, but not supplant, the department of transportation's existing practical design policy. The act requires the Department of Transportation to report to the Governor and the General Assembly no later than April 1, 2010, on its efforts to develop and implement context sensitive solutions policy and context sensitive design criteria.

SB 126 - Under this act, no life insurance company shall deny or refuse to accept an application for life insurance, refuse to renew, cancel, restrict, or otherwise terminate a policy of life insurance, or charge a

different rate for the same life insurance coverage, based upon the applicant's or insured's past or future lawful travel destinations. Nothing in this act shall prohibit a life insurance company from denying an application for life insurance, or charging a different premium or rate for such coverage under such policy based on a specific travel destination where the denial or rate differential is based upon sound actuarial principles or is related to actual or reasonably anticipated experience. Under the act, a violation constitutes an unfair trade practice. The act provides that it shall apply to life insurance policies issued or renewed on or after August 28, 2009.

This act is similar to SB 865 (2008).

0320S.05P

SENATE SPONSOR: Rupp

SS/SCS/SB 128 - This act modifies the current law that authorizes the state highways and transportation commission to enter into design-build highway project contracts. Under this act, the current statutory restriction that limits the commission to only entering into three design-build highway projects is removed. In lieu of a specific number of projects, the total number of highway design-build project contracts awarded by the commission in any state fiscal year shall not exceed 3% of the total number of all state highway system projects listed in the commission's approved statewide transportation improvement program for that fiscal year.

The act also amends the current bonding requirements relating to design-build highway project contracts. The act specifies the requirements for bid, performance and payment bonds, or letters of credit, must be provided by the design-builder directly to the commission in design-build highway project contracts. Under the act, a bid or proposal bond, cash or certified or cashier's check is still required, but the amount shall be determined by the commission. The performance bond or bonds must be in an amount equal to a reasonable estimate of the total cost of construction work under the design-build highway project contract. If the

Commission determines that cost estimate for the project contract is expected to exceed \$250 million and performance bonds for that amount are impractical, the commission shall set the performance bond at the amount reasonably available, but not less than \$250 million and may require additional security for the balance of the estimate not covered by the performance bonds.

This act contains an emergency clause.

The provisions of this act are similar to SB 178(2009).

SB 132 – This act modifies the requirements for school anti-bullying policies. The definition of "bullying" is modified to include discrimination and to include actions that substantially interfere with a student's educational performance, opportunities, or benefits, or that substantially disrupt the orderly operation of the school. Bullying is prohibited by school employees or students on school property, at school functions, or on school buses. This act removes the requirement that school policies treat all students equally and not identify lists of protected classes of students. Instead, bullying that is based on characteristics or categories, as described in the act, is prohibited.

School district policies must contain the following: a statement prohibiting bullying, including a definition of bullying, as described in the act; a procedure for reporting an act of bullying; a procedure for prompt investigations; how a school will respond to a confirmed incident of bullying; a statement prohibiting reprisal or retaliation against a person who reports an act of bullying; a statement of how the policy will be made public; and a process for discussing the policy with students and training employees and volunteers.

The State Board of Education must develop model anti-bullying policies to assist school districts no later than September 1, 2010.

This act is substantially similar to HB 1751 (2008).

0510S.011

SENATE SPONSOR: Mayer

SB 139 – This act modifies the elementary and secondary education funding formula. It removes from the calculation of the state adequacy target the inclusion of the gaming revenues from the repeal of the loss limits. Instead, the gaming revenues from the repeal of the loss limits will be distributed for teacher salaries, early childhood, and transportation purposes.

This act creates the Minimum Salary for Teachers Program and establishes procedures for qualifying school districts to receive funds to pay minimum salary supplements to teachers. A minimum salary

supplement is the difference between a school district's salary schedule and the minimum salary identified in the act. Beginning with the 2010-2011 school year, money from the Schools First Elementary and Secondary Education Improvement Fund will be transferred to the Minimum Salary for Teachers Fund to pay public school teacher minimum salary supplements to qualifying school districts. A participating school district is only responsible for the contracted amount of a teacher's salary. If there is insufficient money to pay the total cost of all minimum salary supplements, the minimum salary amounts will be prorated.

To qualify for funds, school districts must recognize all years of a teacher's teaching experience in accordance with the salary amounts and education levels identified in the act. A participating school district is also subject to a local effort requirement, which is based on the percentage of expenditures from the district's teachers and incidental funds attributable to base salary, retirement, and health care costs as described in the act. A district may vary from its local effort percentage based on its teacher and incidental fund balance. A district that varies more than the allowable percentage will have a deduction made from the minimum salary supplement in the next fiscal year.

Any future increases in minimum salaries are contingent on decreases in total state payments to all districts as described in the act. The value of each level of minimum salary will be increased by \$500 in the second fiscal year following the fiscal year in which the state cost of funding the minimum salaries is 85% or less of the full funding cost for the first school year of the state funding of minimum teacher salaries under the act.

This act requires that an amount of money sufficient to fund the Minimum Salary for Teachers Program be transferred from the Schools First Elementary and Secondary Education Improvement Fund to the Minimum Salary For Teachers Fund. Any remaining money will be evenly divided between and distributed to the Missouri Preschool Project and school districts for transportation costs. The transportation funds will be distributed based on a school district's weighted average daily attendance calculation in proportion to the weighted average daily attendance calculation for the entire state.

This act contains provisions similar to SB 1092 (2008).

SCS/SB 140 - Under this act, courts disposing of criminal nonsupport cases may be established by any circuit court. Such court shall have the authority to refer defendants to education, vocational or employment training, substance abuse treatment, or work programs. After successful completion of a court-ordered treatment or training program or commencement of support payments, the defendant may have the charges, petition, or penalty against him or her dismissed, reduced, or modified.

Each circuit shall establish conditions for referral to the court and each participant must be a nonviolent person. Any proceeding accepted by the court must be upon agreement of the parties. Any of the program's staff reports shall not be admissible as evidence in the underlying case; however, termination from the court program may be considered in sentencing or disposition of the case. Court staff shall be provided access to government records relevant to the participant's supervision.

An ten-member Criminal Nonsupport Courts Coordinating Commission shall be established to coordinate and allocate resources made available through the newly created Criminal Nonsupport Court Resources Fund.

Under this act, criminal nonsupport shall be a class A misdemeanor unless the total arrearage is in excess of an aggregate of twelve monthly payments, in which case, it is a class D felony. Currently, the crime is a class D felony if the person owes more than \$5,000 or has failed to pay six months of payments within the last twelve-month period.

The crime of nonsupport shall apply whether a child's paternity has been established through an administrative order or judicial order. Inability to provide support for good cause shall be an affirmative

defense that must be proved by a preponderance of the evidence.

If the defendant is placed on probation or parole, he or she may be ordered to begin payment of current support as well as satisfy the arrearages. If he or she fails to pay, probation or parole may be revoked and an appropriate sentence shall be imposed.

During any period that a nonviolent defendant is incarcerated for criminal nonsupport, the court, if the defendant is ready, willing, and able to be gainfully employed, may place the defendant on work release in order to satisfy the defendant's obligation to pay support if the person meets the criteria established by the department of corrections. The arrearages shall be satisfied as outlined in the collection agreement.

Beginning August 28, 2009, every nonviolent first and second-time offender currently incarcerated for criminal nonsupport, who has not previously been placed on probation or parole, may be considered for parole or work release.

This act is similar to HB 1652 (2006).

SCS/SB 141 -This act modifies provisions relating to paternity determinations.

In an action to determine paternity of a child, a notification form shall be attached to the delivery of the petition through service of process. The notification form shall prominently state in bold face type as follows: "Important Notice. If you do not respond to this action, a judgment of paternity will be entered against you and you may be ordered to pay child support, medical support or reimburse someone for support previously paid for the child. You have the right to contest that you are the father of the named child and you have the right to request genetic testing to prove whether or not you are the father."

This act also provides that a petitioner may file a petition to challenge entry of a judgment of paternity and child support upon filing an affidavit stating that evidence exists which was not considered before entry of judgment. Such petition shall also include either an allegation that genetic testing was conducted within the past 90 days using DNA methodology, was performed by an expert, and that the test results indicate the petitioner is not the child's father or a request to the court for an order of genetic paternity testing using DNA methodology. The petitioner shall have filed such an action to set aside paternity within eighteen years of the entry of the original judgment of paternity.

The court, after a hearing where all interested parties have been given an opportunity to present evidence and be heard and upon a finding of probable cause to believe the testing may result in a determination of non-paternity, may order the relevant parties to submit to genetic paternity testing. The petitioner shall pay for the costs of testing.

The court shall grant relief, unless the court makes written findings of fact and conclusions of law that it is not in the best interest of the parties to do so, and enter judgment setting aside the previous judgment of paternity and child support, including a previous acknowledgment of paternity, extinguish any existing child support arrearage, and order the Department of Health and Senior Services to modify the child's birth certificate accordingly upon a finding that the genetic test was properly conducted, accurate, and excludes the petitioner as the child's father.

In addition, any petitioner may apply for expungement of criminal nonsupport records to the court in which the petitioner pled guilty or was sentenced. Such expungement shall only apply to records for criminal nonsupport of a child or children for which the petitioner was found not to be the biological father.

The provisions of this act shall not apply to grant relief to the parent of any adopted child nor shall such provisions be construed to create a cause of action to recover child support or state debt previously paid under court order. The petitioner shall not have a right for reimbursement of any monies paid previously under said order.

Beginning in 2010, the family support division shall track and report to the general assembly the number of cases known to the division in which a court, within the calendar year, set aside a previous judgment of paternity and support under the provisions of this act.

This act is similar to SB 1147 (2008) and HB 2322 (2008).

SB 142 - Under current law, the sunset act terminates new programs six years after their effective date unless the program is reauthorized. If the program is reauthorized, the program will terminate twelve years from the date of reauthorization. This act modifies the sunset act to terminate new programs three years from their effective date and, if reauthorized, programs will terminate three years from the date of reauthorization. This act requires the Joint Committee on Tax Policy to review all state tax credit programs which are not currently subject to a sunset. The joint committee is required to report its findings to the General Assembly. Effective December 31, 2013, no tax credits, authorized under programs which are not subject to a sunset, may be issued unless the general assembly adopts a concurrent resolution approving and re-authorizing such tax credit program after it has been reviewed by the joint committee, or a general law is enacted modifying provisions of such tax credit program. Any tax credit program re-authorized in accordance with this act will be deemed a new program and thus subject to the sunset act's three year sunset provision.

This act is similar to Senate Bill 735 (2008).

SCS/SB 144 - This act provides that, subject to appropriations, two Prostate Cancer Pilot Programs shall be established within the Department of Health and Senior Services. One program shall be in the St. Louis area and one in either Pemiscot, New Madrid, or Dunklin counties. Once appropriated, the program shall fund prostate cancer screening and treatment services. The department shall distribute grants to local health departments and federally qualified health centers. This act also requires the program to provide cancer screening, referral services, treatment, and outreach and education activities.

The program is open to uninsured or economically challenged men who are older than 50 years of age and uninsured or economically challenged men between 35 and 50 years of age who are at high risk for prostate cancer. An uninsured man is defined as one for whom services provided by the program are not covered by private insurance, MO HealthNet, or Medicare, while an economically challenged man is one who has a gross income up to 150 percent of the federal poverty level. The department shall promulgate rules establishing guidelines regarding eligibility and for implementation of the program.

The department is required to report to the Governor and the General Assembly regarding the number of individuals screened and treated by the program and any cost savings as a result of early treatment of prostate cancer three years from the date on which the grants were first administered under the act. This act will expire six years from the effective date, unless reauthorized by the General Assembly.

This act is similar to HB 2441 (2008).

SB 146 - This act increases the amount of tax credits available for taxpayers who modify their home to be accessible for seniors or disabled people who reside with such taxpayer. Under current law, up to one hundred thousand dollars in tax credits remaining unused under the rebuilding communities tax credit program are allocated for use by taxpayers who modify their homes for disabled persons residing with such taxpayers. This act increases the amount of available tax credits by allocating all unused tax credits under the rebuilding communities tax credit program for use by taxpayers who modify their homes for seniors or disabled persons residing with such taxpayers. The rebuilding communities tax credit program is capped at ten million dollars annually. Constructing additional rooms in the dwelling or a new structure on the property for the purpose of accommodating the senior or disabled person is added as a new eligible cost for which the tax credit may be claimed.

SCS/SB 149 - This act enacts provisions relating to health care technology.

TRANSPARENCY OF HEALTH CARE SERVICES

This act establishes guidelines for transparency in pricing and quality of health care services. Criteria is established for insurers to use in programs that publicly assess and compare the quality and cost efficiency of health care providers.

A person who sells or distributes health care quality and cost efficiency data in a comparative format to the public is required to identify the source used to confirm the validity of the data and its analysis as an objective indicator of health care quality. This provision does not apply to articles or research studies that are published in peer-reviewed academic journals, nonprofit community-based organizations, or by state or local governments. SECTIONS 191.1005 to 191.1008

INTERNET WEB-BASED PRIMARY CARE ACCESS PILOT PROJECT

This act requires the General Assembly to appropriate 400,000 dollars from the health care technology fund to the department of social services to award a grant to implement an internet web-based primary care access pilot project designed as a collaboration between private and public sectors to connect, where appropriate, a patient with a primary care medical home, and schedule patients into available community-based appointments as an alternative to non-emergency use of the hospital emergency room as consistent with federal law and regulations. The criteria for the grant are specified in the act. SECTION 191.1200

TELEHEALTH

This act expresses the state's recognition of the delivery of health care via telehealth as a safe, practical and necessary practice in the state. By January 1, 2010, the Department of Health and Senior Services shall promulgate quality control rules to be used in removing and improving the service of telehealth practitioners. SB 160 - This act changes the scheduling of ephedrine, pseudoephedrine, and phenylpropanolamine to be Schedule III controlled substances. Such Schedule III drugs require a doctor's prescription to be obtained. However, any dietary supplements, herbs, or natural products that are not otherwise prohibited by law and that contain naturally occurring ephedrine alkaloids in a matrix or organic material such that the substances do not exceed fifteen percent of the total weight of the supplements, herbs, or natural products, shall be exempt from the Schedule III status as a controlled substance.

Also, upon written application by a manufacturer, the Department of Health may exempt by rule, any product containing ephedrine, pseudoephedrine, or phenylpropanolamine because it is formulated to effectively prevent conversion of the active ingredient into methamphetamine, from the scheduling of the substances. Upon notification of the state highway patrol that it has probable cause to believe an exempt product does not effectively prevent conversion of the active ingredient into methamphetamine, the department may issue an emergency rule revoking the exemption pending a full hearing.

Because of the scheduling change of these substances, the provisions governing the logging and storing of information regarding over-the-counter sales of such substances are no longer necessary and are repealed.

SCS/SBs 165, 164, 248, & 168 - This act authorizes the City of Grandview to levy a transient guest tax on charges for sleeping rooms paid by guests of hotels and motels for the purpose of promoting tourism. The proposed tax must be submitted to the voters and shall not be greater than five percent per occupied room per night. This provision is identical to the SCS/SB 1089 (2008).

The City of Grandview may seek voter approval to levy a sales tax of up to one-half percent to fund public safety improvements for the city. Such improvements may include expenditures on equipment, city employee salaries and benefits, and facilities for police, fire, and emergency medical providers.

The City of Ashland is allowed to seek voter approval for the imposition of a transient guest tax of not less than two percent nor more than five percent per occupies room per night. The tax authorized by this act must be separately stated from all other charges and taxes.

The governing body of any city, town, village or county is authorized to submit a proposal to the voters of such city, town village or county allowing the municipality to impose a property tax to fund cemetery maintenance. The tax authorized under this act shall not exceed one fourth of one cent per one hundred dollars assessed valuation and shall not become effective until approved by the voters of the city, town village or county. This provision is identical to the Perfected version of Senate Bill 822 (2008).

The City of Sugar Creek is authorized to seek voter approval to impose a transient guest tax upon charges for all sleeping rooms paid by guests of hotels, motels, bed and breakfast inns and campgrounds for the purpose of promoting tourism. The tax must be at least two percent, but may not exceed five percent per occupied room per night. This provision is identical to Senate Bill 1209 (2009).

SENATE SPONSOR: Rupp

SS/SCS/SB 167 - Under this act, health carriers that issue or renew health benefit plans on or after January 1, 2010, must provide individuals less than 18 years of age coverage for the diagnosis and treatment of autism spectrum disorders.

The act prohibits health carriers from denying or refusing to issue coverage on, refuse to contract with, or refuse to renew or refuse to reissue or otherwise terminating or restricting coverage on an individual or their dependent solely because the individual is diagnosed with an autism spectrum disorder.

The act sets forth the coverage limits for autism spectrum disorders. Coverage under the act is limited to treatment that is ordered by the insured's treating licensed physician or licensed psychologist, in accordance with a treatment plan.

The treatment plan shall include all elements necessary for the health benefit plan or health carrier to appropriately pay claims. Such elements include, but are not limited to, a diagnosis, proposed treatment by type, frequency and duration of treatment and goals.

Except for inpatient services, if an individual is receiving treatment for an autism spectrum disorder, a health carrier shall have the right to review the treatment plan not more than once every 6 months unless the health carrier and the individual's treating physician or psychologist agree that a more frequent review is necessary.

Coverage provided by the act for applied behavior analysis is subject to a maximum benefit of \$55,000 per year for individuals under the age of 15 (no coverage for applied behavior analysis is afforded to those 15 years of age or older). The annual maximum benefits for applied behavior analysis shall not be subject to any limits on the number of visits by an individual to an autism service provider for applied behavior analysis.

Coverage under the act for services other than applied behavior analysis shall not be subject to any limits on the number of visits an individual may make to an autism service provider.

After December 31, 2010, the director of the Department of Insurance, Financial and Professional Registration shall, on an annual basis, adjust the maximum benefit (for applied behavioral analysis) for inflation using the Medical Care Component of the United States Department of Labor Consumer Price Index for All Urban Consumers.

Payments made by a health carrier on behalf of a covered individual for any care, treatment, intervention, service or item, the provision of which was for the treatment of a health condition unrelated to the covered individual's autism spectrum disorder, shall not be applied toward any maximum benefit established under the act.

The health care services required by the act shall not be subject to any greater deductible, coinsurance or co-payment than other physical health care services provided by a health benefit plan.

To the extent any payments or reimbursements are being made for applied behavior analysis, such payments or reimbursements shall be made to either:

- (1) Any autism provider;
- (2) The person who is supervising an autism service provider, who is certified as a board certified behavior analyst by the Behavior Analyst Certification Board; or
- (3) The entity or group for whom such supervising person works or is associated.

The provisions of act shall not automatically apply to health benefit plan individually underwritten, but shall be offered as an option to any such plan.

The act provides the provisions of the autism mandate shall also apply to the following types of plans that are established, extended, modified or renewed on or after January 1, 2010:

- (1) All self-insured governmental plans, as that term is defined in 29 U.S.C. Section 1002(32);
- (2) All self-insured group arrangements, to the extent not preempted by federal law;
- (3) All plans provided through a multiple employer welfare arrangement, or plans provided through another benefit arrangement, to the extent permitted by the Employee Retirement Income Security Act of 1974, or any waiver or exception to that act provided under federal law or regulation; and
- (4) All self-insured school district health plans.

The provisions of the act do not apply to various forms of supplemental insurance policies such as specified disease policies or Medicare supplement policies.

The autism mandate shall apply to any health care plans issued to employees and their dependents under the Missouri Consolidated Health Care Plan on or after January 1, 2010.

This act provides that health carriers shall not be required to provide reimbursement for services delivered through early intervention or school services.

The provisions of this act are similar to provisions contained in HB 2351 (2008), SB 1229 (2008), and SB 1122 (2008).

SB 169 - This act provides that no applicant shall be enrolled in a Medicare Advantage plan until two business days have passed since the initial personal solicitation and the applicant has signed a disclosure form. Personal solicitation includes either an on-site presentation at a facility or a home meeting with an insurance agent. The disclosure shall be signed and dated by both the applicant and the agent on the day of the initial personal solicitation and shall include:

- A statement that Medicare Advantage plans are not Medigap supplement plans;
- A statement advising the applicant to confirm with his or her health care providers whether or not the provider has contracted with the Medicare Advantage plan to provide medical services; and
- A statement advising the applicant to contact either a trusted family member, friend or the state health insurance assistance program, known as CLAIM.

The director of the Department of Insurance, Financial Institutions and Professional Registration shall prescribe the format and content of the disclosure including size, color and prominence of type. Anyone who violates the provisions of this act shall be subject to civil penalties and fines.

This act is identical to SB 773 (2008).

SCS SB 174

0966S.03C

SENATE SPONSOR: Griesheimer

SS/SCS/SB 174 - This act modifies laws regarding property taxation by requiring tax rate rollbacks by school districts in reassessment years. For tax year 2009, political subdivisions are authorized to levy a property tax rate sufficient to generate as much revenue as was produced in the 2007 tax year excluding new construction and improvements as long as such rate does not exceed the greater of the rate in effect for the 1984 tax year or the most recent voter approved rate. The time line for the assessment, levy and appeal of property taxes is changed with regard to certain counties. The act modifies laws regarding the payment of taxes in dispute. Under current law, for the homestead preservation tax credit the homestead exemption limit will be based on the increase in tax liability from the base year to the year prior to the application year for all applications for credits filed between Dec 31, 2008, and Dec 31, 2011. This act modifies the term base year with regard to new homeowners who are approved for the first time after satisfying the three year ownership requirement so that the base year for such taxpayers will be the year following the first year in which such taxpayer acquired ownership of the homestead. The act adds two alternate members to the St. Louis City board of equalization and changes the date by which members must be appointed from the second Monday in May to the first day of July. The City of St. Louis and all charter counties are allowed to opt-out of the requirement that they must provide taxpayers with notices of projected tax liability for the 2011 reassessment year. The effective date for all other counties for the projected tax liability notice requirement is moved back to January 1, 2013. Assessors and collectors are required to submit estimates of the costs necessary to comply with the projected tax liability notice requirement to the state tax commission. The act creates a fund to receive appropriations and allocate moneys to assessors and collectors to offset the costs of implementing the projected tax liability notice requirements. The act repeals the duty of the state tax commission to develop software programs to produce projected tax liability notices.

This act contains an emergency clause.

SCS/SB 177 - This act opens up salvage pool sales or salvage disposal sales to residents of the United States. Under current law, salvage pool sales or salvage disposal sales are only open to licensed salvage dealers and to persons from foreign countries who purchase salvage vehicles for export outside of the United States. The act also requires operators of salvage pool sales or subsequent purchasers, who sell nonrepairable vehicles to non-U.S. residents, to stamp the titles to such vehicles with the words "FOR EXPORT ONLY." The current law only assigns this duty to the seller of a nonrepairable vehicle.

The act provides that a Missouri resident not holding a current salvage or dealers license may only purchase up to 3 vehicles for rebuilding or repairing purposes in any calendar year at salvage pools or salvage disposal sales in this state. In addition, no person described in this subsection shall purchase a vehicle with a junking certificate at a salvage pool or salvage disposal sale. In order to purchase a vehicle at a salvage pool or salvage disposal sale in this state, an unlicensed person may only purchase a vehicle at a

salvage pool or salvage disposal sale if such person possesses a voucher or certificate issued by the department of revenue that certifies that the holder of such certificate is authorized to purchase a vehicle at such sales. The director of the Department of Revenue shall establish a system, no later than January 1, 2010, that allows unlicensed persons to obtain three vouchers or certificates annually. Such vouchers or certificates shall be designed in a manner to allow the director of revenue to keep track of each vehicle purchased by a person described in this subsection. The Department of Revenue may charge a fee for the issuance of such vouchers or certificates and such fee shall not exceed the costs associated with the issuance of the vouchers or certificates, the processing of such vouchers or certificates, and the administration of such system. The substitute also provides that any person who purchases a vehicle in violation of this subsection or who knowingly or intentionally produces, manufactures, sells, or otherwise uses a fraudulent document intended to serve as a voucher or certificate in order to purchase vehicles at salvage pool or salvage disposal sales in this state is guilty of a Class B misdemeanor.

SB 178 - This act modifies the current law that authorizes the state Highways and Transportation Commission to enter into design-build highway project contracts. Under this act, the current statutory restriction that limits the commission to only entering into three design-build highway projects is removed. The act also removes the current statutory sunset clause which would extinguish the commission's authority to enter into design-build highway projects on July 1, 2012.

The act also amends the current bonding requirements relating to design-build highway project contracts. The act specifies the requirements for bid, performance and payment bonds, or letters of credit, must be provided by the design-builder directly to the commission in design-build highway project contracts. Under the act, a bid or proposal bond, cash or certified or cashier's check is still required, but the amount shall be determined by the commission. The performance bond or bonds must be in an amount equal to a reasonable estimate of the total cost of construction work under the design-build highway project contract, unless the commission determines in writing supporting by specific findings that a performance bond or bonds in such amount is impractical, in which case the commission shall establish the amount of the performance bond or bonds.

This act contains an emergency clause.

SB 183 - This act requires the Department of Social Services to develop a program to test applicants or recipients of temporary assistance for needy families (TANF) benefits when a case worker believes, based on reasonable suspicion, that such person engages in illegal use of controlled substances. Any applicant or recipient who is found to have tested positive for the use of a controlled substance after an administrative hearing shall be declared ineligible for temporary assistance for needy families benefits for a period of three years from the date of the administrative hearing decision. The department shall refer an applicant or recipient who tested positive for the use of a controlled substance under this act to an appropriate substance abuse treatment program approved by the division of alcohol and drug abuse within the department of mental health. Also, if a parent is deemed ineligible for TANF benefits due to the provisions of this act, his or her dependent child's eligibility for such benefits shall not be affected and an appropriate protective payee may be established for the benefit of the child. The department shall promulgate rules to develop the screening and testing provisions of this section.

This act is identical to SB 1259 (2008).

SENATE SPONSOR: Bartle

SB 184 - Under this act, a person has an absolute defense against civil liability or criminal prosecution for killing or injuring a dog, if such person's actions were based on the reasonable belief that he or she, or another person, was in imminent danger of being harmed by the dog. It is prima facie evidence that a person considered himself to be in "imminent danger" from a dog if the person had complained at least twice to the county sheriff or animal control authority that the dog had trespassed on his property, and on at least one of those occasions the person was in reasonable apprehension for his own safety, the safety of another person, or feared damage to livestock or property. County sheriffs and animal control authorities shall notify any dog owner about a trespassing complaint made against his or her dog. A court shall award all reasonable costs to the defendant in any such suit if evidence shows the defendant is entitled to the absolute defense as described. A person engaging in criminal activity at the time of an imminent danger dog threat shall not be entitled to the absolute defense created by this act.

The owner of a dog that bites, without substantial provocation, a person while in a public or lawful private place shall be strictly liable for damages to the bitten individual. Owners of such dogs shall also be strictly liable for any damage incurred to property or livestock by their dogs. If a dog owner is found liable by a court for such damages, the owner shall also be assessed a civil fine up to \$1,000.

When a dog that has previously bitten a person or domestic animal without provocation, subsequently bites a person again, the owner shall be guilty of a Class B misdemeanor. However, if the offense results in severe injury it shall be a Class A misdemeanor and if the previous biting episode also resulted in severe injury, it shall be a Class D felony. If the offense results in death it shall be a class C felony. Any such dog, or a dog that inflicts severe injury or death on the first biting occasion, shall be seized by the animal control authority or county sheriff who shall notify the dog's owner in writing. The dog shall be impounded for ten business days after notice has been provided to the owner, after which time the dog shall be destroyed. Appeal procedures are provided in the act.

The act's provisions do not apply to dogs that bite a person while such person is engaged in criminal activity at the time of attack. Certain instances of trespassing are not considered "criminal activity" under the act. Dogs owned or utilized by a law enforcement agency who bite in the course of their employ are exempt from the provisions of the act.

This act is similar to SB 834 (2008).

1008S.011

SENATE SPONSOR: Bray

SB 186 - This act creates the Healthy Pet Act.

Pet dealers are required to have their dogs and cats examined by a licensed veterinarian no greater than 30 days prior to sale. The act requires that pet dealers provide a written statement to the purchaser of any dog or cat containing certain facts about the animal's birth, breeding, physical traits, and medical history. The written statement shall also include a statement signed by both the pet dealer and the purchaser that the animal has no known disease, illness, or adverse health condition or the statement shall alternatively disclose any known disease, illness or adverse health condition.

The act requires pet dealers to maintain certain records for up to 12 months following the date of sale of any dog or cat.

Pet dealers are prohibited from selling any dog or cat with any obvious clinical sign of an infectious, contagious, parasitic, or communicable disease or with any condition for which hospitalization or nonelective surgery is required.

Individuals who unknowingly purchase a sick dog or cat are entitled to a remedy from the pet dealer when: within 20 days of the purchase, a licensed veterinarian states in writing that the animal suffers from or has died from a condition that existed on or before the date of purchase; or within 2 years of the purchase, a licensed veterinarian states in writing that the animal possesses or has died from a congenital or hereditary condition for which hospitalization or nonelective surgery was required. Available remedies to the purchaser of such a sick dog or cat are provided in the act.

In order to receive a remedy, a purchaser of a sick dog or cat must, within 10 days of receiving the veterinarian's diagnosis, notify the pet dealer and provide a written statement from the veterinarian to the pet dealer. The act lists certain information that must be included in the veterinarian's statement.

Remedies are not required to be provided by a pet dealer to a purchaser of a sick dog or cat if: the illness or death of the pet resulted from maltreatment by the purchaser or from an event that occurred after the pet's purchase from the dealer; the purchaser did not administer veterinarian-recommended treatment for the illness (except when the cost of treatment plus the exam fee exceeds the pet's purchase price); the pet's illness or condition was disclosed at time of purchase; or if the purchaser does not return all registration documents to the pet dealer if the pet is returned for refund or exchange.

If a pet dealer disputes a purchaser's request for a remedy under this act, the pet dealer can have the animal examined by a licensed veterinarian of his or her choosing.

The act requires pet dealers to post a statement about consumers rights under this act and specifies requirements for the size and wording of the notification. Pet dealers and purchasers of dogs and cats are also required to sign a statement at the time of purchase that the purchaser was provided notification of his or her rights under this act. The act requires certain additional notification provided to purchasers of pets sold as being registered or able to be registered.

The act does not limit any authority under other laws.

Pet dealers who advertise any animal as being registered or able to be registered with an animal registering organization shall provide the purchaser of any such animal the appropriate registration documents within 120 days of the date of purchase.

The act is identical to SB 914 (2008).

SCS SB 188

0544S.04P

SENATE SPONSOR: Dempsey

SCS/SB 188 - This act modifies various provisions relating to liquor control.

This act repeals certain liquor control provisions pertaining to wholesalers, including exceptions to the wholesaler price regulations and provisions requiring wholesalers to file a schedule with the Supervisor of Alcohol and Tobacco Control in order to operate. Instead, wholesalers are required to make product information, including price, available to retailers no later than five days prior to the first day of the month in which the pricing will be effective. The price provided shall become effective on the first date of the next month and remain in effect until the last day of that month. Supplemental pricing information may be provided to retailers for items that were unintentionally left off the regular information listing after approval by the Division of Alcohol and Tobacco Control.

This act changes the procedure allowing wholesalers to take delivery orders for upcoming months and also changes the requirements for "delayed shipments" under the division's rules and regulations.

This act allows wholesalers to offer retailers merchandise at prices which are below the wholesaler's cost only if such merchandise is specifically designated as "close-out merchandise" when providing the monthly pricing information. The act forbids wholesalers from buying more of such "close-out merchandise". Such "close-out merchandise" shall be designated as such for not less than six consecutive months. After such time, a wholesaler may remove items from its "close-out" designation by no longer identifying them as such on its monthly pricing information.

Currently, a liquor license may not be denied, suspended, or revoked based solely on the fact that an employee has a felony conviction unrelated to the manufacture or sale of alcohol if the employee does not directly participate in retail sales. Under this act, the employee would no longer be prohibited from directly participating in retail sales.

Currently, any winery, distiller, manufacturer, wholesaler or brewer may provide beverage samples off a licensed retail premises as long as no sales transactions take place. This act would allow such entities to provide tasting samples on a licensed retail premises if they have certain permits and no money is given to retailers for the tasting.

This act prohibits any person or business from having more than five liquor licenses, rather than three.

This act is similar to SS/SB 1240 (2008), HCS/HB 310 (2009), SB 396 (2009), and SB 451 (2009).

SB 194 - This act creates procedures that a patent holder of genetically-modified seed must follow before entering onto private farmland to take plant samples. Specifically, the patent holder must notify the farmer in writing of the suspected breach of contract or patent infringement; provide a copy of the notification to the director of the Department of Agriculture; obtain written permission from the farmer to enter the property; and inform the farmer of the required procedures described in the act.

The farmer must respond in writing to a request to take samples within 10 days of receipt of the request. The patent holder may petition a court for permission to enter the property and may also seek a protective order if the patent holder has reason to believe that a crop to be sampled may be intentionally damaged or destroyed. Once permission has been granted by either the farmer or a court, the patent holder may enter the property in order to take samples. The farmer or the patent holder may request to have the Department of Agriculture present at the sampling or actually conduct the sampling. The department may charge reasonable fees for any sampling activities it conducts, for which the patent holder is responsible for paying. The results from any sampling must be sent via registered letter to all parties involved within 30 days after the results are first reported.

A violation of the act by a patent holder is punishable by penalty of no less than \$50,000 per violation.

The act creates certain immunity from liability for farmers on whose property is found evidence of a

patented genetically-modified plant when the farmer did not knowingly buy or acquire the plant, otherwise acted in good faith, and the presence of the plant is minimal.

The act requires that any contract for the purchase of patented genetically-modified seed shall comply with the provisions of the act or else the contract shall be considered in violation of state law and shall be null and void.

SB 195 - This act creates the Missouri Seed Availability and Competition Act. Farmers who want to retain patented seed from a current harvest for planting the following season must register with the Department of Agriculture and pay a fee of \$7 per bushel of saved seed. The fees are to be deposited into the Genetically Engineered Seed Fund, which is created by the act. Six dollars per bushel collected are to be remitted to the patent holder of the seed on a quarterly basis. One dollar is to be retained by the Department for actual administrative costs of the fund. Any unused administrative funds are to be directed to a subaccount of the fund for use by the University of Missouri for agricultural research and development.

A farmer will only be liable for health, safety, or environmental impacts if he or she intentionally or negligently fails to significantly follow the patent holder's or manufacturer's instructions and guidelines for planting the seed.

A violation of this act is considered a crime of misappropriation of patented seed and is a Class D felony. All other legal remedies are available to the owner of the misappropriated seed.

This act is identical to SB 847 (2008) and similar to SB 68 (2007) and HB 1300 (2006).

The act also provides that when investigating an accident or settling an automobile insurance policy claim, no insurer, agent, producer, or claims adjuster of an insurer shall assign a percentage of fault to a party based upon the sole fact that the party was operating a motorcycle in an otherwise legal manner. This provision is similar to SB 505 (2007).

This act also exempts persons 21 years of age or older from wearing protective headgear except when operating or riding motorcycles or motortricycles upon interstate highways. The motorcycle helmet exemption expires on August 28, 2014 (Section 302.020).

This act is substantially similar to SB 1067 (2008), SB 252 (2007), SB 635 (2006), SB 12 (2005), SB 744 (2004), SB 226 (2003), SB 646 (2002), SB 18 (2001), SB 610 (2000) and SB 294 (1999).

SB 203 - This act provides that upon receiving a valid, lawful prescription for a contraceptive, a pharmacy has a duty to dispense the contraceptive or a suitable alternative permitted by the health care provider who issued the prescription. The pharmacy must fill the prescription without delay and consistent with the normal time frame for filling any other prescription. If the contraceptive or suitable alternative is not in stock, the pharmacy must obtain the contraceptive under the pharmacy's standard procedures for ordering contraceptives not in stock. If the patient prefers, the prescription must either be transferred to a local pharmacy of the patient's choice or returned to the patient.

This act also provides that nothing in the provisions of this act shall interfere with a pharmacist's screening for potential drug therapy problems, contraindications, or other potential interaction problems.

A pharmacy has a duty to treat each customer in a non-judgmental manner and ensure that each customer is not subjected to indignity, humiliation, breaches of confidentiality, or pressure to fill or not fill the prescription. In addition, the duties to fill the prescription under this act shall also apply to emergency contraception sold over the counter to persons of legal age.

Violation of the provisions of this act shall subject the licensed pharmacy to disciplinary action by the Board of Pharmacy.

This act is substantially similar to SB 948 (2008) and SCS/SB 72 (2007).

SB 204 - This act licenses certain psychologists to prescribe certain medications and test blood and urine to monitor treatment. Prescribing psychologists are not authorized to order electro-convulsive therapy.

Before a psychologist is licensed as a prescribing psychologist they must:

- Complete 400 hours of didactic educational instruction or complete a postdoctoral masters degree in psychopharmacology.
- Complete a one year supervised fellowship with a full-time caseload of patients during which they provide medication management, psychological evaluations, and therapeutic services.
- Pass a national exam.
- Maintain medical liability insurance.

For the first year of licensure the prescribing psychologist shall have a collaborative practice agreement with a physician. After the first year of licensure, the prescribing psychologist must maintain a referral agreement with a physician to provide for the diagnosis and treatment of medical conditions.

This act is similar to SB 917 (2008), HB 350 (2007), and SB 701 (2007).

SENATE SPONSOR: Rupp

SCS/SBs 207 & 245 - This act requires companies that own or license personal information about Missouri residents to notify the affected individuals if the company discovers that security of the personal information has been breached. The notification must be made without unreasonable delay, but may be delayed by a law enforcement agency if the notification would compromise an investigation or homeland security.

Certain pieces of information must be included in the notification, such as the type of personal information compromised, the steps being taken to protect further breaches, and certain advice and contact information.

The act provides an exception to the notification requirements if it is determined that no risk of identity theft or other fraud to a consumer is reasonably likely to result from the breach.

Notification to affected consumers of a breach may be made in writing, via e-mail, or by telephone. In cases when the cost of notifying would exceed \$250,000, when there are over 500,000 affected people to notify, when the company does not have sufficient contact information, or if the company cannot determine which consumers are affected by a breach, the company may use alternate notification procedures as described.

Companies shall notify the Attorney General in cases where the personal information of over 1,000 Missourians has been breached.

Companies that maintain their own notification procedures for security breaches that are consistent with this act shall be deemed in compliance with this act if they follow their procedures. Similarly, if a company maintains procedures for security breaches under another state's laws or federal law, and it follows those procedures, the company shall be deemed in compliance with this act.

The Attorney General has exclusive authority to bring action for actual damages for willful and knowing violations of this act as well as may seek a civil penalty of up to \$150,000 per security breach.

SB 209 - This act creates a central filing system in the office of the Secretary of State for filing financing statements to perfect a security interest in farm products. The Secretary of State shall operate and maintain the system and compile information from all the statements into a master list organized according to farm product and further arranged in alphabetical order by last name of the debtor, by social security number of the debtor, geographically by county, and by crop year. Individuals may register with the Secretary of State to receive the list in return for a \$30 registration fee and an annual fee, the sum of which depends on the type of list requested. Requirements relating to additional fees and electronic requests are provided and all fees collected by the Secretary of State shall be deposited in the Secretary of State's technology trust fund. The Secretary of State is given the authority to promulgate rules to implement the system.

In accordance with the Food Security Act, 7 U.S.C. 1631, the Secretary of State shall apply to the Secretary of the United States Department of Agriculture for certification of the central filing system.

Requirements for an effective filing statement are provided and such statements shall remain effective for 5 years from the date of filing, subject to extensions for additional periods of 5 years by refiling or filing a continuation statement within 6 months before the 5 year expiration.

When there is no outstanding secured obligation and no commitment to give value, the secured party shall notify the debtor of his or her right to receive a notice of lapse of the financing statement which shall lead to the removal of the name of the debtor from the files and lists compiled by the Secretary of State. In lieu of this notice, the secured party may acquire a waiver of the debtor of such right and a request by the debtor that the statement be retained on file. If the secured party does not furnish the notice or obtain the waiver, the secured party shall provide the debtor with a written notification of the debtor's right to have a notice of lapse filed within 10 days of final payment of all secured obligations.

A buyer in the ordinary course of business buying farm products covered by the central filing system shall take subject to the security interest identified under the system unless the buyer makes an inquiry into the system and the system does not correctly identify the debtor. Buyers take free of any security interest if the buyer obtains a waiver or release of the interest from the secured party.

SB 215 - This act establishes the procedure to establish a port improvement district.

ESTABLISHMENT OF A PORT IMPROVEMENT DISTRICT - This act establishes the Port Improvement District Act. Under the terms of the act, a port authority may establish a port improvement district within its boundaries for the purpose of funding qualified project costs. The port authority board must hold public hearings on whether to create port improvement district. After the public hearing, the board may approve the petition to create a district by resolution. The port authority board must file a petition in circuit court requesting the creation of a port improvement district. Within 30 days of the circuit court's certification of the petition and establishment of the district, the board must file a copy of the board's resolution approving the petition, the certified petition and the court's judgment certifying and establishing the district with the Missouri Highways and Transportation Commission.

CONTENTS OF PETITION TO CREATE A DISTRICT - The act sets forth what information the petition must contain in order to be certified by the circuit court. For example, the petition must set forth a legal description of the district, the district's name, the maximum rate and duration of any proposed real property or sales tax, and the estimated revenues projected to be generated from such taxes.

PUBLIC HEARING ON PROPOSED PETITION - The act establishes the notice requirements the port authority board must follow prior to submitting the petition to the circuit court. A public hearing must be held on the proposed projects, proposed real property or sales taxes, and the establishment of the district. The act requires notice to be provided by both publication and mailing.

CIRCUIT COURT HEARING PROCEDURE - The act establishes the procedure in which the circuit court must conduct certification hearing. A copy of the petition must be served on all of the respondents (property owners, political subdivisions, etc.). The respondents will have 30 days after receipt of service to file an answer stating agreement with or opposition to the creation of the district. The court will hear the case without a jury. The parties may appeal a circuit court's order in the same manner provided for other appeals.

NOTICE TO PUBLIC FOR CIRCUIT COURT HEARING - The act also establishes how the circuit clerk must provide notice to the public of the circuit court hearing. The statutory notice shall be published in a newspaper of general circulation once a week for four consecutive weeks.

TERMINATION OF DISTRICT - The act establishes a procedure in which a port improvement district may be terminated. The district may be terminated by a board resolution provided that there are no outstanding obligations secured by district revenues. Public hearings must be held before a district is terminated.

REAL PROPERTY TAX AUTHORIZED - SUBMISSION TO QUALIFIED VOTERS - Under the terms of the act, the port authority may levy a real property tax provided the qualified voters approve the tax by mail-in ballot. The act sets forth the sample ballot language. The act also establishes the procedure in which the real property taxes are collected and distributed.

SALES AND USE TAX AUTHORIZED - SUBMISSION TO QUALIFIED VOTERS - Under the terms of the act, the port authority may levy sales and use taxes within the district in increments of one-eighth of one percent, up to a maximum of one percent provided the sales and use tax is approved by the qualified voters in a mail-in ballot election. The act establishes a procedure for collecting and distributing the sales and use tax. Revenues generated from the sales and use tax must be deposited into a special trust fund. Port authorities may repeal by resolution any sales and use tax unless the repeal would impair the port authority's ability to repay any obligations the port authority has incurred to pay qualified project costs of the district.

ELECTION PROCEDURE FOR REAL PROPERTY AND SALES TAX - The act sets forth an election procedure that must be followed for any proposed real property tax or sales and use tax. After the board has passed a resolution approving the levying of a tax, the board must provide written notice of the resolution, along with the circuit court's certified question regarding the tax, to the election authority. After receiving the written notice of the resolution and the court's certified question, the election authority must specify a date upon which the election shall occur. In addition, the election authority must publish notice of the election in a newspaper of general circulation. The election authority must mail ballots to the qualified voters. Each qualified voter shall have one vote. The act requires the port authority to reimburse the election authority for the costs incurred to conduct an election. A port authority may propose a real property tax and a sales and use tax question to the district's qualified voters in the same election.

STATUTE OF LIMITATIONS FOR CHALLENGING VALIDITY OF DISTRICT'S CREATION OR VALIDITY OF TAXES - Under the terms of the act, no lawsuit to set aside an established district or a tax shall be brought after the expiration of 90 days from the effective date of the resolution establishing such district in question or the effective date of the resolution levying such real property or sales tax.

ANNUAL REPORTS BY PORT AUTHORITIES - The act requires port authorities that have formed port improvement districts to file reports with the Department of Transportation and the local political subdivision in which the district was formed stating the services provided, the revenues collected and expenditures made by the district during the fiscal year. The port authority must submit an annual report of the district's financial transactions to the state auditor.

SA 1 - A petition to create a port improvement district must be signed by the property owners collectively owning more than 60% per capita of all owners of real property within the boundaries of the proposed district.

SA 2 - The act provides that the state auditor shall have the power to audit port authorities.

SA 3 - Under the act, any expenditure by a port authority that is over \$25,000 must be competitively bid.

1058S.02C

SENATE SPONSOR: Scott

SCS/SB 216 - This act requires debt settlement providers only to provide debt settlement services under a debt settlement plan when performing the services for a fee.

Debt settlement services are defined as the negotiation, settlement, or alteration of the terms of payment of a consumer's debt with the consumer's creditor without receiving or holding money from a consumer for the purpose of distributing that money to the creditor.

Under the plan, the provider may only charge reasonable consideration not to exceed 4% of the principal amount of the debt in enrollment fees and 20% of the principal amount of the debt in aggregate fees. The balance shall be collected in equal payments over a period determined by the provider as long as the last payment is due no sooner than the median month in the plan. The debtor may voluntarily prepay fees, and the provider may collect fees on a pro rata basis once the provider obtains reasonable offers.

Debt settlement providers are required to carry insurance in the amount of at least 1 million dollars.

The Attorney General is charged with the enforcement of these provisions and injunctions and orders for restitution may be issued for violations.

This act is similar to SB 1108 (2008).

SB 219 - This act allows the court, as a condition of probation or parole, to require certain persons convicted of intoxication-related traffic offenses to submit to alcohol monitoring in certain circumstances instead of serving a more lengthy sentence.

The term "continuous alcohol monitoring" means automatically testing alcohol concentration levels and tampering attempts, regardless of the location of the person wearing the device, at least once each hour and regularly transmitting the data.

In addition to other terms of probation or parole, a court shall consider requiring an offender convicted of an intoxication-related traffic offense to abstain from consuming alcohol as demonstrated by continuous alcohol monitoring or verifiable breath alcohol testing performed a minimum of four times per day for a length of time established by the court.

Although an aggravated offender is not eligible for probation or parole for 60 days, the court may suspend execution of up to 30 days of such term if, as a condition of probation and parole, the person abstains from drinking alcohol as demonstrated by continuous alcohol monitoring or verifiable breath alcohol testing performed a minimum of six times per day for not less than 60 days but not more than 120 days.

A chronic offender is not eligible for probation or parole until he or she has served two years of imprisonment; however, the court may grant probation if the person qualifies for the one hundred twenty day shock treatment program and he or she, as a condition of probation, abstains from drinking alcohol as demonstrated by continuous alcohol monitoring or verifiable breath alcohol testing performed a minimum of six times per day for not less than 6 months but not more than 2 years.

SB 220 - This act establishes the "Fire Safety Standard and Firefighter Protection Act", which prohibits the sale of cigarettes in this state that have not been tested, certified, and marked as meeting certain performance standards. Performance standard testing shall be conducted according to certain specifications, unless the state fire marshal determines that using such test method is impossible for a manufacturer. In such cases, the state fire marshal shall approve an equivalent testing method.

Each manufacturer shall maintain copies of testing reports for three years and must make the reports available to the State Fire Marshal and attorney general upon written request. After sixty days of failing to make the reports available, a manufacturer shall be subject to a civil penalty of up to \$60,000 for each day of the violation.

Manufacturers shall also submit written certification to the State Fire Marshal attesting to each cigarette being tested and meeting the performance standard established in this act. For each cigarette listed in a certification, a manufacturer must pay the State Fire Marshal a \$250 fee. Cigarettes must be recertified every three years.

Certified cigarettes must be marked in certain sized type and the marking must meet certain standards. Manufacturers shall only use one marking for all packages. Manufacturers must provide copies of the certifications to wholesale dealers and agents to which they sell cigarettes. Wholesale dealers, agents, and retail dealers shall permit the State Fire Marshal, Department of Revenue, and Attorney General to inspect package markings.

Manufacturers, wholesale dealers, agents, or other persons who sell cigarettes, except through retail sale, in violation of testing requirements are subject to a civil penalty not to exceed \$100 for each pack of cigarettes sold. The total penalty against any such person shall not exceed \$100,000 during any 30-day period. A retail dealer, who knowingly sells cigarettes in violation of the testing requirements, shall also be subject to a \$100 civil penalty per pack sold, but the total penalty shall not exceed \$25,000 during any 30-day period. Any person who violates other provisions of this act shall be subject to a civil penalty of not more than \$1,000 for a first violation and not more than \$5,000 for subsequent violations.

When law enforcement or the State Fire Marshal discovers cigarettes that have not been certified or marked, he or she may seize the cigarettes, which shall then be destroyed. The holder of the trademark rights shall be allowed to inspect the cigarettes prior to destruction.

The department may conduct regular inspections of cigarettes to determine if they are marked properly. If they are improperly marked, the department shall notify the State Fire Marshal. The Attorney General, department, State Fire Marshal, and law enforcement personnel are authorized to examine the records of persons possessing, controlling, or occupying premises where cigarettes are stored or sold. Such persons are required to give such people the opportunity to make the permitted examinations.

This act creates the "Cigarette Fire Safety Standard and Firefighter Protection Act Fund", which shall consist of money collected under these provisions. The State Fire Marshal will administer the fund and the money will be used to support fire safety and prevention programs.

The State Fire Marshal shall review the effectiveness of this act and report his or her findings to the General Assembly every three years, including any legislative recommendations.

This act shall become effective on September 1, 2010.

This act is similar to HB 205 (2009).

SCS SBs 223 & 226

1331S.03C

SENATE SPONSOR: Goodman

SCS/SBs 223 & 226 - This act regulates sexually oriented businesses.

As of August 28, 2009, no person shall establish a sexually oriented business within 1000 feet of a preexisting school, house of worship, state-licensed day care, public library, public park, residence, or other sexually oriented business.

No person shall establish a sexually oriented business if a person with an influential interest in such business has been convicted of, or released from confinement, for certain crimes within the last eight years.

This act prohibits a person from knowingly appearing nude in a sexually oriented business. No employee of such a business shall knowingly appear in a semi-nude condition, unless he or she remains on a stage at least six feet from the patrons and at least eighteen inches from the floor in a room that is at least 600 square feet. Also, such employees appearing semi-nude shall not knowingly touch a patron or the clothing of a patron.

A sexually oriented business that exhibits films, videos, or other reproductions with an emphasis on displaying specified sexual activities or specified anatomical areas must comply with the following requirements:

1) the operator's station must have an unobstructed view of all areas where patrons are permitted except the restroom;

2) the operator's station must not exceed 32 square feet;

3) if more than one operator's station exists, there must be an unobstructed view of each area where patrons are permitted from at least one of the operator's stations;

4) the view from the operator's station must be by direct line of sight;

5) the operator shall ensure that at least one employee is on duty in the operator's station at all times patrons are there; and

6) the operator and employees must ensure that view areas remain unobstructed.

Sexually oriented businesses that do not meet the requirements for stages or interior specifications on August 28, 2009, shall have 180 days to comply. During such period, any employee who appears semi-nude shall remain at least six feet from all patrons.

No sexually oriented business shall be open between the hours of midnight and 6:00 a.m and no person shall knowingly sell, use, or consume alcohol on the premises. No person shall knowingly allow a person under the age of eighteen on the premises.

In order to violate the provisions of this act, the person must have committed such acts knowingly or recklessly. An act of an employee shall be imputed to the business, only if an officer or manager knowingly or recklessly allows such act to occur on the premises. A violation of this act shall be deemed a misdemeanor punishable by a fine not to exceed \$500 or imprisonment not to exceed 90 days. Any business repeatedly operated in violation of this act shall constitute a public nuisance and shall be subject to civil abatement proceedings.

Nothing in this act shall prevent a political subdivision from enacting local ordinances regulating sexually oriented businesses.

This act contains a severability clause.

This act is similar to HB 321 (2009).

SB 227 - Under current law, certain dangerous wild animals may not be kept unless they are registered with local law enforcement except if the animals are kept in a zoo, circus, scientific or educational institution, research laboratory, veterinary hospital or animal refuge. This act removes the exception for animal refuges. The act also adds the criteria that research laboratories and scientific and educational institutions must be accredited, veterinary hospitals must be permitted by the Missouri Veterinary Medical Board, and zoos must be accredited by the Association of Zoos and Aquariums in order for the exception to apply.

The act removes the margay, jaguarundi, coyote, and certain reptiles from the list of animals for which registration is required.

The act specifies that the law enforcement agency responsible for receiving the registrations is the chief law enforcement official in each county or in the City of St. Louis, or his or her designee.

Any such dangerous wild animal shall be registered within 5 days of being acquired or moved into any county or the city of St. Louis. The act adds the requirement that registration of such animals must be renewed annually.

The chief law enforcement official in each county or in St. Louis is required to maintain the registry of dangerous wild animals and make the registry available for disaster preparedness, emergencies, and to the general public via a website. The official can charge a registration fee to cover the administrative expenses associated with maintaining the registry not to exceed \$50 for a first registration or \$25 for a renewal registration. Animal refuges that operate as non-profit organizations are exempt from the fee provisions.

The act specifies the information that must be recorded as part of the animal's registration.

Any animal required to be registered under this act shall be identifiable by a microchip or other reliable identification device.

The act prohibits the bringing of any such dangerous wild animal to a public, commercial, or retail

establishment unless it is a veterinarian or veterinary clinic. The animals shall not come into contact with anyone other than the owner, possessor, handler, or veterinarian.

A violation of the act is a Class A misdemeanor.

The act is similar to SB 1032 (2008).

1109S.031

SENATE SPONSOR: Scott

SB 228 - The act creates the Missouri Clean and Renewable Energy Construction Act.

The act modifies the construction work in progress (CWIP) law to allow financing costs associated with the construction of certain types of "clean energy" and "low carbon-producing" power plants to be recoverable by an electric company through its customer rates prior to plant start-up. Eligible power plants include nuclear facilities, coal-fired power plants that minimize air emissions using carbon sequestration or similar techniques, and power plants that generate energy from renewable sources such as wind, solar, and biomass.

Subsidiary corporations created by an electric company for the purpose of building or operating a nuclear plant or low carbon-emitting coal-fired plant shall be considered and treated as the electric company under the act.

Electric companies may apply to the Public Service Commission (PSC) for a project development order, which is an order issued by the PSC establishing the prudence of an electric company's decision to incur preconstruction costs for a clean energy or low carbon-producing power plant. The act specifies the information required to be in the application and provides deadlines by which the PSC is supposed to respond to an application. All costs associated with preconstruction activities shall be recoverable through customer rates, unless it is demonstrated during a rate proceeding before the PSC that a cost was incurred imprudently by the electric company. If the electric company decides not to build the power plant after a project development order has been issued, the associated costs are still recoverable through customer rates, provided that the decision to not build the power plant is reasonable.

Electric companies may apply to the PSC for a facility review order, which is an order issued by the PSC that establishes the prudence of the anticipated construction costs to build a clean energy or low carbon-producing power plant. The act specifies the information required to be in the application, which includes the anticipated construction schedule, capital costs, and revised rate information.

The act lists information to be included in any facility review order issued by the PSC, which includes a construction schedule, components of capital costs including contingencies, return on equity, and various rate-related pieces of information. An electric company may petition the PSC to modify a facility review order. The act provides deadlines by which the PSC is supposed to respond to a facility review order application or to a request to amend a facility review order.

Provided that the electric company adheres to the construction schedule and costs listed in the facility review order, the electric company may recover the construction financing costs through customer rates. The PSC can disallow any construction cost that is shown during a rate hearing to have materially or adversely deviated from the facility review order to the extent that such deviation stems from imprudence on the part of the company. Deviations caused by forces or factors beyond the company's control shall not be considered imprudence on the part of the company.

The act provides that if the Clean and Renewable Energy Construction Act is modified in the future in such a way as to limit or prohibit construction financing costs to be recovered through rates, any costs incurred by an electric company up to that point shall still be recoverable.

Electric companies that have been issued a facility review order must report to the PSC semi-annually

until the power plant is in operation. The act lists information required in the report. The PSC shall monitor the construction of and expenditure of capital associated with building the power plant.

The act provides procedures for an electric company to request to revise its rates as it incurs additional construction costs. If the PSC finds that any previously approved rates resulted in an excess of revenue above the amount approved in the facility review order, the electric company shall credit its customers' bills over the subsequent 4 monthly billing cycles. Similarly, if any previously approved rates resulted in a recovery less than the amounts specified in the facility review order, the difference is recoverable from customers over the next 4 monthly billing cycles. Electric companies shall promptly notify their customers of any increase in rates approved by the PSC in a revised rate order for construction costs.

If construction of the power plant gets cancelled, the associated construction costs may still be recovered through rates, provided that the decision to cancel the construction is reasonable.

Once a power plant under a facility review order is constructed, the PSC shall audit the company's finances in relation to the project and its cost recovery for purposes of determining compliance with the facility review order. Any over- or under-recovery of costs shall be credited or charged, respectively, to the customers.

Procedures for re-hearing a PSC order are provided in the act.

The act restricts courts from hearing any matter over which the act expressly gives the PSC jurisdiction and restricts any state, regional, or local government from requiring any additional approval for the construction of a clean energy or low carbon-producing power plant beyond what is required in the act.

This act is similar to HB 554 (2009).

*** SB 235 ***

0247S.03P

SENATE SPONSOR: Cunningham

SB 235 - This act establishes procedures for converting manufactured homes into real property or from real property back to personal property. In order to be considered real property for conveyance purposes, the act requires a manufactured home to be permanently affixed to a permanent foundation and requires an affidavit to the affixation to be recorded with the recorder of deeds. The act sets forth what an affidavit of affixation must contain. For example, the affidavit must contain the street address and the legal description of the real estate to which the manufactured home will be permanently affixed. The affidavit of affixation shall also contain a statement as to whether or not the manufactured home is subject to security interests or liens. Additionally, the affidavit of affixation must be accompanied by a statement of whether or not the manufactured home is covered by a certificate of title.

An affidavit of affixation shall be acknowledged or proved in a manner so that the affidavit of affixation may be recorded and indexed. Once an affidavit of affixation has been recorded, the act requires a certified copy of the affidavit of affixation to be filed with the Department of Revenue. The certified copy of the affidavit of affixation must accompany the manufactured home owner's application for surrender of manufactured

certificate of origin, application for surrender of title, or application for confirmation of conversion.

The act establishes a process in which a manufactured home owner, who has permanently affixed his or her home to real estate, and has recorded an affidavit of affixation with the recorder of deeds, may surrender the manufacturer's certificate of origin or certificate of title to the manufactured home to the Director of Revenue. The manufactured home owner must fill out an application to surrender the certificate of origin or certificate of title. The act specifies what information the application must contain. If the director is satisfied with the surrender of a manufacturer's certificate of origin or certificate of title, the director shall cancel the certificate of origin or certificate of title and update the department's records. The act sets forth a similar process for applying for confirmation of conversion where an owner has permanently affixed a manufactured home to real estate, but does not possess a manufacturer's certificate of origin or a certificate of title (Section 700.111.).

Once these statutory steps have been followed, the manufactured home shall be deemed to be real estate and title to such home shall be transferred by deed as other interests of real estate are transferred. Once the manufactured home is considered real estate, the laws governing real estate shall apply to such home (Section 442.015).

The act requires an affidavit of severance to be filed when a manufactured home is detached or severed from the real estate to which it had been affixed. The affidavit of severance must contain a property description and any information that could affect the validity of the title to the manufactured home or the existence of a security interest or lien. The act sets forth steps to record the affidavit of severance and establishes a process for filing the affidavit of severance with the Department of Revenue (Section 442.015.10).

The act also establishes a process for obtaining a new certificate of title after a manufactured home has been detached or severed from real estate (real property to personal property)(Section 700.111.4).

The act prohibits the director from issuing a certificate of title to a manufactured home to which there has been recorded an affidavit of affixation. The director may only issue the certificate of title once an affidavit of severance has been recorded (Section 700.320.5).

The act requires the director of the Department of Revenue to maintain records of each affidavit of affixation and each affidavit of severance filed with the department.

The act provides that a purchase money security interest in a manufactured home is perfected against the rights of judicial lien creditors and execution creditors on and after the date the purchase money security interest attaches. The act further provides that after a certificate of title has been issued to a manufactured home and is subject to a security interest, the department shall not file an affidavit of affixation, cancel the certificate of origin, nor revoke the certificate of title (Section 700.350).

This act also modifies the definition of manufactured home contained in various provisions of the Revised Statutes of Missouri to match the definition contained in Missouri's Uniform Commercial Code (§400.9-102).

The act also modifies other provisions of Article 9 of the Missouri Uniform Commercial Code. The act provides that the perfection, priority, and termination of a security interest in a manufactured home perfected under the manufactured home titling provisions are governed exclusively under such provisions and not by the UCC Article 9 provisions. The act also clarifies that UCC Article 9 does not apply to a security interest in a manufactured home once the home has become real estate in accordance with the procedures set forth in the act (Sections 400.9-303 and 400.9-311).

This act also changes the definition of "Dealer" for purposes of the "Manufactured Home Installation Act" contained in Chapter 700 back to its pre-SB 788 version so that a dealer is a person who sells 4 or more manufactured homes in any consecutive twelve-month period (Section 700.650). The act also changes the term "licensee" to "registrant" in subsection 4 of section 700.100. These provisions are also contained in SB 214 (2009).

SENATE SPONSOR: Lembke

SB 236 - This act modifies Missouri's prompt pay law. Under the proposed act, the definition of health carrier is modified to include self-insured health plans. The act also amends the definition of "request for additional information" to mean a health carrier's electronic request for additional information from a claimant which specifies what information is needed in order to process the claim for payment. The act deletes the definition of the term "suspends the claim." Under the terms of the act, a health carrier must send an electronic acknowledgment of the date of receipt of an electronically filed claim by a health or a third-party contractor within one working day. Within 15 days (current law allows 10 working days) after receipt of a filed claim by a health carrier, the carrier must send an electronic notice of the status of the claim.

The act modifies the interest and penalty provision for failing to promptly pay a claim. Under the proposed act, if the health carrier has not paid the claimant on or before the 45th processing day from the date of the receipt of the claim, the carrier must pay the claimant 1.5% interest per month (current law is 1% per month) and a penalty in an amount equal to one-fifth of the claim per day. The interest and penalties cease to accrue on the day a petition is filed in court to recover payment on a claim. If a court determines that a health carrier has failed to pay a claim, interest, or penalty without good cause, the court shall enter judgment for attorney fees. If the court determines that a health care provider has filed suit without reasonable grounds to recover a claim, the court shall award the health carrier reasonable attorney fees related to the defense.

Under the terms of the act, any claim for which the health carrier has not communicated a specific reason for the denial shall not be considered denied under the prompt pay statutes. The act also provides that any request by a carrier for additional information shall be reasonable in scope and pertain solely to the carrier's determination of liability.

SCS/SBs 237 & 137 - This act creates a multistate nursing licensure compact for registered nurses and licensed practical/vocational nurses. This compact allows licensed registered nurses and licensed practical/vocational nurses to practice nursing in states which participate in the nurse licensure compact. All states wishing to participate in the compact must adopt articles of authorization listed by the act:

ARTICLE I - Finding and Declaration of Purpose;

ARTICLE II - Definitions;

ARTICLE III - General Provisions and Jurisdiction;

ARTICLE IV - Applications for Licensure in a Party State;

ARTICLE V - Adverse Actions;

ARTICLE VI - Additional Authorities Invested in Party State Nurse Licensing Boards;

ARTICLE VII - Coordinated Licensure Information Systems;

ARTICLE VIII - Compact Administration and Interchange of Information;

ARTICLE IX - Immunity;

ARTICLE X - Entry into Force, Withdrawal and Amendment; and

ARTICLE XI - Construction and Severability.

This compact does not relieve employers from complying with statutorily imposed obligations and does not supercede existing state labor laws.

This act is similar to SB 664 (2006) and HB 556 (2005).

SB 240 - Under the terms of this act, drivers for contract carriers that transport railroad employees must have a valid chauffeur's license (Class E license). Each contract carrier shall procure a recent driving record from each prospective driver. The contract carrier shall also conduct a review of the driving record of each applicant prior to his or her hiring. The act also requires contract carriers to maintain a personnel file on each driver who transports railroad employees.

Under the terms of the act, a contract carrier must limit the hours of service by a driver who transports railroad employees to 16 hours of total on duty time within any 24 hour period. A contract carrier that transports railroad employees shall require a driver who has 12 hours of actual vehicle operation within any 24 hour period or 16 hours of total on duty time within any 24 hour period to have at least 8 consecutive hours off duty before operating a vehicle under their employ again.

Under the act, a contract carrier who transports railroad employees shall maintain individual daily time records for a minimum of 6 months indicating the times all for-hire motor carrier drivers employed by them reported for duty, the corresponding times of relief from duty, total time driven each day, total time on duty each day, and total time off duty for each day. All records required to be maintained under this section shall be made available for inspection by the department of transportation.

The act requires each contract carrier to maintain liability insurance in an amount not less than \$1,500,000 for each vehicle used to transport railroad employees.

This act is similar in many respects to SB 1265 (2008).

SB 241 - This act makes various modifications to Missouri tax law. The act:

(1) Decouples Missouri's income tax from the federal income tax code. The act adopts the IRC as it was written January 1, 2004 (Section 143.091);

(2) Reinstates the decoupling from the federal accelerated depreciation and makes it permanent (Section 143.121);

(3) Eliminates the timely filing discount for employers who withhold their employees' income tax (Sections 143.225 & 143.261);

(4) Modifies the way losses and operating expenses are deducted among parties for various types of property, including intellectual property. Minimum standards are established regarding what connections among various corporate entities constitute related parties and affiliated groups for multi-state corporate income tax purposes. Under this provision, the entire profit of a unitary group will be aggregated and then divided among the members of the group. This allocation will be based upon the relative incomes of the members, without regard to intra-group transfers of these certain targeted operating expenses ("Geoffrey" scenario). The effect of this provision will be to eliminate income classified by the courts as "non-Missouri source income" (Sections 143.431 & 143.434);

(5) Eliminates the filing of single factor apportionment for multi-state income tax calculations (Sections 143.431, 143.451, 143.461, & 143.471);

(6) Restricts the current definition of "common carrier" for purposes of qualifying for a state and local sales and use tax exemption (Sections 144.010 & 144.030); and

(7) Prohibits retailers from obtaining refunds of sales and use taxes without crediting the original purchasers. In the case of over-collections of less than \$1,000, such over-collections may be refunded without the higher burden of returning the funds to the purchaser. The \$1,000 threshold is an aggregate sum over a five-year period. In the alternative, a retailer, upon submission of an approved plan by the Director of the Department of Revenue, may offer fixed value coupons to customers to satisfy the distribution of the over-collections.

The act has an effective date of September 1, 2009.

This act is similar to Senate Bill 743 (2008), Senate Bill 642 (2007), Senate Bill 717 (2006) & Senate Bill 360 (2005).

SCS/SB 249 - The Secretary of State has the authority to establish a special handling and expedited services program. These services allow customers to purchase services that guarantee rapid processing on filings or other special handling.

A limited liability corporation may electronically file its original articles of incorporation for a fee of \$45 rather than the \$100 currently required for paper filings.

The act defines responsible persons for the purposes of tax liability for limited liability companies. The act eliminates certain duplicate filing requirements for articles of acceptance, articles of merger, and resignation of agents for nonprofit corporations.

If the general partners of a limited partnership withdraw and the remaining partners decide to continue the partnership, the act allows a new general partner to sign the certificate of amendment and attest to the specific event of withdrawal.

Currently, the Secretary of State may revoke the certificate of authority of a foreign corporation if the corporation fails to deliver its annual report within 30 after it is due. This act changes that time to 90 days after the corporate registration report is due.

This act allows a corporation to change the filing month for its corporate registration report in return for an additional \$20 filing fee. Corporations may also opt to file the corporate registration report biennially rather than annually. The filing fee for choosing this option will be twice the fee currently required for filing annually. The Secretary of State may collect an additional \$10 fee, for deposit in the Secretary of State technology fund, for each biennial report. If the corporate registration report is not filed within 90 days, the Secretary of State may proceed with corporate dissolution.

This act is similar to SB 875 (2006), SB 368 (2007), HB 1923 (2008), SB 1062 (2008), SB 214 (2007), SB 940 (2008), and SB 199 (2009).

SB 250 - This act requires the Department of Corrections to develop a comprehensive policy to provide HIV testing, treatment, and prevention for inmates. The policy shall include testing and counseling upon intake, pretest and post-test counseling, HIV/AIDS prevention education, HIV testing upon request, HIV testing of pregnant women, comprehensive treatment, protection of confidentiality, opt-out provisions, exposure incident testing, timely notification of test results, and testing, counseling and referral prior to reentry.

Inmates shall be allowed to obtain HIV tests upon request once per year or whenever an inmate has reason to believe he or she has been exposed to HIV.

Medical personnel shall provide inmates who test positive for HIV with timely comprehensive medical treatment, confidential counseling, and voluntary partner notification services. They shall discuss treatment options, the importance of antiretroviral therapy, and the side effects of medications. Personnel shall ensure that the facility formulary contains all FDA-approved medications necessary for comprehensive treatment and the facility is adequately supplied.

All inmates, except those who have already tested positive for HIV, shall be tested no more than three months prior to release, unless the inmate's release occurs without sufficient notice to the department to allow medical personnel time to perform such testing. Inmates shall have the right to refuse such routine HIV testing and shall be informed of such right orally and in writing. However, an inmate shall be tested, with or without consent, if there has been a possible transmission of HIV to any medical personnel, correctional staff, or other inmate.

Upon release, inmates who already tested positive shall receive confidential prerelease counseling, referrals to appropriate health care providers and social service agencies, and a thirty-day supply of necessary medications.

By February 1, 2011, the department shall provide a report annually to the governor and general assembly regarding the department's policies and procedures on testing, treatment, and prevention programs and to report statistical data on HIV/AIDS among the inmate population.

SB 254 - This act creates a state income and corporate franchise tax credit for qualifying milk production. Beginning January 1, 2010, and the first day of each month thereafter, the director of the Department of Agriculture must report and make public the announced production price of milk for the state of Missouri based upon a three factor formula. The tax credit will only be available when the announced production price for the state exceeds the average Federal Uniform Price for Missouri. The amount of the credit will be based upon the difference in the announced production price for the state and the average Federal Uniform Price per one hundred pounds of milk produced in any month the credit is available. The tax credit is non-refundable, non-transferrable and valid only against the state tax liability for the tax year of issuance. The amount of tax credits annually available to taxpayers for qualifying milk production will depend upon the amount of tax credits which remain unissued, as of a date certain each year, under certain existing tax credit programs. The milk producer tax credit sunsets two years from the effective date of the act unless re-authorized by the General Assembly.

*** SB 256 ***

1337S.01P

SENATE SPONSOR: Schaefer

SB 256 - Under this act, a county is not required to obtain bids on purchases of \$6,000 or less. Currently, such amount is set at \$4,500.

Under current law, counties may waive competitive bidding when the County Commission determines that there is only one feasible source for the supply. This act requires counties to post notice on such proposed purchases of over \$6,000 and advertise the commission's intent to make such purchase in the newspaper at least ten days in advance. Currently, the commission must post notice for such proposed purchases of at least \$3,000 and also advertise in the newspaper for such purchases of at least \$5,000.

This act creates the "Political Subdivision Services Bidding Standards Act". Contracts for services by any political subdivision shall be advertised and bids solicited and awarded in compliance with any federal, state, and local law specifically written for such political subdivision. If a political subdivision is not covered by a specific federal, state, or local law, it shall comply with the advertising and bidding requirements outlined in this act when soliciting bids and awarding contracts.

Contracts for services shall be advertised in advance of the acceptance of bids, once per week for four consecutive weeks, with the first ad appearing at least 30 days in advance of the stated deadline for acceptance of bids. For contracts worth over \$50,000, bids shall also be advertised by providing information to at least one organization which regularly provides information to contractors providing the service needed. Ads and solicitations must include the submission deadline.

Unless otherwise specified by law, a contract shall be awarded to the lowest qualified responsible bidder. The bidder's qualification shall be determined by his or her education and training. However, the political subdivision may reject the low bidder based on the bidder's failure to provide a performance or payment bond, nonperformance on previous contracts, or other reasons specified as to the bidder's inability to adequately perform the contract. The reason for rejection shall be provided to the bidder within five business days of the rejection.

No contract shall be awarded in violation of certain requirements, including opening bids in advance of the advertising deadline, accepting bids that are unwritten, accepting bids after the advertised deadline, and failing to hold bids confidential. A person submitting a bid, or who would have submitted a bid except for such violations, may seek equitable relief and monetary damages for monetary losses.

Electronic bidding shall be allowed if it meets the standards of confidentiality. Nothing in this act shall require acceptance of a bid which exceeds the amount estimated by the political subdivision for the contract. Nor shall the act prohibit a political subdivision from contracting without bidding if there is an immediate danger to the public; however, the political subdivision shall produce a written public record documenting the

need to contract for such services without competitive bidding.

These provisions shall not apply to contract negotiations for architectural, engineering, or land surveying services, as provided under Sections 8.285 to 8.291, RSMo.

This act is similar to SB 1254 (2008) and SB 102 (2009).

SB 260 - This act establishes the Compassionate Assistance for Rape Emergencies (CARE) Act and provides that hospitals and health care facilities are required to do the following:

- provide each sexual assault victim with medically and factually accurate information about emergency contraception;
 - orally inform each victim that emergency contraception may be provided at the hospital;
 - provide the complete regimen of emergency contraception immediately to the victim who requests it;
- and
- follow the Department of Justice protocols on HIV/STI screening and prophylactic treatment.

Hospitals and health care facilities must ensure that they provide their employees with medically and factually accurate information about emergency contraception. The department shall develop, prepare, and produce informational materials relating to emergency contraception to hospitals and health care facilities. The informational materials must be medically and factually accurate, clearly written, and explain the nature of emergency contraception.

The department shall respond to complaints and shall periodically determine whether hospitals and health care facilities are in compliance. If a hospital or a health care facility is not in compliance, then the department shall impose an administrative penalty of \$5,000/per woman who is denied information or emergency contraception and a fine of \$5,000 for failure to comply with the provisions of this act. For every 30 days that a hospital or health care facility is not in compliance, an additional administrative penalty of \$5,000 shall be imposed.

This act is substantially similar to provisions in SB 1215 (2008).

SCS SBs 261, 159, 180 & 181

1517S.04C

SENATE SPONSOR: Bartle

SS#3/SCS/SBs 261, 159, 180 & 181 - This act modifies provisions relating to crime.

SECTION 84.830

Currently, Kansas City police officers and department employees are prohibited from belonging to a political party committee or serving as a ward committee person. Under this section, such officers and employees shall instead be prohibited from holding a partisan political office. This section repeals the provision of law which currently prohibits any Kansas City police officer or department employee from making contributions of any kind for political activity. Kansas City police officers and department employees shall be prohibited from soliciting any person to vote for or against any political candidate, party, or organization only while on duty, in uniform, or wearing clothing with any symbol, insignia, or words indicating his or her employment with the department.

This section also repeals the provision which prohibits any person from soliciting a police officer or a member of the police board for any political purpose. Currently, officers are prohibited from allowing

solicitations for contributions in police facilities. This section would also prohibit them from performing such solicitations in police facilities.

This section is similar to SB 18 (2007) and identical to SCS/SB 189 (2009).

SECTION 173.754

This section prohibits a person from using or attempting to use a false or misleading diploma, as described in the section, in connection with admission to an institution of higher education, or in connection with any business, employment, occupation, profession, trade, or public office. A violation of this section is a Class C misdemeanor.

This section is identical to SB 182 (2009).

Section 174.00

This section allows university police officers to respond to emergencies or natural disasters outside of the boundaries of the university property and provide services if requested by the law enforcement agency with jurisdiction.

SECTIONS 195.214, 195.217, 195.218, 566.147 & 566.149

These sections specify that knowledge of one's location is not necessary to commit certain criminal acts, including drug distribution near a school, park, or public housing or residence or loitering near a school by a sexual offender. Also, the definition of "resides" is removed from Section 566.147, RSMo, restricting certain sexual offenders from residing within 1,000 feet of a school or child-care facility.

SECTIONS 273.033, 273.036, 578.022, & 578.024

Under these sections, a person has an absolute defense against civil liability or criminal prosecution for killing or injuring a dog, if such person's actions were based on the reasonable belief that he or she, or another person, was in imminent danger of being harmed by the dog. It is prima facie evidence that a person considered himself to be in "imminent danger" from a dog if the person had complained at least twice to the county sheriff or animal control authority that the dog had trespassed on his property, and on at least one of those occasions the person was in reasonable apprehension for his own safety, the safety of another person, or feared damage to livestock or property. County sheriffs and animal control authorities shall notify any dog owner about a trespassing complaint made against his or her dog. A court shall award all reasonable costs to the defendant in any such suit if evidence shows the defendant is entitled to the absolute defense as described. A person engaging in criminal activity at the time of an imminent danger dog threat shall not be entitled to the absolute defense created by these sections.

The owner or possessor of a dog that bites, without substantial provocation, a person while such person is on public property or lawfully on private property shall be strictly liable for damages to the bitten individual. Owners or possessors of such dogs shall also be strictly liable for any damage incurred to property or livestock by their dogs. If it is determined that the damaged party had fault in the incident, any damages owed by the owner or possessor of the biting dog shall be reduced by the same percentage. This shall not apply to dogs killing sheep or other domestic animals. If a dog owner or possessor is found liable by a court for such damages, the owner or possessor shall also be assessed a fine up to \$1,000.

When a dog that has previously bitten a person or domestic animal without provocation, subsequently bites a person again, the owner or possessor shall be guilty of a Class B misdemeanor. However, if the offense results in serious injury it shall be a Class A misdemeanor and if the previous biting episode also resulted in serious injury, it shall be a Class D felony. If the offense results in death it shall be a class C felony. Any such dog, or a dog that inflicts serious injury or death on the first biting occasion, shall be seized by the animal control authority or county sheriff who shall notify the dog's owner in writing. The dog shall be impounded for ten business days after notice has been provided to the owner, after which time the dog shall be destroyed. Appeal procedures are provided in these sections.

These provisions do not apply to dogs that bite a person while such person is engaged in criminal activity at the time of attack. Certain instances of trespassing are not considered "criminal activity". Dogs owned or utilized by a law enforcement agency who bite in the course of their employ are exempt from these provisions.

These sections are similar to SB 184 (2009).

SECTION 306.109

This section prohibits certain activities from being committed on the rivers of this state, except for the Missouri, Mississippi, and Osage rivers.

Such activities shall include:

- 1) Possessing or using beer bong or other devices intended for rapid consumption of alcohol;
- 2) Possessing or using any large volume alcohol containers that hold more than one gallon; and
- 3) Possessing certain coolers on or within fifty feet of any such river, unless in a campground, picnic area, landing, road, or parking lot.

Violation of these provisions is a class A misdemeanor.

This section is similar to SCS/SB 2 (2009).

SECTION 556.036

This section makes the statute of limitations five years, rather than three years, for the crimes of knowingly burning or exploding, arson in the second degree, and cases of arson in the first degree when the penalty is a class B felony.

SECTION 561.021

This section provides that a person who is convicted of a felony is ineligible to qualify as a candidate for public office or hold public office.

SECTION 566.155

This section prohibits certain sexual offenders from serving as an athletic coach, manager, or trainer for any sports team in which a child younger than 17 years of age is a member. Any person violating this provision will be guilty of a class A misdemeanor for the first offense and a class D felony for a second or subsequent offense.

This section is identical to HB 106 (2009).

SECTION 566.226

Currently, any identifying information in a court record that could be used to identify the victim of sexual assault, domestic assault, stalking, or rape shall be closed and redacted prior to public disclosure. This section gives the judge presiding in such cases discretion to publicly disclose information regarding the defendant, which could be used to identify the victim. The victim may provide the court with a statement regarding whether he or she wishes such information to remain closed. The judge shall consider the welfare and safety of the victim and the victim's statement when deciding to disclose the information.

SECTION 570.030

This section modifies the definition of livestock in terms of what is considered a punishable offense for stealing. Under current law, it is a Class C felony to steal a horse, mule, ass, cattle, swine, sheep, or goat. This section adds calves, ratite birds (which include ostrich and emu), farm-raised fish, llamas, alpaca, buffalo, elk, and rabbits to the list of livestock for which it is a Class C felony to steal.

The section makes it a Class C felony to steal captive wildlife held under permit issued by the conservation commission, but it shall be a Class B felony in cases where there has been a similar prior conviction and if the value of the stolen animals exceeds \$3,000.

Any person who pleads guilty to or is found guilty of stealing livestock or captive wildlife held under permit issued by the conservation commission valued at over \$3,000 and who has a prior conviction for stealing such animals shall serve at least 80% of his or her prison sentence before being eligible for probation, parole, or release.

SECTIONS 570.040

This section revises the term "stealing-related offense" as it is used in Section 570.040, RSMo, to include robbery. The section removes the requirement that a person must have received at least a 10-day jail sentence on a prior offense before a third or subsequent misdemeanor stealing-related offense can be

enhanced to a Class D felony. It also specifies that a person who has previously pleaded guilty to or been found guilty of two stealing-related offenses which were committed on two separate occasions, and who subsequently pleads guilty to or is found guilty of a stealing-related offense is guilty of certain felonies depending on the nature of such stealing-related offense.

This section is identical to HB 1473 (2008) and SB 200 (2009).

SECTIONS 573.020, 573.023, 573.025, 573.030, 573.035, 573.037, 573.040, 573.060, and 573.065

Currently, a person must know the contents and character of the obscene material or child pornography involved in a pornography offense in order to be found guilty. Under these sections, a person no longer needs to know the content and character of the material in order to be found guilty.

Under these sections, a person is guilty of sexual exploitation of a minor, possession of child pornography, or public display of explicit sexual material if such offenses are committed knowingly or recklessly, rather than being committed with knowledge of the content and character of the material that is the subject of the offense.

SECTION 575.150

This section expands the crime of resisting arrest, stop, or detention to include resisting an arrest for a warrant issued by a court or probation and parole officer. The crime of resisting arrest shall be Class D felony for an arrest for a warrant issued for failure to appear on a felony case or a warrant issued for a probation violation on a felony case.

This section provides that it is not a defense to prosecution of a resisting arrest, stop, or detention offense that a court later determines that the arrest was made without valid probable cause.

This section is similar to SB 1238 (2008) and SB 221 (2009).

SECTION 577.023

This section redefines the term "intoxication-related traffic offense" to include certain traffic offenses involving alcohol regardless of whether the defendant was represented by or waived the right to an attorney in writing. This term is used in the provisions providing enhanced penalties for persons who commit multiple intoxication-related traffic offenses.

This section allows the court, as a condition of probation or parole, to require certain persons convicted of intoxication-related traffic offenses to submit to alcohol monitoring in certain circumstances instead of serving a more lengthy sentence.

The term "continuous alcohol monitoring" means automatically testing alcohol concentration levels and tampering attempts, regardless of the location of the person wearing the device, at least once each hour and regularly transmitting the data.

In addition to other terms of probation or parole, a court shall consider requiring an offender convicted of an intoxication-related traffic offense to abstain from consuming alcohol as demonstrated by continuous alcohol monitoring or verifiable breath alcohol testing performed a minimum of four times per day for a length of time established by the court.

Although an aggravated offender is not eligible for probation or parole for 60 days, the court may suspend execution of up to 30 days of such term if, as a condition of probation and parole, the person abstains from drinking alcohol as demonstrated by continuous alcohol monitoring or verifiable breath alcohol testing performed a minimum of six times per day for not less than 60 days but not more than 120 days.

A chronic offender is not eligible for probation or parole until he or she has served two years of imprisonment; however, the court may grant probation if the person qualifies for the one hundred twenty day shock treatment program and he or she, as a condition of probation, abstains from drinking alcohol as demonstrated by continuous alcohol monitoring or verifiable breath alcohol testing performed a minimum of six times per day for not less than 6 months but not more than 2 years.

This section also repeals one version of Section 577.023, RSMo, which is currently doubly-enacted.

This section contains an emergency clause.

This section is similar to SB 861 (2008), SB 192 (2009) & SB 219 (2009).

SECTION 577.029

This section repeals §577.029 as it passed in HB 574 (2007) and reenacts it as all new language.

This section contains an emergency clause.

SECTIONS 578.025, 578.026, & 578.030

These sections increase the penalty for being a spectator at a dog fighting event from a Class A misdemeanor to a Class D felony for a second or subsequent offense.

A person performing a lawful seizure because of a dog fighting violation, whether acting under the authority of a warrant or not, shall be given a disposition hearing within 30 days of the filing of the request in order to grant immediate disposition of the impounded dog. The person seizing the dog shall place it in the care of a veterinarian, animal shelter, or animal control authority. If such people are not available, the dog shall not be impounded unless diseased or disabled. The dog shall be humanely killed if a veterinarian determines the dog is diseased or disabled beyond recovery. No person who lawfully seizes a dog shall be liable for necessary property damage.

Owners of an impounded dog may prevent disposition of the dog by posting bond in an amount sufficient to cover the dog's care for 30 days. The authority with custody may dispose of the dog at the end of such time unless there is a court order prohibiting it. The court order shall provide for a bond or other security in an amount to cover the cost of care, keeping, or disposal of the dog.

The owner of a dog humanely killed under these sections shall not be entitled to recover damages for the value of the dog if it was found by a veterinarian to be diseased or disabled or if the owner failed to post bond for its care and disposition after being notified of the impoundment.

These sections continue to allow highway patrol officers and other law enforcement officers making an arrest to take possession of a dog subject to a dog fighting violation; however, it repeals the provision requiring the court to order an officer to keep such dogs until the final decision of the court on the charges.

These sections are similar to SB 201 (2009) and SB 201 (2009).

SECTION 578.255

This section prohibits any person from possessing or using an alcoholic beverage vaporizer. Such a vaporizer is defined as "any device which, by means of heat, a vibrating element, or any other method, is capable of producing a breathable mixture containing one or more alcoholic beverages to be dispensed for inhalation into the lungs via the nose or mouth or both." Also, no person shall intentionally induce or abuse solvents or ethyl alcohol. A violation of these provisions is a Class B misdemeanor.

This section does not apply to substances that are FDA-approved or administered by a medical practitioner.

These provisions shall not be construed to prohibit the legal consumption of intoxicating liquor, including wine and beer, and nonintoxicating beer.

This section is identical to SB 26 (2009).

SECTION 590.701

This section requires custodial interrogations of persons suspected of certain serious offenses to be recorded when feasible unless certain exceptions exist. Each law enforcement agency shall adopt a written policy regarding such interrogations. Law enforcement agencies are permitted to record an interrogation in any circumstance with or without knowledge or consent of the suspect.

"Custodial interrogation" means the questioning of a person under arrest, who is no longer at the scene of a crime, by a member of the law enforcement agency along with the answers and other statements of the person questioned. The term does not include: 1) situations where the person voluntarily agrees to meet with law enforcement, 2) detention by law enforcement that has not risen to the level of an arrest, 3) questioning that is routinely asked during the processing of the arrest of the suspect, 4) questioning pursuant to an alcohol influence report, and 5) questioning during the transportation of the suspect.

If a law enforcement agency fails to comply with these provisions and acts without good faith, the Governor may withhold any state funds received by the agency.

This section is identical to SB 310 (2009).

SECTIONS 595.010, 595.015, 595.020, 595.025, 595.027, 595.030, 595.035, 595.037, 595.040, 595.045, 595.060, 595.220, & 191.225

Under Executive Order 07-07 (2007), the administration of the Crime Victims' Compensation Fund was transferred from the Department of Labor and Industrial Relations to the Department of Public Safety. The act would reflect such transfer in statute.

Under this act, the Department of Public Safety may receive gifts for the benefit of crime victims, which shall be credited to the Crime Victims' Compensation Fund.

This act provides that compensation from the fund shall not be paid to a victim injured while subject to electronic monitoring in the same manner as persons who are incarcerated or under house arrest.

Upon request, pharmacists shall submit information to the department to provide verification of victims' injuries in the same manner as other medical providers.

Also, under executive order, the Department of Public Safety makes payments to medical providers to cover the charges of the forensic examinations of sexual assault victims, rather the Department of Health. This act would reflect such transfer of responsibility in statute. This act also specifies that medical providers shall use collection procedures developed for victims who are minors when appropriate. Also, the medical provider's report of a forensic examination shall no longer be filed with the prosecuting attorney within three days.

This act provides that compensation under the crime victims' compensation fund must be for reasonable expenses, and if such expenses are medical, they must be medically necessary. It also specifies that payment for forensic examinations to medical providers must be for reasonable and medically necessary charges. Under this act, claims for forensic examination charges by medical providers must be made within 90 days. Also, for consideration of such claim by the department, the alleged sexual offense must have occurred in Missouri and the examination charges submitted must be itemized and fall within the definition of a forensic examination.

This act is similar to SB 332 (2007) and identical to SCS/SB 338 (2009).

SB 263 - Currently, the Seismic Safety Commission is comprised of two legislative members and fifteen other members with each member representing one of fifteen different professions. This act removes the requirement that each member shall represent one of the enumerated professions and adds public education as one of the professional areas from which the membership may be chosen.

Currently, a quorum shall consist of nine members. Under the act, a quorum shall consist of a majority of appointed members and may be met by electronic attendance and non-voting participation of the staff of the legislative members.

SENATE SPONSOR: Mayer

SB 264 - This act modifies the informed consent requirements for an abortion by adding new requirements to be obtained at least twenty-four hours prior to an abortion. Some of the new requirements include presenting to the pregnant woman various new printed materials and videos, to be developed by the Department of Health and Senior Services by November 30, 2009, detailing the risks of an abortion and the physiological characteristics of an unborn child at two-week gestational increments. The woman must also

be provided with the gestational age of the unborn child at the time the abortion is to be performed and must be given an opportunity to view, at least 24 hours prior to an abortion, an active ultrasound of the unborn child and hear the heartbeat of the unborn child, if the heartbeat is audible. Prior to an abortion being performed past twenty-two weeks gestational age, the woman must be provided information regarding the possibility of the abortion causing pain to the unborn child. The materials presented to the woman shall also prominently display a statement that no one can coerce the woman to have an abortion and that it is against the law for a husband, a boyfriend, a parent, a friend, a medical care provider, or any other person to coerce her in any way to have an abortion.

In addition to the written informed consent, the act requires the physician or a qualified professional to discuss the medical assistance and counseling resources available, advise the woman of the father's liability for child support, and provide information about the Alternatives to Abortion Program. All information required to be provided to a woman shall be presented to her individually in the physical presence of the woman. The abortion cannot be performed until the woman certifies in writing on a checklist form that she has been presented all the required information and that she has been given the opportunity to view an ultrasound, and to choose to have an anesthetic or analgesic administered to the unborn child.

This act also creates the crime of knowingly coercing a woman to seek or obtain an abortion. Such coercion includes committing or threatening to do the following against a pregnant woman or her family: assault, domestic assault, stalking or aggravated stalking, or any other criminal offense, as well as committing, attempting or threatening to: forcibly or without the pregnant woman's knowledge causing a woman to ingest a substance with the intent to cause an abortion, discharging the woman from her employment, or revoking a scholarship awarded to the woman. A violation of coercing an abortion may range from a Class A felony to a Class A misdemeanor, depending on the prescribed circumstances. This act also creates the crime of knowingly performing, inducing or assisting in an abortion on a woman who is a victim of coerced abortion. The elements of the crime are specified in the act and a violation of such crime constitutes a Class C felony.

This act is substantially similar to SB 1058 (2008) and HCS/HBs 1831 & 1472 (2008).

SB 267 - This act modifies various provisions relating to real estate liens.

This act creates forms to be used to execute valid lien waivers. Forms for a conditional and unconditional waiver and release upon progress payment and a conditional and unconditional waiver and release upon final payment are established. This section governing the form of valid lien waivers becomes effective January 1, 2010.

Currently, architects, engineers, landscape architects, land surveyors, and corporations registered to do the work of these professions who perform work on buildings or land have a lien on the building or land to the extent of one acre. This act increases the lien to encompass three acres.

Attorneys' fees for actions to enforce liens shall be levied against the property charged with the lien. When the debtor has not been served a summons and not appeared but has been notified by publication a successful plaintiff in the action shall also recover interest.

If the owner of the property that is the subject of the lien conspicuously posts notice containing certain information about the owner, owner's agent, original contractor and architect, a material supplier or any subcontractor shall provide certain notice to the owner in order to have payment of its award of attorneys' fees secured by the mechanic's lien levied against the owner's property. Original contractors whose contract is with the owner of the property is not required to provide notice to the owner to secure attorneys' fees.

This act is similar to SB 1074 (2008).

SENATE SPONSOR: Rupp

SB 269 - This act modifies various provisions of Missouri's captive insurance company law. Under this act, the definition of "association" is amended to include captive insurance companies formed as reciprocal insurers. The act amends multiple sections of the captive insurance law to permit reciprocal insurers to be used to form an association captive.

This act repeals the requirement that a captive insurance company must hold at least 35% of its assets within Missouri (Section 379.1302). The act expressly provides that association captive insurance companies and industrial insured captive insurance companies may be organized as reciprocal insurers as provided by law. The act provides that the organizers of a reciprocal insurer must petition the director for its formation. The act provide that the captive insurance company statutes shall control in cases of conflict between them and the reciprocal insurance statutes. The act further modifies the law to permit a non-U.S. or alien captive to redomesticate to Missouri if approved by the director (Section 379.1310).

Under the terms of the act, the premium taxes imposed on captive insurance companies are redirected. Under the act, 90% of the taxes are deposited into the general revenue fund, while the remaining 10% are credited to the Insurance Dedicated Fund (Sections 379.1326 and 379.1332). The act contains a similar provision for the disposition of premium taxes assessed on special purpose life insurance captive companies (Section 379.1412).

Under the act, an association captive insurance company or an industrial insured captive insurance company may be converted into or merged with and into a reciprocal insurer. Under the act, any conversion or merger must provide a fair and equitable plan for purchasing the interests of the stockholders and policyholders of the stock or mutual insurer. The act sets forth the statutory steps that must be followed in order to complete a conversion or a merger (Section 379.1339).

This act reduces the number of Missouri residents required to incorporate or organize a special purpose life reinsurance captive from two to one (Section 379.1373).

The act modifies the method in which the assets of a special purpose life reinsurance captive are valued. The act allows letters of credit, financial guarantee policies and surety bonds to be recognized as assets of a special life reinsurance captive regardless of the existence of any repayment obligations imposed upon the captive (Section 379.1388).

SENATE SPONSOR: Bray

SB 271 - This act enables senior citizens, fifty-nine and a half years or older, and disabled persons to delay paying property taxes on their residences. The act establishes eligibility criteria for the taxpayer and the property for participating in the deferral. Taxpayers desiring deferral of property taxes must file an application with the county assessor who will forward such application to the department of revenue for a determination of eligibility. If the application is approved, the Department of Revenue must notify the county assessor who will make a notation on the tax rolls identifying the property as tax-deferred.

Each year, the Department of Revenue will allocate funds, from the newly created property tax deferral revolving account to each county with properties subject to tax deferral, in an amount equal to the taxes deferred within each such county. All deferrals of tax will result in a lien, to be held by the Department of Revenue, against the property of the taxpayer which must be recorded in the mortgage records of the county in which the property is located. The lien will be for the amount of the property tax as estimated by the Department of Revenue plus interest to accrue at six percent per annum. The taxes plus interest, must be paid when the owner dies or sells the property, moves, or the property changes ownership.

This act is similar to Senate Bill 594 (2006), Senate Bill 32 (2007), and Senate Bill 1213 (2008).

SENATE SPONSOR: Bray

SB 282 - This act creates statutory warranties for home buyers and homeowners and also prevents home solicitors from engaging in certain deceptive practices.

This act prohibits certain unfair or deceptive practices relating to home improvement loans to the consumer. It prohibits home solicitations where a home improvement loan is made encumbering the person's home to pay the loan and where the practice violates federal law. Violation of this provision constitutes a

Class A misdemeanor.

Three new-home warranties are created by this act. The first covers new homes against faulty workmanship and defective materials due to noncompliance with building standards for a three-year period. The second warranty covers new homes against faulty installation of plumbing, electrical, heating and cooling systems for a five-year period. The third warranty covers the home against major construction defects (foundation) for a ten-year period. These warranties are extended to subsequent purchasers of the home.

The act also creates three warranties for home improvement work. Home improvement contractors must warrant that the improvements made will be free from defects caused by faulty workmanship and defective materials due to noncompliance with building standards for a two-year period. Contractors must guarantee that the home improvement will be free from major construction defects for a ten-year period. Improvements involving plumbing, electrical, heating and cooling systems must be guaranteed to be free from defects for a period of two years.

Damage covered under the warranties must be reported to the home seller or home improvement contractor within 6 months of discovery of the damage. The act lists types of damage not covered under the warranties.

The warranties cannot be modified by contract, except as provided in the act.

If a home vendor or a home improvement contractor violates these implied warranties then the homeowner may bring a cause of action against the violator for actual damages. The court shall also award the homeowner court costs and reasonable attorney fees. If the breach of the warranties was willful or deceitful, the court may also assess punitive damages.

This act is identical to SB 913 (2008) and similar to SB 123 (2007) and SB 1170 (2006).

SB 284 - Currently, upon approval of the board of aldermen, a fire department employee shall not be required to live within the department boundaries if the only public school district in the area has been unaccredited or provisionally accredited in the last five years of the person's employment. This act removes the need for the board of aldermen's approval.

The act removes the provision allowing the voters of St. Louis City to prevent: 1) the enactment of these provisions in the city, and 2) requiring the employees of the city to forfeit 1% of their salaries in order to reside outside of the city.

This act is identical to HB 416 (2009).

SB 290 - This act makes enrollment in the state deferred compensation program automatic for those state employees eligible for the plan hired on or after September 1, 2009. Contributions shall be effective on or after the first day of the month following the date of hire and shall be at least twenty-five dollars a month. Employees who do not want to contribute to the program may opt out of automatic enrollment, and at a later date decide to participate. The contribution rate for employees who are automatically enrolled adjusts automatically based on any increase in the state contribution that occurs after automatic enrollment. Employees who are automatically enrolled can change the amount of contribution. Employees of state colleges or universities would not be automatically enrolled.

On or after September 1, 2009, if a participant in the deferred compensation plan or the 401(a) plan established in section 105.927 is married, their surviving spouse will be automatically designated as their primary beneficiary, unless the surviving spouse consented in writing to allow the participant to designate someone else as their beneficiary. This automatic beneficiary designation does not apply to designations made prior to September 1, 2009.

The deferred compensation board is also authorized to adopt and amend plan documents to change terms and conditions of the deferred compensation plan that are consistent with federal law.

The act also allows the state treasurer to credit funds through a local payroll for qualified participants who are compensated from a local payroll system.

SS SB 291

1475S.04P

SENATE SPONSOR: Shields

SS/SB 291 – This act modifies provisions relating to education.

JOINT COMMITTEE ON EDUCATION: During the legislative interim from May 2009 and January 29, 2010, the Joint Committee on Education must study the issue of open enrollment. It must submit a report of its findings, and any recommendations for legislative action, by December 31, 2009. (Section 160.254)

MISSOURI SENIOR CADET PROGRAM: This act creates the Missouri Senior Cadet Program, which will

provide opportunities for twelfth graders in public school to mentor kindergarten through eighth grade students as described in the act. Participating students must be Missouri residents attending a Missouri high school, maintain a 3.0 GPA and plan to attend college. Twelfth graders who donate ten hours per week during the academic year will receive one elective credit that may be used to fulfill graduation requirements. If a student attends a public college or university located in Missouri after participating in the program, the state will provide a reimbursement in the amount of three credit hours per semester for up to four years. The provisions of this section will expire in six years unless reauthorized.

These provisions are similar to SB 78 (2009), SB 1013 (2008) and SB 921 (2006). (Section 160.375)

CHARTER SCHOOLS: When the Department retains and remits such funds to the sponsor of a charter school, the sponsor must make an appropriate determination of the following: it must expend no less than 90% of its sponsorship funds in support of its charter school sponsorship program, or as a direct investment in the sponsored schools; have fair procedures and rigorous criteria for its application process and grant charters only to developers who show capacity for establishing and operating a quality charter school; negotiates charter school contracts that clearly articulate the rights and responsibilities of each party as described in the act; conducts contract oversight; and designs and implements a transparent and rigorous process to make merit-based renewal decisions.

Current law provides that a charter school sponsor may revoke a charter if the charter school commits certain acts. This act provides that a charter school sponsor shall revoke a charter, or take other appropriate remedial action, which may include placing the charter school on probationary status if the charter school commits certain acts.

Current law requires charter schools to maintain a surety bond based on the school's cash flow. This act would allow charter schools to maintain an insurance policy in the amount of \$500,000 or more to provide coverage in the event of employee theft.

The Department of Elementary and Secondary Education will commission a study comparing the performance of charter school students with an equivalent group of district students representing an equivalent demographic and geographic population. The Department will also study charter schools' impact on the constituents of the district in which they serve by using a contractor through a proposal process. The Department must coordinate the request for proposal process with individuals representing charter schools and the districts in which the charter schools are located. The student performance assessment must include, but may not be limited to: MAP test performance; student re-enrollment rates; educator, parent, and student satisfaction data; graduation rates; and performance of students enrolled in the same public school for three or more consecutive years.

These provisions are similar to provisions also contained in SB 64 (2009) and SB 1078 (2009). (Sections 160.400, 160.405, 160.410)

P-20 COUNCIL: This act allows the Governor to establish the "P-20 Council" as a private-not-for profit corporation on behalf of the state. The purpose of the P-20 Council will be to create a more efficient and effective education system to more adequately prepare students for entering the workforce and will be reflected in the articles of incorporation and bylaws.

The Council's board of directors will consist of thirteen members, including the Director of the Department of Economic Development, the Commissioner of Higher Education, the Chairperson of the Coordinating Board for Higher Education, the President of the State Board of Education, the Chairperson of the Coordinating Board of Early Childhood, and the Commissioner of Education as well as seven members appointed by the Governor as described in the act.

The Council may receive and borrow money, enter into contracts, and spend money for activities appropriate to its purpose. Duties of the Council may include: studying the potential for a state-coordinated economic and educational policy; determining where obstacles make state support of certain programs difficult; creating programs; and exploring ways to better align academic content. The Council must submit an annual report to the Governor and General Assembly containing information about its operations.

Any debts incurred by the Council will not be considered debt of the state. The Council is subject to an annual audit by the State Auditor and the Council must pay for the cost.

This act allows the Department of Economic Development, the Department of Elementary and Secondary Education, and the Department of Higher Education to contract with the Council for activities described in the act.

This act repeals the statute requiring the Commissioner of Higher Education, the Chair of the Coordinating Board for Higher Education, the Commissioner of Education, the President of the State Board of Education, and the Director of the Department of Economic Development to meet and discuss ways to create a more efficient and effective education system.

These sections are identical to SB 344 (2009) and SB 1221 (2008). (Sections 160.730, 160.800, 160.805, 160.810, 160.815 & 160.820)

PERSISTENCE TO GRADUATION FUND: This act creates the Persistence to Graduation Fund. The Department of Elementary and Secondary Education will establish a procedure for school districts to apply for grants to implement drop-out prevention strategies. Grants may be available to school districts that have at least sixty percent of students eligible for a free and reduced lunch. Grants will be awarded for one to five consecutive years. Upon expiration, a school district may apply for an extension. The Department of Elementary and Secondary Education must give preferences to school districts that propose a holistic approach to drop-out prevention as described in the act. The Department may stop payments to a district if it determines that the district is misusing funds or if the district's program is deemed ineffectual. The Department must provide written notice thirty days prior to cessation of funds. The Department must report annually to the General Assembly the recipients and amount of grants and data for the preceding five years for each recipient district.

This section is substantially similar to SB 116 (2009) and SB 1128 (2008). (Section 160.950)

PUBLIC ACCESS TO EDUCATION MATERIALS AND RECORDS: This act requires the State Board of Education to provide seven days' written notice to members of board meetings. It also changes from four, to three, the number of members needed to request a meeting of the board. Any business that comes before the board must be made available by free electronic record at least seven business days prior to any meeting. All records of decision, votes, exhibits, or outcomes must be available by free electronic media within forty-eight hours of the conclusion of a meeting. Any materials prepared for board members must be delivered to the members at least five days before the meeting. (Section 161.072)

This act requires the Commissioner of Education to study and evaluate the progress, or lack thereof, in achieving instructional goals, and make these findings available by free public electronic media. (Section 161.122)

Current law requires that public and nonpublic high schools report certain information about students age sixteen and older who drop out of school to the state literacy hotline. This act requires that records and reports based upon the school reports be made available by free electronic record on the Department of Elementary and Secondary Education's website on the first business day of each month. Identifying information of individual students must be excluded. This provision is identical to SB 576 (2009). (Section 167.275)

TEACHING STANDARDS FOR PUBLIC SCHOOLS: Each public school must develop standards for teaching by June 30, 2010, including charter schools operated by the board of a school district. The teaching standards must include: having students actively participate and be successful in the learning process; forms of assessment to monitor and manage student learning; having the teacher be prepared and knowledgeable of content and maintain students' on-task behavior; having the teacher be current on instructional knowledge and explore changes in teaching behavior; and having the teacher act as a responsible professional in the mission of the school. The Department of Elementary and Secondary Education may provide assistance to public schools in developing these standards upon request.

This provision is similar to SB 60 (2009) and SB 1273 (2008). (Section 161.380)

VOLUNTEER AND PARENTS INCENTIVE PROGRAM: This act creates the Volunteer and Parents Incentive Program, to be implemented and administered by the Department of Elementary and Secondary Education. Under the program, the Department will provide a reimbursement to parents or volunteers who donate time at certain schools. To be eligible, individuals must donate time at a school in a district that is unaccredited or provisionally accredited, or has a population of at least 50% at risk students as described in

the act. For every one hundred hours donated by a volunteer or parent, the department will provide him or her with a reimbursement for the cost of three credit hours at a public institution of higher learning located in Missouri. The reimbursement cannot exceed \$500 every two years. If a participating school district becomes classified as accredited, it may continue to participate in the program for an additional two years.

The provisions of this section will expire in six years unless reauthorized.

These provisions are identical to SB 76 (2009) and are substantially similar to SB 1014 (2008).

PARENTS' BILL OF RIGHTS: This act requires the Department of Elementary and Secondary Education to produce "The Parents' Bill of Rights," to inform parents of children with an individualized education program of their educational rights under federal and state law by January 1, 2010. The publication must state it does not confer any right or rights beyond those conferred by federal or state law. In addition, the publication must state that it is only for informational purposes. The publication must contain ten points of information, which are described in the act. The Department of Elementary and Secondary Education must post a copy of it on its website.

Each school district must provide a copy of "The Parents' Bill of Rights" upon initial referral for evaluation and at any such time as a school district is required under state or federal law to provide the parent or parents with notice of procedural safeguards.

This section is substantially similar to SCS/SB 175 (2009). (Section 161.850)

OPERATION OF A SPECIAL ADMINISTRATIVE BOARD OF A LAPSED SCHOOL DISTRICT: This act modifies the law regarding the operations of a special administrative board when a school district's corporate organization has lapsed after having been classified as unaccredited. Current law provides for three members on a special administrative board, one of whom will be a professional administrator and act as chair. This act allows the State Board of Education to appoint additional members. In addition, the State Board of Education may set a final term of office for any special administrative board member, after which a successor member must be elected by the school district as described in the act. If the State Board of Education appoints a successor member to replace the special administrative board's chair, the current members of the special administrative board may appoint a superintendent of schools and contract for his or her services. The State Board of Education may set a date on which the school district will return to local governance.

This section is identical to SB 443 (2009) and HB 659 (2009). (Section 162.083)

SCHOOL DISTRICT RECORDS: This act allows school districts to maintain permanent records in a digital or electronic format. School districts must follow the manufacturer's guidelines, suggestions, and recommendations when using digital or electronic storage media and must not use them beyond the manufacturer suggested or recommended period of time.

This section is identical to SB 55 (2009) and SB 925 (2008). (Section 162.204)

REORGANIZATION OF SCHOOL DISTRICTS IN HOWELL COUNTY: This act creates three procedures by which two or more school districts that are located, or at least ninety percent located, in Howell County may reorganize or create a high school district.

Reorganization into a school district divided into subdistricts: The voters in any two or more school districts that are located, or at least ninety percent located, in Howell County may reorganize and form a new single district with subdistricts based on the preexisting school district boundary lines. The reorganization of the school districts requires a vote of the people. In order to place the question on the ballot, a petition must be submitted that is signed by the greater of ten percent of those in each school district that voted at the last election for school board members, or one hundred voters. Alternatively, a majority vote of each board of education may place the question on the ballot. If a majority of voters within each school district vote in favor of the reorganization, the school districts will be reorganized. If the proposal is successful, the Commissioner of Education will declare the new district formed as of July first following the election. All indebtedness, property, records, and money belonging to the school districts will pass to the newly reorganized district upon the effective date of the reorganization. The newly reorganized must perform all existing contracts and assume all legal obligations of the prior school districts.

After reorganization, a vote of the people will be required for the closure of facility used for student instruction if such a closure would result in a subdistrict not having a facility used for student instruction. In addition, a vote of the people will be required for the modification of a subdistrict boundary line, or for the restructuring of grade levels offered within the current attendance center within a subdistrict. In order to place these questions on the ballot, a petition must be submitted that is signed by the greater of ten percent of those in the subdistrict, or subdistricts, affected by the proposal that voted at the last election for school board members, or one hundred voters from the subdistrict, or subdistricts, that would be affected. Alternatively, a majority vote of the board of education may place these questions on the ballot. (Section 162.225)

If the voters vote in favor of reorganization, the State Board of Education must order an election for school board members for the reorganized school district. The school board of the new district will consist of seven members. Board of education members must be United States citizens, resident taxpayers of the school district, have resided in Missouri for one year prior to the election, and be at least twenty-four years old. The terms of office of the existing school board members will end on June 30 following the reorganization vote. Newly elected board members will take office on July 1.

Voters in each subdistrict will elect one member to the board of education to represent that subdistrict; that individual must be a resident of the subdistrict he or she would be representing. The remaining number of seats on the board will be filled by at-large members. Because the entire seven member board will be elected at the first election, the school board members' terms will initially be staggered. The at-large member or members will be elected to serve until the first subsequent general municipal election. The school board members who will represent the subdistricts will serve until the second or third subsequent general municipal election, as determined by a lot drawing procedure supervised by the Commissioner of Education. The reorganizing school districts will share equally the costs of the election.

If there is insufficient time to hold an election for school board members between the reorganization vote and July 1, seven members from the reorganizing boards of education will be selected by the Commissioner of Education by a lot drawing process to serve as board members until an election can be held. (Sections 162.227, 162.228, 162.241, 162.291, 162.459)

The tax rate of the new district will be determined by the same procedure used for school district consolidation in section 162.202, RSMo. (Section 162.229)

Establishment of a high school district by two or more school districts: The voters in any two or more school districts that are located, or at least ninety percent located, in Howell County may establish a new school district to provide grades nine through twelve. The school district's boundary lines would be coterminous with the boundary lines of the school districts from which the voters established the new district. The establishment of the school district requires a vote of the people. In order to place the question on the ballot, a petition must be submitted that is signed by the greater of ten percent of those in each school district that voted at the last election for school board members, or one hundred voters. Alternatively, a majority vote of each board of education may place the question on the ballot. If a majority of voters within each school district vote in favor of the establishment of the new district, the new district will be established. If the proposal is successful, the Commissioner of Education will declare the new district formed as of July first following the election.

The act also requires that an election for school board members be held as provided under current law and grants the new school district all corporate powers as other seven director school districts have. If a new school district is formed, any affected school district that already provides grades nine through twelve must only offer grades kindergarten through eight upon the effective date of the new district. (Section 162.1200)

Establishment of a high school district by two or more k-8 school districts: The voters in any two or more K-8 school districts that are located, or at least ninety percent located, in Howell County may establish a new school district to provide grades nine through twelve. The school district's boundary lines would be coterminous with the boundary lines of the school districts from which the voters established the new district. The establishment of the school district requires a vote of the people. In order to place the question on the ballot, a petition must be submitted that is signed by the greater of ten percent of those in each school district that voted at the last election for school board members, or one hundred voters. Alternatively, a majority vote of each board of education may place the question on the ballot. If a majority of voters within each school district vote in favor of the establishment of the new district, the new district will be established. If the proposal is successful, the Commissioner of Education will declare the new district formed as of July first following the election.

The act also requires that an election for school board members be held as provided under current law and grants the new school district all corporate powers as other seven director school districts have. (Section 162.1201)

SPECIAL ELECTION FOR VACANCIES ON THE KANSAS CITY SCHOOL DISTRICT BOARD OF EDUCATION: A vacancy that occurs on the school board of the Kansas City School District will be filled by special election instead of by appointment by board members. There will be a special election if a vacancy occurs more than six months prior to the next general municipal election. The State Board of Education is responsible for ordering a special election when a vacancy occurs. If a vacancy occurs less than six months prior to the next general municipal election, the vacancy will be filled at the next general municipal election.

This provision is identical to SCS/SB 253 (2009). (Section 162.492)

USE OF SECLUSION ROOMS BY SCHOOL DISTRICTS: This act prohibits school district employees, volunteers, and independent contractors from placing a student receiving special education services in a locked box, locked closet, or locked room as a behavior management technique or discipline management practice. Exceptions include when confinement is necessary to prevent a student from causing bodily harm and when a student has a weapon. School district employees, volunteers, and independent contractors may place a student in seclusion, as described in the act, as a last resort as an emergency safety intervention. Seclusion must not be used any longer than necessary to allow for a student to regain self-control. The school district must document the use of seclusion.

This section is similar to SB 445 (2009). (Section 162.716)

OPEN ENROLLMENT FOR FOSTER CARE CHILDREN: This act creates procedures for open enrollment across school district boundary lines for children in foster care. School districts must adopt a policy and designate appropriate class sizes for purposes of open enrollment, incorporating the minimum standard of teacher-pupil ratio promulgated by the Department of Elementary and Secondary Education. The policy may include spaces that could be filled by open enrollment. A student wishing to participate in open enrollment must declare intent by March first prior to the year in which the student would open enroll. If a receiving school has insufficient space for all students who want to enroll, it may institute an admissions process.

If a child in foster care believes that a receiving district has unreasonably disapproved an application for admittance, he or she may request that the Department of Elementary and Secondary Education review it. School districts must keep records and make them publicly available, as described in the act.

A student requiring special education services may only transfer if the receiving district verifies that it has an instructional program that is appropriate for the student and that the enrollment would not negatively affect the class size.

A student who enrolls in another district will be included in the receiving district for purposes of state school foundation aid.

The act also contains provisions for statewide assessment scores of students, intradistrict transfers, participation in school activities, and school district eligibility for small school grants.

This section is similar to SB 537 (2009). (Section 162.1033)

MISSOURI PRESCHOOL PLUS GRANT PROGRAM: This act creates the Missouri Preschool Plus Grant Program as a pilot program within the Missouri Preschool Project. The program will serve up to 1250 students with preschool services and will be administered by the Department of Elementary and Secondary Education in collaboration with the Coordinating Board for Early Childhood. School districts that are classified as unaccredited and non-sectarian community-based organizations located within such school districts may receive grants. Grants run for three years and are renewable. At least fifty percent of the placements must be offered through non-sectarian community-based organizations. Children who are one or two years away from kindergarten entry may participate in the program. Children of active duty military personnel will receive admission preference.

If a school district becomes classified as provisionally accredited or accredited, it may complete the length of an existing grant and be eligible for one additional renewal for three years. The program must comply with

current early childhood standards. Community-based organization grantees may employ teachers with at least an associate's degree provided they show they are on the path to obtaining a bachelor's degree within five years. School districts and non-sectarian community-based organizations must collect short-term and long-term data about student performance where feasible. The Department must make a good faith effort to collect long-term student performance data as required in the act for students who attend non-public schools.

The Department will accept applications in a competitive bid process to begin implementing the program in the 2010-2011 school year. The program will be funded through general appropriations and will not be funded through money from the Gaming Commission Fund. The General Assembly must appropriate an amount sufficient to adequately fund the program, which shall be at least \$5 million in any fiscal year.

The provisions of this section will expire in six years unless reauthorized.

This section is identical to SB 314 (2009) and is similar to a provision contained in SS/SCS/SB 726 (2008) and is similar to SB 779 (2008) and a provision contained in SB 690 (2007). (Section 162.1168)

VIRTUAL COURSES FOR SCHOOL DISTRICTS AND CHARTER SCHOOLS: This act provides that school districts that offer virtual courses to resident students who are enrolled in the school district shall receive state school funding. School districts may offer virtual courses through technological methods as described in the act that could take place outside of the regular school district facility. In addition, school districts may develop a virtual program for any grade level. Charter schools may also offer virtual courses for students enrolled in the charter school and receive state funding, as described in the act. Nothing in the act will preclude a private, parochial, or home school student residing within a school district offering virtual school courses from enrolling in the school district for purposes of participating in virtual school courses.

For purposes of calculation and distribution of funding, attendance of a student enrolled in a district virtual class will equal, upon course completion, ninety-four percent of the hours of attendance for such class delivered in the non-virtual program. Course completion will be calculated in two increments, fifty percent completion and one hundred percent. State funding will be distributed at the fifty percent increment and one hundred percent increment in an amount equal to forty-seven percent of hours of attendance possible for such course delivered in the non-virtual program of the school.

Any special school district must count any student's attendance in a virtual course or program in the same manner as any other course or program.

School districts and charter schools must ensure that courses purchased from outside vendors are aligned with the Show-Me curriculum standards and comply with state requirements for teacher certification. A school district or charter school that offers virtual courses or develops virtual courses or a virtual program must ensure that they comply with various standards, as described in the act. A school district or charter school may contract with multiple providers of virtual courses or virtual programs, provided they meet all criteria for virtual courses or virtual programs under this section. (Section 162.1250)

EDUCATION FUNDING: This act modifies the elementary and secondary education funding formula. It removes from the calculation of the state adequacy target the inclusion of the gaming revenues from the repeal of the loss limits. This becomes effective July 1, 2009. Beginning on July 1, 2010, the moneys derived from the passage of Proposition A will be deposited into the Classroom Trust Fund and distributed to school districts in that manner.

Current law provides that current operating expenditures shall include, in part, any increases in state funding subsequent to fiscal year 2005, not to exceed 5%, per recalculation, of state revenue, received by a district in the 2004-2005 school year. This act removes the 5% limit on increases in state funding per recalculation. This becomes effective July 1, 2010.

This act defines "Gifted Education Pupil Count" as the number of students who qualify as "gifted" under Section 162.675 and who are enrolled in a school district's gifted education program on the last Wednesday in January for the preceding school year. This number must not exceed five percent of a school district's enrollment for the immediately preceding academic year. This act modifies the definition of "weighted average daily attendance" by including in the calculation the product of .25 multiplied by the number of the district's gifted education pupil count. This becomes effective July 1, 2010.

This act provides that for the 2010-2011 school year and beyond, all proceeds a school district receives from

the Classroom Trust Fund in excess of the amount it received in the 2009-2010 school year must be placed to the credit of the school district's teachers' and incidental funds. This becomes effective July 1, 2009.

This act repeals the Schools First Elementary and Secondary Education Improvement Fund on July 1, 2010 and modifies the audit that will be conducted by the State Auditor, which becomes effective July 1, 2009.

These sections contain provisions identical to SCS/SBs 453 & 24 (2009). (Sections 163.011, 163.043, 313.775, 313.778, 313.822)

RECALCULATION OF STATE AID FOR RIVERVIEW GARDENS SCHOOL DISTRICT: This act requires the Department of Elementary and Secondary Education to recalculate the state school aid for the Riverview Gardens School District to correct an error by the district in placing funds received by the state for school aid for fiscal year 2006 in the incidental fund, rather than the capital projects fund. The sum of the amounts due to the school district after recalculation for fiscal years 2007-2010 will be divided and distributed to the school district in equal amounts in fiscal years 2010-2013.

This section is identical to SCS/SB 117 (2009). (Section 163.095)

FOSTER CARE EDUCATION BILL OF RIGHTS: This act establishes the "Foster Care Education Bill of Rights." Each school district must designate a staff person to be an educational liaison for foster care children. This liaison would assist with proper educational placements, transferring between schools, ensuring transfer of grades and credits, requesting school records, and submitting school records that have been requested.

A child placing agency will promote educational stability for foster care children when making placements. A foster care child may continue to attend his or her school of origin pending resolution of a dispute. Each school district must accept for credit any full or partial course work satisfactorily completed by a pupil while attending certain schools. A pupil who completes the graduation requirements of his or her school district of residence while under the jurisdiction of the juvenile court will receive a diploma

If a foster care pupil is absent from school because of a change in placement by the court or child placing agency, or because of a verified court appearance or related court-ordered activity, the pupil's grades and credits will be calculated as of the date the pupil left school. Such absence will not result in a lowering of the pupil's grades.

Subject to federal law, school districts are authorized to permit access of pupil school records to a child placing agency for the purpose of fulfilling educational case management responsibilities required by the juvenile officer or by law and to assist with the school transfer or placement of a pupil.

Each child who is in foster care or who is placed in a licensed residential care facility is entitled to a full school day of education unless the school district determines that fewer hours are warranted. A full school day is defined as six hours under the guidance and direction of teachers in the education process for children in foster care or for children placed for treatment in a licensed residential care facility by the Department of Social Services.

For children placed for treatment in a licensed residential care facility by the Department of Social Services, the Commissioner of Education, or his or her designee, will be an ombudsman to assist the family support team and school district. The ombudsman will have the final decision over discrepancies regarding school day length. A full school day of education will be provided pending the ombudsman's final decision.

These provisions are identical to SCS/SB 96 (2009) and are similar to SB 1000 (2008) and SB 630 (2007). (Sections 167.018, 167.019, 210.1050).

EDUCATIONAL SERVICES PROVIDED BY A SCHOOL DISTRICT OR SPECIAL SCHOOL DISTRICT: This act adds children who temporarily reside in a children's hospital for rendering health care services to children under the age of eighteen for more than three days to the children for whom a school district or special school district is responsible for making payments for services to a serving school district. (Section 167.126)

TEACHER CERTIFICATION: This act creates a method of obtaining teacher certification from the State Board of Education for individuals to teach in the areas of banking or financial responsibility. Individuals must have a bachelor's degree or higher degree and professional experience suitable to provide a basis to teach in

such areas. An individual must have received a passing score for the designated exit examination.

The holder of such a certificate is exempt from the Teacher Tenure Act. School districts will have decision-making authority on whether to hire individuals holding such a certificate.

If the holder of such a certificate is employed less than full-time, he or she must complete an amount of professional development in proportion to his or her time teaching in the classroom, rather than complete the standard thirty hour requirement.

This provisions are identical to SB 233 (2009) and HB 1874 (2008). (Section 168.021)

TEACHER CHOICE COMPENSATION PACKAGE: This act creates the "Teacher Choice Compensation Package" for the St. Louis City School District to permit performance-based salary stipends, upon the decision of a teacher, to reward teachers for objectively demonstrated superior performance. It also creates the Teacher Choice Compensation Fund in the State Treasury. The General Assembly must annually appropriate \$5 million to the fund.

A teacher must give up his or her right to a permanent appointment for the duration of his or her employment with the school district to participate in the Teacher Choice Compensation Package. If a teacher chooses to no longer participate in the Compensation Package, he or she may not resume permanent teacher status with the district. Teachers will qualify annually in October.

Stipends will be offered in increments of five thousand dollars, up to fifteen thousand dollars but must not exceed fifty percent of a teacher's base salary as described in the act. The Department of Elementary and Secondary Education will make a payment to the district in the amount of the stipend, which will be delivered as a lump sum in January following the October qualification. If funds are insufficient, the Department may prorate payments.

The Teacher Choice Compensation Package will be open to every person employed by the St. Louis City School District regardless of certification status, provided the other requirements are satisfied. Stipends will be prorated for part-time employees and will be forfeited for any teacher dismissed for cause.

Beginning with the 2010-2011 school year, teachers who opt out of their permanent contract may be eligible based on the following: student scores on a value-added test instrument as described in the act, evaluations by principals or other administrators, evaluations by parents, and evaluations by students. The Department of Elementary and Secondary Education must develop or identify model instruments for use by school districts, which may also use or develop their own instruments.

The Department of Elementary and Secondary Education must develop criteria for determining eligibility for stipend increments. Test-scores will be given more weight than evaluations. The level of scores required must take into account classroom demographics.

These provisions are similar to SB 42 (2009). (Sections 168.221, 168.745, 168.747, 168.749, 168.750).

PHYSICAL EDUCATION FOR GRADES KINDERGARTEN THROUGH FIVE: This act establishes physical education requirements for school districts beginning with the 2010-2011 school year. Physical education class will be required for students in kindergarten through fifth grade and will include 150 minutes of movement each week as described in the act. Students will have the opportunity to learn individual health self-assessment skills and will be encouraged to improve and sustain healthy fitness levels. School districts will create community and business partnerships to provide resources to reward schools for improved health status. Annually, the Commissioner of Education will recognize students, schools, and school districts that have achieved improved fitness.

This section is identical to SB 520 (2009) and is similar to HB 1215 (2007). (Section 170.043)

SUPPLEMENTAL EDUCATIONAL SERVICES PROGRAMMING: Equipment and educational materials necessary for participation in supplemental educational services programming will not be deemed an incentive for purposes of compliance with the Department of Elementary and Secondary Education's rules and regulations for supplemental educational services provider certification. In addition, the Department of Elementary and Secondary Education must not prohibit providers of supplemental and educational services from allowing students to retain equipment, including computers, used by them upon successful completion of

supplemental and educational services.

This provision is similar to a provision also contained in SCS/HCS/HB 1722 (2008). (Section 170.400)

SCHOOL CALENDARS: Each local school district must set its opening date, which must be at least fourteen calendar days after notification of parents as to the determination of students' eligibility for public school choice options under the federal No Child Left Behind Act and regulations promulgated under it, but no earlier than ten calendar days prior to the first Monday in September. Any school district that sets its opening date more than ten days prior to the first Monday in September must still comply with the fourteen day notification period. (Section 171.031)

SCHOOL BOARDS AND AGREEMENTS WITH CERTAIN POLITICAL SUBDIVISIONS: This act authorizes any school board to enter into an agreement with the county in which the school district is located, or a city, town, or village that is wholly or partially located within the boundaries of the school district to acquire, construct, improve, extend, repair, remodel, or finance sites, buildings, facilities, furnishings, and equipment for the school district's educational purposes. An agreement may provide for the present or future acquisition of an ownership in the facilities, including joint ventures.

This section is identical to SB 325 (2009) and similar to SB 1191 (2008) and HB 1735 (2008). (Section 177.088)

HOME SCHOOL STUDENTS AND ACTIVITIES: This act prohibits school districts from joining any organization or entity that discriminates or prohibits home school students from participating in music contests or debate contests. Home school students shall be permitted to compete in music contests and debate contests in the same manner as students of a public school district. (Section 1 from SA 28)

SCHOOL BUILDING REPAIR FUND: This act creates the School Building Repair Fund, which will be used to distribute funding to schools on a average daily attendance basis for school repairs. (Section 1 from SA 32, as amended)

This act contains different effective dates. Changes made to sections 160.534, 163.011, 163.043, 313.775, and 313.822 will become effective July 1, 2009. The repeal of section 313.778 will become effective on July 1, 2010.

SENATE SPONSOR: Justus

SB 292 - This act allows the Department of Economic Development to authorize up to \$5 million in tax credits per year to encourage equity investment in technology-based early stage Missouri companies, commonly referred to as angel investments. Investors who contribute the first five hundred thousand dollars in equity investment to a qualified Missouri business may be issued a tax credit equal to thirty percent of the investment or forty percent of the investment if the qualified business is located in a rural area or distressed community. An investor can receive a credit of up to fifty thousand dollars for an investment in a single qualified business and up to one hundred thousand dollars for investments in more than one qualified business per year. Tax credits for equity investment in technology-based early stage Missouri companies may be carried forward for up to three years or transferred. The act also removes the sixty million dollar annual limitation on tax credit issuance for the Missouri Quality Jobs Act.

This act is identical to Senate Bill 45 (2009).

SB 295 - This act specifies that licensed professional counseling includes the diagnosis, treatment, prevention, and amelioration of mental, emotional, and behavioral disorders.

Any professional counselor who gives a diagnosis subject to this act is required to have acceptable education or training in the diagnosis of mental and emotional disorders. The type of acceptable education or training will be defined by the rules of the committee for professional counselors, based on certain statutory criteria.

A person under supervision for licensure as a professional counselor is also required to provide documentation to the committee to prove that they have been supervised in diagnosing mental and emotional disorders.

Upon request, a licensed professional counselor who diagnoses mental or emotional disorders is required to provide the committee with proof of acceptable education or training. If a licensee gives a diagnosis after the committee notifies the licensee that he or she does not have sufficient education or training to do so, then in a disciplinary proceeding against the licensee, there is a presumption the licensee was not competent to diagnose the disorder.

1545S.011

SENATE SPONSOR: Scott

SB 297 - This act modifies provisions relating to the Missouri Propane Education and Research Council.

Under current law, there are three ways for the director of the Missouri Energy Center to initiate a referendum on the abolishment of the Missouri Propane Education and Research Council and the fee for odorized propane. This act removes one of these three ways, which is at the discretion of the director.

Current law allows vacancies on the council to be filled by the remaining members of the council, subject to the approval of the director. This act removes the requirement that the director must approve the appointment and instead requires the council to fill vacancies after a public nomination process.

Current law requires the council to submit a budget plan to the director at the beginning of each fiscal period and requires the director to either approve or recommend changes to the budget after a public comment period. The act removes the director's involvement in the budget approval, and instead requires the budget plan be submitted for public comment at least 30 days prior to the beginning of each fiscal period, and authorizes the council to approve or modify the budget after the public comment period.

The act removes the authority of the director to require additional reports from the council at his or her discretion beyond what is already required under current law.

Authority to establish an alternative means to collect the odorized propane fee and set late payment charges is currently given to the director. This act transfers this authority to the council. The interest rate charged for late payments may not exceed the legal rate for judgments.

The act removes provisions that allow the National Propane Education and Research Council to coordinate its operations with Missouri's council and that authorize Missouri's council to keep funds resulting from a federal rebate on propane fees.

SB 298 - This act allows a landscape architect to be the chairperson of the Board for Architects, Professional Engineers, Professional Land Surveyors and Landscape Architects. It also gives each member of the landscape architectural division of the board a vote when voting on action pending before the board. Starting August 28, 2009, the chairperson of the board will rotate sequentially among an architect, professional engineer, professional land surveyor, and landscape architect. The chairperson shall only serve one four year term as chairperson. The chairperson of the landscape architectural division will be a vice chairperson of the board and will be ranking vice chairperson when the chairperson of the board is a landscape architect.

Eight members of the board, including at least one from each division will be required for a quorum for board business. Two voting members of each division of the board will be required for a quorum for division business.

A faculty member at an accredited school with the rank of assistant professor or higher will be regarded as actively practicing landscape architecture, in order to eligible for board membership.

The act also specifies that licensees are personally responsible for the contents of all documents to which they affix their seal, whether they were prepared or drafted by another licensee, or not. Licensees are also specifically required to only perform those architectural, professional engineering, professional land surveying, and landscape architectural services as they are qualified by education, training, and experience to perform.

Also, professional land surveyors with inactive licenses may continue to use the title "professional land surveyor" or the initials "PLS" after their name.

SENATE SPONSOR: Griesheimer

SCS/SB 299 - Under current law, rate adjustments in the purchase price of natural gas that are approved by the Public Service Commission (PSC) shall be exempt from certain provisions relating to business license taxation. The act adds a qualifying provision that any such purchased gas adjustment rates shall include the gas cost portion of net write-offs (i.e., bad debt) incurred by the gas company in providing service to customers. Any such net write-offs may only be recovered once through purchased gas adjustment rates, the act requires an annual true-up of the net write-offs, and the PSC shall annually review gas companies' debt collection efforts.

Households receiving financial assistance through the Utilicare program must make a matching payment of either \$100 or 25% of the amount of financial assistance received, whichever is more. For renters receiving assistance through Utilicare, the renter must make a matching payment equal to the amount of assistance provided.

Any attempt to pay, or actual payment of, an electric or gas utility bill shall not adversely affect the assistance that an otherwise eligible household may receive through Utilicare. The act removes the current requirement that households have had their service disconnected before being eligible for assistance.

Electric or gas companies shall allow customers who develop an arrearage during the Cold Weather Rule

to pay one-third of the arrearage in each of the 3 months following the Cold Weather Rule period in order to retain service. Electric or gas companies may require payment of half of any required deposit before authorizing new service, except to a customer under the Cold Weather Rule.

This act is similar to HB 2279 (2008).

SB 301 - Beginning July 1, 2010, this act requires all state, county, and municipal law enforcement agencies and officers to use only a canine team which has been certified by an association approved by the Department of Public Safety when a canine performs or assists in certain law enforcement specialties. The department must establish the standards and criteria for canine certification and recertification including, but not limited to, obedience, aggression, and narcotics and explosives detection.

Each law enforcement canine team shall be initially certified and annually recertified in one of the following specialties: drug odor detection, explosive device odor detection, suspect apprehension, or apprehension and search skills. Such team shall be certified upon evaluation by an authorized canine judge.

Law enforcement agencies shall maintain records of canine team certifications, which shall be provided to the department of public safety upon request. A canine team that fails an evaluation may, after thirty days, repeat the evaluation. The department shall not impose a fee for certification. It may revoke or suspend the certification of a canine team or the authorization of any canine judge, who violates any state law or rule.

SB 302 - This act creates a tax credit against a taxpayer's state tax liability for contributions to an after

school program operating in an unaccredited or provisionally accredited school district that satisfies certain conditions. A taxpayer could claim a tax credit for half the amount of his or her contribution. The tax credit would be available starting on January 1, 2010. The tax credit amount cannot exceed the taxpayer's state tax liability and cannot exceed \$50,000 per tax year. If a taxpayer cannot claim the full amount of the tax credit in one year, the tax credit may be carried over to the next four taxable years until the full amount is claimed. In addition, no more than \$2,000,000 in tax credits can be issued in a tax year. The cumulative amount of tax credits that may be redeemed by all taxpayers in one tax year cannot exceed \$2,000,000. Tax credits will be redeemed in a first to file first served based.

SCS/SB 306 - This act establishes the Show-Me Health Coverage plan within the Department of Social Services to provide health care coverage through the private insurance market to low-income working individuals in the state. The Department of Insurance, Financial Institutions and Professional Registration shall provide oversight of the marketing practices of the plan while the Department of Social Services shall establish standards for consumer protection for the plan. The maximum enrollment of plan participants is dependent on the moneys appropriated by the General Assembly, and the eligibility for the plan is phased in incrementally based on appropriations. The plan is subject to approval by the United States Department of Health and Human Services.

The eligibility requirements and the services to be provided by the plan are specified in the act. Custodial parents with earned income up to 100% of the federal poverty level shall be eligible for the Show-Me Health Coverage benefit package under a Medicaid State Plan Amendment rather than through a Medicaid waiver.

The plan shall also provide for every participating individual a health care home. Under the plan, a health care account is established for each individual, except for the custodial parent population under the state plan amendment, and payments for his or her participation can be made by the individual, an employer, the state, or any philanthropic or other charitable contributor. An individual's health care account shall be used to pay the individual's deductible for health care services under the plan. A participant will be terminated from participation in the plan if his or her required payment is not made within 60 days after the required date, however the participant may reapply to participate in the plan six months after termination from the plan. Approved participants are eligible for a 12-month period but must file a renewal application to remain in the plan.

This act is substantially similar to a portion of SS/SCS/SB 1283 (2008).

SB 308 - This act requires the Department of Health and Senior Services to implement a health care quality program for the purpose of making available a health care quality report card to allow consumers to compare and assess the quality of health care services. The program shall be implemented in two phases.

The first phase includes making available cost and quality outcome data on its Internet website by December 31, 2010. The data on the website shall consist of quality and performance outcome and patient charge data currently collected by the department from hospitals and ambulatory surgical centers under federal and state law, as well as data submitted to the Centers for Medicare and Medicaid Services already required to be submitted under federal law. The data shall be disclosed in a manner that allows consumers to conduct an interactive search.

The second phase shall be implemented by December 31, 2012, and shall consist of the department working with the recommendations from Health Care Quality Report Card Commission, which is created in this act, on implementation of a long-range plan for making available cost and quality outcome data on the department's internet website. The first health care quality report card shall be made available on that date and shall include data on the following:

- (1) The accreditation of hospitals, as well as sanctions and other violations found by accreditation or state licensing boards;
- (2) The volume of various procedures performed;
- (3) The quality of care for various patient populations, including pediatric populations and racial and ethnic minority populations;
- (4) The availability of emergency rooms, intensive care units, obstetrical units and burn units;
- (5) The quality of care in various hospital settings, including inpatient, outpatient, emergency, maternity, intensive care unit, ambulatory surgical center, and physician practice settings;
- (6) The use of health information technology, telemedicine, and electronic medical records;
- (7) Average staffing levels of nurses and other health professionals, patient acuity, and duty hours by nursing unit or department and staff retention rates by nursing unit or department;
- (8) Training hours completed in a quarterly basis, by category of staff and type of training;
- (9) Ongoing patient safety initiatives; and
- (10) Other measures determined by the director or commission.

The reports shall be distributed to the governor and General Assembly annually and to the general public upon request. The department shall develop and disseminate the public reports based on data compiled for a period of at least 12 months.

The department may consider such additional measures that are adopted by the Centers of Medicare and Medicaid Services, National Quality Forum, the Joint Commission on Accreditations of Healthcare Organizations, the Agency for Healthcare Research and Quality, or any other similar state or national entity that establishes standards to measure the performance of health care providers. The department shall not require the re-submission of data which has been submitted to the Department of Health and Senior Services or any other state departments under other provisions of law.

Using the recommendations of the Commission established under this act, the department shall promulgate rules regarding the standards and procedures for the collection, analysis, risk adjustment, and

reporting of health care quality data and procedures to be monitored under the act.

Based on the continuing recommendations of the commission, the department shall issue an annual report card on December 31st of each year on its website and update the requirements for the submission of the data as well as include new health care facilities, entities or professionals, as appropriate.

Penalties shall be assessed for willfully impeding access to information and for violation of the provisions of the act and rules promulgated thereunder.

This act is identical to SB 1216 (2008).

SB 310 - This act requires custodial interrogations of persons suspected of certain serious offenses to be recorded when feasible unless certain exceptions exist. Each law enforcement agency shall adopt a written policy regarding such interrogations. Law enforcement agencies are permitted to record an interrogation in any circumstance with or without knowledge or consent of the suspect.

"Custodial interrogation" means the questioning of a person under arrest, who is no longer at the scene of a crime, by a member of the law enforcement agency along with the answers and other statements of the person questioned. The term does not include: 1) situations where the person voluntarily agrees to meet with law enforcement, 2) detention by law enforcement that has not risen to the level of an arrest, 3) questioning that is routinely asked during the processing of the arrest of the suspect, 4) questioning pursuant to an alcohol influence report, and 5) questioning during the transportation of the suspect.

If a law enforcement agency fails to comply with these provisions and acts without good faith, the Governor may withhold any state funds received by the agency.

1627S.011

SENATE SPONSOR: Goodman

SB 311 - Under current law, Section 434.100, RSMo, most indemnities for construction work are considered void and against public policy. Unless one of the statute's exceptions applies, a party to a contract for construction work cannot transfer a significant portion of its project risks to others via a broad indemnity agreement. The current statute contains nine exceptions to the general rule that these types of indemnity agreements are void.

Under this act, the general prohibition against indemnity agreements is expanded to specifically prohibit agreements to hold harmless the negligence of the party's employees, or agents. The current law only specifically prohibits agreements that hold harmless another person from that person's own negligence.

Under current law, the anti-indemnity provision does not apply to a party's own promise to hold another party harmless from the party's own negligence. This act expands the exception to include the party's officers, employees, and agents.

The act modifies the additional insured exception by providing that the anti-indemnity prohibition does not apply to a party's promise to purchase project-specific insurance policies, other types of protective liability insurance policies, or builder's risk insurance.

The act expands the definition of "construction work" and defines the terms "indemnify" or "hold harmless" as including any requirement to name the indemnified party as an additional insured in the indemnitor's insurance coverage for the purpose of providing an indemnification for any liability not otherwise allowed.

*** SB 312 ***

1703S.011

SENATE SPONSOR: Goodman

SB 312 - This act repeals the current procedures regarding criminal activity forfeiture actions and establishes new procedures. Any property used or intended to be used in the commission of a crime or the proceeds of any crime will be subject to criminal forfeiture. Property may be subject to forfeiture even though a criminal prosecution is not conducted.

This act establishes that the circuit court where the property seizure occurred has jurisdiction over any seized property. A proceeding for forfeiture may be brought in a circuit in which any part of the property is found or where a civil or criminal action could be maintained against an owner for the conduct alleged to give rise to the forfeiture. The defendant may obtain a change of venue if the prejudice against him or her is too great.

This act specifies what property may be subject to criminal forfeiture and creates certain exceptions to protect innocent parties. Real property will not be subject to forfeiture if the only conduct giving rise to forfeiture is possession of controlled substances solely for personal consumption.

Under this act, property may be seized for forfeiture under constructive or actual seizure. This act delineates the process, including notification, that must be followed in order to seize property constructively. Law enforcement may seize any property subject to forfeiture upon the issuance of a search warrant or when there is probable cause that the property is subject to forfeiture. The seizure of inhabited residential property requires an adversarial judicial determination of probable cause prior to seizure unless the prosecution can demonstrate exigent circumstances at an ex parte proceeding.

Property seized for forfeiture is not subject to alienation, conveyance, sequestration, attachment, or a motion to the return of property seized as evidence with or without a search warrant. The owner of seized property may obtain release of the property upon posting a surety bond equal to the fair market value of the property.

Upon seizing property, the prosecuting attorney may decide where the property should physically be

stored or moved. The seizing agency must conduct a written inventory and estimate the value of the property seized. The court may order the seized property to be sold, leased, rented or operated to preserve the interests of any party after notifying persons with interest in the property and giving an opportunity for a hearing.

This act specifies the requirements for the commencement of a forfeiture proceeding, including the proper filings that must be made. If the prosecuting attorney fails to make certain filings the property shall be released to the owner. The owner may file for recognition of exemption from forfeiture and further procedures exist to allow such innocent parties, who have a legal claim to the property, protect their interests.

The act provides the procedures, including notification, that must be followed once a prosecuting attorney may proceed with a forfeiture. The prosecuting attorney may file a lien for the forfeiture of the property upon initiation of proceedings relating to the conduct giving rise to forfeiture, upon seizure for forfeiture, or in connection with a proceeding or forfeiture in another state. The lienor must provide notice of such lien and will create a lien in favor of the lienor. Upon entry of judgment in its favor, the state may proceed to execute on the lien.

With limited exceptions, a trustee who has notice that a forfeiture lien, pending forfeiture, or civil forfeiture has been filed must provide certain information to the seizing agency or prosecuting attorney within 15 days. A trustee who fails to do so is subject to criminal and civil penalties. Any employee of the seizing agency or prosecuting attorney who releases information obtained from the trustee is guilty of a Class A misdemeanor. A judgement or order entered pursuant to these provisions becomes a judgement lien against the property alleged to be subject to forfeiture.

This act specifies what actions, including entering an injunction or appointing conservators, the court may take before or after the filing of a notice of pending forfeiture. The court may hold a hearing regarding whether there was probable cause for the property to be seized if a judicial determination has not yet been made and the property owner files a timely application. A person charged with a criminal offense may apply to the court where the forfeiture proceeding is pending for the release of property seized to pay criminal defense expenses.

If the property owner can prove that he or she has not been able to participate in previous determinations of probable cause, the court must hold a probable cause hearing. If no probable cause is found the property shall be released. There shall be a rebuttable presumption that any money found near contraband is presumed to have been the proceeds of the conduct giving rise to forfeiture.

A person who acquires any property subject to forfeiture is a constructive trustee. If property subject to forfeiture is lost, transferred to a third party, moved beyond the jurisdiction of the court, commingled with other property, or subject to a legal claim by an innocent party exempt from forfeiture proceedings, the court may order the forfeiture of other property in the owner's possession. Under certain circumstances, the prosecuting attorney may bring a civil action against a person with knowledge who destroys, conveys, or otherwise renders property unavailable.

Under this act, a judicial in rem forfeiture proceeding may be brought by the prosecuting attorney in addition to, or in lieu of, civil in personam forfeiture proceedings. The act states what procedures must be followed during these proceedings.

A judicial in personam forfeiture proceeding brought by the prosecuting attorney under a civil action alleging conduct giving rise to forfeiture is also subject to the provisions of this act. The court may enter an order to protect the state's interest in the property, including the issuance of a temporary restraining order.

If notice of pending forfeiture is properly served in an action in rem or in personam in which personal property is seized, and no claim opposing forfeiture is filed within 30 days of notice of service, the prosecuting attorney shall prepare a written declaration of forfeiture and allocate the property. The act provides for what action may be taken by the owner or interest holder of the property following the declaration to have it set aside for failure to notify. After final disposition of all claims in an action in rem, the court shall enter an order that the state has clear title to the forfeited property interest. The state may transfer good and sufficient title to any subsequent purchaser or transferee.

The court may release or convey forfeited personal property to a regulated interest holder if certain conditions exist. If released, the property must be disposed of by a commercially reasonable public sale held

by the interest holder.

When property is forfeited, the prosecuting attorney may destroy or use for investigative purposes any illegal or controlled substances or other contraband or authorize a public or other commercially reasonable sale for other property. The money from the sale shall be distributed in the following order: 1) satisfaction of exempt security interests or liens, 2) payment of proceeding expenses, and 3) payment to the schools.

A prosecuting attorney may conduct an investigation of any conduct that gives rise to forfeiture under this act. The examination of witnesses must be conducted by the prosecuting attorney, must be before an officer authorized to administer oaths, and shall be recorded and transcribed. When examined, a person must be informed of his or her right to refuse to answer any questions.

All materials, transcripts, or testimony that the prosecuting attorney possesses shall not be available for examination by any individual other than a law enforcement official without consent of the person who produced the material or transcripts prior to the filing of a forfeiture action.

Under this act, no one shall knowingly destroy material that is subject to a subpoena with the intent to avoid compliance with such a subpoena. A violation is a Class C felony.

Forfeiture proceedings must be commenced within seven years of the activity making the property subject to forfeiture being committed. However, any time during which the property or defendant is out of the state or in confinement is excluded from this time limit.

Any controlled substances included in Chapter 195, RSMo, which are contraband and those whose owners are unknown are summarily forfeited to the state.

This act is similar to SB 1208 (2008).

SENATE SPONSOR: Smith

SB 314 – This act creates the Missouri Preschool Plus Grant Program as a pilot program within the Missouri Preschool Project. The program will serve up to 1250 students with preschool services and will be administered by the Department of Elementary and Secondary Education in collaboration with the Coordinating Board for Early Childhood. School districts that are classified as unaccredited and non-sectarian community-based organizations located within such school districts may receive grants. Grants run for three years and are renewable. At least fifty percent of the placements must be offered through non-sectarian community-based organizations. Children who are one or two years away from kindergarten entry may participate in the program. Children of active duty military personnel will receive admission preference.

If a school district becomes classified as provisionally accredited or accredited, it may complete the length of an existing grant and be eligible for one additional renewal for three years. The program must comply with current early childhood standards. Community-based organization grantees may employ teachers with at least an associate's degree provided they show they are on the path to obtaining a bachelor's degree within five years. School districts and non-sectarian community-based organizations must collect short-term and long-term data about student performance where feasible. The Department must make a good faith effort to collect long-term student performance data as required in the act for students who attend non-public schools.

The Department will accept applications in a competitive bid process to begin implementing the program in the 2010-2011 school year. The program will be funded through general appropriations and will not be funded through money from the Gaming Commission Fund. The General Assembly must appropriate an amount sufficient to adequately fund the program, which shall be at least \$5 million in any fiscal year.

The provisions of this act will expire in six years unless reauthorized.

This act is substantially similar to a provision contained in SS/SCS/SB 726 (2008) and is similar to SB 779 (2008) and a provision contained in SB 690 (2007).

SB 316 - This act modifies provisions on human sexuality and sexually transmitted disease school education courses for school districts that chooses to teach such courses.

The act removes references in the sexual education statute allowing information to be provided on the federal abstinence education law. This act also requires instruction on the dangers of sexual predators, including online predators. The pupils shall also be taught how to behave responsibly on the internet and how to report inappropriate behavior to a responsible adult. Prior to any human sexuality instruction, the parents shall also be notified regarding the CyberTipline and the sexual offender registry.

This act also repeals the provisions prohibiting abortion providers from providing sexual education in school and from schools providing abortion services.

This act is similar to SB 780 (2008).

SB 317 – This act allows proposed high risk or alternative charter schools to request that the Department of Elementary and Secondary Education grant alternative arrangements for students to obtain credits for satisfying graduation requirements. Alternative arrangements may include credit for off-campus instruction, embedded credit, work experience, independent studies, and performance-based credit options. The Department must approve or disapprove such a request within thirty days.

The State Board of Education must approve a charter application for a proposed high risk or alternative charter school whose educational program contains certain educational approaches, as described in the act. After three years of operation, the State Board must conduct a study of any such charter school to assess student performance, graduation rates, educational outcomes, and entry into the workforce or higher education. (Section 160.405)

This act requires charter schools whose mission includes student drop-out prevention or recovery to enroll nonresident pupils from the same or an adjacent county who are considered high-risk or are dropouts, or nonresident pupils from the same or an adjacent county who reside in residential care facilities, transitional living group homes, or independent living programs who submit a timely application. Preference will be given to resident pupils over non-resident pupils if there is insufficient capacity. Charter schools may also give an admissions preference to high-risk and dropout students. (Section 160.410)

This act contains provisions similar to SB 1027 (2008) and similar to provisions also contained in SB 64 (2009).

SCS/SB 319 - This act modifies the manner in which lien titles for motor vehicles, trailers, outboard motors, aircrafts, and vessels are issued.

Currently, if the item is not redeemed within three months of the completion of labor, the lienholder may apply to the director of revenue for a certificate of ownership or certificate of title. This act changes that time period to 45 days.

Currently, if the charges are for storage or the service of towing and the item has not been redeemed three months after the charges for storage have commenced, the lienholder shall notify the owner and any lienholder of record that an application for a lien title will be made unless the owner or lienholder makes satisfactory arrangements within 45 days. This act changes those time periods to 45 days and 30 days respectively.

Lienholders may apply for a lien title if the notice has been returned "not forwardable" or "Addressee unknown".

The lienholder affidavit required to be submitted with the application shall be accompanied by a copy of the notice and a copy of the certified mail receipt evidencing the notice was sent.

Currently, the Director of Revenue is required to notify the owner and any lien holder of record of a motor vehicle, trailer, outboard motor, aircraft, or vessel, when an application is made for a lien title on such item. Lienholders or owners have 30 days to redeem the item. This act repeals these requirements and allows the director to issue a certificate of ownership immediately upon receipt of the application.

SB 320 - This act requires, by January 1, 2010, health carriers to provide coverage for certain prosthetic devices and related services and supplies that meet minimum standards as provided under the federal Medicare Program. "Prosthetic device" is defined as an artificial limb, device, or appliance designed to replace in whole or in part an arm, leg, or eye.

Under the terms of the act, a health insurance carrier may require an insured to obtain prior authorization

for any prosthetic device. The health carrier may impose co-payments and co-insurance requirements in accordance with Part B of the federal Medicare Fee-for-service Program. The health benefit plan must reimburse an insured for the devices at no less than the fee schedule amount under the federal Medicare reimbursement schedule.

The coverage shall include repair services and replacement of prosthetics needed to restore or maintain the daily living or essential job-related activities. Certain health and life insurance policies are exempt from the provisions of the act.

The provisions of this act are virtually identical to HB 2100 (2008).

SCS/SB 321 - This act creates a ten-member commission to study the death penalty in Missouri. It shall include two members of the House of Representatives with one from each party, two members from the Senate with one from each party, a county prosecutor appointed by the Missouri Association of Prosecuting Attorneys, a criminal defense lawyer appointed by the Missouri Association of Criminal Defense Lawyers, the state public defender, the attorney general, a murder victim's family member and a family member of a person on death row, both appointed by the department of corrections. The commission shall be comprised equally of people in favor and opposed to the death penalty and shall be appointed by December 1, 2009.

The commission is required to hold public hearings and study all aspects of the death penalty as administered in Missouri, including all cases in which the death penalty was sought. Through the use of random sampling, the commission will review a statistical representation of those cases in which charges of first degree murder, second degree murder, or voluntary manslaughter were filed after January 1, 1977. The review and analysis shall examine data concerning the facts of the offenses, the county where charges were filed, the charges originally filed, the crime for which the person was convicted, the sentence, personal information about the convicted person, evidence of mental illness, prior criminal history of the defendant, information about the legal defense team and prosecuting team, the body of evidence used to obtain a conviction, results of appellate review and post-conviction review, and costs for implementing the sentence.

In considering the experience and training of attorneys, the commission shall consider the experience and training levels required by the Missouri Supreme Court, other courts and legislatures, and recommendations of national associations.

The commission shall study whether alternatives to the death penalty exist that ensure public safety and address other social and penological interests. The findings and recommendations of the commission shall be reported to the Governor, the Missouri Supreme Court, and the General Assembly by January 1, 2012.

The commission shall recommend any proposed modifications to Missouri law necessary to ensure: 1) defendants sentenced to death are indeed guilty of first degree murder, 2) adequacy of trial and appellate legal counsel, 3) accuracy of findings of guilt of the accused, 4) race is not impermissibly a factor in determining implementation of the death penalty, 5) adequate appellate and post-conviction procedures exist to remedy errors at trial, and 5) prosecutors throughout the state use similar criteria to determine whether to seek the death penalty.

This act is similar to HB 1614 (2008) and SB 800 (2008).

SB 324 - This act modifies the Public School Retirement System of Missouri (PSRS) and the Public Education Employee Retirement System (PEERS).

This act changes from ten percent to twenty percent the maximum percentage of increase in annual compensation from one year to the next in the final average salary period for members of PSRS. (Section 169.010)

Current law provides, in part, that a retired member of PSRS or PEERS may be employed on a part-time or temporary-substitute basis by a school district included in PSRS or PEERS for up to 550 hours in a school year without a discontinuance of his or her retirement benefits. This act provides that a retired member of PSRS or PEERS may be employed on part-time or temporary-substitute basis by a district included in PSRS or PEERS. A retired member of PSRS may earn up to the minimum starting teacher's salary. A retired member of PEERS cannot earn more than fifty percent of the minimum starting teacher's salary. The hiring school district must pay the employer's portion of the required contributions to PEERS. The limit on earnings will be applied on a pro rata basis to a retiree's earnings after the effective date of retirement during the school year that the member retires.

A retired member who works under this provision cannot accrue any benefits with PSRS or PEERS. If a retired member exceeds the limits of this section, the retired member will not be eligible to receive a retirement allowance for that month.

A member must terminate employment with an employer covered by PSRS or PEERS before being eligible to receive a benefit from PEERS. A member will not be considered to have terminated employment if he or she becomes employed by an employer covered by PSRS or PEERS within one month. The member will be required to repay any benefits if it is determined the member did not terminate employment. (Sections 169.560, 169.660)

SB 327 – This act modifies the Public School Retirement System of Missouri (PSRS) and the Public Education Employee Retirement System (PEERS).

VENUE FOR LAWSUITS: All suits or proceedings directly or indirectly brought against the board of trustees for PSRS or PEERS, the board's members or employees, or the retirement system itself must be brought in Cole County. (Section 169.020)

INVESTMENT ACCOUNT: This act allows for the establishment and maintenance of a retirement systems investment account for investment purposes. Moneys from PSRS and PEERS may be combined in the account for investment purposes so long as the funds are accounted for and reported separately. (Sections 169.040, 169.630)

RETIREMENT SYSTEM RECORDS: Current law provides that a record of PSRS that discloses deliberations about, or a tentative decision on, investments or other financial matters is not a public record so long as its disclosure would jeopardize the ability to implement a decision or to achieve investment objectives. This act modifies this provision so that a record of the retirement system that discloses investments or other financial matters is not a public record so long as its disclosure would jeopardize the ability to implement a decision or to achieve investment objectives. (Section 169.040)

PURCHASE OF SERVICE CREDIT: For the purchase of membership service credit, this act changes the date of payment from June 30 to September 30 and the date of recalculation from July 1 to October 1. In addition, the retirement system may prohibit a purchase, impose additional requirements for making a purchase, or limit the amount of credit purchased if necessary to comply with federal law. (Sections 169.056,

169.655)

SURVIVORSHIP: This act modifies how retirement benefits may be distributed upon the death of a member prior to the member having received the specified number of monthly payments. The remainder of such payments will be paid to the surviving spouse, surviving children in equal shares, surviving parents in equal shares, or the estate of the last person to receive a monthly allowance in a lump sum payment, in that order of precedence. In addition, if a member dies and the member's financial institution cannot accept the final payment or payments, the final payment or payments will be paid to the beneficiary, or if no beneficiary exists, to the surviving spouse, to the surviving children in equal shares, surviving parents in equal shares, or the estate of the member, in that order of precedence. This same order applies if the beneficiary to a member dies and the beneficiary's financial institution cannot accept final payment. (Sections 169.070, 169.670)

GARNISHMENT: This act allows funds belonging to the retirement systems and certain benefits to be subject to execution, garnishment, attachment in a proceeding instituted for spousal maintenance or child support. (Sections 169.090, 169.690)

ASSOCIATION ADMISSION: After June 30, 2010, no additional nonprofit educational associations or organizations will be able to have their employees become members of PSRS or PEERS. (Sections 169.130, 169.650)

INDEMNIFICATION: The board of trustees of PSRS or PEERS may indemnify and protect any trustee or employee against all claims or liabilities in his or her official or individual capacity except for gross negligence or willful misconduct. The board of trustees may obtain insurance or indemnity policies. For an employee or trustee to qualify for indemnity, he or she must provide written notice to the board of trustees within fifteen days after receiving service of process of a proceeding. (Section 169.750)

This act is identical to HB 265 (2009), is substantially similar to SCS/SBs 1153, 1154, 1155 & 1156 (2008), and contains provisions similar to HB 1972 (2008), HB 1973 (2008), and HB 2056 (2008).

SB 328 - This act creates the "Task Force on the Use of Conducted Energy Devices". The commission shall have ten members appointed by the governor, with the advice and consent of the senate: two medical experts, two scientific experts, two legal experts, two law enforcement experts, and two private citizens who have been shot by a CED or whose family member has been shot by a CED.

The task force is designed to evaluate the safety of conducted energy devices (CEDs), commonly known as tasers, and to make recommendation regarding their use by law enforcement. The task force shall hold public hearings and study all aspects of CED use in this state.

It shall determine if there are adequate studies on the use and effects of CEDs representing independent perspectives, and if other research is needed on issues such as how frequently CEDs are used, the effects of CED use on human health, typical operation of CEDs by law enforcement, possible circumstances when CED use should be limited, sufficiency of law enforcement training, and other issues of interest to the task force.

The task force shall report to its findings and recommendations to the Governor, Attorney General, and legislature by January 1, 2011. It shall make recommendations to amend the statutes which assure: 1) that CED use is banned, if necessary, because of safety or abuse concerns; 2) a suspension of CED use, if necessary, until scientific research adequately determines CED safety; or 3) there is sufficient research and an ability to set policy on CED use ensuring certain safety and abuse prevention requirements.

Until the task force report is completed and its recommendations are passed and signed into law, CED use shall be suspended in this state, except by law enforcement agencies which adopt certain policies outlined in the act.

SENATE SPONSOR: Bray

SB 329 - This act relates to pregnancy and sexually transmitted disease prevention and abortion.

SEXUAL EDUCATION

This act provides that any course materials relating to human sexuality shall not only be medically and factually accurate, but shall also be based on peer reviewed projects that have been demonstrated to influence healthy behavior. The course instruction shall also present abstinence from sexual activity as the preferred choice of behavior in relation to all sexual activity as the only sure way to avoid pregnancy or sexually transmitted infections. The students shall also be presented with information about the health benefits and side effects of all contraceptives and barrier methods as a means to prevent pregnancy and to reduce the risk of contracting sexually transmitted infections or other diseases and well as information regarding the vaccine for the human papillomavirus. The instruction shall also help the students gain knowledge about the physical, biological, and hormonal changes of adolescence and subsequent states of human maturation. In addition, the students shall be encouraged to communicate with their family regarding sexuality. This act also repeals the prohibition on abortion providers providing human sexuality instruction and instead provides that a school district shall make all curriculum materials and names and affiliations of presenters used in the school district available for public inspection.(SECTION 170.015).

EXPEDITED SEXUAL PARTNER THERAPY

Any licensed physician may utilize expedited partner therapy for the management of the sexual partners of persons with chlamydia or gonorrhea if such partners do not have an established physician-patient relationship with a physician. A licensed physician using such therapy may prescribe and dispense medications for the treatment of chlamydia or gonorrhea for such sexual partners. Any county health facility may use the expedited partner therapy depending on the local case rate for chlamydia and gonorrhea. The Department of Health and Senior Services and the Division of Professional Registration shall develop rules for the implementation of the act. (SECTION 191.648).

COMPASSIONATE ASSISTANCE FOR RAPE EMERGENCIES

This act provides that hospitals and health care facilities are required to do the following:

- provide each sexual assault victim with medically and factually accurate information about emergency contraception;
 - orally inform each victim that emergency contraception may be provided at the hospital;
 - provide the complete regimen of emergency contraception immediately to the victim who requests it;
- and
- follow the Department of Justice protocols on HIV/STI screening and prophylactic treatment.

Hospitals and health care facilities must ensure that they provide their employees with medically and factually accurate information about emergency contraception. The department shall develop, prepare, and produce informational materials relating to emergency contraception to hospitals and health care facilities. The informational materials must be medically and factually accurate, clearly written, and explain the nature of emergency contraception.

The department shall respond to complaints and shall periodically determine whether hospitals and health care facilities are in compliance. If a hospital or a health care facility is not in compliance, then the department shall impose an administrative penalty of \$5,000/per woman who is denied information or emergency contraception and a fine of \$5,000 for failure to comply with the provisions of this act. For every 30 days that a hospital or health care facility is not in compliance, an additional administrative penalty of \$5,000 shall be imposed. (SECTIONS 191.717 and 191.718).

BIRTH CONTROL PROTECTION

This act provides that consenting individuals have a protected interest from unreasonable governmental intrusions into their private lives in regards to obtaining and using safe and effective methods of contraception. This act also provides that the laws of this state will be interpreted to recognize these protected rights.

This act also prohibits governmental actors or entities from interfering in a consenting individual's right to the benefits, facilities, services, or information concerning safe methods of contraception. This act also prohibits any laws, rules, ordinances, taxes, or regulations that are implemented to promote public health and safety from unreasonably hindering the public's access to contraceptives. (SECTION 191.720).

WOMEN'S HEALTH SERVICES PROGRAM

This act establishes the Women's Health Services Program. Subject to appropriation, the program shall be implemented by the department of health and senior services by July 1, 2010, and shall be initially funded with five million dollars. The goal of the program is to reduce the number of unintended pregnancies in Missouri by providing women's health services through qualified health providers, as determined by the department. This program shall sunset in six years, unless reauthorized by the General Assembly (SECTION 192.970).

PATIENT PROTECTION

Upon receipt of a valid and lawful prescription or upon a lawful request for contraception approved for over-the-counter use, a licensed pharmacy shall dispense the prescribed drug or device without delay, consistent with the normal time frame for filling any other prescription and shall fulfill the request for the over-the-counter drug in a timely fashion.

When the customer requests a prescribed drug or device, or contraception approved for over-the-counter use, and such drug or device is not in stock, the pharmacy shall offer the customer the option of having the pharmacy obtain the contraception under the pharmacy's standard procedures for expediting ordering of any drug or device not in stock or the pharmacy may locate another pharmacy of the customer's choice or closest pharmacy that has the drug or device in stock and transfer the customer's prescription to that pharmacy, if necessary. The pharmacy shall perform the customer's chosen option in a timely fashion.

The pharmacy shall ensure that it does not intimidate, threaten, or harass its customers in the delivery of services.

Nothing in this act shall prohibit a licensed pharmacy from refusing to dispense a prescribed drug or device in accordance with standard pharmacy practice if there is a valid medical concern or if the customer is unable to pay for the drug or device. (SECTIONS 338.012 AND 338.014).

This act is substantially similar to SB 1215 (2008) and SB 546 (2007).

SB 331 – This act creates the "Development, Relief, and Education for Alien Minors Act," which will be known and may be cited as the "DREAM Act."

This act requires any higher education institution that receives state funding to provide in-state tuition to

any individual who meets the following conditions: the individual resided with his or her parent or guardian while attending a public or private high school in Missouri; the individual graduated from a public or private high school or received the equivalent of a high school diploma in Missouri; the individual attended school Missouri for at least two years as of the date the individual graduated from high school or receive the equivalent of a high school diploma; the individual entered the United States prior to the enactment of this act; in the case of an individual who is not a United States citizen or permanent resident, the individual must provide the higher education institution with an affidavit stating that he or she will file an application to become a permanent resident at the earliest opportunity.

This act has an effective date of July 1, 2009.

This act is similar to SB 1109 (2004).

SCS/SB 332 - This act creates the Line of Duty Compensation Act which provides additional workers' compensation benefits in the amount of \$15,000 for firefighters, law enforcement officers, emergency medical technicians, and paramedics who are killed in the line of duty.

Coverage applies when:

- Death is caused by an accident or violence of another;
- The individual is in the active performance of his or her duties and there is a relationship between the accident or commission of the act and the performance of duty, even when off duty; the individual is traveling to or from employment; or the individual is taking a break while on duty;
- The injury is the cause of the death; and
- Death occurs within 300 weeks of the injury.

A \$15,000 death benefit shall be awarded to the surviving spouse, dependent, or estates of those killed in the line of duty.

Under the act, neither employers nor workers' compensation insurers shall have subrogation rights against compensation awarded for claims under the proposed program.

This program shall sunset in 6 years unless reauthorized.

This act is similar to SB 500 (2007), HB 551 (2007), and SB 966 (2008).

SCS/SBs 335 & 16 - This act modifies Missouri's motor vehicle financial responsibility law.

Under this act, any person who intentionally produces, manufactures, sells, or otherwise distributes a fraudulent document intended to serve as an insurance identification card is guilty of a Class D felony. The act further provides that any person who knowingly or intentionally possesses a fraudulent document intended to serve as an insurance identification card is guilty of a Class B misdemeanor. This provision is contained in SB 16 (2009)(section 303.024).

Under this act, an uninsured motorist waives his or her ability to have a cause of action or otherwise collect for noneconomic damages against a driver who is in compliance with Chapter 303 due to a motor vehicle accident in which the insured driver is alleged to be at fault.

For purposes of the act, an uninsured motorists includes an uninsured driver who is the owner of the vehicle, an uninsured permissive driver of a vehicle, and any uninsured non-permissive driver.

The mandatory waiver of noneconomic damages imposed by the act shall not apply in cases where the accident was caused by a driver who was operating the vehicle under the influence of alcohol or drugs, or who is convicted of involuntary manslaughter or assault in the second degree.

The waiver of noneconomic damages shall not apply in instances where his or her insurance policy was nonrenewed or cancelled for nonpayment, unless the driver had received notice from the insurance company at least 30 days prior to time of the accident.

In legal actions against a person who is in compliance with Missouri's financial responsibility laws, the person who has waived his or her rights under the act shall have his or her award reduced by the amount representing noneconomic damages. The jury shall not be informed of the effect of the waiver on the person's total amount of recovery.

Passengers in an uninsured motor vehicle are not subject to the noneconomic recovery limitations set forth in the act (Section 303.390).

SB 336 - Under the terms of this act, if a lawsuit is filed in which an insurance company might be obligated to make payment under an insurance policy, the insurance company may contest the applicability of its coverages to the facts of the lawsuit at hand by:

(1) Denying coverage to the insured in a clear and unequivocal communication; or

(2) Notifying the insured that it contests the applicability of the policy's coverages to the facts pled in the lawsuit and that the insured may select legal counsel to defend the action at the insurer's expense until the issue of coverage is resolved.

If the insurance company elects to deny coverage by notifying the insured, then the insurer may proceed to defend the lawsuit in any manner (including entering into an agreement with the adverse party to allow a judgment to be taken in the case). This action shall not constitute a breach of any agreement to cooperate provision contained in the insurance policy.

If the insurance company elects to notify the insured that it contests the applicability of coverage to the facts at hand, the insurance company must then file a declaratory judgment action within 45 days after receiving notice of the lawsuit against its insured. The declaratory judgment action shall be filed to determine whether the insurance policy provides coverage to the facts pled in the lawsuit against the insured. The insurance company must agree to pay for the insured's reasonable legal fees for defending the declaratory judgment action.

If the insurance company files a declaratory judgment action to contest the policy's coverage, the insured may not settle the lawsuit or otherwise make other types of agreements with the adverse party unless specifically authorized by the insurance company in writing.

The institution of a declaratory judgment action under the act to contest coverage shall not constitute a breach of its insurance policy, either present or anticipatory.

SCS/SB 338 - Under Executive Order 07-07 (2007), the administration of the Crime Victims' Compensation Fund was transferred from the Department of Labor and Industrial Relations to the Department of Public Safety. This act would reflect such transfer in statute.

Under this act, the Department of Public Safety may receive gifts for the benefit of crime victims, which shall be credited to the Crime Victims' Compensation Fund.

The act provides that compensation from the fund shall not be paid to a victim injured while subject to electronic monitoring in the same manner as persons who are incarcerated or under house arrest.

Upon request, pharmacists shall submit information to the department to provide verification of victims' injuries in the same manner as other medical providers.

Also, under executive order, the Department of Public Safety makes payments to medical providers to cover the charges of the forensic examinations of sexual assault victims, rather the Department of Health. This act would reflect such transfer of responsibility in statute. This act also specifies that medical providers shall use collection procedures developed for victims who are minors when appropriate. Also, the medical provider's report of a forensic examination shall no longer be filed with the prosecuting attorney within three days.

This act provides that compensation under the crime victims' compensation fund must be for reasonable expenses, and if such expenses are medical, they must be medically necessary. It also specifies that payment for forensic examinations to medical providers must be for reasonable and medically necessary charges. Under this act, claims for forensic examination charges by medical providers must be made within 90 days. Also, for consideration of such claim by the department, the alleged sexual offense must have occurred in Missouri and the examination charges submitted must be itemized and fall within the definition of a forensic examination.

This act is similar to SB 332 (2007).

1685S.011

SENATE SPONSOR: Stouffer

SB 342 - This act modifies numerous penalties for violations of motor vehicle licensing, registration, and equipment statutes. The act makes certain motor vehicle registration violations punishable as infractions rather than various classes of misdemeanors. These provisions can be found in SB 101 (2007), HCS/SS/SCS/SBs 239, 24 & 445 (2007), and SB 1143 (2006).

This act changes the penalty for violating Missouri's historic motor vehicle 1,000 mile personal use limitation from a Class C misdemeanor to a violation punishable by a fine of not less than five dollars or more than five hundred dollars (Section 301.131).

The act changes the penalty for fastening voided plates to a motor vehicle from a Class C misdemeanor to a violation punishable by a fine of not less than five dollars or more than five hundred dollars (Section 301.150).

The penalty for failing to surrender a mutilated or worn plate for which a duplicate has been issued is changed from a misdemeanor to a violation punishable by a fine of not less than five dollars or more than five hundred dollars (Section 301.310).

The act provides that the penalty for knowingly making a false statement in the application for the registration of a motor vehicle is a Class C misdemeanor (Section 301.420). The act removes the imposition of a jail sentence for various motor vehicle registration violations in which no specific statutory penalty is provided and provides that such violations shall be punishable by a fine of not less than \$5 nor more than \$500. The current law provides that certain motor vehicle registration violations are punishable by imprisonment in the county jail for a term not exceeding one year or by a fine of not less than \$5 or more than \$500, or by both (Section 301.440).

Under the act, violations of Missouri's ATV titling and registration laws are punishable as infractions (Section 301.716).

Under the act, failure to secure truck load violations are punished as infractions rather than Class C misdemeanors (Section 307.010).

Under the act, the punishment for a mud flap violation is changed from a Class B misdemeanor to an infraction (Section 307.015).

Under the act, the punishment for a spotlamp violation is changed from a Class C misdemeanor to an infraction (Section 307.090).

The act further provides that violations of certain motor vehicle lighting regulations shall be punishable as infractions rather than misdemeanors (Section 307.120).

Under the act, the punishment for improperly lighting or marking an animal-driven vehicle is changed from a Class C misdemeanor to an infraction (Section 307.125).

Under the act, the punishment for certain motor vehicle safety glass violations is changed from a Class C misdemeanor to an infraction (Section 307.155).

Under the act, the punishment for altering the front or rear of a motor vehicle or operating a motor vehicle without proper bumpers is changed from a Class C misdemeanor to an infraction (Section 307.172).

Under the act, the punishment for a window tinting violation is changed from a Class C misdemeanor to an infraction (Section 307.173).

Under the act, the punishment for operating a motorized bicycle without a license or operating a motorized bicycle upon an interstate highway is changed from a Class C misdemeanor to an infraction (Section 307.195).

Under the act, the punishment for an ATV equipment violation is changed from a Class C misdemeanor to an infraction (Section 307.198).

Under the act, the punishment for violating certain motor vehicle inspection station regulations is changed from a misdemeanor to a Class C misdemeanor (Section 307.365).

Under the act, the punishment for school bus inspection violations is changed from a misdemeanor to a Class C misdemeanor (Section 307.375).

Under the act, the punishment for violating Missouri's motor vehicle safety inspection regulations is changed from a misdemeanor to an infraction (Section 307.390).

Under the act, the punishment for violating certain commercial motor vehicle regulations is changed from a Class B misdemeanor to an infraction (Section 307.400).

This act provides that for an infraction, all court costs, fees, surcharges, and other charges shall be assessed in the same manner and amount as for a misdemeanor (Section 488.006).

Under this act, an offense is an infraction if it is designated as one, or if a violation can result only in a fine, forfeiture, or other civil penalty. A determination of whether an infraction has occurred shall be made by the filing of a civil action. The action shall be filed by a person who is authorized to bring a criminal action or an action to enforce an ordinance. The action will be brought in the name of the state or the appropriate political subdivision. An infraction violation shall be proved by a preponderance of the evidence but shall not be tried by a jury. If an infraction violation is proven, judgment shall be entered for the plaintiff.

This act requires any driver to stop on signal of any law enforcement officer and to obey any reasonable signals of such officer given in the course of enforcing any infraction. Any person who fails or refuses to obey any such signal or who resists an officer while enforcing any infraction, shall be guilty of a Class A misdemeanor (Section 556.021).

SB 343 - This act modifies various provisions of law relating to transportation.

TRANSPORTATION COMMISSION LEADERSHIP - Under this act, the chair and vice chair of the commission are given the option to rotate positions. The current law requires the vice chair to assume the position of chair when the one year term of the chair expires (Section 226.030).

HAZARDOUS MATERIAL DEFINITION - This act modifies the definition of hazardous materials to correspond with federal law and regulations. This provision is also contained in SB 58 (2009) (Section 302.700).

CDL MILITARY EXEMPTION - This act provides that a military member while driving a vehicle for military purposes is exempt from possessing a CDL. Current law provides that the military member must be driving a military vehicle to qualify for the exemption (Section 302.775). This provision was contained in SB 58 (2009), SS/SCS/SB 761 and 774 (2008) and SS/SCS/SB 239 et al (2007).

FARMER CDL EXEMPTION - This act clarifies the CDL exemption for persons driving farm vehicles. In order to qualify for the exemption, the farm vehicle must be controlled by a farmer or family member, be used to transport agricultural products, machinery, or supplies to or from a farm, not be used in the operations of a common or contract carrier, and be used within 150 miles of the farmer's farm (Section 302.775). SB 344 – This act allows the Governor to establish the "P-20 Council" as a private-not-for profit corporation on behalf of the state. The purpose of the P-20 Council will be to create a more efficient and effective education system to more adequately prepare students for entering the workforce and will be reflected in the articles of incorporation and bylaws.

The Council's board of directors will consist of thirteen members, including the Director of the Department of Economic Development, the Commissioner of Higher Education, the Chairperson of the Coordinating Board for Higher Education, the President of the State Board of Education, the Chairperson of the Coordinating Board of Early Childhood, and the Commissioner of Education as well as seven members appointed by the Governor as described in the act.

The Council may receive and borrow money, enter into contracts, and spend money for activities appropriate to its purpose. Duties of the Council may include: studying the potential for a state-coordinated economic and educational policy; determining where obstacles make state support of certain programs difficult; creating programs; and exploring ways to better align academic content. The Council must submit an annual report to the Governor and General Assembly containing information about its operations.

Any debts incurred by the Council will not be considered debt of the state. The Council is subject to an annual audit by the State Auditor and the Council must pay for the cost.

This act allows the Department of Economic Development, the Department of Elementary and Secondary Education, and the Department of Higher Education to contract with the Council for activities described in the

act.

This act repeals the statute requiring the Commissioner of Higher Education, the Chair of the Coordinating Board for Higher Education, the Commissioner of Education, the President of the State Board of Education, and the Director of the Department of Economic Development to meet and discuss ways to create a more efficient and effective education system.

*** SB 347 ***

1565S.011

SENATE SPONSOR: Mayer

SB 347 - This act establishes the Uniform Child Custody Jurisdiction and Enforcement Act (UCCJEA) to replace the current Uniform Child Custody Jurisdiction Act. This act limits child custody jurisdiction to one state, avoids competing orders, and provides enforcement provisions for child custody orders. This act establishes orders of priority and guidance on issues regarding establishing initial custody determinations, continuing jurisdiction, modification of custody determination, and emergency orders.

The UCCJEA establishes an order of priority for determining which state has proper jurisdiction to make an initial determination of child custody. The order of priority includes a determination of (1) the child's home state, (2) the state in which the child and at least one parent have a significant connection and substantial evidence concerning the custody determination is available or (3) the state having an appropriate connection with the child.

The child's home state is defined as the state where the child has lived with a parent for six consecutive months prior to the commencement of the proceeding, or since birth, for children younger than six months.

Once a state court has made a custody determination, the state keeps exclusive and continuing jurisdiction over all matters concerning the child until circumstances have changed regarding home state status, or there is no longer a significant connection to the state or evidence concerning the child's custody is no longer available in that state. The circumstances are specified in the act.

Also, once a custody determination has been made, a court of another state does not have authority to modify the determination unless the state with jurisdiction determines that it does not have jurisdiction or any state court determines that the child, parents, or any acting parents do not reside in the state which currently has jurisdiction.

A state which does not otherwise have jurisdiction may enter a temporary emergency order if the child is in danger and needs immediate protection. After issuing the order, the state court should determine if there is an existing custody order from another state in effect. If there is an existing order, the emergency court must allow a reasonable time period for the parties to return to the state having jurisdiction and argue the issues to the court with jurisdiction.

If there is no previous child custody order in existence, the emergency court's order will remain in effect until a determination is made in a court having home state jurisdiction over the child. If no determination is made and the emergency court's state becomes the home state of the child, the emergency order becomes a final determination of custody.

This act is substantially similar to HB 187 (2009), HB 1358 (2008), SB 495 (2007) and HB 470 (2007).

SB 351 - Under current law, when the state makes a local sales tax refund to a taxpayer, the state makes payment, which may include interest, to the taxpayer. Then the director of the Department of Revenue deducts the amount of payment from the local government's next local sales tax remittance. This act prohibits the director of the Department of Revenue from withholding remittance of local sales tax revenues to recoup interest payments made due to a local sales tax refund and makes the payment of interest allowed in such a refund the exclusive liability of the state. Where a local sales tax refund would result in a reduction for a remittance period in excess of forty percent, the director of the Department of Revenue may limit the deduction from the local sales tax remittance to not more than fifteen percent of the total amount of the local sales tax refund per remittance period to offset a local sales tax refund. Where the director limits deductions from local sales tax remittance, the refund will be made in installment payments in an amount equal to the deductions. Any person seeking a sales tax refund must provide the department with a plan to remit the refund to the individual or customer who actually paid the tax. If the plan is approved, the a refund will be issued. Material failure to follow the provisions of the plan will result in full repayment of the refund and the imposition of a penalty equal to three times the amount of the refunded amount.

SB 352 – This act establishes a Commission on the Reorganization of State Health Care which shall have as its purpose the study, review and recommendation of creating a Division of State Health Care within the Office of Administration. The proposed new division would be dedicated to providing health care coverage for all state employees, dependents, retirees and those recipients of MO HealthNet and the State Children's Health Insurance Program (SCHIP) by focusing the purchasing power and streamlining the administration of the state's health care purchasing.

The commission will consist of sixteen members. Four members will come from the legislature, three will be the directors of the Department of Insurance, Financial Institutions and Professional Registration, Social Services and the MO HealthNet Division, one will be the commissioner of the Office of Administration, one will be a member of the Board of Curators of the University of Missouri and the others will be representatives or directors from the various groups that are assimilated under the new Division of State Health Care.

The commission shall submit a report to the General Assembly and governor by December 31, 2009, on the creation of the new division, which will serve through three implementation phases as the lead planning state entity for all health issues in the state.

The commission shall designate a work group to provide analysis on the recommendations required of the commission consisting of members representing any health policy center or program from the public institutions of higher education in the state.

The commission shall also investigate coordinating and purchasing health care benefit plans, during the second phase, for employees of the public schools, community colleges and political subdivisions of the state. The study shall also include the feasibility of creating and administering insurance programs in the third phase for small businesses and the uninsured in the state.

The provisions of this act shall expire on February 1, 2010. This act has an emergency clause.

SB 353 - This act modifies provisions of law which authorize a tax credit for qualified research expenses. The tax credit is limited to research expenses incurred in the research and development of agricultural biotechnology and plant genome products, and prescription pharmaceuticals consumed by animals. The act modifies the time-line for application and issuance of tax credits under the program. Under current law, no qualified research expense tax credits may be approved, awarded or issued after January 1, 2005. This act removes the prohibition on approval and issuance of tax credits and increases the annual tax credit cap from nine million seven hundred thousand to ten million dollars. The director of the Department of Economic Development may allow taxpayers to transfer, sell, or assign up to forty percent of tax credits between January 1, 2010, and December 31, 2016, provided such taxpayer files an application providing certain information regarding such transfer. In the event the amount of claims for tax credits exceed the annual cap, the act provides a method for pro rating issuance of tax credits.

This act is similar to the provision of Senate Bill 1188 (2008) and House Bill 312 (2009).

SCS/SB 355 - Under this act, a motor vehicle dealer, boat dealer, or powersport dealer may fill in the blanks on standardized forms in connection with the sale or lease of a new or used motor vehicle, vessel or vessel trailer if the dealer does not charge for the services of filling in the blanks or otherwise charge for preparing documents. The act allows such dealers to charge administrative fees for the storage of documents or any other administrative or clerical services and a portion of the administrative fee may result in profit to the dealer.

Under the act, no dealers that sell or lease motor vehicles, vessels, or vessel trailer and impose administrative fees of less than \$200 in the connection with the sale or lease of such vehicles shall be deemed to be engaging in the unauthorized practice of law.

If an administrative fee is charged, the administrative fee shall be charged to all retail customers, and disclosed on the retail buyer's order form as a separate itemized charge. The act requires certain paperwork provided to the purchaser to include the amount of the administrative fee and a statutory notice informing the purchaser that the administrative fee is not required by law and that no portion of the fee is for the drafting, preparation or completion of documents.

The act provides that if a court determines that the charging of an administrative fee constitutes the unauthorized practice of law, then no person who paid that administrative fee may recover the fee or treble damages and the dealer who charged that fee shall not be guilty of a misdemeanor, as provided by Missouri's unauthorized practice of law statute.

The provisions of this act are similar to those contained in HB 630 (2009).

SB 356 - This act modifies the infraction of abandoning a boat dock by making the infraction apply universally to the waters of this state rather than just to lakes having at least 950 miles of aggregate shore

line (Section 306.903). This act modifies the law which requires certain dock owners to display identifying information on the dock.

Under the terms of the act, persons owning boat docks on lakes having at least 950 miles of shorelines and lakes constructed or maintain by the U.S. Army Corps of Engineers must display the appropriate 911 street address near the dock. The act details how the 911 address must be displayed (lake side, visible from channel or cove, 3" lettering, etc.). The failure to display identifying dock information is an infraction (Section 306.903).

Under the terms of this act, any person who possesses expanded polystyrene or glass containers (including beverage containers) within 50 feet of a river or stream is guilty of a class C misdemeanor. This provision does not apply to developed campgrounds, picnic areas, landings, roads or parking lots within 50 feet of river or stream (Section 306.105).

SB 360 - This act requires that individuals acting as mortgage loan originators for residential property be licensed. Mortgage loan originators must also be employed, act under the supervision of a Missouri licensed residential mortgage broker, and register with the National Mortgage Licensing System and Registry "NMLSR". These requirements are not effective until July 31, 2010.

Certain individuals are exempt from licensing, including: mortgage loan originators registered with NMLSR and employed by certain entities, individuals offering or negotiating terms of residential mortgage loans with or on behalf of an immediate family member, individuals offering or negotiating terms of residential mortgage loans secured by their own residence, and certain attorneys who negotiate the terms of a residential mortgage loan on behalf of a client.

Independent contractor loan processors or underwriters for residential real estate must also be licensed as mortgage loan originators, have a unique identifier issued by NMLSR, and certify annually to the Director of the Division of Finance that they will comply with requirements applicable to mortgage loan originators.

Non-federally insured credit unions which employ loan originators must register the loan originators with the NMLSR.

The director of the Division of Finance is authorized to establish licensing rules or regulations for mortgage loan originator licensing. The director may establish expedited procedures for licensing of individuals previously licensed in Missouri as residential mortgage loan brokers. The director is authorized to establish the application form, and enter into relationships and contracts with the NMLSR to collect and maintain records and process fees. The director is also required to establish a process for mortgage loan originators to challenge information entered into NMLSR.

An applicant for licensing as a mortgage loan originator must furnish NMLSR with their fingerprints, personal history, and authorize NMLSR to get their credit report and information related to any administrative, civil, or criminal findings by any governmental agency. Residential mortgage brokers subject to this act must also submit reports to the NMLSR.

Licensees are also required to have continuing education of at least eight hours a year in certain subjects. Provisions for the types of continuing education allowable are included.

The director shall not issue a mortgage loan originator license to anyone, unless the director finds that the applicant: has never had a mortgage loan originator license revoked in any governmental jurisdiction, has not been convicted of certain felonies, or any felony in the last seven years, has demonstrated financial responsibility, character, and fitness for licensing, has completed pre-licensing education requirements, which include at least twenty hours of NMLSR approved courses in specific areas, has passed a NMLSR written test, and met a surety bond requirement.

Standards for renewing mortgage loan originator licenses are also provided. The director is also authorized to adopt procedures for the reinstatement of expired licenses.

The director is authorized to deny licenses to applicants, discipline licensees, order restitution, impose fines, issue cease and desist orders, and order other affirmative action as the director deems necessary.

Letters denying or declining to renew a license may be appealed to the residential mortgage board pursuant to the Missouri Administrative Procedure Act. All other matters presenting a contested case involving a licensee may be heard by the director pursuant to the Missouri Administrative Procedure Act. The civil penalty the director may impose is a maximum of \$25,000 per violation.

Mortgage loan originators are required to be covered by the surety bond of the licensed mortgage broker who supervises them. Residential mortgage brokers shall deliver a surety bond to the director prior to the issuance or renewal of a license. The director may promulgate rules or regulations with respect to the requirements of the surety bonds. Provisions regarding the amount of the bond and filing of the bond are also included.

Provisions for the confidentiality of certain information provided by licensees to the director and to the NMLSR are included. Information regarding the employment history and publicly adjudicated disciplinary and enforcement actions against residential mortgage brokers and mortgage originators will be accessible to the public.

The director has the authority to conduct investigations and examinations. The director's investigatory powers and certain actions which would violate the act are specified. The director is required to report violations and other relevant information to the NMLSR.

The unique identifier assigned to each person originating a residential mortgage loan and the residential mortgage loan broker license number must be on all residential mortgage loan application forms, advertisements, business cards, websites, and any other documents as established by the director.

Residential mortgage loan brokers who are licensed by the director are required to report each mortgage loan originator employed under their supervision to the director and report any apparent violations to the director within ten days of detection. The director can grant waivers of the residential mortgage loan broker licensing requirement.

Residential mortgage brokers are required to disclose a loan disclosure statement and fee agreement. Mortgage loan originators may only be compensated by the mortgage loan broker that employs them. If the mortgage broker receives fees greater than the amount they disclosed, they shall forfeit double the amount of fees and compensation to the borrower.

The requirement that a mortgage broker have annual audits is repealed.

1862S.02C

SENATE SPONSOR: Griesheimer

SCS/SB 363 - This act allows the Department of Revenue to appoint motor vehicle dealers to act as agents for purpose of registering and licensing motor vehicles and collecting motor vehicle sales and use taxes. Beginning January 1, 2012, any motor vehicle dealer may collect and remit sales and use tax on the motor vehicles it sells at the time of sale. The motor vehicle dealer may retain 2% of the sales tax (Section 144.145).

Under current law, a person who sells a motor vehicle may deduct the sales price of such vehicle from the sales price of a subsequently purchased vehicle for purposes of paying motor vehicle sales tax provided the vehicle is purchased within 6 months of the date of sale. This act modifies this particular trade-in credit rule by requiring the director to impose a tax on the sales price of the subsequent vehicle of no less than 80% of the vehicle's value (Section 144.025).

The act explicitly provides that for purposes of paying sales taxes on motor vehicles, trailers, and boats, in nonretail transactions, the purchase prices shall mean not less than 80% of the vehicle's value. For retail transactions, the purchase price of a vehicle shall mean the total amount of the contract price agreed upon between the seller and buyer (Section 144.070).

The act also creates new penalties (monetary and suspension of business licenses) for failing to remit sales taxes to the Department of Revenue in a timely manner (Section 144.080). The act requires the Department of Revenue to issue a credit on the next quarterly tax remittance to any seller for any amounts remitted for satisfying and returning any tax obligation on behalf of a purchaser causing a credit card reversal or presenting insufficient monetary instruments for tax imposed (Section 144.080).

Under current law, refunds made to purchasers who return items to sellers may be deducted from the seller's gross receipts return that it files with the Department of Revenue provided the seller has returned to the purchaser all tax previously paid. Under this act, sellers who are motor vehicle dealers or financial institutions that finance sales, and the personal property or motor vehicle is repossessed, do not have to return tax previously paid by the purchaser in order to obtain the gross receipts deduction (Section 144.130).

SB 364 - This act creates the "Television Electronic Recycling Act".

Television manufacturers shall not sell televisions in Missouri unless the manufacturer's name and brand are affixed on the televisions. By January 1, 2011, any television manufacturer who intends to sell televisions in Missouri must register with the Department of Natural Resources and pay an initial registration fee of \$2,500. Each television manufacturer shall be required thereafter to pay a renewal fee of \$2,500 by January 1st of each year. The registration shall list all the brands used by the television manufacturer.

Beginning in 2012, each television manufacturer who sells televisions in Missouri must recycle a certain amount of discarded televisions based on that manufacturer's market share of televisions sold in Missouri during the previous year. Manufacturers may fulfill this requirement in conjunction with other manufacturers. By January 31, 2012 and on an annual basis thereafter, each television manufacturer must report to the department the amount of televisions it collected and recycled during the previous year.

Beginning January 1, 2011, retailers may only sell televisions of manufacturers who have registered with the department and only televisions labeled with the manufacturer's name and brand. Also by that date, retailers must provide information to their customers regarding television collection and recycling services, which includes the department's website and phone number.

Retailers are not liable for any information left on televisions that they collect and recycle.

The act provides procedures for the department to best determine each television manufacturer's market share and requires the department to notify each manufacturer of the amount it should recycle by March 15, 2012 and annually thereafter.

The department is required to conduct certain information/education activities for consumers.

The department and the Attorney General may enforce the provisions of the act. Any television manufacturer who fails to label its televisions or fails to recycle televisions may be assessed a penalty up to \$10,000 for a first violation, and up to \$25,000 for second or subsequent violations. Individuals or retailers who violate the act's provisions may be subject to a penalty up to \$1,000 for a first violation, and up to \$2,000 for second or subsequent violations. The department shall use the proceeds from paid penalties to offset costs incurred in administering this act and to provide grants to local governments that recycle televisions.

Any financial or proprietary information reported to the department under the act is exempt from the Sunshine Law.

The department shall annually issue a report to the General Assembly based on information reported by manufacturers. The act requires all televisions collected and recycled to be done in accordance with all other laws and requires the department to adopt the Institute of Scrap Recycling Industries, Inc.'s Electronics

Recycling Operating Practices in its requirements.

State bidding procedures for televisions must ensure that the requirements of the act are met in any state purchase of televisions.

SB 365 - This act establishes licensing standards for different types of clinical laboratory science personnel. The act licenses clinical laboratory scientists, categorical laboratory scientists, clinical laboratory technicians and clinical laboratory assistants.

The act establishes the Clinical Laboratory Science Board consisting of seven members appointed by the Governor with the advice and consent of the Senate. Among other duties, the board shall establish educational standards and continuing education requirements.

Applicants for licensing are required to be at least 18 years old, submit an application, pay a fee, submit to a background check, pass certain examinations, and meet specific educational requirements.

Temporary licenses are allowed and licensees may be placed on inactive status under certain circumstances. Procedures are established for denial and discipline of licenses and for the review of those administrative decisions.

The board is also authorized to seek injunctions against unlicensed clinical laboratory science personnel and subpoena individuals and documents.

Two years after August 28, 2009, any person who violates this act shall be guilty of a Class A misdemeanor.

SB 368 - This act provides that a person operating a motorcycle or bicycle who enters or crosses an intersection controlled by a traffic-control signal against a red light shall have an affirmative defense to that charge if the person establishes all of the following conditions:

- (1) The motorcycle or bicycle has been brought to a complete stop;
- (2) The traffic signal continues to show a red light for an unreasonable time;
- (3) The traffic signal is apparently malfunctioning or, if programmed or engineered to change to a green light only after detecting the approach of a motor vehicle, the signal has apparently failed to detect the arrival of the motorcycle; and
- (4) No motor vehicle or person is approaching on the street or highway to be crossed or entered or is so far away from the intersection that it does not constitute an immediate hazard.

The affirmative defense applies only to a violation for entering or crossing an intersection controlled by a traffic-control signal against a red light and does not provide a defense to any other civil or criminal action.

A similar provision was contained in SB 614 (2007) and SCS/SB 969 (2006).

This provision is also contained in SS/SCS/SB 239 et al (2007).

*** SB 373 ***

0782S.021

SENATE SPONSOR: Mayer

SB 373 – For the school year beginning July 1, 2010, students currently enrolled in a public school may enroll in a public school in another school district. The student's parent or guardian must notify the child's school district of residence and the receiving district by January 15 of the preceding school year of the intent to change the child's enrollment on an application prescribed by the Department of Elementary and Secondary Education. If a parent fails to provide notification by January 15, he or she may do so until the third Friday in July of that calendar year provided that the parent has good cause to do so, as described in the act. An application for enrollment may be granted at any time with the approval of the child's school district of residence and the receiving district.

Each school district must adopt a policy outlining appropriate class size and teacher-pupil ratios for all grade levels. No school district is required to admit students if doing so would violate its class size and teacher-pupil ratio. If a school district denies entry to any student, it must state grounds for such denial. School districts must maintain records on the number of transfers requested into and out of the district, the number of pupils it accepts, and the number of pupils it denies.

A parent who enrolls his or her child in another school district under this act may return the child to the school district of residence at a later time. If the parent returns the child to the school district of residence, the parent cannot reenroll the child in the other school district. However, the parent may request enrollment in a different school district by following the procedures in this act.

For students receiving special education services, a request to enroll in another district will only be approved if the receiving district maintains a special education program appropriate for the child. Also, the child's enrollment in the receiving district must not exceed the maximum class size. In addition, a member of the IEP team in the school district of residence must be part of the IEP team in the receiving district for any initial planning sessions. The board of education of the school district of residence must pay the receiving district the actual costs incurred in providing the special education.

Any students who enroll in other school districts under this act will be counted, for state school foundation aid purposes, in the student's school district of residence. The school district of residence must pay the receiving district for the student's attendance as described in the act. If a student enrolled in another school district under this act moves to a different school district during the academic year, the first school district of residence must continue paying the receiving district for the remainder of the school year. The new school district of residence must pay for any subsequent years.

The parent is responsible for providing transportation. A school district may provide transportation to a student to and from a point on an existing bus route provided the parent transports the child to that point.

Participation in interscholastic athletics will be governed by the requirements and eligibility standards of the Missouri State High School Activities Association (MSHSAA).

This act is similar to HB 2482 (2008).

SB 376 - This act creates the Missouri Residential and Small Business Energy Efficiency Investment Act.

The Public Service Commission (PSC) must allow electric and natural gas companies to implement and recover costs related to PSC-approved energy efficiency programs aimed at customers. The PSC must develop cost recovery methods that value energy efficiency investments at least the same as, if not more than, traditional supply-side investments. Such methods must also account for lost energy sales associated with energy efficiency. The act provides ways for the PSC to develop cost recovery methods that provide incentives for the companies to further increase their investment in energy efficiency programs.

The PSC may reduce or exempt energy efficiency costs for low-income customers. No customer of any rate class shall pay more than \$5,000 per month for energy efficiency-related costs.

Electric and gas companies must annually report on their energy efficiency activities under the act, with requirements as listed.

SB 382 - This act requires hospitals to report whenever they have a "serious reportable event in health care," as identified by the National Quality Forum. Such events include wrong-site surgery, retention of a foreign object in a patient after surgery, and death or serious disability associated with medication error.

The procedure for hospitals reporting such events to a patient safety organization are prescribed in the act. The requirements for a patient safety organization are also prescribed in the act. The patient-identifying data shall be redacted from information provided to the patient safety organization. The initial report of the event shall be reported to the patient safety organization no later than the close of business on the next business day following discovery of the incident. The initial report shall include a description of immediate actions taken by the hospital to minimize the risk of harm to patients and prevent reoccurrence. Within 45 days after the event occurred, the hospital shall submit to the patient safety organization a root cause analysis and a prevention plan.

The patient safety organization shall assess the information provided from the hospital and furnish the hospital with findings and recommendations as to how to prevent future incidents.

The patient safety organization shall publish an annual report to the public on reportable incidents. The report shall show the number and rate per patient encounter by region and by category of reportable incident and may identify reportable incidents by type of facility. For purposes of the report, the state shall be divided into no fewer than three regions, with the St. Louis metropolitan statistical area being one of the regions.

This act provides for certain legal protections of patient safety organization documents. The proceedings and records of the organization shall not be subject to discovery or introduction into evidence in any civil action against a provider. However, information otherwise available from original sources shall not be immune from discovery or use in any civil action if they were presented during a patient safety organization meeting. Patient safety work product shall be privileged and confidential pursuant to the federal Patient Safety and Quality Improvement Act of 2005.

SB 388 - This act modifies various provisions relating to foster care and adoption.

This act provides that any employee of the Children's Division of the Department of Social Services may choose to become qualified or licensed as an emergency placement provider, a respite care provider, or a licensed foster home. Any employee who becomes qualified or licensed shall not provide care for any child in his or her caseload, but may, upon supervisory approval, choose to transfer the case to another employee in order to be able to provide such care. Sections 210.482, 210.486.7, and 210.545.

Also, the Children's Division is required to establish procedures and promulgate rules to provide applications to become a licensed foster or preadoptive home, and approximately one half of all training, education, or other coursework to become licensed shall be available and able to be completed on an Internet web site created and maintained by the division. Section 210.486.8.

This act requires the guardian ad litem to ascertain the child's wishes and feelings about potential foster care placement or adoption by conducting an interview or interviews with the child, if appropriate based on the child's age and maturity level. The child's wishes and feelings shall be considered as a factor when the children's division makes decisions and recommendations regarding foster care placement, and shall be considered by the court as a factor in determining if adoption is in the child's best interests. Such consideration shall not supersede the preference for placement with relatives. Section 210.565 and 453.030.

This act also provides that if an employee or agent of the children's division knowingly provides incorrect information to a foster parent or prospective adoptive parent in order to secure placement of a child, or knowingly fails to provide information that is pertinent to the care of the child or the protection of the foster family, the action shall result in three days suspension without pay, and shall be recorded and kept on record by the division. If an employee or agent of a licensed child placing agency knowingly provides such incorrect information or fails to provide such pertinent information to a foster or prospective adoptive parent, the action

shall also result in three days suspension without pay, shall be recorded and kept on record by the licensing division or department following consideration as to whether such action constitutes a basis for suspension or revocation of the agency's license. Sections 210.566 and 453.026.

This is identical to SB 1242 (2008).

SB 389 - This act modifies provisions regarding public officials, lobbyists and campaign finance.

Under this act, the per diem for Senators and Representatives is raised from 80% to 100%.

The act imposes certain disclosure and reporting requirements for certain public servants who are offered bribes.

Public officials and state employees are barred from lobbying while in an elected position or employed in the state and are further barred from lobbying for two years after leaving their respective office or employment.

Members of the General Assembly are barred from accepting meals, food, beverages, and other gifts from lobbyists but they may reimburse the lobbyist within 30 days of receiving knowledge of the indiscretion.

Lobbyists shall file supplemental reports documenting the name and address of each of their clients and the monetary value of all payments paid to the lobbyist. Lobbyists shall supply copies of all reports required by the ethics commission to each new client. Lobbyists shall notify clients when they enter a contract to represent a client with materially adverse interests.

Appeals for ethics complaints are directed to the circuit court of Cole County instead of the Administrative Hearing Commission.

Treasurers of committees may only act as such for one committee at a time.

This act reinstates the campaign contribution limits that were repealed in the previous legislative session. The limits are \$325 for candidates for the House of Representatives, \$650 for Senate candidates and \$1,275 for candidates for statewide office. Previously, candidate committees, exploratory committees, campaign committees, and continuing committees which were not political party committees were subject to the same contribution limits while political party committees are allowed to contribute a greater amount. This act holds political party committees to the same limits as all other committees.

Continuing committees may not make contributions to any other committee.

Currently, reports for noncommittee expenditures and expenditures for internal dissemination of certain information relating to candidates and ballot issues when made 14 days prior to the election must be filed within 48 hours of the expenditure. Under this act, such expenditures must be made within 24 hours of the expenditure when made 12 days prior to the election.

This act is similar to SB 1102 (2008).

SB 390 – This act modifies the financial assistance amounts provided through the Access Missouri Financial Assistance Program. The financial assistance amounts currently in existence will be applicable only for the 2009-2010 academic year. In addition, this act adds new financial assistance amounts for the 2010-2011 academic year and beyond. A student attending an institution classified as part of the public two-year sector will be eligible for \$1,000 maximum and \$300 minimum. A student attending an institution classified as part of the public four-year sector, including Linn State Technical College, or approved private institutions will be eligible for \$2,850 maximum and \$1,500 minimum.

SENATE SPONSOR: Shoemyer

SB 397 - This act creates the Board of Auto Body Repair and sets out the requirements for membership on the board. This board would license auto body repair facilities, excluding those who specialize in certain services, and license physical damage appraisers.

AUTO BODY REPAIR FACILITIES

As requirements for licensing, auto body repair facilities must submit an application to the board, pay a licensing fee of \$250 annually, have all required state and federal licenses, permits, and registrations, provide proof of insurance, provide proof of compliance with EPA and OSHA training requirements, provide proof that employees have completed current National Institute for Automotive Service Excellence (ASE) for the type of work being performed, possess or have access to proper equipment, possess an enclosed area for spray painting refinish operations, and possess an acceptable current reference source for estimating the cost of repairs. To renew their license the facility must prove completion of continuing education.

Facilities may apply for temporary licenses for up to ninety days to have time to come into compliance with licensing requirements. Facilities that have operated for a certain time period can obtain a provisional license to allow them one calendar year to meet these requirements, except the continuing education requirements must be commenced within ninety days. Facilities must post their license and their retail labor rates.

Temporary paintless dent repair businesses are required to pay licensing fees and comply with other requirements.

A vehicle owner who signs a repair order with a auto body repair facility will be deemed to have a contract with that facility. The facility will be entitled to recover the cost and expenses from the vehicle owner if the owner cancels the contract before the repair work is complete. Costs are payable before the vehicle is removed from the facility's premises.

The board is authorized to file complaints with the Administrative Hearing Commission for specific violations and to discipline the facility license. The board may also seek an injunction against anyone who operates an auto body facility without a license. Among other powers, the board has the power to inspect the facility, issue rules and regulations to administer this act, investigate complaints, and impose civil penalties.

AUTO BODY PHYSICAL DAMAGE APPRAISERS

Among other requirements, to be licensed as a physical damage appraiser an individual must submit an application, have certification from the National Institute for Automotive Service Excellence in Damage Analysis and Estimating, comply with continuing education requirements, pay a licensing fee, and provide evidence that any entity on whose behalf they prepare or alter estimates is licensed as a corporation in Missouri.

Applicants who have been employed as appraisers for a certain time period can obtain a provisional license. Appraisers licensed in other states shall have their license recognized in Missouri in the case of catastrophic losses, after submitting information as required by the board, and paying a temporary permit fee.

The board is authorized to file complaints with the Administrative Hearing Commission for specific violations and to discipline the appraiser's license. Among other powers, the board has the power to issue rules and regulations to administer this act, impose civil penalties, and seek injunctions.

Estimates of damage must be prepared using accepted manuals or systems. Estimates prepared by a facility with a certain appraisal system that are questioned by an insurer are only subject to audit by the same appraisal system. A physical inspection of the vehicle is required when the extent of damage is in dispute. The retail labor rates of auto body repair facilities must be used to determine any prevailing labor rate.

Physical damage appraisers, insurers, and other individuals are prohibited from engaging in certain behavior with regard to motor vehicles with damage. All estimates for physical damage claims written on behalf of an insurer must include a notice that vehicle owners have the right to choose the repair facility of their choice and that no one shall use intimidation to change the owner's choice.

SB 399 - In Jackson County, the court shall stay the sale of any tax parcel to be sold under execution of a tax foreclosure judgment, which is the subject of an action filed under the provisions governing nonprofit organizations taking possession of certain abandoned property, if the party which brought such action has paid into the court the principal amount of all land taxes due under the tax foreclosure judgment prior to the date of any proposed sale under execution. The party bringing such action shall provide written notice of the filing to the court administrator and file with the court a certificate that such notice has been provided to the administrator.

Upon the court granting temporary possession of the abandoned property to the nonprofit organization, and also upon approval of the sheriff's deed for such property, the circuit court shall direct payment to the county collector of all principal land taxes already paid to the court. When granting a sheriff's deed, the court shall also order the permanent extinguishment of liability against the grantee of the sheriff's deed and all successors in interest, except for any defendant in such action. The funds paid to the court for land taxes shall then be paid to the county collector. If the owner of the abandoned property moves the court for restoration of the property, he or she must pay all land taxes due, including penalties, interest, fees, and costs.

If the party which brings such an action, dismisses its action prior to gaining temporary possession, it shall recover the money paid to the court prior to the date for principal land taxes. If the owner of the tax parcel regains possession, the party bringing the action shall recover from the owner an amount equal to that paid by the party.

1702S.011

SENATE SPONSOR: Scott

SB 405 - This act revises several provisions relating to manufactured homes. Most notably, the law revises the procedure for obtaining a title to an abandoned manufactured home.

NOTICE TO BUYER OF USED HOME SETUPS - Under this act, a manufactured home dealer may have his or her license suspended or revoked for failing to provide notice to a purchaser of a used manufactured home that the Public Service Commission does not regulate setup of used manufactured homes (Section 700.100.3(7)).

MANUFACTURED HOME BENEFICIARY TITLES - This act allows owners of manufactured homes who own the home as joint tenants with the right of survivorship or as tenants by the entirety to receive a certificate of

ownership in beneficiary form from the Director of the Department of Revenue. The certificate of ownership shall direct the director to transfer the certificate on the death of the owners to the beneficiaries. A certificate of ownership in beneficiary form shall not be issued to persons who hold their interest in a manufactured home as tenants in common.

During the lifetime of the owners, the signature of the beneficiary shall not be required for transactions relating to the manufactured home. The owner may revoke the certificate of ownership or change beneficiaries before the death of the owner under certain conditions. For instance, the certificate of ownership may be revoked by the sale of the home with proper assignment of certificate of ownership. The certificate of ownership in beneficiary form may also be revoked by filing an application to reissue the certificate of ownership with no designation of a beneficiary or with the designation of a different beneficiary.

A beneficiary's interest in the home shall be subject to contracts of sale, assignments of ownership, or security interests which to which the owner or owners were subject to during their lifetime. A beneficiary interest in a certificate of ownership may not be changed or revoked by will or other instruments.

The director shall issue a new certificate of ownership to the surviving owners or beneficiaries upon proof of death (Section 700.330).

RELEASE OF LIEN ON ELECTRONIC CERTIFICATE OF OWNERSHIP - This act requires a lienholder to notify the director within 10 business days of any release of a lien if an electronic certificate is being held by the director. The director shall note the release on the electronic certificate and deliver the certificate free of any lien to the owner if no other lien exists (Section 700.370).

This act requires persons who hold security interests in manufactured homes to verify to the Department of Revenue that he or she has paid the landowner in which the manufactured home was repossessed from all past due rent that the holder is obligated to pay under this act (Section 700.385).

ABANDONED MANUFACTURED HOME - Under this act, a manufactured home situated upon land of another person pursuant to a rental agreement shall be deemed abandoned if:

- (1) The property owner reasonably believes the homeowner has vacated the premises and does not intend to return;
- (2) The rent is past due for 30 days; and
- (3) The homeowner has failed to respond to the landowner's notice or has failed to contest a petition regarding the issue of abandonment (Section 700.526).

LIEN AGAINST MANUFACTURED HOME FOR UNPAID RENT - Under this act, a landowner shall have a lien for unpaid rent against a manufactured home if the home is abandoned on the landowner's land and is not subject to a lien perfected Sections 700.350 to 700.380.

The process for enforcing the lien on unpaid rent is modified under the act. The landowner must provide the manufactured home owner notice before enforcing the lien. The landowner must give the manufactured home owner opportunity to redeem the manufactured home by paying all unpaid rent. The notice must also advise the home owner of his or her legal rights and that the manufactured home owner may contest the lien filing by filing a petition to that affect in the county circuit court in which the manufactured home is located. If the manufactured home owner does not redeem the home within 30 days from the date of the mailing, and no petition has been filed in circuit court, the real property owner may apply for a certificate of title.

If the Director of the Department of Revenue is satisfied with the contents of the application, a certificate of ownership or certificate of title shall be issued to the land owner (captioned "lien title")(Section 700.527.8).

Upon receipt of the lien title, the holder shall within 30 days begin proceedings to sell the home. The real property owner may recover actual and necessary expenses incurred in obtaining the lien title (including reasonable attorney's fees and advertising costs).

The owner of the home must be given at least 20 days notice of the sale of the home.

The owner of the manufactured home may redeem the home by paying all past due rent and expenses.

If not redeemed, the landowner may sell the home.

The act sets forth how the proceeds of the sale are to be distributed. Any excess proceeds shall be paid to the homeowner. If the homeowner cannot be located within 30 days of the sale, the excess proceeds shall be deposited with the county treasurer. The county treasurer shall credit the excess to the county's general revenue fund, subject to the right of the homeowner to reclaim the excess within three years of its deposit. The act provides that a person who fails to deposit the excess proceeds with the county treasurer shall be liable for double the amount of the proceeds.

A landowner who follows the requirements of this section shall be absolved from any liability resulting from the taking of possession of the home (Section 700.527).

MANUFACTURED HOMEOWNER'S RIGHT TO CONTEST LIEN - The manufactured homeowner may, within 10 days of the mailing of the notice, may contest the real property owner's lien in the home. If the owner contests the lien in circuit court, he or she will have to post a cash or surety bond for the unpaid rent in order to have the home released. Once the bond is posted, the court will direct the land owner to release the home to the home owner. The court will also determine whether unpaid rent is due. The court may direct that the rent be paid from the posted bond or grant the landowner a security interest in the home (Section 700.528).

LIEN FOR REAL PROPERTY OWNER ON AN ABANDONED MANUFACTURED HOME WHERE ANOTHER LIEN EXISTS - If a person abandons a manufactured home on real property of a person who is leasing the land to the manufactured homeowner and there is an existing lien on the home and is in default, the real property owner shall have a lien for unpaid rent against the manufactured home provided the real property owner gives notice to the manufactured home owner and the party holding the lien in the manner set forth by the act.

The notice must contain a statement that if the rent is not paid within 30 days from the mailing of the notice and the lien is not contested, the real property owner will have a lien against the manufactured home which will be superior to the other party's perfected lien. The homeowner and the perfected lienholder shall not remove the manufactured home from the property until the landlord is paid for past due rent. The perfected lienholder is not entitled to a certificate of title from the Department of Revenue until the lienholder has paid all rent it is obligated to pay to the real property owner. The owner of the abandoned home or the perfected lienholder may file a petition, within 10 days of the mailing of the notice, to contest the real property owner's lien. If the court determines that the homeowner or the perfected lienholder owe unpaid rent, the court shall declare a lien in the real property owner's favor (Section 700.529).

The act also repeals several provisions of law relating to Missouri's current procedure for obtaining title to an abandoned manufactured home.

SCS/SB 409 - The current authorization to collect a fee from retailers that sell new tires in Missouri expires on January 1, 2010. This act extends the authorization until January 1, 2020.

The act provides that any unexpended balance in the Solid Waste Management Fund shall not be swept into the General Revenue Fund, and interest earned by the Solid Waste Management Fund shall remain in the Fund.

Under current law, the Department of Natural Resources may use up to 5% of its portion of the tire fees collected for the purpose of educational programs and curricula. The act specifies that the educational programs must be environmentally-related and assist the Department implement the solid waste laws.

Current law allows the Department to use up to 25% of its portion of the tire fees collected to remove tires from illegal tire dumps and address nuisances created by illegal tire dumps. The act increases the percentage of funding that may be used for these purposes to 50%. Similarly, the act increases from 5% to 45%, the amount of its fee revenue that the Department may spend on grants to people who will use products made from scrap tires.

The act allows charitable, fraternal, and other non-profit organizations to be eligible for reimbursement of costs associated with disposal costs of scrap tires collected during a voluntary land or river cleanup event. Local governments may also be eligible for similar reimbursement, provided their costs are not part of their normal operating costs.

1203S.031

SENATE SPONSOR: Stouffer

SB 410 - This act modifies various provisions relating to the laws governing medical malpractice insurance.

This act provides a definition for the term "claim" as it is used in the medical malpractice insurance claims reporting provisions. The act also provides a definition for the term "self-insurer" for those provisions as the act subjects persons and other entities that assume liability for the payment of medical malpractice claims to the data and claims reporting provisions of Sections 383.100 to 383.125 (Section 383.100).

Under the act, the director must submit certain information to appropriate health care licensing boards. The director must also submit a report containing certain medical malpractice claims information to the Department of Social Services so that it can determine whether the injured party was concurrently enrolled in Mo HealthNet when the alleged malpractice occurred.

The act institutes new confidentiality rules related to the disclosure of data related to the medical malpractice claim information submitted to the director. All medical malpractice claims data submitted to the director shall be considered confidential and immune from Sunshine Law requests.

Medical malpractice claims data that is the subject of a filed lawsuit may only be released after the claims are closed and in a prescribed format outlined by the act. All data elements that reasonably could reveal any parties involved, either directly or indirectly, to a malpractice actions or claims, shall be removed prior to making any such data public. Any references to a county or smaller geographic unit shall be suppressed, though county-level data may be released in aggregate form. No records that include any indemnity payments or expense amounts that identify a particular medical specialty may be released on an individual record basis unless there are a minimum of four additional claims during an annual period against practitioners of the same medical specialty for each identifiable unit of geography. All dates shall be anonymized prior to public release. Specific dates shall not be released in any form more precise than the year corresponding to the date. Data that reasonably could identify an insurer shall be anonymized prior to the public release of the individual claim records. The name and any identifying codes of an insurer shall not be made public (Section 383.105).

The act implements new rules regarding the reporting of medical malpractice premium, loss and exposure data. Under the act, insurers and self-insurers must annually report the following:

- (1) Aggregate premium;
- (2) Written and earned premium;
- (3) Aggregate exposure;
- (4) Written and earned exposures; and
- (5) Aggregated indemnity paid and aggregate indemnity incurred by not paid.

The act specifically provides that the medical malpractice claims data and premium data shall be shared with the Health Care Stabilization Fund Feasibility Board in a confidential manner.

The medical malpractice premium, loss and exposure data reported to the director is deemed confidential information under the act and is not discoverable or admissible as evidence in any legal action in any civil, criminal, or administrative proceeding, nor shall any of the data be released by the director to the public.

The act also deems the data collected by the department to be a trade secret. As a trade secret, the submitted data is immune from Sunshine Law requests. The act also deems the data collected by the department to be proprietary and confidential (Section 383.106).

This act provides the directors of the Medical Malpractice Joint Underwriting Association may provide medical malpractice insurance coverage as determined by the directors. The policies may provide coverage on a claims-made, an occurrence, or a prior-acts basis. Under the current law, the association may only issue occurrence-based policies (Section 383.160).

The act also modifies the law with respect to the surcharge paid by association members during their first year of medical malpractice coverage. Under the act, an association member must pay a surcharge in an amount equal to 25% of the member's premium payment (Section 383.165).

This act extends the sunset provision on the Health Care Stabilization Fund Feasibility Board from December 31, 2010, to December 31, 2012 (Section 383.250).

Under current law, a physician or surgeon that practices in a hospital located in a county with a population greater than 75,000 must furnish evidence of a medical malpractice insurance policy of at least \$500,000. This act provides that no hospital shall require a medical malpractice insurance policy in an amount greater than \$500,000 in order to be admitted or retained in the medical staff. Under current law, other hospitals within the state can require their physicians to carry minimum levels of medical malpractice insurance as a condition of membership on a hospital medical staff. This act provides that the maximum level that a hospital may require is \$500,000 (Section 383.500).

*** SB 415 ***

1376S.101

SENATE SPONSOR: Dempsey

SB 415 - This act modifies several provisions of law relating to laws governing health insurance.

TAX CREDIT FOR SMALL EMPLOYEES ENROLLED IN QUALIFIED HSA PLANS - Under this act, small employers who employ less than 50 persons are allowed a tax credit in the amount of \$250 for each employee enrolled in a qualified health insurance plan. Under the act, a qualified health insurance plan is a health savings account eligible health plan (high deductible plan) that is combined with a health savings account in a manner provided by federal law. Under the act, the tax credit may be carried forward to the next 4 succeeding years (Section 135.349).

EXEMPTION FROM STATE AND LOCAL PREMIUM TAXES FOR QUALIFIED HSA HEALTH INSURANCE

PLANS - This act provide an exemption from state and local insurance premium taxes for premiums paid on health savings account eligible plans (high deductible plans) that are sold in Missouri (Section 148.372).

STUDY TO IDENTIFY ADMINISTRATIVE AND REGULATORY BARRIERS FOR NEW INSURANCE PRODUCTS - By January 1, 2010, the Director of the Department of Insurance, Financial Institutions and Professional Registration must provide recommendations to the General Assembly of changes to remove any unnecessary barriers that limit the entry of new health insurance products into the Missouri insurance market. The director must also examine proposals adopted in other states that streamline the regulatory processes to allow insurance companies to market new and existing products more easily (Section 376.1618). This section is contained in HB 229 (2009).

HRA ONLY PLANS - Under this act, employees are allowed to use funds from one or more employer health reimbursement arrangement (HRA) only plans to help pay for individual health insurance coverage. HRAs are employee benefit plans provided by an employer which establish an account funded solely by the employer to reimburse the employee for qualified medical expenses incurred by the employee or his or her family. HRAs allow the employee to carry forward any unused funds at the end of the coverage period to subsequent coverage periods (Section 376.1600). A similar provision is contained in HB 229 (2009).

The act also provides that if an employer provides health insurance to an employee and the employee pays any portion of the cost of the premium, the employer must also provide a premium-only cafeteria plan or a health reimbursement arrangement (Section 376.453). Current law only requires the provision of a premium-only cafeteria plan. This provision is contained in HB 229 (2009).

COINSURANCE AMOUNTS FOR NON-NETWORK SERVICES UNDER A HSA PLAN - Under this act, a health carrier may offer HSA qualified health plans with coinsurance percentage thresholds of 50% or greater for non-network services (Section 376.1606).

PROMOTION AND APPROVAL OF HSA HEALTH PLANS - Under the act, the Director of the Department of Insurance is expressly authorized to adopt policies to promote, approve, and encourage health savings account eligible high deductible plans in Missouri. The act directs the director to conduct a national study of health savings account eligible high deductible health plans available in other states and determine if and how these plans serve the uninsured. The act also directs the Director to develop a fast track approval process for health savings account eligible high deductible plans (Section 376.1603).

HEALTH MANAGEMENT AND DISEASE MANAGEMENT PROGRAMS IN QUALIFIED HSA PLANS - This act expressly allows health carriers to include wellness and health promotion programs, condition or disease management programs, health risk appraisal programs, and similar provisions in high deductible plans that comport with federal law. The programs must be approved by the department. Health carriers that include such programs in high deductible plan shall not be considered to be in engaging in unfair trade practices (Section 376.1609).

MISSOURI MINI-COBRA LAW TO MIRROR FEDERAL COBRA LAW - This act requires group health insurance policies issued by health carriers to employers not covered by the federal COBRA law (employers with 2 to 19 employees) to provide terminated employees with group insurance coverage continuation rights in the same manner as provided by the federal COBRA law (Section 376.428). This provision is contained in HB 231 (2009).

CONTINUATION OF HEALTH INSURANCE COVERAGE FROM AGE 55 - Under this act, every group health insurance policy issued or renewed on or after January 1, 2010, must contain a provision that allows an employee or group member, whose continuation coverage under the federal COBRA law or state's continuation law has expired, to continue coverage under that group policy provided the employee or group member was 55 years or older when coverage under COBRA or the state continuation law expired. The extended continuation coverage provided by this act will terminate upon the earliest of the following:

- 1) The date the employee or group member fails to pay premiums;
- 2) The date the group policy is terminated as to all group members;
- 3) The date on which the employee or group member becomes insured under another group policy;
- 4) The date on which the employee or group member becomes eligible for coverage under the federal

Medicare program; or

5) The date on which the employee or group member turns 65 (Section 376.437).

RATING OF MISSOURI CONTINUATION COVERAGE POLICIES - This act requires health insurance policies that are issued to individuals eligible for continuation coverage under state law to be pooled across all fully insured group business in Missouri. The rating system or methodology in which the premium for all persons covered under a continuation of coverage provision shall be based on the experience of all persons covered by a continuation of coverage provision with any cost of the pool experience spread over all fully insured premiums in Missouri on an equal percentage basis (Section 376.439).

CONTINUATION OF COVERAGE RIGHTS THROUGH A HSA ELIGIBLE HIGH DEDUCTIBLE HEALTH PLAN - This act requires health carriers who provide group insurance policies to persons who are exercising their continuation of coverage rights under COBRA or the state continuation of coverage law (Section 376.428) to offer such persons the option of continuation of coverage through a HSA eligible high deductible plan rather than the underlying group policy. The premiums for the HSA eligible high deductible plans shall be consistent with the underlying group plans rated relative to the standard or manual rates for the benefits provided (Section 376.443).

DEPENDENT COVERAGE - Under current law, proof that a dependent child is incapable of maintaining employment due to a mental or physical handicap and is dependent upon the insured for support and maintenance must be furnished to the health insurer at least 31 days after the dependent child has attained the age when coverage would normally be terminated in order to continue receiving the extended coverage provided by the statutes. This act requires the proof of incapacity and dependency to be furnished within 31 days after the child's attainment of the limiting age. This modification applies to group policies, individual policies and health maintenance organization policies (Sections 354.536, 376.426, and 376.776). These provisions are contained in HB 229 (2009).

The definition of "dependent" is changed in the Small Employer Health Insurance Availability Act to mirror the definition of dependent contained in the HMO, individual and group policy statutes. The definition of "dependent" is revised to be a person that is a spouse, an unmarried child who resides in Missouri and is younger than 25 years of age and is not covered by any group or individual health benefit plan or entitled to federal Social Security assistance benefits, or an unmarried child of any age who is disabled and dependent upon his or her parent (Section 379.930.2).

HIGH RISK POOL LEGISLATIVE STUDY COMMITTEE - This act creates a legislative study committee to research new plan designs and options for the state high risk pool to include rewards and incentives, use of biometrics, wellness, prevention, early intervention, and condition management. The committee shall be comprised of the director of the department of insurance, financial institutions and professional registration, the high risk pool board members, two Missouri Senators and two Missouri House of Representatives members. The committee must submit a report to the General Assembly by March 1, 2010 (Section 376.991).

HIGH RISK POOL ELIGIBILITY (WAIVER OF COBRA EXHAUSTION) - Under this act, a person's eligibility for COBRA or continuation rights under state law shall not render the person ineligible for coverage under the high risk pool (Section 376.966).

GUARANTEED ISSUE HSA ELIGIBLE PLANS - This act requires the high risk pool to offer high-deductible health plans, offered in conjunction with health savings accounts, to be offered on a guaranteed-issue basis (Section 376.987).

*** SB 416 ***

1863S.011

SENATE SPONSOR: Dempsey

SCS/SB 416 - This act allows the governing body of a city, town, village or county to submit a proposal to the voters of such city, town village or county allowing the municipality to impose a property tax to fund

cemetery maintenance. The tax authorized under this act shall not exceed one fourth of one cent per one hundred dollars assessed valuation and shall not become effective until approved by the voters of the city, town village or county.

This act also modifies certain laws regarding cemeteries.

Current law allows the division of professional registration to seek an injunction against certain unlicensed cemetery operators in the county in which the conduct occurred or in which the defendant resides. This act allows the division to also bring suit in Cole County.

Each contract sold by a cemetery operator for cemetery services and items such as grave lots, markers, and tombstones shall meet certain requirements. If these requirements are not met, the contract is voidable by the purchaser.

Except for family burial grounds, individuals and public and private entities are required to notify the office of endowed care cemeteries of the name, location, and address of real estate used for the burial of human bodies.

Cemetery operators are exempted from the prearranged contract requirements of Chapter 436, RSMo.

Currently, cemetery operators are required to correct deficiencies in the funding of endowed care trust funds. This act also requires them to include interest of ten percent of the deficiency and specifies that deficiencies do not include deficiencies caused by the fluctuating value of investments.

The requirements of endowed care trust funds and escrow accounts are modified in several ways. Among other changes, the requirement that a financial institution who serves as the trustee of an endowed care trust be located in Missouri is removed. Cemetery operators have to provide the office of endowed care cemeteries with the name and address of the trustee and records custodian and update the office with any changes. The trust records shall be maintained in Missouri, or electronically accessible. Missouri law shall control all endowed care trust funds and such funds will be administered as charitable trusts and operated in accordance with certain trust requirements. Endowed care cemetery funds may also be held in an escrow account in Missouri. However, if the funds in the escrow account are over 350,000 dollars, in most cases they must be in an endowed care trust fund. Trustees and escrow agents shall consent in writing to Missouri jurisdiction and the supervision of the office of endowed care cemeteries.

Cemetery operators are required to notify the division of professional registration at least thirty days prior to ceasing to do business as a cemetery, selling the business assets of the cemetery, or selling a majority of its stock. If the division does not disapprove, the cemetery operator can continue to take such action. Anyone who sells a cemetery is required to put 15% of the money in escrow for at least six months, so that it can be determined whether any trust fund or escrow account of the former cemetery operator is deficient. If there are deficiencies, the buyer or the division may demand payment from the amount in escrow.

Cemetery operators who sell prearranged burial merchandise and services are required to deposit a portion of the purchase price in an escrow or trust account. These funds are maintained in this account until delivery of the property, performance of the services, or the contract is cancelled. These escrow arrangements and trusts must each meet certain requirements. Cemetery prearranged contracts entered into after August 28, 2009 can be cancelled within thirty days of receiving the executed contract for a full refund and at any time before the services or merchandise are provided, with exceptions, for the net amount of all payments made into the escrow account or trust.

The division is allowed to direct a trustee, financial institution, or escrow agent to suspend distributions from endowed care trust funds or escrow accounts, if the cemetery operator is not licensed or does not meet certain other requirements. The cemetery operator may appeal this suspension.

The act creates a crime for destroying, mutilating, disfiguring, defacing, injuring, or removing without authorization any human remains from a cemetery or burial ground.

Several provisions that previously applied to the city of St. Louis and allowed the sale of certain cemeteries owned by the city and applied to cemetery operators who purchased cemeteries from the city are now applied to all cities.

This act is similar to the Perfected version of Senate Bill 822 (2008).

SB 418 - This act provides that any health plan that provides health care services to low income individuals on a prepaid basis and that meets certain conditions shall not be considered engaging in the business of insurance and shall not be subject to health insurance laws. The plan shall be subject to the following conditions:

- Eligibility for the plan is limited to persons who earn less than two hundred percent of the federal poverty level and are not covered under any other group insurance arrangement;
- The plan is operated on a nonprofit basis;
- Covered primary care services are provided to enrollees either by providers on staff of the sponsoring organization or by volunteers recruited from a local medical society who have, in both instances, agreed to provide their services for free or for nominal reimbursement for out-of-pocket expenses or expendable supplies directly related to, and incurred as a result of, the service provided to the enrollee;
- Payments to outside contractors for marketing, claims administration and similar services total no more than ten percent of the total charges;
- The plan has received the approval and endorsement of the local medical society in consultation with the Missouri State Medical Association;
- The sponsoring nonprofit organization files an annual report with the secretary of state.

This act also provides that any volunteer or retired volunteer licensed physician, dentist, optometrist, pharmacist, registered nurse or licensed practical nurse who provides medical treatment to a patient at a nonprofit faith-based community health center providing health care services for a nominal fee shall not be liable for any civil damages for acts or omissions unless the damages were occasioned by gross negligence or by willful or wanton acts or omissions by such health care provider.

SB 429 – This act requires the Department of Elementary and Secondary Education to designate comprehensive and performance-based teacher assessment programs for use by all school districts and charter schools by July 1, 2010. The assessments may include the Praxis Examination, the National Teacher Examination, or other existing assessment tools. Multiple assessments must be developed to assess teachers according to the subject areas they teach.

Beginning August 28, 2010, any unaccredited school district must require each teacher to be assessed every five years to determine competency in his or her subject areas. The district must use one or more of the assessments developed by the Department. If a teacher fails to demonstrate a minimum level of competency, he or she may retake the assessment no more than one time within three months after receiving notification of failure. A teacher who demonstrates a high level of competency is exempt from assessment for the next five-year period.

This act is similar to provisions contained in SB 690 (2007).

SB 430 - This act creates and modifies provisions pertaining to environmentally sustainable practices.

SECTION 8.305 - Energy-Efficient Appliances

Any appliance purchased with any portion of state funding shall be an Energy Star appliance under the Energy Star program of the U.S. Department of Energy and the Environmental Protection Agency.

SECTION 8.824 - State Buildings

Any state building built, substantially renovated, or acquired for lease after August 28, 2009 must be certified by the U.S. Green Building Council as meeting the silver rating under the Leadership in Energy and Environmental Design (LEED) green building rating system.

SECTIONS 64.170 and 67.280 - Codes

The act gives counties of the third classification the same authority to adopt a building code as current law provides to counties of the first and second classifications.

The act adds "energy efficiency" code to the definition of a "technical code" for which certain counties, fire

protection districts, and municipalities have the authority to adopt by reference. Any energy efficiency code adopted shall be at least as stringent as the 2006 International Energy Conservation Code.

SECTION 143.114 and 143.121 - Income Tax Deductions

The act creates an income tax deduction for the purchase of qualified hybrid motor vehicles. Missouri taxpayers who purchase certain new hybrid motor vehicles for their own use may deduct from their Missouri adjusted gross income the lesser of either \$2,000 or 10% of the vehicle's purchase price. The tax deduction sunsets in 6 years unless reauthorized.

The act creates an income tax deduction of up to one hundred percent of the purchase price paid for Energy Star labeled products, up to \$1,000 per taxpayer per year.

SECTION 161.360 - Green School Grants

The Department of Elementary and Secondary Education shall provide grants to public school districts after July 1, 2010 to assist schools obtain LEED certification for new building construction or substantial renovation projects. Preference for the grants shall be given to schools that are designed to function as community centers of learning. The total amount of grants that may be awarded per year shall not exceed \$500,000.

Provisions of this act are similar to provisions in SB 1117 (2008) and HB 1326 (2008).

SENATE SPONSOR: Smith

SB 431 - This act allows a tax credit for taxpayers who construct a green building or modify an existing structure into a green building. A green building is defined as a building that is designed to achieve integrated systems design and construction so as to significantly reduce or eliminate the negative impact of the built environment in a number of different ways including water conservation, energy efficiency, renewable energy, and indoor environmental quality and human health.

The tax credit consists of three components: the green whole building component; the green base building component; and the green tenant space component. An applicant may receive a tax credit for each eligible component satisfied by the applicant's project.

Prior to construction, a taxpayer must apply for a preliminary certification for a green building tax credit from the Department of Natural Resources. If the director of the Department determines that the construction or renovation meets the requirements of the tax credit program, the director may issue a final certification upon completion of construction.

The green building tax credit has a per taxpayer cap of \$50,000 per year and an aggregate cap of \$1 million per year. Green building tax credits are refundable and fully transferable. The Department must promulgate rules 120 days after the effective date of this act to determine the amount of green building tax credits available to any one taxpayer based upon the size of the building, the level of green rating achieved by the building (either through the Leadership in Energy and Environmental Design (LEED) or the Green Globes rating systems) and whether the project is located in an economic development area. The tax credit sunsets in 5 years unless reauthorized.

This act is similar to a provision in SB 1117 (2008).

SB 434 - Candidates nominated by a political caucus, shall file financial interest statements within 10 days of the nomination.

Currently, financial interest statements and disclosure reports are timely filed if postmarked not later than midnight of the day previous to the last day designated for filing. This act changes this requirement to midnight of the day designated for filing.

Candidates who are delinquent in paying any fees assessed by the Ethics Commission are disqualified.

Currently, committees filing campaign disclosure reports are subject to a late filing fee of \$10 a day. This penalty is changed to \$50 dollars a day. Notice shall be sent within 7 business days after the due date to the candidate and treasurer of the committee failing to file.

Currently, candidate committees filing campaign disclosure reports for the period closing the 12th day before the election are subject to a late filing fee of \$100 a day not to exceed \$6,000. This penalty is modified to apply to all types of committees. Notice shall be sent within 7 business days after the due date to the candidate and treasurer of the committee failing to file. Unpaid late fees may be collected through garnishment and execution against a committee's official depository account after a 30 day delinquency.

Candidates are barred from forming candidate committees or serving as a treasurer or deputy treasurer until all reports are filed and fees are paid to the Ethics Commission.

Currently, continuing committees who contribute over \$15,000 in a calendar year must electronically file disclosure reports. This act modifies this provision to require all committees who receive or contribute over \$2,000 to electronically file.

Candidates delinquent in filing any campaign finance disclosure reports shall be disqualified from participating in the election.

*** SB 441 ***

1985S.011

SENATE SPONSOR: Schaefer

SB 441 – This act modifies tenure procedures for teachers statewide.

Current law allows local school districts to dismiss tenured teachers for certain causes after following certain administrative procedures. This act amends such procedures to allow teachers the right to request a preliminary hearing about the dismissal before an impartial hearing officer prior to a hearing before the board of education; however, the board of education would retain the authority to make the final decision as to whether the teacher is dismissed.

Boards of education or superintendents must notify teachers at least sixty days before formal notice is served, rather than the current thirty day notice requirement. If the teacher requests a preliminary hearing, the superintendent must contact the Labor and Industrial Relations Commission, which must follow procedures described in the act for the selection of a hearing officer and for the hearing itself. The act directs the Labor and Industrial Relations Commission to promulgate rules for the hearings. The school district must pay the costs of the preliminary hearing, except for the teacher's counsel. The hearing will be open to the public unless the teacher requests that the hearing be closed.

If a teacher chooses to have a preliminary hearing before a hearing officer, the hearing officer must provide an advisory opinion as to whether the teacher should be dismissed within thirty days of the hearing. Within thirty days of the receipt of this opinion, the school board must provide notice to the teacher as to the board's intention.

If a school district suspends a teacher until a final decision is rendered, the teacher is entitled to receive salary and benefits during the suspension. Currently, teachers are only guaranteed salary. If the hearing officer's opinion is in favor of dismissal, the teacher's benefits and salary may be suspended; however, such benefits will be repaid if the board reverses the decision of the hearing officer.

After the preliminary hearing, the teacher is entitled to a hearing before the board of education, which will be open to the public unless the teacher requests that it be closed. The record of the preliminary hearing shall be part of the records of the board meeting. The teacher may appeal the final decision of the school board to the circuit court of the county or city not within a county where the employing school district is located as described in the act.

This act repeals the current teacher tenure law for the St. Louis City School District and brings it under the same teacher tenure law as the rest of the state.

This act is similar to SB 1060 (2008), SB 561 (2007), SB 1088 (2006), and SB 118 (2005).

SB 444 - This act creates standards for the use of mediation to resolve disputes. These standards apply to all mediation conducted in disputes for which mediation is authorized by statute, regulation, or by contract.

The act allows participants to select their own mediator, or apply to a court for appointment of a qualified mediator. If the court appoints a mediator, they must consider any potential bias or conflicts of interest the mediator might have. Additionally, state agencies that establish mediation programs must adopt rules to assure the impartiality of mediators.

The act also sets forth the duties of the mediator and requires that no mediator provide subsequent representation, counseling, or treatment to a party to the mediation, unless it is distinct from the issues raised in mediation.

Finally, communications in mediation proceedings shall be confidential and are not admissible as evidence in court. No mediator may be subpoenaed or compelled to disclose information disclosed in the process of setting up or conducting the mediation. However, the act does not prohibit mediators who are mandated by state law from reporting child or elder abuse, and allows mediators to be called to testify in an action to enforce a written settlement agreement for the limited purpose of describing the events that followed the mediation.

SB 448 – This act authorizes school districts to enter into design-build contracts for design-build projects costing more than \$1,000,000. A school district must establish written procedures for pre-qualifying design-build contractors before any such contractor may make a proposal on the project. In addition, a school board must adopt various procedures as described in the act, including procedures for requesting proposals and evaluating and awarding contracts from up to five pre-qualified contractors. A school district must publicly advertise for two consecutive weeks in a newspaper, as described in the act, the design-build proposal. If a school district does not receive at least two responsive submissions, it must readvertise the project. A school district may reject any and all submissions and proposals. Any proposals from pre-qualified design-build contractors must be opened publicly. A school district must award the contract to the design-build contractor whose proposal represents the best overall value in terms of quality, skill, schedule, and cost. For any pre-qualified responsive design-build contractor who submits a proposal but is not awarded a contract, the school district must pay a reasonable stipend.

Payment bond requirements will apply to any design-build project. However, the performance bond for the design-build contractor does not need to cover the design services as long as the contractor or subcontractors have professional liability insurance in the amount specified by the school district.

Any person or firm providing services for a design-build contract must be licensed in Missouri. In addition, a school district planning a design-build project must retain an architect or engineer, as described in the act, unless it already retains one. The architect or engineer is prohibited from acting as the design-build contractor or participating as part of the design-build contractor's team.

This act is substantially similar to HB 596 (2009) and HCS/HB 1707 (2008).

SCS/SBs 453 & 24 – This act modifies the elementary and secondary education funding formula. It removes from the calculation of the state adequacy target the inclusion of the gaming revenues from the repeal of the loss limits. This becomes effective July 1, 2009. Beginning on July 1, 2010, the moneys derived from the passage of Proposition A will be deposited into the Classroom Trust Fund and distributed to school districts in that manner.

Current law provides that current operating expenditures shall include, in part, any increases in state funding subsequent to fiscal year 2005, not to exceed 5%, per recalculation, of state revenue, received by a district in the 2004-2005 school year. This act removes the 5% limit on increases in state funding per recalculation. This becomes effective July 1, 2010.

This act defines "Gifted Education Pupil Count" as the number of students who qualify as "gifted" under Section 162.675 and who are enrolled in a school district's gifted education program on the last Wednesday in January for the preceding school year. This number must not exceed five percent of a school district's enrollment for the immediately preceding academic year. This act modifies the definition of "weighted average daily attendance" by including in the calculation the product of .25 multiplied by the number of the district's gifted education pupil count. This becomes effective July 1, 2010.

This act provides that for the 2010-2011 school year and beyond, all proceeds a school district receives from the Classroom Trust Fund in excess of the amount it received in the 2009-2010 school year must be placed to the credit of the school district's teachers' and incidental funds. This becomes effective July 1, 2009.

This act repeals the Schools First Elementary and Secondary Education Improvement Fund on July 1, 2010 and modifies the audit that will be conducted by the State Auditor. This becomes effective July 1, 2009.

This act contains an emergency clause and a delayed effective date. Certain portions will become effective July 1, 2009 and the remainder will become effective July 1, 2010.

This act contains provisions similar to those contained in SB 831 (2008).

SB 463 - This act requires health carriers to provide coverage for the treatment and diagnosis of eating disorders. The coverage shall apply to health benefit plans issued, continued or renewed on or after January 1, 2010. Under the act, a health carrier offering group health insurance coverage shall not cancel or refuse to

renew an individual's coverage for the purpose of avoiding the eating disorder mandate. The carrier shall not deny coverage for the treatment of eating disorders, including coverage for residential treatment of eating disorders, if such treatment is medically necessary in accordance with certain national standards. Under this act, a health carrier shall not provide payments or other benefits to individuals to encourage them to accept less coverage than is provided by the act. A health carrier shall not penalize, reduce or limit the reimbursement to a provider because the provider provided care to a beneficiary in accordance with the act.

Under the act, the mandated coverage shall include access to psychiatric and medical treatment. The health benefit plan shall also provide coverage for integrated care and treatments as prescribed by medical and psychiatric health care professionals.

The coverage mandated by the act for treating and diagnosing eating disorders does not include coverage for mental illness.

The coverage required by the act shall not be subject to any greater deductible or co-payment than other health care services provided by the plan.

The act requires the Department of Health and Senior Services, in collaboration with the Department of Social Services, to provide diagnosis and treatment services for Missouri residents who do not have insurance coverage for eating disorders. The eating disorder care shall be provided at eating disorder units, private facilities, and state-operated facilities that have licensed eating disorder specialists on staff.

This act is identical to HB 519 (2009).

SENATE SPONSOR: Stouffer

SB 464 - This act clarifies the continuing educational requirement statute for insurance producers. Under the act, a course of instruction sponsored by an entity engaged in the business of providing education courses to producers is recognized as a qualified continuing education course (Section 375.020).

This act amends the terminology of the state's holding company law in Chapter 382, to use the term "producer" rather than the term "broker" (Sections 382.400 to 382.409).

This act allows the department to publish notices regarding surplus lines insurance companies on a website rather than mailing notices to each surplus lines licensee (Section 384.025).

The act requires the biennial renewal of a surplus lines license rather than having it renewed on an annual basis. The biennial renewal fee is \$100 (currently the renewal fee is \$50 for an annual license) (Section 384.043).

This act transfers the collection of surplus lines taxes directly to the Department of Revenue in order to comply with Executive Order 07-06. Current law reflects a system in which tax funds are collected by DFIP and then are remitted to the Department of Revenue (Section 384.051).

Under this act, surplus lines brokers are required to report the gross amounts charged for surplus lines insurance with respect to risks located within this state, exclusive of sums collected for the payment of federal, state, or local taxes and the amount of net premiums with respect to the insurance (Section 384.057).

The act repeals a provision of law that requires the director of the department of insurance to personally report to certain legislative committees of all actions initiated, maintained and concluded by the director (Section 374.456).

Under current law, each surplus lines licensee must file a written report with the director within 30 days of placing surplus lines insurance describing the surplus lines insurance transaction. This act repeals this provision (Section 384.031).

SB 466 - Committees shall disclose contributions every forty-eight hours within thirty days of the election when making any contribution in support of or in opposition to any candidate for state representative, state senator, or statewide elected office.

This act creates a method for publicly financing election campaigns for legislative and statewide candidates.

Candidates certified as clean election candidates are eligible to receive public funding for their respective campaigns by raising qualifying contributions, in the sum of \$5 per voter, from a specified number of individuals, during a specified qualifying period. The candidates may, before certification, raise and spend seed money contributions of no more than \$100 per contribution, up to \$50,000 for candidates for Governor, \$10,000 for nongubernatorial statewide candidates, \$1,500 for candidates for the Senate, and \$500 for candidates for the House of Representatives. Any individual may contribute to the fund at any time without limitation.

The Ethics Commission shall disburse funds from the Clean Election Fund to certified candidates to match the funds raised and spent by any non-certified opponent. The fund is comprised of \$2,000,0000 appropriated from the general revenue fund that shall be deposited into the fund yearly, all qualifying contributions, unspent funds, reallocations, certain fines, and other donations.

The amounts of funds to be distributed to certified candidates are based on average expenditures of previous campaigns and whether or not the race is contested. Once certified, participating candidates may only receive and spend moneys allocated to the candidate from the fund. All unspent revenues originating from the fund must be returned by participating candidates defeated in primaries and all participating candidates after applicable general elections.

A process for challenging the certification of a candidate is included in the act. Fines may be imposed upon candidates in violation of the act and certain acts constitute a class A misdemeanor.

A Joint Committee on Clean Elections is also established to study and recommend legislation relating to

the administration, implementation, and enforcement of the act.

This act is similar to SB 1071 (2008).

SB 471 - This act creates an administrative procedure in which a towing company may seek to recoup reasonable towing and storage fees associated with towing an abandoned vehicle from public property. The towing company may submit an affidavit within 30 days, but no more than 45 days of the tow to recoup the towing company's towing and storage fees. In addition to the affidavit, the towing company must submit an application which shall include an itemized accounting of the towing and storage fees. The application shall also be accompanied by a copy of the crime and inquiry inspection report (the DOR 4569 Form) and the applicant shall attest that the towing company has complied with all the statutory procedural requirements related to the towing of abandoned vehicles.

Within 5 business days of receiving the application, the Department of Revenue shall send notice to the registered owner of the abandoned motor vehicle that a claim for reasonable towing and storage charges has been filed with the department. The notice shall state that if the registered owner does not provide proof to the department that such charges have been paid within 30 days of receiving the notice, the department shall suspend the owner's license and any motor vehicle registrations registered in the owner's name. The notice of suspension shall be mailed to the registered owner at the last known address shown on the department's records. The notice of suspension is deemed received three days after mailing. The notice of suspension shall clearly specify the reason and statutory grounds for the suspension and the effective date of the suspension, the right of the person to request a hearing, the procedure for requesting a hearing, and the date by which that request for a hearing must be made. If the request for a hearing is received by the department prior to the effective date of the suspension, the effective date of the suspension will be stayed until a final order is issued following the hearing. The suspension shall become effective 30 days after the registered owner is deemed to have received the notice. The period of the suspension shall continue until the owner submits proof that he or she has satisfied all reasonable towing and storage charges.

Under this act, "reasonable storage charges" shall not exceed the charges for motor vehicles which have been towed with the consent of the owner on a negotiated basis. Reasonable storage charges shall not exceed 90 days.

This portion of the act is identical to HB 360 (2009) and similar to SB 1284 (2006) and SB 606 (2006).

Under this act, the highway patrol may use a rotation list when requesting towing services for the removal of abandoned vehicles and property.

The act allows any vehicle responding to an emergency or critical situation on the state highway system to use amber lights instead of red or blue lights when there is a threat of serious physical injury or death.

SB 475 - This act requires all health carriers of at least 50,000 people to expend at least 90% of their total annual Missouri-associated revenues on health care services in any given calendar year (non-health expenditures must not exceed 10% of their Missouri-associated revenue). This percentage is known as the Missouri care share under the act. The act also requires health carriers of at 25,000 persons but less than 50,000 persons to expend at least 85% of their total annual Missouri-associated revenues on health care services in any given calendar year.

The act requires health carriers to report submit an annual report to the director of the Department of Insurance, Financial Institutions and Professional Registration. The health carrier shall report its total revenues, Missouri-associated revenue, total premiums, Missouri premiums, total health expenditures, Missouri-associated health expenditures, total non-health expenditures, care share, and Missouri care share.

The director shall publish annually the care share and the Missouri care share of each health carrier doing business in the state of Missouri. All written materials used for advertising and marketing health benefit plans to prospective insured persons or groups shall include a statement of the health carrier's care share and its Missouri care share.

Under the terms of the act, any health carrier that fails to comply with the act shall refund to the persons insured by it a percentage of its Missouri-associated revenues equal to the Missouri care share required by the act for the calendar year less the Missouri care share actually expended for the calendar year. An insurer that reports a shortfall in its Missouri care share may pay the refund by reducing the total premiums payable by its insureds or enrollees for the calendar year in which the shortfall is reported by an amount equal to the total shortfall.

The act requires the director to audit the books and records of a random sample of 10% of health carriers that have more than 25,000 persons insured under health benefit plans. The director may appoint an independent auditor to conduct the audit and shall assess each health carrier a fee to pay the reasonable costs of the audit.

SB 477 - This act amends the Missouri Transportation Development District Act to include public mass transportation systems as transportation development district projects.

Under current law, owners of property adjacent to a TDD may petition the court to add their property to the district and such property shall be added if the property owners within the district unanimously approve of its addition. Under this act, unanimous approval is not needed to add adjacent property to a TDD formed by a local transportation authority for the purpose of operating a public mass transportation system. Instead, adjacent property listed in the petition shall be added upon approval of the district's board of directors.

Under the act, the board of directors for a district formed by local transportation authorities for the purpose of operating a public mass transportation system shall consist of not less than 3 nor more than 5 persons appointed by the chief executive officers of each local transportation authority. The directors appointed by the chief executive officers may be removed by such officers at any time with or without cause. Under the act, the state highways and transportation commission is prohibited from appointing advisers to the boards of directors of these types of transportation development districts.

Under the act, districts formed by local transportation authorities for the purpose of operating a public mass transportation system do not have to submit their project plans to the state highways and transportation commission.

The act provides that the sales tax for a district formed by a local transportation authority for the purpose of operating a public mass transportation system shall not be considered economic activity taxes as used in the TIF statutes and that the tax revenues are not subject to allocation by the TIF statutes. The act also creates a special fund known as the "Transportation Development District Sales Tax Trust Fund" to deposit the sales tax revenues generated by these types of transportation development districts.

SB 482 - This act requires that tanning facilities be licensed by the Department of Health and Senior Services. Tanning facilities are also required to provide written warnings to customers, post warning signs, have an operator present to assist customers in the proper use of the tanning devices, provide customers with protective eyewear, show customers how to use physical aids at the facility, use accurate timers on all devices, maintain remote control timers, maintain a manual control that allows the customer to terminate the lamps, limit a customer's time to the maximum recommended by the manufacturer, and ensure the facility's temperature does not exceed 100 degrees Fahrenheit.

Every person who uses a tanning facility is required to sign a written statement that they have read and understand all the required warnings and agree to wear the protective eyewear.

Individuals under the age of sixteen are prohibited from using a tanning device. Individuals under the age of eighteen must have a signed written statement from their parent or guardian before they can use a tanning device.

The director of the Department of Health and Senior Services has the authority to establish rules regarding tanning facility licenses. These rules shall include standards of hygiene, procedures to grant, deny, discipline, or reinstate licenses, and rules for inspections of facilities.

The department is authorized to collect fees from tanning facilities. The fees will be deposited in the newly created Tanning Facility Fund.

A person who violates this act is guilty of a class C misdemeanor.

2099S.011

SENATE SPONSOR: Rupp

SB 483 - This act amends Missouri's annual financial reporting laws to correspond with the NAIC Annual Financial Reporting Model Regulation. In the act's main provisions, the legislative proposal requires insurers to be governed by an audit committee with respect to annual audit reports; prohibits certain CPA non-audit services; requires CPA audit partner rotation every 5 years; requires a "cooling off" period before CPA auditors can be hired by insurance clients; requires audit committee preapproval of all audit and nonaudit services provided by CPA firms; and institutes certain internal control requirements over financial reporting to ensure the reliability of financial statements that are reported to the Department of Insurance.

The act exempts insurers having direct premiums written in this state less than \$1,000,00 in any calendar year and less than 1,000 policyholders of direct written policies nationwide at the end of the calendar year from the purview of the act. The exemption does not apply if the director makes a finding that compliance with the act is necessary to carry out statutory responsibilities. The exemption also does not apply to insurers having assumed premiums pursuant to contracts of reinsurance of \$1,000,000 or more (Section 375.1028).

Foreign or alien insurers that are required to file management's reports of internal control over financial reporting in another state are exempt from filing such reports in Missouri if the other state has similar reporting requirements as Missouri and such reports are filed with their departments of insurance.

The act requires requests for extensions for filing an annual audit report to be submitted in writing not less than 10 days prior to its filing due date. The current law allows requests to be made within 20 days of the due date. The act also provides for an extension for filing a management's report of internal control over financial reporting.

Every insurer required to file an audited financial report shall also be required to have an audit committee that is directly responsible for the appointment, oversight and compensation of any accountant the auditor (Section 375.1030).

Under the act, the director shall not recognize any person or firm as a qualified independent certified public accountant if that person or firm has either directly or indirectly entered into an indemnification with respect to the audit of the insurer. The lead or coordinating audit partner having primary responsibility over an audit may not act in that capacity for more than 5 consecutive years and may not rejoin in that capacity for a period more than five years. Under current law, the requirement is 7 and 2 years respectively. Under the act, a qualified independent certified public accountant may enter into an agreement with an insurer to have disputes relating to an audit resolved by mediation or arbitration.

Under the act, the director shall not accept an annual audited financial report, prepared in whole or in part by an accountant who functions in the role of management, audits his or her own work, or serves in an advocacy role for the insurer. The act also prohibits the director from recognizing as qualified independent certified public accountants or accepting annual audited financial reports prepared by accountants who provide to insurers, contemporaneously with the audits, certain non-audit services, such as bookkeeping services, appraisal or valuation services, human resources services, internal audit outsourcing services, investment services, legal services unrelated to the audit, or other impermissible services determined by the director. Insurers with less than \$100,000,000 in direct and assumed premiums may request a waiver from this requirement based on financial or organizational hardship.

A qualified independent certified public accountant who performs the audit may engage in other nonaudit services, including tax services, that do not conflict with the previously described services, only if the activity is approved in advance by the audit committee, in accordance with the act.

All auditing and nonaudit services provided to an insurer by the qualified independent certified public accountant must be preapproved by the audit committee. The preapproval requirement is waived for nonaudit services if the insurer is a SOX compliant entity or meets other requirements outlined in the act.

Partners and senior managers of the audit engagement may not serve as a member of the board of directors, president, chief executive officer, controller, chief financial officer or other similar position of the insurer if employed by the independent public accounting firm that audited the insurer during the one-year period which preceded the most current statutory opinion (Section 375.1037).

The act repeals the requirement that an accountant provide an insurer evidence that the accountant has

liability insurance in the lesser amount of \$1,000,000 or 10% of the insurer's admitted assets (Section 375.1040).

The act requires insurers to furnish the director with written communication as to any unremediated material weaknesses in its internal control over financial reporting noted during the audit. The act outlines the procedure the accountant must follow in preparing the written communication. The insurer must also provide with its annual audited financial report a description of the remedial actions taken or proposed to correct unremediated material weaknesses (section 375.1047).

The act requires audit committees to be directly responsible for the appointment, compensation, and oversight of the work of any accountant for the purpose of preparing or issuing the audited financial report required by the act. The act sets forth membership requirements for the audit committee and establishes certain conflict of interest and independence requirements so that the member of the audit committee may be considered independent. Under the act, based on various premium thresholds, a certain percentage of the audit committee members must be independent from the insurer. However, if domiciliary law requires board participation by otherwise non-independent members, such law shall prevail and such members may participate in the audit committee (subsection 8 of Section 375.1053). Under the act, insurers with less than \$500 million in direct and assumed premiums may apply for a waiver from the audit committee requirements based on hardship (subsection 9 of Section 375.1053).

Under the terms of the act, no director or officer of an insurer shall make false or misleading statements to an accountant in connection with any audit, review or communication required under the act. In addition, no officer or director of an insurer, or any other person acting under the direction thereof, shall take any action to coerce, manipulate, mislead, or fraudulently influence any accountant engaged in the performance of an audit if that person knew or should have known that the action, if successful, could result in rendering the insurer's financial statements materially misleading (Section 375.1054).

Under the act, the management of insurance companies with \$500,000,000 or more in direct or assumed annual premiums must file a report with the Department of Insurance regarding its assessment of internal control over financial reporting (known as a management's report of internal control over financial reporting). The report shall include a statement by management officials whether these controls are effective to provide reasonable assurance regarding the reliability of the statutory financial statements and disclosure of any unremediated material weaknesses in internal control over financial reporting. The act establishes what the management's report of internal control over financial reporting must include (Section 375.1055).

SB 490 - This act incorporates provisions of the model complementary enforcement legislation for the master settlement agreement by establishing certain requirements for participating tobacco manufacturers and nonparticipating tobacco manufacturers relating to the agreement between various tobacco companies, the State of Missouri, 45 other states, the District of Columbia, and five U. S. territories.

All tobacco manufacturers whose cigarettes are sold in Missouri are required to report and certify to the attorney general's office by April 30th of each year that they are in compliance with the Tobacco Settlement Model Statute currently in Missouri law. In addition to the certification, participating manufacturers must also provide a list of "brand families" of cigarette types.

Nonparticipating manufacturers must submit their brand families, the number of units sold for each family at any time during the preceding year, the name and address of any other manufacturer of their brand families for the preceding or current calendar year, as well as other information required to verify compliance with the model statute. Each nonparticipating manufacturer must further certify it is registered to do business in the state or maintains an agent within the state for the purpose of service of process relating to the enforcement of the act.

All tobacco manufacturers must update their lists thirty days prior to any addition to, or modification of, its brand families through a supplemental certification to the attorney general. Tobacco product manufactures must maintain all invoices and documentation of sales and other such information relied upon for certification for a period of five years, unless otherwise required by law to maintain such records for a longer period of time.

By July 1, 2010, the Director of the Department of Revenue must make available for public inspection, or publish on the department's web site, a list of all tobacco product manufacturers that have satisfied the certification requirements established in the act.

Stamping agents (persons authorized to affix cigarette tax stamps to cigarette packages) are required to submit to the director an e-mail address for the receipt of notifications as required by the bill and to submit various reports and documents as required by the department.

Various penalties and actions for failure to comply with the requirements of the act are included. The act contains an emergency clause.

*** SB 491 ***

1786S.011

SENATE SPONSOR: Mayer

SB 491 – This act modifies procedures for the lapse of a school district that has been classified as unaccredited by the State Board of Education for two successive school years. Current law provides that the corporate organization of a school district classified as unaccredited will lapse on June 30 of the second full school year of unaccredited classification. This act allows the State Board of Education to set a date for a school district's lapse. However, the school district cannot lapse prior to June 30 of the second full school year of unaccredited classification.

When a school district lapses, current law requires the Department of Elementary and Secondary Education to conduct a public hearing in the school district to review the district's plans to return to accredited status or to offer technical assistance to the district. This act changes the focus of the public hearing to be the accreditation status of the school district in general.

When a school district lapses, the State Board of Education may allow the school board to continue governing the district under terms and conditions established by the State Board of Education.

SENATE SPONSOR: Griesheimer

SB 495 - Currently, the taxable wage base for calendar year 2010 and each calendar year thereafter shall be determined by the average balance of the unemployment compensation trust fund of the four preceding calendar quarters less federal advances, and principal, interest, and expenses related to credit instruments and financial agreements. If the balance is \$350 million or less, the base is increased by \$1,000. If it is \$650 million or more, it is decreased by \$500 not to increase beyond \$13,000 or decrease to less than \$7,000.

This computation is altered so that the base for every other calendar year beginning in calendar year 2010 is increased from the previous base by 10% rounded to the nearest \$100 increment. This biennial increase is suspended when the balance in the trust fund reaches an average high cost multiple (as defined by the United States Department of Labor) of .45 or greater and, whereupon the base shall decrease every calendar year by 10% rounded to the nearest \$100 increment.

The average weekly benefit amount for calendar year 2012 and all years beyond that shall increase by 4%.

All contributions and payments in lieu of contributions paid by employers to the unemployment compensation trust fund shall only be deposited in the fund and be used solely for the purposes enumerated in Chapter 288, RSMo.

The contribution rate for employers is modified for calendar year 2010 and beyond.

Currently, the total amount of outstanding obligations under agreements entered into by the Board of Unemployment Fund Financing in issuing credit instruments shall not exceed the difference of \$450 million and the principal amount of outstanding credit instruments. This act removes this provision.

Sections 288.121 and 288.122, RSMo that increase and decrease an employer's contribution rate when the balance in the trust fund is under or over certain thresholds are repealed with a delayed effective date of January 1, 2010.

SB 499 – This act creates the Emily Brooker Higher Education Sunshine Act, which defines intellectual diversity for reporting purposes at public institutions of higher education. By December 31, 2010, the Coordinating Board for Higher Education will require each public institution of higher education to annually report to the General Assembly on steps taken to ensure intellectual diversity and the free exchange of ideas. The institution must post its annual report on its website. Each institution must ensure that students are notified of measures to promote intellectual diversity and how to report alleged violations.

This act is substantially similar to HB 1315 (2008), SB 983 (2008) and is similar to HB 213 (2007).

SB 501 - This act limits increases in assessed value of residential real property, not subject to transfers of ownership, during reassessment years to the lesser of the percentage increase in the consumer price index for the Midwest Region or two percent. Residential real property will only be subject to reassessment upon a transfer of ownership. Certain transfers between family members and transfers made by people age fifty-five and older will not trigger reassessment. Every county and the City of St. Louis is required to impose a split-rate property tax for each subclass of property.

Taxpayers may dispute assessed values by hiring appraisers who meet certain accreditation requirements. Appraisals provided by such appraisers will form the basis for determining assessed value. This act subjects all school districts in the state to the property tax rate roll-back requirements created by the enactment of Senate Bill 711 (2008). The state tax commission is required to create informational pamphlets, to be included in assessment increase notices provided by assessors, which will provide taxpayers with information regarding the process and time-line for appealing assessments.

The provisions of this act will only become effective upon passage of a constitutional amendment limiting increases in assessed value of residential real property, due to reassessment, until a transfer of ownership occurs.

SB 502 – This act creates procedures for evaluation of credits when a student transfers to a public school from another educational setting, including an unaccredited public school, a nonpublic school, and a home school. The school district must provide the student and parent or guardian with a written explanation of enrollment, credit issuance, grade placement and an appeal process if the parent or guardian disagrees with the school's evaluation of the student's credits. The school district must review the student's work and other materials, as described in the act, to determine the issuance of course credits and grade level placement. If the district cannot make a determination, it may have the student take a placement test under district policy. Incoming students will be judged by the same criteria for passing as current students. Board policies must be reasonable and nondiscriminatory. If the coursework does not fulfill a district's curricular objectives, elective credit may be awarded if the course is sufficiently documented.

SB 506 - The state Fire Marshal shall promulgate rules controlling the registration of persons and entities engaged in the fire sprinkler system business and the requirements for planning, installing and servicing such systems.

This act requires contractors to be registered with the state fire marshal in order to plan, sell, install, or service a fire sprinkler system. The application and issuance fees for unlimited or residential certificates of registration shall not exceed \$100. Unlimited certificates of registration apply to those working on all fire sprinkler systems, while residential certificates of registration apply to those working on systems for one or two family residential dwellings.

Each contractor must employ at least one licensed "responsible managing employee" on a full-time basis to assure that systems are installed and serviced according to standards. Such employee may only work for one contractor at a time. This act outlines the requirements that a "responsible managing employee" must meet in order to obtain an unlimited or residential license. The state Fire Marshal may assess an examination fee not to exceed \$100 for applicants who are required to take a written technical examination and a written practical examination. The state Fire Marshal must notify applicants of the results within a certain time period. The state Fire Marshal may adopt procedures to certify continuing education programs.

Certificates of registration and licenses shall be valid for one year and must be displayed in the contractor's place of business. The certificate of registration number must also be displayed on all plans, bids, offers, installation drawings, and contractor vehicles displaying the firm's name or logo. The fees collected from licensed contractors and "responsible managing employees" shall be deposited into the state

general revenue fund to be used only by the state Fire Marshal to administer these provisions.

This act sets out the process for renewing a license or certificate of registration that is unexpired or expired and the required fee for such renewals. This act also establishes the required general liability insurance for applicants, but allows the state fire marshal to increase or decrease the amounts pursuant to rule.

Failure to maintain liability insurance as required shall constitute grounds for denial, suspension, or revocation of a certificate of registration after notice and the opportunity of a hearing is provided.

This act creates the "Fire Sprinkler System Advisory Council" consisting of seven members appointed by the state Fire Marshal. The advisory council shall advise the state Fire Marshal about standards of practice in the fire sprinkler industry and the rules necessary to implement this act. It shall also make recommendations regarding forms and procedures for certificates of registration and licenses. Three of the members shall have worked in fire sprinkler business management for at least five years and be qualified to have an unlimited license and, one shall be a qualified fire or building official, one shall be an engineer, one shall have certain fire protection certification, and one shall be a representative of the state Fire Marshal's office.

A person or organization shall not participate in the fire sprinkler business without a valid certificate of registration, act as a contractor without the necessary "responsible managing employee", act as a "responsible managing employee" without a valid license, obtain a certificate or license by fraudulent misrepresentation, or conduct fire sprinkler business in violation of this act. Such violations shall be a Class A misdemeanor. The state Fire Marshal may also apply for injunctive relief to stop a violation of this act.

The state Fire Marshal may refuse to issue or renew, or may suspend or revoke, a certificate of registration or license if a person violates this act or the rules adopted by the state Fire Marshal, or makes misrepresentations in connection with the sale of products or services rendered. The appeals process shall be conducted by the Administrative Hearing Commission.

SB 512 - This act modifies laws regarding the Missouri Local Government Employees' Retirement System (LAGERS).

Currently, if a retiree elects to receive a partial lump sum distribution their monthly benefit is reduced or increased based on their age at retirement. This act requires at least a 10% reduction if the retiree elects a partial lump sum distribution.

This act creates a retirement benefit payment option D plan. Under the option D plan the retiree would receive a reduced monthly benefit (80% of the monthly amount), but upon the retiree's death their beneficiary would receive the same amount the retiree was receiving, rather than a percentage of the retiree's amount.

Except for the retiree's spouse, a surviving beneficiary under retirement benefit payment options plans A, B, or D must, in addition to the current age and financial dependency requirements, be a lineal descendant of the retiree or related to the retiree up to the third degree of kinship.

Retirees may authorize LAGERS to deduct payments for health insurance or long-term care insurance premiums from their retirement allowance.

Funding provisions are modified to provide for benefits when a member dies as the result of a duty-related injury or illness. The employer's contribution for pensions that result from duty-related deaths shall be determined once a year.

This act is similar to HB 214 (2009) and HB 1490 (2008).

SB 516 – This act modifies provisions relating to education personnel.

SCHOOL ADMINISTRATOR COMPENSATION: The school board for each school district is required to annually provide a detailed financial statement to the Department of Elementary and Secondary Education containing names, total compensation packages, and any expenses made on behalf of the districts' superintendents and any assistant superintendents whose compensation package exceeds \$100,000 per academic year. The school board must also publish the total compensation package for any consultant hired for administrative duties. Such information shall be published on the Department's website. The Department of Elementary and Secondary Education must create a central repository of information for all districts, which

will include public access to school district financial and policy information. The Department must establish clear standards to ensure that all school district submissions contain all necessary information. In addition, the Department must maintain the information online and update it. The Department may contract with one or more entities to create and maintain the repository. (Section 165.111)

SHARING OF SUPERINTENDENTS: Two or more adjacent school districts may share a superintendent who possesses a valid Missouri superintendent's license when at least one of the school districts is classified as accredited or provisionally accredited by the State Board of Education.

FINAL AVERAGE SALARY FOR PSRS MEMBERS: This act changes from ten percent to twenty percent the maximum percentage of increase in annual compensation from one year to the next in the final average salary period for members of the Public School Retirement System of Missouri other than a superintendent of schools or other certified central office personnel of a school district. (Section 169.010)

CONFIDENTIALITY OF PUBLIC SCHOOL RETIREMENT SYSTEM OF MISSOURI MEMBER ACCOUNT INFORMATION: This act provides that individually identifiable information pertaining to Public School Retirement System of Missouri members, retirees, beneficiaries and survivors will be confidential unless the individual is post-retirement, employed as a part-time employee, consultant, or independent contractor directly or indirectly with a public school or college. (Section 169.020)

Section 169.010 contains an emergency clause.

This act contains provisions similar to or also contained in HB 2281 (2008), HCS/SB 768 (2008), SCS/SB 994 (2008), HCS/HB 1774 (2008), HB 2537 (2008).

SB 517 – This act modifies provisions relating to health care transparency.

This act provides that a health carrier and any other entity in the business of offering health care coverage, to the extent allowed under federal law, shall provide data regarding quality of patient care, access to care, enrollee health status and patient satisfaction to the Department of Insurance, Financial Institutions and Professional Registration. The data submission shall be consistent with and more expansive than the requirements already required of health maintenance organizations. This raw data obtained by the department shall not be public information but may be disclosed to the Department of Health and Senior Services. Reports and studies prepared by the Department of Health and Senior Services based upon such information shall be public information and may identify individual health care or coverage providers. However, the department shall not release data in a form which could be used to identify a patient. Any disclosure violation is a Class B misdemeanor.

The department shall also collect and make publicly available data on such entities medical loss ratios, administrative costs as a percentage of total premium and incidence of grievances.

This act establishes guidelines for transparency in quality of health care services. A contract between a health carrier and a health care provider cannot require the provider to submit quality of care data to the health carrier as a condition of payment for medical services, unless such data is included in the set of quality of care indicators as selected by the federal Centers for Medicare and Medicaid Services for disclosure in comparative format to the public. The act prescribes what measures the health carrier may make as to data collected and disclosed. The act also prescribes what information and disclaimers shall be disseminated if any person sells or otherwise distributes to the public quality of care data.

Criteria is established for insurers to use in programs that publicly assess and compare the quality and cost efficiency of health care providers. The Department of Health and Senior Services is required to investigate complaints of alleged violations and is authorized to impose a penalty of up to \$1,000. Alleged violations by health insurers will be investigated and enforced by the Department of Insurance, Financial Institutions, and Professional Registration.

This act also prescribes requirements for electronic claims transport, which is the accepting and digitizing of claims or accepting of claims already digitized and placing such claims into a format that complies with the electronic transaction standards issued by the federal Department of Health and Human Services under HIPAA law. The act outlines procedures for when such claims are electronically transmitted to the appropriate contracting entity, payer, or third-party administrator.

SB 522 - This act modifies several provisions of law relating to the regulation of commercial drivers' licenses.

EXPUNGEMENT OF RECORDS OF CDL HOLDERS - This act prohibits the expungement of a minor in possession (MIP) charge for holders of commercial driver's licenses or persons operating commercial motor vehicles at the time of the violation (Section 311.326).

The act also provides that no records shall be expunged if a person is found guilty with a BAC of .04 or greater and is holding a commercial driver's license at the time of the offense (Section 302.545). This provision is also contained in SS/SCS/SB 761 and 774 (2008) and SS/SCS/SB 239 et al (2007).

FAILURE TO APPEAR - This act includes failure to appear by a commercial license holder or operator of a commercial motor vehicle as an commercial driver offense requiring indefinite suspension until compliance (Section 302.700 and 302.755). This provision is also contained in SS/SCS/SB 761 and 774 (2008) and SS/SCS/SB 239 et al (2007).

CDL MILITARY EXEMPTION - This act provides that a military member while driving a vehicle for military purposes is exempt from possessing a CDL. Current law provides that the military member must be driving a military vehicle to qualify for the exemption (Section 302.775). This provision was contained in SS/SCS/SB 761 and 774 (2008) and SS/SCS/SB 239 et al (2007).

FARMER CDL EXEMPTION - This act clarifies the CDL exemption for persons driving farm vehicles. In order to qualify for the exemption, the farm vehicle must be controlled by a farmer or family member, be used to transport agricultural products, machinery, or supplies to or from a farm, not be used in the operations of a common or contract carrier, and be used within 150 miles of the farmer's farm (Section 302.775).

HAZARDOUS MATERIAL ENDORSEMENT REVOCATION - This act requires the state to immediately revoke a hazardous material endorsement upon receipt of an Initial Determination of Threat Assessment and Immediate Revocation from the Transportation Security Administration. The state must revoke or deny a hazardous material indorsement within 15 days of receipt of a final determination (Section 302.735).

HAZARDOUS MATERIAL DEFINITION - This act modifies the definition of hazardous materials to correspond with federal law and regulations (Section 302.700).

DRIVING WHILE OUT OF SERVICE - This act provides that any person convicted for driving while out of service shall be disqualified from driving a commercial motor vehicle in a manner prescribed by the federal regulations (Section 302.755).

ALCOHOL-RELATED ENFORCEMENT CONTACTS - The act specifically provides that a person is disqualified from driving a commercial motor vehicle for a period of one year or greater if convicted for the first violation of any alcohol-related enforcement contact (Section 302.755).

Many of the provisions contained in this act can be found in SB 58 (2009).

SB 525 - This act modifies the definition of all-terrain vehicles by increasing the vehicle's unladen dry weight from 1,000 pounds to 1,500 pounds. The definition is also modified by stating that an ATV is a vehicle with four or more nonhighway tires (current law uses the term low pressure tires).

The act also provides a definition for the term "recreational off-highway vehicle" for purposes of Missouri's titling and registration laws. Under the act, a recreational off-highway vehicle is any motorized vehicle manufactured and used exclusively for off-highway use which is 60 inches or less in width, with an unladen dry weight of 1,500 pounds or less, traveling on four or more nonhighway tires, with a nonstraddle seat, and steering wheel, which are subject to the same registration requirements and trail use as all-terrain vehicles.

SB 529 - A person commits child abuse when knowing that she is pregnant and willfully, with the knowledge of the danger to her unborn child, chronically and severely exposes an unborn child at 28 weeks gestational age or older to alcohol or a controlled substance during pregnancy and such child, at birth, is demonstrably adversely affected by such exposure. Child abuse is a Class C felony.

A person commits child endangerment in the second degree when knowing that she is pregnant and willfully, with the knowledge of the danger to her unborn child, chronically and severely exposes an unborn child at 28 weeks gestational age or older to a controlled substance during pregnancy. Child endangerment is a Class A misdemeanor.

It shall be an absolute defense to prosecution for child abuse or child endangerment under this act if such person's alleged violation of the provision was discovered due to her seeking alcohol or substance treatment.

If a person pleads guilty to or is found guilty of such offenses, the court shall order a juvenile officer to take the child into protective custody immediately or as soon as reasonably possible after the birth of the child if such child is unborn at the time of the plea or finding of guilt.

This act is similar to SB 766 (2008) and SB 676 (2007).

SB 530 - This act modifies provisions relating to child abuse investigations. Within forty-five days of a oral report of abuse or neglect, rather than thirty days, the local office of the Children's Division must update the information system with certain information about the report.

The Children's Division must complete all investigations of child abuse within forty-five days. If not, the division shall promptly notify all parties of the proposed extension. Any party may object to the extension by filing an objection with the Attorney General's office of the child advocate, which shall rule on the objection within 10 business days and grant the extension if there is good cause. If the extension is granted, the division must set a new deadline for completion, which can only be extended further by the division notifying all parties. If the extension is not granted, the investigation shall be deemed completed ten working days after the date of denial. No objection to an extension shall be allowed if the division is waiting to receive a medical or law enforcement report or information from another state, except on the basis that the division's grounds for extension are false.

After an investigation, the division shall make a preliminary determination by a preponderance of the evidence that the alleged perpetrator has committed child abuse. No determination of child abuse shall be entered in the central until the alleged perpetrator fails to request review by the child abuse and neglect review board within thirty days or a determination is made by such board that the alleged perpetrator has committed abuse. The alleged perpetrator has thirty days to seek reversal of the division's determination, rather than sixty days. In cases where criminal charges are pending, the request for review shall be made within thirty days of the indictment being returned, dismissal of the charges, the information being filed, or the division's release of the report.

Currently, investigative reports are not released to the alleged perpetrator with pending criminal charges until an indictment is returned or an information is filed. Under this act, such report shall also be released after one year has passed since the division notified the prosecuting attorney and the alleged perpetrator puts his or her intent to seek further review in writing. However, the prosecuting attorney may petition the court to extend the one year period for good cause shown.

SB 537 – This act creates procedures for open enrollment across school district boundary lines for children in foster care and for children of parents who are employed as a firefighter, emergency medical technician, or peace officer who must live within a designated school district as part of their employment. School districts must adopt a policy and designate appropriate class sizes for purposes of open enrollment, incorporating the minimum standard of teacher-pupil ratio promulgated by the Department of Elementary and Secondary Education. The policy may include spaces that could be filled by open enrollment. A student wishing to participate in open enrollment must declare intent by March first prior to the year in which the student would open enroll. If a receiving school has insufficient space for all students who want to enroll, it may institute an admissions process.

If a parent believes that a receiving district has unreasonably disapproved an application for admittance, he or she may request that the Department of Elementary and Secondary Education review it. School districts must keep records and make them publicly available, as described in the act.

A student requiring special education services may only transfer if the receiving district verifies that it has an instructional program that is appropriate for the student and that the enrollment would not negatively affect the class size.

A student who enrolls in another district will be included in the receiving district for purposes of state school foundation aid.

The parent or guardian is responsible for transporting a child who enrolls in another school district. At the discretion of the receiving district, the parent or guardian may transport the child to a point on an existing school bus route.

The act also contains provisions for statewide assessment scores of students, intradistrict transfers, participation in school activities, and school district eligibility for small school grants.

This act is similar to HCS/HBs 807 & 690 (2007).

SB 541 - This act institutes various provisions regulating practices involved in making residential mortgage loans.

Creditors are barred from knowingly or intentionally making a residential mortgage loan that refinances an existing residential mortgage loan when the new loan does not have reasonable, tangible benefit to the borrower. Before issuing a residential mortgage loan, the creditor shall verify the borrower's reasonable ability to pay the scheduled payments. The standards for reasonableness are enumerated.

Creditors are barred from making subprime loans containing prepayment penalties.

Creditors shall not make false, deceptive, or misleading statements or advertisements in connection with a residential mortgage loan.

Residential mortgage loans shall not finance property, life, or health insurance premiums, debt cancellation or suspension agreements, or products that are not related to the loan closing such as auto club memberships or the monitoring of credit reports.

Mortgage brokers shall act as agents of the borrower with reasonable care, in the borrower's best interest and according to the instructions of the borrower. Brokers shall have the duty to disclose all material facts relating to the transaction, and account for all of the borrower's money received by the broker.

Those in violation shall be liable for punitive, actual, and consequential damages, court costs, damages equal to two times the amount of all lender and broker fees.

SCS/SB 542 - This act requires the State Treasurer's asset allocation plan to set diversification limits, which shall include a requirement that the total amount of time deposits placed with any one single banking institution not exceed 10% of the amount of all time deposits held by the Treasurer. The act requires that the interest rate on time deposits placed by the State Treasurer after January 1, 2014 shall be at the market rate, which shall be set by the Treasurer's director of investments. The act provides a year-by-year schedule for interest rates for time deposits through 2014.

The act expands the list of acceptable securities that banks may use as collateral for holding state

deposits to include "other obligations" of certain political subdivisions and other states. The act modifies the total amount of certain types of securities that may be used as collateral, where U.S. Treasury securities and U.S. federal agency debentures issued by certain farm and home mortgage lenders must not exceed 105% of total time deposits and demand deposits, and all other certain securities must not exceed 115% of total time deposits and demand deposits.

The act adds two additional eligible participants in the State Treasurer's linked deposit loan program: individuals who want to produce their own energy from renewable resources; and political subdivisions or other public entities seeking to finance capital improvements or other significant programs.

The act modifies criteria of several other eligible participants in the linked deposit loan program. It removes the requirement that alternative energy operations must sell fuel or power generated by their operations. It removes the requirement that farming operations must not possess more than 60% equity in the operation. The act makes an exception to the maximum loan per job requirement for job enhancement businesses that incur significant costs for equipment or capital improvements. The maximum number of employees of an eligible small business is increased from 25 to 100.

SB 547 - This act amends or enacts several provisions of law related to health insurance.

HRA ONLY PLANS - Under this act, employees are allowed to use funds from one or more employer health reimbursement arrangement (HRA) only plans to help pay for individual health insurance coverage. HRAs are employee benefit plans provided by an employer which establish an account funded solely by the employer to reimburse the employee for qualified medical expenses incurred by the employee or his or her family. HRAs allow the employee to carry forward any unused funds at the end of the coverage period to subsequent coverage periods (Section 376.1600). A similar provision is contained in HB 229 (2009). The act also provides that if an employer provides health insurance to an employee and the employee pays any portion of the cost of the premium, the employer must also provide a premium-only cafeteria plan or a health reimbursement arrangement (Section 376.453). Current law only requires the provision of a premium-only cafeteria plan. This provision is contained in HB 229 (2009).

MISSOURI MINI-COBRA LAW TO MIRROR FEDERAL COBRA LAW - This act requires group health insurance policies issued by health carriers to employers not covered by the federal COBRA law (employers with 2 to 19 employees) to provide terminated employees with group insurance coverage continuation rights in the same manner as provided by the federal COBRA law (Section 376.428). This provision is contained in HB 231 (2009).

CONTINUATION OF HEALTH INSURANCE COVERAGE FROM AGE 55 - Under this act, every group health insurance policy issued or renewed on or after January 1, 2010, must contain a provision that allows an employee or group member, whose continuation coverage under the federal COBRA law or state's continuation law has expired, to continue coverage under that group policy provided the employee or group member was 55 years or older when coverage under COBRA or the state continuation law expired. The extended continuation coverage provided by this act will terminate upon the earliest of the following:

- (1) The date the employee or group member fails to pay premiums;
- (2) The date the group policy is terminated as to all group members;
- (3) The date on which the employee or group member becomes insured under another group policy;
- (4) The date on which the employee or group member becomes eligible for coverage under the federal

Medicare program; or

(5) The date on which the group member turns 65 (Section 376.437).

RATING OF MISSOURI CONTINUATION COVERAGE POLICIES - This act requires health insurance policies that are issued to individuals eligible for continuation coverage under state law to be pooled across all fully insured group business in Missouri. The rating system in which the premium for all persons covered under a continuation of coverage provision shall be based on the experience of all persons covered by a continuation of coverage provision with any cost of the pool experience spread over all fully insured premiums on an equal percentage basis (Section 376.439).

CONTINUATION OF COVERAGE RIGHTS THROUGH A HSA ELIGIBLE PLAN - This act requires health carriers who provide group insurance policies to persons who are exercising their continuation of coverage rights under COBRA or the state continuation of coverage law (Section 376.428) to offer such persons the option of continuation of coverage through a HSA eligible high deductible plan rather than the underlying group policy. The premiums for the HSA eligible high deductible plans shall be consistent with the underlying group plans rated relative to the standard or manual rates for the benefits provided (Section 376.443).

The provisions contained in this act are also contained in SB 415 (2009).

SB 548 - This act authorizes the Department of Social Services to select and engage non-profit organizations in the Kansas City and St. Louis Metropolitan areas who have governance boards that include representatives from employer and provider groups to deploy and manage a regional health bank. Health banks are defined as a legal arrangement under the administration of a health bank operator where an individual has consented to have his or her electronic health record maintained and stored by the health bank.

The health bank shall enable a secure, web-based health information infrastructure for the sharing of electronic health information among health care facilities, health care professionals, public and private payers, and patients. The health bank shall comply with all state and federal privacy requirements and link all components of the health care delivery system through secure and appropriate exchanges of health information for the purpose of enhancing health care quality, patient safety, communication of patient information, chronic condition management capabilities, patient and provider satisfaction, clinical and administrative cost reductions, and public health emergency preparedness. The individual shall be able to create a secure, electronic health record bank account so that he or she may be able to consolidate his or her respective health information collected during the course of the individual's lifetime.

The state shall sponsor the following accounts in an opt-out fashion for the regional health banks:

- (1) MO HealthNet recipients;
- (2) State health care for uninsured children recipients;
- (3) Missouri residents receiving Medicare benefits;
- (4) Foster care children; and
- (5) State employees.

Each non-profit organization as selected by the department to be a state-designated entity shall be authorized to submit and request funds in fiscal year 2010 to enable the creation of the health bank from the federal secretary of the Department of Health and Human Services as defined in the American Recovery and Reinvestment Act of 2009. Such organizations shall also be required to propose what state appropriations should be requested in years fiscal years 2011, 2012, and 2013 to qualify for the federal matching funds.

No personal health information of a patient which can be identified as specific to such patient shall be

disclosed to any employer, public or private payor, or employee or agent of a state department or agency without the written consent of the patient and health care provider. However, such information may be disclosed to a health insurer, employer, state employee or agent in connection with the performance of such employee's official duties.

No health care provider shall be required to redact information when disclosing personal health information under this act.

SCS/SB 549 - This act requires the MO HealthNet Division, by August 28, 2010, to implement a program to make available through its Internet web site nonaggregated data on MO HealthNet participants collected under the federal Medicaid Statistical Information System to the extent such data has already been de-identified in accordance with federal HIPAA privacy requirements.

In implementing the program the Division shall ensure that the information made available is in a format that is easily accessible, useable, and understandable to the public, including individuals interested in improving the quality of care provided to individuals eligible for programs and services under the MO HealthNet program, researchers, health care providers, and individuals interested in reducing the prevalence of waste and fraud under the program.

By August 28, 2011, and annually thereafter, the director shall submit to the General Assembly and the MO HealthNet oversight committee, a report on the progress of the program, including the extent to which information made available through the program is accessed and the extent to which comments received on the program were used during the year to improve the utility of the program.

The Division shall also report to the General Assembly the feasibility of expanding the transparency program for the health care for uninsured children program (SCHIP).

This program has a six-year sunset clause.

SB 551 - Currently, chronic nonviolent offenders with substance abuse addiction can receive long-term drug treatment from the Department of Corrections. This act would allow such nonviolent persons to receive such treatment when they are eligible for probation and parole, and have:

(1) Pledaded guilty to or been found guilty of two prior felonies; or

(2) Completed a one hundred twenty day treatment program for a methamphetamine offense and have either subsequently pleaded guilty to or been found guilty of a drug offense or have violated terms of probation and the substance abuse was a precipitating or contributing factor in the commission of the probation violation.

Currently, an offender's first time incarceration in the department under the long-term drug treatment program or a one hundred twenty day treatment program is not considered a previous prison commitment under the minimum sentencing requirements. The act removes these provisions from law. Also under this act, methamphetamine offenses shall be subject to the minimum sentencing requirements.

In any case when the offender has committed a distribution, unlawful purchase with a minor, manufacturing, or production of methamphetamine offense that is a Class A or B felony, he or she must serve one hundred twenty days in the Department of Corrections before being eligible for probation or parole.

SB 552 - This act modifies provisions relating to the MO HealthNet Division's authority to collect from third party payers and from workers' compensation beneficiaries.

Under this act any third party administrator, administrative service organization, health benefit plan and pharmacy benefits manager shall process and pay all properly submitted MO HealthNet subrogation claims for a period of three years from the date services were provided or rendered, regardless of any other timely filing requirement. The entity shall not deny such claims on the basis of the type or format of the claim form, or a failure to present proper documentation of coverage at the point of sale.

Payments made by the department to or on behalf of a MO HealthNet eligible individual as the result of any workers' compensation injury shall be presumed to be benefits incorrectly paid for purposes of Mo HealthNet estate recovery and shall be considered a debt due the state. Any settlement approved or judgment issued by the administrative law judge shall constitute a judgment of a court on account of benefits incorrectly paid for Mo HealthNet estate recovery purposes.

Any settlement approved or judgment issued by an administrative law judge shall require full repayment of all moneys paid by the department to or on behalf of a person eligible for public assistance as the result of any workers' compensation injury. All moneys repaid to the department shall be allocated as medical expenses in the settlement or judgment. The state shall have a right of subrogation to any funds for medical expenses owed to or received by the employee.

The employer and attorney for an injured worker who is eligible for public assistance as a result of a workers' compensation injury shall give the Department of Social Services thirty days notice of any institution of a proceeding, settlement, or judgment. No such settlement or judgment may be approved or issued by the administrative law judge without the filing of a release from the MO HealthNet division evidencing full repayment of all moneys paid by the department to or on behalf of the worker for the injury.

SB 553 - This act provides that on January 1, 2010, the health care programs of all state employees, including from the Department of Conservation and Transportation, University of Missouri employees including from state-supported colleges and universities shall be assimilated into the Missouri Consolidated Health Care Plan (MCHCP).

After July 1, 2010, the Board of Trustees of MCHCP shall investigate coordinating and purchasing health care benefit plans for employees and dependents of the public schools and community colleges as well as investigate the lack of availability of health insurance coverage and the issues associated with the uninsured population of this state. The board is also authorized to investigate the feasibility of creating and administering insurance programs for businesses and to propose cost-effective solutions to reducing the number of uninsured in the state.

After July 1, 2011, the Board shall be the lead agency in coordinating and purchasing health care benefit plans for the employees and dependents of the public schools and community colleges whenever such entities opt to join the collective purchasing power of the plan.

This act establishes the Missouri Consolidated Health Information Exchange (MCHIE). The MCHIE shall operate under the authority of the MCHCP and in collaboration with the University of Missouri. MCHIE shall provide leadership in the redesign of the health care delivery system using information technology to ensure that all citizens receive safe, effective, efficient, and quality care. It shall also serve as a forum for the exchange of ideas and consensus building in the advancement of health information technology and infrastructure. In addition, the MCHIE shall implement pilot projects to determine the impact of various health care applications using information technology. All other duties of the MCHIE are prescribed under the act.

The board of MCHCP shall appoint a committee entitled the Missouri Consolidated Health Information Exchange Committee. The members are prescribed in the act. The committee's duties include implementing and overseeing the operation of a health information exchange in the state. MCHCP shall establish and create a separate trust fund entitled the "MCHIE trust fund" to be used solely for the purposes related to the MCHIE.

This act contains an emergency clause.

SB 558 – This act creates the Missouri Promise Program within the Department of Higher Education, which is designated as the successor program to the A+ Schools reimbursements.

SCHOLARSHIPS FOR TWO-YEAR POST-SECONDARY SCHOOLS: The Commissioner of Higher Education will establish scholarships for use at public community colleges or vocational or technical schools. Scholarships may also be used at a two-year private vocational or technical school that meets certain requirements, as described in the act. The scholarship amount will be based on the cost of tuition and fees at public community colleges, vocational, or technical schools. To qualify for a scholarship, a student must: have attended a public high school in Missouri for at least three years prior to graduation; have made a good faith effort to secure other sources of funding; have earned a GPA of 2.5 on a 4.0 scale in high school; be enrolled full time at a public community college, public vocational school, public technical school, or private vocational or technical school, as described in the act; and maintain a grade point average of 2.5 on a 4.0 scale while enrolled and receiving a scholarship.

SCHOLARSHIP FOR FOUR-YEAR SCHOOLS: The Commissioner of Higher Education will establish scholarships beginning in academic year 2009-2010 for certain public four-year institutions, as described in the act, for students who previously received a scholarship under the A+ Schools Program during the 2008-2009 academic year, previously received a scholarship to a two-year school under this act, or completed a designated Associate's Degree and enrolls in an approved institution within nine months of completion. Additional eligibility requirements include: a good faith effort to first secure other sources of funding; maintaining full-time enrollment; and maintaining a 3.0 GPA on a 4.0 scale while receiving the scholarship. A student cannot receive a scholarship for more than six semesters.

If a student has a grade point average that falls below a 3.0 on a 4.0 scale, the student will be granted a one semester grace period. The student will lose eligibility if the student cannot subsequently raise his or her GPA to a 3.0.

Scholarships under this section will be subject to appropriation. If appropriations are insufficient to provide scholarships for all eligible students, scholarships to students attending two-year schools must be fully funded before scholarships can be distributed to students attending four year schools. In addition, scholarship amounts can be prorated if necessary.

The Commissioner of Higher Education must develop a procedure for evaluating the effectiveness of this program, which will be conducted biannually. The results of the evaluation must be sent to the Governor, Speaker of the House of Representatives, and the President Pro Tempore of the Senate.

The medical board that arranges for required disability-related medical examinations is eliminated and is replaced by a medical director who appoints doctors to investigate the physical and mental conditions of applicants for disability retirement. The medical director reports to the board of trustees of the police retirement system.

Any member in service or member of the Board of Police Commissioners who has ten years of creditable service and who has become permanently unable to perform the duties of a police officer as the result of an injury or illness not exclusively caused by their duties as a police officer shall be retired upon certification of the medical director and approval of the board of trustees.

Members who are permanently disabled exclusively as a result of an accident occurring within the actual performance of duty at some definite time and place shall upon application be retired upon certification of the medical director and approval of the board of trustees. These members must apply for disability within five years of the accident, unless the accident was reported within five years and the member was examined by a health care provider provided by the board of police commissioners within thirty days of the accident.

Disability retirees under the age of sixty may be required to submit to a medical examination yearly for the first five years following their retirement and at least once every three years thereafter. If the retiree refuses to submit to a medical examination their disability pension may be discontinued. If the retiree refuses for one year, then their pension may be revoked.

If the medical director certifies to the board of trustees that the disability retiree is able to perform the duties of a police officer and the board agrees, the pension shall end. If the officer returns to active service, then the period of time during which the officer received a disability pension shall not be included in his time of service.

SB 568 - This act establishes the Recovery Accountability and Transparency Board within the office of administration to prevent fraud, waste, and abuse of the funds received by the state or any political subdivision from the federal American Recovery and Reinvestment Act of 2009. The board will consist of the Commissioner of the Office of Administration, two members of the Senate, and two members of the House. This board will have the power to oversee the reporting of contracts and grants using covered funds, whether competition requirements applicable to contracts and grants have been satisfied, audit covered funds, and refer matters for investigation to the Attorney General or the agency dispersing the funds. The board is required to report annually to the governor and general assembly. The board also has the power to subpoena witnesses.

The act also adopts provisions regarding the filing of fraudulent claims for payment with the government. Under these provisions anyone who files false claims with the government, or any public employee or official who commits certain prohibited acts or violates certain criminal statutes, will in most cases be subject to civil penalties of not less than \$10,000 plus three times the amount of damages to the government. With some exceptions, private person can file a lawsuit on behalf of the government. The Attorney General has the authority to intervene and continue the lawsuit, or may allow the private person to continue with the lawsuit. The government may dismiss the action or settle the action, after a hearing before the court. The court may limit the participation of the private person in the lawsuit if the government shows that it would interfere with their civil case or may postpone discovery in the case if it would interfere with a criminal prosecution or other government civil case.

The private person who brings the lawsuit will get a percentage of the money awarded in the lawsuit. If the private person who brought the lawsuit planned or initiated the violation of state law their recovery is reduced. If the private person who brought the lawsuit is criminally convicted based on their role in the violation of state law, they cannot recover any money.

Employees who are discriminated against in the terms and conditions of their employment because of participating in a false claims case are entitled to file a lawsuit to be reinstated to their job, two times the amount of back pay, interest, special damages, litigation costs, and attorneys' fees.

SENATE SPONSOR: Lembke

SB 569 - This act modifies various provisions relating to initiative and referendum petitions.

Only mistakes, errors, or omission by those signing petitions shall invalidate those signatures.

The text of a petition may contain strike-through font to indicate the language to be deleted and shall contain all sections that are to be explicitly repealed.

Currently, signatures of voters from counties other than the one designated on the petition are invalid. Under this act they are valid if the voter or proponent of the petition identifies the voter's county of residence and shows proof of the voter's registration within 30 days of the issuance of the certificate of sufficiency or insufficiency by the Secretary of State.

Currently, signatures collected by circulators who have not registered by the final day for filing petitions are not counted. This act allows them to be counted when proof of the authenticity of the signatures is provided within 30 days of the issuance of the certificate of sufficiency or insufficiency by the Secretary of State.

The act creates the misdemeanor crime of intentional misrepresentation of a petition which occurs when the person knowingly and fraudulently gathers signatures for a petition. The act also creates the misdemeanor crime of malicious obstruction of the signing of a petition which occurs when the person maliciously intimidates, obstructs, or attempts to or otherwise prevents a voter from signing a petition.

Signature pages for petitions shall be arranged in file folders, with no more than 100 pages in each folder, labeled to indicate the county in which the signatures were gathered and the page numbers of the signature pages in each folder.

This act repeals a provision requiring the attorney general or the circuit court of Cole county to return an unsatisfactory fiscal note summary to the auditor for revision.

Changes to the official ballot title resulting from challenges brought later than 10 days after the official ballot title is certified shall not affect the validity of the signatures collected on the petitions. When a party other than the proponent of the measure initiates a challenge to the official ballot title, the proponent shall receive copies of all communications and court documents relating to the challenge and shall be allowed to intervene in the case. The court shall decide challenges to the official ballot title within 55 days from the original certification by the Secretary of State and the appeals court shall render a decision within 30 days of the filing of the appeal. Parties may then appeal to the Supreme Court which shall render a decision within 30 days.

Portions of ballot measures approved by the voters that do not conflict with other ballot measures approved by the voters at the same election shall be adopted.

Currently, the Secretary of State shall refer copies of petition sheets to the attorney general and to the auditor for approval. This act requires these copies to be referred within 48 hours.

Currently, the Secretary of State shall notify those submitting petition sheets of approval or rejection within 30 days of submission. This act reduces that time to 15 days.

SB 571 - Under this act, no adjuster or insurer shall in collision cases:

- (1) Limit the freedom of an insured or claimant to choose the shop;
- (2) Require that an insured or claimant present the claim or the automobile for loss adjustment or inspection at a "drive-in" claim center or any other similar facility solely under the control of the insurer;
- (3) Engage in boycotts, intimidation, or coercive tactics in negotiating repairs to damaged motor vehicles which they insure or are liable to claimants to have repaired;
- (4) Attempt to secure, except in an emergency, the insured's or claimant's signature authorizing the party securing the signature to act in behalf of the insured or claimant in selection of a repair shop facility;
- (5) Adjust a damage appraisal of a repair shop when the extent of damage is in dispute without conducting a physical inspection of the vehicle;
- (6) Specify the use of a particular vendor for the procurement of parts or other materials necessary for the satisfactory repair of the vehicle; or
- (7) Unilaterally and arbitrarily disregard a repair operation or cost identified by an estimating system, which an insurer and collision repair facility have agreed to utilize in determining the cost of repair.

Under the act, no motor vehicle repair shop shall in any way coerce, or intimidate a motor vehicle owner to boycott an insurer's "drive-in" claim center or similar facility.

Motor vehicle repair shops are prohibited from attempting to secure, except in an emergency, the vehicle owner's signature authorizing the party securing the signature to act in behalf of the owner in selection of a repair shop.

Insurer's representatives are prohibited from unreasonably denying access to motor vehicle repair shops during normal business hours for the purpose of inspecting or reinspecting damaged vehicles.

Under the terms of the act, when a damaged vehicle is towed to a motor vehicle repair shop, the storage and towing charges shall not exceed the usual and customary charges for the towing and storage of undamaged vehicles in the area except if the vehicle, due to its damaged condition, requires special handling in the towing or storage, an added charge may be made.

SENATE SPONSOR: Crowell

SB 573 - This act defines the term "maximum social security benefit available" as thirty-two thousand five hundred dollars for the tax year beginning on or after January 1, 2007. Such amount will increase annually by the percentage increase in the consumer price index. Currently, a taxpayer must be age sixty-two years or older in order to be eligible for the income tax exemption for publicly funded retirement benefits. This act removes the age requirement for the publicly funded retirement benefit income tax exemption. Under current

law, taxpayers who receive both social security benefits and publicly funded retirement benefits recipient must reduce the amount of their publicly funded retirement benefit exemption by the total amount of social security benefits not included in Missouri adjusted gross income. This act would require such taxpayers to reduce their publicly funded retirement benefit exemption by the amount of social security benefits exempted due to the enactment of House Bill 444 (2007).

This act is identical to Senate Bill 1180 (2008).

SJR 1 - This constitutional amendment, if approved by voters, would create the Missouri Savings Account. The account will be comprised of funds deposited annually at a rate of 2% of the general revenue appropriations for that year. If general revenue collections do not increase by 3% or more by the end of a fiscal year, the monies deposited in the fund that year shall lapse and be used for the next year's expenditures.

In any year in which there is a budget shortfall or when the consensus revenue estimate forecasts a decrease in revenue for the upcoming year, the General Assembly may utilize 1/3 of the monies in the fund for budgetary purposes. If the balance in the account reaches 1/3 of general revenue collections for any fiscal year, the excess shall lapse to general revenue.

This act is similar to SJR 6 (2005), SJR 3 (2007) and SJR 32 (2008).

SJR 2 - This resolution authorizes the commission to conduct feasibility studies, fund, design, acquire, construct, maintain and operate toll facilities. The commission shall fix and collect tolls for the use of all toll facilities. The commission is authorized to issue state toll facility revenue bonds or refunding bonds authorized by the General Assembly without the consent of any other state agency or board. The commission is authorized to enter into contracts with other federal, state or local agencies to conduct its duties with respect to constructing toll facilities. Moneys obtained from toll facility revenue bonds, tolls and other fees shall be deposited in the state toll facility fund. Moneys in the fund shall stand appropriated without legislative action to be expended in the sole discretion of the commission. The commission is authorized to transfer moneys from the state road fund to the state facility fund to pay toll facility costs. Any such transfers from the state road fund shall be repaid in a time and manner determined by the commission. The commission is authorized to relocate or incorporate any public road or highway into a state toll facility project authorized by the General Assembly. Revenue generated from the toll roads shall not be included as a part of total state revenue, nor shall revenue expenditures be considered an "expense of state government" for the purposes of the Hancock Amendment.

SJR 9 - This constitutional amendment, if approved by the voters, would modify the procedures by which the Governor selects judges. It would also modify the membership of the Appellate Judicial Commission and Circuit Judicial Commission and make appointments to both commissions subject to the approval by the majority of the Senate. Members of the Circuit Judicial Commission would serve for a four year term.

Upon passage of this amendment, the terms of all members of the Appellate Judicial Commission and Circuit Judicial Commission would automatically expire.

Also, the Governor would have the authority, within sixty days of taking office, to remove members of the commissions who were appointed by the previous Governor.

Additionally, the list of applicants for judicial appointments would be a public record and posted on the supreme court's website. Nominees submitted to the Governor would be subject to a background check, which is not a public record, but must be available to the commission and the governor.

All information available to the commission would have to be made available to the Governor. All hearings, debates and votes would be open to the public, and would require seventy-two hours public notice. Only sessions limited to certain subjects would be closed to the public.

The procedures for all elections provided for in Section 25 of the Missouri Constitution will be established by the commission.

The commission will also certify expenses to the commissioner of administration, who will approve the expenses of administering the nonpartisan court plan.

SENATE SPONSOR: Scott

SCS/SJR 12 -Upon voter approval, this constitutional amendment reaffirms a citizen's right to free expression of religion. The amendment specifies that individuals have the right to individual or group prayer in all private or public areas, as long as such prayer does not disturb the peace, disrupt a public meeting or assembly, or impede public access. Religious expression and prayer on government property is particularly allowed, so long as the expression or prayer abides within the same parameters placed upon any other free speech under similar circumstances.

The amendment also explicitly prohibits the establishment of any official state religion and any state coercion to participate in prayer or other religious activities.

The amendment specifically provides that the general assembly and other governing bodies of political subdivisions may have ministers and clergy persons offer invocations or prayers at meetings or sessions of the general assembly or other governing bodies.

The amendment also provides that students may engage in private and voluntary prayer, acknowledgment of God, or other religious expression, individually or in groups, and express their religious beliefs in school assignments without discrimination based on the religious content of their work.

This section of the constitution shall not be construed to expand the rights of prisoners in state or local custody beyond those afforded by the laws of the United States.

This act is similar to HJR 55 (2008) and HJR 19 (2007).

SJR 13 - This constitutional amendment, if approved by voters, would limit state general revenue

appropriations to the amount of appropriations made in the previous fiscal year increased by an inflationary growth factor. In any fiscal year where net general revenue collections exceed total state general revenue appropriations by more than one percent of total general revenue appropriations, the excess over one percent will be transferred to the newly created cash operating reserve fund to be used to reduce all state income tax rates. The amendment provides procedures for appropriating revenues in excess of the appropriation limitation and restoring certain expenditures of the state or any of its agencies when no other funds are available in cases of emergency.

*** HB 46 ***

HCS HB 46 & 434

0385L.02P

HOUSE HANDLER: Davis

HCS/HBs 46 & 434 - This act modifies the informed consent requirements for an abortion by adding new requirements to be obtained at least twenty-four hours prior to an abortion. Some of the new requirements include presenting to the pregnant woman various new printed materials and videos, to be developed by the Department of Health and Senior Services by November 30, 2009, detailing the risks of an abortion and the physiological characteristics of an unborn child at two-week gestational increments. The woman must also be provided with the gestational age of the unborn child at the time the abortion is to be performed and must be given an opportunity to view an active ultrasound of the unborn child and hear the heartbeat of the unborn child, if the heartbeat is audible. Prior to an abortion being performed past twenty-two weeks of gestational age, the woman must be provided information regarding the possibility of the abortion causing pain to the unborn child. The materials presented to the woman shall also prominently display a statement that no one can coerce the woman to have an abortion and that it is against the law for a husband, a boyfriend, a parent, a friend, a medical care provider, or any other person to coerce her in any way to have an abortion.

In addition to the written informed consent, the act requires the physician or a qualified professional to discuss the medical assistance and counseling resources available, advise the woman of the father's liability for child support, and provide information about the Alternatives to Abortion Program. All information required to be provided to a woman shall be presented to her individually in the physical presence of the woman. The

abortion cannot be performed until the woman certifies in writing on a checklist form that she has been presented all the required information and that she has been given the opportunity to view an ultrasound, and to choose to have an anesthetic or analgesic administered to the unborn child.

This act also provides that notwithstanding other provisions of law allowing a person to provide services relating to pregnancy, no person other than a licensed physician is authorized to perform or induce an abortion. Any person who violates this provision is guilty of a Class B felony.

This act also creates the crime of knowingly coercing a woman to seek or obtain an abortion. Such coercion includes committing or threatening to do the following against a pregnant woman or her family: assault, domestic assault, stalking or aggravated stalking, or any other offense, as well as committing, attempting or threatening to: forcibly or without the pregnant woman's knowledge causing a woman to ingest a substance with the intent to cause an abortion, discharging the woman from her employment, or revoking a scholarship awarded to the woman. A violation of coercing an abortion may range from a Class A felony to a Class A misdemeanor, depending on the prescribed circumstances. This act also creates the crime of knowingly performing, inducing or assisting in an abortion on a woman who is a victim of coerced abortion. The elements of the crime are specified in the act and there is an exception for medical emergencies. A violation of such crime constitutes a Class C felony.

This act is substantially similar to SB 264 (2009) and SB 1058 (2008) and HCS/HBs 1831 & 1472 (2008).

HB 65 - Currently, rural empowerment zones are only allowed to exist in Hickory County, which has a population of eight thousand nine hundred twenty-five residents. The act allows these zones to exist in any county with eighteen thousand or fewer residents, which includes fifty-six counties. The act also prohibits more than two rural empowerment zones in any county.

HCS HB 82

0269L.03P

HOUSE HANDLER: Kraus

HCS/HB 82 - This act institutes a six year phased-in for an income tax exemption for military retirement income. Beginning January 1, 2010, fifteen percent of such income will be exempt from state income tax and such exemption will increase by fifteen percent each subsequent year until all such income is exempt for all tax years beginning on or after January 1, 2016.

HCS HB 96

0099L.02P

SENATE SPONSOR: Mayer

HOUSE HANDLER: Wallace

HCS/HB 96 – This act modifies provisions relating to school protection measures.

SCHOOL DISCIPLINE POLICIES & REPORTING REQUIREMENTS: Currently, school discipline policies must include a requirement that school administrators report acts of school violence to teachers with a need to know. This act provides that such acts of school violence must be provided to all teachers at the attendance center. Students on suspension for acts of violence or drug-related offenses cannot be within 1,000 feet of school property or any activity of the district without the authorization of the superintendent. This act expands employee immunity from correctly following discipline policies to all policies.

Current law provides that spanking, when administered by certificated personnel in a reasonable manner, is not abuse. This act provides that the use of force to protect persons or property, when administered by school district personnel in a reasonable manner, is not abuse, as long as no allegation of sexual misconduct arises and another school employee is present as a witness in the case of spanking.

Additional reporting offenses include burglary in the second degree, harassment, and stalking. (Sections 160.261, 167.115)

SCHOOL FACILITIES AND SAFETY CRITERIA: By July 1, 2011, the State Board of Education must add to any school facilities and safety criteria developed for the Missouri School Improvement Program provisions that suggest that the drills required pursuant to the standard for safe facilities occur at least annually. All staff must receive sufficient training on the security and crisis management plan. (Section 160.660)

SCHOOL VIOLENCE PREVENTION PROGRAMS: This act removes a statutory reference to section 166.260, which was previously repealed. (Section 161.650)

SCHOOL OFFICERS: The Blue Springs school board may authorize and commission school officers to enforce laws relating to crimes committed on school premises, at school activities, and on school buses as described in the act. All school officers must be licensed peace officers. School officers must abide by school board policies and coordinate with the superintendent, or the superintendent's designee. Any crimes involving a sexual offense or any felony involving the threat or use of force will remain under the authority of the local jurisdiction. (Section 162.215)

HOMELESS CHILDREN & TRANSFER OF SCHOOL RECORDS: The act replaces the definition of "homeless children" with the federal definition when addressing residency requirements for school districts.

Current law requires a school official who enrolls a nonresident pupil to request student transfer records within forty-eight hours. This act requires a school official to request all education records deemed necessary by the school official for enrollment within two business days, including IEPs and health records. Any school district that receives a records request from another school district, private school, or parochial school must respond to the request within five business days of its receipt. In addition, school districts may report or disclose education records to other state or local officials as described in the act. (Sections 167.020 & 167.022)

REPORTABLE OFFENSES FOR STUDENTS: When a student is found to have committed a reportable offense, the school district must provide all information relating to the reportable offense to any school district to which the student transfers or enrolls. If the student is being tried as an adult, the school district must

attach notice of the reportable offense to the student's permanent record and academic transcript. If the student is under the jurisdiction of the juvenile court, the school district must attach notice to the student's permanent record and academic transcript stating only that a reportable offense has been committed. (Section 167.023)

STUDENT DRESS CODE: Currently, only the St. Louis City school district may require school uniforms. This act allows any school district to require students to wear a school uniform or restrict student dress to a particular style. (Section 167.029)

STUDENT EXPULSION: A school board may expel a student upon a finding that the student has been charged, convicted or pled guilty to the commission of a felony after notice to parents or others have custodial care and after a hearing.

Current law provides that student suspension does not relieve the state or the suspended student's parents of their responsibility to educate the child. This act includes students who have received an expulsion from a public school district to those for whom the state or parents have a responsibility to educate. (Sections 167.161 & 167.164)

ADMINISTRATION OF MEDICATION OR MEDICAL SERVICES: This act exempts unqualified employees who refuse to administer medication or medical services from disciplinary action. A school district may develop a program to train employees in CPR and other lifesaving methods. Qualified employees are exempted from liability for administering medication or medical services, including CPR, when done in good faith and according to standard medical practices. Students may self-administer medication for chronic conditions. Employees trained and supervised by the school nurse are authorized to use an epinephrine auto-syringe on a student as described in the act. Trained employees administering a prefilled auto syringe are exempted from liability when acting in good faith and according to standard medical practices. (Sections 167.621, 167.624, 167.627 & 167.630)

EMPLOYEE BACKGROUND CHECKS AND FINGERPRINT RECORDS: An employee background check and fingerprint record is good for one year and transferable from district to district or to a private or parochial school. A teacher's change in certification will not affect the transferability of records. (Section 168.133)

MISSOURI CHILDREN'S SERVICES COMMISSION: The Missouri Children's Services Commission is required to recommend best practices for sharing agency information regarding students receiving state services by July 1, 2010. (Section 210.102)

This act contains provisions that are similar to or are contained in SS/SCS/HCS/HB 1722 (2008), SB 995 (2008), HCS/HB 469 (2007), SB 399 (2007).

HCS/HB 111 - This act provides funeral homes, funeral directors, embalmers, and their employees with immunity from liability in disposing of a veteran's remains or cremated remains to a veterans' service organization. This immunity only applies if: 1)the remains have been in the possession of the funeral establishment for at least a year; 2)the establishment gives written notice to the person or other funeral establishment who contracted for the cremation, or publishes notice in a newspaper if the address of the person or other funeral establishment that contracted for the cremation is unknown; and 3) the person or other funeral establishment who contracted for the cremation does not claim the remains within thirty days of the mailing of the written notice or within four months of the date of the first publication of notice.

Veterans' service organizations who receive human or cremated remains of a veteran are not liable for simple negligence if they do not have reason to know that the remains do not satisfy the notice requirements of this act and if they inter the remains and do not scatter the remains. The veterans' service organization shall take all reasonable steps to inter the remains in a veterans' cemetery.

HOUSE HANDLER: Ruestman

HCS/HB 154 - This act provides that when an emergency placement of a child is deemed necessary, the Children's Division within the Department of Social Services must immediately begin diligent efforts to locate, contact, and place the child with a grandparent of the child. Diligent efforts are defined in the act, and such efforts shall be made to contact the grandparent within three hours from the time the emergency placement is deemed necessary. During such three-hour period, the child may be placed in an emergency placement. If a grandparent cannot be located within the three-hour period, the child may be temporarily placed in emergency placement. However, after such placement was made the division shall still make diligent efforts to contact the grandparent and place the child with a grandparent or another relative, with first consideration given to a grandparent. Prior to any emergency placement of the child the division shall assure that the child's physical needs are met.

Placement shall not be made with the grandparent when the division determines that the placement would not be in the best interests of the child. The placement with a grandparent shall also be subject to an emergency placement background check. The division shall document the reason why placing the child with a grandparent is deemed to not be in the interest of the child.

When a court determines that a child must be placed in a foster home, the division must make diligent efforts to locate the grandparents of the child and determine if they wish to be considered for placement of the child.

Nothing in the act shall be construed to interfere with or supercede laws related to parental rights or judicial authority.

*** HB 191 *** SCS HCS HB 191

0837S.06C

SENATE SPONSOR: Griesheimer

HOUSE HANDLER: Flook

SCS/HCS/HB 191 - The act removes the requirement that applicants for the BUILD program consider locating within another state and state the disparity in costs exist between such state and Missouri and increases the annual tax credit cap from fifteen million to twenty million dollars. The act allows an existing headquarters to receive tax credits for new or expanded business facilities for expansions done before January 1, 2015. At least twenty-five new employees and at least one million dollars in new investment must be attributed to such expansion. Buildings on multiple, non-contiguous property will be considered one facility if the buildings are within the same municipality.

Under current law, the department of economic development is required to limit the monetary amount of qualified equity investments to a level necessary to limit tax credit utilization to no more than fifteen million dollars annually. Following fiscal year 2010, no equity investments may be made unless reauthorization is provided by enactment of a general law by the general assembly.

This act would require the department to limit the monetary amount of qualified equity investments to a level necessary to limit tax credit utilization to no more than twenty-five million dollars annually. The department is required to deny any application received for certain other economic development incentives which, in addition to the benefits received under the new markets program by the entity, either directly or indirectly, would exceed the projected state benefit. The requirement for reauthorization by enactment of a general law by the General Assembly is moved back two fiscal years to fiscal years following fiscal year 2012.

The secondary mining use tax credit program is created to provide a tax credit for taxpayers, including not-for-profit insurance companies, that incur expenses for the utilization of an existing mine for secondary uses equal to the lesser of hundred percent of such costs or one hundred thousand dollars. The tax credit is fully transferrable, and non-refundable, but may be carried forward five years. The tax credit has an annual aggregate state-wide cap of one million dollars.

The Business Relocation for Secondary Mining Use Tax Credit program is created to provide a tax credit to taxpayers, including not-for-profit insurance companies, that incur expenses in relocating to an existing mine for use of the mine other than mining equal to the lesser of fifty percent of such costs or ten thousand dollars. The tax credit is fully transferrable, and non-refundable, but may be carried forward five years. The tax credit has an annual aggregate state-wide cap of one hundred thousand dollars.

The Abandoned Mine Safety Tax Credit Program is created to provide a tax credit, to taxpayers, including not-for-profit insurance companies, that incur expenses in implementing safety measures or devices in abandoned mines, equal to the lesser of fifty percent of such expenses or fifty thousand dollars. The tax credit is fully transferrable, and non-refundable, but may be carried forward five years. The tax credit has an annual aggregate state-wide cap of five hundred thousand dollars.

The act creates a one thousand dollar refundable state income tax credit for taxpayers who purchase a new or existing home between the effective date of the act and the end of this year. The tax credit program is capped at four million dollars and expires December 31, 2010. The act creates a state and local sales and use tax exemption for utilities, machinery and equipment used or consumed by certain businesses, which after the effective date of the act, commence operations in a facility located in an underground mine which contains at least five hundred thousand square feet of space which could be used by such business. The exemption will expire for taxpayers twenty years from the date the taxpayer is approved for the exemption.

The sales tax exemption created by this act and benefits available under the Missouri Quality Jobs Act are mutually exclusive of one another such that any business which receives a tax benefit under one is ineligible for receipt of the other.

Under current law, historic preservation tax credits are authorized for twenty-five percent of eligible rehabilitation costs. This act reduces the amount of the credit to twenty percent of the eligible rehabilitation costs. Tax credit recipients and the department of economic development are required to report job creation resulting from tax credit utilization.

The Department of Economic Development is allowed to authorize up to \$5 million in tax credits per year to encourage equity investment in technology-based early stage Missouri companies, commonly referred to as angel investments. Investors who contribute the first five hundred thousand dollars in equity investment to a qualified Missouri business may be issued a tax credit equal to thirty percent of the investment or forty percent of the investment if the qualified business is located in a rural area or distressed community. An investor can receive a credit of up to fifty thousand dollars for an investment in a single qualified business and up to one hundred thousand dollars for investments in more than one qualified business per year. Tax credits for equity investment in technology-based early stage Missouri companies may be carried forward for up to three years or transferred.

Records pertaining to a business project with which the Department of Economic Development, the Economic Development Export Finance Board, or a regional planning commission may be deemed closed records. The Department of Economic Development is allowed to include pre-employment training in its new or expanding industry training. The act specifies what services may be provided including development of training plans, the provision of training through qualified training staff, fees for training professionals, and transportation expenses if the training can be more effectively provided outside the community where the jobs will be located.

The aggregate cap on small business incubator tax credit authorization is increased from five hundred thousand dollars to one million per tax year. The act modifies provisions of law which authorize a tax credit for qualified research expenses. The tax credit will be equal to ten percent of qualified research expenses incurred during the taxable year unless such expenses were incurred in a distressed community, in which case the credit will be equal to twenty-five percent of such expenses. Eligibility for receipt of the tax credit is limited to taxpayers with less than two hundred twenty-five employees, seventy-five percent of which must be employed within the state. Such taxpayers must be engaged, on a for-profit basis, in the development of medical instruments and devices, medical diagnostics and therapeutics, plant science products, or pharmaceutical or veterinary products with agricultural applications in order to receive the credit. Under current law, no qualified research expense tax credits may be approved, awarded or issued after January 1, 2005. This act removes the prohibition on approval and issuance of tax credits and increases the annual tax credit cap from nine million seven hundred thousand to three million dollars provided that at least two million dollars in tax credits be authorized for qualified research expenses incurred in distressed communities. No more than five hundred thousand dollars may be allocated annually per taxpayer unless such taxpayer incurred the qualified research expenses in a distressed community in which case such taxpayer may not receive more than one million dollars in tax credits annually.

The act creates a new tax credit for qualified research expenses. The amount of the tax credit will be based upon the increase in a taxpayer's qualified research expenses over average of the three preceding year's expenses. A taxpayer can receive a tax credit equal to: three percent of the amount of increased expenses which do not exceed two million five hundred thousand dollars; five percent of the amount of increased expenses which exceed two million five hundred thousand but do not exceed five million dollars; and seven and one half percent of the amount of increased expenses which exceed five million dollars. The Department of Economic Development is prohibited from issuing more than seven million dollars in qualified research tax credits annually. Qualified research expenses will be limited to those incurred in the research and development of agricultural biotechnology, plant genomics products, diagnostic and therapeutic medical devices, and prescription pharmaceuticals consumed by humans or animals. Expenses incurred in the research, development, or manufacturing of power system technology for aerospace, space, defense, or implantable or wearable medical devices are also permitted. The department director may allow a taxpayer to transfer up to forty percent of the tax credits issued, but not yet claimed, between January 1, 2010, and December 31, 2016. The Director of the Department of Economic Development must act between August 1 and August 15 on tax credit applications filed between January 1 and July 1 for claims from the previous year. A formula is provided by which tax credits will be issued if the eligible claims for the credits exceed the annual cap. No one taxpayer can be issued more than thirty percent of the total amount of tax credits authorized in

any calendar year. Taxpayers are prohibited from simultaneously receiving benefits under this program and the other qualified research tax credit program contained in the act.

The act specifies that if the department fails to respond within thirty days of a Quality Jobs Program applicant's notice of intent, the notice is deemed a disapproval. Currently, the notice is deemed an approval if the department fails to respond within thirty days. The act specifies how the department must apply certain definitions when a business that has already received an approved notice of intent later files another notice of intent and eliminates the per-company annual cap on technology business projects. Qualified companies which file for, or publically announce intentions to seek, bankruptcy protection in the form of a reorganization will still be able to receive benefits under the quality jobs program provided certain conditions are met. The act also increases the annual limit on tax credit issuance for the Missouri Quality Jobs Act from sixty million dollars to one hundred twenty million dollars.

The Small Business and Entrepreneurial Growth Act is established to provide tax incentives for small business expansion. Beginning January 1, 2010, small business employers will be allowed to retain new employee income tax withholdings for one year, if such employer: employs more than five employees and increases payroll by at least twenty percent due to the creation of new jobs which pay at least eighty-five percent of the county average wage; or employs less than five employees and adds new employees so that the total number of employees is five or greater and such jobs pay at least eighty-five percent of the county average wage. Such employers will be allowed to retain all employee income tax withholding for two years if, in addition to the job creation and pay requirements, such employer offers health insurance and pays more than fifty percent of such premiums for all employees. No more than five million dollars in benefits will be available annually under the small business and entrepreneurial growth act.

The act contains an emergency clause.

The act is identical to the senate committee substitute for senate bill 45, 212, 136, 278, 279, 285 & 288 (2009).

HOUSE HANDLER: Ervin

HB 218 - This act the modifies the eligibility rules for health insurance coverage under the Missouri Health Insurance Pool. Under current law, persons who have or who can obtain health insurance coverage substantially similar to a pool plan are not eligible for coverage under the pool. This exclusion, however, does not apply if the person has alternative coverage but the premiums have increased to 150 to 200% of the rates charged for standard coverage. After December 31, 2009, only persons who have their own insurance coverage can obtain pool coverage if their premiums have increased to 300% of the rates for individual standard risks. This act repeals the 300% premium increase qualifier so that persons who have had their premiums increased to 150% to 200% of the rates charged for standard coverage can still obtain pool coverage.

*** HB 229 ***

0666L.01P

HOUSE HANDLER: Ervin

HB 229 - This act modifies various laws governing the realm of health insurance.

INCOME TAX DEDUCTIONS - The act repeals the statutory tax deduction currently given for a self-employed individual's health insurance costs (Section 143.111).

DEPENDENT COVERAGE - Under current law, proof that a dependent child is incapable of maintaining employment due to a mental or physical handicap and is dependent upon the insured for support and maintenance must be furnished to the health insurer at least 31 days after the dependent child has attained the age when coverage would normally be terminated in order to continue receiving the extended coverage provided by the statutes. This act requires the proof of incapacity and dependency to be furnished within 31 days after the child's attainment of the limiting age. This modification applies to group policies, individual polices and health maintenance organization polices (Sections 354.536, 376.426, and 376.776). These provisions are contained in SB 415 (2009).

The definition of "dependent" is changed in the Small Employer Health Insurance Availability Act to mirror the definition of dependent contained in the HMO, individual and group policy statutes. The definition of "dependent" is revised to be a person that is a spouse, an unmarried child who resides in Missouri and is younger than 25 years of age and is not covered by any group or individual health benefit plan or entitled to federal Social Security assistance benefits, or an unmarried child of any age who is disabled and dependent upon his or her parent (Section 379.930.2). This provision is contained in SB 415 (2009).

GROUP HEALTH INSURANCE POLICIES - Under current law, group health insurance policies must contain

a provision that specifies any exclusions and limitations to the policy in regard to a disease or physical condition that an individual was treated for during the 12 months prior to the enrollment date of an individual's policy. Under the act, the exclusion or limitation may only apply to diseases or conditions for which treatment or medical advice was recommended or received by the person during the 6 month period prior to the enrollment date of coverage. Under the terms of the act, exclusions and limitations cannot apply to a loss or disability that occurred after the end of the 12 month period following the enrollment date or during the 18-month period thereafter (reduced from 2 years) in the case of late enrollees (Section 376.426).

CREDITABLE COVERAGE AND WAITING PERIOD DEFINITIONS - The act adds the SCHIP program to the categories of insurance that qualify as "creditable coverage" for purposes of health insurance portability. The act also modifies the definition for the term "waiting period" to include late enrollees and individuals seeking coverage in the individual health insurance market. The definition for "waiting period" as it relates to the Missouri Health Insurance Portability and Accountability Act is revised to be a time period that must pass before coverage for an employee or dependent who is otherwise eligible to enroll in a group health plan becomes effective. Any time period before late or special enrollment is not considered a waiting period for late or special enrollees. A waiting period begins on the date an individual submits an application for coverage and ends when the application for coverage is approved, denied, or lapses (Section 376.450).

HEALTH REIMBURSEMENT ARRANGEMENT - The act also provides that if an employer provides health insurance to an employee and the employee pays any portion of the cost of the premium, the employer must also provide a premium-only cafeteria plan or a health reimbursement arrangement (Section 376.453). Current law only requires the provision of a premium-only cafeteria plan. This provision is contained in SB 415 (2009).

Under this act, employees are allowed to use funds from one or more employer health reimbursement arrangement only plans to help pay for individual health insurance coverage. HRAs are employee benefit plans provided by an employer which establish an account funded solely by the employer to reimburse the employee for qualified medical expenses incurred by the employee or his or her family. HRAs allow the employee to carry forward any unused funds at the end of the coverage period to subsequent coverage periods (Section 376.1600). A similar provision is contained in SB 415 (2009)(Section 376.1600).

STUDY TO IDENTIFY ADMINISTRATIVE AND REGULATORY BARRIERS FOR NEW INSURANCE PRODUCTS - By January 1, 2010, the Director of the Department of Insurance, Financial Institutions and Professional Registration must provide recommendations to the General Assembly of changes to remove any unnecessary barriers that limit the entry of new health insurance products into the Missouri insurance market. The director must also examine proposals adopted in other states that streamline the regulatory processes to allow insurance companies to market new and existing products more easily (Section 376.1618). This section is contained in SB 415 (2009).

PLACEMENT FOR ADOPTION - Health insurance issuers offering group coverage will be required to provide a special enrollment period for a dependent in the case of a placement for adoption (Section 376.450.6).

SMALL EMPLOYER HEALTH REIMBURSEMENT ARRANGEMENTS - If an eligible employee of a small employer retains his or her individually underwritten health insurance, a small employer may provide a defined contribution through the establishment of health reimbursement arrangement (Section 379.940).

HOUSE HANDLER: Lipke

HCS/HB 236 – This act creates "Kaitlyn's Law," which requires school districts that operate a high school to adopt a policy to allow students eligible under the federal Individuals with Disabilities Education Act who have completed four years of high school to participate in graduation ceremonies and related activities with the student's graduating class. The student's IEP must prescribe services, as described in the act, beyond the student's four years of high school. The student's IEP team must determine that the student is making satisfactory progress and that participation in the graduation ceremony is appropriate.

This act contains an emergency clause.

*** HB 239 ***

0752L.01P

HOUSE HANDLER: Jones

HB 239 - This act modifies laws regarding investments made by personal representatives and conservators of estates.

The power of the court to approve investments made by personal representatives of estates without court approval is removed.

Unless restricted by a person's will, the personal representative of an estate is required to invest the liquid assets of the estate in accordance with Missouri's prudent investor act, except that investments in obligations guaranteed as to principal and interest by the United States and investments in interest bearing accounts and certificates of deposit insured by the FDIC are considered prudent investments. If the personal representative of the estate delegates investment and management functions, the agent must acknowledge in writing that they are acting as an investment fiduciary on the account.

The act eliminates the conservator's statutory authority to sell or exchange investment securities of the estate without court approval. However, without court approval, the conservator is required to invest the liquid assets of the estate in accordance with Missouri's prudent investor act, except that investments in obligations guaranteed as to principal and interest by the United States and investments in interest bearing accounts and certificates of deposit insured by the FDIC are considered prudent investments. If the conservator of the estate delegates investment and management functions, the agent must acknowledge in writing that they are acting as an investment fiduciary on the account.

*** HB 242 ***

HCS HB 242

0472L.02P

HOUSE HANDLER: Kingery

HCS/HB 242 – This act allows school boards to establish a four-day school week instead of a five-day school week by the adoption a resolution by a majority vote of board members. Any school district that does so must file a calendar with the Department of Elementary and Secondary Education. A minimum term for a school district adopting a four-day school week includes 142 days and 1044 hours of pupil attendance. A school district that adopts a four-day school week and subsequently meets at least two fewer performance standards on its annual performance report over a two year period must revert to a five-day school week. If the school district then meets the same number of performance standards it had met prior to adopting the four-day school week, it can resume a four-day school week.

Current law requires a school district to make up the first six days of school lost or canceled due to inclement weather and half the number of days lost or canceled in excess of six days. This act provides that such make-up will occur if necessary to ensure that the district's students will attend a minimum of 142 days and a minimum of 1044 hours for the school year. School districts that adopt a four-day school week may schedule make-up days on Friday.

This act is substantially similar to SB 345 (2009) and HB 1534 (2008).

HOUSE HANDLER: Cunningham

HCS/HB 251 - Under current law, co-op's are provided an exception to the prohibition on milk processors and distributors giving monetary incentives for the purchase of their milk products. This act re-words this exception by expressly stating that any return on savings, or any economic benefit or service, given by a co-op to its members for the purchase of milk products shall not be considered a violation.

This act is identical to the perfected SB 153 (2009).

HOUSE HANDLER: Wallace

HB 289 – This act provides local school boards the authority to identify a designee to bind the school district in a settlement agreement reached during the resolution session of a special education due process hearing.

Current law requires a five business day notice for the introduction of evidence at a special education due process hearing, with the exception of an expedited hearing. This act removes the exception for expedited hearings and applies the five-day notice period to expedited hearings as well.

This act will bring Missouri into compliance with the federal regulations implementing the Individuals with Disabilities Education Act (IDEA).

This act is identical to SB 422 (2009), SCS/SBs 1225 & 1226 (2008) and HCS/HBS 1876 & 1877 (2008) and contains provisions identical to HB 265 (2007), HB 267 (2007), SB 133 (2007), SB 140 (2007), SB 147 (2007), and SB 148 (2007).

*** HB 310 ***

HCS HB 310

1033L.02P

HOUSE HANDLER: Jones

HCS/HB 310 - This act repeals certain liquor control provisions pertaining to wholesalers, including exceptions to the wholesaler price regulations and provisions requiring wholesalers to file a schedule with the Supervisor of Alcohol and Tobacco Control in order to operate. Instead, wholesalers are required to make product information, including price, available to retailers no later than five days prior to the first day of the month in which the pricing will be effective. The price provided shall become effective on the first date of the next month and remain in effect until the last day of that month. Supplemental pricing information may be provided to retailers for items that were unintentionally left off the regular information listing after approval by the Division of Alcohol and Tobacco Control.

This act changes the procedure allowing wholesalers to take delivery orders for upcoming months and also changes the requirements for "delayed shipments" under the division's rules and regulations.

This act allows wholesalers to offer retailers merchandise at prices which are below the wholesaler's cost only if such merchandise is specifically designated as "close-out merchandise" when providing the monthly pricing information. The act forbids wholesalers from buying more of such "close-out merchandise". Such "close-out merchandise" shall be designated as such for not less than six consecutive months. After such time, a wholesaler may remove items from its "close-out" designation by no longer identifying them as such on its monthly pricing information.

This act is similar to SS/SB 1240 (2008) and identical to SCS/SB 188 (2009).

HCS HB 320, 39 & 662 -- INCOME TAX CREDIT FOR STORM SHELTERS (Swinger)

COMMITTEE OF ORIGIN: Committee on Homeland Security

Beginning January 1, 2009, this substitute authorizes a one-time income tax credit to a taxpayer for 50% of the cost of the construction or \$1,500, whichever is less, of a storm shelter built in America and installed on or after January 1, 2003. The credit is not refundable or transferable. The total amount of credits, which will be issued on a first-come, first-served filing basis, cannot exceed \$2 million in any fiscal year.

The provisions of the substitute will expire December 31 six years from the effective date.

FISCAL NOTE: Estimated Cost on General Revenue Fund of Up to \$2,000,000 in FY 2010, FY 2011, and FY 2012. No impact on Other State Funds in FY 2010, FY 2011, and FY 2012.

*** HB 359 ***

HCS HB 359

1170L.02P

HOUSE HANDLER: Denison

HCS/HB 359 - This act modifies the current law that authorizes the state Highways and Transportation Commission to enter into design-build highway project contracts. Under this act, the current statutory restriction that limits the commission to only entering into three design-build highway projects is removed. In lieu of a specific number of projects, the total number of highway design-build project contracts awarded by the commission in any state fiscal year shall not exceed 2% of the total number of all state highway system projects listed in the commission's approved statewide transportation improvement program for that fiscal year.

The act extends the sunset clause placed on the design-build statutory provision from July 1, 2012, to July 1, 2022.

The act also authorizes the commission to enter into design-build contracts for improvement of Missouri Route 364 and for the improvement of State Highway 169 and the 96th Street intersection in Kansas City.

The act also amends the current bonding requirements relating to design-build highway project contracts. The act specifies the requirements for bid, performance and payment bonds, or letters of credit, must be provided by the design-builder directly to the commission in design-build highway project contracts. Under the act, a bid or proposal bond, cash or certified or cashier's check is still required, but the amount shall be determined by the commission. Under the act, a bid or proposal bond, cash or certified or cashier's check is still required, but the amount shall be determined by the commission. The performance bond or bonds must be in an amount equal to a reasonable estimate of the total cost of construction work under the design-build highway project contract, unless the commission determines in writing supporting by specific findings that a performance bond or bonds in such amount is impractical, in which case the commission shall establish the amount of the performance bond or bonds.

Under this act, any project constructed must comply with the clearance and safety requirements regarding railroads as established by the Federal Railroad Administration, and any affected railroad must be given reasonable opportunity to review all project plans.

This act contains an emergency clause.

The provisions of this act are similar to SS/SCS/SB 128 and SB 178(2009).

HOUSE HANDLER: Hobbs

HB 376 - Under this act, a county is not required to obtain bids on purchases of \$6,000 or less. Currently, such amount is set at \$4,500.

Under current law, counties may waive competitive bidding when the County Commission determines that there is only one feasible source for the supply. This act requires counties to post notice on such proposed purchases of over \$6,000 and advertise the commission's intent to make such purchase in the newspaper at least ten days in advance. Currently, the commission must post notice for such proposed purchases of at least \$3,000 and also advertise in the newspaper for such purchases of at least \$5,000.

This act is identical to SB 256 (2009).

*** HB 382 ***

HCS HB 382

1152L.04P

HOUSE HANDLER: Cox

HCS/HB 382 - This act requires that individuals acting as mortgage loan originators for residential property be licensed. Mortgage loan originators must also be employed, act under the supervision of a Missouri licensed residential mortgage broker, and register with the National Mortgage Licensing System and Registry "NMLSR". These requirements are not effective until July 31, 2010.

Certain individuals are exempt from licensing, including: mortgage loan originators registered with NMLSR and employed by certain entities, individuals offering or negotiating terms of residential mortgage loans with or on behalf of an immediate family member, individuals offering or negotiating terms of residential mortgage loans secured by their own residence, and certain attorneys who negotiate the terms of a residential mortgage loan on behalf of a client.

Independent contractor loan processors or underwriters for residential real estate must also be licensed as mortgage loan originators, have a unique identifier issued by NMLSR, and certify annually to the Director of the Division of Finance that they will comply with requirements applicable to mortgage loan originators.

Non-federally insured credit unions which employ loan originators must register the loan originators with the NMLSR.

The director of the Division of Finance is authorized to establish licensing rules for mortgage loan originator licensing. The director may establish expedited procedures for licensing of individuals previously licensed in Missouri as residential mortgage loan brokers. The director is authorized to establish the application form, enter into relationships and contracts with the NMLSR to collect and maintain records and process fees, and modify statutory requirements by rule or regulation as necessary to participate in NMLSR. The director is also required to establish a process for mortgage loan originators to challenge information entered into NMLSR.

An applicant for licensing as a mortgage loan originator must furnish NMLSR with their fingerprints, personal history, and authorize NMLSR to get their credit report and information related to any administrative, civil, or criminal findings by any governmental agency. No applicant would be denied a license solely on the basis of a credit score. Residential mortgage brokers subject to this act must also submit reports to the NMLSR.

Licensees are also required to have continuing education of at least eight hours a year in certain subjects. Provisions for the types of continuing education allowable are included.

The director shall not issue a mortgage loan originator license to anyone, unless the director finds that the applicant: has never had a mortgage loan originator license revoked in any governmental jurisdiction, has not been convicted of certain felonies, or any felony in the last seven years, has demonstrated financial responsibility, character, and fitness for licensing, has completed pre-licensing education requirements, which include at least twenty hours of NMLSR approved courses in specific areas, has passed a NMLSR written test, and met a surety bond requirement.

Standards for renewing mortgage loan originator licenses are also provided. The director is also authorized to adopt procedures for the reinstatement of expired licenses.

The director is authorized to deny licenses to applicants, discipline licensees, order restitution, impose fines, issue cease and desist orders, and order other affirmative action as the director deems necessary. Letters denying or declining to renew a license may be appealed to the residential mortgage board under the Missouri Administrative Procedure Act. All other matters presenting a contested case involving a licensee may be heard by the director under the Missouri Administrative Procedure Act. The civil penalty the director may impose is a maximum of \$25,000 per violation.

Mortgage loan originators are required to be covered by the surety bond of the licensed mortgage broker who supervises them. Residential mortgage brokers shall deliver a surety bond to the director prior to the issuance or renewal of a license. The director may promulgate rules or regulations with respect to the requirements of the surety bonds. Provisions regarding the amount of the bond and filing of the bond are also included.

Provisions for the confidentiality of certain information provided by licensees to the director and to the NMLSR are included. Information regarding the employment history and publicly adjudicated disciplinary and enforcement actions against residential mortgage brokers and mortgage originators will be accessible to the public.

The director has the authority to conduct investigations and examinations. The director's investigatory powers and certain actions which would violate the act are specified. The director is required to report violations and other relevant information to the NMLSR.

The unique identifier assigned to each person originating a residential mortgage loan and the residential mortgage loan broker license number must be on all residential mortgage loan application forms, advertisements, business cards, websites, and any other documents as established by the director.

If the U.S. Department of Housing and Urban Development disapproves of any part of the act under their authority under the federal Secure and Fair Enforcement Mortgage Licensing Act, then the director has the rule-making authority to adopt rules necessary to continue participating in the NMLSR.

Residential mortgage loan brokers who are licensed by the director are required to report each mortgage loan originator employed under their supervision to the director and report any apparent violations to the director within thirty days of detection. The director can grant waivers of the residential mortgage loan broker licensing requirement.

Residential mortgage brokers are required to disclose a loan disclosure statement and fee agreement. Mortgage loan originators may only be compensated by the mortgage loan broker that employs them. If the mortgage broker receives fees greater than the amount they disclosed, they shall forfeit double the amount of fees and compensation to the borrower.

The requirement that a mortgage broker have annual audits is repealed.

HOUSE HANDLER: Nance

HB 395 - This act modifies provisions regarding the assistance provided to nursing home residents who transition back into their homes and in the community. Subject to appropriations, nursing home residents eligible for MO HealthNet benefits will receive a one-time transition grant up to \$2,400, administered by the Division of Senior and Disability Services within the Department of Health and Senior Services. The funds shall be used on initial down payments, setup costs and other expenditures associated with moving a nursing home resident back into the community. The division will work with the Department of Social Services to generate additional private and federal funding for the transition grants.

The Department of Health and Senior Services and the Department of Mental Health shall work in cooperation to develop community-based services for persons who are moving out of nursing homes and back into their communities and promulgate rules as needed.

This act is substantially similar to HB 1656 (2008).

P E R F E C T E D

HCS HB 427 -- MEMBERS OF THE MILITARY, VETERANS, AND THEIR FAMILIES (Largent)

COMMITTEE OF ORIGIN: Committee on Veterans

This substitute changes the laws regarding members of the military, veterans, and their families. In its main provisions, the substitute:

- (1) Designates May 1 of each year as "Silver Star Families of America Day" to honor the wounded members of the United States armed forces;
- (2) Requires all persons appointed to the Missouri Veterans' Commission to be a member of a statewide veterans' organization for at least two consecutive years prior to their appointment and authorizes the commission to establish rules and regulations necessary for the management and administration of its veteran service programs and cemeteries;
- (3) Revises the educational grant program for survivors of war veterans by specifying who is a qualifying military member and who is a combat veteran;
- (4) Requires a dependent, as defined in federal law, who is residing in Missouri and whose parent is assigned to permanent duty in the state to be eligible for in-state tuition as long as he or she is continuously enrolled in a Missouri higher education institution including any transfers from one Missouri institution to another or from an undergraduate to a graduate degree program. Currently, eligibility for in-state tuition as a military dependent is subject to administrative regulation and institutional policy;
- (5) Allows the unclaimed remains of a veteran to be collected by a veterans' service organization for the purpose of interment in a veterans' cemetery if the remains have been in possession of a funeral establishment for at least one year and the funeral establishment has given written notice to another funeral establishment or a person who contracted for the cremation or interment. If the address of the person entitled to the remains cannot be reasonably ascertained, notice must be given in a newspaper of general circulation in the county of the veteran's residence. If the veteran's residence is unknown, notice must be given in the county where the veteran died or, if the death location is unknown, in the county in which the funeral establishment is located. If the remains are not claimed within 30 days of the written notice or within four months of the date of the first newspaper publication, the remains may be given to a veterans' service organization for interment. A veterans' service organization is not liable for simple negligence if it does not scatter the remains but must take all reasonable steps to inter the remains in a veterans' cemetery;
- (6) Authorizes the Department of Revenue to provide one set of "PURPLE HEART" specialized license plates free of charge to any person who has been awarded the medal. Any additional set of special license plates may be obtained at the current fee for specialized plates; and
- (7) Requires all court orders regarding child custody or visitation issued or modified while either party is in active military service and deployed out-of-state to be temporary in nature. Upon return from deployment, the party will be given an opportunity to be heard on the child custody and visitation order before a permanent order is entered.

FISCAL NOTE: No impact on state funds in FY 2010, FY 2011, and FY 2012.

HCS HB 459

1223L.02P

HOUSE HANDLER: Schaaf

HCS/HB 459 - This act imposes a gross receipts tax upon certain ambulance service providers in an amount not to exceed six percent per year. The revenues derived from the tax will be deposited into the newly created ambulance service reimbursement fund to provide additional payments to ambulance services which have valid MO HealthNet agreements with the state. The director of the department will annually determine the amount of tax owed by each such ambulance service provider based upon gross receipts information provided to the Department of Revenue. The act contains provisions allowing for the appeal of allowance tax liabilities imposed by the state and for the enforcement and collection of the tax. Failure to pay the tax authorized by this act will be grounds for denial, suspension, or revocation of the ambulance service's license.

The provisions of the act will automatically expire on September 30, 2011.

This act is identical to Senate Bill 307 (2009).

*** HB 488 ***

1081L.01P

HOUSE HANDLER: Schad

HB 488 – This act modifies procedures for the lapse of a school district that has been classified as unaccredited by the State Board of Education for two successive school years. Current law provides that the corporate organization of a school district classified as unaccredited will lapse on June 30 of the second full school year of unaccredited classification. This act allows the State Board of Education to set a date for a school district's lapse. However, the school district cannot lapse prior to June 30 of the second full school year of unaccredited classification.

When a school district lapses, current law requires the Department of Elementary and Secondary Education to conduct a public hearing in the school district to review the district's plans to return to accredited status or to offer technical assistance to the district. This act changes the focus of the public hearing to be the accreditation status of the school district in general.

When a school district lapses, the State Board of Education may allow the school board to continue governing the district under terms and conditions established by the State Board of Education.

This act is substantially similar to SB 491 (2009).

HCS/HB 540 - This act modifies various provisions relating to lender institution services.

This act provides that nothing in Chapter 408, RSMo, shall be construed to prohibit the sale of a deficiency waiver addendum, guaranteed asset protection, or a similar product purchased as part of a loan transaction with collateral and at the borrower's option, provided the cost of the product is disclosed in the loan contract. The act specifically provides that such waiver addendums or guaranteed asset protection products may also be sold in connection with certain consumer loans, second mortgage loans, and retail credit sales so long as such products are purchased as part of a loan transaction with collateral and at the borrower's option, provided the cost of the product is disclosed in the loan contract.

The act also provides that lenders may offer, sell, and finance automobile club memberships, home and auto security plans, and other plans and services that provide benefits to borrowers (section 408. 052).

This act is similar, but not identical, to SB 243 (2009).

HCS/HB 580 - This act creates the Line of Duty Compensation Act which provides additional workers' compensation benefits in the amount of \$25,000 for firefighters, law enforcement officers, and emergency medical technicians who are killed in the line of duty.

Coverage applies when:

- Death is caused by an accident or violence of another;
- The individual is in the active performance of his or her duties and there is a relationship between the accident or commission of the act and the performance of duty, even when off duty; the individual is traveling to or from employment; or the individual is taking a break while on duty;
- The injury is the cause of the death; and

- Death occurs within 300 weeks of the injury.

A \$25,000 death benefit shall be awarded to the surviving spouse, dependent, or estates of those killed in the line of duty.

Under the act, neither employers nor workers' compensation insurers shall have subrogation rights against compensation awarded for claims under the proposed program.

This act contains an emergency clause.

This program shall sunset in 6 years unless reauthorized.

This act is similar to SB 500 (2007), HB 551 (2007), SB 966 (2008), and SB 332 (2009).

*** HB 661 ***

HCS HB 661

1620L.02P

HOUSE HANDLER: Ruzicka

HCS/HB 661 - The current authorization to collect a fee from retailers that sell new tires in Missouri expires on January 1, 2010. This act extends the authorization until January 1, 2020.

Under current law, the Department of Natural Resources may use up to 5% of its portion of the tire fees collected for the purpose of educational programs and curricula. The act specifies that the educational programs must be environmentally-related and assist the Department implement the solid waste laws.

Current law allows the Department to use up to 25% of its portion of the tire fees collected to remove tires from illegal tire dumps and address nuisances created by illegal tire dumps. The act increases the percentage of funding that may be used for these purposes to 50%. Similarly, the act increases from 5% to 45%, the amount of its fee revenue that the Department may spend on grants to people who will use products made from scrap tires.

Coal-fired electric plants that burn tire-derived fuel shall not be considered a scrap tire site or solid waste disposal area and are not therefore subject to regulations for those areas.

The act allows charitable, fraternal, and other non-profit organizations to be eligible for reimbursement of costs associated with disposal costs of scrap tires collected during a voluntary land or river cleanup event. Local governments may also be eligible for similar reimbursement, provided their costs are not part of their normal operating costs.

This act is similar to SCS/SB 409 (2009).

*** HB 740 *** HCS HB 740

1918L.03P

HOUSE HANDLER: Icet

HCS/HB 740 - This act extends the sunsets for the Medicaid Managed Care Organization reimbursement allowance, the Pharmacy Tax, and the intermediate care facility for the mentally retarded assessment from June 30, 2009 to September 30, 2011. The sunsets for the Federal Reimbursement Allowance assessment and Nursing Facility Reimbursement Allowance are extended from September 30, 2009 to September 30, 2011.

This act contains an emergency clause.

This act is similar to senate bill 378 (2009).

*** HB 744 ***

1987L.01P

HOUSE HANDLER: Icet

HB 744 - This act creates two separate funds, the Missouri Family Recovery Plan Fund and the Economic Stimulus Fund, within the state treasury to receive and retain funds provided under the American Recovery and Reinvestment Act of 2009. Moneys allocable to the Water and Wastewater Loan Fund are specifically exempted from inclusion in the Missouri Family Recovery Plan Fund.

The State Treasurer is authorized to create or redesignate funds as necessary to avoid conflict with federal law prohibiting commingling of certain funds derived from the American Recovery and Reinvestment Act of 2009, as enacted by the 111th United States Congress.

This act is similar to SCS/SB 313 (2009).

This act contains an emergency clause.

*** HJR 23 ***

HCS HJR 23

1214 .03P

HOUSE HANDLER: Icet

HCS/HJR 23 - Upon voter approval, this proposed constitutional amendment would prohibit appropriations in any fiscal year from exceeding the total state general revenue appropriations from the previous year by more than the appropriations growth limit. The appropriations growth limit will be the greater of zero or the sum of the annual rate of inflation and the annual Missouri population growth. In any fiscal year when the net general revenue collections are in excess of one percent of the authorized net general revenue appropriations allowed, sixty-seven percent of the excess is to be transferred to the Cash Operating Reserve Fund and thirty-three percent to the Budget Reserve Fund, which are created by the resolution. Any revenue in excess of the limits of the funds will be transferred to the Taxpayer Protection Stabilization Fund, created by the resolution, and used to temporarily reduce the individual income tax rate when the Commissioner of the Office of Administration determines that sufficient amounts exist in the fund for a reduction.

The resolution authorizes the General Assembly, by a two-thirds majority vote, to appropriate money from the Taxpayer Protection Stabilization Fund, if the commissioner determines that total state general revenue appropriations will exceed projected state revenues. Total state general revenue appropriations may exceed the appropriations limit only if the Governor declares an emergency and the General Assembly, by a two-thirds majority, approves appropriation bills to meet the emergency. The funds appropriated to meet the emergency will not increase the appropriation limit for the succeeding fiscal year. New or increased tax revenues or fees receiving voter approval will be exempt from the calculation of the appropriations growth

limit for the year in which they are passed.

Sixty-seven percent of the balance in the Budget Reserve Fund on July first of each year is to be transferred to the Cash Operating Reserve Fund. If the balance in the Cash Operating Reserve Fund exceeds five percent of the net general revenue collected in the previous fiscal year, the excess amount will be transferred to the Taxpayer Protection Stabilization Fund. In any fiscal year in which the Governor reduces expenditures below amounts appropriated, the Governor may request an emergency appropriation from the Budget Reserve Fund. If the request is approved by the General Assembly, funds may be restored to any expenditure authorized by existing appropriations. If the balance in the Budget Reserve Fund at the end of a fiscal year exceeds seven percent of the net general revenue collections for the previous fiscal year, the excess funds will be transferred to the Taxpayer Protection Stabilization Fund. If the balance is less than seven percent, the difference will be transferred from the General Revenue Fund within five years.

The provisions of the resolution will expire five years from the effective date.
