HOUSE COMMITTEE SUBSTITUTE FOR
HOUSE CONCURRENT RESOLUTION NO. 23

WHEREAS, bicycling and walking are essential to millions of Missourians as basic transportation and enjoyed by millions of Missourians as healthful recreation and as part of a healthy lifestyle; and

WHEREAS, encouraging and promoting a complete network of safe bicycle and pedestrian ways and routes is essential for those Missourians who rely on bicycling and walking for transportation, recreation, and health; and

WHEREAS, a safe and complete bicycle and pedestrian system is important for Missouri's economy and economic development; and

WHEREAS, world-class bicycling and walking facilities help promote Missouri as a leading tourist and recreation destination; and

WHEREAS, walking and bicycling improve the public health and reduce treatment costs for conditions associated with reduced physical activity, including obesity, heart disease, lung disease, and diabetes; and

WHEREAS, the United Health Foundation estimates direct medical costs associated with physical inactivity in Missouri at \$1.9 billion in 2008, and projects an annual cost for Missouri of over \$8 billion per year by 2018 if current trends continue; and

WHEREAS, the annual per capita cost of obesity is \$450 per Missourian, among the highest per capita costs of any state in the United

States; and

WHEREAS, promoting walking and bicycling for transportation improves Missouri's environment, reduces congestion, reduces the need for expensive expansion of our road and highway systems, and reduces our dependence on foreign energy supplies; and

WHEREAS, creating healthy, walkable, bicycleable, and livable communities helps keep Missouri competitive in the global competition for high quality businesses and motivated, creative workers who consider transportation and recreation options an essential part of a healthy community; and

WHEREAS, Missourians who reach retirement age choose more often to walk and bicycle for fitness, recreation, enjoyment, and transportation; and

WHEREAS, citizens with disabilities often rely on walking, bicycling, and transit to meet basic transportation needs and to make connections with the transit system, face great obstacles within our current transportation system, and benefit greatly from complete and well designed accommodations for bicycling and walking; and

WHEREAS, all transit users depend on walking and bicycling to complete at least part of each transit trip; and

WHEREAS, the number of Missouri students who walk and bicycle to school has dropped dramatically over the past forty years, with 50% of students walking or bicycling in 1975 but only 15% in 2005. In the same period, the percentage of children clinically defined as overweight has increased from 8% to 25%; and

WHEREAS, the principles of Complete Streets are designed to create a transportation network that meets the needs of all users of the state's transportation system: pedestrians of all ages and abilities, bicyclists, disabled persons, public transportation vehicles and patrons, and those who travel in trucks, buses, and automobiles; and

WHEREAS, the term "Complete Streets" means creating roads, streets, and communities where all road users can feel safe, secure, and welcome on our roads and streets and throughout our communities; and

WHEREAS, the terms "livable streets" and "comprehensive street design" are also used to identify these same concepts; and

WHEREAS, coordination and cooperation among many different agencies and municipalities is required to fully implement Complete Streets and create a complete, connected, and safe transportation network for walking and bicycling; and

WHEREAS, the cities of Elsberry, Pevely, Herculaneum, Crystal City, Festus, De Soto, Ferguson, Columbia, Lee's Summit, Kansas City, and St. Louis City have adopted Complete Streets or Livable Streets policies; and
