

96th General Assembly

Second Regular Session

MISSOURI SENATE

WEEKLY BILL STATUS REPORT

February 27 - March 9, 2012

Prepared by
Divisions of Research and Computer Information Systems

*** SB 434 ***

4373S.011

SENATE SPONSOR: Callahan

SB 434 – This act modifies provisions relating to changes in school district boundary lines.

ADJUSTMENT AND APPORTIONMENT OF SCHOOL PROPERTY: Current law requires the school boards of school districts for which a boundary line change occurs to make a just and proper adjustment and apportionment of all school property. When an election is to occur to decide whether to change school district boundary lines under section 162.431, this act requires the affected school districts to make a preliminary adjustment and apportionment of the districts' property at least sixty days prior to the election. If the districts cannot agree on a preliminary adjustment and apportionment, the State Board of Education must appoint a three person board of arbitration to determine the preliminary apportionment and adjustment. If the boundary line change occurs and the districts cannot agree when making the apportionment and adjustment and a board of arbitration is appointed, the board must follow the preliminary apportionment and adjustment unless new and significant circumstances exist. In such a situation, the Board of Arbitration must state in writing why it is deviating from the preliminary adjustment and apportionment. (Sections 162.041 and 162.431)

SCHOOL DISTRICT BOUNDARY LINE CHANGES: This act modifies the effective date of a boundary line change. Instead of the change being effective from the date of the election, the change would be effective at the beginning date of the next school year.

When one district votes in favor of the boundary line change and one district votes against the change and a board of arbitration is appointed by the State Board of Education to determine whether to make the change, the board of arbitration must base its decision on the current accreditation status of each affected district. The Board of Arbitration would determine the boundary line change in a manner that moves students out of unaccredited and provisionally accredited districts and into accredited districts. If each district is accredited, the Board of Arbitration must use the existing factors in the statute to make its decision.

After a boundary line change occurs, for the next three school years, the receiving district may, but will not be required to, include the statewide assessment scores for any students it receives in the district's scores.

If a boundary line change results in a charter school being located in a district other than Kansas City or St. Louis, the local school district and charter school's governing board may enter into an agreement to incorporate the charter school into the district and operate it as a regular school building of the district. If such an agreement occurs, the district must make arrangements for the charter school's students to continue attending school at that building until they graduate. The Department of Elementary and Secondary Education may grant a waiver for such a school to continue operating like a charter school while functioning as part of the district. (Section 162.431)

WEIGHTED AVERAGE DAILY ATTENDANCE FOR DISTRICTS AFFECTED BY A BOUNDARY LINE CHANGE: When a school district gains enrollment because of a boundary line change, during the two school years following the change, its weighted average daily attendance figure will be adjusted so that it receives twice the weighted average daily attendance for any students it received as a result of the boundary line change.

When a school district loses student enrollment because of a boundary line change, during the school year following the line change, it may only submit an estimate of the weighted average daily attendance for the current year. During the second year following the line change, it may submit an estimate of the weighted average daily attendance for the current year or the weighted average daily attendance for the immediately preceding year, whichever is greater. During the third year following the line change, it may submit an estimate of the weighted average daily attendance for the current year or the weighted average daily attendance for the immediately preceding year, or the weighted average daily attendance for the second preceding school year, whichever is greater. (Section 162.431)

SCHOOL DISTRICT TRUST FUND (PROP C FUNDS): When a change in school district boundary lines occurs under section 162.431, the Department of Elementary and Secondary Education must modify the school district trust fund payments to the affected school districts during the first academic year in which the boundaries are changed to reflect the current weighted average daily attendance count. In subsequent years, districts' payments will be determined by the first preceding weighted average daily attendance count. (Section 163.087)

SENATE SPONSOR: Crowell

SB 436 - This act modifies every state tax credit program in existence by limiting the amount of tax credits available for authorization in each fiscal year beginning FY 2014 based upon an appropriations made by the general assembly in the appropriation bill for public debt.

The act creates a procedure for the appropriation of tax credit authorizations after June 30, 2013. The act establishes separate funds to receive appropriations for each tax credit program in existence. Unless specifically appropriated, no tax credits may be authorized after June 30, 2013. The administering agency of each tax credit program, now or hereafter authorized by state law, must provide the House Budget Committee and the Senate Appropriations Committee with a request for tax credit appropriations. Where Missouri law allows the issuance of tax credits to a recipient over the course of several years, such tax credit authorization must be appropriated in the aggregate, and subsequent issuance of such tax credits will not be used in calculating any statutory limitation on the fiscal year authorization appropriation of tax credits. Fiscal year appropriations of tax credits must be made in the annual appropriations bill for public debt and specifically provide: the name of the tax credit program; the actual amount allocated for authorization; the administering agency for the program; and whether the amount is authorized for streaming tax credit issuance and the amount of streamed credits. Appropriated funds for tax credits which remain unauthorized at the end of the fiscal year, along with any interest earned on moneys within the funds, will be transferred to the general revenue fund on the last day of such fiscal year. As tax credits are redeemed, transfers from the various tax credit funds will be made to the general revenue fund to offset such redemptions.

The act repeals the transportation development tax credit, loan guarantee fee tax credit, dry fire hydrant tax credit, and the qualified research expense tax credit.

This act is similar to SB 954 (2010) and SB 139 (2011).

SB 437 - This act mandates that the Governor and Lieutenant Governor candidates shall be elected jointly. A candidate for Governor shall pick the candidate for Lieutenant Governor and both candidates shall be considered as one candidate for both the primary election and the general election. If a candidate for Governor is disqualified for any reason after the primary election, then current law provisions for the selection

of a new gubernatorial candidate shall apply and the disqualified candidate's selection of a Lieutenant Governor shall not be listed as the party's candidate for Governor unless chosen through the current law processes for replacing a disqualified gubernatorial candidate.

The passage of this act is contingent upon voter approval of a senate joint resolution amending the Missouri Constitution to require the joint election of the Governor and Lieutenant Governor.

This act is similar to SB 1114 (2002).

*** SB 439 ***

SCS SB 439

4295S.03C

SENATE SPONSOR: Mayer

SCS/SB 439 - This act modifies various provisions relating to the prevailing wage.

Prevailing wage laws shall not apply in any county that receives federal disaster assistance under a federal disaster declaration for projects undertaken as a result of the disaster.

The definition of "construction" only includes new construction, enlargement, or major alteration. Reconstruction, improvement, painting and decorating, and major repair are no longer considered construction for the purposes of prevailing wage.

Under current law, a locality, for the purposes of determining the prevailing wage for an occupational title, may encompass two or more counties adjacent to the one in which the construction is to be performed in certain instances. This act only allows the county in which the work is to be performed to be used as a basis for determining the prevailing wage.

Under current law, prevailing wage in a locality is determined by the Department of Labor to be the hourly rate for a particular occupational title by means of wage surveys. This bill repeals this provision and establishes that the prevailing wage for a locality shall be the median hourly estimated wage of the construction and extraction occupational code most closely resembling the occupational title as published in the Metropolitan and Non-Metropolitan Area Occupational Employment Wage Estimate published by the United States Bureau of Labor Statistics, or the median hourly wage estimate for occupational code 47-0000 in the construction and extraction occupational code if the former cannot be determined.

Under current law, when the Department of Labor finds a violation of the prevailing wage statutes, it provides a notice of penalty to the employer. This act changes references to "notices of penalty" to "notices of violation".

Under current law, prevailing wage penalties are not due until 45 days after the date of the notice of the penalty. This act removes that provision.

Under current law, if employers pay backwages before the department initiates an enforcement action to enforce monetary penalties, the department is precluded from initiating such an enforcement action. Under the act, the department is also precluded from initiating any administrative, civil, or criminal action and the employer shall not appear on the notice of conviction list that would otherwise bar the employer from participating in public works construction.

Under current law, the prevailing wage for each title may be adjusted in response to fluctuations in wages due to collective bargaining agreements. Those adjustments shall not be allowed under this act.

Provisions requiring contractor and subcontractor signage on motor vehicles and other motorized equipment and imposing a six month term of imprisonment on those violating the prevailing wage laws are removed.

This act is similar to SB 175 (2011), SB 176 (2011), SB 468 (2012), and SB 596 (2012).

*** SB 440 ***

4161S.011

SENATE SPONSOR: Engler

SB 440 - This act subjects Chapter 383 malpractice associations to stricter insurance regulations.

383 ASSESSMENTS - Under the terms of this act, 383 malpractice association assessments are broken into 4 types of assessments: initial assessments, regular assessments, operating assessments, and special assessments. A 383 malpractice association's articles of association and bylaws must specify how the various assessments apply to current and former members (Section 383.016).

Under the act, special assessments made by an association after the 5th anniversary of the termination date of a former member's coverage under the association's policy shall not apply to the former member (Section 383.015).

ARTICLES OF ASSOCIATION AND BYLAWS - Under the act, a copy of the articles of association and bylaws shall be attached to a policy issued by an assessable association (Section 383.018).

383 AUDITS - Under the terms of this act, 383 malpractice associations shall be subject to various auditing and financial reporting insurance laws (Section 383.035).

LIMITATIONS ON AMOUNT OF INSURANCE PREMIUM AN ASSOCIATION CAN WRITE - The act removes the prohibition on the Department of Insurance which precluded it from placing limitations on the amount of premium an association can write or on the amount of insurance or liability limit an association can provide (Section 383.035).

ASSOCIATION SURPLUS REQUIREMENTS - The act requires assessable associations to maintain a policyholder's surplus of at least \$600,000 (Section 383.035.5). Assessable associations licensed under Chapter 383 as of February 9, 2012, may renew their licenses with lower surplus requirements over a three

year period (\$200,000 surplus after 2012, \$400,000 surplus after 2013, and \$600,000 surplus after 2014). Under current law, 383 malpractice associations are not required to maintain positive surpluses.

PREMIUMS WRITTEN/SURPLUS HELD MINIMUM RATIO - The act requires 383 associations to maintain a specified ratio of premiums written to surplus held. A 383 malpractice associations shall not cause the ratio of its net written premiums to its policyholder's surplus to exceed 3 to 1 without approval of the director. Assessable associations licensed under Chapter 383 as of February 9, 2012, may renew their licenses with higher ratios over a three year period (4 to 1 after 2012, 3.5 to 1 after 2013, and 3 to 1 after 2014)(Section 383.035.6).

Failure to comply with the surplus or premiums written/surplus ratio requirements constitutes grounds for revocation of an association's license (Section 383.035).

383 MALPRACTICE ASSOCIATION RATES - The act repeals a provision of law which currently provides that 383 malpractice association rates shall not be excessive or inadequate, nor shall they be unfairly discriminatory (Section 383.037).

DETERMINATION OF WHETHER A MEDICAL MALPRACTICE INSURANCE RATE IS EXCESSIVE, INADEQUATE, OR DISCRIMINATORY - Under current law, medical malpractice insurers are prohibited from issuing medical malpractice policies in which the rates are excessive, inadequate, or unfairly discriminatory. A determination of whether a base rate is excessive, inadequate, or unfairly discriminatory is determined by the director. This act clarifies this statute by requiring the director to hold a hearing before making such a finding and that the director must base the decision on competent and substantial evidence on the whole record rather than competent and compelling evidence (Section 383.206).

COMPLIANCE WITH THE NEW 383 ASSOCIATION LAWS - Assessable associations operating under the 383 malpractice association laws prior to August 28, 2012, shall have 180 days following such date to come into compliance with the requirements of the modified provisions and to file their articles of association and bylaws conforming to the modified provisions or the director may suspend the assessable association's certificate of authority or issue a cease and desist order prohibiting the assessable association from writing new business (Section 383.009).

The provisions of this act are virtually identical to those contained in SB 302 (2011).

SCS/SB 442 - The act establishes identification requirements for voting. Voters shall produce a nonexpired Missouri driver's license; a nonexpired or nonexpiring Missouri nondriver's license; any identification containing a photograph issued by the Missouri National Guard, the United States armed forces, or the United States Department of Veterans Affairs; or a document issued by the United States or the state

of Missouri containing the name of the voter which substantially conforms to the most recent signature in the individual's voter registration records, a photograph, and an expiration date or if expired, the expiration is after the date of the most recent general election.

Those appearing without identification who are unable to obtain one because of a physical or mental disability, an inability to pay for a document necessary to obtain the required identification, a religious belief against forms of identification or the voter was born before January 1, 1941, shall be allowed to vote a provisional ballot, provided the election authority can verify the identity of the individual by comparing the individual's signature to the signature on file with the election authority.

All voters whose identity cannot be established are allowed to cast a provisional ballot which shall not be counted unless the voter returns and provides proper identification.

All costs incurred by the election authority associated with implementing the new identification requirements shall be reimbursed from the general revenue upon appropriation.

The election authority shall provide advance notice of the identification requirements to be included in the election authorities elections notices.

The state shall provide at least one form of identification required to vote at no cost to the voter.

The act requires that provisional ballots be available for all elections except for absentee voting.

This act is contingent on the passage of a constitutional amendment establishing voter photo identification for elections.

This act is similar to SB 1014 (2006), SB 523 (2009), HB 1966 (2010), and SB 3 (2011).

HOUSE HANDLER: Denison

HCS/SS/SCS/SB 443 - This act modifies various provisions relating to the regulation of motor vehicles.

FAILURE TO APPEAR IN COURT- Under current law, if a person fails to timely dispose of a traffic ticket, the court will notify the director of revenue of such fact and the director will suspend the offender's driver's license until such time the person settles the matter by paying the fines and applicable court costs. Upon proof of disposition of the charges, and payment of a reinstatement fee, the director will return the license and remove the suspension from the person's driver's record. This act modifies this provision so that a commercial motor vehicle operator or a holder of a commercial driver's license will not be eligible to have such a suspension removed from his or her driving record (Section 302.341). This provision is also contained in the truly agreed to version of HB 430 (2011) and HCS/HB 818 (2011).

UNIFORM COMMERCIAL DRIVER'S LICENSE ACT - This act adds new definitions to Uniform Commercial Driver's License Act (Sections 302.700 to 302.780) and makes modifications to current definitions relating to commercial driver license requirements to comply with Federal Motor Carrier Safety regulations and support the implementation of the federal rule labeled "Medical Certification Requirements as part of the CDL". The act revises the definition section by adding the following terms:

- 1) CDLIS driver record;
- 2) CDLIS motor vehicle record;
- 3) Commercial driver's license downgrade;
- 4) Driver applicant;
- 5) Employee;
- 6) Endorsement;
- 7) Foreign;
- 8) Medical examiner;
- 9) Medical variance (Section 302.700). This provision is also contained in the truly agreed to version of HB 430 (2011) and in HCS/HB 818 (2011).

CDL MEDICAL CERTIFICATION COMPLIANCE - This act implements a Federal Motor Carrier Safety Regulation known as "Medical Certification Requirements as part of the CDL". This act requires commercial driver license applicants to complete certain self certifications and submit required medical examiner certification documents when applicable. The act specifies the certification process. Applicants certifying to the operation in nonexcepted interstate or nonexcepted intrastate commerce must provide the state with an original or copy of a current medical examiners certificate. The state is required to maintained such documents for a period of 3 years beyond the date the certificate was issued. The act requires applicants to provide updated medical certificates or variance documents in order to maintain commercial motor vehicle driving privileges. The director must post the medical examiners certificate information to the driver record within 10 calendar days of receipt and the information will become part of the CDLIS driver record. Under the act, any person who falsifies any information in an application for or an update of medical certification status information shall not be licensed to operate a commercial vehicle or the person's commercial driver's license must be canceled for a period of one year after the director discovers the falsification. This provision is also contained in the truly agreed to version of HB 430 (2011), HCS/HB 818 (2011) and HB 820 (2011) (Section 302.768).

The CDL medical certification compliance sections (Section 302.200 and 302.768) shall become effective on the date the director begins accepting commercial driver license medical certifications or on May 1, 2013, whichever occurs first.

SB 448 - This act establishes "Sam Pratt's Law" and "Nathan's Law" and modifies provisions relating to child care providers.

SAM PRATT'S LAW

This act authorizes the Department of Health and Senior Services to investigate child care providers who are exempt from licensure if the department learns or is notified that such provider has pending criminal charges.

The department is also authorized to prohibit a licensure exempt child care provider from continuing to provide child care services if there are criminal charges pending against him or her that would similarly result in licensure actions for a licensed child care provider. Such licensure exempt provider shall be prohibited from continuing services pending a resolution of such criminal charges in favor of the provider.

Any licensure exempt child care provider who continues to provide child care services after notification by the department to stop such services shall be guilty of a Class B misdemeanor for the first violation and a Class A misdemeanor for any subsequent violation.

The department shall report any known violation to an appropriate prosecuting attorney's office or law enforcement agency. SECTION 210.165

NATHAN'S LAW

Under current law, a child care provider may be exempt from licensure if the person is caring for four or fewer children and children who are related to the provider are not considered in the total number of children being cared for. This act provides that such relative children shall be included in the total number of children being counted, except that children of such person who live in the home and attend school for a full school day shall not be included in the total number cared for. Any child-care facility exempt from licensure shall disclose the licensure-exempt status to the parents or guardians of children for which the facility provides care.

This act increases the penalty for violations of child care licensure provisions to include a fine of two hundred dollars per day, not to exceed a total of ten thousand dollars for subsequent offenses.

This act also authorizes the Department of Health and Senior Services to immediately close any illegally operating unlicensed child-care facility. The prosecuting attorney of the county where such illegal child-care facility is located may file suit for a permanent order preventing the operation of a child-care facility. The order shall remain in effect until such time as the court determines that the child-care facility is in compliance with all licensure requirements. Any person who operates an illegal unlicensed child-care facility shall be subject to penalties prescribed under the act. SECTIONS 210.209, 210.211, 210.245

This act is identical to SB 339(2011).

SB 449 - This act requires on or before December 31, 2013, the Department of Mental Health to submit a plan for transitioning the provision of services for residents of state developmental disabilities facilities,

including intermediate care facilities for the mentally retarded, to the most integrated settings appropriate to their needs. Upon completion, the plan shall be submitted to the Governor, the Senate Appropriations Committee, the House Health, Mental Health and Social Services Appropriations Committee, the House Budget Committee and the Developmental Disabilities Advisory Council.

While developing the plan, the department shall contract with a reputable independent third party to conduct a study and develop a plan identifying mechanisms to serve persons currently living in state institutions in the community. The plan shall also make certain recommendations and identify items as outlined in this act including containing recommendations for each resident identifying:

- (1) Services in the most integrated setting appropriate for each resident in the community of his or her choice;
- (2) The cost of providing necessary services in community settings for each individual;
- (3) Barriers that prohibit the individual from being served in the community; and
- (4) A timetable for making the transition.

The plan shall include recommendations for permanent full time state employees working at such facilities and alternative uses for state-owned facility property. The plan shall also include a proposed schedule for implementation of the plan with the goal of shifting provision of services to the community for every resident by January 1, 2019.

All long term admissions to state run intermediate care facilities for the mentally retarded shall cease upon the effective date of this act. Any plans started after August 28, 2012, to build or renovate state-owned facilities shall not be implemented, entered into contract to construct, or put out for bid until the completion of the plan.

This act is identical to SB 56 (2011).

SB 450 – Current law provides that school board members of urban school districts serve a term of six years whereas board members in a seven director school district serve a term of three years. This act provides that any school district in St. Charles County that becomes an urban school district because of the 2010 federal decennial census will retain terms of three years for its school board members. In addition, school board member elections will continue to be held at the general municipal election in April of each year.

This act contains an emergency clause.

SENATE SPONSOR: Cunningham

SCS/SB 451 – This act modifies provisions relating to school operations.

PASSPORT SCHOLARSHIP PROGRAM: This act establishes the Passport Scholarship Program to grant scholarships to students residing in an unaccredited school district to attend a qualified nonpublic school.

To be eligible for a scholarship, a student must reside in an unaccredited district. A student will remain eligible until graduation from high school or age twenty-one, whichever occurs earlier. Students will remain eligible even if their district of residence changes because of a boundary line change, annexation, consolidation, reorganization, or dissolution.

Beginning in tax year 2012, a taxpayer may make a qualifying contribution to an approved or qualified educational assistance organization and claim a tax credit. The annual cumulative amount of tax credits is limited at \$40 million, which will be increased or decreased based on the consumer price index for the Midwest. The tax credit is for sixty percent of the amount of the contribution, is nonrefundable and may be carried forward for four years. The Director of the Department of Economic Development must establish a procedure to apportion the amount of tax credits amongst all educational assistance organizations. The Director may reapportion those tax credits to educational assistance organizations that have used all, or a certain percentage, of their tax credits.

An educational assistance organization that desires to participate or provide scholarships through the Passport Scholarship Program must meet certain requirements, including being a 501(c)(3) organization; providing a receipt to taxpayers for contributions; ensure that funds are used as specified in the act; distribute scholarship payments four times per year; provide the Department of Economic Development, upon request, with criminal background checks on all employees and board members; and demonstrate financial accountability and viability, as described in the act.

Each educational assistance organization must ensure that qualified schools: comply with all health and safety laws applicable to nonpublic schools; hold a valid occupancy permit if required; do not discriminate in admissions based on race, color, or national origin; and provide academic accountability to parents. An educational assistance organization must annually and publicly report to the Department information about the organization, information about the scholarship recipients, and the dollar amounts of scholarships awarded.

A qualified school must comply with state laws applicable to public schools for criminal background checks for employees and exclude from employment anyone prohibited from working in a public school. A qualified must administer an assessment to the its scholarship students but has the option of administering one of three different types of assessment. A qualified school must also meet certain accountability measures, including fiscal soundness, accreditation, and surveys of parents and students.

A qualified school is prohibited from accepting a scholarship check that exceeds its standard tuition and fees. If the scholarship amount is insufficient to cover the cost of tuition, a qualified school may charge the parent or guardian the difference between the cost of tuition and the amount of the scholarship.

The Joint Committee on Education must conduct a study of the scholarship program. The Joint Committee may contract with an outside researcher if assistance is needed and funds are available. The study must begin within five years of commencement of the program and must cover a period of five years. (Sections 135.712-135.719)

CHARTER SCHOOLS: This act allows an accredited school district, combination or a cooperative of school districts to sponsor or operate a charter school in or for an unaccredited school district, which may enroll resident students of any school district classified as unaccredited. Such a charter school is prohibited from contracting with the unaccredited district, employing any of the unaccredited district's teachers, or contracting with any teacher union. If the district is no longer unaccredited, the charter school may continue to operate. Charter schools may enroll students from any unaccredited district. Charter schools may continue to operate if the district in which they are located is modified through a boundary line change, annexation, consolidation,

dissolution, or action of the State Board of Education. They may continue to enroll students, as described in the act, and new charter schools may open and operate as well.

In addition, the school board of an unaccredited or provisionally accredited district may close district schools and lease the school building to the governing board of a charter school that it sponsors. The school board of an accredited district may close a district school it deems to need improvement and may lease the school building to the governing board of a charter school that it sponsors.

When a charter school is sponsored by the local school board under this provision of law, as described in the act, the State Board of Education will have the accountability and enforcement powers of a charter school sponsor under current law. (Section 160.402)

LAPSE OF A SCHOOL DISTRICT: This act removes the two-year waiting period that exists between the classification of a school district as unaccredited and the lapse of the district's corporate organization. Instead, when the State Board of Education classifies a district as unaccredited, it must review the governance of the district to establish the conditions under which the existing school board will continue to govern. The State Board must also determine the date on which the district will lapse and must determine an alternative governing structure for the district.

This act changes the timing and purpose of the hearing that the Department of Elementary and Secondary Education must conduct. When a district is classified as unaccredited, the hearing must be regarding the accreditation status of the district. Also, the hearing must provide an opportunity to convene community resources that may be useful or necessary to support the school district as it attempts to return to accredited status.

When it classifies a district as unaccredited, the State Board of Education may allow continued governance by the existing local board of education under specific terms and conditions. If the State Board appoints a special administrative board to oversee the district, it may determine the number of members and specify the board's duties. If the State Board determines an alternative governing structure, it must provide a rationale for its decision and review and recertify the alternative form of governance every three years. In addition, the State Board must create a public comment method, establish expectations for academic progress by creating a time line for full accreditation, and provide annual reports to the General Assembly and Governor on the district's progress, as described in the act.

A special administrative board appointed under this act will retain the authority granted to a school board under the laws of the state in effect at the time of the district's lapse.

The State Board cannot attach the territory of a lapsed district or establish more than one district within the territory of a lapsed district to school districts other than St. Louis or those located in St. Louis County.

This act repeals the requirement that provisionally accredited and unaccredited districts develop a plan to divide up the district if the district cannot regain accreditation within three years of the loss of accreditation. This act also repeals the limitation on the State Board attaching a district with more than 5,000 pupils to another district without approval by the receiving district's school board.

This act provides that the powers of the State Board of Education will be superseded by the annexation procedure established in Section 167.403. (Section 162.081)

INTERSCHOLASTIC ATHLETICS AND ACTIVITIES: No school district may become a member of or retain membership in a statewide activities association that prohibits or delays athletic or activities eligibility for any student who transfers from an unaccredited district to an accredited district, virtual school, charter school, or nonpublic school with a Passport Scholarship under state law. (Section 162.086)

RECEIPT OF STATE SCHOOL AID: As a condition of receiving state school aid, an unaccredited district must transfer any local effort moneys it receives from the county assessor and collector to the custody of the State Treasurer. The State Treasurer may collaborate with the State Board of Education and a clearinghouse, if one exists, to identify the tuition and transportation costs for students transferring out of the unaccredited district and the amount of moneys needed from the local effort moneys to pay the tuition and transportation. The State Board of Education will determine the extent to which the State Treasurer may disburse the funds, as described in the act.

In addition, a school district will not be eligible to receive state aid if it violates state school laws, except as described in the act. (Section 163.021)

WEIGHTED AVERAGE DAILY ATTENDANCE: If a school district is using the weighted average daily attendance for the preceding school year or second preceding school year, the Department of Elementary and Secondary Education must adjust it so that the district receives no aid for students who are receiving a Passport Scholarship. (Section 163.036)

STUDENT TRANSFERS FROM AN UNACCREDITED DISTRICT: Currently, the school board of a school district that does not maintain an accredited school is required to pay the tuition and transportation of resident pupils who attend an accredited school in another district of the same or an adjoining county. This section applies to both unaccredited school districts and K-8 school districts that do not offer high school grades.

This act differentiates between a K-8 school district that does not offer high school grades and a school district classified as unaccredited by the State Board of Education. This act specifies that the school board of an unaccredited district must pay the tuition and transportation of resident pupils who attend an accredited school in another district of the same or an adjoining county. A resident pupil of an unaccredited district may attend a school in another accredited district in the same or an adjoining county. A student may continue to attend an accredited or provisionally accredited school district in the same or an adjoining county if the student's unaccredited district of residence is annexed or dissolved. A parent or guardian may choose to enroll his or her child in a provisionally accredited district provided that officials of the district or clearinghouse have informed the parent or guardian of the accreditation classification and given a written explanation of the definition of provisional accreditation. Any school that receives transfer students will not be required to include those student's scores on the statewide assessment in that district's scores for up to five years.

The rate of tuition to be charged is the lesser of the nonresident tuition established by each district, or in the absence of nonresident tuition, the lesser of the two districts' average expenditure per pupil for the most recently completed year for which data are available. When the unaccredited district is either St. Louis or a district in St. Louis County, the tuition rate will be set at the amount used by any voluntary urban transfer program. The tuition amount will increase by the cost of living, as measured by the consumer price index. The tuition amount cannot exceed the lesser of the two districts' current expenditure per average daily attendance.

The residence district must also pay the cost of education in the receiving district for any student with an IEP accepted in the receiving district. The tuition payment will be facilitated and handled by the State Board of Education withholding the necessary amount of funds from the unaccredited district's state aid or the local effort moneys in the custody of the State Treasurer.

By June 30, 2012, each district must establish criteria for the admission of nonresident pupils from unaccredited districts. The primary criteria must be the availability of highly qualified teachers in existing classroom space. Each district must establish criteria for calculating available seats, taking into account the district's resident student population growth or decrease, such that the receiving district is not required to employ additional teachers or construct additional classrooms. In addition, resident pupils must not be displaced from the school building to which they are assigned. The receiving district will be responsible for assigning a student to a particular building or program but if the receiving school is primarily virtual, parent permission will be required.

When a student from an unaccredited district has been accepted in an accredited district, he or she may complete the educational program through graduation, even if the district of residence regains accreditation.

The Department of Elementary and Secondary Education must develop a uniform document to be used by school districts to keep track of the number of students who seek admission. The parent of a student seeking admission must receive a copy. Each district must report the information from the document, as described in the act.

In addition, the students of an unaccredited district may be enrolled in the virtual school of a district or the state as an alternative to or in addition to other enrollment options. The school board of a receiving district may offer a virtual education program in an unaccredited district in which resident and nonresident pupils may enroll.

A homeless child, as described in the act, in an unaccredited district may transfer to an accredited district in

the same or an adjoining county. A student who transfers will be considered a resident of the receiving school district for purposes of special education services. (Sections 167.131 and 167.133)

PROCEDURES WHEN A DISTRICT BECOMES UNACCREDITED: This section creates the Hinson Plan. If a school district, except for St. Louis or a district in St. Louis County, becomes unaccredited, surrounding accredited districts must divide up the territory of the district, annex it, and draw up new attendance boundaries. When an accredited district annexes a portion of an unaccredited district, it will not be considered a successor entity for the purposes of employment contracts, unemployment compensation, or any other purpose. In addition, the accredited district may have certain other powers and authorities, as described in the act. The executive directors of the Public School Retirement System of Kansas City and the Public School Retirement System of Missouri, and the Commissioner of Education, or his or her designee, to meet and study the effects of school district boundary line changes on retirement systems. They must prepare a report, with any recommendations for legislative action, with ninety days and submit it to the President Pro Tempore of the Senate, Speaker of the House of Representatives, the Joint Committee on Public Employee Retirement, and the Joint Committee on Education. (Section 167.403)

CLEARINGHOUSE: This act requires the Department of Elementary and Secondary Education to create a clearinghouse, or appoint a neutral third party to serve as a clearinghouse, to assist students in the St. Louis City School District or any other unaccredited district in St. Louis County, to transfer to an accredited district, charter school, virtual school, or nonpublic school using a Passport Scholarship.

A parent or guardian seeking to enroll his or her child in another school must send initial notification to the district of residence and the clearinghouse between January 3 and July 15 for enrollment. However, a parent or guardian may enroll a child in a school without using the clearinghouse and a school may enroll a child who has missed the deadlines for enrolling through the clearinghouse.

The clearinghouse must provide counselors to assist and advise parents and guardians on school options that are available and assist in preparation of applications. The expenses associated with the clearinghouse will be defrayed by the Department of Elementary and Secondary Education withholding funds, not to exceed five hundred dollars per pupil, from the unaccredited district's state school aid.

This program will continue until the district has been accredited for five consecutive years and has met all MSIP academic standards for five consecutive years.

The clearinghouse must identify a method by which parents and guardians can prioritize the schools in which they would like to enroll their child. The clearinghouse must identify the total number of students who seek to transfer as well as the number of transfer requests received by each individual school or district, as described in the act.

If a student ceases participation in the St. Louis area voluntary urban transfer program and transfers under Section 167.133, and if the state contribution for tuition and transportation is less under the 167.133 transfer, the difference between the two amounts must be transferred to the general revenue fund. (Sections 167.406 & 167.409)

VIRTUAL SCHOOLS: A student may enroll in the virtual courses or programs of a school district, charter school, or MoVIP that meets the requirements for virtual courses established in Section 162.1250. The Department shall withhold the tuition amount, as described in the act, from the district of residence's state school aid, and shall seek local moneys, as described in the act. (Section 167.418)

SCHOOL PRINCIPALS: School principals will have the right to select teachers for their schools who have demonstrated effectiveness and qualifications. School districts with multiple schools must include provisions in teacher contracts for the placement of teachers rated highly effective or effective based on the mutual consent of the teacher and principal of the school. School districts may adopt options for teachers rated effective or higher who are displaced and not selected for a regular position. This act contains additional procedures for when a position is unavailable for a teacher.

TEACHER TENURE: Currently, the St. Louis City School District has a separate tenure system. This act ends this separate system and includes St. Louis in the statewide system. If a special administrative board is governing a school district, it may appoint a hearing officer to conduct a teacher termination hearing. In addition, a school board, upon an affirmative vote of a constitutional majority of its members, may appoint a hearing officer to conduct a teacher termination hearing.

This act modifies the procedures and criteria by which school boards may place teachers on leave. Instead of seniority or years of service being used as criteria for placing teachers on leave, the deciding criterion will be effective teacher performance based on documented student learning and growth. (Sections 168.104, 168.106, 168.116, 168.124, 168.221)

EDUCATOR EVALUATIONS: At least fifty-one percent of an educator's evaluation must be based on a student's academic growth. (Section 168.128)

ADJUSTMENT OF FUNDS: This act also repeals a requirement that certain payments made from any source by a school district that result in the transfer of the title of real property to the school district be deducted as an adjustment to the funds payable to the district under the school funding formula. (Section 177.088)

SHARING OF SERVICES AND INCREASING EFFICIENCIES ACT: Two or more school districts, charter schools, any public, private, or nonprofit entity, political subdivision, public institution of higher education, or private institution of higher education may cooperate and share resources to achieve efficiencies, become more cost-effective, reduce costs, and reduce and minimize duplicative operations, services, and purchasing.

In addition, nothing in this section may be construed to prohibit any of the identified entities from entering into any cooperative agreement, as described in the act, or to prohibit any identified entity from altering any agreement it may have entered into with another entity described in the act without agreement from all the parties to the agreement or expiration of the contract that is in force upon the effective date of the act. (Section 177.250)

The provisions of this act are nonseverable. (Section 1)

This act contains an emergency clause that applies to the remainder of the sections, except for the teacher tenure provisions and sections 177.088 and 177.250. (Section B)

This act contains an effective date of July 1, 2012 for the teacher tenure provisions. (Section C).

This act contains provisions substantially similar to SB 706 (2012).

*** SB 452 ***

4506S.011

SENATE SPONSOR: Cunningham

SB 452 – A student whose residence is located closer to a school in an adjoining district than to his or her public school of enrollment in the district of residence may enroll in the adjoining district upon receiving approval from the adjoining district. In addition, a student whose residence is so located that attendance in the district of residence is an unusual or unreasonable transportation hardship may enroll in an adjoining school district upon approval of the adjoining district's school board. The receiving district shall enroll pupils if it has available space and the district's teacher-pupil ratio in the appropriate grade or placement level for the pupil, is not below the "desirable" teacher-pupil ratio identified in the resource standards under the Missouri school improvement program. Natural barrier is defined as an obstruction caused by streams, rivers, lakes and multilane highways with limited access.

The pupil's parent or guardian must contact the receiving district by March 15 of the preceding school year unless good cause is shown, as described in the act. The pupil's school district of residence must pay tuition to the receiving district, based on the two districts' rate of tuition. The pupil will be counted in the weighted average daily attendance of the school district of residence. The sending district must pay the receiving district the cost of the receiving district's tuition if the tuition is less than or equal to the sending district's tuition rate. If the receiving district's tuition rate is greater than the sending district's tuition rate, the sending district must pay the receiving district the amount of the tuition rate and the parent must pay the

difference. The school district of residence must pay the receiving district up to twice annually, once at the start of the school year and once in the middle of the year if two payments are made. For late payments, a late charge of two and a half percent for every two weeks will be incurred. When a payment is more than three months past due, the Department of Elementary and Secondary Education must, upon notice from the receiving district, withhold the total tuition amount, including federal, state, and local funds, and interest, from the school district of residence's state school aid and send payment in full to the receiving district.

If the parent or guardian is dissatisfied after enrolling his or her child in the receiving district, he or she may return the child to the school district of residence upon notification to both districts. However, the parent or guardian may not reenroll the child in the receiving district although the child may be eligible to enroll in another adjoining district.

For a child who enrolls in another district, the parent or guardian will be responsible for transportation without reimbursement. A school district may voluntarily provide transportation, as described in the act.

The parent or guardian of a child who is denied enrollment by an adjoining district may appeal such denial to the State Board of Education if the following conditions are met: the pupil has met the qualifications for transfer and the receiving district has available space and the district's teacher/pupil ratio in the appropriate grade or placement level for the pupil is not below the "desirable" standard established in Missouri School Improvement Program resource standards. The State Board shall assign the pupil to the adjoining school district if it finds the district improperly denied enrollment to the pupil. The State Board may also charge an administrative fee of up to five hundred dollars to either the school district of residence or adjoining school district.

This act is substantially similar to SS/SCS/SB 242 (2011).

SB 454 – This act modifies the elementary and secondary education foundation formula.

Current law will allow the state adequacy target to be adjusted to accommodate available appropriations effective July 1, 2012, which is the completion date of the phase-in of the formula. This adjustment method is

repealed.

This act provides proration benchmarks for appropriations beginning in fiscal year 2014 that increase and continue until fiscal year 2017. In any year in which appropriations do not equal the amount necessary to fully fund the formula, payments will be modified to accommodate available appropriations. Payment reductions or increases will be calculated differently for hold-harmless and formula districts. If the formula is overfunded, payments to hold-harmless districts will be increased at half the rate of formula districts. If appropriations are less than what is required to fully fund the formula, payments to hold-harmless districts will be decreased at half the rate of formula districts.

Language pertaining to the phase-in, which will be completed on July 1, 2012, is repealed. In addition, language pertaining to the summer school penalty, which terminated at the end of the 2008-2009 school year, is repealed. (Sections 163.011 & 163.031)

This act contains an effective date of July 1, 2012, or upon the Governor's approval. (Section B)

SB 455 – This act modifies the duties prescribed to the Coordinating Board for Higher Education.

The Coordinating Board will require all public two-year and four-year higher education institutions to replicate best practices in remediation, as described in the act.

The Coordinating Board will also require all public two-year and four-year higher education institutions, by July 1, 2014, to create a statewide core transfer library of at least twenty-five lower division courses across all institutions that are transferable among all public higher education institutions.

The Coordinating Board must develop a policy to foster reverse transfer for students who have accumulated enough hours in combination with public higher education institution in Missouri that offers an associate degree and four-year institutions to be awarded an associate degree.

The Department of Elementary and Secondary Education must maintain the alignment of the statewide assessments for entry-level courses in English, mathematics, foreign language, sciences, and social sciences associated with an institution's general education core with the existing competencies.

The Coordinating Board may charge and collect fees from out-of-state public institutions to cover the costs of reviewing and assuring the quality of programs offered by out-of-state public institutions.

The annual report that the Coordinating Board submits prior to the start of the legislative session must include campus-level progression, retention, and completion metrics consistent with performance-funding goals. It must also contain a description of progress implementing revised remediation, transfer, and retention practices.

SENATE SPONSOR: Pearce

SB 456 – Currently, the school board of a school district that does not maintain an accredited school is required to pay the tuition and transportation of resident pupils who attend an accredited school in another district of the same or an adjoining county. This provision of law currently applies to both unaccredited school districts and K-8 school districts that do not offer high school grades.

This act differentiates between a K-8 school district that does not offer high school grades and a school district classified as unaccredited by the State Board of Education. This act specifies that the school board of an unaccredited district must pay the tuition and transportation of resident pupils who attend an accredited school in another district of the same or an adjoining county. A resident pupil of an unaccredited district may attend a school in another accredited district in the same or an adjoining county if the student was enrolled in and attending a public school in the district during the school year when the district lost its accreditation, or years subsequent to the year in which the district lost its accreditation. Pupils who reside in the unaccredited district who become eligible for kindergarten or first grade after the effective date of this section are also eligible to transfer. Before a student may transfer, the unaccredited district must determine whether it has sufficient capacity in a magnet school or school with an open admissions policy that has met standards on its annual performance report equivalent to the classification of accredited under the Missouri School Improvement Program in the previous school year and that offers the student's grade level of enrollment. If there is capacity, the student must remain in the school district and attend that school provided the student meets the school's regular admissions criteria. Any district that receives transfer students will not be required to include those student's scores on the statewide assessment in that district's scores for three years.

The rate of tuition to be charged is the lesser of the nonresident tuition established by each district, or in the absence of nonresident tuition, the lesser of the two districts' average expenditure per pupil for the most recently completed year for which data are available. The residence district shall also pay the cost of education in the receiving district for any student with an IEP accepted in the receiving district.

By June 30, 2012, each district must establish criteria for the admission of nonresident pupils from unaccredited districts. The primary criteria must be the availability of highly qualified teachers in existing classroom space. Each district must establish criteria for calculating available seats, taking into account the district's resident student population growth or decrease, such that the receiving district is not required to employ additional teachers or construct additional classrooms. In addition, resident pupils must not be displaced from the school building to which they are assigned. The receiving district will be responsible for assigning a student to a particular building.

When a student from an unaccredited district has been accepted in an accredited district, he or she may complete the educational program in the building to which he or she has been assigned, even if the district of residence regains accreditation. Upon a student's transition from an educational program in the building to which the student was assigned to a program in another building if the student's district of residence has regained accreditation, the student must return to his or her district of residence.

This act contains an emergency clause.

This act is substantially similar to SCS/SB 14 (2011), HB 763 (2011) and provisions contained in HCS/SB 243 (2011) and HCS/SB 147 (2011).

SB 458 - The act creates the Green Jobs-Green Missouri Act.

The Department of Natural Resources shall administer the Green Jobs-Green Missouri Program that provides: loans to homeowners and small business owners for energy improvement projects; and training for green energy workforce development.

The Department shall promulgate rules for the energy improvement loans, which shall include cost-effectiveness and eligibility standards. Loan amounts may not exceed \$13,000 for residential properties or \$26,000 for non-residential properties unless the anticipated project payback period is less than 15 years, in which case the loan maximums increase to \$25,000 and \$50,000 respectively.

The Department is required to create a loan repayment mechanism whereby the loan recipient makes the loan repayments through a separate charge attached to the recipient's electric or gas bill. The utility collects the charge and remits it to the Department of Natural Resources on behalf of the customer. The amount of the monthly charge must not exceed 1/12th of the anticipated amount of annual energy savings cost from the project.

The act directs the Public Service Commission (PSC) to develop rules to implement the on-bill loan repayment mechanism. The utilities must file tariffs for the mechanism. The act initially limits the amount of customer participation and the Department of Natural Resources must petition the PSC to increase the limit, which the PSC must do unless it determines that significant harm from the program has occurred to the utility. The PSC may suspend a utility's participation in the on-bill recovery mechanism if the PSC determines after a hearing that there has been a significant increase in arrears or disconnections as a result of the mechanism. The act contains certain provisions that require customers who participate in the on-bill loan repayment mechanism to be treated the same as other utility customers and requires certain notifications to be provided to participating customers. Complaints about the on-bill loan repayment mechanism must be handled by the Department of Natural Resources and must not be treated as a complaint about the utility by the PSC.

The Department of Natural Resources may contract with certain employment and job-skill training providers to provide training and workforce development support for the Green Jobs-Green Missouri program. The Department must develop training standards. The Department must facilitate coordination between related workforce organizations to facilitate job placement for individuals who receive training under the program.

The act creates the Green Jobs-Green Missouri Advisory Council, which provides guidance to the

Department of Natural Resources on the implementation of the act. The composition of the council is listed in the act. The council must meet at least 3 times a year.

The act creates the Green Jobs-Green Missouri Revolving Loan Fund, into which the principal and interest on loan repayments must be deposited.

The Department must report annually to the Governor and certain members of the General Assembly on the activities and status of the Green Jobs-Green Missouri Program. The act prescribes certain information to be included in the report.

The act requires notification to prospective buyers of real property on which a Green Jobs-Green Missouri loan repayment mechanism is in effect.

SB 461 - This act modifies provisions relating to the St. Louis police force.

No elected or appointed official of the state or a political subdivision may interfere with any member of the St. Louis police force in the performance of his or her job duties or in any investigation or else face a penalty of \$2,500 and disqualification from office.

This act also makes it an unlawful employment practice to take certain adverse employment actions against an employee of the St. Louis police force for reporting the illegal conduct of a co-worker.

The City of St. Louis is authorized by this act to establish a municipal police force, no sooner than Jan. 1, 2013, after certain conditions have been met and according to certain procedures. The terms of the commissioners of the board of police shall expire upon the establishment of the police force and several provisions of current law shall no longer apply to the city or its municipal police force, but the act shall not be construed as changing the retirement benefits provided under current law.

The municipal police force is required to employ, without a reduction in rank, salary, or benefits, all commissioned and civilian personnel of the board of police commissioners.

The residency rule established by the board and currently in effect shall apply to the commissioned and civilian personnel of the board who transfer to the new police force, but the city may enforce any residency rule for those hired after the transfer.

Under this act, the city may adopt rules for the police force, but disciplinary decisions shall be governed by the civil service commission's rules. The commission shall issue decisions in appeals of disciplinary actions, which shall be subject to appeal.

The city must provide or contract for certain benefits. Health, medical, and life insurance must be available for purchase by the spouses or dependents of deceased retired officers and employees who receive benefits from the Police Retirement System of St. Louis.

This act requires the city to create a transition committee to coordinate and implement the transition of the police force to the city.

This act provides that the city shall not be restricted in any way in the selection of a police chief. Under this act, the police chief may require the city's sheriff and other local and municipal law enforcement officers to act under the chief's control when needed.

This act further provides that any person who acts as a private watchman, private detective, or private policeman in St. Louis without having obtained a written license is guilty of a Class A misdemeanor.

This act modifies the definitions of "earnable compensation" and "police officer" for purposes of the St. Louis police retirement system to remove references to Section 84.160 which will expire upon passage of this act. The makeup of the St. Louis Police Retirement System Board of Trustees is also modified.

This act provides, in the event the state or any state official is ordered to provide state funds to St. Louis City to satisfy pension obligations for members of the Police Retirement System of St. Louis, that the amount of the funds shall constitute a first lien on the funds of the city. The state treasurer and director of the Department of Revenue are required to withhold all money due to the city until the amount, together with interest, is satisfied.

The State Legal Expense Fund will no longer reimburse the St. Louis Board of Police Commissioners for up to a maximum of one million dollars per fiscal year for claims tendered to the Attorney General after the effective date of this act. The Attorney General will continue to provide legal representation for claims tendered by the board of police commissioners before the effective date of this act.

Some of the provisions of this act are nonseverable.

This act is identical to SS/HB 1 (2011) and is similar to SB 23 (2011) and HB 71 (2011).

SB 462 - This act amends the law relating to unsecured loans of \$500 or less.

Under current law, lenders may renew such loans upon the borrower's request. This act prohibits lenders from renewing such loans more than once. Lenders shall not make loans to consumers who have one outstanding or within 1 day of a borrower paying a previous loan.

Lenders shall make certain disclosures to consumers at loan signing, including the duration of the loan, amount and date of payments due, and amount of interest and fees to be charged through the duration of the loan.

Under current law, loans have a minimum term of 14 days and a maximum term of 31 days. Under the act, lenders shall give the borrower a minimum of 90 days for repayment and a payment shall be required every 15 days.

The lender's exclusive remedy against consumers who deliver checks that are not honored in relation to the loan shall be a breach of contract claim and lenders shall be barred from bringing a civil action for passing bad checks.

This act is similar to HB 1171 (2006), SB 975 (2006), SB 96 (2007), SB 744 (2008), HB 81 (2009), HB 150 (2009), SB 20 (2009), HB 1508 (2010), HB 2116 (2010), SB 593 (2010), SB 699 (2010), SB 811 (2010), HB 656 (2011), and SB 295 (2011).

SS/SB 464 - This act prohibits the establishment, creation, or operation of a state-based health insurance exchange unless the exchange is created by a legislative act, an initiative petition, or referendum. The act specifically prohibits the establishment of a state-based health insurance exchange by an executive order issued by the Governor.

The act further prohibits state agencies from establishing programs or promulgating any rules or policies to establish, create, administer or otherwise operate a state-based health insurance exchange unless the agency has received statutory authority to create it. The act specifically prohibits agencies from performing responsibilities of a state-based health insurance exchange unless authorized by statute.

Under the terms of this act, no department, agency, instrumentality, or political subdivision of this state shall apply for, accept or expend federal moneys related to the creation, implementation or operation of a state-based health insurance exchange or a federally-facilitated health benefit exchange unless such acceptance or expenditure is authorized by statute or an appropriations bill.

The act prohibits agencies from entering into agreements to establish or operate a federally-facilitated health benefit exchange unless the agency has received statutory authority to enter into such agreements. In

addition, the act prohibits departments and agencies from providing assistance or resources of any kind to any federal agency or department relating to the creation of a federally-facilitated health benefit exchange unless the assistance or resources are authorized by state statute or the assistance is mandated by federal law.

The act specifically provides any taxpayer of this state or any member of the general assembly with legal standing to bring suit against the state of Missouri or any official, department, division, agency, or political subdivision of this state which is in violation of the act in any court with jurisdiction to enforce the provisions of the act.

The act requires courts to grant attorney's fees, court costs, and reasonable expenses to taxpayers or legislators who are successful in bringing a lawsuit against the state or one of its agencies. The act further provides that in no case shall the award of attorney's fees, court costs, or reasonable expenses be paid from the legal defense fund, nor shall any department, division, agency, or political subdivision of this state request, or be granted, additional appropriations in order to satisfy an award made under this act.

This act, if approved by the General Assembly, will be submitted to the voters for their approval in November of 2012.

This act is similar to SB 560 (2012).

*** SB 468 ***

4456S.011

SENATE SPONSOR: Munzlinger

SB 468 - Currently, contracts for public construction are barred from containing provisions that require or prohibit the parties from entering into agreements with labor unions on the project or discriminate against parties for doing so when the project is funded by greater than 50% of state funds. Under this act, the same requirements shall apply to contracts funded in any amount with public funds. The act defines "public funds" to include funds belonging to the state, any agency of the state, or any instrumentality or political subdivision thereof.

The act redefines "project labor agreement" to apply to agreements for projects of agencies and instrumentalities of the state. The act bars the usage of such agreements on all public construction projects in the state.

Standing to seek equitable relief and monetary damages for violations of the laws relating to state purchasing and printing are established.

The act also modifies Missouri law relating to the prevailing wage.

The definition of "construction" only includes new construction, enlargement, or major alteration. Reconstruction, improvement, painting and decorating, and major repair are no longer considered construction for the purposes of prevailing wage.

"Prevailing hourly rate of wages" is defined as the mean rate of wages paid generally in the locality in which the construction is being performed.

Under current law, a locality, for the purposes of determining the prevailing wage for an occupational title, may encompass two or more counties adjacent to the one in which the construction is to be performed in certain instances. This act only allows the county in which the work is to be performed to be used as a basis for determining the prevailing wage. If the department of labor is unable to determine the hourly rate for a particular occupational title by means of wage surveys, the prevailing wage shall be the median hourly estimated wage of the construction and extraction occupational code most closely resembling the occupational title as published in the Metropolitan and Non-Metropolitan Area Occupational Employment Wage Estimate published by the United States Bureau of Labor Statistics, or the median hourly wage estimate for occupational code 47-0000 in the construction and extraction occupational code.

Currently, the definition of "prevailing hourly rate of wages" includes contributions irrevocably made by a contractor or subcontractor to a trustee or to a third person pursuant to some plan or program. This act removes the requirement that the contributions be irrevocably made to a trustee or third person and only requires that they be contributions into a fund, plan or program to qualify as part of the prevailing wage calculation.

Wage rates established by collective bargaining agreements shall no longer be considered when determining wage rates and the rate shall be the mean of the rates that are paid within the locality.

Under current law, when the Department of Labor finds a violation of the prevailing wage statutes, it provides a notice of penalty to the employer. This act changes references to "notices of penalty" to "notices of violation".

Under current law, prevailing wage penalties are not due until 45 days after the date of the notice of the penalty. This act removes that provision.

Under current law, if employers pay backwages before the department initiates an enforcement action to enforce monetary penalties, the department is precluded from initiating such an enforcement action. Under the act, the department is also precluded from initiating any administrative, civil, or criminal action and the employer shall not appear on the notice of conviction list that would otherwise bar the employer from

participating in public works construction.

Under current law, the prevailing wage for each title may be adjusted in response to fluctuations in wages due to collective bargaining agreements. Those adjustments shall not be allowed under this act.

Provisions requiring contractor and subcontractor signage on motor vehicles and other motorized equipment and imposing a six month term of imprisonment on those violating the prevailing wage laws are removed.

This act is similar to SB 175 (2011) and SB 176 (2011).

SS/SCS/SB 469 - This act modifies provisions regarding the updating and review of administrative rules. The Secretary of State is given the authority to make non-substantive changes to the Code of State Regulations to update state agency information, such as name or address changes.

This act provides that every state administrative rule shall be subject to a periodic review by the appropriate state agency every five years. The act creates a schedule for the periodic review of rules by their title in the Code of State Regulations. The Joint Committee on Administrative Rules (JCAR) shall cause notice to be published in the Missouri Register indicating the rules to be reviewed and also notice of the 60 day comment period. Each agency with rules under review shall prepare a report with the results of the periodic rule review. The report shall consider whether the rule: continues to be necessary or is obsolete; duplicates, overlaps or conflicts with other state, federal or local rules; needs changes or should be rescinded in order to reduce regulatory burdens on businesses, individuals or political subdivisions, or to eliminate unnecessary paperwork; and whether a less restrictive, more narrowly tailored rule could adequately protect the public or accomplish the same statutory purpose. For rules that affect small business, the agency must consider the specific public purpose or interest for adopting the rules and other reasons to justify its continued existence.

The subject agency must file its report with JCAR and the Small Business Regulatory Fairness Board within one year of notice being filed by JCAR in the Missouri Register. If the agency does not file the report, and does not receive an extension for good cause, then JCAR must notify the Secretary of State to publish notice in the Register as to the rules that are delinquent. The rules shall be void after the first sixty legislative days of the General Assembly's next regular session unless the agency cures the delinquency by providing the required report within 90 days after publication in the Register.

If a petition is filed with an agency requesting the adoption of a rule, and the agency does not promulgate such a rule, and it is later found by an adjudicatory body that a state agency's statement of general applicability, which is the subject of the petition, should have been promulgated as a rule, then the adjudicatory body shall award the petitioner its reasonable fees and expenses.

This act provides that when a court awards attorney fees and other expenses against a state agency, including an award for reasonable fees and expenses under this act when it is found that an agency should have promulgated a rule, such award shall be payable from amounts appropriated to the agency for its operations. Within thirty days of the judgement awarding the fees and expenses becoming final, the agency shall forward notification of the amount of awarded fees and expenses to the chairs of the House Budget Committee and the Senate Appropriations Committee.

This provision is similar to SB 604 (2012) and SB 272 (2011).

The act removes the requirement in current law that every agency with rules that affect small business must submit a list of such rules and a report to the General Assembly the and Small Business Regulatory Fairness Board every two years. This report contains the same information required in bill as part of the periodic review of all administrative rules.

This act is similar to SB 350 (2011) and HCS/HB 697 (2011).

4430S.04P

SENATE SPONSOR: Dixon

SS/SCS/SB 470 - This act modifies provisions relating to the regulation of household goods movers. These provisions are similar to the ones contained in the truly agreed to version of CCS/SS/SCS/HCS/HB 430 (2011) and in SB 58 (2011).

Under the terms of this act, household goods movers will no longer have to file their schedule of rates, fares and charges with the state highways and transportation commission. A household goods mover must maintain and publish its schedules of rates, fares, rules, and charges in its stations and offices. Such rates shall be available for inspection by the commission, shippers, and the public (Sections 387.040 and 387.050).

This act prohibits household goods movers from participating in joint tariffs. The act allows joint tariffs relating to the transportation of household goods over through routes or in interline service involving two or more separate motor carriers. Carriers of household goods participating in through routes or interline service shall publish joint tariffs or individual tariffs for each participating carrier (no longer have to file joint tariffs with the commission). In addition, household goods movers will no longer be required to file sworn copies of every contract with other motor carriers with the commission (Sections 387.080 and 390.116).

Under current law, household goods carriers are prohibited from using schedules of rates that divide the state into territorial rate areas. This act removes this restriction (Section 387.110).

Under the terms of this act, the commission no longer has the authority to fix rates with reference to the transportation of household goods. Rates published by household goods movers are presumed to prima facie lawful (Section 387.207)

Under this act, all rate orders issued by the commission affecting the transportation of household goods, to the extent such rate orders prescribe any minimum or maximum rates for the transportation of such goods, shall be vacated. Other provisions contained in the rate orders unrelated to prescribing maximum or minimum rates shall not be vacated (Section 387.355).

The act eliminates the requirement that household goods carriers or non charter passenger carriers

demonstrate that their proposed service will serve a useful present or future public purpose when applying for a certificate of authority or permit. Concomitantly, applicants for household goods or passenger certificates or permits will not have to satisfy the public convenience and necessity test when proposing a new service, an extension of existing service, or a transfer of authority. An applicant for a household goods or passenger certificate of authority or permit will have to show that they are fit, willing, and able to perform the service, and that they will conform to other standards established by law.

Under this act, the commission shall not restrict any certificate or permit authorizing the transportation of household goods or passengers with reference to any route or routes (Sections 390.051 and 390.061).

Under this act, any geographic restriction or provision limiting a household goods carrier's scope of authority to particular routes within this state contained in a certificate or permit, or both, which was issued prior to August 28, 2012, and any similar provision contained in a carrier's tariff schedule filed prior to such date, shall be deemed void. In lieu of the geographic restrictions expressed in such certificates, permits, or tariff schedules, a motor carrier shall be authorized to provide intrastate transportation of household goods between all points and destinations within the state until such time the certificates, permits, and tariff schedules are reissued or amended to reflect the motor carrier's statewide operating authority (Section 390.280).

Beginning August 28, 2012, no certificate of authority or permit shall be issued or renewed unless the applicant demonstrates that the applicant has workers' compensation insurance coverage that complies with Missouri law for all its employees. If any household goods carrier is found by the division of workers' compensation to be out of compliance with the workers' compensation law, the division shall report such fact to the state Highways and Transportation Commission. The commission shall suspend the household goods carrier's certificate or permit until such time the carrier demonstrates that it has procured workers' compensation insurance coverage (Section 390.054).

This act requires the commission to establish consumer protection requirements for motor carriers transporting household goods in intrastate commerce (Section 387.137).

This act requires the Division of Motor Carriers to develop a complaint process. The complaint process shall keep a record for each complaint and shall record findings made at each step of the complaint process, provide an explanation for a complaint dismissal, and provide other information (Section 387.139).

Under this act, the state highways and transportation commission is authorized to enter into interagency agreements with the Regional Taxicab Commission to deal with any public safety issues that may arise as a result of the act's deregulation provisions (Sections 390.051 and 390.061).

SB 472 - This act modifies provisions of existing tax credit programs and requires the Department of Revenue to apply any increase in revenue generated from these modifications to a decrease in the corporate income tax rate. The Director of Revenue is required to accomplish this decrease in the corporate income tax rate by rule.

The act prohibits the authorization of further tax credits after August 28, 2012 under the following tax credit programs: the distressed areas land assemblage tax credit program, the business facility tax credit program, the wood energy producer tax credit program, the neighborhood preservation tax credit program, the rebuilding communities tax credit program, the film production tax credit program, the enhanced enterprise zone tax benefit program, the family farm breeding livestock loan tax credit, and the Brownfield redevelopment tax credit program. The act also repeals the rolling stock tax credit and the charcoal producers tax credit.

The act also prohibits the Department of Economic Development from approving any new notices of intent or entering into any new agreements with qualified manufacturers under the manufacturing jobs act after August 28, 2012.

The act also ends tax credits under the qualified beef tax credit program, the wine and grape production tax credit program, the agricultural product utilization contributor tax credit program, and the new generation cooperative incentive tax credit program effective December 31, 2012.

LOW-INCOME HOUSING TAX CREDITS

The act establishes a one hundred ten million dollar cap for authorizations of 9% low-income housing tax credits for FY 2013. For each subsequent fiscal year from FY 2014 to FY 2016 the amount of 9% low-income housing tax credits which may be authorized is gradually reduced such that beginning FY 2016, no more than twenty-seven and a half million dollars in 9% low-income housing tax credits may be authorized each fiscal year.

Authorizations of 4% low-income housing tax credits are capped at twenty million dollars for FY 2013. For each subsequent fiscal year the amount of 4% low-income housing tax credits which may be authorized is reduced by five million dollars, such that after June 30, 2015, no more than five million dollars in 4% low-income housing tax credits may be authorized each fiscal year.

The stacking of state 9% low-income housing tax credits with state historic preservation tax credits for the same project is prohibited. The carry-back for low-income housing tax credits is reduced from three years to two years.

HISTORIC PRESERVATION TAX CREDITS

Under current law, the Department of Economic Development is prohibited from issuing more than one hundred forty million dollars in historic preservation tax credits in any fiscal year for projects which will receive more than two hundred and seventy-five thousand dollars in tax credits. Beginning fiscal year 2013, this act would prohibit the Department of Economic Development from approving more than eighty million dollars in historic preservation tax credits increased by the amount of any rescissions of approved applications for such tax credits. For each subsequent fiscal year the amount is reduced by twenty million dollars, so that after June 30, 2015, no more than twenty million dollars in these historic preservation tax credits may be authorized each fiscal year. Projects which would receive less than two hundred seventy-five thousand dollars in tax credits will be subject to a ten million dollar fiscal year cap for fiscal year 2013, which is gradually reduced so that after June 30, 2015, no more than two and a half million dollars in these tax credits may be authorized each fiscal year.

NON-INCOME PRODUCING RESIDENTIAL PROJECTS

The act prohibits the Department from issuing more than one hundred twenty-five thousand dollars in historic preservation tax credits per project for non-income producing residential rehabilitation projects.

TRANSITION RULES

Applicants for projects that, as of August 28, 2012, have: received approval from the Department of Economic Development; incurred certain levels of expenses; or received certification from the state historical preservation officer will not be subject to the new limitations on tax credit issuance, but will be subject to the current law limitations on tax credit issuance.

STACKING

The act also prohibits the stacking of state historic preservation tax credits with state 9% low-income housing tax credits. Historic preservation tax credits will now be capable of being carried back one year or forward five years.

SB 476 - This act amends the law relating to unsecured loans of \$500 or less.

Under current law, lenders may renew such loans upon the borrower's request. This act prohibits lenders from renewing such loans more than once. Lenders shall not make loans to consumers who have one outstanding or within one day of a borrower paying a previous loan.

Lenders shall make certain disclosures to consumers at loan signing, including the duration of the loan, amount and date of payments due, and amount of interest and fees to be charged through the duration of the loan.

Under current law, loans have a minimum term of 14 days and a maximum term of 31 days. Under the act, lenders shall give the borrower a minimum of 90 days for repayment and a payment shall be required every 15 days.

The lender's exclusive remedy against consumers who deliver checks that are not honored in relation to the loan shall be a breach of contract claim and lenders shall be barred from bringing a civil action for passing bad checks.

The Division of Finance is required to develop and administer a real-time statewide compliance system for payday lenders to record each payday loan transaction.

This act is similar to HB 1171 (2006), SB 975 (2006), SB 96 (2007), SB 744 (2008), HB 81 (2009), HB 150 (2009), SB 20 (2009), HB 1508 (2010), HB 2116 (2010), SB 593 (2010), SB 699 (2010), SB 811 (2010), and SB 295 (2011).

SB 481 - Under current law, residential treatment agencies are prohibited from applying for residential treatment agency tax credits in an amount greater than forty percent of the payments received by the agency from the Department of Social Services. This act would allow residential treatment agencies to apply for such tax credits in an amount which does not exceed the amount of payments received by the agency from the Department of Social Services. The act also extends the sunset on the residential treatment agency tax credit from August 28, 2012, to August 28, 2015.

The act creates an income tax credit equal to fifty percent of the amount of an eligible donation made, on or after January 1, 2012, to a qualifying developmental disability care provider. The tax credit may not be applied against withholding taxes. The tax credit is non-refundable, but may be carried forward four years. The tax credit is transferable. A provider may apply to the Department of Social Services for the tax credits. The provisions of this act shall automatically sunset six years after August 28, 2012 unless reauthorized.

This act is similar to the perfected version of SB 100 (2011), SB 608 (2010) and contains provisions similar to those in SB 71 (2009) and SB 1274 (2008).

SENATE SPONSOR: Rupp

SB 483 – This act creates the "Early High School Graduation Scholarship Program," to be implemented and administered by the Department of Higher Education. The Program will provide two different types of scholarships to students who graduate early from public high school in Missouri.

A student who graduates from high school in no more than thirty-six months and meets certain other requirements will be offered a scholarship in an amount, as described in the act. The student's school district will be offered a grant in an amount equal to ten percent of the district's state aid payments, divided by the district's weighted average daily attendance for the year immediately preceding the student's graduation. A student can use the scholarship for tuition, mandatory fees, or both, if attending a public or private institution of higher education in Missouri. A student who has participated in a dual-credit or dual-enrollment program through his or her high school and an institution of higher education may also use the scholarship funds to pay any fees to receive official post-secondary credit for work completed through the program. When a scholarship recipient enrolls in a higher education institution, the institution must apply to the charges for tuition and mandatory fees the lesser of the amount of the scholarship or the actual tuition or mandatory fees.

A student who graduates from high school in no more than forty-one months will be offered a scholarship in an amount as described in the act. A student who receives such a scholarship must use the funds to participate in a dual enrollment program or to pay any fees necessary to receive official post-secondary credit for work completed through such program.

A scholarship recipient must use the scholarship within one year of graduating from high school. Exceptions exist for students who cannot attend an institution of higher education because of service to a nonprofit organization, a state or federal government agency, or a branch of the United States military. A scholarship recipient may seek an extension if he or she shows hardship or good cause, as described in the act.

This act creates two separate funds in the State Treasury. The Department of Elementary and Secondary Education must place an amount equal to the total of the scholarship and grant amounts in one of the funds, depending on how early a student graduates from high school. The Department of Higher Education will use these funds to distribute the scholarships and grants. After distributing the grant moneys, the Department will determine the scholarship amount for each student by dividing the remaining moneys in the fund by the number of eligible students.

The Department of Elementary and Secondary Education must confirm the student's graduation and higher education enrollment with the high school and institution of higher education, in cooperation with the Department of Higher Education.

Each public high school must provide information about the scholarship program to students and include the number and type of credits necessary to meet the program's eligibility requirements and the appropriate order in which those courses must be earned.

By January 31, 2013, the Department of Higher Education, in cooperation with the Department of Elementary and Secondary Education, must prepare a publication about the program and post it on its website.

This act is identical to SCS/SB 130 (2011) and similar to SB 907 (2010).

SENATE SPONSOR: Rupp

SCS/SBs 484, 477, & 606 - Under current law, individuals may only register their residential landline telephone numbers on the state's no-call list. The act expands eligibility on the list to include personal cell phone numbers.

The act adds automated phone calls to the types of calls prohibited to individuals who sign up on the list. Certain automated calls are exempt, which are calls:

- that a person has given permission to receive;
- relating to a recent or current business relationship or a current personal relationship;
- that are preceded by a live operator who obtains the receiver's consent to play the message;
- from a public safety agency or other entity notifying a person of an emergency;
- from school districts to students, parents, or employees;
- from employers to employees about work-related issues;
- from a telecommunications company or its directory publisher affiliates made solely to verify the delivery of products or services to the individual called; and
- that are in compliance with rules of the Federal Communications Commission or that are made by an entity whose telemarketing activities are federally regulated.

The act creates an exception to making telemarketing calls to people on the no-call list for communication that is in compliance with the Federal Communications Commission.

Entities that make automated calls shall not block their number from appearing on any caller identification service. Automatic dialing announcing devices are prohibited from being used to call Missourians' personal phones unless the device will disconnect within 10 seconds of the receiver hanging up. In addition to other penalties as described, violators of these provisions may be subject to penalties associated with certain unlawful merchandising practices.

Violators of this act may be subject to a civil penalty up to \$5,000 per knowing violation. Individuals who receive more than one automated call from the same entity in any twelve-month period in violation of this act may bring action to cease the calls and recover actual monetary loss or damages. A two-year statute of limitations exists on bringing suit for violations of this act. It shall not be considered a violation of the act for an automated call message to be left on the answering machine or voice mail of a person whose number is registered on the no-call list, provided that the automated message is announced by a live operator.

The act also requires that anyone making a political phone call to a Missouri resident must include a "paid for by" statement. A committee making political phone calls must be registered with the Missouri Ethics Commission. Businesses and other non-committee organizations making political phone calls must register with the Secretary of State and the Missouri Ethics Commission and must disclose on whose behalf the organization is making the calls. Records must be kept for 2 years after the date an organization receives payment for political solicitation services rendered.

Entities that give out the phone number of an elected official in a political radio advertisement must register with the Missouri Ethics Commission and disclose who is paying for the advertisement.

The Secretary of State shall provide a summary of the political phone call requirements to any candidate who files for an elective office.

Violations of the political-related solicitations may be referred to the Missouri Ethics Commission.

The act repeals Section 407.1110, which required the Attorney General to create a no-call consumer education advisory group as well as conduct certain no-call outreach and education activities.

This act is similar to SS/SB 9 (2011), SB 199 (2011), SB 663 (2010), SCS/SBs 65 & 43 (2009), SCS/SBs 840 & 857 (2008), SS/SCS/SBs 49, 65, 210, 251 (2007) and SCS/HB 801 (2007).

SB 488 - State-funded buildings over 5,000 square feet constructed after August 28, 2012 must be certified, at minimum, as meeting the Two Globes level under the Green Globes building rating system. The act prescribes certain points that must be earned in achieving the Two Globes certification. The Office of Administration may waive the points requirements for economic feasibility reasons.

State-funded building renovation and commercial interior fit-out projects must be analyzed under one of several options, including a life cycle cost analysis comparing the costs and benefits of renovating to the Two Globes standard, normal industry standards, or a building standard in between.

The Office of Administration may petition the General Assembly to require all state-funded building construction and renovation projects to meet a different or additional high-performance building standard, provided that such building standard is at least as stringent as the Green Globes standard.

The act requires periodic inspections of buildings built to the Two Globes standard. The inspector must report its findings to the Office of Administration and the state agency that occupies the building. For 15 years, the Office of Administration must monitor and evaluate the energy and environmental benefits associated with each building subject to the act's requirements.

The Office of Administration must submit a report to the energy committees in the House of Representatives and the Senate regarding activities and information that result from the act's provisions.

This act is identical to SCS/SB 22 (2011) and similar to SB 952 (2010).

SS#2/SB 492 - Members of the general assembly and statewide elected officials, who first take office on or after January 1, 2013, will no longer have retirement benefits determined based on a different formula than other state employees who are under the year 2000 plan.

Currently, employees hired after January 1, 2011, and covered under the Missouri State Employees' Retirement System must contribute four percent of their salary into the system. If a member leaves the system before becoming eligible for normal retirement, their contributions are refunded with interest of four percent per year. This act changes the interest rate so that it is equal to the investment rate for the fifty-two week treasury bills issued by the United States Department of Treasury.

Currently, the beneficiary of any MOSERS member who made contributions into the MOSERS system will upon the member's death receive a refund of the contribution less any retirement benefits received by the member. This act will include the interest credited to the member's contributions in the refund. Interest credited to the contributions will cease upon retirement or death.

*** SB 494 ***

4416S.011

SENATE SPONSOR: Wright-Jones

SB 494 – This act creates the "Medical Harm Disclosure Act" to require reporting of medical harm events. A "medical harm event" is defined as harm to a patient as a result of medical care or in a health care setting including, but not limited to, the National Quality Forum's list of Serious Reportable Events. The categories of events are described under the act, but include surgical, anesthesia, medication, product, device, care management or environmental death events. Death of a previously healthy person undergoing medical care is also included.

A health care facility, which includes both hospitals and long-term care facilities, shall report a medical harm event to the Department of Health and Senior Services no later than five days after the event has been detected. If the event is an ongoing urgent or emergent threat to the health, welfare or safety of patients, personnel, or visitors, such event shall be reported no later than 24 hours after the event has been detected. On a quarterly basis, each health care facility that has had no medical harm events to report during the quarter shall affirmatively declare this fact to the department.

Each health care facility shall create facility-wide patient safety programs to routinely review patient records for medical harm, analyze these events to determine if they were preventable and implement changes to prevent similar harmful events. Each health care facility shall provide an annual summary of its patient safety program to the department.

Each health care facility shall inform the patient, in a process prescribed under the act, of the medical harm event by the time the report is made to the department. Each health care facility shall interview patients, family members, and parties responsible for the patient about medical harm events and document a detailed summary of that interview in the patient's medical record. If the medical harm event contributed to the death of a patient, the physician or an authorized person under state law shall include that event as a

contributing cause on the patient's death certificate.

This act creates the "Medical Harm Reporting Advisory Committee." The members to be appointed by the director of the Department of Health and Senior Services are listed under the act. The advisory committee shall assist the department in the development of all aspects of the department's methodology for collecting, analyzing, and disclosing the information collected under this act. In developing the methodology for collecting the data on medical harm events, the department and advisory committee shall use the forms developed by the Agency for Healthcare Research and Quality as "Common Formats", or a similar standardized collection method.

The department shall also at least quarterly check the accuracy of information reported by health care facilities under this act by comparing the information with other available data such as patient safety indicators from hospital patient discharge data, complaints filed with the licensing division, death certificates, inspection and survey reports, and medical malpractice information. The department shall annually conduct random reviews of health care facility medical records.

Every three years, the department shall have an independent audit conducted by a state university not affiliated with any health care facility required to report under this act. The data collection, analysis and validation methodologies shall be disclosed to the public. The results of the audit shall be available to the public on the department's website within one month of receiving the final report.

Each quarter, the department shall publish details of the fines assessed to health care facilities for failure to report medical harm events and shall issue a news release about that publication. The department shall annually submit a report to the general assembly detailing medical harm events reported at each health care facility. The report may include policy recommendations, as appropriate. The list of items to be included in the report are detailed under the act. Each quarter, the department shall make information regarding outcomes of inspections and investigations conducted pursuant to its hospital and long-term care facility regulatory duties readily accessible to the public on the department website. No health care facility report or department public disclosure may contain information identifying a patient, employee, or licensed health care professional in connection with a specific infection incident. The act provides for patient social security numbers or any other information that could be used to identify an individual patient to kept private.

This act also prohibits health care facilities retaliating against any employee or applicant for employment for actions taken in furtherance of the enforcement of the provisions of this act.

This act creates the "Patient Safety Trust Fund" to be administered by the Department of Health and Senior Services which shall include funds from annual patient safety surcharges on licensing fees charged to medical facilities required to report under this act. Spending from the fund shall be used for regulatory oversight and public accountability for safe health care.

In any case in which the department receives a report from a health care facility indicating an ongoing threat or imminent danger of death or serious bodily harm, the department shall make an onsite inspection or investigation within 48 hours or two business days, whichever is greater, of the receipt of the report and shall complete that investigation within 45 days.

The department may assess the health care facility a civil penalty in an amount not to exceed 100 dollars for each day that the adverse event is not reported following the initial five-day period or twenty-four-hour period, as applicable. If the health care facility disputes a determination by the department regarding alleged failure to report an adverse event, the licensee may, within ten days, request an administrative hearing.

The department shall promote public awareness regarding where and how consumers can file complaints about health care facilities, including a requirement that information about filing complaints be posted in a visible manner on websites, public areas of the health care facilities and all health care facility correspondence and billing documents.

This act is substantially similar to SB 346 (2011).

SB 495 – This act establishes the Compassionate Assistance for Rape Emergencies (CARE) Act and provides that hospitals and health care facilities are required to do the following:

- provide each sexual assault victim with medically and factually accurate information about emergency contraception;
 - orally inform each victim that emergency contraception may be provided at the hospital;
 - provide the complete regimen of emergency contraception immediately to the victim who requests it;
- and
- follow the Department of Justice protocols on HIV/STI screening and prophylactic treatment.

Hospitals and health care facilities must ensure that they provide their employees with medically and factually accurate information about emergency contraception. The department shall develop, prepare, and produce informational materials relating to emergency contraception to hospitals and health care facilities. The informational materials must be medically and factually accurate, clearly written, and explain the nature of emergency contraception.

The department shall respond to complaints and shall periodically determine whether hospitals and health care facilities are in compliance. If a hospital or a health care facility is not in compliance, then the department shall impose an administrative penalty of \$5,000/per woman who is denied information or emergency contraception and a fine of \$5,000 for failure to comply with the provisions of this act. For every 30 days that a hospital or health care facility is not in compliance, an additional administrative penalty of \$5,000 shall be imposed.

This act is identical to SB 396 (2011).

SB 496 – This act relates to pregnancy and sexually transmitted disease prevention and abortion.

SEXUAL EDUCATION

This act provides that any course materials relating to human sexuality shall not only be medically and factually accurate, but shall also be based on peer reviewed projects that have been demonstrated to influence healthy behavior. The course instruction shall also present abstinence from sexual activity as the preferred choice of behavior in relation to all sexual activity as the only sure way to avoid pregnancy or sexually transmitted infections. The students shall also be presented with information about the health benefits and side effects of all contraceptives and barrier methods as a means to prevent pregnancy and to reduce the risk of contracting sexually transmitted infections or other diseases and well as information regarding the vaccine for the Human Papillomavirus. The instruction shall also help the students gain knowledge about the physical, biological, and hormonal changes of adolescence and subsequent states of human maturation. In addition, the students shall be encouraged to communicate with their family regarding sexuality. This act also requires instruction on the dangers of sexual predators, including online predators as well as the effects of electronic media on sexuality and relationships.

This act also repeals the prohibition on abortion providers providing human sexuality instruction and instead provides that a school district shall make all curriculum materials and names and affiliations of presenters used in the school district available for public inspection.(SECTION 170.015).

COMPASSIONATE ASSISTANCE FOR RAPE EMERGENCIES

This act provides that hospitals and health care facilities are required to do the following:

- provide each sexual assault victim with medically and factually accurate information about emergency contraception;
- orally inform each victim that emergency contraception may be provided at the hospital;
- provide the complete regimen of emergency contraception immediately to the victim who requests it;

and

- follow the Department of Justice protocols on HIV/STI screening and prophylactic treatment.

Hospitals and health care facilities must ensure that they provide their employees with medically and factually accurate information about emergency contraception. The department shall develop, prepare, and produce informational materials relating to emergency contraception to hospitals and health care facilities. The informational materials must be medically and factually accurate, clearly written, and explain the nature of emergency contraception.

The department shall respond to complaints and shall periodically determine whether hospitals and health care facilities are in compliance. If a hospital or a health care facility is not in compliance, then the department shall impose an administrative penalty of \$5,000/per woman who is denied information or emergency contraception and a fine of \$5,000 for failure to comply with the provisions of this act. For every 30 days that a hospital or health care facility is not in compliance, an additional administrative penalty of \$5,000 shall be imposed. (SECTIONS 191.717 and 191.718).

BIRTH CONTROL PROTECTION

This act provides that consenting individuals have a protected interest from unreasonable governmental intrusions into their private lives in regards to obtaining and using safe and effective methods of contraception. This act also provides that the laws of this state will be interpreted to recognize these protected rights.

This act also prohibits governmental actors or entities from interfering in a consenting individual's right to the benefits, facilities, services, or information concerning safe methods of contraception. This act also prohibits any laws, rules, ordinances, taxes, or regulations that are implemented to promote public health and safety from unreasonably hindering the public's access to contraceptives. (SECTION 191.720).

WOMEN'S HEALTH SERVICES PROGRAM

This act establishes the Women's Health Services Program. Subject to appropriation, the program shall be implemented by the department of health and senior services by July 1, 2013, and shall be initially funded with five million dollars. The goal of the program is to reduce the number of unintended pregnancies in Missouri by providing women's health services through qualified health providers, as determined by the department. This program shall sunset in six years, unless reauthorized by the General Assembly (SECTION 192.970).

PATIENT PROTECTION

Upon receipt of a valid and lawful prescription or upon a lawful request for contraception approved for over-the-counter use, a licensed pharmacy shall dispense the prescribed drug or device without delay, consistent with the normal time frame for filling any other prescription and shall fulfill the request for the over-counter drug in a timely fashion.

When the customer requests a prescribed drug or device, or contraception approved for over-the-counter use, and such drug or device is not in stock, the pharmacy shall offer the customer the option of having the pharmacy obtain the contraception under the pharmacy's standard procedures for expediting ordering of any drug or device not in stock or the pharmacy may locate another pharmacy of the customer's choice or closest pharmacy that has the drug or device in stock and transfer the customer's prescription to that pharmacy, if necessary. The pharmacy shall perform the customer's chosen option in a timely fashion.

The pharmacy shall ensure that it does not intimidate, threaten, or harass its customers in the delivery of services.

Nothing in this act shall prohibit a licensed pharmacy from refusing to dispense a prescribed drug or device in accordance with standard pharmacy practice if there is a valid medical concern or if the customer is unable to pay for the drug or device. (SECTIONS 338.012 AND 338.014).

This act is identical to SB 348 (2011).

SB 500 – This act modifies provisions relating to certain health care professionals.

STATE LEGAL EXPENSE FUND

This act provides coverage under the state legal expense fund for any licensed doctor, therapist, dentist, podiatrist, optometrist, pharmacist, psychologist, or nurse who is hired on a contract basis to serve as a consultant for the MO HealthNet division or family support division of the Department of Social Services, or to serve as a consultant to the Department of Mental Health. The coverage is limited to a maximum of 500,000 dollars for all claims based upon the same act. If the professionals covered by the state legal expense fund under this act have other liability or malpractice insurance, the state legal expense fund is required to pay before the liability or malpractice insurance is available for paying the claim.

The Department of Social Services is required to issue rules regarding the contract procedures and documentation of services for such consultants.

These provisions are identical to SB 40 (2011).

PATIENT SAFETY

This act modifies laws regarding hospital patient safety. Under the act, each hospital is required to establish a patient safety committee by January 1, 2013, to design and recommend the process for implementing a safe patient handling program, which shall be implemented by July 1, 2013. The program shall establish a safe handling policy for all shifts and units, conduct a patient handling hazard assessment and consider incorporating patient handling equipment in future hospital models.

By January 1, 2016, each hospital shall acquire its choice of a specified minimum of patient lifting equipment and shall train staff on policies, equipment and devices at least annually. Each hospital shall also develop procedures for employees to refuse to perform or be involved in patient handling or movement that will expose the patient or employee to an unacceptable risk of injury.

The Division of Workers' Compensation shall develop rules by January 1, 2014, to provide a reduced workers' compensation premium for hospitals that implement a safe patient handling program and submit a report of the result of the reduced premiums to the General Assembly by December 1, 2017 and December 1, 2019.

These provisions are identical to SB 39 (2011).

SB 505 - This act requires all health carriers providing health insurance coverage for at least 50,000 people to expend at least 90% of their total annual Missouri-associated revenues on health care services in any given calendar year (non-health expenditures must not exceed 10% of their Missouri-associated revenue). This percentage is known as the Missouri care share under the act. The act also requires health carriers insuring at least 25,000 persons but less than 50,000 persons to expend at least 85% of their total annual Missouri-associated revenues on health care services in any given calendar year.

The act requires health carriers to report submit an annual report to the director of the Department of Insurance, Financial Institutions and Professional Registration. The health carrier shall report its total revenues, Missouri-associated revenue, total premiums, Missouri premiums, total health expenditures, Missouri-associated health expenditures, total non-health expenditures, care share, and Missouri care share.

The director shall publish annually the care share and the Missouri care share of each health carrier doing business in the state of Missouri. All written materials used for advertising and marketing health benefit plans to prospective insured persons or groups shall include a statement of the health carrier's care share and its Missouri care share.

Under the terms of the act, any health carrier that fails to comply with the act shall refund to the persons insured by it a percentage of its Missouri-associated revenues equal to the Missouri care share required by the act for the calendar year less the Missouri care share actually expended for the calendar year. An insurer that reports a shortfall in its Missouri care share may pay the refund by reducing the total premiums payable by its insureds or enrollees for the calendar year in which the shortfall is reported by an amount equal to the total shortfall.

The act requires the director to audit the books and records of a random sample of 10% of health carriers that have more than 25,000 persons insured under health benefit plans. The director may appoint an independent auditor to conduct the audit and shall assess each health carrier a fee to pay the reasonable costs of such audit.

SB 519 - Under this act, each health carrier shall provide each contracted provider with access to the health carrier's standard fee schedule, specific to the provider's geographic area, through a secure website. Such fee schedule shall reflect the current payment rates for all goods and services pertinent to the provider's practice or business, defined by procedure codes, diagnosis related groups, or defined by another payment mechanism, and all contracted providers in such geographic area shall be paid for the goods and services provided at such rates, unless different rates have been specifically agreed upon contractually with an individual provider. In no case shall the standard fee schedule include a rate for a specific good or service that is less than the lowest rate individually contracted for by the providers of such good or service in the applicable geographic area if all the providers in such area have individually contracted to be paid at different rates for such good or service.

Under the act, no health carrier shall refuse to contract with any Missouri provider who is located within the geographic coverage area of a health benefit plan and who is willing to meet the terms and conditions for provider participation established for such health benefit plan if the provider is willing, as a term of such contract, to be paid at rates equal to 99% of the standard rates established pursuant to this act.

This act is identical to SB 111 (2011).

SB 525 - This act provides that beginning January 1, 2013, certain circuit and associate circuit judgeships in this state will become nonpartisan offices elected in nonpartisan elections on the primary election day.

The provisions of this act do not apply to elections involving incumbent candidates who were seated before January 1, 2013. These judges may continue to hold office as partisan judges. Judgeships selected pursuant to the nonpartisan court plan in the state constitution are excluded from the provisions involving the nonpartisan elections, but not the provisions requiring the offices to be nonpartisan and prohibiting the judges from certain partisan activities.

In the nonpartisan elections established under this act, the names of each judicial candidate will be included on all ballots, including each political party's primary ballots. Each candidate is to be designated as "nonpartisan."

If no candidate receives a majority vote in the primary election, the two candidates receiving the highest number of votes will be certified to a runoff election held at the next general election. Such candidates will also be designated as "nonpartisan" on general election ballots.

The filing period for judicial candidates begins at 8:00 a.m. on the last Tuesday in February of the election year and ends at 5:00 p.m. on the last Tuesday in March.

No circuit or associate circuit judge or judicial candidate may be publicly affiliated with any political party or participate in any of the political activities enumerated in this act.

This act is identical to SB 225 (2011) and is similar to SB 757 (2008).

SB 526 - This act requires every health carrier that credentials health care professionals in a health benefit plan to request credentialing information in a uniform format that includes data commonly requested by health carriers for the purpose of credentialing. "Credentialing" is defined as the process of assessing and validating the qualifications of a health care professional to provide patient care services. The determination is based on an evaluation of the individual's current license, training or experience, current competence, and ability to perform the privileges requested.

Every health carrier shall complete the process of verifying a health care professional's credentialing information and make a final determination to credential the health care professional within sixty calendar days of receipt of a complete application.

Immediately after a health care professional becomes credentialed, every health carrier shall retroactively compensate health care professionals for services rendered from the date of his or her application.

SENATE SPONSOR: Lamping

SB 531 - This act modifies the low-income housing tax credit program and the historic preservation tax credit program. The Department of Revenue is required to apply any increase in revenue generated from capping these tax credit programs to a decrease in the personal income tax rate to begin on January 1, 2016. The Department of Revenue is required to accomplish this decrease in the personal income tax rate by rule.

LOW-INCOME HOUSING TAX CREDITS

The act establishes a one hundred ten million dollar cap for authorizations of 9% low-income housing tax credits for FY 2014. For each subsequent fiscal year from FY 2015 to FY 2017 the amount of 9% low-income housing tax credits which may be authorized is gradually reduced such that beginning FY 2017, no more than seventy million dollars in 9% low-income housing tax credits may be authorized each fiscal year.

Authorizations of 4% low-income housing tax credits are capped at fifteen million dollars for FY 2014. For each subsequent fiscal year the amount of 4% low-income housing tax credits which may be authorized is reduced by five million dollars. After June 30, 2016, no 4% low-income housing tax credits may be authorized.

The act prohibits the authorization of low-income housing tax credits after August 28, 2018. The stacking of state 9% low-income housing tax credits with state historic preservation tax credits for the same project is prohibited. The carry-back for low-income housing tax credits is reduced from three years to two years.

HISTORIC PRESERVATION TAX CREDITS

Under current law, the Department of Economic Development is prohibited from issuing more than one hundred forty million dollars in historic preservation tax credits in any fiscal year for projects which will receive more than two hundred and seventy-five thousand dollars in tax credits. Beginning fiscal year 2014, and each fiscal year thereafter, this act would prohibit the Department of Economic Development from approving more than eighty million dollars in historic preservation tax credits increased by the amount of any rescissions of approved applications for tax such credits. Projects which would receive less than two hundred seventy-five thousand dollars in tax credits will be subject to a ten million dollar fiscal year cap.

Non-Income Producing Residential Projects:

The act prohibits the department from issuing more than one hundred twenty-five thousand dollars in historic preservation tax credits per project for non-income producing residential rehabilitation projects.

Transition Rules:

Applicants for projects that, as August 28, 2012, have: received approval from the Department of Economic Development; incurred certain levels of expenses; or received certification from the state historical preservation officer will not be subject to the new limitations on tax credit issuance, but will be subject to the current law limitations on tax credit issuance.

Stacking:

The act also prohibits the stacking of state historic preservation tax credits with state 9% low-income housing tax credits. Historic preservation tax credits will now be capable of being carried back one year or forward five years.

SB 535 - This act modifies provisions relating to the St. Louis police force.

No elected or appointed official of the state or a political subdivision may interfere with any member of the St. Louis police force in the performance of his or her job duties or in any investigation or else face a penalty of \$15,000 and disqualification from office.

This act also makes it an unlawful employment practice to take certain adverse employment actions against an employee of the St. Louis police force for reporting the illegal conduct of a co-worker.

The City of St. Louis is authorized by this act to establish a municipal police force, no sooner than January 1, 2013, after certain conditions have been met and according to certain procedures. For instance, the city is required to amend its charter to repeal its residency rule and the city is prohibited from requiring its employees to live in the city for more than seven years.

The city must also hire a public safety director who has at least ten years experience in correctional management and the director must complete continuing education courses in correctional management every year.

The terms of the commissioners of the board of police shall expire upon the establishment of the police force and several provisions of current law shall no longer apply to the city or its municipal police force, but the act shall not be construed as changing the retirement benefits provided under current law.

The municipal police force is required to employ, without a reduction in rank, salary, or benefits, all commissioned and civilian personnel of the board of police commissioners. These employees may not be fired or have their salary, benefits, or ranks reduced except for cause and only after certain disciplinary procedures have been followed.

Under this act, the city may adopt rules for the police force, but disciplinary decisions shall be governed by the civil service commission's rules. The commission shall issue decisions in appeals of disciplinary actions, which shall be subject to appeal.

The city must provide or contract for certain benefits. Health, medical, and life insurance must be available for purchase by the spouses, domestic partners, or dependents of deceased retired officers and employees who receive benefits from the Police Retirement System of St. Louis.

This act requires the city to create a transition committee to coordinate and implement the transition of the police force to the city.

This act provides that the city shall not be restricted in any way in the selection of a police chief. Under this act, the police chief may require the city's sheriff and other local and municipal law enforcement officers to act under the chief's control when needed.

This act further provides that any person who acts as a private watchman, private detective, or private policeman in St. Louis without having obtained a written license is guilty of a Class A misdemeanor.

This act modifies the definitions of "earnable compensation" and "police officer" for purposes of the St. Louis police retirement system to remove references to Section 84.160 which will expire upon passage of this act. The makeup of the St. Louis Police Retirement System Board of Trustees is also modified.

This act provides, in the event the state or any state official is ordered to provide state funds to St. Louis City to satisfy pension obligations for members of the Police Retirement System of St. Louis, that the amount of the funds shall constitute a first lien on the funds of the city. The state treasurer and director of the

department of revenue are required to withhold all money due to the city until the amount, together with interest, is satisfied.

The State Legal Expense Fund will no longer reimburse the St. Louis Board of Police Commissioners for up to a maximum of one million dollars per fiscal year for claims tendered to the Attorney General after the effective date of this act. The Attorney General will continue to provide legal representation for claims tendered by the board of police commissioners before the effective date of this act.

Some of the provisions of this act are nonseverable.

This act is similar to SS/HB 1 (2011), SB 23 (2011), and HB 71 (2011).

4111S.011

SENATE SPONSOR: Chappelle-Nadal

SB 543 – This act modifies provisions relating to elementary and secondary education.

SUPERINTENDENT EVALUATIONS: By June 30, 2013, the Department of Elementary and Secondary Education must develop an evaluation instrument to be provided to school districts to evaluate superintendent performance. (Section 161.380)

CHANGES IN SCHOOL DISTRICT COMPOSITION & MSIP REVIEW: When school districts consolidate, the Department of Elementary and Secondary Education must grant the new district a waiver from Missouri School Improvement Program review for three years. When a district undergoes an annexation or has a boundary line change that results in an increase in the number of enrolled pupils by ten percent, the Department of Elementary and Secondary Education must grant the district a waiver from Missouri School Improvement Program review for three years. (Section 162.1115)

SCHOOL PERSONNEL COMPENSATION: This act places limits on the amount of compensation a board of education may provide to certain school district personnel. A superintendent, assistant superintendent, administrator, or central office personnel may not receive a total compensation package, as described in the act, that exceeds the amount of the district's total average salary for tenured teachers by two and one-half times. In addition, the average administrator salary must not exceed twice the amount of the district's average salary for tenured teachers. Any district that violates these limitations will have an amount equal to one percent of school funding provided through the foundation formula withheld. (Sections 168.107 & 168.223)

REDUCTION IN FORCE: Current law allows the board of education of a school district to reduce the number of teachers in a school district under certain circumstances. This act requires a school board, when utilizing reduction in force, to reduce administrative costs by a percent equal to the percent by which the amount of funds spent on teacher compensation was reduced. (Sections 168.124 & 168.221)

SUPERINTENDENT COMPENSATION REDUCTION: A school board may reduce the compensation of its superintendent of schools based on a comparison of student performance of non-district Missouri students possessing similar characteristics, as described in the act, and a finding that the district's students have underperformed as compared. This provision only applies to unaccredited or provisionally accredited school districts or districts that, for any three years, have obtained a score on their annual performance report consistent with a classification of unaccredited or provisionally accredited.

A reduction in compensation may only occur for a superintendent after the board has employed him or her for four consecutive years. (Sections 168.211, 168.214)

This act is identical to SCS/SB 99 (2011).

SB 544 - This act establishes licensing standards for different types of clinical laboratory science personnel. The act licenses medical laboratory scientists, categorical laboratory scientists, medical laboratory technicians and phlebotomists.

The act establishes the Clinical Laboratory Science Board consisting of nine members appointed by the Governor with the advice and consent of the Senate. Among other duties, the board shall establish educational standards and procedures for granting reciprocity for licensees from other states.

Applicants for licensing are required to be at least 18 years old, submit an application, pay a fee, submit to a background check, pass certain examinations, and meet specific educational requirements.

Current practitioners of clinical laboratory science, who are eligible for certification by an agency acceptable to the board and have applied to the board may continue to perform their duties until twelve months after the filing of their application. If a person does not meet the education, training, and experience requirements for a license before August 28, 2014, they shall be considered to meet the qualifications for a license if they have three years of acceptable experience in the five years before August 28, 2012.

Temporary licenses are allowed and licensees may be placed on inactive status under certain circumstances. Procedures are established for denial and discipline of licenses and for the review of those administrative decisions.

The board is also authorized to seek injunctions against unlicensed clinical laboratory science personnel and subpoena individuals and documents.

Any person who violates this act shall be guilty of a class A misdemeanor.

This act is similar to SB 1099 (2006), SB 314 (2007), SB 1162 (2008), SB 365 (2009), SB 1063 (2010), and SB 382 (2011).

SENATE SPONSOR: Curls

SB 555 - This act establishes the Contract for Deed Act. This act regulates certain residential real estate contracts where the contract has not been fully performed, particularly contracts where the seller does not deliver the deed for the property until the buyer finishes making installment payments to the seller. A residential lease agreement that includes an option to purchase real estate is also required to comply with some of the requirements of this act.

This act allows a person who sells residential real estate in this way to rescind the contract, or declare the contract terminated and retake the land, if the person who purchases the property fails to make payment on time or comply with a term of the contract. Before the seller can take these actions, the seller must give a specific notice to the buyer and give the buyer thirty days to fix the default. If the buyer has already paid thirty percent of the amount due, or forty-eight monthly payments, then the seller cannot rescind the contract, or declare the contract terminated and retake the land, but the seller can sell the property after giving the buyer notice and sixty days to fix the default. The sale must be conducted by a trustee with the same notice required in foreclosure sales. If after the sale the buyer still owes money, the seller can have a judgment against the buyer.

The act specifies that a lien on the property for the purposes of providing utility service to the property will not be considered a default under the contract.

If the negotiations before signing the contract are not conducted in English, then the seller is required to provide copies of the written documents relating to the sale, including the notices required by this act, in that language.

The seller is required to make certain disclosures about the property, provide the buyer with information about any delinquent taxes or assessments due on the property, and provide the buyer with a copy of any insurance policy relating to the property before the buyer signs the contract. These contracts are not enforceable, unless they are in writing and the seller is required to include notice to the buyer that the contract is the final agreement between the parties. If the seller does not take these actions, they can be sued based on the unlawful merchandising practice laws or the buyer can cancel and rescind the contract with a full refund.

The seller is also required to give the buyer a written statement that specifies the purchase price of the property, the interest rate under the contract, the total amount of principal and interest to be paid under the contract, the amount of any late charge that may be assessed under the contract, and the fact that there is no prepayment penalty if the buyer wants to pay the full amount before the date of the last scheduled payment.

These contracts are prohibited from including: late-payment fees that are more than eight percent of the monthly payment, language that prohibits the buyer from using the property as security for a loan for improvements on the property, prepayment penalties, language that requires a person to forfeit an option fee for late payment, or language that penalizes a person leasing property for requesting repairs.

A buyer is allowed to cancel this type of contract within fourteen days of signing it. The seller is required to notify the buyer of their right to cancel the contract. The seller is also required to return the buyer's payments within ten days of receiving the buyer's cancellation notice.

A seller is required to record the contract in the records of the county within thirty days. The seller is also required to send the buyer a statement with certain financial information every January. The seller who does not send this financial statement is liable for damages and reasonable attorney's fees.

If there is insurance on the property, the insured person is required to notify the insurance company of the contract. Then, the insurer is required to issue insurance proceeds jointly to the buyer and seller. If the seller does not follow the requirements regarding insurance, they can be sued based on the unlawful merchandising practice laws or the buyer can cancel and rescind the contract with a full refund.

A seller is required to transfer title of the property to the buyer within thirty days of the buyer's final payment. If the seller does not do this, they are liable for damages and reasonable attorney's fees.

If the buyer has paid at least fifteen percent of the principal and gives the seller a promissory note, the buyer is allowed to convert their interest in the property into recorded title. If the seller does not give the buyer a deed after receiving a promissory note, then the seller is liable to the buyer.

After notifying the seller, the buyer is allowed to cancel this type of contract if the buyer learns that the property is not properly subdivided or platted. The seller is required to notify the buyer that the seller will properly subdivide or plat the property or return all payments to the buyer and reimburse the buyer for property taxes and the value of any improvements to the property.

A buyer is allowed to deduct any amounts the seller owes them as damages under this act from the amount the buyer owes the seller for the property without going to court.

A person who wants to sell their property under this type of contract must own the property and the property must be free from any liens, unless the buyer is notified of the lien before the sale and the lien meets certain requirements, including putting certain terms in the contract. The property must also be kept free of certain liens during the length of the contract. If the seller violates these restrictions they can be sued based on the unlawful merchandising practice laws, the buyer can cancel and rescind the contract with a full refund, and the seller is required to reimburse the buyer for property taxes and the value of any improvements to the property.

This act is similar to HB 296 (2011).

SB 559 - This act authorizes the expungement of certain criminal records after eight years have elapsed since the person has completed his or her imprisonment, period of probation, or period of parole and has not been convicted of or been placed on probation for any misdemeanor or felony during that time.

The crimes eligible for expungement include felonies, misdemeanors, infractions, and municipal offenses other than certain specified violent crimes and crimes that require registration on the sex offender registry.

To expunge a criminal record under this act, the person must file a petition in the civil division of the circuit court in a county where any of the arrests, pleas, trials, or convictions occurred. Once expunged, the court records and files will be confidential and only available to the parties or by order of the court for good cause shown. The expungement also restores all rights to the person as if the crime had never occurred.

The clerk of the court is required to assess a \$500 surcharge on all petitions for expungement. Moneys collected are payable to the General Revenue Fund.

This act repeals Section 577.054, which allows for the expungement of a first alcohol-related driving offense after a period of ten years, because the act's expungement provisions will apply to alcohol-related driving offenses.

This act is similar to HB 75 (2011).

SCS/SB 560 - This act prohibits the establishment, creation, or operation of a state-based health insurance exchange unless the exchange is created by a legislative act, an initiative petition, or referendum. The act specifically prohibits the establishment of a state-based health insurance exchange by an executive order issued by the Governor.

The act further prohibits state agencies from establishing programs or promulgating any rules or policies to establish, create, administer or otherwise operate a state-based health insurance exchange unless the agency has received statutory authority to create it. The act specifically prohibits agencies from performing responsibilities of a state-based health insurance exchange unless authorized by statute.

Under the terms of this act, no department, agency, instrumentality, or political subdivision of this state shall apply for, accept or expend federal moneys related to the creation, implementation or operation of a state-based health insurance exchange or a federally-facilitated health benefit exchange unless such acceptance or expenditure is authorized by statute or an appropriations bill.

The act prohibits agencies from entering into agreements to establish or operate a federally-facilitated health benefit exchange unless the agency has received statutory authority to enter into such agreements. In addition, the act prohibits departments and agencies from providing assistance or resources of any kind to any federal agency or department relating to the creation of a federally-facilitated health benefit exchange unless the assistance or resources are authorized by state statute or the assistance is mandated by federal law.

The act specifically provides any taxpayer of this state or any member of the general assembly with legal standing to bring suit against the state of Missouri or any official, department, division, agency, or political subdivision of this state which is in violation of the act in any court with jurisdiction to enforce the provisions of the act.

The act requires courts to grant attorney's fees, court costs, and reasonable expenses to taxpayers or legislators who are successful in bringing a lawsuit against the state or one of its agencies. The act further provides that in no case shall the award of attorney's fees, court costs, or reasonable expenses be paid from the legal defense fund, nor shall any department, division, agency, or political subdivision of this state request, or be granted, additional appropriations in order to satisfy an award made under this act.

This act, if approved by the General Assembly, will be submitted to the voters for their approval in November of 2012.

SCS/SB 563 – Currently, six of the nine members' terms of the Missouri State University Board of Governors expire in 2011. However, current law also requires that no more than three terms expire in any given year and does not provide a mechanism to modify term lengths to accommodate the timing of the term expiration. This act modifies the term lengths for the appointments to fill the six terms that expired in 2011 so that no more than three of the nine board members' terms will expire in any given year. This act would allow three members' terms to expire on January 1, 2013, three members' terms to expire on January 1, 2015, and three members' terms to expire on January 1, 2017.

This act provides that not more than two voting members of the board of regents of Northwest Missouri State University may be residents of the same county.

This act contains an emergency clause.

This act contains a provision identical to SB 681 (2012).

SCS/SB 565 - Under the terms of this act, the terms of the current board members shall expire on December 31, 2012. Effective January 1, 2013, the membership of the board shall consist of 9 members (the director of the Department of Insurance, 4 members appointed by the Governor and 4 members of the General Assembly). Commencing January 1, 2013, the Governor shall appoint 4 new members, with the advice and consent of the Senate. Currently, members are appointed by the director without Senate approval. The Governor may reappoint members of the board other than the 8 members sitting on the board prior to January 1, 2013. The act also adds 2 members of the Senate and 2 members of the House of Representatives. The legislative members will serve in an ex officio capacity.

HOUSE HANDLER: Richardson

SS/SCS/SB 572 - The act affirmatively states that occupational diseases are exclusively covered under workers' compensation laws.

This act states that co-employees shall be released from all liability for workplace injuries or death for which compensation is recoverable under the workers' compensation statutes. However, the employee shall not escape liability when the employee engages in an affirmative negligent act that purposefully and dangerously caused or increased the risk of injury.

Civil actions involving injury or death filed by the employee shall not proceed until all administrative remedies are exhausted. Administrative actions brought under the workers' compensation statutes shall toll civil action statutes of limitation.

Toxic exposure is defined as an exposure to chemicals, dusts, particulates, fumes, mists, fibers, solvents,

vapors, radiation, or other substances or other materials that, when ingested, consumed, inhaled, or absorbed are sufficient to cause disease, death, mutations, cancer, deformities, or reproductive abnormalities in humans. In cases where occupational disease is caused by toxic exposure, there shall be no subrogation rights for employers.

The death benefit for employees is raised from \$5,000 to \$10,000.

This act is similar to SB 8 (2011).

*** SB 576 ***

4705S.021

SENATE SPONSOR: Stouffer

SCS/SB 576 – This act modifies the laws governing charter schools.

SECTION 29.205 – The State Auditor may audit any charter school in the same manner as any agency of the state.

SECTION 160.400 – In addition to the St. Louis City and Kansas City School Districts, charter schools may be operated in unaccredited districts, and in districts accredited without provisions if sponsored by the local school board. Charter schools may be operated in a provisionally accredited district after three full school years of provisional accreditation beginning in the 2009-2010 school year. In addition, if the provisional accreditation is related to financial stress or hardship, the State Board of Education must vote to decide whether charters may operate. The sponsor is limited to the local school board or a sponsor that has met accountability standards, as described in the act.

This act modifies sponsorship. If the State Board of Education appoints a special administrative board for Kansas City, the special administrative board may sponsor charter schools. This act removes the restriction that a sponsoring public four-year college or university have its primary campus in the school district or in a county adjacent to the county in which the district is located. In addition, a community college whose service area encompasses some portion of the district may be a sponsor. Currently, any private four-year college or university located in St. Louis City with an enrollment of one thousand students and an approved teacher preparation program may be a sponsor. This act eliminates the requirement that the institution be located in St. Louis City but requires that its primary campus be located in Missouri. Additional sponsors include the special administrative board of the St. Louis City School District, any two-year private vocational or technical school, as described in the act, and the Missouri Charter Public School Commission.

In an unaccredited or provisionally accredited district where a charter school is sponsored by an entity other than the local school board, when the district becomes classified as accredited, a charter school may continue to be sponsored by the entity sponsoring it prior to the classification of accreditation. Such a school will not be limited to the local school board as a sponsor. Charter schools in Kansas City and St. Louis may be sponsored by any eligible entity, regardless of the districts' accreditation classification. A charter school whose charter provides for the addition of grade levels may add grade levels until the planned expansion is complete.

The mayor of St. Louis City may request a two-year private vocational or technical school or the Missouri Charter Public School Commission to sponsor a workplace charter school.

When a charter school chooses to affiliate with a four-year college or university, the college or university will no longer be required to be located within the county in which school district lies or in an adjacent county.

A school district or the State Board of Education, when acting as a sponsor, may have expenses associated with sponsorship be defrayed by having the Department of Elementary and Secondary Education withhold up to 1.5% of the charter school's state and local funding. A sponsor that receives 1.5% funding to defray expenses associated with sponsorship must submit annual reports to the Joint Committee on Education demonstrating compliance with requirements.

A charter school sponsor must develop policies and procedures for the following: the review of a charter school proposal; the granting of a charter; the performance framework of a charter; the renewal, revocation, and nonrenewal processes; additional criteria for oversight of the charter; and procedures to be used when a school closes. The Department of Elementary and Secondary Education is required to provide guidance to sponsors in developing these procedures and policies.

Currently, the State Board may suspend a sponsor's ability to sponsor a school for a period of one year. This act modifies the State Board's existing monitoring and suspension authority and instead requires the State Board to evaluate sponsors, as described in the act, to determine compliance with sponsorship standards every three years. If the Department of Elementary and Secondary Education determines that a sponsor is in material noncompliance with sponsorship duties, it must be notified and given remediation time. If compliance does not improve, the Commissioner of Education must conduct a public hearing and recommend corrective action to the State Board of Education. The State Board will have final determination over corrective action. If the State Board removes sponsorship authority for any currently operating charter school, the Missouri Charter Public School Commission will become the school's sponsor.

SECTION 160.403 – The Department of Elementary and Secondary Education must establish an annual application and approval process for all entities eligible to sponsor charter schools. All information and guidelines for eligible sponsors must be made available by January 1, 2013.

This act identifies the information that must be included in an eligible sponsor's application.

By July first annually, the Department must grant or deny a sponsoring authority to a sponsor applicant. Within thirty days of the Department's decision, it must execute a renewable sponsoring contract with each approved sponsoring entity. The term will be ten years in length and may be renewed.

SECTION 160.405 – This act modifies the framework of a charter school's charter. The charter will be a legally binding performance contract that describes the obligations and responsibilities of the school and the sponsor.

The term of a charter will be for five years, instead of the current provision that allows charters to be not less than five but not greater than ten years. This act identifies additional items that must be contained in a charter. Charter schools operating on August 27, 2012, will have until August 28, 2015, to meet the new requirements for items that must be in a charter.

A charter must be submitted to the sponsor and follow the sponsor's policies and procedures for review and granting. In addition, the charter must be approved by the State Board of Education by December first prior to the proposed opening date of the charter school.

This act modifies the definition of "high risk" student.

This act eliminates judicial review for the disapproval of a charter.

Charter schools must conduct a background check of education personnel, including through the employee criminal history background check and the Family Care Safety Registry.

Audit reports and annual financial reports must be published on the DESE's website. Charter schools with local educational agency status must comply with all federal audit requirements for such charters.

Currently, charter schools must collect baseline data during at least the first three years to determine performance. This act requires charter schools to establish baseline student performance during the first year of operation and collect student performance data, as described in the act, throughout the duration of the charter to annually monitor student academic performance, based upon grade levels offered by the school.

The performance standards for alternative and special purpose charter schools that target high-risk students must be based on measures defined in the school's performance contract with its sponsors.

Charter schools are required to comply with all applicable federal and state special education laws including IDEA and Section 504 of the Rehabilitation Act of 1973.

This act allows proposed or existing high risk or alternative charter schools to include alternative arrangements for students to obtain credits for satisfying graduation requirements in the charter application and charter. Alternative arrangements may include credit for off-campus instruction, embedded credit, work experience, independent studies, and performance-based credit options. Upon approval of the charter by the State Board of Education, any alternative arrangements will be approved at the same time.

The Department of Elementary and Secondary Education must conduct a study of any such charter school granted alternative arrangements for students to obtain credit to assess student performance, graduation rates, educational outcomes, and entry into the workforce or higher education.

The sponsor, governing board, and charter school staff must jointly review the school's performance, management, and operations during the first year of operation and then every other year after the most recent review, instead of the current requirement of at least once every two years.

This act removes the requirement that a charter school become a local educational agency for the sole purpose of direct access to federal grants and allows the school to become an agency if the sponsor and the governing board reach a written agreement to become an agency.

Sponsors must annually review the charter school's compliance with statutory standards including statewide assessment participation, completion of the annual report card, data collection, a method to measure pupil progress, and publication of the charter school's annual performance report. Sponsors must have intervention policies to give schools notice of contract violations or performance deficiencies, as described in the act. A sponsor must have a policy to revoke a charter if there is evidence of underperformance or a violation of the law or the public trust that imperils students or public funds, as described in the act.

This act limits the length of probationary status for a charter school to no more than twelve months, provided that no more than one designation of probationary status is allowed for the duration of the charter contract.

This act removes judicial review of a sponsor's final decision to revoke a charter. Instead, the decision to revoke a charter will be subject to an appeal to the State Board of Education, which must then determine whether the charter will be revoked.

Sponsors must conduct a renewal process of charter schools based on objective evidence, as described in the act, including annual performance report results. Beginning August first during the year in which a charter is up for renewal, a sponsor must demonstrate to the State Board of Education that the charter school is in compliance with federal and state law and the school's performance contract, including academic performance requirements. The sponsor must also submit a revised charter application to the State Board of Education, which must determine if the sponsor has demonstrated compliance. If compliance is demonstrated, the State Board must renew the charter.

SECTION 160.410 – This act requires charter schools whose mission includes student drop-out prevention or recovery to enroll nonresident pupils from the same or an adjacent county who reside in residential care facilities, transitional living group homes, or independent living programs whose last school of enrollment is in the school district where the charter school is established, who submit a timely application. Charter alternative and special purpose schools may also give a preference for admission to high-risk students, as defined, when the school targets these students through its proposed mission, curriculum, teaching methods, and services.

Charter schools may limit admission based on gender if the school is a single-gender school.

Students of a charter school who are present for the January membership count in Section 163.011 will be counted in the performance of the charter school on the statewide assessments in that calendar year, unless otherwise exempted as English language learners.

If a charter school is operated by a management company, a copy of the contract must be made available for public inspection.

If a student attending a charter school moves so that he or she no longer lives in the school district where charter schools may operate, he or she may complete the current semester at the charter school and will be considered a resident student. The parent or legal guardian will be responsible for the student's transportation.

If a change in school district boundary lines occurs so that a student no longer lives in a school district, or if action by the State Board of Education occurs under Section 162.081, where charter schools may operate, the student may complete the current academic year at the charter school. The parent or legal guardian will be responsible for the student's transportation.

The Foster Care Bill of Rights (Sections 167.018 and 167.019) will apply to charter schools.

SECTION 160.415 – This act contains requirements to be included in a request for proposals if a proposed charter school intends to contract with an education services provider for substantial educational services, management services, or both.

The Department of Elementary and Secondary Education may withhold funding at an adequate level during a charter school's last year of operation until the Department determines that school records, liabilities, and reporting requirements, including a full audit, are satisfied.

SECTION 160.417 – By October 1, 2012, and each October 1 thereafter, the Department of Elementary and Secondary Education must identify charter schools experiencing financial stress using information from the report required by Section 162.821. A list of charter schools experiencing financial stress will be provided to the Governor, Speaker of the House of Representatives, and President Pro Tem of the Senate.

Parameters for financial stress are defined in the act.

By November first, the sponsor must notify the governing board of a charter school if it is identified as experiencing financial stress. The governing board must develop and approve a budget and education plan, which must be submitted to the sponsor within forty-five days. Requirements for what must be included in the plan are described in the act. The sponsor may make suggestions to improve the plan.

The Department may withhold any payment of financial aid until such time as the charter school is in compliance with these requirements.

SECTION 160.420 - In addition to existing criminal background check requirements, charter schools must ensure that a Family Care Safety Registry check is conducted for employees.

Multiple provisions are repealed because they are identical to provisions contained in Section 160.415.

SECTION 160.425 – This act creates the Missouri Charter Public School Commission. It will have nine members, all appointed by the Governor with the advice and consent of the Senate. Members will serve a term of four years, except for the initial appointees, whose terms are staggered. Commission members will be: one member selected from a slate of three candidates recommended by the Commissioner of Education; one member selected from a slate of three candidates recommended by the Commissioner of Higher Education; one member selected from a slate of three recommended by the President Pro Tempore of the Senate; a member selected from a slate of three recommended by the Speaker of the House of Representatives; and five additional members appointed by the Governor, one of which must be selected from a slate of three submitted from the Missouri School Boards Association. Operating procedures for the Commission are included.

The Commission may approve proposed charters for its sponsorship, as described in the act. The

Department of Elementary and Secondary Education must provide start-up funding for the Commission to operate, which will be reimbursed from funds the Commission receives as sponsor of any charter schools under Section 160.400.

This act is similar to HCS/HB 1228 (2012), HCS/HB 473 (2011), SCS/SBs 291, 184 & 294 (2011) and contains provisions similar to SB 838 (2010), SB 835 (2010), HB 2200 (2010), SB 317 (2009), SB 1027 (2008) and SB 64 (2009).

SB 581 – This act modifies provisions relating to school districts.

ADJUSTMENT AND APPORTIONMENT OF SCHOOL PROPERTY RELATING TO A BOUNDARY LINE CHANGE: Current law requires the school boards of school districts for which a boundary line change occurs to make a just and proper adjustment and apportionment of all school property. When an election is to occur to decide whether to change school district boundary lines under Section 162.431, this act requires the affected school districts to make a preliminary adjustment and apportionment of the districts' property at least sixty days prior to the election. If the districts cannot agree on a preliminary adjustment and apportionment, the State Board of Education must appoint a three person board of arbitration to determine the preliminary apportionment and adjustment. If the boundary line change occurs and the districts cannot agree when making the apportionment and adjustment and a board of arbitration is appointed, the board must follow the preliminary apportionment and adjustment unless new and significant circumstances exist. In such a situation, the Board of Arbitration must state in writing why it is deviating from the preliminary adjustment and apportionment. (Sections 162.041 and 162.431)

KANSAS CITY SCHOOL DISTRICT: This act allows the State Board of Education to assume responsibility and general supervision of the Kansas City School District after classifying it as unaccredited. The State Board may enter into contracts with other school districts or education providers, in order of preference as described in the act, to deliver education programs to residents of the district. Contracts will be for a period of five years and may be renewed. The State Board will create attendance boundaries for contracted portions of the district. Any district or education service provider that contracts with the State Board will have the right to employ teachers and set their compensation.

The State Board must grant waivers from the Missouri School Improvement Program to contracting school

districts for the students they serve from the Kansas City School District.

Local tax revenues of the district will be distributed to contracted portions of the district in the same ratio as the pupil count of the contracted portions to the pupil count of the entire district. In addition, state aid, as described in the act, will be distributed to contracted portions of the district in a manner consistent with the current year weighted average daily attendance of each contracted area. This act contains requirements for lease purchase of school facilities, district fund balances, and unallocated qualified school construction bonds.

This act exempts the Kansas City School District from the provisions of Section 167.131 at any time when the State Board of Education has entered into contracts with other school districts or education service providers. (Sections 162.081, 162.082 & 167.131)

RETIREMENT SYSTEMS AND RETIRED TEACHERS: Current members of the Kansas City Public School Retirement System who become employed in a contract portion of the Kansas City School District will remain members of the system. In addition, any employee currently a member of the Public School Retirement System of Missouri who becomes employed in a contract portion of the district will remain a member of that system. Retired members of either the Kansas City Public School Retirement System or the Public School Retirement System of Missouri may be employed in a contract portion of the district and will not be subject to the existing limits on hours and compensation for retired teachers who return to work.

The Joint Committee on Public Employee Retirement must contract with an actuary to conduct an actuarial audit of the Kansas City Public School Retirement System, as described in the act. (Section 162.082)

SCHOOL DISTRICT BOUNDARY LINE CHANGES: This act modifies the effective date of a boundary line change. Instead of the change being effective from the date of the election, the change would be effective at the beginning date of the next school year.

When one district votes in favor of the boundary line change and one district votes against the change and a board of arbitration is appointed by the State Board of Education to determine whether to make the change, the board of arbitration must base its decision on the current accreditation status of each affected district. The Board of Arbitration would determine the boundary line change in a manner that moves students out of unaccredited and provisionally accredited districts and into accredited districts. If each district is accredited, the Board of Arbitration must use the existing factors in the statute to make its decision.

After a boundary line change occurs, for the next three school years, the receiving district may, but will not be required to, include the statewide assessment scores for any students it receives in the district's scores.

If a boundary line change results in a charter school being located in a district other than Kansas City or St. Louis, the local school district and charter school's governing board may enter into an agreement to incorporate the charter school into the district and operate it as a regular school building of the district. If such an agreement occurs, the district must make arrangements for the charter school's students to continue attending school at that building until they graduate. The Department of Elementary and Secondary Education may grant a waiver for such a school to continue operating like a charter school while functioning as part of the district. (Section 162.431)

WEIGHTED AVERAGE DAILY ATTENDANCE FOR DISTRICTS AFFECTED BY A BOUNDARY LINE CHANGE: When a school district gains enrollment because of a boundary line change, during the two school years following the change, its weighted average daily attendance figure will be adjusted so that it receives twice the weighted average daily attendance for any students it received as a result of the boundary line change.

When a school district loses student enrollment because of a boundary line change, during the school year following the line change, it may only submit an estimate of the weighted average daily attendance for the current year. During the second year following the line change, it may submit an estimate of the weighted average daily attendance for the current year or the weighted average daily attendance for the immediately preceding year, whichever is greater. During the third year following the line change, it may submit an estimate of the weighted average daily attendance for the current year or the weighted average daily attendance for the immediately preceding year, or the weighted average daily attendance for the second preceding school year, whichever is greater. (Section 162.431)

SCHOOL DISTRICT TRUST FUND (PROP C FUNDS): When a change in school district boundary lines occurs under Section 162.431, the Department of Elementary and Secondary Education must modify the school district trust fund payments to the affected school districts during the first academic year in which the boundaries are changed to reflect the current weighted average daily attendance count. In subsequent years, districts' payments will be determined by the first preceding weighted average daily attendance count. (Section 163.087)

SB 583 - This act creates the "Economic-Education Partnership Program." If an employer with facilities in Missouri pays for the tuition or fees for an employee or an unpaid intern to pursue an associates degree, bachelors degree, masters degree, or doctorate degree in health care, engineering, or information technology related programs, this act allows the employer to retain withholding taxes on its employees for up to five years. The amount of withholding taxes that the employer may retain is limited to the amount of money the employer spent on the employee or unpaid intern's education. An employer is also allowed to retain withholding taxes on its employees if the employer trains an individual for a job in the health care, engineering, or information technology field for less than a year. The amount of withholding taxes that the employer may retain in that case is limited to the amount of money the employer paid in wages to the individual while training the individual. The total amount of money that employers can retain under this program is three hundred million dollars.

In order to participate in this program the employer is required to enter into an agreement with the Department of Economic Development that requires the employer to employ the individual upon the completion of the individual's degree or training for at least as long as the employer is authorized to retain withholding taxes under the program. The Department of Economic Development is given the authority to audit employers to ensure compliance with the program requirements.

SCS/SB 584 -This act allows the governing body of any municipality to enter into loan agreements, or sell, lease, or mortgage municipal property to private entities for the development of a technology business facility project. Municipalities include utility boards of counties, cities, towns or villages. Transactions involving the lease or rental of such properties will be exempt from state and local sales taxes and any leasehold interests on such properties will not be subject to property taxes. The act allows municipalities to sell or otherwise dispose of municipal property to private entities for technology business facility projects provided that the terms and methods utilized reasonably protect the economic well being of the municipality. Any private entity which transfers property to the municipality for purposes of a technology business facility project will reserve the right to request that the municipality transfer such property back to the entity at no cost.

This act provides state and local sales and use tax exemptions for all machinery, equipment, computers, electrical energy, gas, water and other utilities, including telecommunication and internet services, used in new data storage center facilities. The act also provides a state and local sales and use tax exemption for purchases of tangible personal property for the construction of a new data storage center facility. In order to receive the sales tax exemption provided for new data storage center facilities, an application must be made to the Department of Economic Development for certification. Such application must show that the project will result in at least thirty-seven million dollars of new facility investment and create at least thirty new jobs with wages of at least 150 percent of the county average wage over a three year period .

The act also creates a state and local sales and use tax exemption for existing data storage center facilities for all machinery, equipment, computers, electrical energy, gas, water and other utilities, including telecommunication and internet services. The exemption will only apply to the increase in expenditures for utilities over the previous year's expenditures. The exemptions for tangible property will be available only on the increase in expenditures over the average of the previous three years expenditures. In order to receive the sales tax exemption provided for existing data storage center facilities, an application must be made to the Department of Economic Development for certification. Such application must show that the project will result in at least five million dollars of new facility investment over a one year period and create at least five new jobs with wages of at least 150 percent of the county average wage over a two year period.

The Department of Economic Development and the Department of Revenue are authorized to conduct random audits to ensure compliance with the requirements for state and local sales and use tax exemptions authorized under the act.

This act is similar to a provision of Senate Bill 8 (1st Ex. Session), Senate Bill 217 (2011), and Senate Bill 868 (2010).

SB 587 – This act allows school districts and charter schools to establish and implement an age-appropriate curriculum to educate students about domestic violence. A domestic violence curriculum may contain components to raise awareness, promote healthy behaviors in relationships, allow students to identify the signs that an individual may be a victim of domestic violence, and allow students to identify behaviors associated with an abuser. A curriculum may also contain an emphasis on the primary prevention of violence perpetration.

A curriculum may also address the risk factors for perpetration of domestic violence and contain information about behavior that may occur with domestic violence. In addition, it may advise students about the physical and mental injuries that may occur. A curriculum may include information about how victims may seek assistance or how friends or family of victims may assist them.

A curriculum may also communicate the societal effects of domestic violence.

A school district or charter school may cooperate with other governmental, nonprofit, or private entities, as described in the act, to develop a curriculum.

SCS/SBs 588 & 585 - The act creates a refundable income and financial institutions tax credit which may be available for sports commissions, convention and visitors bureaus, certain nonprofit organizations, counties, and municipalities to offset expenses incurred in attracting sporting events to the state. Applicants for the tax credit must submit game support contracts to the Department of Economic Development for approval. The tax credit will be equal to the lesser of five dollars for each admission ticket sold for the event or one hundred percent of eligible expenses incurred. No more than three million dollars in tax credits may be issued per fiscal year. The tax credits are fully transferrable, provided a notarized endorsement is filed with the Department of Economic Development. The Department of Economic Development is prohibited from certifying game support contracts after August 28, 2017, but may certify game support contracts prior to such date which pertain to games to be held after August 28, 2017.

The act also creates an income, financial institutions, and corporate franchise tax credit equal to fifty percent of the amount of an eligible donation made, on or after January 1, 2012, to a certified sponsor or local

organizing committee for the purposes of attracting sporting events to the state. The tax credit may not be applied against withholding taxes. The tax credit is non-refundable, but may be carried forward four years. The tax credit is transferable. Certified sponsors and local organizing committees may apply to the Department of Economic Development for the tax credits. Applications for tax credits must be accompanied by payment in an amount equal to the tax credits requested. The Department of Economic Development is prohibited from issuing more than ten million dollars in tax credits each fiscal year. The provisions of this act shall automatically sunset six years after August 28, 2012, unless reauthorized.

This act is similar to a provision of SB 8 (1st Ex. Session 2011), SS/SB 203 (2011), SB 840 (2010), and HB 1786 (2010).

SB 590 - All public elementary and secondary schools shall determine whether enrolling students are born outside of the United States or are children of an unlawfully present alien at the time of enrollment by checking students' original birth certificates or certified copies thereof. If it is determined that a student was born outside of the United States or is the child of an unlawfully present alien, the parent or guardian shall notify the school of the actual citizenship or immigration status of the child with accompanying documentation.

The State Board of Education shall compile and submit an annual report to the General Assembly containing information regarding immigration classifications of enrolled students, numbers of participants in English as a second language programs, and the effects of education quality as a result of enrollment of unlawfully present aliens and the costs associated. Public disclosure of information which personally identifies a student shall be unlawful.

Upon any lawful stop, detention, or arrest, law enforcement shall determine the citizenship and immigration status of the person if there is reasonable suspicion that the person is an unlawfully present alien. If an alien is determined by the federal government to be unlawfully present, the law enforcement agency shall cooperate in the transfer of the alien into federal custody.

The act creates a Class C misdemeanor crime of willful failure to complete or carry an alien registration document if the person is unlawfully present and in violation of 8 U.S.C. 1304 or 8 U.S.C. 1306 which requires certain persons to carry alien registration documents, apply for alien registration, and be fingerprinted.

SCS/SB 591 - Currently, county assessors are required to use the trade-in value published in the October issue of the National Automobile Dealers' Association Official Used Car Guide as the recommended guide for information for determining the value of motor vehicles for personal property tax purposes. This act requires a county assessor to use the lowest trade-in value published in the October issue of one nationally-recognized guide for establishing the value of motor vehicles. This guide will be approved by the State Tax Commission in conjunction with the association representing the majority of assessors in Missouri. The State Tax Commission is also required to approve four additional guides for establishing the value of motor vehicles. If the owner of a motor vehicle presents evidence that any of the four other approved publications has a lower applicable trade-in value, the assessor is required to use that value.

The assessor has the burden in an appeal before the board of equalization to prove that the owner's evidence of a lower published trade-in value from one of the approved publications does not demonstrate the true value of the motor vehicle.

SS/SCS/SB 592 - Currently, under the Missouri Human Rights Act (MHRA), a practice is unlawful when the protected trait is a contributing factor in the decision to discriminate. This act changes that standard to a motivating factor standard except in adverse impact cases. In those cases, states shall follow federal anti-discrimination law.

Currently, persons acting in the interest of employers are considered employers under the MHRA and are liable for discriminatory practices. This act modifies the definition of employer to exclude those individuals. The act similarly excludes individuals employed by employers, and tax exempt private membership clubs (that are not labor organizations) from the definition.

Parties to a discrimination case under the MHRA may demand a jury trial.

The court may award the plaintiff actual and punitive damages, and court costs and attorneys fees to the prevailing party. Damages may include future pecuniary losses, emotional pain, suffering, inconvenience, mental anguish, loss of enjoyment of life and other nonpecuniary losses.

Damages awarded for employment cases under the MHRA and whistleblower actions shall not exceed back pay, interest on back pay, other equitable relief, court costs, and fees of \$50,000 and \$50,000 for employers with between 5 and 100 employees, \$100,000 for employers with between 100 and 200 employees, \$200,000 for employers with between 200 and 500 employees, or \$300,000 for employers with more than 500 employees. Punitive damages shall not be awarded against the state of Missouri or political subdivisions in MHRA cases except for in discriminatory housing practices cases. The damage caps shall not apply in housing cases.

The act abrogates all Missouri case law relating to the public policy exceptions to the employment at-will doctrine. Employers

are barred from discharging the following persons:

- a person who reports an unlawful act of the employer or its agent to governmental or law enforcement agencies, officer, or the employee's human resources representative employed by the employer;
- a person who reports serious misconduct of the employer or its agent that violates a clear mandate of public policy as articulated in a constitutional provision, statute, regulation promulgated pursuant to statute, or a rule created by a governmental body;
- a person who refuses to carry out a directive issued by an employer or its agent that, if completed, would be a violation of the law;
- or a person who engages in conduct otherwise protected by statute or regulation.

This act is similar to HB 1456 (2006), SB 168 (2007), SB 1046 (2008), HB 799 (2009), HB 227 (2009), SB 374 (2009), HB 1488 (2010), and SB 852 (2010), SB 188 (2011), and HB 1219 (2012).

SCS/SB 595 – This act transfers the administration of special education due process hearings from the State Board of Education to the Administrative Hearing Commission. This act prohibits commissioners who conduct due process hearings from having previously worked for a school district, an organization engaged in special education parent and student advocacy, the State Board of Education, or the Department of Elementary and Secondary Education, either as an employee or as an independent contractor or consultant, within the last five years. A commissioner also cannot have performed work as a special education advocate within the last five years or been a party to a special education proceeding as a parent or child. The Administrative Hearing Commission cannot grant summary judgment with a special education due process hearing. The Administrative Hearing Commission must conform to all practices, procedures, filing deadlines,

and response times of the Individuals With Disabilities Education Act when conducting due process hearings.

At least three of the commissioners must be trained in special education law, who will be the only commissioners to hear special education matters. The initial training must be selected by the Administrative Hearing Commission in consultation with the Department of Elementary and Secondary Education and the IDEA-funded parent training and information center, as described in the act. Each commissioner assigned to special education matters must complete at least five additional hours of training each year. In addition, training sessions must be recorded and posted on the Administrative Hearing Commission's website, as described in the act.

When a commissioner renders a final decision, it cannot be amended or modified.

*** SB 596 ***

SCS SB 596

4925S.02C

SENATE SPONSOR: Brown

SCS/SB 596 - Currently, contracts for public construction are barred from containing provisions that require or prohibit the parties from entering into agreements with labor unions on the project or discriminate against parties for doing so when the project is funded by greater than 50% of state funds. Under this act, the same requirements shall apply to contracts funded in any amount with public funds. The act defines "public funds" to include funds belonging to the state, any agency of the state, or any instrumentality or political subdivision thereof.

The act redefines "project labor agreement" to apply to agreements for projects of agencies and instrumentalities of the state. The act bars the usage of such agreements on all public construction projects in the state.

Standing to seek equitable relief and monetary damages for violations of the laws relating to state purchasing and printing are established.

The act also modifies Missouri law relating to the prevailing wage.

Prevailing wage laws shall not apply in any county that receives federal disaster assistance under a federal disaster declaration for projects undertaken as a result of the disaster.

The definition of "construction" only includes new construction, enlargement, or major alteration. Reconstruction, improvement, painting and decorating, and major repair are no longer considered construction for the purposes of prevailing wage.

Under current law, a locality, for the purposes of determining the prevailing wage for an occupational title, may encompass two or more counties adjacent to the one in which the construction is to be performed in certain instances. This act only allows the county in which the work is to be performed to be used as a basis for determining the prevailing wage.

Under current law, prevailing wage in a locality is determined by the Department of Labor to be the hourly rate for a particular occupational title by means of wage surveys. This act repeals this provision and establishes that the prevailing wage for a locality shall be the median hourly estimated wage of the construction and extraction occupational code most closely resembling the occupational title as published in the Metropolitan and Non-Metropolitan Area Occupational Employment Wage Estimate published by the United States Bureau of Labor Statistics, or the median hourly wage estimate for occupational code 47-0000 in the construction and extraction occupational code if the former cannot be determined.

Under current law, when the Department of Labor finds a violation of the prevailing wage statutes, it provides a notice of penalty to the employer. This act changes references to "notices of penalty" to "notices of violation".

Under current law, prevailing wage penalties are not due until 45 days after the date of the notice of the penalty. This act removes that provision.

Under current law, if employers pay backwages before the department initiates an enforcement action to enforce monetary penalties, the department is precluded from initiating such an enforcement action. Under the act, the department is also precluded from initiating any administrative, civil, or criminal action and the employer shall not appear on the notice of conviction list that would otherwise bar the employer from participating in public works construction.

Under current law, the prevailing wage for each title may be adjusted in response to fluctuations in wages due to collective bargaining agreements. Those adjustments shall not be allowed under this act.

Provisions requiring contractor and subcontractor signage on motor vehicles and other motorized equipment and imposing a six month term of imprisonment on those violating the prevailing wage laws are removed.

This act is similar to SB 175 (2011), SB 176 (2011), SB 468 (2012), SB 439 (2012).

SB 597 - Under this act, The Missouri-St. Louis Metropolitan Airport Authority is given the responsibility for the operation of the Lambert-St. Louis International Airport beginning on January 1, 2015. The City of St. Louis shall continue to own the airport (Section 305.510). The authority shall honor all bonds, debts and employee pension plans of the former airport authority (Section 305.510).

The act changes the manner in which members of the authority are appointed. Current law requires the Governor to appoint four members; St. Louis City to appoint three members; St. Louis County to appoint three members; and the counties of Jefferson, Franklin, and St. Charles to appoint one member each, for a total of 13 members. Under the terms of this act, the mayor of St. Louis City, the county executive of St. Louis County, the county executive of St. Charles County and the county commissions of Jefferson and Franklin Counties shall each appoint one member of the authority for each 130,000 residents in the city or county according to the latest decennial census. In no event shall any appointing authority for a city or county appoint a majority of the members of the authority. The first, third, and fifth members initially appointed by an appointing authority shall be appointed for a term of four years. The second, fourth, and sixth initial members shall be appointed for a term of two years. Appointments subsequent to the initial appointments shall be for a term of four years. Each member shall be subject to removal by the appointing authority (Section 305.515).

This act also states that the City of St. Louis may continue taxing businesses conducting activities within the St. Louis Metropolitan Airport (Section 92.045). Any profit from the operation of the airport shall continue to be received by the City of St. Louis (Section 305.510).

This act requires the authority and the city of St. Louis to enter into negotiations regarding certain employee issues beginning April 1, 2015 (Section 305.572).

This act is similar to HB 1244 (2004), SB 564 (2003), SCS/SB 1062 (2002) and SB 469 (2001).

This act has an effective date of January 1, 2015.

SB 601 - This act allows teachers in the St. Louis City School District who have a permanent appointment to be removed based on incompetency.

This act repeals the requirement that a notification of written charges seeking dismissal received during a vacation period be considered as received on the first day of the following school term.

Currently, to be dismissed for inefficiency in the line of duty, a teacher must be notified in writing at least one semester prior to the presentment of charges. This waiting period is shortened to thirty days and will also apply to incompetency. Upon receipt of the charges, the superintendent, or his or her representative, and the teacher must meet and confer in an effort to resolve the matter.

This act removes the prohibition on new teachers being hired while available teachers have been placed on leave of absence due to a reduction in force because of insufficient funds or a decrease in student enrollment. A leave of absence because of a reduction in force will not impair the tenure of a teacher and may continue for up to three years, unless extended by the school board.

This act repeals a provision governing how a reduction in force based on insufficient funds or a decrease in student enrollment would be conducted for non-certified employees in the St. Louis City School District.

SENATE SPONSOR: Green

SB 602 - This act imposes various regulations (hours of operation, driver alcohol and drug testing, review and maintenance of driving records, maintenance and repair standards on transport vehicles, liability insurance standards, etc.) on contract carriers that transport railroad employees.

DRIVER QUALIFICATION FILE - Under the terms of this act, a contract carrier must maintain a driver qualification file for each driver it employs. The act sets forth what the driver qualification file must include. For example, the file must include a certificate of physical examination conducted by a physician every 2 years that certifies the physical ability of the driver to operate a commercial motor vehicle and any documentation related to the driver's violation of motor vehicle laws or ordinances

DRIVER DISQUALIFICATIONS BASED UPON DRIVING RECORD - Under the terms of the act, a driver shall be disqualified from driving for a contract carrier if the driver has committed two or more serious traffic violations within a three-year period. The act defines what constitutes a serious traffic violation.

HOURS OF OPERATION - Under this act, contract carriers shall not allow drivers to be on duty for more than 10 hours after eight consecutive hours off duty; 15 hours of combined on-duty time and drive time since last obtaining eight consecutive hours of off-duty time; or for more than 70 hours of on-duty time in a period of eight consecutive days. Contract carriers must keep accurate reports of drivers on-duty and off-duty time periods for at least six months.

ALCOHOL AND DRUG TESTING - Before any driver performs any duties for the contract carrier, the driver must undergo testing for alcohol and controlled substances as provided under federal regulations. A driver is disqualified to drive if the individual fails certain drug and alcohol testing requirements; refuses to provide a specimen for an alcohol test result or controlled substances test result or both; or submits an adulterated specimen, a dilute positive specimen, or a substituted specimen on an alcohol test result or the controlled substances test result that is performed. A common carrier or the employer must maintain records of the alcohol testing and controlled substances testing of drivers for a period of five years. Contract carrier must conduct drug and alcohol testing on drivers involved in certain types of accidents and submit the results to the Department of Transportation.

MOTOR VEHICLE INSPECTIONS - If a contract carrier uses a commercial motor vehicle for passenger transportation, the contract carrier shall perform an inspection on the commercial motor vehicle and its components at least one time in every twelve-month period in compliance with federal rules. Under the act, a drivers must complete a written motor vehicle report upon completion of each day's work on the motor vehicle that the driver operated.

MAINTENANCE AND REPAIR - Under the act, a contract carrier must establish a maintenance and repair program. A contract carrier's maintenance and repair program must include checking parts and accessories for safety and proper operation at all times and overall cleanliness of the motor vehicle. The act sets forth what the motor vehicle must have (spare tire, emergency road kit, first aid kit, etc.). A contract carrier must maintain records for its maintenance and repair program for each motor vehicle. The records must be maintained by the contract carrier at its place of business for one year. If the motor vehicle leaves the contract carrier's control, the records shall be maintained by the contract carrier at its place of business for six months.

ACCESS TO FACILITIES AND RECORDS - Contract carriers must allow employees of the Missouri

department of transportation access to their facilities and records to determine compliance with the act.

INSURANCE - The act requires each contract carrier to obtain and maintain an insurance policy of \$5,000,000 for each motor vehicle that transports railroad employees.

CIVIL PENALTIES - Under the act, any person, corporation, or entity who violates any provision of the act shall be subject to a civil penalty in an amount of not more than two thousand dollars for each offense or violation.

RULEMAKING AUTHORITY - The act authorizes the Missouri Highways and Transportation Commission to promulgate rules and regulations to implement and administer the provisions of the act.

EMERGENCY CLAUSE - The act contains an emergency clause.

This act is virtually identical to SB 107 (2011) and SB 762 (2010).

SB 603 - This act creates a system to allow voters to cast advance ballots at central voting locations and satellite sites. The advance voting period will begin the third Wednesday prior to an election and shall be conducted between 7:00 a.m. and 7:00 p.m. and until 12:00 p.m. on Saturdays. The election authority shall consider factors including geographic location and demographics of the registered voters from the previous election to ensure nondiscrimination and provide adequate notice of the central locations and the satellite sites that are chosen.

Election authorities shall create lists of names and addresses of each voter casting an advance ballot and such lists shall be confidential until 8:00 a.m. on the Friday before the election. Upon expiration of the confidential period, authorized individuals are entitled to view the lists and the election authority may make copies of the lists available to those individuals for a fee. A violation of confidentiality is a class four election offense. Provisions regarding advance voting become effective January 1, 2013.

This act is similar to SB 859 (2006), SB 37 (2007), SB 1251 (2008), SB 523 (2009), SB 21 (2009), SB 651 (2010), SB 3 (2011), and SB 105 (2011).

SS/SB 607 - Under this act, on the date the Highways and Transportation Commission approves funding for any phase or portion of construction or reconstruction of any street or highway, the rules in effect for outdoor advertising on August 27, 1999, shall be reinstated for that section of highway scheduled for construction and there shall immediately be a moratorium imposed on the issuance of state sign permits for new sign structures.

Owners of existing signs which meet the requirements for outdoor advertising in effect on August 27, 1999, and the requirements of the federal/state agreement and who voluntarily execute a partial waiver and reset agreement may reset such signs on the same or adjoining property. Such reset agreements shall be contingent upon obtaining any required local approval to reset the sign structure. Any sign which has been reset must still comply with the August 27, 1999, outdoor advertising regulations after it has been reset.

Owners of existing signs who elect to reset qualifying signs shall receive compensation representing the actual cost to reset the existing sign. Signs which have been reset under the act must be reconstructed of the same type materials and may not exceed the square footage of the original sign structure.

Sign owners may elect to reset existing qualifying signs by executing partial waivers and reset agreements with the commission.

Upon the completion of construction on any section of highway, the moratorium on new permits shall be lifted and the rules for outdoor advertising in effect on the date the construction is completed shall apply to such section of highway.

Local zoning authorities may prohibit the resetting of qualifying signs which fail to comply with local regulations.

The act requires all signs to be subject to biennial inspection fees.

This act is similar to SB 120 (2011), HB 2097 (2010) SB 704 (2010), and SCS/SB 57 (2009).

SENATE SPONSOR: Wasson

SB 608 - This act establishes the Missouri Health Insurance Exchange, the "Direct Payment Stop Loss Fund", and creates administrative procedure to collect unpaid medical claims.

DEFINITIONS - The act sets forth the definitions that govern Sections 376.1600 to 376.1642 (Missouri Health Insurance Exchange)(Section 376.1600).

ESTABLISHMENT OF THE MISSOURI HEALTH INSURANCE EXCHANGE - This act creates and establishes the Missouri Health Insurance Exchange through which eligible individuals and employer-groups can purchase health insurance. The exchange is created as a body corporate for the purpose of facilitating the availability, choice and adoption of private health insurance plans to eligible individuals and groups. The exchange will serve as a point of entry to determine eligibility to receive health plan benefits for Missouri residents, employers located in Missouri and their employees, students attending institutions of higher learning, and all other eligible individuals seeking to obtain health insurance coverage (Section 376.1603).

MISSOURI HEALTH INSURANCE EXCHANGE BOARD - The exchange will be administered by an exchange board. The exchange board shall be comprised of 9 members (director of Department of Insurance, commissioner of the Office of Administration, director of Department of Health and Senior Services, and 6 members appointed by the Governor. The members shall annually elect a chair and vice-chair (Section 376.1606).

EXCHANGE DIRECTOR - The board shall appoint an exchange director who shall serve at the pleasure of the board. The exchange director shall be responsible for administering all of the exchange's activities and contracts and supervising all of the exchange's staff. The exchange director will receive compensation as established by the board (Section 376.1606.5).

POWERS OF THE EXCHANGE BOARD - The exchange board is authorized and empowered to:

- (1) Administer all of the exchange's activities and contracts;
- (2) Establish procedures for operations of the exchange;
- (3) Prepare an annual budget for the exchange;
- (4) Enter into contracts with public or private entities to carry out the duties of the exchange, including contracts to administer applications, eligibility verification, enrollment, and premium payments for specific groups or populations. No organization that enters into a contract with the exchange shall be a carrier that offers plans through the exchange. The exchange shall not have the authority to enter into contracts with healthcare providers;
- (5) Take any legal action necessary or proper on behalf of the exchange;
- (6) Hire or contract with appropriate legal, actuarial, administrative personnel, and other advisors to provide technical assistance in the management and operation of the exchange;
- (7) Establish and execute a line of credit, and establish one or more cash and investment accounts to carry out the duties of the exchange;
- (8) Establish and collect administrative fees from carriers based on the number of persons covered by the plans or plans offered through the exchange by the carrier sufficient to fund the costs of administering the exchange;
- (9) Apply for grants from public and private entities;
- (10) Contract with sponsoring employers of participating employer-subsidized plans to act as the plan's administrator;

(11) Establish procedures for the enrollment of eligible individuals, groups and other enrollees; and
(12) Establish and manage a system for collecting premium payments made by, or on behalf of, individuals obtaining health insurance coverage through the exchange, including any premium payments made by enrollees, employers, or other organizations and any premium subsidies, and transmitting such payments to the chosen plans (Section 376.1609).

DUTIES OF EXCHANGE DIRECTOR - The act sets forth the various duties the exchange director must carry out. For instance, the exchange director shall provide information on the exchange to applicants, enroll eligible individuals, create application forms, establish a website in which individuals can examine health insurance options, and publicize the existence of the exchange (Section 376.1612).

SERVICE CENTER - The act requires the exchange director to establish and administer at least one service center to provide information to applicants (Section 376.1615).

OPERATING EXPENSES OF THE EXCHANGE - All operating expenses of the exchange shall be paid from funds collected by or on behalf of the exchange. The accounts of the exchange are special fund accounts and the money in the accounts are not part of the general revenue fund of Missouri. The state may not provide general fund appropriations to the exchange and the obligations of the pool are not a debt of the state or a pledge of its credit. The assets of the exchange shall be exempt from taxation by the state and local government (Section 376.1618).

PARTICIPATION OF PLANS IN THE EXCHANGE - The exchange will offer to participating individuals only plans that have been certified by the director of the Department of Insurance. To be able to offer a plan through the exchange, a carrier must be licensed to issue health insurance in Missouri and be in good standing with the department of insurance.

Prior to the exchange's initial open enrollment period, the board shall establish the types of health benefit plans that carriers must offer through the exchange. The development of the plan designs shall be based upon recommendations made by advisory committee composed of a carrier representative that issues individual policies, a carrier representative that issues plans to small employers, an actuary, and three experts who are experienced in designing health benefit plans. The advisory committee shall recommend the types of coverage options and the number of plan designs to be offered through the exchange. Each carrier may offer any of the following types of plans through the exchange:

- (1) Consumer-driven health benefit plans (high deductible policies coupled with HSAs or a health reimbursement arrangement;
- (2) A limited mandate policy; and
- (3) An enriched plan similar to a plan offered to state employees or other similar quality.

All plans offered by a carrier shall be for a term of at least one year, and may be automatically renewed in the absence of a notice of termination by the plan or notice by the director that the plan is no longer certified as eligible to be offered through the exchange. Each plan certified by the director shall contain a detailed description of benefits offered, including maximums, limitations, exclusions, and other benefit limits. Carriers shall offer plans through the exchange at rates based upon age, geography, health lifestyle considerations and family composition that are actuarially sound. The act requires carriers to notify the director before discontinuing a plan.

The exchange shall begin offering health benefit plans beginning January 1, 2014 (Section 376.1621).

ELIGIBLE INDIVIDUALS - The act provides that "eligible individuals" may receive coverage through the exchange. Eligible individuals are:

- (1) Missouri residents;
- (2) Non-Missouri residents who work at least 20 hours in a Missouri business that does not offer its workers group health insurance;
- (3) Individuals enrolled in, or is eligible to enroll in, a participating employer-subsidized plan;
- (4) Self-employed individuals whose principal place of business is in Missouri;
- (5) Full-time students attending a Missouri institution of higher education; or
- (6) Qualified dependents (Section 376.1624).

ENROLLMENT AND COVERAGE SELECTION - Participating individuals will be able to obtain or change

coverage under a participating plan during an annual open season or upon the occurrence of a qualifying event (e.g. marriage, divorce, death of a spouse, birth, adoption, change in employment, etc.). The act requires the exchange to administer an open enrollment season every year (Section 376.1627).

UNDERWRITING AND GUARANTEED ISSUE COVERAGE - The act provides for guaranteed issue of coverage at standard rates to all persons enrolled in the exchange as part of a participating employer-group and to individuals with 18 or more months prior creditable coverage. Under the act, issue of coverage through the exchange is guaranteed at standard rates to those joining it as part of an employer group and to individual enrollees with 18 months of creditable or more of creditable coverage.

GROUP - Individuals who enroll in the exchange as part of a participating employer subsidized plan will be able to obtain coverage at standard rates, regardless of previous coverage (Section 376.1630(8)).

NONGROUP - During the open regular open season, individuals who enroll in the exchange directly as individuals will be able to obtain coverage at the plan's standard rates if the individuals have at least 18 months of coverage. The plan cannot impose any waiting periods or coverage exclusions or deny coverage to such individuals (Section 376.1630(1) and (2)).

Individuals with less than 18 months of prior creditable coverage are also guaranteed issued coverage, but the health care plan may elect certain rating surcharges and/or pre-existing exclusions until such time the individuals have obtained 18+ months of creditable coverage through the exchange. Individual enrollees with 2 to 17 months of prior creditable coverage may be charged premiums of up to 125% of the standard rate. An individual with less than 2 months of prior creditable coverage may be charged premiums of up to 150% of the standard rate. As to preexisting conditions, the plan may impose one or more preexisting condition provisions, for a period not to exceed 12 months, reduced by the number of months of creditable coverage (Section 376.1630(3) and (4)).

The guaranteed issue provisions only apply during the specified election periods (annual open season and whenever an individual's change of status triggers an ERISA right to switch coverage).

Under the act, an individual shall be able to enroll at the standard rates without preexisting condition provisions if the individual becomes a participating individual due to:

- (1) Enrollment in a participating employer-subsidized plan;
- (2) Qualification as a federal health coverage tax credit eligible individual; or
- (3) Becoming a newly qualified dependent of another participating individual through birth, adoption, or court ordered custody or legal guardianship (Section 376.1630).

PORTABILITY AND CONTINUATION OF COVERAGE - Under the act, any participating individual may continue to participate in the exchange for as long as he or she remains an eligible individual, regardless of any change in employment, family status, health status, age, membership in any organization, or other circumstances that does not affect the individual's ability to participate in the exchange. Any non-resident participating individual who ceases to be eligible to participate in the exchange by reason of a qualifying event (e.g. employment termination, divorce, loss of dependent status, etc.) will be permitted to continue participation in the exchange for up to 36 months, on the same terms as other participating individuals, regardless of the loss of eligibility (Section 376.1633).

PARTICIPATING EMPLOYER PLANS (EMPLOYER GROUPS) - Any employer may enter into an agreement with the exchange to be the sponsor of a participating employer-subsidized plan. Under such an arrangement, the exchange director shall become the plan's administrator for the employer's group health plan.

The employer reserves the right to offer supplemental benefits (vision care, dental care, long-term care, etc.), but the exchange director shall not be the plan administrator for any such supplemental plans or benefits. Under the act, the employer retains the right to determine the criteria for eligibility, enrollment, and participation in the participating employer-subsidized plan and the terms and amounts of the employer's contributions to that plan. Under the terms of the arrangement, the employer must participate in a cafeteria plan under 26 U.S.C. §125 (Section 376.1636).

PRODUCER COMMISSIONS - The act allows insurance producers to apply to the exchange on behalf of an employer seeking to sponsor a participating employer plan through the exchange. If the exchange enrolls individuals eligible for benefits under the terms of that participating employer plan, then the participating plan

chosen by the individual shall pay the insurance producer that applied to the exchange on behalf of that employer the commission provided for by the act. Under the act, the director must determine the amount of the standard commission paid to licensed insurance producers and other qualified entities for enrolling eligible individuals in the exchange. The amount of the commission shall be in an amount the director determines to be reasonable, based on commissions that are paid in the relevant market and other factors the director deems relevant (Section 376.1638).

DIRECT PAYMENT STOP LOSS FUND - The act establishes the "Direct Payment Stop Loss Fund", to be administered by the director or the department of insurance. The direct payment stop loss fund shall be a fund from which carriers offering participating plans through the Missouri health insurance exchange may receive reimbursement, to the extent of funds available therefore, for claims paid by such carriers for participating individuals covered under the exchange. Commencing January 1, 2014, carriers offering participating plans through the exchange shall be eligible to receive reimbursement from the direct payment stop loss fund for 70% of claims paid between \$50,000 and \$100,000 in a calendar year for any participating individual covered under a participating plan issued through the exchange.

Claims shall be reported and funds shall be distributed on a calendar year basis. Claims shall be eligible for reimbursement only for the calendar year in which the claims are paid. Once claims paid on behalf of a participating individual reach or exceed \$100,000 in a given calendar year, no further claims paid on behalf of such participating individual in such calendar year shall be eligible for reimbursement. Claims paid within a calendar year shall be determined by the date of payment rather than date of service or date the claim was incurred. No participating carrier shall delay or defer payment of a claim solely for the purpose of causing the date of payment to fall into a subsequent calendar year. Participating carriers shall not be entitled to any reimbursement on behalf of a participating individual if the claims paid on behalf of that member in a given calendar year do not, in the aggregate, reach the applicable claims threshold. Additionally, claims paid on behalf of a covered member that exceed the claims corridor in a given calendar year shall not be eligible for reimbursement from the fund.

In the event that the total amount requested for reimbursement by all carriers for a calendar year exceeds funds available for distribution for claims paid by all carriers during that same calendar year, the director shall provide for the pro-rata distribution of the available funds. Each carrier shall be eligible to receive only such proportionate amount of the available funds as the individual carrier's total eligible claims paid bears to the total eligible claims paid by all carriers. In the event that funds available for distribution for claims paid by all carriers during a calendar year exceeds the total amount requested for reimbursement by all carriers during that same calendar year, any excess funds shall be carried forward and will not affect monies appropriated for the direct payment stop loss fund in the next calendar year.

The act allows the director to obtain the services of an organization to administer the direct payment stop loss fund. The director shall establish guidelines for the submission of proposals by organizations for the purposes of administering the fund. The director shall make a determination whether to approve, disapprove or recommend modification to the proposal of an applicant to administer the fund. An organization approved to administer the fund shall submit reports to the director in such form and at times as may be required by the director in order to facilitate evaluation and ensure orderly operation of the fund, including, but not limited to an annual report of the affairs and operations of the fund, such report to be delivered to the director, the house budget committee chair, and the senate appropriations committee chair.

If the director deems it appropriate for the proper administration of the direct payment stop loss fund, the administrator of the fund, on behalf of and with the prior approval of the director, shall be authorized to purchase stop loss insurance and/or reinsurance from an insurance company licensed to write such type of insurance in this state.

Under the act, the director must submit an annual report to the general assembly evaluating the effectiveness of the direct stop loss fund. The report shall include any recommendations that the director deems relevant. The report, however, shall contain recommendations whether the reinsurance threshold or attachment point delineated in this section shall be lowered and the reinsurance corridor be expanded to lower premium costs and assist carriers with combating adverse selection or whether the threshold should be increased in order to protect the solvency of the fund (Section 376.1642).

STATEMENT OF COVERAGE FORM - This act requires all Missouri employers to annually file with the director of Department of Insurance a form for each employee indicating the health insurance coverage status of the employee and his or her dependants. Similar requirements are made of self-employed individuals and

the Department of Social Services with respect to individuals covered under governmental programs (Section 376.1850).

PERSONAL RESPONSIBILITY - The act also requires persons between the ages of 18 to 65 to offer proof of their ability to pay for medical care. They can either show proof of insurance as required in the statement of coverage provision or show proof of financial responsibility by presenting a bond in the amount of \$10,000 to the Department of Revenue or establishing an escrow account with the department in the same amount. If the director of the Department of Revenue received information that a person has failed to pay a hospital or other medical claim, the director shall establish an escrow account in the person's name and shall deposit in the account all moneys that be payable from the state (overpayment of taxes, etc.) to that person. Alternatively, the director can obtain an order of attachment on the person's wages. The director may disburse moneys from the escrow account to pay for medical claims when the individual is not in compliance with the act. The act further provides that any judgment payable by an individual to a health care provider for charges during a period that the individual failed to maintain financial responsibility shall include an order permitting the attachment of the person's wages to satisfy the judgment. The act allows health care providers to file a claim with the director through an administrative process to receive moneys from the escrow account or to seek a garnishment action (Section 376.1852).

This act is virtually identical to SB 556 (2007).

SB 609 - This act modifies principles of comparative fault that apply to certain lawsuits. The act eliminates joint and several liability and provides that a defendant is only liable for the amount of damages allocated to that defendant in direct proportion to that defendant's percentage of fault.

The act requires a court to multiply the total amount of damages recoverable by the plaintiff with regard to each defendant by the percentage of each defendant's fault. That amount the maximum amount recoverable against that defendant.

The act requires the judge or jury to consider the fault of all people who contributed to the injury or damages in assessing percentages of fault, including people who are not parties to the lawsuit. When fault is assessed against people who are not parties in the lawsuit, this assessment cannot be introduced as evidence of liability in any court case.

This act is identical to SB 211 (2011) and similar to HB 364 (2011).

SCS/SB 615 - Under current law, anyone who possesses a license to sell liquor in the original package may apply for an additional license to sell liquor on Sundays from 9 a.m. until midnight. In addition, various laws give certain specified establishments, such as airline clubs, places of amusement, and restaurant bars, the opportunity to apply for a license to sell liquor by the drink at retail on Sundays.

This act allows any liquor license holder to apply for a license to sell liquor at retail on Sundays from 9 a.m. until midnight except certain establishments in St. Louis and Kansas City that can apply for such licenses under different statutory authority. The statutory authority for such establishments in St. Louis and Kansas City is modified so that they do not have to serve food in addition to liquor.

The cost of the general Sunday license is \$200. In addition, this act repeals statutes that allowed Sunday liquor licenses for specific types of license holders because those licensees can apply for the Sunday license under this act.

Opening times for other establishments that have a license to serve liquor seven days a week are changed to 9 a.m.

In addition, caterers who have a special license to sell intoxicating liquor by the drink at retail may also sell intoxicating liquor in the original package under this act.

This act reduces from 45 to 20 the different types of draft beer that a restaurant bar without an on-site brewery must serve in order to sell 32 fluid ounces or more of such beer to customers for consumption off the premises of such bar.

In addition, this act allows holders of a license to sell alcohol by the drink at retail to utilize table tap dispensing systems at their establishments. These dispensing systems allow patrons, upon the authorization of an employee at the establishment, to dispense their own beer. Only 32 ounces of beer per patron may be dispensed per authorization. No law or rule shall be interpreted as allowing distributors, manufacturers, or wholesalers to furnish or service such dispensing systems.

This act contains provisions identical to SB 31 (2011).

SB 616 - On or after January 1, 2013, every insurer authorized to write homeowners' insurance within Missouri shall make available, for an appropriate additional premium, coverage for sinkhole losses on any structure, including contents of personal property contained therein, to the extent provided in the policy to which the sinkhole coverage attaches. Sinkhole insurance coverage may be offered as part of the underlying insurance policy or as an endorsement or rider.

If a homeowner's insurance policy excludes coverage for sinkhole losses, the insurer must inform policyholders in bold type of not less than 14 points as follows:

"YOUR POLICY DOES NOT PROVIDE COVERAGE FOR SINKHOLE LOSSES. YOU MAY PURCHASE ADDITIONAL COVERAGE FOR SINKHOLE LOSSES FOR AN ADDITIONAL PREMIUM."

SB 619 - This act modifies Missouri's valued policy law statute. Under current law, Section 379.140 applies to loss or damage by fire. In the event of a total loss, the insurer must pay the total amount of the policy less the depreciation of the property between the time of the issuance of the policy and the loss. In a partial loss, the insurer must pay the comparable percentage of the total value as the damaged part bears to the whole property. This act modifies this statute so that applies to loss or damage by any peril covered under the terms of the policy, not just fire.

This act is identical to HB 1124 (2012).

SB 620 - This act amends Section 376.010 to allow life insurers licensed in Missouri to write limited amounts of non-life business outside of the United States, subject to specified limitations. Primarily, a Missouri domestic life insurance company may only write or assume such business if it is written outside of the United States. Additionally, such exposure may only be written or assumed as a rider attached to a base life insurance policy. Finally, the domestic insurance company's exposure to such business is capped based upon the insurance company's annual premium, which shall be not more than 3% of the prior year's capital and surplus (Section 376.010).

The act also permits a Missouri-domiciled insurance company to write or assume involuntary unemployment insurance in connection with group life insurance business as well as credit insurance business, but only to the extent that such business is written or assumed outside of the United States (Section 376.015). The act also "cleans-up" an insurance investment statute by inserting a number of commas in Section 376.307 which were inadvertently omitted in a bill passed in 2007 (Section 376.307).

SS/SCS/SB 621 - This act requires the Department of Health and Senior Services to review and revise its regulations governing hospital licensure and enforcement to promote efficiency and eliminate duplicate regulations and inspections by or on behalf of the state and federal agencies.

The department is also required to adopt regulations that require among other things: (1) Specific findings of deficiencies to refer to the specific written and publicly available standard that is the basis of the finding; (2) Consistency with the federal Centers for Medicare and Medicaid Services' (CMS) Conditions of Participation; (3) A process and standards to determine if a complaint warrants an onsite investigation; (4) Limits to a complaint investigation performed by the department to the specific regulatory standard raised by the complaint, unless there is a documented immediate and serious threat, as defined directly and through interpretive guidelines included in hospital licensure regulations; and (5) A process to provide a hospital with a report of all complaints made against it.

The department shall also designate adequate and sufficient consultation and staffing resources to facilitate the required annual inspection of hospitals for licensure. The department shall also accept a hospital inspection report from the CMS-approved organizations in lieu of the department's or other governmental organization's annual inspection report and also shall accept such hospital inspection report for licensure purposes if the accreditation inspection was conducted within 3 years, rather than 1 year, of the most recent license renewal. This act also limits the scope of a good cause departmental inspection to the specific regulatory standard raised by the complaint.

A hospital and its staff shall have the opportunity to participate at least annually in training sessions provided to state licensure surveyors and in the training of surveyors assigned to the inspection of hospitals to the fullest extent possible.

This act also establishes specific timelines identical to those in CMS's State Operations Manual for state hospital officials to respond to a hospital regarding the status and outcome of pending investigations and possible regulatory action.

These provisions are substantially similar to HB 1123 (2012) and substantially similar to HCS/HB 579 (2011).

SB 622 - This act requires a health carrier that offers or issues plans which are issued or renewed on or after January 1, 2013, that provide coverage for prescription eye drops, to provide coverage for refilling the eye drop prescription prior to the last day of the insured's dosage period without regard to a restriction for an early refill as long as the prescribing health care provider authorizes the early refill. The coverage must not be subject to any greater deductible or co-payment than other similar health care services provided by the health plan. The act exempts certain supplemental insurance policies from its provisions.

This act is identical to HB 1081 (2012).

SB 624 - Before January 1, 2014, the board of directors of the Missouri Employers Mutual Insurance Company (MEMIC) shall perform all acts necessary to establish a successor mutual insurance company. The successor company shall operate to the same extent as any mutual casualty insurer that is licensed and authorized to write insurance in this state, subject to the authority and regulation by the department of insurance, and with all the powers and subject to all the laws, rules, and requirements of a mutual insurance company that is organized under the laws of this state.

On or before January 1, 2013, the board of directors shall provide a report to the Governor, the President pro tem of the Senate, and the Speaker of the House of Representatives that outlines the steps it will take to become a private successor mutual insurance company. The report shall also calculate the value, if any, of state equity or other state financial interests in the Missouri Employers Mutual Insurance Company. A copy of

the report shall be provided to the Secretary of State.

The board of directors shall perform all necessary acts to file articles of incorporation of the successor mutual insurer corporation and shall take all necessary actions to qualify for a certificate of authority as provided by law.

Beginning January 1, 2014, the successor mutual insurance company shall become the successor in interest to all the assets and liabilities of MEMIC without any conveyance or transfer and without any further act or deed and shall be vested by operation of law with title to all property of MEMIC. The successor company shall be responsible for the obligations of the MEMIC to the same extent as though incurred originally by the successor company.

The act further provides that the director of the Department of Insurance is authorized to supervise MEMIC's transition into a private successor mutual insurance company.

The act repeals MEMIC's enabling legislation. The repeal of these sections become effective January 1, 2014.

*** SB 625 ***

5110S.011

SENATE SPONSOR: Kehoe

SCS/SB 625 - Currently when employees transfer between the Missouri State Employees' Retirement System and the Missouri Department of Transportation and Highway Patrol Employees' Retirement System, the value of the employees' accrued benefits are transferred as well. This act will change the computation of accrued benefits to exclude amounts for previously transferred service not subject to asset transfer. Any prior payments already made that should have been excluded must be returned.

Members of the General Assembly and statewide elected officials, who first take office on or after January 1, 2013, will no longer have retirement benefits determined based on a different formula than other state employees who are under the year 2000 plan.

Currently, employees hired after January 1, 2011, and covered under the Missouri State Employees' Retirement System must contribute four percent of their salary into the system. If a member leaves the system before becoming eligible for normal retirement, their contributions are refunded with interest of four percent per year. This act changes the interest rate so that it is equal to the investment rate for the fifty-two week treasury bills issued by the United States Department of Treasury.

Currently, the beneficiary of any MOSERS member who made contributions into the MOSERS system will upon the member's death receive a refund of the contribution less any retirement benefits received by the member. This act will include the interest credited to the member's contributions in the refund. Interest credited to the contributions will cease upon retirement or death.

This act contains perfected version of SS/SB 492.

SB 634 - Under this act, each health carrier must provide coverage for the diagnosis and treatment of eating disorders beginning January 1, 2013. Under the terms of the act, health carriers shall not deny eligibility or continued eligibility to an individual to enroll or renew coverage under the terms of the plan solely for the purpose of avoiding the requirements of the act or deny coverage for treatment of eating disorders, including coverage for residential treatment of eating disorders, if such treatment is medically necessary in accordance with the Practice Guidelines for the Treatment of Patients with Eating Disorders.

Under the act, health carriers shall not provide monetary payments, rebates, or other benefits to individuals to encourage such individuals to accept less than the minimum protections available under the act. In addition, a health carrier shall not penalize or otherwise reduce or limit the reimbursement of a health care provider because such provider provided care to a beneficiary in accordance with this act. The eating disorder health insurance mandate requires the insurer to provide access to psychiatric and medical treatment under the plan and provide coverage for integrated care and treatments as prescribed by medical and psychiatric health care professionals, including but not limited to nutrition counseling, physical therapy, dietician services, medical monitoring, and psychiatric monitoring.

Nothing in the act shall be construed as requiring a health carrier to provide coverage of mental illness.

The provisions contained in this act are similar to ones contained in SB 229 (2011), SB 744 (2010), SB 463 (2009), and HB 519 (2009).

SENATE SPONSOR: Wasson

SB 642 - This act increases penalties for moving violations and traffic offenses occurring within an active emergency zone. Such a zone is defined under this act as an area that is visibly marked by emergency responders on, or around, a highway, and where an active emergency or incident removal is temporarily occurring.

Any person convicted of a first moving violation or traffic offense within an active emergency zone shall be assessed a fine of \$35 in addition to any other fine authorized by law. A second or subsequent offense within an active emergency zone shall be assessed a fine of \$75.

Under this act, it is a Class C misdemeanor to pass another vehicle in an active emergency zone. Those who plead guilty to, or are convicted of, a speeding or passing violation shall be assessed a fine of \$250 in addition to any other fine authorized by law. A second or subsequent speeding or passing violation shall result in a \$300 fine.

A person commits the offense of endangerment of an emergency responder if, while in an active emergency zone while emergency responders are present, the person:

- (1) Exceeds the posted speed limit by 15 mph or more;
- (2) Passes another vehicle;
- (3) Fails to stop for a flagman, an emergency responder, or a traffic control signal in the active emergency zone;
- (4) Drives through, or around, an active emergency zone via any lane that is not for motorists;
- (5) Physically assaults, threatens, or attempts to assault an emergency responder with a motor vehicle or other instrument;
- (6) Intentionally strikes or moves barrels, barriers, signs or other devices for a reason other than to avoid an obstacle, emergency, or to protect the health and safety of another person; or
- (7) Commits various offenses that allow for the assessment of points under Section 302.302.

When no injury or death results, a person who pleads guilty to, or is convicted of, endangering an emergency responder shall be subject to a fine of not more than \$1,000. If a death or injury results, the person commits aggravated endangerment of an emergency responder. The penalty for aggravated endangerment of an emergency responder is a fine of not more than \$5,000 if a responder is injured, and not more than \$10,000 if death resulted.

The act provides for the assessment of 4 points for endangerment of an emergency responder and 12 points for aggravated endangerment of an emergency responder.

If a person commits endangerment or aggravated endangerment of an emergency responder as a result of a vehicle's mechanical failure or the negligence of another person, then the person shall not be cited for, or convicted of, such offenses.

This section is similar to provisions contained in the truly agreed to version of HB 430 (2011), SCS/SB 260 (2011), HCS/SCS/SB 887 (2010), HCS/HB 1541 (2010), and HB 1693 (2010).

*** SB 645 ***

5134S.011

SENATE SPONSOR: Schaefer

SB 645 - Under current law, the Administrative Hearing Commission (AHC) must make a recommended decision within 60 days of the filing date of an appeal of a decision made by an environmental commission. The act removes the 60-day timeframe and changes the requirement that the AHC must hold hearings and must make a recommended decision to allow the AHC discretion as whether it holds hearings or issues a recommended decision.

Under current law, an environmental commission must issue its final decision with regard to an appeal that went to the AHC within 90 days of the date the appeal was filed. The act removes this timeframe.

Currently, if state law requires the Department of Natural Resources to issue an environmental permit within a certain timeframe and the Department fails to do so, it must issue the permit on the first day following the expiration of the timeframe. The act modifies this provision so that the requirement to automatically issue the permit only applies at the request of the permit applicant.

The act removes the requirement that any actions filed in a court of law seeking judicial review of final decisions made by the Air Conservation Commission or Clean Water Commission must be made in the court of appeals rather than in the circuit court.

SB 646 - This act makes certain types of field tests for controlled substances admissible, subject to other substantive or procedural objections, in preliminary hearings and applications for arrest warrants in cases involving violations of the drug control laws. The results of the tests are admissible as evidence of the identity of a controlled substance.

In order to be admissible, the law enforcement officer conducting the field test must be trained and certified in the appropriate procedures for the test.

This act is identical to SB 227 (2011).

SB 647 - This act modifies the amount of historic preservation tax credits that the Department of Economic Development is permitted to authorize each fiscal year, beginning with fiscal year 2014, and requires that funds be transferred from general revenue to a new fund, the Capitol Complex Revitalization Fund, based on the estimated amount of additional state tax revenues collected due to the changes to the historic preservation tax credit program, until the fund has received a total of fifty million dollars.

Under current law, the Department of Economic Development is prohibited from issuing more than one hundred forty million dollars in historic preservation tax credits in any fiscal year for projects which will receive more than two hundred and seventy-five thousand dollars in tax credits. Beginning fiscal year 2014, and each fiscal year thereafter until the Capitol Complex Revitalization Fund has received a total of fifty million dollars, this act would prohibit the Department of Economic Development from approving more than fifty million dollars in historic preservation tax credits increased by the amount of any recisions of approved applications for tax such credits.

Applicants for projects that, as August 28, 2012, have: received approval from the Department of Economic Development; incurred certain levels of expenses; or received certification from the state historical preservation officer will not be subject to the new limitations on tax credit issuance, but will be subject to the current law limitations on tax credit issuance.

Funds in the Capitol Complex Revitalization Fund are required to be used by the Division of Facilities Management, Design, and Construction to renovate and restore the facilities and grounds of the state capitol, the governor's mansion, the supreme court building, and to convert a building occupied by the Missouri Department of Transportation to an annex to the state capitol.

SB 649 - This act extends the sunsets on the Children's Vision Examination Program and Children's Vision Commission from June 30, 2012, to June 30, 2016.

The act modifies the current Children's Vision Examination Program by requiring as of July 1, 2013, every child who is referred for a comprehensive vision examination to receive one comprehensive vision examination performed by a state licensed optometrist or physician. The program is further amended by requiring as of July 1, 2013, all public school districts to conduct an eye screening for each student once before the completion of kindergarten, once before the completion of first grade, and again before the completion of third grade.

The act also requires the school district to inform the parent or guardian, after a student fails the eye screening, that the student shall receive a mandatory comprehensive vision examination from an optometrist or physician. Current law requires the school district to propose to the parent that the student receive a comprehensive vision examination.

This act repeals the provisions pertaining to a pilot project conducted by the Children's Vision Commission to track the results of eye screenings versus eye examinations.

SB 651 - This act requires individuals performing home inspections to be licensed. Licenses are to only

be issued to individuals and not business entities. A license would not be required for certain government employees, licensed home inspector assistants, persons acting on behalf of insurance companies, and individuals performing limited inspections of certain components of houses. Licenses will not be required of architects, engineers, or real estate brokers, salespersons, or appraisers acting within the scope of their licenses.

The act creates the Missouri Homes Inspectors' Board which is to set qualifications and establish an application process for home inspector licenses. The board is to establish guidelines relating to educational courses for home inspectors. The act creates the Missouri Home Inspectors' Fund to collect fees authorized under the act and to be used by the board.

This act set criteria for complaints to be filed with the administrative hearing commission. The Missouri Home Inspectors' Board may refuse to renew a license and the administrative hearing commission may take disciplinary action for a violation of any of these criteria.

This act requires licensed home inspectors to maintain records for three years and a day after the creation of a home inspection report.

A statute of limitations of one year after the date of the inspection report is created for actions against home inspectors and relating to home inspections. A person knowingly violating a provision of this act will be guilty of a Class B misdemeanor. Business entities that participate in a violation or that are an accessory to a violation of this act will be guilty of a Class B misdemeanor. The Missouri Home Inspectors' Board may file a complaint for a violation of this act with a court of competent jurisdiction.

SB 654 – This act requires the school board of each school district and charter school to establish and maintain an evaluation system for teachers. The system must be established in collaboration with evaluators of instruction and teachers in the district or charter school.

The evaluation system must include performance reviews to provide feedback to teachers focused on instructional improvement and include summative evaluations. The evaluation system must evaluate teacher quality, teacher performance, and teacher effectiveness, as defined in the act. Multiple measures must be used. The school board must provide training for evaluators and use independent evaluators to ensure consistent application of criteria.

Districts are prohibited from disclosing individual teacher and administrator evaluation information to any state or federal agency.

Each school district and charter school must develop guidelines for professional improvement plans for teachers and principals by June 30, 2013. The development of the guidelines must include teachers chosen by the district teaching staff, administrators, and others. The professional improvement plan will be used to assist teachers in obtaining a satisfactory level of performance. The process for developing the criteria and goals are described in the act.

This act is similar to SB 391 (2011) and HB 543 (2011).

SCS/SB 656 - Under current law, municipalities may enact ordinances that limit the use of certain designated streets to passenger vehicles. This act modifies this authorization by requiring municipalities to allow at least one street, with lawful traffic movement and access from both directions, to be available for use by commercial motor vehicles to access any roads in the state highway system. No municipality may pass an ordinance that denies the use of commercial motor vehicles on all streets within the municipality.

Under this act, the use of motor vehicles on a public street or highway in a manner which is legal under state and local law shall not constitute a public or private nuisance, and shall not be the basis of a civil action for public or private nuisance. No individual or business entity shall be subject to any civil action in law or equity for a public or private nuisance on the basis of such individual or business entity legally using motor vehicles on a public street. Any actions by a court to enjoin the use of a public street or highway and any damages awarded or imposed by a court, or assessed by a jury, against an individual or business entity for public or private nuisance in violation of this act shall be null and void. This portion of the act is identical to SB 277 (2012).

This act expands the Kansas City commercial zone by including the stretch of State Route 45 from its intersection with Interstate 29 to the city limits of latan (Section 304.190).

5256S.011

SENATE SPONSOR: Rupp

SCS/SB 657 - This act provides medical freedom of conscience protection for medical professionals and health care institutions with respect to the provision and participation of specified medical procedures or research. "Specified medical procedures or research" is defined as abortion, abortion-inducing drugs, contraception, sterilization, assisted reproduction, human cloning, human embryonic stem-cell research, human somatic cell nuclear transfer, fetal tissue research, and fetal experimentation, including any phase of patient medical care, treatment, procedure, patient referral, counseling, therapy, testing, diagnosis, prognosis, surgery, research, instruction, or the prescribing or administering of any device, drug, or medication related to the enumerated medical procedures or research. The definition for health care institution is in the act as well as a full list of medical professionals covered under these protections including any individual who may be asked to participate in any way in a medical service.

No medical professional or health care institution shall be civilly, criminally, or administratively liable for declining to participate in or provide specified medical procedures or research that violates the professional's or institution's conscience. However, a health care institution shall provide a consent form to be signed by a patient before admission to the institution stating that it reserves the right to decline to provide such specified medical procedures or research.

"Conscience" is defined as religious, moral or ethical principles. For purposes of this act, a health care institution's conscience shall be determined by reference to its existing or proposed religious, moral, or ethical guidelines, mission statement, constitution, bylaws, articles of incorporation, regulations, or other relevant documents. A medical professional's conscience means a sincere and meaningful belief in God or in relation to a supreme being, or a belief which, though not so derived, occupies in the life of its possessor a place parallel to that filled by God among adherents to religious faiths.

It shall be unlawful for a medical professional or health care institution to be discriminated against in any manner based on the professional or institution declining to participate in specified medical procedures or research that violate the professional's or institution's conscience. The act prescribes the list of prohibited discrimination against a medical professional or institution including denying, depriving or disqualifying with

respect to licensure, benefits, or staff privileges as well as denying any form of aid, assistance, grants or benefits, privilege or authorization to the professional or institution.

A cause of action for damages or injunctive relief, or both, may be brought for the violation of any provision of this act. It shall not be a defense to any claim arising out of the violation of this act that such violation was necessary to prevent additional burden or expense on any other medical professional, health care institution, individual or patient. Upon a finding of a violation of this act, the aggrieved party shall be entitled to treble damages, including pain and suffering, the costs of the action and reasonable attorney's fees. In no case shall recovery be less than five thousand dollars for each violation in addition to the costs of the action and reasonable attorney's fees.

Nothing in the act shall be construed to authorize any medical professional or health care institution to withhold emergency medical treatment or services imminently necessary to save the life of a patient under the professional's or institution's care. Nor shall the act be construed to relieve a medical professional from any duty which may exist under current law to inform a patient of the risks, prognosis, medical options and resources available to the patient, including information required to be given under the abortion regulation chapter.

The General Assembly may, by concurrent resolution, appoint one or more of its members who sponsored or co-sponsored this act in his or her official capacity, to intervene as a matter of right in any case in which the constitutionality of this law is challenged. This act contains a severability clause.

This act is substantially similar to HB 1541 (2012).

SB 660 - Before January 1, 2013, the board of directors of the Missouri Employers Mutual Insurance Company (MEMIC) shall perform all acts necessary to establish a successor mutual insurance company. The successor company shall operate to the same extent as any mutual casualty insurer that is licensed and authorized to write insurance in this state, subject to the authority and regulation by the department of insurance, and with all the powers and subject to all the laws, rules, and requirements of a mutual insurance company that is organized under the laws of this state.

As soon as possible between July 1, 2012, and September 1, 2012, the board of directors of the Missouri employers mutual insurance company shall transmit or cause to be transmitted one hundred twenty-seven million dollars from the company's policyholder's surplus funds to the state treasurer, who shall credit such amount to the general revenue fund.

The board of directors shall perform all necessary acts to file articles of incorporation of the successor mutual insurer corporation and shall take all necessary actions to qualify for a certificate of authority as provided by law.

Beginning January 1, 2013, the successor mutual insurance company shall become the successor in interest to all the assets and liabilities of MEMIC without any conveyance or transfer and without any further act or deed and shall be vested by operation of law with title to all property of MEMIC. The successor company shall be responsible for the obligations of the MEMIC to the same extent as though incurred originally by the successor company.

The act further provides that the director of the department of insurance is authorized to supervise MEMIC's transition into a private successor mutual insurance company.

The act repeals MEMIC's enabling legislation. The repeal of these sections become effective January 1, 2013.

The act contains an emergency clause for the provisions relating to privatization and transferring of surplus funds to the general revenue fund.

SCS/SB 666 - SECTIONS 578.600 - 578.622 - Large Carnivore Act

The act modifies provisions pertaining to the Large Carnivore Act.

The act removes the clouded leopard from the Act's requirements.

Current law sets a maximum fee of \$2500 and \$500 that may be charged by the Department of Agriculture for a large carnivore permit and renewal permit, respectively. The act removes these maximums and allows the Department to set the fees in amounts that allow the Department to cover only up to its reasonable costs to administer the Act.

Currently, a person must be at least 21 years old to be eligible for a large carnivore permit. The act lowers the minimum age to 18. The act makes a person ineligible for a large carnivore permit if he or she does not possess a valid license from the U.S. Department of Agriculture (USDA) for the animal if the person is required under federal law to have a license.

The act makes any information submitted to the Department of Agriculture in relation to a large carnivore permit a closed record, subject only to disclosure by court order or when needed by law enforcement during an emergency.

Current law requires owners or possessors of large carnivores to carry insurance policies of at least \$250,000. The act modifies this amount to either \$50,000 or an amount set by the Department of Agriculture. The act also modifies this requirement to allow the acquisition of a surety bond or the making of certain cash deposits with the State Treasurer to suffice instead of liability insurance as evidence of financial responsibility in the event of damages caused by the large carnivore.

The act modifies the exemptions to the Large Carnivore Act. Current law exempts five entities from only the permit and microchip requirements of the Act and exempts three entities from the Act in its entirety. This act expands the exemption for the first five entities so that they are exempt from the Act in its entirety, except it removes the exemption for certain owners of large carnivores who held Class C licenses from the USDA as of August 28, 2010. The act also removes zoos as one of the entities exempted under current law from the entire Act.

SECTIONS 578.700 - 578.745 - Nonhuman Primate Act

The act creates the Nonhuman Primate Act.

No person in the state may own, keep, or otherwise possess a baboon or Great Ape without a permit for such animal issued by the Department of Agriculture. Permits must be sought within 30 days of the acquisition of such an animal. Certain organizations are exempt from the act's provisions as listed, except wildlife sanctuaries are not exempt from the act's microchip requirement.

Owners of nonhuman primates must have their animals microchipped with an identification number. Individuals who possess a nonhuman primate as of August 28, 2012 have a one-year grace period in which to comply.

Permit applicants must be at least 18 years of age and must not have in the past violated a state or local animal welfare law nor pled guilty to or been found guilty of a felony within the last 10 years. All information submitted to the Department of Agriculture in relation to a nonhuman primate permit is a closed record except the Department of Agriculture may cooperate with law enforcement in the event of an emergency. The act requires certain information on the permit application to help locate and identify the animal. The department may only issue a permit to a person who meets all of the requirements of the act. Permits are valid for one year and are renewable. The department may charge reasonable fees for an original permit and a renewal permit. The department may deny anyone a permit, or revoke a permit, if a person fails at any time to meet or comply with the act's requirements. The department may revoke a permit for a non-human primate if a permit holder pleads guilty to or is found guilty of the crime of animal abuse, abandonment, or animal neglect. Denied or revoked permits may be appealed.

Under the act, if a person can no longer care for a non-human primate in his or her possession, the person can transfer the primate to another person who has a valid permit or the person can contact the department or a wildlife sanctuary.

The act lists certain requirements for non-human primates. They shall be secured in a vehicle during transport. They shall not be: tethered, leashed, chained, allowed to run loose, mistreated, deprived of basic needs, released or allowed to escape, or allowed to come into physical contact with a member of the public. Owners of non-human primates must have a plan for recapture in the event of escape and must maintain certain proof of financial responsibility for liability.

Owners of non-human primates must notify law enforcement immediately if the primate escapes and will be responsible for the costs involved in capture. Owners of non-human primates must allow enforcement agents reasonable access to the animal's premises to ensure the animal is being kept in compliance with the act.

The act provides immunity from civil liability for a person who kills a nonhuman primate if the primate is chasing, attacking, hurting or killing a person, livestock, or a mammalian pet.

A violation of the act is a class A misdemeanor, except if a person intentionally releases a non-human primate, which is a class D felony. Violators of the act may also be subject to an additional penalty of up to 500 hours of community service, the loss of privilege to own an animal, or civil forfeiture of nonhuman primates.

The act directs the Department of Agriculture to promulgate rules for the Nonhuman Primate Act.

Local governments may enact laws that are more restrictive than the act.

The act is similar to SCS/SB 138 (2011).

SB 667 - This act authorizes the establishment of a peer review process for architects, landscape architects, professional land surveyors, and professional engineers.

This act only applies to licensed architects, landscape architects, professional land surveyors, and professional engineers reviewing the type of documents that such a license would be required to draft.

Third-party peer reviewers and any post-project completion peer reviewers are granted immunity from civil liability for their actions if they are reasonably related to the peer review process, in good faith, and without malice. Certain documents created during the peer review process by a person immune from civil liability will also be privileged and inadmissible in any judicial or administrative action. A person who participated in an immune peer review shall not be permitted or required to disclose information they learned from the peer review process.

This act does not limit the authority of the Board for Architects, Professional Engineers, Professional Land Surveyors and Landscape Architects to obtain information from a peer reviewer.

This act is similar to HB 1280 (2012) and SB 326 (2011).

SB 670 - This act allows owner-occupants facing nonjudicial foreclosure under a power of sale to elect to participate in dispute resolution or convert to judicial foreclosure.

Foreclosing parties are required to provide defaulted debtors with a notice of default and intention to foreclose that details the debtor's right to elect to participate in dispute resolution or convert to judicial foreclosure.

The Division of Finance is required to establish a foreclosure dispute resolution program to provide debtors facing foreclosure an opportunity to negotiate with the foreclosing party to agree to avoid foreclosure. If a debtor elects to participate in the program, the division shall open a dispute resolution case and assign a neutral party to oversee the case and subsequently submit reports detailing the outcome of the case. All foreclosures are stayed during the process but may resume if the parties negotiate in good faith after complying with the rules of the process and fail to reach an agreement. A fine of not more than \$1,500 may be imposed on either party for unjustified noncompliance as determined by the neutral party.

Debtors may convert a nonjudicial to a judicial foreclosure by filing a petition evidencing their intent to do so, with the circuit court where the property is situated.

Unlawful foreclosure practices are established including holding a flawed public sales, delaying delivery of records, completing nonjudicial foreclosure during short sale escrows or during loan modification

negotiations. A party that violates any of the new requirements set forth in the act are deemed to have committed an unlawful merchandising practice under Chapter 407, RSMo.

SCS/SB 671 - This act establishes minimum qualifications for the offices county collector and county treasurer-collector. Except for county collectors in charter counties, a candidate for such offices must be at least 21 years of age, a resident of the state and the county in which the candidate will serve for one year prior to filing for office, and a registered voter.

Candidates for county collector and county treasurer-collector must be current in the payment of state and local taxes and provide proof of ability to meet bond requirements.

County collector-treasurers are given the sole authority to appoint their deputies and must remain in office until a successor is elected.

Once elected, collectors and collector-treasurers must reside in the county for the duration of their terms.

In addition, this act specifies that, in the event of a vacancy in the office of county collector-treasurer, the procedure for a county collector vacancy applies rather than the procedure for a county treasurer vacancy.

Candidates for offices that have statutory bond requirements must file a signed affidavit from a surety company indicating an ability to meet the office's bond requirements under this act. All candidates for public office must declare their ability to meet statutory bond requirements when filing for office.

This act is similar to HB 1106 (2012).

SB 676 - This act creates the Civil Liberties Defense Act. This act mandates that any court, arbitration, tribunal, or administrative agency ruling shall be unenforceable if based on a foreign law that does not grant the parties the same rights as the parties have under the United States and Missouri constitutions.

The act makes contracts that choose to apply a foreign law to contractual disputes or to have disputes settled in another country void and unenforceable in Missouri, if the foreign law would not grant the parties to the contract the same rights as the parties have under the United States and Missouri constitutions.

In some cases, a court may refuse to take jurisdiction over matters, where the court believes there is a more appropriate forum for the dispute. This act requires that the court hear the case in Missouri, if a state resident brings the case and if the court finds that not hearing the case in Missouri violates or would likely violate the rights of the person who brought the case.

The act does not apply to a business entity that subjects itself to a foreign law in a jurisdiction outside the United States. The act does not authorize courts to adjudicate religious matters.

This act is similar to SB 308 (2011).

SCS SB 677

5303S.03C

SENATE SPONSOR: Pearce

SCS/SB 677 – This act removes the two-year waiting period that exists between the classification of a school district as unaccredited and the lapse of the district's corporate organization. Instead, when the State Board of Education classifies a district as unaccredited, it must review the governance of the district to establish the conditions under which the existing school board will continue to govern. The State Board must also determine the date on which the district will lapse and must determine an alternative governing structure for the district.

This act changes the timing and purpose of the hearing that the Department of Elementary and Secondary Education must conduct. When a district is classified as unaccredited, the hearing must be regarding the accreditation status of the district. Also, the hearing must provide an opportunity to convene community resources that may be useful or necessary to support the school district as it attempts to return to accredited status.

When it classifies a district as unaccredited, the State Board of Education may allow continued governance by the existing local board of education under specific terms and conditions. If the State Board appoints a special administrative board to oversee the district, it may determine the number of members and specify the board's duties. If the State Board determines an alternative governing structure, it must provide a rationale for its decision and review and recertify the alternative form of governance every three years. In addition, the State Board must create a public comment method, establish expectations for academic progress by creating a time line for full accreditation, and provide annual reports to the General Assembly and Governor on the district's progress, as described in the act.

A special administrative board appointed under this act will retain the authority granted to a school board under the laws of the state in effect at the time of the district's lapse.

This act repeals the requirement that provisionally accredited and unaccredited districts develop a plan to divide up the district if the district cannot regain accreditation within three years of the loss of accreditation.

No action of the State Board of Education under this section will be construed to supersede the right of a student residing in an unaccredited school district, under section 167.131, to transfer to an accredited district in the same or an adjoining county and have his or her tuition paid by the school district of residence.

This act contains an emergency clause.

This act is substantially similar to HCS/HB 1174 (2012).

SB 678 - This act requires hospitals, ambulatory surgical centers, and long-term care facilities to report all "serious reportable events in health care," as identified by the National Quality Forum. Such events include wrong-site surgery, retention of a foreign object in a patient after surgery, and death or serious disability associated with medication error.

The procedures for such health care facilities reporting the events to the Department of Health and Senior Services are prescribed in the act. The initial report of the event shall be reported to the department as reasonably and practically possible, but no later than five working days after discovery of the incident. Within 45 days after the event occurred, the health care facility shall submit to the department a root cause analysis and a prevention plan.

If a reportable incident is disclosed to the department and the prevention plan and root cause analysis is submitted and approved by the department, the incident shall not be deemed grounds for a finding of a licensure deficiency unless within five years of the reportable incident another reportable incident occurs and is a violation of the health care facility's reportable incident prevention plan. Furthermore, the department shall promulgate rules establishing criteria for defining cases in which reportable incidents have occurred in a health care facility with a frequency or possible pattern of adverse outcomes as to necessitate departmental intervention.

The department shall publish an annual report to the public on reportable incidents. The annual report shall be on its website and available as a publication upon request. The first report shall include twelve months of reported data and shall be published not more than fifteen months after the effective date of rules promulgated by the department to implement the provisions of this act. The report shall show the number and rate per patient encounter by region and by category of reportable incident and may identify reportable incidents by type of facility.

Any health care facility that reports a reportable incident shall not charge for or bill any entity for all services related to the reportable incident.

Provisions of this act are similar to SB 916 (2008).

SB 679 - This act modifies the laws relating to collaborative practice arrangements and advance practice registered nurses. Advance practice registered nurses are granted the authority to prescribe controlled substances without requiring delegated authority under a collaborative practice arrangement. Drugs prescribed or services provided by a licensed advanced practice registered nurse will be eligible for payments under MO HealthNet.

This act allows collaborative practice arrangements to be either written protocols or standing orders. Collaborative practices will no longer be under the supervision of the State Board of Registration for the Healing Arts or Board of Nursing. The requirement that no contract can require a physician or advance practice registered nurse to enter into a collaborative agreement is eliminated. Physicians are allowed to enter into a collaborative practice with more than three advance practice registered nurses.

Certified registered nurse anesthetists will be allowed to provide anesthesia services without supervision. Certified registered nurse anesthetists are to be certified by the National Board of Certification and Recertification for Nurse Anesthetists.

The act grants advanced practice registered nurses authority to practice of respiratory care. The act defines advanced practice registered nurse, advance practice registered nursing, and certified registered nurse anesthetist. The one thousand hours of practice to obtain a certificate of controlled substance prescriptive authority is modified to include hours collaborating with an advanced practice registered nurse that already possesses such a certificate. Advance practice registered nurses are no longer required to practice with a continuously present physician for a month before practicing in a setting where the physician is not

continuously present. The act sets application requirements for an advanced practice registered nurse's license.

SCS/SB 689 - Under current law, a person who recklessly and purposely causes serious injury to an elderly person commits the crime of second degree elder abuse. This act makes it so a person who recklessly or purposely causes such injury has committed the crime.

This act adds undue influence to the types of acts that, when committed against an elderly or disabled person, constitute the crime of financial exploitation.

Undue influence is defined under the act to mean influence by a person who has authority over the elderly or disabled person in order to take unfair advantage of the person's vulnerable state of mind, neediness, pain, or agony. It includes improper use of various types of fiduciary authority.

This act allows the Department of Social Services to release records regarding the income or assets of a resident of a skilled or intermediate nursing facility to prosecuting attorneys who are investigating or prosecuting an offense of financial exploitation.

If a person is found guilty of financial exploitation by being in possession of funds disclosed as income or assets in department records and the funds are owed to a nursing facility, the court can order the offender to make restitution to the facility. The prosecuting attorney may receive ten percent of the funds collected under the order as reimbursements for the cost of enforcement.

SB 690 - This act allows the Missouri State Highway Patrol to sell surplus watercraft and watercraft motors and trailers in the same manner that the Highway Patrol may currently sell surplus highway patrol vehicles.

Proceeds from the sales will be directed to the "Highway Patrol's Motor Vehicle, Aircraft, and Watercraft Revolving Fund", which is administered by the superintendent of the Highway Patrol. Proceeds from the fund are used to purchase Highway Patrol motor vehicles, and may be used under this act to also purchase watercraft, and watercraft motors and trailers.

This act is identical to SB 353 (2011).

SB 691 - This act modifies the Manufacturing Jobs program to expand the eligibility for this program to additional suppliers of automotive manufacturers and increase the benefits available to these suppliers under the program. The act also requires the Department of Economic Development to make efforts to prioritize the use of funding under the Missouri Job Development Fund to these suppliers.

Currently, companies that supply automotive manufacturers are eligible to retain withholding taxes under the Manufacturing Jobs program, if the company is a manufacturer that: 1) receives more than 10% of company annual sales from sales to automotive manufacturers with facilities in Missouri; 2) adds at least five new jobs with an average wage greater than the county average wage; and 3) provides health insurance for all full-time jobs. This act expands the requirements, so that companies that supply automotive manufacturers will also be eligible for the program, if the company: 1) receives more than 10% of company annual sales from sales of a product that is sold to someone other than a in-state automotive manufacturer, but the product is used by a manufacturer in an automobile; or 2) receives more than 50% of company annual sales from modifying vehicles for commercial or public use.

Under current law, the Manufacturing Jobs program allows eligible automotive manufacturer suppliers to retain withholding tax from the new jobs for three years, or for five years, if the wages for the new jobs are at least 120% of the county average wage. This act allows these suppliers to retain withholding taxes from the new jobs for five years, in an amount equal at the least to 5 1/2 % of new payroll and at the most to 6 1/2% of new payroll, depending on the average wages of the new jobs. If the amount of withholding taxes the supplier is allowed to retain is less than the amount of the benefit under the program, the Department of Economic Development shall issue the supplier a refundable tax credit. If the supplier is also participating in the New Jobs Training Program the supplier is prohibited from retaining withholding tax, but the department is required to issue a refundable tax credit for the amount of the benefit allowed under this program. The amount of withholding tax the supplier retains under the New Jobs Training program will be in addition to the maximum amount of tax credits that the supplier could otherwise be issued each year, unless the total amount of tax benefits under both programs exceeds the projected benefit to the state from the project.

SCS/SB 692 - This act allows and establishes procedures for counties to decrease their annual budgets no more than twice each fiscal year when faced with unanticipated funding of two percent or greater.

The budget reduction may not affect any one independently affected officeholder unless all officeholders who receive funds from the same budget category have negotiated ways to cover the shortfall. Also, the reductions may not impact any dedicated fund created by law.

The provisions of this act expire on July 1, 2015.

Charter counties may follow procedures in their charters for amending their budgets rather than the provisions of this act.

This act is similar to provisions of HCS/SS/SCS/SB 580 (2010) and HB 1793 (2010).

SB 696 - Under this act, a person who is found guilty of operating a motor vehicle without financial responsibility a second time shall be assessed an additional fine of \$1,000. Currently, a second or subsequent violation is punishable by a fine not to exceed \$300. This act also imposes an additional fine of \$5,000 on persons who violate the financial responsibility law a third or subsequent time.

Under the terms of the act, a court may order the impoundment of person's motor vehicle for period of 6 months if the person is convicted of violating Missouri's financial responsibility law a second or subsequent time. An impounded vehicle shall not be released until the defendant provides proof of financial responsibility and pays all associated towing, impoundment, and storage fees.

The act also requires a law enforcement officer to order the impoundment the motor vehicle of a driver who is unable to present proof of insurance if his or her vehicle is involved in an accident. The act provides that the towing and storage provisions of the abandoned property law apply to the impoundment unless such provisions otherwise conflict with this act. Under the terms of the act, the impounded vehicle shall not be released until the person:

- (1) Submits proof that a person with a valid driving privileges will be operating the motor vehicle;
- (2) Submits proof of financial responsibility;
- (3) Pays to the law enforcement agency an administrative fee determined by the agency to be sufficient to cover its actual administrative costs for the impoundment;
- (4) Submits proof that the operator has:
 - (a) Been released from liability resulting from the motor vehicle accident;
 - (b) Been adjudicated not to be liable for the accident;
 - (c) Made restitution for damages resulting from such accident as may be recovered against the operator;
 - (d) Executed a duly acknowledged written agreement providing for the payment of an agreed amount in installments with respect to all claims for injuries or damages resulting from the motor vehicle accident; or
 - (e) Filed a security deposit with the Department of Revenue consistent with Missouri law; and
- (5) Pays any towing and storage costs associated with the impoundment of the motor vehicle.

The act increases the reinstatement fee for a first time financial responsibility law offender from \$20 to \$250. The second time offenders, the act increases the driver's license suspension period from 90 days to 180 days and increases the reinstatement fee from \$200 to \$400. For persons who have 3 or more financial responsibility law violations, the act increases the license reinstatement fee from \$400 to \$600.

SB 698 - This act creates requirements that political subdivisions must follow when advertising, soliciting, and rejecting bids for construction contracts that require an expenditure of \$25,000 or more. This act also establishes minimum standards that political subdivisions must include in their local procurement policies.

The terms "construction contract", "established local construction procurement policy", and "political subdivision" are defined under this act.

If a political subdivision violates certain requirements, anyone who bid on the contract or was the denied the opportunity to compete may bring a cause of action for an injunction to have the contract rebid within 15 days of the award of the contract.

An unintentional violation is not actionable in certain circumstances.

This act expedites certain court procedures for such cases and establishes limited time frames for the actions unless the court finds evidence of fraud, collusion, or corruption in the contract award. In such instances, the court may also order monetary damages and equitable relief.

The court may order the claimant to pay the political subdivision's attorney's fees and award monetary damages upon a finding that there was no substantial cause for the action or that it was brought to harass or disrupt the contract award.

SCS SB 699

5321S.12P

SENATE SPONSOR: Goodman

SS/SCS/SB 699 - This act modifies provisions relating to probation, parole and conditional release.

EARNED COMPLIANCE CREDITS

Under this act, the Division of Probation and Parole must award earned compliance credits to offenders placed on probation, parole, or conditional release beginning October 1, 2012. The credits are equal to thirty days of time served for every calendar month the offender remains in compliance with the terms of probation, parole, or conditional release. The credits reduce the duration of the term, but may be suspended or rescinded if the offender violates probation or parole. The offender must serve at least two years of the sentence on probation, parole, or conditional release. Only certain offenders of Class C and D felonies or drug crimes who are not on lifetime supervision may earn the credits. In addition, the court may limit eligibility for offenders of certain felonies.

ADMINISTRATIVE JAIL SANCTIONS

This act also allows the division of probation and parole to place offenders in jail for short periods of time when a probation and parole officer believes an offender has violated a condition of release unless the offender's order of release includes detention as a condition of the probation or parole. The first period of detention may be no longer than 48 hours and the offender may only spend up to 360 hours in jail in a calendar year.

The department must reimburse counties at a rate determined by the department, but no less than \$30 per day per offender, for the period of detention. The department must certify to the counties before imposing a period of detention that there are enough funds to cover the cost of reimbursement. If there is not enough funding to cover the reimbursement or the jail does not have enough space, then the jail may refuse to accept offenders for detention. Once released from the period of detention, the offender can continue the probation or parole term unless new or additional information is brought forward that the offender was involved in the commission of a crime.

MANDATORY PLACEMENT IN 120-DAY PROGRAM FOR FIRST REVOCATION

Under this act, the court must order the Department of Corrections to place certain offenders in one of the department's 120-day programs before revoking the offender's probation upon a determination by the court that the offender committed a violation of the terms of release.

Offenders who are on probation or parole for Class C or D felony offenses or a drug offense, have not been placed in a 120 day program during the same sentence, and whose probation or parole violation does not fall within certain specified types of offenses are eligible for placement in one of the alternative programs. The court may also limit eligibility for offenders of certain Class C and D felonies.

Once the offender has completed the program, the court must continue the term of probation, parole, or conditional release without modifying, enlarging, or extending the term based on the same violation.

Time served in the alternative program is to be credited against the offender's sentence.

SENTENCING AND CORRECTIONS OVERSIGHT COMMISSION

This act creates a 13-member commission to oversee the implementation, and to calculate the effects, of this act. The duties of the commission also include determining ways to reinvest any cost savings realized from the passage of this act to pay for evidence-based practices to reduce recidivism and examining how restitution is collected for crime victims.

The Governor and Missouri Supreme Court chief justice have the authority to appoint certain members to the commission, which serve staggered four-year terms. In addition, this act requires the chairs and ranking minority members of the Senate Judiciary Committee and the House Appropriations - Public Safety Committee, the directors of the Missouri State Public Defender System, Missouri Office of Prosecution Services, Missouri Department of Corrections, and the Board of Probation and Parole to serve as voting, ex officio members on the commission. The Judiciary chair and the Appropriations chair shall serve as co-chairs of the commission.

This act requires the commission to issue a report on December 31, 2012, and each year thereafter, to the Speaker of the House, Senate President Pro Tem, Missouri Supreme Court Chief Justice, and the Governor.

The commission's first meeting must occur before February 28, 2013 and the members must meet at least twice a year, only receiving compensation for their actual and necessary expenses. Staff and consultants may be employed by the commission.

The provisions establishing the commission will expire on August 28, 2018.

JOINT COMMITTEE ON THE MISSOURI CRIMINAL CODE

This act creates the "Joint Committee on the Missouri Criminal Code". The committee is to be composed of senators, house members and representatives from the Attorney General's office, the state Public Defender System, victims of crime, the Governor's office and the Missouri Supreme Court.

The committee's charge is to report to the General Assembly by December 31, 2012, its recommendations for ways to harmonize, organize and revise the criminal laws.

This act is similar to HCS/HB 1525 (2012).

SB 706 – This act modifies provisions relating to school operations.

PASSPORT SCHOLARSHIP PROGRAM: This act establishes the Passport Scholarship Program to grant scholarships to students from unaccredited districts to attend a qualified nonpublic elementary or secondary school.

To be eligible for a scholarship, a student must reside in an unaccredited district. A student will remain eligible until graduation from high school or age twenty-one, whichever occurs earlier. Students will remain eligible even if their district of residence changes because of a boundary line change, annexation, consolidation, reorganization, or dissolution.

Beginning in tax year 2012, a taxpayer may make a qualifying contribution to an approved or qualified educational assistance organization and claim a tax credit. The annual cumulative amount of tax credits is limited at \$40 million, which will be increased or decreased based on the consumer price index for the Midwest. The tax credit is for sixty percent of the amount of the contribution, is nonrefundable and may be carried forward for four years.

An educational assistance organization that desires to participate or provide scholarships through the Passport Scholarship Program must meet certain requirements, including being a 501(c)(3) organization; providing a receipt to taxpayers for contributions; ensure that funds are used as specified in the act; distribute scholarship payments four times per year; provide the Department of Economic Development, upon request, with criminal background checks on all employees and board members; and demonstrate financial accountability and viability, as described in the act.

Each educational assistance organization must ensure that qualified schools: comply with all health and safety laws applicable to nonpublic schools; hold a valid occupancy permit if required; do not discriminate in admissions based on race, color, national origin, or disability; and provide academic accountability to parents. An educational assistance organization must annually and publicly report to the Department information about the organization, information about the scholarship recipients, and the dollar amounts of scholarships awarded.

A qualified school must comply with state laws applicable to public schools for criminal background checks for employees and exclude from employment anyone prohibited from working in a public school. A qualified school's scholarship students may take the statewide assessments, as described in the act. A qualified school must also meet certain accountability measures, including fiscal soundness, accreditation, and surveys of parents and students.

A qualified school is prohibited from accepting a scholarship check that exceeds its standard tuition and fees. If the scholarship amount is insufficient to cover the cost of tuition, a qualified school may charge the parent or guardian the difference between the cost of tuition and the amount of the scholarship.

The Committee on Legislative Research, in collaboration with the Joint Committee on Education, must contract with one or more qualified researchers with previous experience evaluating school choice programs in order to conduct a study of the scholarship program. Study assessment requirements and methodology requirements are described in the act. The study must begin within five years of commencement of the program and must cover a period of five years. (Sections 135.712-135.719)

CHARTER SCHOOLS: This act allows an accredited school district or cooperative association of accredited

districts to sponsor or operate a charter school in or for an unaccredited school district, which may enroll resident students of any school district classified as unaccredited. If the district is no longer unaccredited, the charter school may continue to operate. If the school district regains accreditation and the district or cooperative wishes to discontinue the school, it may solicit proposals for the continuation of the school, which will be presented for a vote of the parents or guardians of the students attending the school. Charter schools may enroll students from any unaccredited district. In addition, the school board of an unaccredited or provisionally accredited district may close district schools and lease the school building to the governing board of a charter school that it sponsors. The school board of an accredited district may close a district school it deems to need improvement and may lease the school building to the governing board of a charter school that it sponsors.

When a charter school is sponsored by the local school board or a cooperative association, as described in the act, the State Board of Education will have the accountability and enforcement powers of a charter school sponsor under current law. (Section 160.402)

LAPSE OF A SCHOOL DISTRICT: This act removes the two-year waiting period that exists between the classification of a school district as unaccredited and the lapse of the district's corporate organization. Instead, the school district will lapse at the time it becomes unaccredited. This act removes the requirement that the school board of a district develop a plan to be submitted to the voters to divide the district if it cannot attain accreditation within three years. (Section 162.081)

INTERSCHOLASTIC ATHLETICS AND ACTIVITIES: No school district may become a member of or retain membership in a statewide activities association that prohibits or delays athletic or activities eligibility for any student who transfers from an unaccredited district to an accredited district, virtual school, charter school, or nonpublic school with a Passport Scholarship under state law. (Section 162.086)

RECEIPT OF STATE SCHOOL AID: As a condition of receiving state school aid, an unaccredited district must transfer any local effort moneys it receives from the county assessor and collector to the custody of the State Treasurer. The State Treasurer may collaborate with the State Board of Education and a clearinghouse, if one exists, to identify the tuition and transportation costs for students transferring out of the unaccredited district and the amount of moneys needed from the local effort moneys to pay the tuition and transportation. The State Board of Education will determine the extent to which the State Treasurer may disburse the funds, as described in the act.

In addition, a school district will not be eligible to receive state aid if it violates state school laws, except as described in the act. (Section 163.021)

WEIGHTED AVERAGE DAILY ATTENDANCE: If a school district is using the weighted average daily attendance for the preceding school year or second preceding school year, the Department of Elementary and Secondary Education must adjust it so that the district receives no aid for students who are receiving a Passport Scholarship. (Section 163.036)

STUDENT TRANSFERS FROM AN UNACCREDITED DISTRICT: Currently, the school board of a school district that does not maintain an accredited school is required to pay the tuition and transportation of resident pupils who attend an accredited school in another district of the same or an adjoining county. This section applies to both unaccredited school districts and K-8 school districts that do not offer high school grades.

This act differentiates between a K-8 school district that does not offer high school grades and a school district classified as unaccredited by the State Board of Education. This act specifies that the school board of an unaccredited district must pay the tuition and transportation of resident pupils who attend an accredited school in another district of the same or an adjoining county. A resident pupil of an unaccredited district may attend a school in another accredited district in the same or an adjoining county. A parent or guardian may choose to enroll his or her child in a provisionally accredited district provided the district has informed the parent or guardian of the accreditation classification. Any district that receives transfer students will not be required to include those student's scores on the statewide assessment in that district's scores for up to five years.

The rate of tuition to be charged is the lesser of the nonresident tuition established by each district, or in the absence of nonresident tuition, the lesser of the two districts' average expenditure per pupil for the most recently completed year for which data are available. The residence district must also pay the cost of education in the receiving district for any student with an IEP accepted in the receiving district. The tuition

payment will be facilitated and handled by the State Board of Education withholding the necessary amount of funds from the unaccredited district's state aid or the local effort moneys in the custody of the State Treasurer.

By June 30, 2012, each district must establish criteria for the admission of nonresident pupils from unaccredited districts. The primary criteria must be the availability of highly qualified teachers in existing classroom space. Each district must establish criteria for calculating available seats, taking into account the district's resident student population growth or decrease, such that the receiving district is not required to employ additional teachers or construct additional classrooms. In addition, resident pupils must not be displaced from the school building to which they are assigned. The receiving district will be responsible for assigning a student to a particular building but if the receiving school is primarily virtual, parent permission will be required.

When a student from an unaccredited district has been accepted in an accredited district, he or she may complete the educational program through graduation, even if the district of residence regains accreditation.

The Department of Elementary and Secondary Education must develop a uniform document to be used by school districts to keep track of the number of students who seek admission. The parent of a student seeking admission must receive a copy. Each district must report the information from the document, as described in the act.

In addition, the students of an unaccredited district may be enrolled in the virtual school of an accredited district or cooperative association that is available in the same or an adjoining county as an alternative to or in addition to other enrollment options. The school board of a receiving district may offer a virtual education program in an unaccredited district in which resident and nonresident pupils may enroll. (Sections 167.131 and 167.133)

PROCEDURES WHEN A DISTRICT BECOMES UNACCREDITED: This section creates the Hinson Plan. If a school district, except for St. Louis or a district in St. Louis County, becomes unaccredited, surrounding accredited districts must divide up the territory of the district, annex it, and draw up new attendance boundaries. When an accredited district annexes a portion of an unaccredited district, it will not be considered a successor entity for the purposes of employment contracts, unemployment compensation, or any other purpose. In addition, the accredited district may have certain other powers and authorities, as described in the act. If the employees of the unaccredited district are members of a retirement system other than the Public School Retirement System of Missouri or the Public Education Employee Retirement System of Missouri, they will remain members of their present system. New employees will be members of the system in which the receiving district participates. (Section 167.403)

CLEARINGHOUSE: This act requires the Department of Elementary and Secondary Education to create a clearinghouse, or appoint a neutral third party to serve as a clearinghouse, to assist students in the St. Louis City School District or any other unaccredited district in St. Louis County, to transfer to an accredited district, charter school, virtual school, or nonpublic school using a Passport Scholarship.

A parent or guardian seeking to enroll his or her child in another school must send initial notification to the district of residence and the clearinghouse by January 15 for enrollment the next school year. A parent or guardian may apply until July if good cause, as defined, exists for failure to meet the deadline. However, a parent or guardian may enroll a child in a school without using the clearinghouse and a school may enroll a child who has missed the deadlines for enrolling through the clearinghouse.

The clearinghouse must provide counselors to assist and advise parents and guardians on school options that are available and assist in preparation of applications. The expenses associated with the clearinghouse will be defrayed by the Department of Elementary and Secondary Education withholding funds, not exceed five hundred dollars per pupil, from the unaccredited district's state school aid.

This program will continue until the district has been accredited for five consecutive years and has met all MSIP academic standards for five consecutive years.

The clearinghouse must identify the number of students who use it to seek admission to a school or school district, as described in the act. (Sections 167.406 & 167.409)

VIRTUAL SCHOOLS: A student may enroll in the virtual courses or programs of a virtual education provider

or school district that meets Department of Elementary and Secondary Education standards and is accredited. The Department may also offer its own virtual courses. Students enrolled in virtual education must take the components of the statewide assessment that relate to the student's virtual courses or program. The Department shall withhold the tuition amount, as described in the act, from the district of residence's state school aid, and may seek local moneys, as described in the act. (Section 167.418)

SCHOOL PRINCIPALS: School principals will have the right to select teachers for their schools who have demonstrated effectiveness and qualifications. School districts with multiple schools must include provisions in teacher contracts for the placement of teachers rated highly effective or effective based on the mutual consent of the teacher and principal of the school. School districts may adopt options for teachers rated effective or higher who are displaced and not selected for a regular position. This act contains additional procedures for when a position is unavailable for a teacher.

TEACHER TENURE: Currently, the St. Louis City School District has a separate tenure system. This act ends this separate system and includes St. Louis in the statewide system. If a special administrative board is governing a school district, it may appoint a hearing officer to conduct a teacher termination hearing. In addition, a school board, upon an affirmative vote of a constitutional majority of its members, may appoint a hearing officer to conduct a teacher termination hearing.

This act modifies the procedures and criteria by which school boards may place teachers on leave. Instead of seniority or years of service being used as criteria for placing teachers on leave, the deciding criterion will be effective teacher performance based on documented student learning and growth. (Sections 168.104, 168.106, 168.116, 168.124, 168.221)

EDUCATOR EVALUATIONS: Student performance must be a factor in the measurement of educator evaluations. (Section 168.128)

The provisions of this act are nonseverable. (Section 1)

This act contains an emergency clause. (Section B)

This act contains an effective date of July 1, 2012 for the teacher tenure provisions. (Section C).

SB 707 - Under this act, if a health carrier or health benefit plan provides coverage for diagnostic radiology testing and if a treating physician presents an order for a test to a radiology benefits manager for prior authorization, a decision to deny the authorization shall only be made by a licensed physician. When any decision to deny an authorization for diagnostic testing is made, the treating physician and the patient must be furnished with the name, address, telephone number, and employer of the radiology benefits manager physician who is making the denial decision.

When a carrier, plan, or radiology benefits manager authorizes a test, the authorization will satisfy any requirement of medical necessity in the carrier's or plan's policy of benefits and the claim for payment shall be timely paid unless there was fraud on the part of the provider in procuring the authorization.

Electronic clinical decision support tools which offer ordering guidance to physicians and can document the clinical appropriateness of the order are not subject to the provisions of this act.

This act is similar to HB 982 (2011).

SS/SCS/SB 710 - LIMITATION ON QUANTITY AND OUT-OF-STATE PRESCRIPTIONS

A pharmacist, in good faith, may sell and dispense controlled substances to any person upon a prescription of a practitioner located in another state, provided that:

- (1) The prescription was issued according to and in compliance with the applicable laws of that state and the United States; and
- (2) The quantity limitations in this state apply to patients located in this state. SECTION 195.060

Currently, the quantity of Schedule III, IV or V controlled substances dispensed at any one time is limited to a 90-day supply with the ability to increase the amount up to 3 months under certain circumstances. This act provides that such supply limitations shall not apply if the prescription is issued by a practitioner located in another state according to and in compliance with the applicable laws of that state and the United States and dispensed to a patient located or residing in another state. SECTION 195.080

PRESCRIPTION DRUG MONITORING ACT

This act establishes the Prescription Drug Monitoring Act. The Department of Health and Senior Services is required to establish and maintain a program to monitor the prescribing and dispensing of all Schedule II through Schedule IV controlled substances by all licensed professionals who prescribe or dispense these substances in Missouri. The provisions of this act shall be funded with federal or private moneys.

A dispenser shall electronically submit to the department information for each prescription and specify the frequency of the submissions. The department may issue a waiver to a dispenser who is unable to submit the required information electronically. If a waiver is obtained, a dispenser can submit the required information in paper format or by other approved means. The department shall reimburse each dispenser for the fees and other direct costs of transmitting the information required by this act.

All submitted prescription information shall be kept confidential with specified exceptions. This act authorizes the release of non-personal, general information for statistical, educational, and research purposes. The department shall review the dispensation information and, if there is reasonable cause to believe a violation of law or breach of professional standards may have occurred, the department shall notify the appropriate law enforcement or professional regulatory entity and provide dispensation information required for an investigation.

Dispensers who knowingly fail to submit the required information or who knowingly submit incorrect dispensation information shall be subject to a \$1000 administrative penalty per violation. Any persons authorized to have dispensation information who knowingly disclose such information or who use it in a manner and for a purpose in violation of the act shall be guilty of a class A misdemeanor.

The department shall create and implement an educational course regarding the provisions of this act and, when appropriate, shall work with associations for impaired professionals to ensure the intervention, treatment, and ongoing monitoring of patients who have been identified as being addicted to substances monitored by the bill.

The Bureau of Narcotics and Dangerous drugs within the department shall establish, beginning January 1, 2014, a two -year statewide pilot project for the reporting of fraudulently obtained prescription controlled substances. The bureau shall submit on or before February 1, 2014, a report to the General Assembly detailing the specified information regarding the pilot project.

The provisions of the act regarding the pilot project shall expire three years from the effective date and the other provisions of the act shall expire six years from the effective date of this act. SECTIONS 195.450 TO 195.477

PHYSICIAN ASSISTANT PRESCRIPTIONS

Under current law, physician assistants who are authorized to prescribe controlled substances shall register with the federal Drug Enforcement Administration and the State Bureau of Narcotics and Dangerous Drugs and shall include such registration numbers on prescriptions for controlled substances. This act requires the physician assistants to only include the registration number from the Drug Enforcement Administration on the prescriptions. SECTION 334.747

These provisions are similar to HCS/HB 1193 (2012) and to portions of SB 785 (2012).

SCS/SB 714 - This act modifies definition of recreational off-highway vehicle as found in Section 301.010. Under this act, a recreational off-highway vehicle is defined as "any motorized vehicle manufactured and used exclusively for off-highway use which is sixty inches or less in width, with an unladen dry weight of 2000 pounds (current law is 1,850 pounds) or less, traveling on four or more nonhighway tires, which may have access to ATV trails." The act removes from the definition that the vehicle must have a nonstraddle seat and a steering wheel (Section 301.010).

Under the act, recreational off-highway vehicles shall not be operated on highways except for:

- (1) Governmental owned and operated recreational off-highway vehicles for official use;
- (2) Recreational off-highway vehicles operated for agricultural purposes or industrial on-premise purposes between sunrise and sunset;
- (3) Recreational off-highway vehicles operated within three miles of the operator's primary residence;
- (4) Recreational off-highway vehicles operated occasionally by handicapped persons for short distances only on the state secondary roads between the hours of sunrise and sunset.

Under the act, no person shall operate a utility vehicle in a careless way so as to endanger the person or property of another or while under the influence of alcohol or a controlled substance.

No person shall operate a recreational off-highway vehicle within any stream or river except by an operator who owns the property or has permission to be on the property on which the waterway flows through or when fording a low-water crossing.

A person operating a recreational off-highway vehicle on a highway shall have a valid operator's or chauffeur's license.

Under the terms of the act, an individual shall not operate a recreational off-highway vehicle upon on a highway in this state without displaying a lighted headlamp and a lighted tail lamp. A person may not operate a recreational off-highway vehicle upon a highway of this state unless such person wears a seat belt. When operated on a highway, a recreational off-highway vehicle shall be equipped with a roll bar or roll cage construction to reduce the risk of injury to an occupant of the vehicle in case of the vehicle's rollover.

A violation of the act is a Class C misdemeanor (Section 304.033).

SENATE SPONSOR: Stouffer

SB 718 - This act modifies provisions relating to the Department of Mental Health Employment Disqualification Registry (EDR).

This act provides uniformity to all of the provisions relating to the EDR by specifying that such provisions apply to the following mental health facilities: any public or private facility, day program, residential facility, or

specialized service operated, licensed, certified, accredited, in possession of deemed status or funded by the Department of Mental Health by or to any mental health facility or mental health program in which people are admitted on a voluntary or involuntary basis or are civilly detained.

Current law requires the person disqualified from employment under the EDR to seek an exception to the disqualification through a written request to the director of the department no more than once every twelve months. This act changes the time line to no more than once every six months.

Any person placed on the EDR prior to August 28, 2012, may be removed from the registry by the director or designee if in the judgment of the director or designee a clear showing has been made, by written submission only, that the person will not commit any additional acts for which the person had originally been disqualified for or any other acts that would be harmful to a patient, resident, or client of a facility, program, or service.

Current law requires an applicant for a direct care position in any of the named mental health facilities to sign certain consent forms for a criminal record review and to disclose previous employment disqualifications. This act no longer restricts the requirement to just direct care positions.

Mental health facilities or mental health programs in which people are admitted on a voluntary basis or are civilly detained are included amongst the list of other Department of Mental Health facilities who are required to request a criminal background check and to check the employee disqualification registries from the Department of Mental Health, Department of Health and Senior Services and Department of Social Services for new employees who will have contact with clients, residents or patients. Any of these facilities that decline to employ or discharge a person who is disqualified under the provisions of this act shall be immune from suit by that person for the failure to employ or for the discharge of the person due to disqualification.

A provider is guilty of a Class A misdemeanor if the provider hires a person to hold any position knowing that such person has been disqualified under the provisions of this act.

Any employer who is required to discharge an employee because the employee was placed on the EDR after the date of hire shall not be charged for unemployment insurance benefits based on wages paid to the employee for work prior to the date of discharge.

Under current law, the Department of Mental Health is allowed to maintain the EDR. This act requires the department to do so. This act specifies the procedures for appealing a decision to have an employee placed on the EDR as well as delineating how the department determines the length of time the person's name shall appear on the EDR.

The department shall provide the EDR to other state and federal agencies upon request. The department may also provide the EDR to any of the mental health facilities falling under this act. The department may also provide the EDR to a recognized school of nursing, medicine, or other health profession for the purpose of determining whether students scheduled to participate in clinical rotations are included in the EDR.

SS/SCS/SB 719 - Under this act, any person or company that rents or sells vessels may issue temporary boating safety identification cards to nonresidents to operate rented vessels or vessels being considered for sale, for a period of up to 7 days, provided that the individual meets the minimum age requirements for operating a vessel in this state. In order to qualify for the temporary boating safety identification card, the applicant shall sign an affidavit that he or she has reviewed the Missouri State Highway Patrol Handbook of Missouri Boating Laws and Responsibilities. The Missouri State Highway Patrol shall charge a fee of \$9 for the temporary boating safety identification card. Nonresidents shall not be eligible for more than one temporary boating safety identification card. Under the act, the Missouri State Highway Patrol is authorized to develop the temporary boating safety identification card. The act requires businesses that issue temporary

boating safety identification cards to transmit the applicant's information and payment to the Missouri State Highway Patrol using an electronic online registration process developed and provided by the patrol. The electronic online registration process shall allow the applicant to pay the \$9 fee by credit card, debit card, or other commercially approved electronic method.

The act imposes a sunset date of December 31, 2022, on the nonresident temporary boating safety identification card program.

This act contains an emergency clause.

SB 723 - This act modifies provisions of law regarding property tax assessment.

Currently, county assessors are required to use the trade-in value published in the October issue of the National Automobile Dealers' Association Official Used Car Guide as the recommended guide for information for determining the value of motor vehicles for personal property tax purposes. This act requires the assessor to use the lowest applicable trade-in value from a issue that is current in October of the assessment year of any nationally recognized motor vehicle valuation guide.

Under current law taxpayers are required to appeal the assessment of their property to their county board of equalization by a particular date each year. The county boards of equalization meet at particular times to consider these appeals. If the taxpayer decides to further appeal the decision of the board of equalization regarding their assessment, they must appeal to the State Tax Commission by September 30th of the year in which the ruling was made. This act eliminates these deadlines for appealing property assessment, eliminates the specific time frames for meetings of the county boards of equalization, and requires the boards of equalization to render a decision within thirty days of the filing of the taxpayer's appeal.

Currently, a taxpayer is entitled to an award of the costs of appeal and reasonable attorney's fees on a challenge of the assessor's determination, if the assessor classifies real property under a classification that is contrary to or in conflict with a determination by the state tax commission or a court. This act requires that a taxpayer also receive the costs of appeal and reasonable attorney's fees when the assessor values the property incorrectly.

Provisions of this act are similar to SB 591 (2012) and HB 955 (2011).

EMILY KALMER

SS/SB 727 - This act, to be known as the "Low-Wage Trap Elimination Act", requires the Children's Division within the Department of Social Services, subject to appropriations, to implement a child care subsidy benefit pilot program in at least one rural county and in at least one urban child care center that serves at least 300 families by January 1, 2013, to be known as the "Hand-Up Program".

The Program will be voluntary, and shall be designed such that a participating recipient will not be faced with a sudden loss of full child care benefits should the recipient's income rise above the maximum allowable monthly income for persons to full receive child care benefits. The recipient shall be permitted to continue to receive such benefits if the recipient pays a premium to be applied only to that portion of the recipient's income above such maximum allowable monthly income for the receipt of child care benefits.

The premium shall be 44 percent of the recipient's excess adjusted gross income over the maximum allowable monthly income for the applicable family size for the receipt of child care benefits. The premium shall be paid on a monthly basis by the participating recipient. The Division shall develop a payroll deduction program in conjunction with the Department of Revenue, and shall promulgate rules for the payment of premiums owed under the Hand-Up Program. Participating recipients who fail to pay the premium owed shall be removed permanently from the Program after 60 days of non-payment.

Participating recipients may be eligible to receive child care service benefits at income levels all the way up to the level at which a person's premium equals the value of the child care service benefits received by the recipient.

Only those recipients who currently receive child care benefits as of joining the Program and who had been receiving child care service benefits continuously on or before August 28, 2012, shall be eligible to participate in the Program. Only those recipients who agree to the terms of the Hand-Up Program during a 90 day sign-up period shall be allowed to participate in the Program. A participating recipient shall be allowed to opt out of the Program at any time, but such person shall not be allowed to participate in the program a second time.

The Division shall issue an annual report to the General Assembly by January 1 2014, and annually on January first thereafter, detailing, among other requirements, the effectiveness of the pilot program in encouraging recipients to increase their income levels above the income maximum applicable to each recipient.

The "Hand-Up Program Premium Fund", is created and shall consist of premiums collected under this act. All premiums received under the Program shall be deposited in the fund out of which the cost of administering the hand-up program shall be paid, as well as the necessary payments to the federal government and to the state general revenue fund. Child care benefits provided under the Hand-Up Program shall continue to be paid for as under the existing state child care assistance program.

The Division shall pursue all necessary waivers from the federal government to implement the pilot program and shall promulgate rules to implement the provisions of the act.

This act contains a three-year sunset provision.

SB 728 - This act modifies provisions relating to veterans' affairs. The honorably discharged veteran

requirement is removed for administrative assistants working for the Missouri Veterans' Commission. Criteria for admission to veterans' homes is solely by veteran status as defined by the United States Department of Veterans. The health care services provided by a veterans' home is expanded to include skilled nursing care. Payments by residents of veterans' homes having a regular source of income is changed from the tenth to the last day of each month.

Funds issued to veterans' service officer programs from the Veterans Commission Capital Improvement Trust Fund can be used for training, outreach, or matching fund grants from other sources. The amount of funds paid out annually is increased from one million five hundred thousand to one million six hundred thousand dollars. A maximum of ten percent of this amount can be used for outreach and training. The training is to be between the veterans service organizations and the Missouri Veterans Commission, with the commission coordinating the training. The remainder of the amount paid out from the fund is for matching grants.

*** SB 731 ***

5232S.011

SENATE SPONSOR: Brown

SB 731 - This act establishes the child custody and visitation rights of a deploying military parent. A deploying parent is a military parent who has received written orders to deploy with the United States Army, Navy, Air Force, Marine Corps, Coast Guard, National Guard, or any other reserve component.

This act provides that if a deploying parent is required to be separated from a child, a court shall not enter a final order modifying the terms of custody or visitation contained in an existing order until 90 days after the deployment ends. Deployment or the potential for future deployment shall not be the sole factor supporting a change in circumstances or grounds sufficient to support a permanent modification of the custody or visitation terms established in an existing order.

EXISTING COURT ORDERS

This act provides that a custody or visitation order may be temporarily modified to make reasonable accommodation for the parties due to the deployment. Such temporary order shall also specify the terms of custody or visitation during the deployment and for when there is leave time for the deploying parent. Procedures are delineated for the deploying parent to obtain an expedited hearing in any custody or visitation matters.

This act requires the nondeploying parent to provide 30-day advance notice to the court and to the deploying parent of any change of address and contact information, except in instances where there is a valid order of protection in effect requiring the confidentiality of the nondeploying parent's contact information. In such instances the information shall only be given to the court.

AFTER DEPLOYMENT

A temporary modification shall automatically end no later than 30 days after the return of the deploying parent and the original terms of the custody or visitation order in place at the time of deployment are automatically reinstated.

The court may also conduct an expedited or emergency hearing within 10 days of the filing of a motion regarding custody or visitation upon return of the deploying parent in cases alleging an immediate danger or irreparable harm to the child. The nondeploying parent shall bear the burden of showing that reentry of the custody or visitation order in effect before the deployment is no longer in the child's best interests.

The court shall set any nonemergency motion by the nondeploying parent for hearing within 30 days of the filing of the motion and this shall take precedence on the court's docket.

DELEGATION OF VISITATION RIGHTS

Upon motion of the deploying parent or upon motion of a family member of the deploying parent with his or her consent, the court may delegate his or her visitation rights, or a portion of such rights, to a family member with a close and substantial relationship to the minor child or children for the duration of the deployment if it is in the best interest of the child. Such rights shall terminate by operation of law upon the end of the deployment, as set forth under the act. There is a rebuttable presumption that delegation of rights shall not be permitted in instances of domestic violence on the part of the family member seeking the delegated visitation rights.

ADDITIONAL PROVISIONS

This act specifies certain obligations the nondeploying and deploying parent have toward each other under any order entered. A deploying parent is required to provide a copy of his or her orders to the nondeploying parent promptly and without delay prior to the deployment.

This act prohibits a court from counting any time periods during which the deploying parent did not exercise visitation due to military duties when determining whether a parent failed to exercise such rights. This act also specifies that any absence of a child from the state during a deployment after an order for custody has been entered must be denominated as a temporary absence for the purposes of the Uniform Child Custody Jurisdiction and Enforcement Act.

This act specifies how the court may award attorney's fees and court costs.

This act is substantially similar to HB 1296 (2012).

SB 732 - Under current law, a person commits the Class A felony of first-degree drug trafficking if such person distributes, delivers, manufactures or produces more than 150 grams of powder cocaine. The person is not eligible for probation or parole if the quantity of cocaine is more than 449 grams. Under a separate provision, a person commits the Class A felony of first-degree drug trafficking if the person distributes, delivers, manufactures, or produces more than 2 grams of crack cocaine and probation and parole are not available if the quantity is 6 grams or more.

Also, under the crime of second-degree drug trafficking, a person who possesses, purchases, or bring into the state more than 150 grams of powder cocaine is guilty of a Class B felony, which becomes a Class A felony if the quantity involved is 450 grams or more. Under a separate provision, the possession, purchase, or movement into the state of more than 2 grams of crack cocaine is a Class B felony, which becomes a Class A felony if the quantity involved is 6 grams or more.

This act repeals the provisions specific to crack cocaine in the first- and second-degree drug trafficking statutes, so that the punishment for trafficking a certain amount of powder cocaine is the same punishment for trafficking the same amount of crack cocaine.

SB 739 - This act grants the authority to administrative hearing officers from the Department of Social Services to set aside or correct administrative child support decisions or orders and proposed administrative modifications of a judicial order. Such authority to set aside or correct decisions, orders or modifications must be done after written notice and an opportunity to respond to all parties. The act specifies the conditions and time frame under which the corrections can be made due to oversights and omissions or errors arising from mistake, fraud, surprise, misrepresentation, excusable neglect or inadvertence.

In cases of lack of jurisdiction, the hearing officer may, after notice to the parties, on his or her own initiative or upon the motion of any party or the Family Support Division, vacate the administrative order or proposed administrative modification of a judicial order if it is found the order, decision or modification was without subject matter or personal jurisdiction or due process and the order, decision or modification had not been filed with the court. No order, decision or modification may be vacated after 90 days from the mailing of the administrative decision, order, or proposed modification of a judicial order.

This act also specifies however, that no corrections shall be made during the court's review of the applicable administrative decision, order or proposed order as authorized under the judicial review procedures for such administrative decisions under Chapter 536, RSMo.

SB 742 - This act outlines the requirements for a health carrier to credential a health care practitioner within 60 days of receiving a completed application and to pay the practitioner for treatment services pending approval. "Credentialing" is defined as a health carrier's process of assessing and validating the qualifications of a practitioner to provide patient care services and act as a member of the health carrier's provider network. "Completed application" is defined as a practitioner's application to a health carrier that seeks such authorization for the practitioner to provide patient care services as a member of the health carrier's network and does not omit any information which is clearly required by the application form or the accompanying instructions.

The sixty-day deadline established in this act shall not apply if the application or subsequent verification of information indicates that the practitioner has:

- (1) A history of behavioral disorders or other impairments affecting the practitioner's ability to practice, including but not limited to substance abuse;
- (2) Disciplinary actions against the practitioner's license to practice imposed by any state or territory or foreign jurisdiction;
- (3) Had the practitioner's hospital admitting or surgical privileges or other organizational credentials or authority to practice revoked, restricted, or suspended based on the practitioner's clinical performance; or
- (4) A judgment or judicial award against the practitioner arising from a medical malpractice liability lawsuit.

The Department of Insurance, Financial Institutions and Professional Registration shall establish a mechanism for reporting alleged violations of this act to the Department. Repeated violations of this act by a health carrier shall constitute an unfair trade practice in the business of insurance.

Within 10 business days of receiving a completed application from a practitioner, a health carrier shall permit a practitioner to bill and be paid directly by the insurer for providing treatment services as of the date of receipt of the credentialing application to the enrollees of the health carrier while the credentialing application is under review except under specified limitations which are listed in the act. Some of the limitations include limiting the payment rate, refusing to list the practitioner in a directory or allowing a practitioner to be designated as an enrollee's primary care physician.

Nothing in this act shall require a health carrier to pay for treatment services which are excluded from the health carrier's benefit plan.

This act is identical to HB 1490 (2012)

SB 745 - This act provides that the constitutions and laws of the United States and the state of Missouri shall be interpreted, construed, applied, and enforced to fully protect the rights of an alternatives-to-abortion agency and its officers, agents, employees and volunteers to freely assemble and to freely engage in religious practices and speech without governmental interference.

A political subdivision of this state is preempted from enacting, adopting, maintaining, or enforcing any order or other similar measure that prohibits, restricts, limits, controls, directs, interferes with, or otherwise adversely affects an alternatives-to-abortion agency or its officers, agents, employees, or volunteers' assembly, religious practices, or speech, including but not limited to counseling, referrals, or education of, advertising or information to, or other communications with, clients, patients, other persons, or the public.

Nothing in this act shall preclude or preempt a political subdivision of this state from exercising its lawful authority to regulate zoning or land use or to enforce a building or fire code regulation, provided that such political subdivision treats an alternatives-to-abortion agency in the same manner as a similarly situated agency and that such authority is not used to circumvent the intent of this section.

Alternatives-to-abortion agencies under this act include maternity homes and pregnancy resource centers as defined under current law or an agency or entity that has the primary purpose of providing services or counseling to pregnant women to assist such women in carrying their unborn children to term instead of having abortions, and to assist such women in caring for their dependent children or placing their children for adoption.

A court may order injunctive relief, recovery of damages, or both, as well as payment of reasonable attorney's fees, costs, and expenses or any other remedies permitted by law.

This act is identical to HB 1357 (2012).

SB 750 - This act modifies provisions relating to advertising by health care providers. Advertisements by health care providers must identify the type of license they hold. The advertisements can't be deceptive or misleading.

Physicians cannot hold themselves out to the public as being certified by a board unless they identify the

board by its full name and include the specialty being certified. The certifying board must also meet one of the following three criteria: the board is a member board of certain physician associations; the board is deemed equivalent to the American Board of Medical Specialities by the Missouri Board of Registration for the Healing Arts; or the physician has a prior certification from a qualifying board and the board from which the physician seeks certification requires completion of a residency program meeting certain criteria.

A health care provider cannot knowingly aid, assist, procure, employ, or advise a person to engage in an act contrary to the health care provider's degree of licensure. The health care provider also cannot delegate the performance of duties to persons not having the required authority to perform.

Health care providers violating the provisions of this act will be subject to discipline by their respective licensing board.

SENATE SPONSOR: Kehoe

SB 752 - This act authorizes the Missouri Highways and Transportation Commission to form a Public-Private Partnership by contract with a private partner to finance, develop and operate I-70 as a toll facility.

PROPOSALS - A potential private partner may submit to the commission an request for approval to finance, develop or operate I-70 as a public private partnership (Section 227.206). The commission must publish a public notice of the commission's request for proposals, including any deadline for submission of such proposals. The notice shall be published once a week for two consecutive weeks in:

- (1) A newspaper of general circulation in the city where the proposed project is located;
- (2) At least one construction industry trade publication that is nationally distributed; and
- (3) Such other publications or manner as the commission may determine (Section 227.709).

PROJECT PROPOSAL REVIEW - The commission shall establish a process for the receipt and review of a request for approval or request for proposal. The commission must establish, prior to the receipt and review of any request for approval or response to a request for proposal, a policy that prohibits a private partner from being eligible to enter into an interim or comprehensive agreement with the commission to finance, develop, or operate the project if such private partner is known to sponsor terrorism or aid the government of countries that are known to sponsor terrorism (Section 227.712).

PROJECT APPROVAL - The commission may by commission minute approve the project if the commission determines the project will improve and is a necessary or desirable addition to the state highway system (Section 227.715).

SELECTION CRITERIA - The commission is not required to award a project based on the lowest price, but may also consider design, financing plan and the private partner's qualifications, industry experience and financial capacity to determine if the project is the best value for the state.

The commission may execute an interim agreement with the tentatively approved private partner to authorize

it to commence specific compensable activities to further the development of the project (Section 227.718).

COMPREHENSIVE AGREEMENT REQUIRED - As a condition to granting its final approval of the private partner, the commission shall execute a comprehensive agreement with the private partner with certain provisions to be included, such as: (1) review and approval of private partner plans and specifications; (2) a detailed financing plan; (3) any other provisions the commission and private partner deem appropriate (Section 227.721).

TERMINATION OF NEGOTIATIONS - The commission may terminate negotiations with a potential private partner during the interim or comprehensive agreement phase as well as reject any and all requests for approval and responses to a request for proposal (Section 227.724).

CLOSED RECORDS - Any information submitted to the commission by potential private partners in requests for approval or responses to a request for proposal shall be a closed record under the state open records law. After execution of a comprehensive agreement, the agreement and other materials submitted to the commission by the private partner are open records (Section 227.727).

PRIVATE PARTNER GENERAL POWERS - Under the terms of the act, several powers may be exercised by the private partner, including: (1) contract with any public or private entity; (2) lease or operate the project for any term as provided in the comprehensive agreement; (3) collect and enforce tolls for the use of the project; and (4) any other powers delegated to the private partner by the commission in the comprehensive agreement (Section 227.730).

FINANCIAL STABILITY AND INTEGRITY OF THE PRIVATE PARTNER - Under the terms of the act, private partners are required to provide to the commission's satisfaction and approval: (1) securities and warranties; (2) annual audited financial statements; (3) evidence of sufficient commercial general liability insurance and workers' compensation insurance; and (4) performance and payment bonds (Section 227.733).

COMMISSION GENERAL POWERS - Under the terms of the act, the commission may exercise several powers, including: (1) delegating any of its powers under the act to the department of transportation; (2) promulgating administrative rules to implement the provisions of the act; and (3) making all final determinations regarding the performance and acceptance of the work (Section 227.736).

TOLL AUTHORITY - The commission or the private partner may impose tolls on I-70 and authorize the private partner to collect and enforce the tolls. The rate of the tolls will be set in the comprehensive agreement between the commission and the private partner, and all revenue from tolls will be deposited into the State Road Fund or into a trust account as provided under the comprehensive agreement (Section 227.739).

STATE OR FEDERAL ASSISTANCE - Under the act, the commission may take any action to obtain federal, state, or local government or private sector assistance for the project and may enter into any contracts required for such assistance. In the comprehensive agreement, the commission may agree to loan moneys received from any federal, state, or local government or the private sector to the private partner to finance, develop or operate the project.

INDEBTEDNESS, BONDS AND FINANCING - The private partner may incur debts and issue bonds to finance the project. All private partner bonds issued to finance the project shall be exempt from state taxes, except the state estate tax. Bonds issued by the private partner will not be a liability of the commission or the state of Missouri. The commission may also issue state road bonds and loan the proceeds to the private partner (Section 227.745).

EXEMPTION FROM CERTAIN TAXES- Any revenues received under the act shall be exempt from state income tax. Purchases made by a private partner for use in completing the toll project shall be exempt from various sales taxes. Property financed, developed, or operated by a private partner shall be exempt from all state and political subdivision ad valorem and property taxes (Section 227.746).

PROJECT DELIVERY - The private partner may use any project procurement method for the efficient financing, development or operation of I-70. The state limitation on the number of design-build contracts authorized to be let by the commission shall not apply to the I-70 project. Any interim or comprehensive agreement entered into by commission and a private partner may exempt the project from the state's general procurement laws in Chapter 34 (Section 227.748).

DBE PLAN - Under the act, the private partner must have a disadvantaged business enterprise (DBE) participation plan (Section 227.751).

AUTHORITY TO LEASE RIGHT-OF-WAYS AND EASEMENTS - The commission may lease the project and any interest it has in real property to the private partner (Section 227.754).

CONDEMNATION POWERS - The commission may condemn lands for the project in the name of the state of Missouri. If condemnation becomes necessary, the commission shall act under state law and may condemn a fee simple or other interest in land. Any amounts to be paid in such condemnation proceeding shall be paid by the private partner under the comprehensive agreement. The private partner may, after prior notice to the owner to enter upon the private property subject to the taking, survey, and determine the most advantageous route and design. The private partner shall be liable for all damages to the property resulting from such inspection (Section 227.757).

TOLL COLLECTION AND ENFORCEMENT - The private partner may use any method for collecting and enforcing tolls, including toll barrier facilities and electronic recording devices (Section 227.760). Motor vehicle owners who fail to pay a required toll are guilty of infractions. The fines for such infractions shall not exceed \$200. The act also provides that certain written reports, telephone calls and photo monitoring system evidence indicating that tolls have not been paid shall be admissible in evidence. The act establishes other procedures for the enforcement of toll collections and the issuance of traffic citations (Section 227.760).

TORT LIABILITY - Under the act, specific tort liability caps are established for the private partners and the named insureds in coverage and amounts equal to the sovereign immunity per person (now \$392,734) and per occurrence (now \$2,618,230) cap limitations. Commercial general liability insurance policies purchased by the private partner shall not be used to expand the coverage and amount of the tort liability caps imposed by the act (Section 227.763).

MATERIAL DEFAULT - If the private partner defaults on the comprehensive agreement, the commission may terminate the agreement and seek whatever legal or equitable remedies are available, make a claim under the performance bonds, condemn any real property interest the private partner has in the project or collect and enforce the tolls for the use of the project (Section 227.766).

ANNUAL STATUS REPORT - Under the act, the commission is required to make an annual status report on the project as part of the annual report submitted to the Joint Committee on Transportation Oversight. The annual report shall assess the advantages and disadvantages of the public-private partnership method of financing, developing, or operating the project (Section 227.769).

SB 758 - This act modifies the provisions relating to hotline calls received and investigations of suspected child abuse or neglect conducted by the Children's Division within the Department of Social Services.

HOTLINE CALLS AND INVESTIGATIONS

The act requires each hotline and division case worker and the circuit manager of the county where an investigation occurs that involves a case of a child's death or serious injury to receive a preliminary evaluation by the division to determine if a performance assessment to assess if the worker's or manager's ability to competently perform his or duties is required. If an assessment is required, it shall be completed within three days of the child's death.

The Children's Division is also required to review a case when three or more calls regarding the same child are made to the hotline within a 72-hour time period to determine if the calls meet the criteria and statutory definition for a child abuse and neglect report to be accepted. The review shall include contacting the hotline caller or callers to collect information if the calls meet the criteria for harassment. A hotline worker is required to instruct an individual to call 911 when a child may be in immediate danger.

HOME VISITS

Division workers responding to a child abuse and neglect investigation are prohibited from calling prior to a home visit or leaving a business card, pamphlet, or other similar identifying information at a residence if: (1) no person is present at the time of home visit and the alleged perpetrator resides in the home or the child's safety may be compromised if the alleged perpetrator becomes aware of the visit; (2) the alleged perpetrator becomes aware of the attempted visit; or (3) the family has a history of domestic violence or fleeing the community.

If the alleged perpetrator is present during the visit, a division worker responding to or investigating a child abuse and neglect report shall provide written material to the alleged perpetrator informing the person of his or her rights regarding the visit, including the right to contact an attorney. The alleged perpetrator shall be given a reasonable amount of time, not to exceed five minutes, to read the material or have the material read to him or her before the visit commences. This requirement shall not apply in a case where the child faces an immediate threat or danger or if the person responding to or investigating a report feels threatened or in danger or physical harm.

This act is identical to HCS/HB 143 (2011).

*** SB 759 ***

5616S.011

SENATE SPONSOR: Lager

SB 759 - The act modifies the state Renewable Energy Standard (RES), which prescribes certain

percentages of electricity sales by electric companies that must come from renewable energy sources.

The act removes the 2% requirement for the years 2011 to 2013, increases the minimum requirement from 5% to 7% for years 2014 to 2017, and increases the minimum requirement from 10% to 12% for years 2018 to 2020. The act removes the current requirement that at least 2% of the RES must be met with solar energy.

Renewable energy credits (RECs) for energy produced anywhere in the continental U.S. may be used to meet the RES through calendar year 2016, but after that, only RECs associated with energy generated in Missouri or any of its bordering states may be used.

The act provides an exemption to the RES if the utility's cost of compliance exceeds the total amount recovered from ratepayers for the RES. The costs to the utility for renewable energy resources that it would have acquired or contracted to use regardless of the RES are not to be included in the cost calculation of compliance with the RES.

The act allows the utility to charge its customers a surcharge to recover the costs of compliance with the RES. The total revenue from the surcharge should not generate more than an additional 1% of the utility's base rate portion of its revenue requirement as determined in the utility's most recent general rate case prior to the calendar year of the surcharge. The surcharge may be applied beginning in calendar year 2013 and each year thereafter. Any overrecovery or underrecovery of actual costs from the surcharge must either be returned to, or collected from, ratepayers during the following calendar year.

The act describes how a utility should calculate its gross and net costs of compliance with the RES. Net cost is determined by subtracting from the gross cost the total value of the energy produced from the renewable energy resources, where the total value of the energy is the amount of energy multiplied by the time-differentiated kilowatt-hour price as set in the utility's rate tariffs.

Under current law, the monetary penalty for non-compliance with the RES is at least twice the average market value of RECs. The act modifies this amount to at least twice the per kilowatt-hour price for the utility.

The act modifies the solar rebate provisions. Solar rebates must be available to customers who install and operate solar electric systems on their property after 2012, instead of 2009. The rebate must be \$2 per watt in the year 2013, with the amount of the rebate reduced by 25 cents each year thereafter. No solar rebates are required to be offered after the year 2020. Customers who receive solar rebates must transfer all rights, title, and interest in any RECs associated with the solar energy to the utility for ten years.

Under current law, any energy facilities certified as renewable by the Department of Natural Resources must not cause certain undue adverse environmental impacts. The act removes this provision and instead specifies that any renewable energy facility that meets all laws and regulations is deemed to meet all requirements for certification.

The act requires electric companies to be able to recover RES costs from their ratepayers through use of the RES surcharge, regardless of a previous decision made by the Public Service Commission as specified.

The Department of Natural Resources must charge and collect from electric companies an assessment to fund the Department's costs to develop biomass energy projects. Revenue from the assessment will be deposited in the Agricultural Energy Fund, which is created in the act.

SB 761 - This act modifies the law regarding trusts to specifically allow for the appointment of a trust protector. The trust protector is a person who is given power over the trust by the document that creates the trust.

The trust protector's powers may include: the power to remove and appoint a trustee, or name a successor trust protector, the power to modify or amend the documents that created the trust, the power to modify the interests of a beneficiary of the trust, the power to terminate the trust in favor of the beneficiary, the power to change which law applies to the trust and which state the trust is located in, and any powers that are expressly included in the trust documents.

The trust protector is not a trustee but shall act in a fiduciary capacity in carrying out the duties and powers granted by the trust instrument to the trust protector. The trust protector will not be liable for his or her acts or omissions unless they are done in breach of the trust protector's duty, in bad faith, or with reckless indifference. Unless it is established that the trust protector acted in bad faith or with reckless indifference, the trust protector will be reimbursed from the assets of the trust for the costs and expenses of defending a lawsuit against him or her. A trust protector is entitled to reasonable compensation from the trust assets for carrying out the powers given to them by the trust document.

The act also provides that the trust protector is entitled to certain information about the trust, provides authority for a trust protector to resign by providing written notice to the trustee, and specifies that the courts have jurisdiction over a trust protector while the administration of the trust is in Missouri.

This act is similar to HB 1166 (2012).

SB 762 – This act allows proposed or existing high risk or alternative charter schools to include alternative arrangements for students to obtain credits for satisfying graduation requirements in the charter application and charter. Alternative arrangements may include credit for off-campus instruction, performance-based credit, embedded credit, work experience, independent studies, and performance-based credit options. Upon approval of the charter by the State Board of Education, any alternative arrangements will be approved at the same time. Performance standards for alternative and special purpose charter schools that target high-risk students must be based on measures defined in the school's charters with its sponsor.

The Department of Elementary and Secondary Education must conduct a study of any such charter school granted alternative arrangements for students to obtain credit to assess student performance,

graduation rates, educational outcomes, and entry into the workforce or higher education.

This act also modifies the definition of "high risk" student. (Section 160.405)

This act requires charter schools whose mission includes student drop-out prevention or recovery to enroll nonresident pupils from the same or an adjacent county who reside in residential care facilities, transitional living group homes, or independent living programs, whose last school of enrollment is in the school district where the charter school is established, who submit a timely application. Preference will be given to resident pupils over non-resident pupils if there is insufficient capacity. Charter schools may also give an admissions preference to high-risk and dropout students. (Section 160.410)

This act also allows charter schools to participate in the School Flex Program. In addition, the program will be expanded to include students ages seventeen to twenty-one who have not obtained a high school degree, who meet the other program requirements. An eligible student who has been unable to obtain employment may provide evidence that he or she has been seeking employment to be eligible. (Section 160.539)

This act is substantially similar to SB 294 (2011), HB 897 (2011), SB 835 (2010) and similar to HCS/HB 473 (2011), SB 317 (2009), SB 64 (2009), and SB 1027 (2008).

SENATE SPONSOR: Schaefer

SB 764 – This act modifies provisions relating to Missouri's open records law, commonly known as the Sunshine Law.

The definition of a "public body" is modified to include quasi-public governmental bodies that act on behalf of a public body and are funded wholly or in part by a public body, as well as any Missouri high school athletic association that receives public funds. The definition of a "public record" is modified to include any lease, sublease, or similar rental instrument entered into by a public body, or any other agreement for the rental, construction, or renovation of a facility.

Currently, public bodies must provide notice of meetings to members of the news media who request such notices. This act requires the public body to also provide notice to any member of the public who requests it. The act provides that the public body cannot act on or discuss any item not appearing on the agenda, except for brief responses to the question from the public present at the meeting. Currently, a public body must provide 24 hours notice of a meeting. This act changes the time to 48 hours, with the exception of the General Assembly which must continue to provide 24 hours notice. Minutes of meetings must reflect the closed meeting discussions, but shall not require the disclosure of properly closed records.

The act modifies provisions regarding bases for closing a meeting or record. Public disclosure in an open meeting is required for certain legal matters upon final disposition. Such disclosure shall be done orally or in writing and must occur at the next scheduled open meeting of the body, or at the resumption of a recessed open meeting. When a body closes a meeting or record relating to a "cause of action", the body must have received evidence that a lawsuit has been filed or shall have correspondence indicating a lawsuit shall be filed. Certain individually identifiable personnel records may currently be closed. The act exempts from this closure any records of former employment for employees of public schools and charter schools. Certain bases for closure relating to operational guidelines and security systems are set to expire on December 31, 2012. This act extends the sunset to December 31, 2016.

If a public body closes a meeting, only members of the body, their attorney and staff assistants, as well as any person necessary to provide information, shall be permitted in the meeting.

The custodian of records for a public body is encouraged to create and maintain an index of all public records maintained by the body. If records are requested in a particular format, the public body shall provide the records in such format, if the record is readily reproducible in that format. Effective January 1, 2013, all public bodies acquiring new data processing programs shall ensure that such programs allow for copying of data in an easily accessible format. If a public body is required to separate exempt and non-exempt material, it shall do so at the body's expense.

Currently, a member of public body that transmits any public business message by electronic means must transmit the message to the custodian of records. This act provides that a mobile communication device is considered an electronic means.

Currently, a public body can charge for research time in response to a request for records. This act provides that research time shall only include the time reasonably spent in locating the subject records, but shall not include time spent in reviewing the records to determine if the records are open or closed.

In actions against a public body for violations of the Sunshine Law, current law requires the person bringing the action to demonstrate that the body is subject to the Sunshine Law and held a closed meeting. Then the burden is on the body to demonstrate compliance with the Law. This act removes this language and provides that there is a presumption that a meeting, record, or vote is open to the public. The burden is on the body to prove that such meeting, record, or vote may be closed. Currently, a knowing violation of the Sunshine Law subjects the body or member to a civil penalty of up to \$1,000. This act removes the "knowing" element and lessens the fine to \$100. For such violations, the court shall, rather than may, order the payment of costs and attorneys fees to the party establishing the violation. Also, this act removes the ability of a public body to seek the formal opinion of the Attorney General or an attorney for the public body when it is in doubt about the legality of closing a meeting.

The act modifies the definition of an "incident report" to provide that the report must include the home address of the victim. Such address may be redacted in certain crimes involving domestic violence, forcible rape, sexual assault or stalking. Any member of the media operating within the state of Missouri shall, upon request, obtain a complete unaltered and unedited incident report, with the exception of the home addresses of certain victims described in this paragraph. In actions seeking disclosure of an investigative report of a law enforcement agency, the court shall, rather than may, award costs and attorneys fees if it finds the decision of the law enforcement agency not to open the report was substantially unjustified.

SCS/SBs 767, 653, 754, 705, 441, 528, 831, 833 & 847 - This act designates several highways and creates numerous special license plates.

NAVY CROSS SPECIAL LICENSE PLATE - This act allows recipients of Navy Cross medals to apply for and receive Navy Cross special license plates. Navy Cross recipients who desire Navy Cross special license plates must pay \$15 in addition to regular registration fees. The fee for personalizing such plates is waived (Section 301.3052).

SGT. ISSAC B. JACKSON MEMORIAL HIGHWAY - This act designates a portion of Missouri Route 116 located in Clinton County as the "Sgt. Issac B. Jackson Memorial Highway". The Department of Transportation shall erect and maintain appropriate signs designating such highway, with the costs to be paid for by private donation. This provision is from SB 653 (2012)(Section 227.307).

SPC. JAMES BURNETT, JR. MEMORIAL HIGHWAY - This act designates a portion of Missouri Route 25 in Stoddard County from the city limits of Advance to one mile south of the city limits as the "Sp. James Burnett, Jr. Memorial Highway". The Department of Transportation shall erect and maintain appropriate signs designating such highway, with the costs to be paid for by private donation. This portion of the act is from SB 754 (2012)(Section 227.395).

MISSOURI FOX TROTting HIGHWAY - This act designates a portion of Highway 5 between the city of Ava and Mansfield as the "Missouri Fox Trotting Highway". The costs of such designation shall be paid for by private donation. The portion of the act is identical to SB 831 and HB 1107 (2012)(Section 227.501).

BOB WATTS MEMORIAL BICYCLE & PEDESTRIAN BRIDGE - This act designates the pedestrian and bicycle path on the Heart of America Bridge in Kansas City as the "Bob Watts Memorial Bicycle & Pedestrian Bridge". This portion of the act is identical to SB 833 and HB 1261 (2012)(Section 227.503).

DARRELL B ROEGNER MEMORIAL HIGHWAY - This act designates a portion of 64/40 in St. Charles County shall be designated the "Darrell B Roegner Memorial Highway". Costs for such designation shall be paid by private donations. This portion of the act is identical to SB 847 and HB 1737 (2012)(Section 227.509).

BREAST CANCER AWARENESS SPECIAL LICENSE PLATES - This act modifies the law with respect to the Breast Cancer Awareness Trust Fund and the issuance of Breast Cancer Awareness special license plates. Under the act, moneys transferred to the trust fund shall be distributed by the Director of Revenue to the Department of Health and Senior Services (current law directs it to the Friends of Missouri Women's Council). The act also modifies the Breast Cancer Awareness license plate statute by removing all references to the Missouri Women's Council. The act requires the \$25 annual contribution for the Breast Cancer Awareness license plate to be deposited in the Missouri Public Health Services Fund to support breast cancer awareness activities conducted by the Department of Health and Senior Services. This portion of the act is from SB 705 (2012)(Sections 143.1009 and 301.3084).

MISSOURI JUNIOR GOLF FOUNDATION SPECIAL LICENSE PLATES - This act allows motorists to obtain Missouri Junior Golf Foundation special license plates. In order to obtain Missouri Junior Golf Foundation license plates, a motorist must pay a \$25 emblem-used contribution fee to the Missouri Junior Golf Foundation. After obtaining an emblem-use authorization statement from the Missouri Junior Golf Foundation, the motorist must pay a \$15 fee to the Department of Revenue in addition to regular registration fees. A motorist who was previously issued Missouri Junior Golf Foundation plates and who does not provide an emblem-use authorization statement at a subsequent time of registration will be issued new plates which do not bear the Missouri Junior Golf Foundation's emblem. This portion of the act is from SB 441 (2012) (Section 301.473).

I HAVE A DREAM SPECIAL LICENSE PLATES - This act allows motorists to obtain "I HAVE A DREAM" special license plates after making an annual contribution of \$25 to the Martin Luther King Jr. State Celebration Commission Fund. The act requires all contributions be credited to the Martin Luther King Jr. State Celebration Commission Fund. Moneys in the fund shall be used for the sole purpose of funding appropriate activities for the recognition and celebration of Martin Luther King, Jr. Day in Missouri. Upon payment of the \$25 contribution to the Martin Luther King Jr. state celebration commission fund, the payment of a \$15 fee in addition to regular registration fees, and the presentment of other legal documents, the director shall issue to the vehicle owner the "I HAVE A DREAM" special license plates. The act requires the director to consult with the Martin Luther King Jr. State Celebration Commission and the Office of Administration when formulating the design for the "I HAVE A DREAM" special license plate. This portion of the act is from SB 528 (2012)(Section 301.3165).

SB 771 - This act specifies the duties and liabilities of ski area operators and skiers. Skiers assume the risk of and legal responsibility for injury, death, or loss to person or property that results from the activity of skiing. Ski area operators will not be liable to the users of freestyle terrain parks or tubing parks for collisions with other persons or the conditions of the park so long as the users are allowed to visually inspect the course prior to use and such an inspection would have revealed the dangerous condition.

The duty of ski area operators owed to skiers is not the same as the common law duty owed business invitees but that of an ordinarily prudent person in a similar circumstance. Ski area operators must mark certain areas and conditions of the ski slopes. They also must allow users of terrain parks and tube parks to visually inspect the course prior to use. Skiers have a duty to ski within their range of abilities, refrain from acting in a way that may cause injury to anyone, and assist when involved in a skiing accident.

SB 772 - This act creates the "Abortion-inducing Drugs Safety Act" and delineates the procedures for prescribing and administering the drug RU-486 (mifepristone) or any other drug administered for the purpose

of inducing an abortion.

This act provides that no person who is not a physician shall knowingly prescribe or administer the drug RU-486 or any other abortion-inducing drug. Prior to prescribing the drug, the physician shall have, at least 24 hours prior to the administration of the drug:

- Complied with all other legal requirements for an abortion to be performed or induced;
- Physically examined the patient;
- Documented in the patient's medical record the gestational age and whether there was an ectopic pregnancy; and
- Provide the patient with a copy of the Food and Drug Administration (FDA) approved label or labels for the drug regardless of whether the drug has been approved by the FDA or the drug manufacturer to induce an abortion.

This act also provides that the drug RU-486 or any other abortion-inducing drug, including a drug administered during a subsequent visit to complete the abortion, shall only be administered in a hospital or in an abortion facility in the physical presence of a physician and not via the internet or webcam or any other video device.

The abortion facility shall also be licensed as an ambulatory surgical center if any second or third trimester abortions or five or more first trimester abortions per month are induced at the facility. A physician is prohibited from prescribing or administering the abortion-inducing drug unless he or she has: (1) clinical privileges at a hospital which offers obstetrical or gynecological care located within 30 miles of the location at which the abortion is induced and (2) privileges at the hospital or at the abortion facility where the drug or drugs were administered to perform surgical intervention, including but not limited to surgical abortion.

If a patient who was administered the drug decides to carry her unborn child to term before the abortion is completed, the patient must immediately be referred to another physician to receive medical assistance for herself and the unborn child. A physician who prescribes or administers such drugs must obtain, in addition to all other medical malpractice requirements, a tail or occurrence-based insurance policy of at least \$1 million per occurrence and \$3 million in the aggregate per year for damages for the personal injury to or death of a child who is born alive after an attempted abortion. The insurance must remain in full force and effect until the child reaches his or her twenty-first birthday, or later under the current statute of limitations for medical malpractice actions.

Any person who is not a physician who prescribes or administers such drugs will be guilty of a class C felony, except that, if prescribed or administered without the knowledge or consent of the patient, he or she will be guilty of a class B felony. A physician who violates any other provision of the act will be guilty of a class A misdemeanor.

This act is identical to HB 1274 (2012).

SENATE SPONSOR: Richard

SB 777 - This act modifies certain requirements of tax increment financing laws for redevelopment areas where a majority of the property is located within an area affected by certain natural disasters.

This act allows municipalities to adopt redevelopment plans for the purpose of tax increment financing where a majority of the property in the redevelopment area is within a disaster area without a finding that the redevelopment area would not reasonably be anticipated to be developed without tax increment financing. The municipality is also authorized to provide information regarding the financial feasibility of the redevelopment plan itself, rather than requiring the developer to provide it. For a redevelopment project to be eligible for the provisions of law regarding tax increment financing in disaster areas, the municipality must approve the redevelopment project within two years after the date the President declares the disaster.

Where a redevelopment area contains a disaster area, all or part of the taxing district's operating costs and debt services costs from the redevelopment project may be included in redevelopment project costs, in addition to the costs that current law allows other redevelopment projects to include.

Current law allows, under the State Supplemental Tax Increment Financing program, for the General Assembly to appropriate funds to the Department of Economic Development to provide to municipalities with approved projects in an amount up to fifty percent of the increase in state income tax revenue from new jobs in the project area, or in an amount up to fifty percent of the incremental increase in the general revenue portion of the state sales tax. Under this act, beginning August 28, 2012, the General Assembly may appropriate funds to the newly created Missouri Supplemental Disaster Recovery Fund for the Department of Economic Development to provide to municipalities with approved redevelopment projects in disaster areas in an amount up to fifty percent of the total of: 1) the increase in the amount of income tax employers withhold from all employees of businesses located in the project area; and 2) the incremental increase in the general revenue portion of state sales tax revenues. Particular municipalities will also be allowed to receive additional amounts from this fund, if the amounts are requested by the Department of Economic Development through appropriations.

This act contains an emergency clause.

This act is similar to HB 8 (1st Ext. Session 2011).

SB 782 – This act creates a one dollar check-off on the Missouri individual income tax form and a two dollar check-off on the corporate income tax form. The money designated for the check-off will be deposited into the Lupus Revolving Research Trust Fund, which is created in this act and which shall be administered by the Department of Health and Senior Services.

The fund shall be a dedicated fund, and upon appropriation, money in the fund shall be used solely as provided under this act. The check-off is primarily for taxpayers who are to receive a refund. However, taxpayers who owe taxes may also contribute to the fund and any taxpayer may elect to contribute more than the one or two-dollar amount. The director of revenue shall deposit at least monthly all contributions designated by individuals under this act to the state treasurer for deposit to the fund.

This act also establishes in the Department of Health and Senior Services a Lupus Research Enhancement Program through which the department shall make grants to state academic medical institutions in this state that currently conduct or have an interest in conducting basic and clinical, social, translational, technological, epidemiological, and behavioral research on Lupus.

In establishing its research priorities, the department shall consult with the Lupus Research Advisory Council which is also created under this act and established within the department in order to consider a broad range of cross-disciplinary lupus research. The list of members and the duties of the council are delineated under the act but shall include reviewing submitted applications for grants from the lupus revolving research trust fund and offering recommendations, consulting with leading health organizations on Lupus research, and submitting on or before December thirty-first of each year a report to the general assembly on grants made, grants in progress, program accomplishments, and future program directions.

The provisions of this act will automatically sunset six years from the effective date of the act.

5721S.011

SENATE SPONSOR: Curls

SB 783 - This act modifies provisions of the Distressed Areas Land Assemblage Tax Credit.

Currently, an applicant for this tax credit is entitled to a tax credit in an amount equal to fifty percent of the applicant's acquisition costs, which includes among other things the cost of demolishing vacant buildings, and for a five-year period, one hundred percent of the applicant's interest costs. These acquisition costs include the reasonable costs of maintaining an eligible parcel of land for a five-year period after acquiring the parcel. This act eliminates the five-year time limitation on receiving a tax credit for maintenance costs and interest costs, and allows the applicant to receive a tax credit equal to one hundred percent of the reasonable costs of demolition, rather than a tax credit equal to fifty percent of the demolition costs.

Currently, for a developer to be eligible for a tax credit under this program the redevelopment agreement between the developer and the municipal authority must prohibit the developer from redeveloping more than 75 percent of the area identified in the redevelopment plan. This act eliminates this restriction for projects in a specific type of redevelopment area.

Currently, the average number of parcels per acre in an area that is eligible for the developer to receive tax credits under this program must be four or more. This act eliminates this requirement for projects in a specific type of redevelopment area.

This act also allows a developer applying for the tax credit to file for the credit on a quarterly basis, rather than annually.

This act increases the cap on the amount of tax credits that can be issued under this program each year from 20 to 30 million dollars. The act also divides the amount of tax credits that can be issued each year into two pools. If there is more than one applicant entitled to tax credits in that year, then half of the annual amount of money will go to projects in a specific type of redevelopment area and half for areas located in other project areas. If the Department of Economic Development does not issue tax credits equal to all of each pool of money by December 15th, the other kind of projects can get the remaining money in the other pool.

Currently, the Department of Economic Development is prohibited from authorizing tax credits under this program after August 28, 2013. This act extends the amount of time the department can authorize tax credits under this program until August 28, 2016.

If projects in the specific type of redevelopment area created by this act do not promote, grow, or retain significant employment, then after January 1, 2016, the Department of Economic Development can reduce or modify state assistance or tax credits to the applicant for the Distressed Areas Land Assemblage tax credit program, except the department cannot reduce the credits granted under this tax credit program, and the department cannot modify other state assistance in an amount that is more than the tax credits granted to the applicant under this tax credit program.

SB 787 - This act authorizes the expungement of certain criminal records after ten years have elapsed since the person has completed his or her imprisonment, period of probation, or period of parole and has not been convicted of or been placed on probation for any misdemeanor or felony during that time.

The crimes eligible for expungement include felonies, misdemeanors, infractions, and municipal offenses other than certain specified violent crimes and crimes that require registration on the sex offender registry.

To expunge a criminal record under this act, the person must file a petition in the civil division of the circuit court in a county where any of the arrests, pleas, trials, or convictions occurred. Once expunged, the court records and files will be confidential and only available to the parties or by order of the court for good cause shown. The expungement also restores all rights to the person as if the crime had never occurred.

The clerk of the court is required to assess a \$500 surcharge on all petitions for expungement. Moneys collected are payable to the General Revenue Fund.

This act repeals Section 577.054, RSMo, which allows for the expungement of a first alcohol-related driving offense after a period of ten years, because the act's expungement provisions will apply to alcohol-related driving offenses.

This act is similar to HB 75 (2011).

SENATE SPONSOR: Kraus

SB 789 - Under current law, a surcharge of \$30 is assessed in criminal cases in which a defendant is found guilty of a felony, a surcharge of \$60 is assessed if the defendant is found guilty of a Class A or B felony or an unclassified felony under Chapter 195, and \$15 is assessed if the defendant is found guilty of a misdemeanor. The money goes into the "DNA Profiling Analysis Fund".

The surcharge was set to expire on August, 28, 2013. This act repeals the expiration date.

In addition, this act repeals a provision that redirects the funds to the state's general revenue if such revenue did not increase by two percent or more from the previous fiscal year.

Current law requires people who move to Missouri under an interstate compact or other reciprocal agreement to provide a DNA sample if the offense committed in the other jurisdiction would be considered an offense requiring the collection of a DNA sample under Missouri law. Under this act, a DNA sample is collected from any person found guilty of any felony offense who moves to Missouri pursuant to an interstate compact or similar agreement.

This act requires offenders to provide a DNA sample at the time of registering as a sex offender.

When a prosecutor declines to prosecute someone whose DNA was collected at the time of arrest, the arresting agency is required under current law to notify the crime laboratory within 90 days. The crime lab must expunge the DNA records and sample unless the person is otherwise obligated to submit a sample.

This act specifies that the arresting agency has 90 days upon receiving notification by the prosecuting attorney to contact the crime lab. The crime lab then has 90 days from receiving notice by the arresting agency to determine whether the person arrested has any other offenses or arrests on record that would require the person to submit a DNA sample. If the person does not have any other qualifying arrests or offenses, then the crime lab must destroy the DNA records and sample.

In addition, current law requires the crime lab to expunge DNA records and samples when charges are withdrawn, cases are dismissed, or people are found not guilty within 30 days of receiving notice. This act extends that time period to 90 days.

This act is similar to HB 1422 (2012).

SB 791 - This act creates the Small Loan Community Reinvestment Program to distribute grants to non-profits dedicated to community reinvestment in educational tutoring and development, financial literacy, early childhood development, youth mentoring, and senior services. The grants shall be used in geographic areas containing the highest concentration of payday and title loan lenders in the state as determined by the division of finance. The grants shall consist of moneys collected as a \$1 surcharge on every payday and title loan which shall be deposited in the newly created Small Loan Community Reinvestment Fund. The director of the division of finance shall administer the program.

The act also makes modifications to the law regulating payday lenders.

Currently, such lenders may renew payday loans 6 times. This act bars renewals.

Currently, lenders may charge simple interest and fees up to 75% of the initial loan amount. This act does not allow lenders to charge interest. Only fees may be charged.

Lenders shall not make more than one loan to a borrower at a time and shall wait one business day before making another loan to a borrower who has just paid a previous loan.

Currently, payday loans have a minimum term of 14 days and a maximum term of 31 days. This act repeals that provision and allows the borrower to choose a loan with a 30, 60 or 90 day duration. Loan renewals are no longer allowed. Borrowers are required to make two installment payments within each 30 day period.

Fees shall be prorated and paid back to the borrower when the borrower prepays the loan and all fees shall be returned to the borrower when the borrower repays the loan at the end of the lender's next full business day.

This act is similar to HB 1171 (2006), SB 975 (2006), SB 96 (2007), SB 744 (2008), HB 81 (2009), HB 150 (2009), SB 20 (2009), HB 1508 (2010), HB 2116 (2010), SB 593 (2010), SB 699 (2010), SB 811 (2010), HB 656 (2011), SB 295 (2011), 462 (2012), and 476 (2012).

SB 794 - This act establishes the Missouri Works Program which combines six existing business incentive programs and will provide tax incentives for job creation and capital investment.

The Missouri Works Program is established to provide tax incentives in the form of retained withholding taxes and refundable income and financial institutions tax credits for qualified companies. The program provides both entitlement and discretionary benefits for qualified companies that offer health insurance to all employees and pay at least fifty percent of the premiums. Tax credits provided under the program are fully transferrable and must be used within one taxable year following the close of the taxable year in which they are issued.

Qualified companies that create twenty or more new jobs with an average wage equal to or in excess of ninety percent of the county average wage will be entitled to retain withholding taxes from new payroll for a period of five years. Such a company will also be entitled to tax credits equal to up to two percent of new payroll to be issued each year for five years, provided that the combined tax credit and retained withholding benefits cannot exceed five percent of new payroll. The act gives the Department of Economic Development the discretion to issue such company additional tax credits, equal to up to four percent of payroll, for five years, provided that the total amount of all benefits received does not exceed nine percent of new payroll annually. In addition, discretionary tax credits authorized by the department cannot exceed the projected net state benefit.

If a qualified company is in a targeted industry and it creates ten or more new jobs with an average wage equal to or in excess of ninety percent of the county average wage, it will be entitled to retain withholding taxes from new payroll for a period of five years. Such a company will also be entitled to tax credits equal to up to three percent of new payroll to be issued each year for five years, provided that the combined tax credit and retained withholding benefits cannot exceed six percent of new payroll. The act gives the Department of Economic Development the discretion to issue such company additional tax credits, equal to up to six percent of new payroll, for five years, provided that the total amount of all benefits received does not exceed twelve percent of new payroll annually. Discretionary tax credits authorized by the department cannot exceed the projected net state benefit.

Qualified companies, located within an enhanced enterprise zone, that create two or more new jobs with an average wage equal to or in excess of eighty percent of the county average wage and make a capital investment of at least one hundred thousand dollars will be entitled to retain withholding taxes for a period of

five years.

A qualified company that is located within a dormant manufacturing zone and creates two or more new jobs with an average wage equal to or in excess of eighty percent of the county average wage will be entitled to retain withholding taxes for a period of five years.

Any qualified company that is an existing Missouri business and meets the conditions under the Missouri Works program will be entitled to retain withholding taxes for an additional year.

The Department of Economic Development is required to respond to a request for a proposed benefit award under the Missouri Works Program within five business days of the receipt of such request. The response must contain either a proposal of benefits or a written refusal stating the reasons no proposal will be provided. Failure by the department to approve or disapprove a notice of intent for benefits under the program will result in a deemed approval. Beginning January 1, 2013, the Department of Economic Development must provide quarterly reports on the program to the General Assembly, including a listing of all approved and disapproved applicants and the department's response time to requests for proposed benefit awards. Qualified companies that receive benefits under the program will be required to provide annual reports to the department, in order to document compliance with all applicable requirements.

The act prohibits the approval of new projects after the effective date of the act, under the Quality Jobs, Enhanced Enterprise Zone, BUILD, Development, Rebuilding Communities, and Business Facilities programs.

The total amount of all tax credits authorized for each fiscal year under the Missouri Works Program including any outstanding authorizations for tax credits under the six programs prohibited from approving new projects after the effective date of the act, cannot exceed:

- 1) \$111 million for FY 2013;
- 2) \$126 million for FY 2014; and
- 3) \$141 million for FY 2015 and each subsequent fiscal year.

The provisions of the act creating the Missouri Works Program will automatically sunset six years after the effective date of the act unless reauthorized.

This act is similar to provisions of SS/SCS/SB 8 (1st Ext. Sess. 2012), SS/SCS/SB 280 (2011), and SB 279 (2011).

SENATE SPONSOR: Callahan

SB 795 - The act authorizes the establishment of a land bank agency in Kansas City. This act also modifies provisions of law that apply to the sale of tax-delinquent property in certain first class counties and that govern land trusts in certain counties to provide for how these provisions will interact with land bank agency powers and operations.

The act authorizes Kansas City to create a land bank agency by adopting an ordinance or resolution. The board of commissioners of the land bank agency will have five or seven members, one member appointed by the county, one member appointed by the school district with the largest population in the county, and the remaining members appointed by Kansas City. Board members serve four year terms and may only be reimbursed for expenses.

All property held by a land trust that is within Kansas City is required to be transferred to the land bank, within a year after the city adopts the ordinance or resolution creating the land bank agency. Land bank property and income are exempt from state and local taxes.

The land bank has the power to borrow money, issue bonds, contract, invest money, and acquire,

develop, demolish, rehabilitate, lease, sell, or otherwise dispose of real estate. The land bank does not have the power of eminent domain. To carry out its functions the land bank may hire staff, and contract with political subdivisions for staffing services.

The land bank is authorized to acquire property by gift, transfer, exchange, foreclosure, or purchase. The land bank is prohibited from owning real estate outside the boundaries of Kansas City, but may accept transfers of real estate from political subdivisions.

If a land bank bids at a tax foreclosure sale in amount that equals the amount of the tax liens, plus interest and costs, the land bank shall be sold the property. If property inside Kansas City has been offered for sale at three different tax sales and has not sold, it is automatically transferred to the land bank.

After the land bank transfers property, for the next three years, the taxes on the real estate go to the land bank agency to fund its operations. The act also specifies how money from the sale of land bank property is distributed.

The land bank is subject to Missouri open meetings and open records laws.

Members of the board of the land bank and its employees are prohibited from having any interest in the land bank property, or from profiting from land bank operations.

The a land trust and the land bank agency are authorized to file a court petition to quiet title to several parcels of property in one petition. The act requires the court to hold a hearing within ninety days of filing the petition and issue its final judgment within one hundred twenty days.

This act is similar to HB 1659 (2012).

SB 797 – This act establishes the Voluntary Prekindergarten Education Program to provide an opportunity for each child, who has reached the age of three, to voluntarily enroll in a publicly-funded prekindergarten program. Children will remain eligible to enroll in the program until they enroll in kindergarten or attain the age of seven.

The Department of Elementary and Secondary Education will be responsible for implementing and overseeing the program. Private, for-profit, non-profit, and public schools may enroll children in their prekindergarten programs and receive public funds for doing so. The Department must establish standards that providers must meet in order to participate in the program. The department must also establish teacher-child ratios, class sizes, student learning standards, guidelines, and qualifications for teachers and staff, as described in the act.

The Department must begin implementing the program by November 30, 2012 and complete the

phase-in of the program by July 1, 2017. The Department must establish the rate of payment or reimbursement for providers. The program is subject to appropriations.

The provisions of this act will sunset after six years unless reauthorized.

SB 799 - This act modifies the requirements for school anti-bullying policies. The definition of "bullying" is modified to include discrimination and to include actions that substantially interfere with a student's educational performance, opportunities, or benefits, or that substantially disrupt the orderly operation of the school. Bullying is prohibited by school employees or students on school property, at school functions, or on school buses. This act removes the requirement that school policies treat all students equally and not identify lists of protected classes of students. Instead, bullying that is based on characteristics or categories, as described in the act, is prohibited.

A school employee, student, or volunteer who has witnessed or has reliable information that a student or school employee has been subject to discrimination or harassment must report the incident to the appropriate school official.

School district policies must contain the following: a statement prohibiting bullying, including a definition of bullying, as described in the act; a statement requiring district employees to report an instance of bullying of which an employee has reliable information; a procedure for reporting an act of bullying, including anonymous reporting, as described in the act; a procedure for prompt investigations; how a school will respond to a confirmed incident of bullying; a statement prohibiting reprisal or retaliation against a person who reports an act of bullying; a statement of how the policy will be made public; a process for discussing the policy with students and training employees and volunteers; and a procedure for implementing and maintaining annual confidential surveys of students and school employees that measure their perception and experiences of harassment and discrimination.

The State Board of Education must develop model anti-bullying policies to assist school districts no later than September 1, 2013, and has authority to promulgate rules and regulations under this act.

This act is identical to SB 240 (2011), HB 460 (2011), SB 946 (2010) and is substantially similar to HB 1049 (2012), HB 460 (2011), HB 273 (2011), HB 2036 (2010), SB 132 (2009), HB 1751 (2008) and provisions contained in HCS/SB 147 (2011).

SB 800 – This act provides that any course materials relating to human sexuality shall not only be medically and factually accurate, but shall also be age appropriate and based on peer reviewed projects that have been demonstrated to influence healthy behavior. The course instruction shall also present abstinence from sexual activity as the preferred choice of behavior in relation to all sexual activity as the only sure way to avoid pregnancy or sexually transmitted infections. The students shall also be presented with information about the health benefits and side effects of all contraceptives and barrier methods as a means to prevent pregnancy and to reduce the risk of contracting sexually transmitted infections or other diseases as well as information regarding the vaccine for the human papillomavirus.

The instruction shall also help the students gain knowledge about the physical, biological, and hormonal changes of adolescence and subsequent states of human maturation. In addition, the students shall be encouraged to communicate with their family regarding sexuality. This act also requires instruction on the dangers of sexual predators, including online predators as well as the effects of electronic media on sexuality and relationships.

This act also repeals the prohibition on abortion providers providing human sexuality instruction and instead provides that a school district shall make all curriculum materials and names and affiliations of presenters used in the school district available for public inspection.

SB 803 - This act modifies provisions relating to temporary behavior analysts, temporary assistant behavior analysts, provisional behavior analysts, provisional assistant behavior analysts, and the Behavior Analyst Advisory Board.

Currently, the Governor selects one of the professional members of the State Committee of Psychologists to serve on the Behavior Analyst Advisory Board. This act mandates that the committee will select by a majority vote which professional member of the committee will serve on the advisory board

The Behavior Analyst Advisory Board will review all applications for any behavior analyst license. The board will also recommend to the State Committee of Psychologists rules for promulgation regarding all types of behavior analyst licenses.

Submission of a fee set by the State Committee of Psychologists will be required before a temporary license is issued. For licensure as a temporary assistant behavior analyst, proof of a valid license as an assistant behavior analyst in another state is required.

The requirements for submission of a passport photograph, passage of an examination, and board certification are eliminated for provisional licenses. To receive a provisional license, the applicant must submit a complete application, pay the appropriate fee, and satisfy the requirements for either a licensed behavior analyst or licensed assistant behavior analyst, depending the provisional license sought. Those holding provisional licenses may only practice under the supervision of licensed behavior analyst. Provisional licenses will terminate upon issuance of a permanent license, a finding of cause to discipline, termination of supervision, or one year after issuance. Provisional licenses may only be renewed for one additional year.

No person shall hold themselves out as having a temporary or provisional license unless they meet the applicable requirements. Individual holding a temporary or provisional license shall limit their practice to their respective areas of competence and not practice in another area without obtaining additional training, education, and experience.

This act is similar to HB 1518 (2012) and HB 1522 (2012).

SENATE SPONSOR: Cunningham

SCS/SB 806 – This act modifies provisions relating to the employment of school personnel.

This act modifies the teacher tenure systems and administration of teacher contracts. Currently, two teacher tenure systems exist in the state, one for the St. Louis City School District and one for all other districts. These two systems will expire, and beginning on July 1, 2013, all teachers in the state will be governed by the "Teacher Multiyear Contract Act." (Section 168.1000)

TEACHING AND ADMINISTRATION STANDARDS: The teaching standards adopted by each district board of education may be included as part of its evaluation system. The Missouri Administration Standards Professional Continuum for Leaders may be included as part of the district's evaluation system. School administrators may enter into a contract for employment for a period of up to four years. (Sections 160.045 & 168.410)

NON-CERTIFIED EMPLOYEES IN THE ST. LOUIS CITY SCHOOL DISTRICT: Currently, non-certified employees in St. Louis who were hired prior to August 28, 2009 have had the ability to earn tenure protections. This act removes the requirement that promotions for these employees be made in part based on length of service. In addition, if the school district undergoes a reduction in force, employee performance, as defined in district policy, will be the deciding criterion for reduction in force and reinstatement.

TEACHER CONTRACTS: Beginning July 1, 2013, school boards may employ legally certificated teachers not employed as superintendent. Procedures for the contract are described in the act. (Section 168.999)

TRANSITION TO TEACHER MULTIYEAR CONTRACT ACT: Each school district must place a teacher who

is contracted to begin initial employment on or after July 1, 2013 on a one-year contract. Each school district must develop a policy concerning the recommended length of multi-year contracts for school years subsequent to school year 2013-2014. Any teacher who receives two successive annual evaluations of ineffective will not be reemployed. (Section 168.1003)

FORM OF TEACHER CONTRACT: Standard language to be used for teacher contracts is identified in the act. The school board may terminate a contract for cause at any time. The terms of a multiyear contract, including salary, may be contingent upon available funding. In addition, a two or three-year multiyear contract may not be renewed more than fourteen months before its expiration. (Sections 168.1004 and 168.1006)

PROHIBITIONS ON EMPLOYMENT: A school board is prohibited from employing one of its members as a teacher. Also, a school board cannot employ any teacher who is related within the fourth degree to any board member, by consanguinity or affinity, where the vote of the board member is necessary to the selection of the person. (Section 168.1007)

MODIFICATION OF TEACHER CONTRACTS: The school board may modify a multiyear contract annually on or before May 15. Modifications include school year starting and ending dates, annual compensation, and designating how assessment results based on student performance may affect contract length and terms. Modifications will become effective at the beginning of the next school year.

A teacher and a school district may terminate or modify a multiyear contract by mutual consent at any time. A teacher who desires to terminate his or her multiyear contract at the end of a school term must give written notice before June 1 of that year. (Sections 168.1008 and 168.1010)

COMPENSATION PLAN: Each school district must develop a compensation plan for certificated personnel and update it annually. (Section 168.1009)

TERMINATION OF A MULTIYEAR CONTRACT: When an administrator recommends that a teacher contract not be renewed, he or she must provide written notice to the teacher no later than January 31. The administrator must present the name of each teacher to the school board by March 31. The board must vote to accept or reject the administrator's recommendation separately by April 15. (Section 168.1011)

The school board may terminate a multiyear contract for one or more of the following causes: unsatisfactory performance based on teacher evaluation under section 168.1032; willful or persistent violation of, or failure to obey, the school laws of the state or school board policy; excessive or unreasonable absence from performance of duties; immoral conduct or conviction of a felony or a crime involving moral turpitude.

For the determination of professional competency or efficiency of a multiyear contract teacher, consideration will be given to regular and special evaluation reports prepared in accordance with school district policy and standards adopted by the school board. (Section 168.1012)

PROCEDURES FOR THE TERMINATION OF A MULTIYEAR CONTRACT: To terminate a multiyear contract, the school board must serve written charges upon the teacher, notice of a hearing on charges, and conduct a hearing if the teacher requests it. At least twenty days before service of notice of charges, the school board or superintendent must give the teacher a written warning, stating the causes that may result in charges. The superintendent and the teacher must meet and confer in an effort to resolve the matter.

Notice of a hearing upon charges and a copy of the charges must be given to the teacher at least fifteen days prior to the date of the hearing. If the teacher does not request a hearing within ten days of receipt of the notice, the school board may, upon a majority vote, terminate the teacher's contract. If a hearing is requested, it must take place no more than twenty days after notice of a hearing. A school board may suspend the teacher from active performance of duty until a decision is rendered by the board but the teacher's salary must be continue during the suspension.

Procedures for the hearing are described in the act. In addition, during any time in which powers granted to a district's board of education are vested in a special administrative board, the special administrative board may appoint a hearing officer to conduct the hearing. (Section 168.1016)

LEAVE OF ABSENCE POLICIES: School boards may establish policies for leaves of absence. The school board may grant a leave of absence or place a teacher on a part-time teaching schedule for one year, subject to annual renewal. Leaves and military service will not impair the teacher's multiyear contract. (Section

168.1020)

REDUCTION IN FORCE: A school board may place teachers on leave of absence because of a decrease in student enrollment, district reorganization, or financial condition. Seniority or years of service cannot be used as criteria for reduction in force; effective teacher performance will be the deciding criterion. Additional procedures are described when financial condition is the reason for a reduction in force. (Section 168.1022)

SCHOOL PRINCIPALS: School principals will have the right to select teachers for their schools who have demonstrated effectiveness and qualifications. School districts with multiple schools must include provisions in teacher contracts for the placement of teachers rated highly effective or effective based on the mutual consent of the teacher and principal of the school. School districts may adopt options for teachers rated effective or higher who are displaced and not selected for a regular position. This act contains additional procedures for when a position is unavailable for a teacher. (Section 168.1025)

TEACHER RECORDS & EVALUATIONS: Each school district must maintain records showing periods of service, dates of appointment, and other necessary information. (Section 168.1026)

SCHOOL BOARD MEMBER LIABILITY: A school board member will not be liable in a civil action based on a statement of charges against a teacher. (Section 168.1028)

PROHIBITION ON TEACHER PARTICIPATION IN CERTAIN SCHOOL BOARD MEMBER CAMPAIGNS: This act prohibits school district employees from participating in the management of a campaign for the election or defeat of school board members of his or her district of employment. An employee who violates this provision will be terminated. (Section 168.1030)

TEACHER EVALUATIONS: Teachers and principals must undergo evaluations, which must contain certain components. Each school board must develop and implement an evaluation system using multiple measures aligned with growth in student achievement. This system must be the basis for personnel and compensation decisions. Each system must be developed and implemented in conjunction with teachers, principals, and parents and allow for continued input. Measures must be fair, rigorous, transparent, and valid. If the school board does not adopt an evaluation system, as described in the act, it must use the model evaluation system that is developed by the Department of Elementary and Secondary Education.

For teachers who teach courses subject to the statewide assessments, student achievement growth on the assessments must count for at least fifty percent of the evaluation. For teachers who do not directly instruct students in subjects or grades subject to the statewide assessments, growth in student achievement on the assessments will be used as an evaluation measure and count for at least fifty percent of the evaluation. Student achievement growth will be measured through the assessments using the state-level growth model and with value-added methods developed by the Department.

Teachers and principals must be given written notice in advance of the evaluation along with any specific indicators that will be used with the evaluation. Each teacher and principal will be given one of four rating levels, as described in the act. The evaluation results will be used as a basis for school board decisions in pay, retention, promotion, dismissals, staffing decisions, contract length, transfers, placements, and reduction in force. In addition, each contract and collective bargaining agreement entered into after July 1, 2013 must authorize the use of the evaluation results for these purposes.

Each school board must develop the evaluation system for administration as a pilot program during the 2012-2013 school year and implement the full system in the 2013-2014 school year. Local educational agencies cannot use seniority, degrees, or credentials as a basis for determining pay, retention, promotion, dismissal, and other decisions as described in the act.

The Department of Elementary and Secondary Education must develop standards for the implementation of local evaluation systems, including processes for determining who is the teacher of record and the minimum amount of instructional time. The Department must also develop standards for rating levels, a student growth-model, a value-added system for determining student growth on assessments, and minimum training requirements for evaluators. The Department must also provide assistance to districts and develop a model evaluation system that will be used by districts that do not or cannot develop their own system or choose to use the model system. The Department must also provide or approve evaluation forms, link teacher preparation programs and achievement data for individual students, and monitor local evaluation systems.

DEFINITION OF AGENCY: This act modifies the definition of "agency" for purposes of chapter 536 (administrative procedures and review) by removing public school districts. (Section 536.018)

REPEALED PROVISIONS: This act repeals the minimum teacher salary requirements and the teacher tenure systems. (Sections 163.172, 168.101 to 168.130, 168.221)

This act has a delayed effective date of July 1, 2013. (Section B)

This act is similar to HB 1526 (2012).

SENATE SPONSOR: Dempsey

SB 807 - This act modifies several provisions relating to the Second Injury Fund.

The act allows the Second Injury Fund to advance or reimburse employees for expenses when an employee is required to submit to medical treatment outside the area of the employee's principal place of employment.

Currently, employers and insurers are not required to pay transportation costs for treatment requiring over 500 miles of travel. The Second Injury Fund is included in this provision.

Currently, employees are entitled to \$40 per week for rehabilitation paid out of the Second Injury Fund. This benefit is eliminated.

Employees shall submit to vocational testing and a vocational rehabilitation assessment scheduled by the Attorney General on behalf of the Second Injury Fund if the employer has not obtained a vocational rehabilitation assessment. Similarly, employees shall submit to reasonable medical examinations at the request of the Attorney General on behalf of the second injury fund.

Currently, delinquent benefit payments are subject to interest at 10% per year. This act allows the Director of Revenue to set the interest to equal the adjusted prime rate charged by banks.

Currently, medical reports are admissible in evidence under certain circumstances in workers' compensation claims but not in claims against the Second Injury Fund. The act allows the reports to be admissible in claims against the Second Injury Fund.

Claims for permanent partial disability shall not be allowed against the Second Injury Fund after the effective date of the act. Claims for permanent total disability shall only be allowed going forward for instances when:

- there exists a medically documented preexisting permanent disability caused by military duty or a preexisting permanent partial disability,
- the preexisting disability equals a minimum of 50 weeks of compensation according to the medical standards that are used in determining compensation, and
- a subsequent work-related injury occurs and, when combined with the elements of the prior injury, results in permanent total disability.

Employers at the time of the last injury are only liable for the disability resulting from the subsequent injury.

The act places limitations on when the Treasurer may enter agreed statements of fact and compromise settlements. Settlements are capped at \$60,000 for claims other than permanent total disability claims filed prior to the effective date of the act and capped at 200 times the employee's permanent total disability rate for all permanent total disability claims. Settlements may be made in any amount if a majority of the Second Injury Fund commission expressly authorizes the amount.

The Treasurer, with the advice and consent of the Attorney General and the authorization of the Second Injury Fund Commission, may enter into compromise settlements with dependents of claimants arising from the Schoemehl v. Treasurer decision.

Currently, the Second Injury Fund covers the fair, reasonable, and necessary expenses relating to the death and injury of employees of uninsured employers. The fund will no longer cover those costs going forward.

Currently, an actuarial study of the fund is conducted ever 3 years. This act requires a yearly study beginning in 2013.

Compensation shall not be payable from the Second Injury Fund when employees elect to pursue workers' compensation outside of the state.

Life payments paid out of the Second Injury Fund shall be suspended for all injured employees when the employee is able to obtain suitable gainful employment or be self-employed in view of the nature and severity of the injury. Life payments paid out of the Second Injury Fund may be suspended for any injured employee when the employee becomes eligible to receive Social Security benefits. The combined sum of the amount of monthly payments from the Second Injury Fund and monthly Social Security benefits shall not be less than the life payments otherwise payable out of the Second Injury Fund.

The act establishes a priority for paying fund liabilities as follows:

1. Expenses relating to legal defense of the fund.
2. Permanent total disability awards in the order in which they are settled or finally adjudicated.
3. Permanent partial disability awards in the order in which they are settled or finally adjudicated.
4. Medical expenses incurred prior to July 1, 2011.
5. Interest on unpaid awards.

Currently, a 2% tax is levied on insurance carriers when the balance of the workers' compensation fund is estimated to be on hand on December 31 is less than 110% of the previous year's expenses. This act requires that amount to actually be on hand on July 1 of the year of the determination which shall be made on October 31.

The act repeals a provision allowing loans to be made to the Missouri Employers Mutual Insurance Company.

The act institutes a funding mechanism to bolster the Second Injury Fund when usual collections are inadequate. If funds fall short, the Director of the Division of Workers' Compensation shall determine the shortfall which shall be collected with a supplemental surcharge not to exceed 1 1/2%. If funds continue to fall short, the Second Injury Fund Commission shall determine the shortfall which shall be collected with a supplemental surcharge not to exceed 1 1/2%. The provisions containing the authorization of additional surcharges expire on December 31, 2019.

The Attorney General shall reduce staff in proportion to the number of Second Injury Fund cases that remain.

The act creates the Second Injury Fund Commission composed of the Governor, Attorney General, President Pro Tem of the Senate, and the Speaker of the House of Representatives to approve additional surcharges and authorize certain settlements.

Sections 287.165 and 287.220 that establish the type of claims to be paid out of the fund, limitations on settlement agreements, and allowable interest under the chapter carry an emergency clause.

This act is similar to SB 430 (2011), and SB 572 (2012).

SB 809 - Under this act an individual with mental disabilities is added to the list of people who must be afforded the same rights as those without disabilities to use streets, highways, sidewalks, public buildings, public facilities, and other public places. An individual with mental disabilities is also entitled to equal accommodation from common carriers, airlines, motor vehicles, trains, buses, taxis, and any other public conveyances or modes of transportation, as well as hotels, places of public accommodation, amusement or resort, and other places to which the general public is invited. This act also provides that persons with mental disabilities shall have the right to be accompanied by a guide, hearing, or service dog in any of these places without being required to pay an extra charge, provided that such person shall be liable for any damages done to the premises or facilities by such dog.

A member of a service dog team has the right to be accompanied by the dog while the dog is in training and shall be liable for any damages to a facility caused by the dog training. A service dog team consists of a trained service dog, a person with a disability or child, and an adult person who has been trained to handle the dog. The term "service dog" is revised to include, but not be limited to, a search and rescue dog that is trained to assist a person with a mental disability from becoming lost and a service team dog that has been trained to help with the search and rescue of an individual with a disability.

This act is substantially similar to HB 1436 (2012) and HB 513 (2011).

SB 810 - This act modifies current provisions relating to tuberculosis ("TB") treatment, prevention and commitment by granting more authority to the Department of Health and Senior Services and local public health authorities. Definitions for "directly-observed therapy", "facility", "immediate threat", "isolation", and "targeted testing program" are included. A modified definition for "local public health authority" is included as well.

Current law requires a person found to have TB to obtain the required treatment, minimize the risk of infection and allow for a TB patient to be committed under certain circumstances. This act specifies that local public health authorities may institute proceedings to petition for directly observed therapy or commitment of the person with TB.

The Department of Health and Senior Services is authorized to contract for the care of any TB patient. These contracts shall provide that state payment shall be available for the treatment and care of such patients only after benefits from all third party payers have been exhausted.

It shall be a Class D felony for any individual knowingly infected with active pulmonary or laryngeal TB to expose another person without that person's consent or report to work with active contagious TB and without following the prescribed treatment or by violating the requirements of a commitment order. If a victim contracts TB, it shall be a Class C felony.

In performance of the duty to prevent or control TB, the local public health authority or the department, at reasonable times and within reasonable limits, may enter and inspect a public place, any public or commercial means of transportation, or private property and premises to locate and inspect persons who may have active TB. The act specifies the manner in which the inspections shall occur and whether a petition from the circuit court must be granted prior to inspection.

All employees and volunteers of a health care facility shall be tested for TB upon employment as recommended by the most recent federal guidelines from the Centers for Disease Control and Prevention.

All college or university campuses in this state may implement a TB screening and targeted testing program for all on-campus students upon matriculation. Any entering student of a college or university in this state who does not comply with the TB screening and targeted testing program may not be permitted to maintain enrollment in the subsequent semester.

This act is substantially similar to HB 1471 (2012).

SB 812 - This act establishes the Missouri Electronic Prior Authorization Committee in order to facilitate, monitor, and report to the General Assembly on Missouri-based efforts to contribute to the establishment of national electronic prior authorization standards. Such efforts shall include the Missouri-based electronic prior authorization pilot program established under the act and the study and dissemination of information by the committee of the efforts of the National Council on Prescription Drug Programs (NCPDP) to develop national electronic prior authorization standards that will be promulgated by the appropriate Missouri administrative regulations and effective as soon as practically possible.

The director of the Department of Insurance, Financial Institutions and Professional Registration shall be chair of the committee. The list of the other members to be appointed to the committee are specified under the act.

The full list of the duties of the committee are prescribed under the act but include preparing a report at the end of each calendar year to be distributed to the General Assembly and Governor with a summary of the committee's progress and plans for the next calendar year. Such annual report shall continue until such time as the NCPDP has established national electronic prior authorization standards.

Upon the adoption of national electronic prior authorization standards by the NCPDP, the committee shall prepare a final report to be distributed to the General Assembly and Governor that identifies the appropriate Missouri administrative regulations that will need to be promulgated in order to make those standards effective as soon as practically possible, and advise the General Assembly and Governor if there are any legislative actions necessary to the furtherance of that end.

In consultation with the Department and the Missouri Electronic Prior Authorization Committee, a Missouri-based pharmacy benefits manager doing business nationally shall conduct an electronic prior authorization pilot program in Missouri, provided that there are adequate Missouri licensed physicians and an electronic prior authorization vendor capable and willing to participate in a Missouri-based pilot program. Such pilot program established under this section shall be operational by January 1, 2014.

SB 814 - Under current law, \$1 of a \$4 fee collected by county recorders is remitted to the state for purposes of administering state land survey duties by the Department of Natural Resources. The act creates the Missouri Land Survey Fund and directs the fee revenue into this fund.

The act changes the name of the state land survey authority to the land survey program and updates statutory references in numerous places.

The act modifies several of the land survey duties of the Department of Natural Resources. It directs the department to provide the framework for all geodetic positioning activities in the state. Under current law, the department's regulations for land surveyors are advisory in nature. The act removes the advisory nature of the department's regulations, making the department's regulations enforceable.

The act changes the name of the Land Survey Advisory Committee to the Land Survey Commission and increases the membership on the Commission from 5 to 7. It limits members to three consecutive terms. The act adds a few additional duties to the Commission: providing recommendations on the operation of the land survey program and the selection of the state land surveyor. It also requires the Attorney General to advise the Commission upon its request and represent the Commission in legal proceedings.

The act allows revenue from sales of the department's surveying information to be deposited in the Department of Natural Resources Revolving Services Fund and expands what the Fund may be used for, which includes computer hardware and software and personnel related to retail services provided by the land survey program to the public.

The act is similar to HCS/HB 1395 (2012).

SB 816 - This act redefines "misconduct" for which an employee may be disqualified from unemployment benefits. Currently, misconduct requires a wonton or willful disregard of the employer's interest or culpable negligence. The act changes that standard to a conscious disregard of that interest or culpable carelessness or negligence, and includes conduct regardless of whether it occurs at the workplace or during business hours. Chronic absenteeism, a willful and deliberate violation of a state standard that would require an employer to lose its license, and certain rules violations also qualify as misconduct.

Currently, employees are disqualified from benefits if they voluntarily leave work without good cause. The act defines "good cause" as that which would compel a reasonable employee to cease working or which would require separation from work due to illness or disability.

SB 817 - Petition circulators shall not be paid on a per signature basis or have been guilty of forgery.

Currently, those who sign a false name on a petition are guilty of a Class A misdemeanor. Under the act, those who knowingly do so are guilty of a class one election offense.

Petitioners shall submit a copy of the filed statement of committee organization to the Secretary of State, with the sample petition.

Currently, the Secretary of State has 30 days to approve or reject the form of a petition. This act decreases that time period to 15 days.

If the form of petition is approved, the circulator shall submit between 1,000 and 2,000 sponsoring signatures to the Secretary of State within 45 days of approval. The Secretary of State shall send the signatures to the election authorities for verification within 5 days to be verified by the election authorities within 15 days. If the sponsoring signatures are verified, the Secretary of State shall notify the circulator and accept public comment regarding the proposed measure. The Secretary has 23 days from certification of the sponsoring signatures to prepare the summary statement. After the sponsoring signatures are verified, the circulator is then authorized to collect signatures in the amount required under current law to have the provision placed on the ballot.

Within 30 days of certification that the circulator has the required signatures to have the provision placed on the ballot, the Joint Committee on Legislative Research shall hold an informational public hearing to take public testimony of those in support of and in opposition to the position.

The provision requiring the Joint Committee on Legislative Research to conduct a public hearing carries an emergency clause.

SB 818 - This act modifies the process for issuing temporary permits to motor vehicle owners. Under the terms of the act, the director of revenue is authorized to allow others to produce new temporary permits that allow buyers of motor vehicle or trailers to operate such vehicles for a 30 day period. The price paid by a registered dealer for a temporary permit shall not exceed \$5.00 per permit (current law sets the amount at \$7.50). Under the act, amounts received by the director for temporary permits constitute state revenue while amounts received by authorized producers shall not constitute state revenue. Amounts received by dealers for temporary permits purchased from authorized producers shall not constitute state revenue. The act specifically provides that general revenue funds or other state funds shall not be used to compensate motor vehicle dealers and other producers for their role in producing temporary permits. Dealers may not charge more than \$5.00 for each permit it issues (down from \$7.50). The act allows the director to reissue and extend the use of a temporary permit during the time period a title and registration are being obtained (Section 301.140).

*** SB 826 ***

5947S.011

SENATE SPONSOR: Crowell

SB 826 - This act modifies the law relating to ethics.

SECTION 105.456

A statewide elected official is guilty of the crime of bribery of a public servant if he or she makes offers or promises to confer paid employment to any other statewide elected official in exchange for the legislator's official vote. Those who agree to such an arrangement are guilty of the crime of acceding to corruption.

SECTION 105.463

Nominees for gubernatorial appointments to a board or commission requiring Senate confirmation shall file a financial interest statement and shall request a list of political contributions from the Ethics Commission. The

nominee shall deliver the information to the Senate pro tem prior to confirmation.

SECTION 105.473

Lobbyists who knowingly omit, conceal, or falsify information in expenditure reports are guilty of a Class A misdemeanor. Lobbyists are required to report expenditures when all members of certain bodies (such as the Senate) are invited in writing. This act stipulates that those bodies may or may not include staff. Statewide officials are included.

SECTIONS 105.955, 105.957, 105.959, 105.961

With a unanimous vote of the Ethics Commission, the executive director may conduct an independent investigation of an ethics violation without a complaint if there are reasonable grounds to believe that a violation has occurred. The commission shall notify the person under investigation and assign a special investigator. The investigations of the executive director are confidential and the revealing of such information shall be cause for removal or dismissal. Investigations failing to establish reasonable grounds to believe a violation has occurred shall be terminated.

SECTION 105.961

Currently, within 120 days of receipt of a complaint, the special investigator submits a report to the commission. This act changes that threshold to 90 days.

Determinations that violations have occurred, other than referrals for criminal prosecution, may be appealed de novo to the Circuit Court of Cole County instead of the Administrative Hearing Commission.

SECTION 105.963

The late filing fee for filing campaign disclosure reports and statements of limited activity are increased from \$10 to \$50 per day not to exceed \$3,000. The executive director is allowed to send notice by other means than registered mail within 7 days of failure to file. Lobbyists required to file expenditure reports, individuals required to file financial disclosure reports, and candidates and committees required to file disclosure statements may appeal late fee assessments in the same manner with the commission.

The act allows the commission to collect unpaid fees through garnishment and other means.

SECTION 105.966

The act removes a provision allowing extra time for investigations when they are assigned to a retired judge and a provision allowing the commission to file a petition to seek extra time.

SECTION 115.364

Party nominating committees are barred from nominating a disqualified candidate to the office he or she was disqualified from in either the primary or general elections.

SECTION 130.011

This act redefines committees for the purposes of campaign finance. Political party committees are redefined to only include one congressional district committee for each congressional district in the state, and one state party committee. Legislative and senatorial district committees are abolished. Continuing committees are redefined as political action committees which are all committees other than a candidate committee, political party committee, campaign committee, exploratory committee, or debt service committee and can carry out the same functions as continuing committees under current law.

SECTION 130.021

Treasurers and deputy treasurers are no longer required to be residents of the county or district in which their committee sits.

Persons shall not form a new committee or serve as a deputy treasurer of a committee until all disclosure reports and statements of limited activity are filed and all fees paid.

SECTION 130.031

Political action committees shall only receive contributions from individuals, corporations, unions, and federal political action committees. They shall be barred from receiving contributions from all other committees. Candidate committees, political party committees, campaign committees, exploratory committees, political party committees, campaign committees, exploratory committees, and debt service committees shall be allowed to return a contribution to a donor political action committee that is the origin of the contribution. The

state house committee and the state senate committee shall be exempt from the prohibited transfers.

All committees are required to file financial disclosure reports electronically beginning January 1, 2011.

Treasurers shall not transfer funds to another committee with the intent to conceal the identity of the source of the funds.

SECTION 130.044

State senators and representatives and candidates for those offices shall report contributions received during the legislative session exceeding \$500 within 48 hours of receiving the contribution. The same 48 hour reporting requirement is imposed for contributions given to the Governor, all statewide elected officials, and candidates for those offices during legislative session and any time when legislation from the regular legislative session awaits gubernatorial action.

SECTION 130.071

Currently, candidates who fail to file disclosure reports shall not take office until reports are filed. This act extends that requirement to all reports filed with the commission and fees owed. Currently, those who have not filed disclosure reports shall not file for office. This act also extends that requirement to fees owed.

SECTION 575.021

The act creates the Class A misdemeanor crime of obstruction of an ethics investigation if one knowingly bribes a person in exchange for withholding information, knowingly accepts such a bribe for withholding the information, knowingly makes a false statement to a member or employee of the Ethics Commission.

SECTIONS 105.485, 105.955, 130.021, 130.026, 130.028, 130.041, 130.046, 130.057, 226.033
Changes references from "continuing committee" to "political action committee".

This act is similar to SB 577 (2010), SB 882 (2010), SB 893 (2010), HB 1868 (2010), HB 1500 (2010), HB 1846 (2010), HB 2039 (2010), HB 2300 (2010), SB 844 (2010).

SB 829 - This act modifies provisions relating to the Second Injury Fund.

No new claims shall be filed against the Second Injury Fund after July 1, 2012.

Only awards granted prior to July 1, 2012, awards or settlements in cases filed before July 1, 2012 and medical bills incurred and filed by employees of uninsured employers before July 1, 2012 shall be paid by the fund.

The Attorney General shall transmit the projected cost of all legal expenses to the director of the Division of Workers' Compensation. The director shall then withhold sufficient funds to meet the expenses not to exceed 1/4 of the annual appropriation for that purpose.

Under the act, an annual actuarial study shall be made taking into consideration any existing balance carried forward in the fund from a previous year.

The act establishes priority for paying liability of the fund in the following order:

1. Expenses related to the legal defense of the fund.
2. Permanent total disability awards in the order settled or finally adjudicated.
3. Permanent partial disability awards in the order settled or finally adjudicated.
4. Medical expenses incurred prior to July 1, 2012.

SB 839 - Current law requires the board of education of an unaccredited school district to pay the tuition and transportation of resident students who attend an accredited school in the same or an adjoining county.

This act exempts any unaccredited school district during the first two full school years in which it operates under the authority of a special administrative board. In addition, such a school district will be exempt if, while operating under the authority of the special administrative board, it demonstrates improvement in its annual performance report. Improvement will be demonstrated by the district gaining at least one additional point during the initial two-year period, not losing any points in the subsequent year, and gaining at least one additional annual performance point within each subsequent two-year period after the initial two-year period. If such improvement does not occur, the special administrative board will pay the tuition and transportation of resident students.

A student residing in an unaccredited district operating under the authority of a special administrative board will have the right to transfer to a school within the student's district of residence that offers the student's grade level of enrollment that has met or exceeded state targets for the previous academic year, provided adequate space is available as determined by the special administrative board.

This act contains an emergency clause.

SB 840 - This act requires the Department of Revenue to implement an automated sales and use tax system for sending and collecting state and local sales and use taxes on July 1, 2013. Except for businesses that only file sales tax returns once a year or monthly, all new businesses and any business delinquent in paying sales or use taxes after July 1, 2013, will be required to use the automated system, or face revocation of the business's state sales and use tax license. Other businesses may voluntarily use the automated system. The Director of Revenue may defer implementation of the automated system for certain businesses.

All costs of purchasing and maintaining the computer hardware and software will be the responsibility of each business, except that each new business will receive one installed electronic cash register hardware unit and system software at the cost of the payment service provider.

The Director of Revenue may contract with third-parties to implement and operate the automated system. The act specifies how the system is required to operate. Among other requirements the system will include a unique merchant identification number for each merchant and a process requiring the business and payment service provider to send information electronically to the contractor each business day. The business's payment service provider will be required to send sales and use tax to the Department of Revenue on behalf of the business. The contractor is required to provide telephone support for businesses.

New businesses and any business delinquent in paying sales or use taxes after July 1, 2013, will not have to post a bond with the Director of Revenue, if the business complies with the requirement that they use the automated system.

Currently, sellers are allowed to retain two percent of the amount they pay to the director of revenue, if the seller sends the amount before it is due. Businesses that use the automated system will be allowed to claim this allowance for all sales and use taxes paid.

SB 846 - This act defines the duties and liabilities of landlords and tenants of multifamily residential units in regards to bed bugs. Landlords and tenants both must use reasonable care to keep units free of bed bugs.

Landlords must inspect a unit within seven days of being notified by the tenant that they suspect bed bugs. If it is determined that the unit has bed bugs, the landlord must begin the process of controlling the bed bugs within fourteen days. The landlord must also notify surrounding units about the bed bugs. The landlord must give twenty-four hours notice to the tenant before entering their unit to inspect or control bed bugs. Only landlords or their designated pest control agent shall apply bed bug control techniques.

If after notice a tenant does not grant permission to the landlord or pest control agents to enter their unit or fails to comply with the bed bug control methods, the landlord will not be liable to the tenant for damages relating to the bedbugs and the tenant may be found in breach of their lease. Landlords are not liable to a tenant or a tenant's guest for damages arising from an infestation of bed bugs, inspection, or control of bed bugs unless the landlord was grossly negligent.

If a tenant does not notify the landlord within seven days of moving into a unit that it has bed bugs, the tenant will be deemed to have acknowledged that the unit is bed bug free. Tenants shall notify the landlord within forty-eight hours of knowing, suspecting, or when they should have known of a bed bug infestation. Failing to do so notify may make the tenant liable for the costs of treating the unit for bed bugs. The tenant giving notice to the landlord shall also constitute permission for the landlord to enter the premises. If a tenant gives proper notice to their landlord and the landlord fails to properly act, the tenant will not be liable to the landlord for damages relating to the bed bugs.

SB 849 - The act modifies provisions relating to solid waste management districts.

Current law allows counties to make a request to the department to be part of a different solid waste region during a certain period of time every three years. The act allows a county to make such a request during the last three months of every calendar year, starting in calendar year 2014.

The act removes the ability of a county to form a solid waste management district.

Current law allows a solid waste management district to enter into a contract with a city or county within the district to provide solid waste management services. The act prohibits administrative or other district operations services from being part of the contract.

Current law requires the governing bodies of counties and certain size cities in a solid waste management district to appoint representatives to the solid waste management council. The act makes this provision discretionary on the part of the counties and cities. The act reduces the requirement that the council must meet at least twice annually to once annually.

Current law prescribes a number of duties for the executive board of a solid waste management council. The act removes the duty to identify illegal dump sites and adds the duties to: review and report to the Department of Natural Resources on the performance of the solid waste management district; evaluate grant proposals to be submitted to the Department of Natural Resources; and meet at least quarterly. The executive board may enter into contracts for solid waste management services except district administrative services may not be part of the contract. The act prohibits any person from participating in the evaluating or ranking of grant proposals if the person is affiliated with the organization submitting the proposal.

The act removes the requirement that the executive board submit a solid waste management plan within 18 months of the formation of the solid waste management district and modifies a few of the requirements of

a solid waste management plan. The act removes the requirements that a plan must establish timetables for the reduction of solid waste placed in landfills and for financing the solid waste management system.

Current law requires an annual adjustment for inflation to the \$1.50 and \$1 per ton fees charged by operators of solid waste sanitary landfills, demolition landfills, and transfer stations, except no adjustment is allowed during the years 2005 through 2014. This act removes the 2014 end date, effectively disallowing an inflation adjustment to these fees any time after October 1, 2005.

Current law requires up to \$200,000 from the Solid Waste Management Fund to be annually distributed as grants to solid waste management districts for district operations. The act removes this provision. The act transfers the duty, from the Environmental Improvement and Energy Resources Authority to the Department of Natural Resources, to measure the effectiveness of the program to develop markets for recovered materials. Also through the Solid Waste Management Fund, current law directs that 61% of certain remaining revenues be used for grants to cities, counties, and solid waste management districts. The act lowers this percentage to 51%. The act also lowers, from 50% to 30%, the maximum amount of this funding that may be awarded to districts. The 10% difference (from 61% to 51%) is directed to fund the cleanup of closed abandoned disposal sites, illegal sites, or closed or abandoned recovery sites including composting sites. The act removes a provision that certain funding from the Solid Waste Management Fund may be used for the used motor oil program.

The act modifies provisions pertaining to the Solid Waste Advisory Board. The act requires the boardmembers to represent either the interest of the public or solid waste systems. Current law requires the director of the Department of Natural resources to appoint up to 5 members to the board. The act instead requires the director to appoint 6 members and specifies the representation of each member. The board must meet at least 4 times a year. In addition to its duties under current law, the board must advise the Department of Natural Resources regarding solid waste management problems experienced by the public or members of the solid waste industry, as well the effectiveness of the solid waste management districts in meeting solid waste needs.

SB 850 - Under the act, if a person's animal is seized or confiscated, the outcome of the charges against the person must be determined before the confiscated animal may be sterilized, put up for adoption, euthanized, or otherwise disposed of. Confiscated animals must receive proper care while awaiting the outcome of the charges against their owners. Facilities that have custody of confiscated animals are liable for any negligent acts or abuse to the animals while in their custody.

If the animal owner is convicted of the charges that resulted in the loss of his or her animal, the court shall not return custody of the animal to the owner and the animal may be sterilized, put up for adoption, euthanized, or otherwise disposed of. The owner is liable for all costs relating to the animal's care and disposition.

If the animal owner is acquitted of the charges or there is a final discharge without conviction, the owner may request that his or her animal be returned. The facility with custody of the animal must immediately return the animal to the owner upon receiving proof of the acquittal or non-conviction. The owner is not liable for any of the costs relating to the animal's care while in custody.

The Department of Agriculture must promulgate rules to implement the act. A first violation of the act is a class B misdemeanor and each animal for which a violation occurs is a separate offense. A second or subsequent violation is a class A misdemeanor and if the violator is a state licensed entity, the entity shall additionally be subject to license sanction.

The act is similar to HB 1444 (2012).

SB 860 - This act allows contractors who engage in the installation of fire sprinkler systems or service fire sprinkler systems to apply for a certificate of registration. The registration statutes and rules have uniform effect throughout the state. Municipalities, counties, and other local governmental bodies are authorized to enact or enforce their own registration or licensing requirements.

The state fire marshal is given authority to promulgate rules. Such rules shall concern certification of contractors, applicable fees, and procedures for reciprocity with other states.

A contractor that applies with the state fire marshal for a certificate of registration must pay an application fee. The fees will be deposited in the Fire Sprinkler Contractor Registration Fund. The act also sets out the requirements that a contractor must meet to obtain a certificate of registration.

Certificates of registration are valid for two years and are not transferable. A fee shall be charged for duplicate certificates or changes to a certificate. A contractor holding itself out as a certified fire sprinkler contractor must display its certificate in a conspicuous place in the contractor's business. The state fire marshal is obligated to send out written notice at least thirty days prior to a certificate expiring.

The state fire marshal shall not issue a certificate of registration unless the applicant files evidence of general liability insurance of not less than one million dollars per year for all occurrences.

The state fire marshal is authorized to file a disciplinary complaint against certified contractors for specific violations. After the Administrative Hearing Commission finds that grounds for discipline are met, the state fire marshal may place the contractor on probation, or suspend or revoke the contractor's certification.

The state fire marshal is authorized to seek an injunction against persons or organization holding themselves out as being certified when they do not hold a certificate of registration.

This act is similar to SB 397 (2011), SB 927 (2010) and HB 2132(2010).

SENATE SPONSOR: Engler

SB 862 - This act modifies the Missouri Public Prompt Payment Act.

Currently, a public owner may retain 5% of the value of a public works contract or up to 10% if it is determined by the public owner and the architect or engineer determine that a higher rate is required to ensure performance. This act repeals these provisions and does not allow retainage if the public owner has obtained a bond. Retainage of up to 5% is allowed by the public owner if the public owner is not required to obtain a bond. Contractors are not allowed to retain amounts owed to subcontractors.

Under current law, retainage may be adjusted prior to completion when work is proceeding satisfactorily and retainage is paid after substantial completion of the contract or per contract terms. In such cases, 200% of the value of the remaining work is withheld until completion. This act repeals this provision.

Under current law, the contractor or subcontractor may withhold certifications to the owner or contractor for payment to the subcontractor or material supplier for many reasons including that the contract cannot be completed for the amount of retainage. This provision is repealed.

Currently, in contracts which provide for payments to the contractor based upon estimates of materials and work performed rather than certifications, the public owner may retain 5% from the amount due. This act repeals this provision.

SB 865 – This act allows University of Missouri extension councils to form extension districts made up of cooperating counties for the purpose of funding extension programming. An extension district can be a single-council district or a consolidated district, which would consist of two or more extension councils. A majority vote of each participating council is required to form an extension district.

In a single-council district, the existing University of Missouri extension council will serve as the extension district's governing body. In a consolidated district, the governing board will consist of three to five representatives appointed by each participating council. The powers and authorities granted to a district's governing body are described in the act.

The governing body of a district may submit a question to the voters of the district to institute a property tax levy in the district's counties. A property tax levy cannot exceed thirty cents per one hundred dollars of assessed valuation. In a single-county district, the property tax levy will be imposed if a majority of the voters vote in favor of it. In a consolidated district, the property tax levy will be imposed if a majority of the voters in district approves it. If one county does not approve it, that county's council may withdraw from the district by a majority vote.

A single-council district for which a tax has not been levied may be dissolved in the same manner in which it was formed. A county may withdraw from a consolidated district at any time by filing a petition, as described in the act, with the circuit court having jurisdiction over the council. The court must hear evidence on the petition, and if it determines it is in the best interest of the county inhabitants, it must submit the question to the voters at the next general municipal election. If two-thirds of the voters vote in favor of withdrawing from the district, the court must issue an order withdrawing the county from the district. However, the withdrawal will not become effective until the following January 1 and the district will remain intact for the purposes of paying all outstanding and lawful obligations and to dispose of the district's property.

The governing body of any district may seek voter approval to increase its current tax rate, provided the tax will not exceed thirty cents per one hundred dollars of assessed valuation. The governing body must submit such a question to the voters at the next general municipal election. In a single-council district, if a majority of the voters in the county approve the question, the tax will be imposed. In a consolidated district, a majority of voters in the district is required.

SB 866 - This act privatizes the Missouri Employer's Mutual Insurance Company (MEMIC) by January 1, 2014. The act further repeals almost all of the statutes relating to the establishment and operation of MEMIC on the same date.

Before January 1, 2014, the board of directors of MEMIC shall perform all acts necessary to establish a successor mutual insurance company. The successor company shall operate to the same extent as any mutual casualty insurer that is licensed and authorized to write insurance in this state, subject to the authority and regulation by the department of insurance, and with all the powers and subject to all the laws, rules, and requirements of a mutual insurance company that is organized under the laws of this state.

On or before January 1, 2013, the board of directors shall provide a report to the Governor, the President pro tem of the Senate, and the Speaker of the House of Representatives that outlines the steps it will take to

become a private successor mutual insurance company. The report shall also calculate the value, if any, of state equity or other state financial interests in the Missouri employers mutual insurance company. A copy of the report shall be provided to the secretary of state.

The board of directors shall perform all necessary acts to file articles of incorporation of the successor mutual insurer corporation and shall take all necessary actions to qualify for a certificate of authority as provided by law.

Beginning January 1, 2014, the successor mutual insurance company shall become the successor in interest to all the assets and liabilities of MEMIC without any conveyance or transfer and without any further act or deed and shall be vested by operation of law with title to all property of MEMIC. The successor company shall be responsible for the obligations of the MEMIC to the same extent as though incurred originally by the successor company.

The act further provides that the director of the Department of Insurance is authorized to supervise MEMIC's transition into a private successor mutual insurance company.

The act repeals MEMIC's enabling legislation. The repeal of these sections become effective January 1, 2014.

This act is identical to SB 624 (2012).

SENATE SPONSOR: Kehoe

SB 869 - This act modifies provisions pertaining to public utilities.

SECTION 386.370 - PUBLIC SERVICE COMMISSION

Under current law, the Public Service Commission (PSC) receives funding from a fee assessed to each regulated public utility based on the proportionate amount of time and expenses spent by the PSC on each utility. The act lowers the total amount that may be collected for the PSC from the fee, from its current maximum of .25% of the total gross intrastate operating revenue to .23% of total gross intrastate operating revenue.

SECTION 386.715 - OFFICE OF PUBLIC COUNSEL

The act requires the Office of Public Counsel (OPC) to, prior to the beginning of each fiscal year, inform the PSC of its estimated expenses for the upcoming fiscal year. The OPC must specify how much of its estimated expenses are directly attributable to its work with each type of PSC-regulated public utility (i.e., electric, gas, water, heating, telephone, and sewer) as well as the amount of expenses that are not directly attributable to one specific type of utility. Costs for telephone companies, water companies, and gas companies may not exceed 3%, 8%, and 15%, respectively, of the total directly attributable costs, with the remainder allocated to electric companies. Costs not directly attributable to one specific type of utility must be proportionately attributed to each utility type based on each utility type's percentage of total gross intrastate operating revenues across all utilities.

The PSC must levy an assessment to each regulated public utility to cover its share of the OPC's costs. The total amount levied to all utilities must not exceed 400ths of 1% of the total gross intrastate operating revenues of all regulated utilities. The PSC must issue a statement of the assessment amount to each utility by July 1st of each year, which the utility may pay in full by July 15th or in 4 equal quarterly installments.

The payments are to be deposited in the Public Counsel Fund, created in the act, and may only be used to pay the expenses of the OPC. Any balance remaining in the fund at the end of the fiscal year must be proportionately credited to the next year's assessments.

The act does not grant authority to the PSC to determine how the OPC estimates its expenses or how the OPC will spend the assessments collected from the utilities.

By March 31st of each year, each regulated utility must file a statement with the PSC of its gross intrastate operating revenues for the preceding calendar year.

SECTION 393.135 - EARLY SITE PERMIT COST RECOVERY

If an electric company obtains an Early Site Permit from the U.S. Nuclear Regulatory Commission (NRC), the PSC must allow the company to recover from its ratepayers up to \$45 million of prudently-incurred expenditures spent by the company to obtain the permit. The company may recover such expenditures from its ratepayers through rates and charges over a period not to exceed 6 years. The company may begin the cost recovery on the effective date of tariffs approved by the PSC at the company's first general rate proceeding following the NRC's issuance of the permit. Cost recovery is limited to only costs that are prudently incurred; if a cost is challenged, the company has the burden of proof to show the cost was prudent. In any challenge to the prudence of the company's decision to obtain an Early Site Permit, the burden of proof is on the party raising the challenge.

If an electric company has recovered costs from its ratepayers for an Early Site Permit but the company's interest in the Early Site Permit is subsequently sold or transferred, the company must refund its ratepayers up to the amount that the company collected from the ratepayers for the permit, plus interest. The PSC may award up to 25% of any excess profits above the amount paid by ratepayers to the company.

The act creates the Governor's Task Force on Electrical Generation Options, which shall review energy generation options to include other options in addition to large baseload nuclear plants. The act specifies representation on the task force. The task force must issue its report by September 30, 2012.

SECTION 620.010 - OFFICE OF PUBLIC COUNSEL

The act removes the requirement that the Office of Public Counsel is funded by general revenue.

The act contains an emergency clause.

This act contains provisions similar to SS/SCS/HB 462 (2011), SB 321 (2011), and SB 406 (2011).

SB 870 - This act authorizes the State Committee for Social Work to certify individuals as school social workers. Certificates are to be issued to persons with a degree in social work from an accredited college and holding a credential in school social work from a nationally recognized credentialing organization. The Department of Elementary and Secondary Education, State Board of Education, and Office of Educator Equality are to recognize such individuals as certified school social workers. The State Committee for Social Work is authorized to promulgate rules and fees to implement this act.

This act is similar to HB 1803 (2012).

SB 871 - This act modifies provisions relating to domestic violence and makes various changes to the domestic violence chapter as follows:

- (1) Provides for the consistent use of the terms "person" rather than "adult" and the use of "domestic violence" rather than "abuse" in the domestic violence chapter as well as in the criminal domestic assault provisions in Sections 565.072 to 565.074;
- (2) Under this act, notice for both ex parte and full orders of protection shall have priority over other non-emergency actions. 455.040.2;
- (3) The provisions requiring a court to "dismiss a petitioner" when there are insufficient allegations have been revised to provide that the court shall deny the ex parte order and dismiss the petition. 455.035.1 and 455.513.1;
- (4) Service on a custodial parent, guardian or guardian ad litem for a juvenile respondent will require the person to bring the respondent to court. 455.035.2;
- (5) Court review for a motion to dismiss an order of protection shall take place in camera rather than in open court. 455.060.5.

Also, current law provides for an exception to the requirement for public notice of a name change for instances where the person changing his or her name is a victim of domestic violence. This act extends such exception to prohibit publication on CaseNet or through other any system operated by the judiciary that is designed to provide public case information electronically. 527.290.2

5258S.011

SENATE SPONSOR: Justus

SB 872 - This act modifies provisions relating to crime.

The term "crime" was replaced with "offense" in many sections of this act. Several sections relating to crimes were moved to chapters within the state's "Criminal Code", which encompasses chapters 556 to 600. Other sections within chapters 556 to 600 not relating to crime, such as the process to obtain a concealed carry endorsement, were moved to chapters outside of the code. This act creates a new chapter 579 for the drug crimes, which were previously codified outside of the code in chapter 195. Some crimes were renamed, renumbered, or consolidated into other crimes. Several crimes were repealed that were considered to be obsolete or duplicative by a committee of the Missouri Bar Association. Other crimes were reclassified with the effect of lowering or raising the penalty of the crime depending on the reclassification.

NEW FELONY AND MISDEMEANOR CLASSES

This act creates a new classification for felonies to be known as Class E, and a new classification for misdemeanors to be known as Class D.

The term of imprisonment for a Class C felony was changed from no more than 7 years to 3 to 10 years. Under current law, the maximum term for a Class D felony is 4 years. This act makes the maximum term 7 years, which is the current maximum term for Class C felonies. Under this act, the new Class E felony has the same maximum authorized term of imprisonment as a Class D felony under current law. The terms of imprisonment for misdemeanors were not revised and the new Class D misdemeanor has no authorized term of imprisonment.

To reflect the change in the authorized terms of imprisonment, crimes once classified as Class C felonies were changed to Class D felonies and crimes once classified as Class D felonies were changed to Class E felonies throughout the statutes.

This act provides that fines for Class C, D, and E felonies may not exceed \$10,000 rather than \$5,000. The maximum fines for Class A and B misdemeanors, offenses committed by corporations, and infractions were also doubled. This act increases the maximum fine for a Class C misdemeanor from \$300 to \$750 and the maximum fine for the new Class D misdemeanor is \$500. The \$20,000 cap on the amount a court may fine a person who has gained from an offense was repealed.

INCHOATE OFFENSES

Under current law, any attempt or conspiracy to commit a misdemeanor regardless of the classification of the underlying offense is a Class C misdemeanor. This act makes the classification of an attempt or conspiracy to commit a misdemeanor offense to be one step lower than the class provided for the underlying offense.

REPEAT OFFENDERS

Additional crimes were added to provisions that allow for enhanced penalties for repeat offenders.

DEATH PENALTY

This act increases the age at which a person is eligible for the death penalty from 16 to 18 to reflect a decision by the U.S. Supreme Court that only offenders 18 and older may be sentenced to death.

SEX OFFENSES

Under current law, consent is not a defense to a sex offense if the victim is under the age of 12. This act raises the age to 14. Also, a person who engages in certain acts of a sexual nature with a child under the age of 15 commits sexual misconduct with a child and a person commits enticement of a child if he or she lures a person less than 15 years old via the Internet. This act lowers the age of possible victims under both crimes to 14.

Current law provides that a person commits the crime of use of a child in a sexual performance if he or she allows a child under the age of 17 to engage in a sexual performance or consents to his or her child being in a sexual performance. This act raises the age of the child to under 18 years of age.

This act expands the offense of sexual contact with a student to private elementary and secondary schools. It currently only applies to public schools.

This act repeals a provision allowing a court to prohibit a person found guilty of bestiality from harboring or living with animals for two years after the completion of the sentence.

Under current law, a person commits child abuse if he or she knowingly inflicts cruel and inhuman punishment on a child less than 17 years old or photographs a child under the age of 18 in a sexual act. This act removes the provision regarding the photographing of a child.

This act expands the list of victims who shall not be forced to submit to a lie detector test by law enforcement as a condition for proceeding with a criminal investigation and victims whose identities shall be protected to cover all offenses under chapter 566, domestic assault and stalking rather than just sexual assault and forcible rape.

CRIMES INVOLVING SPECIFIC DISTANCES

All statutes that provide for enhanced criminal penalties when the crime is committed within distances greater than 1,000 feet of a certain person, place, thing have been amended so that the distance is 1,000 feet.

PROPERTY CRIMES

Under current law, the classification of a crime involving property damage is often based on the value of the property damage. The values differ throughout the statutes. This act makes such values \$750 when they fall within the range of \$500 to \$1,000. Several other values are modified within the property crimes chapter.

GAMBLING

This act makes gambling an infraction rather than a Class C misdemeanor.

ENDANGERING VISITORS TO CORRECTIONAL FACILITIES

Visitors to a county or city jail are added to the class of possible victims under the crime of endangering a visitor to a correctional facility.

INTOXICATION-RELATED OFFENSES

This act adds a new repeat offender of intoxication-related driving offenses, called the habitual offender, which is a person who has been found guilty of five or more intoxication-related offenses committed on separate occasions, four or more intoxication-related offenses committed on separate occasions where at least one of the offenses involved another person being injured or killed, or three intoxication-related offenses when at least two of the offenses involved another person being injured or killed.

This act creates the crimes of boating while intoxicated and with an excessive blood alcohol content, which are similar to current provisions of law that prohibit operating a vessel on the Mississippi or Missouri Rivers or lakes in the state while intoxicated or with an excessive blood alcohol level, except the new crimes are not limited to boating on specific waterways.

Phlebotomists are added to the list of people who may draw blood to determine blood alcohol content.

LEAVING THE SCENE OF AN ACCIDENT

Under current law, it is only a crime to leave the scene of an accident on a highway or parking lot or facility and only the person who caused the accident is required to report the accident. This act repeals both limitations, so the crime applies to an accident taking place anywhere and caused by anyone. In addition, accidents involving vessels and ATVs are added to the crime. This act limits the requirement to report an accident to incidents resulting in property damage to another person's property.

DRUG OFFENSES

Under this act, the amount of crack that is required before a person can be charged with drug trafficking is raised to 8 grams rather than 2 grams. In addition, the amount of crack that leads to an enhanced penalty is raised to 24 grams from 6 grams.

Under the current law, it is unlawful for manufacturers and distributors and their agents and employees to deliver a controlled substance if the person has reasonable cause to believe the controlled substance will be used in violation of the law. Under this act, the offense is committed when the person knowingly delivers a controlled substance while acting recklessly as to whether it will be used in violation of the law. Agents of manufacturers and distributors are removed from the people who can commit the crime.

Under current law, a person commits the Class C felony of maintaining a public nuisance when such person keeps or maintains a room, building, structure, or inhabitable structure that is used for the illegal use, keeping, or selling of drugs, including marijuana.

Under this act, a person commits the crime, which is a Class E felony, if such person knowingly keeps or maintains a room or building that is used for the illegal manufacture, distribution, storage or sale of drugs except for 35 grams or less of synthetic or real marijuana. A person also commits the crime if, on three or more separate occasions within a year, two or more people not living in the room or building, gather to ingest, inject, inhale drugs, not including marijuana or synthetic marijuana.

In addition, a provision was repealed that contained procedures for a prosecutor to bring a civil lawsuit to enjoin the nuisance and allowing the court to order the premises to not be occupied or used for no longer than one year.

SB 878 - The act affirmatively states that occupational diseases are exclusively covered under workers' compensation laws.

This act states that co-employees shall be released from all liability for workplace injuries or death for which compensation is recoverable under the workers' compensation statutes. However, the employee shall not escape liability when the employee engages in an affirmative negligent act that purposefully and dangerously caused or increased the risk of injury. When an employer acts knowingly and is reasonably certain that injury to or death of an employee will result, subsequent injury or death shall fall outside of the exclusive remedy provisions of the workers' compensation statutes and the employer shall not retain subrogation rights.

No new claims shall be filed against the Second Injury Fund after July 1, 2012.

Only awards granted prior to July 1, 2012, awards or settlements in cases filed before July 1, 2012 and medical bills incurred and filed by employees of uninsured employers before July 1, 2012 shall be paid by the fund.

The Attorney General shall transmit the projected cost of all legal expenses to the director of the division of workers' compensation. The director shall then withhold sufficient funds to meet the expenses not to exceed 1/4 of the annual appropriation for that purpose.

Under the act, an annual actuarial study shall be made taking into consideration any existing balance carried forward in the fund from a previous year.

The act establishes priority for paying liability of the fund in the following order:

1. Expenses related to the legal defense of the fund.
2. Permanent total disability awards in the order settled or finally adjudicated.
3. Permanent partial disability awards in the order settled or finally adjudicated.
4. Medical expenses incurred prior to July 1, 2012.

The act institutes a funding mechanism to bolster the Second Injury Fund when usual collections are inadequate. If funds fall short, the Director of the Division of Workers' Compensation shall determine the shortfall which shall be collected with a supplemental surcharge not to exceed 1 1/2%. If funds continue to fall short, the Second Injury Fund Commission shall determine the shortfall which shall be collected with a supplemental surcharge not to exceed 1 1/2%. The provisions containing the authorization of additional surcharges expire on December 31, 2019.

The Attorney General shall reduce staff in proportion to the number of Second Injury Fund cases that remain.

The act creates the Second Injury Fund Commission composed of the Governor, Attorney General, President Pro Tem of the Senate, and the Speaker of the House of Representatives to approve additional surcharges and authorize certain settlements.

A provision requiring the workers' compensation statutes to be strictly construed is repealed.

This act contains an emergency clause.

This act is similar to SB 430 (2011), SB 8 (2011), 668 (2007), SB 417 (2011), and SB 430 (2011), SB 572 (2012), SB 827 (2012), SB 828 (2012), SB 829 (2012), and SB 807 (2012).

SENATE SPONSOR: Engler

SB 886 - This act subjects Chapter 383 malpractice associations to stricter insurance regulations.

383 ASSESSMENTS - Under the terms of this act, 383 malpractice association assessments are broken into 4 types of assessments: initial assessments, regular assessments, operating assessments, and special assessments. A 383 malpractice association's articles of association and bylaws must specify how the various assessments apply to current and former members (Section 383.016).

Under the act, special assessments made by an association after the 5th anniversary of the termination date of a former member's coverage under the association's policy shall not apply to the former member (Section 383.015).

ARTICLES OF ASSOCIATION AND BYLAWS - Under the act, a copy of the articles of association and bylaws shall be attached to a policy issued by an assessable association (Section 383.018).

383 AUDITS - Under the terms of this act, 383 malpractice associations shall be subject to various auditing and financial reporting insurance laws (Section 383.035).

LIMITATIONS ON AMOUNT OF INSURANCE PREMIUM AN ASSOCIATION CAN WRITE - The act removes the prohibition on the Department of Insurance which precluded it from placing limitations on the amount of premium an association can write or on the amount of insurance or liability limit an association can provide (Section 383.035).

ASSOCIATION SURPLUS REQUIREMENTS - The act requires assessable associations to maintain a policyholder's surplus of at least \$600,000 (Section 383.035.5). Assessable associations licensed under

Chapter 383 as of February 9, 2012, may renew their licenses with lower surplus requirements over a three year period (\$200,000 surplus after 2012, \$400,000 surplus after 2013, and \$600,000 surplus after 2014). Under current law, 383 malpractice associations are not required to maintain positive surpluses.

PREMIUMS WRITTEN/SURPLUS HELD MINIMUM RATIO - The act requires 383 associations to maintain a specified ratio of premiums written to surplus held. A 383 malpractice associations shall not cause the ratio of its net written premiums to its policyholder's surplus to exceed 3 to 1 without approval of the director. Assessable associations licensed under Chapter 383 as of February 9, 2012, may renew their licenses with higher ratios over a three year period (4 to 1 after 2012, 3.5 to 1 after 2013, and 3 to 1 after 2014)(Section 383.035.6).

Failure to comply with the surplus or premiums written/surplus ratio requirements constitutes grounds for revocation of an association's license (Section 383.035).

EXCEPTION TO SURPLUS AND PREMIUMS/SURPLUS HELD RATIOS FOR PROVIDING REINSURANCE - Under the terms of the act, any assessable association that cedes reinsurance in compliance with Section 375.426, for the term of all policies written by the association and with an annual cap of not less than 250% of the associations's annual net written premium, shall be exempt from the surplus and premiums written/surplus ratio provisions, if such reinsurance covers the association's per claim risk on such policies in at least the percentages set forth below that correspond to the association's surplus:

Surplus	Per Claim Risk
0 to \$ 999,999	80%
\$1,000,000 to \$ 2,999,999	70%
\$3,000,000 to \$ 5,999,999	60%
\$6,000,000 to \$10,000,000	50%

383 MALPRACTICE ASSOCIATION RATES - The act repeals a provision of law which currently provides that 383 malpractice association rates shall not be excessive or inadequate, nor shall they be unfairly discriminatory (Section 383.037).

DETERMINATION OF WHETHER A MEDICAL MALPRACTICE INSURANCE RATE IS EXCESSIVE, INADEQUATE, OR DISCRIMINATORY - Under current law, medical malpractice insurers are prohibited from issuing medical malpractice policies in which the rates are excessive, inadequate, or unfairly discriminatory. A determination of whether a base rate is excessive, inadequate, or unfairly discriminatory is determined by the director. This act clarifies this statute by requiring the director to hold a hearing before making such a finding and that the director must base the decision on competent and substantial evidence on the whole record rather than competent and compelling evidence (Section 383.206).

COMPLIANCE WITH THE NEW 383 ASSOCIATION LAWS - Assessable associations operating under the 383 malpractice association laws prior to August 28, 2012, shall have 180 days following such date to come into compliance with the requirements of the modified provisions and to file their articles of association and bylaws conforming to the modified provisions or the director may suspend the assessable association's certificate of authority or issue a cease and desist order prohibiting the assessable association from writing new business (Section 383.009).

The provisions of this act are virtually identical to those contained in SB 440 (2012) and SB 302 (2011).

SB 889 - The act modifies provisions relating to natural resources.

SECTIONS 59.319 TO 60.620 - LAND SURVEY PROGRAM

Under current law, \$1 of a \$4 fee collected by county recorders is remitted to the state for purposes of administering state land survey duties by the Department of Natural Resources. The act creates the Missouri Land Survey Fund and directs the fee revenue into this fund.

The act changes the name of the state land survey authority to the land survey program and updates statutory references in numerous places.

The act modifies several of the land survey duties of the Department of Natural Resources. It directs the department to provide the framework for all geodetic positioning activities in the state. Under current law, the department's regulations for land surveyors are advisory in nature. The act removes the advisory nature of the department's regulations, making the department's regulations enforceable.

The act changes the name of the Land Survey Advisory Committee to the Land Survey Commission and increases the membership on the Commission from 5 to 7. It limits members to three consecutive terms. The act adds a few additional duties to the Commission: providing recommendations on the operation of the land survey program and the selection of the state land surveyor. It also requires the Attorney General to advise the Commission upon its request and represent the Commission in legal proceedings.

The act allows revenue from sales of the department's surveying information to be deposited in the Department of Natural Resources Revolving Services Fund and expands what the Fund may be used for, which includes computer hardware and software and personnel related to retail services provided by the land survey program to the public.

These provisions are identical to SB 814 (2012) and similar to HCS/HB 1395 (2012).

SECTION 260.373 - HAZARDOUS WASTE

The act prohibits the Missouri Hazardous Waste Commission from promulgating any state regulation that either exceeds the requirements of the federal Resource Conservation and Recovery Act (RCRA) or that regulates an aspect of hazardous waste not covered under RCRA. The Commission may grant exceptions to its rules under certain circumstances such as hardship, practicality, or extent of environmental damage caused by compliance.

By July 31, 2013, the Department of Natural Resources must file amendments to any of its existing regulations that are stricter than RCRA to make them comply with the act. Any regulation that is not amended by July 31, 2014 is considered null and void.

The Department may not selectively exclude any or part of any state hazardous waste regulation in certain authorization applications to the U.S. Environmental Protection Agency unless allowed by the Missouri Hazardous Waste Commission.

SECTIONS 414.530 TO 414.570 - MISSOURI PROPANE EDUCATION & RESEARCH COUNCIL

Under current law, there are 3 ways for the director of the Missouri Energy Center to initiate a referendum on the abolishment of the Missouri Propane Education and Research Council and the fee for odorized propane. This act removes one of these 3 ways, which is at the discretion of the director.

Current law allows vacancies on the council to be filled by the remaining members of the council, subject to the approval of the director. This act removes the requirement that the director must approve the appointment and instead requires the council to fill vacancies after a public nomination process.

Current law requires the council to submit a budget plan to the director at the beginning of each fiscal period and requires the director to either approve or recommend changes to the budget after a public comment period. The act removes the director's involvement in the budget approval, and instead requires the budget plan be submitted for public comment at least 30 days prior to the beginning of each fiscal period, and authorizes the council to approve or modify the budget after the public comment period.

The act removes the authority of the director to require additional reports from the council at his or her discretion beyond what is already required under current law.

Authority to establish an alternative means to collect the odorized propane fee and set late payment charges is currently given to the director. This act transfers this authority to the council. The interest rate charged for late payments may not exceed the legal rate for judgments.

The act removes provisions that allow the National Propane Education and Research Council to coordinate its operations with Missouri's council and that authorize Missouri's council to keep funds resulting from a federal rebate on propane fees.

These sections are identical to SB 297 (2009) and HB 751 (2009).

SECTION 640.100 - SAFE DRINKING WATER

Under current law, the authority expires on September 1, 2012 for the Department of Natural Resources to impose an annual per customer fee for connections to a public water system. This act extends the expiration date to September 1, 2017.

This section is identical to HB 1251 (2012).

SECTION 644.051 & 644.145 - WATER POLLUTION CONTROL

The act requires an application for renewal of a general permit to be submitted to the Department of Natural Resources at least 60 days prior to the expiration date of the master general permit unless the Department notifies the permit holder that an earlier application must be made. The act allows general permits to be acquired electronically once available by the Department.

When public participation is not required as part of a general permit application review, the Department must issue or deny the general permit within the later of either 60 days or the date of issuance of the master general permit.

Current law requires the Department to make a finding of affordability when issuing water pollution control permits for combined or separate sanitary sewer systems or publicly owned treatment works. The act requires the affordability finding to also be made for stormwater sewer systems.

SECTION 260.255 - NEWSPAPER PUBLISHERS

The act repeals section 260.255 which requires certain newspaper publishers to file a statement with the Department of Natural Resources declaring whether or not they have complied with recycled paper content percentage requirements.

SB 891 - The act allows telecommunications providers and rural electric cooperatives to enter into written agreements to attach equipment to other telecommunications providers' or rural electric cooperatives' poles for the purpose of deploying electric smart grid or broadband technology. The act does not confer any additional authority or duty to the Public Service Commission to regulate pole attachments.

Under the act, a service provider wishing to attach equipment to another provider's pole must give prior notice to the pole owner and the pole owner has 15 days in which to respond. The 15-day timeframe does not apply when the pole owner is engaged in large-scale emergency repairs or disaster recovery. The pole owner must let the attaching service provider know whether any modifications are necessary to the pole before the attachment can be made, in accordance with applicable safety and reliability codes.

The service provider attaching equipment to another's pole is responsible for any damages caused by the attachment and must pay the reasonable costs of any necessary repairs to ensure the safety and reliability of the pole owner's system is not affected. A pole owner may charge a penalty and retroactive pole fees to anyone who attaches equipment to any of its poles without prior notice to the pole owner. The penalty amount can be set by the parties involved, or in the case of disagreement, the penalty is 25% of the pole rate for up to 12 months.

Pole owners may charge reasonable fees for attaching equipment to their poles. The rates can be agreed upon by the parties involved but must be set on a per-pole basis and should not exceed the reasonable costs to the pole owner. Existing contracts for pole attachments are not affected by the act but after they expire, any new contract must comply with the act's requirements and the new pole rate may not exceed the old pole rate by more than 10% per year except in certain circumstances when the old rate was determined to be too low.

When the parties cannot agree on a pole rate, they may request mediation. If mediation does not resolve the matter, the pole owner sets the rate and the other party may file a petition in circuit court.

The act provides procedures for a pole owner for collecting past-due pole rates that it believes are owed. If a pole owner prevails in a court action to recover past-due rates, it may be awarded past-due rates, interest and penalties, and reasonable attorney fees.

The act provides that for any easement or right-of-way interest acquired by a pole owner before August 28, 2006, for the location of its poles, the pole owner does not have to get permission or otherwise seek approval from the easement holder for any attachments to the pole, unless the easement or contract specifically requires otherwise. The act does not limit a property owner's right to compensation for damages as relating to pole attachments under the act.

The act includes a non-severability clause.

The act is similar to HCS/HB 1361 (2012).

SB 892 - Currently, the Secretary of State is charged with establishing procedures for absent uniformed services voters and overseas voters to request, receive, and send voter registration applications and request and receive absentee ballots by mail or electronically. This act repeals provisions related to absent uniformed services voters and overseas voters and institutes the Uniform Military and Overseas Voters Act to apply to all federal elections, statewide and state legislative elections and local elections where absentee ballots are authorized.

The Secretary of State is required to establish an electronic transmission system through which a covered voter may apply and receive voter registration materials and military-overseas ballots.

The act allows covered voters to use a federal postcard application or the declaration accompanying a federal write-in absentee ballot to apply to register to vote. Such voters who are registered to vote in Missouri may apply for a military-overseas ballot and those who are not registered may use a federal postcard application to simultaneously register and apply for a military-overseas ballot.

Covered voters who are eligible to register and vote but who are not registered may vote for President, Vice President, and United States Senator and Representative by absentee ballot, federal write-in absentee ballot or at the person's polling place after submitting an affidavit that the person is qualified to vote.

Covered voters may use a federal write-in absentee ballot to vote for all offices and ballot measures.

A "covered voter" is defined as :

- (1) A uniformed-service voter or an overseas voter who is registered to vote in this state;
- (2) A member of the active or reserve components of the Army, Navy, Air Force, Marine Corps, or Coast Guard of the United States who is on active duty whose voting residence is in this state and who otherwise satisfies this state's voter eligibility requirements;
- (3) An overseas voter who, before leaving the United States, was last eligible to vote in this state and, except for a state residency requirement, otherwise satisfies this state's voter eligibility requirements;
- (4) An overseas voter who, before leaving the United States, would have been last eligible to vote in this state had the voter then been of voting age and, except for a state residency requirement, otherwise satisfies this state's voter eligibility requirements; or
- (5) An overseas voter who was born outside the United States, is not described in (3) or (4) above, and, except for a state residency requirement, otherwise satisfies this state's voter eligibility requirements, if the last place where a parent or legal guardian of the voter was, or would have been, eligible to vote before leaving the United States is within this state; and the voter has not previously registered to vote in any other state.

6092S.011

SENATE SPONSOR: Kraus

SB 893 - This act requires certain offenders to undergo criminal history checks in order to have their driver's licenses reinstated or have limited driving privileges granted.

This act provides a definition for the term "criminal history check" for the drivers' license chapter (Section 302.010)

Under current law, the Department of Revenue is prohibited from issuing a driver's license to anyone who more than 2 driving while intoxicated convictions. However, a person may petition the court after 10 years from the date of the last conviction to have a new license issued. If, after reviewing the person's record, it is found that the petitioner has not been convicted of alcohol-related offenses during the preceding 10 years, then the court may order the director to issue the petitioner a driver's license. This act requires the court to review the results of a criminal history check prior to making that determination (Section 302.060).

Under current law, the Department of Revenue is prohibited from issuing a driver's license to anyone convicted twice within a 5 year period of violating any driving while intoxicated law or any other intoxication-related traffic offense or to a person who has been convicted of the crime of involuntary manslaughter while operating a motor vehicle in an intoxicated condition. Under the terms of this act, after the expiration of 5 years from the date of the last conviction, a person may petition the court to have a new license issued. The court must review the petitioner's record, including the results of a criminal background check, to determine whether the petitioner has not be convicted of and has no pending charges for alcohol-related offenses. If satisfied, the court may order the director to issue the petitioner a driver's license (Section 302.060).

Persons who petition the court for a reinstatement of his or her driver's license under this act must submit a criminal record review application with the Missouri State Highway Patrol. The petitioner shall submit 2 sets of fingerprints. One set of fingerprints will be used by the highway patrol to search the criminal history repository while the other set will sent to the FBI for searching the federal criminal history files. The person seeking a reinstatement of his or her license must pay all fees related to the criminal history check.

The act makes similar provisions for those who apply for limited driving privileges (hardship license). Under the terms of the act, the court or the director must review the results of a criminal history check prior to granting any limited driving privilege to any person denied a license for a period of 10 years or any person that cannot obtain a license for a period of 5 years. If the court or director finds that the person applying for the limited driving privileges has been convicted or has pending charges for offenses related to alcohol, controlled substances, or drugs, during the preceding 3 years (for 10 year denial petitioners) or preceding 2 years (for 5 year denial petitioners), then the limited driving privilege shall be denied. The person who petitions the court for a limited driving privilege must submit a criminal record review application with the Missouri State Highway Patrol. The petitioner shall submit 2 sets of fingerprints. One set of fingerprints will be used by the highway patrol to search the criminal history repository while the other set will sent to the FBI for searching the federal criminal history files. The person seeking a reinstatement of his or her license must pay all fees related to the criminal history check (Section 302.309).

SB 895 – This act modifies provisions relating to school districts classified as provisionally accredited or unaccredited by the State Board of Education.

SCHOOL ATTENDANCE AGE: In any provisionally accredited or unaccredited school district, parents and guardians must enroll their children in school at age five, as described in the act. (Section 160.057)

PRESCHOOL ATTENDANCE: This act creates a preschool program for children residing in provisionally accredited or unaccredited districts who are no more than two years away from kindergarten entry. The Department of Elementary and Secondary will administer the program. Eligible children must attend preschool through their school district of residence unless enrolled in another preschool, pre-kindergarten program, or Head Start program. Preschool services under this program will be at no cost for the children or their families. School districts providing preschool through this program may include the students in the district's weighted average daily attendance count for state school aid through the elementary and secondary education foundation formula. (Sections 161.236 & 163.412)

SUMMER SCHOOL: In any provisionally accredited or unaccredited school district, any student who is deemed to be underperforming by the school principal must attend summer school at a learning center. The district must pay the cost of the program but may include the student's attendance in its summer school attendance count. The district must follow up with the learning center for purposes of monitoring and determining the student's academic growth and achievement. (Section 170.0345)

LENGTH OF SCHOOL DAY: School districts that are provisionally accredited or unaccredited must adopt a seven hour school day for certain attendance centers.

If a district operates four or more attendance centers, it must adopt a seven hour school day for any school identified as being in the lowest twenty-five percent in terms of performance. Attendance center performance will be measured by the Department of Elementary and Secondary Education based on standardized assessment data, achievement data, and other measures.

If a district has fewer than four attendance centers, it must adopt a seven hour school day for at least one attendance center. (Section 171.032)

SB 898 - The act provides an exemption to certain asbestos-related state requirements for businesses that regularly engage in asbestos abatement at their locations and that are subject to federal laws relating to construction work and asbestos. The exemption applies to state requirements for: certification of certain individuals for asbestos-related work, accreditation for asbestos-related training programs, registration as an asbestos abatement contractor, and notification of the Department of Natural Resources for certain-sized asbestos abatement projects. Certain entities are not eligible for the exemption.

To receive the exemption, businesses must submit to the Department of Natural Resources information about their asbestos-related employee training programs and their asbestos abatement projects. If the Department determines that the entity does not qualify for the exemption, it may deny the exemption but must notify the entity of the denial within a 180-day timeframe. Entities whose exemptions are denied may appeal. Exempted entities must submit a one-time fee of \$250 for the exemption and must submit documentation of any significant changes as they occur over time in their asbestos-related training programs. Entities that receive an exemption before August 28, 2012, are exempt from the fee.

The act allows staff of the Department of Natural Resources to attend, without prior notice, any asbestos-related training programs of exempted entities.

SB 899 - This act relates to the transfer to certain fund balances to the general revenue fund.

On July 1, 2012, after all statutorily and constitutionally required transfer of funds have been made, this act requires the state treasurer to transfer the balance of any fund in excess of 200% of the previous fiscal year's expenditures into the state general revenue fund. This act applies to all state funds created by statute or administratively created by the office of administration.

This act does not apply to certain constitutionally created funds, special trust funds created by statute, funds for the payment of bonded indebtedness, insurance and indemnity funds, and funds created to receive federal funds. Further, this act does not apply to any fund that is subject to current fund sweeps. For any fund in which statutory limitations allow the fund to accumulate balances equal to or greater than 200% of the previous year's expenditures, the act shall apply to the extent necessary to transfer any balance in excess of 200%.

SB 900 - Under current law, prisoners in a county jail must pay the costs of their board. This act requires the Circuit Clerk in each county to report to the Office of State Courts Administrator the names of people certified by the sheriff as being delinquent in the payment of money owed for a period of imprisonment in a county jail. Whenever a person has satisfied his or her debt or begun making regular payments to the sheriff, the sheriff must notify the clerk that the person is no longer considered delinquent.

When the Office of State Courts Administrator receives the name of a debtor, it is required to seek a setoff of state tax refunds and state lottery winnings until the full debt has been paid.

This act requires the Office of State Courts Administrator to notify debtors when it seeks to setoff a tax refund or lottery winnings before it forwards a person's name to the Director of Revenue or Department of Conservation. The notice must contain information regarding the right of review of the debt in the court in which the debt arose.

Once the appeal period has expired or after a determination in an appeal has been made that the person has not satisfied his or her debt, the State Courts Administrator must forward the names of debtors to the Director of Revenue. The director must verify that a person does not owe money to a county jail before issuing a new or renewed concealed carry endorsement. In addition, the department must suspend any current concealed carry endorsement in the name of any debtor and such persons must surrender any driver's license or non-driver's license with the endorsement on it to the Department of Revenue.

This act also requires the State Courts Administrator forward the names of debtors to the Department of Conservation. No debtor may be issued a license to hunt or fish and any such license held by the debtor must be suspended.

SB 902 - SECTION 386.715 - OFFICE OF PUBLIC COUNSEL

The act requires the Office of Public Counsel (OPC) to, prior to the beginning of each fiscal year, inform the Public Service Commission (PSC) of its estimated expenses for the upcoming fiscal year. The OPC must specify how much of its estimated expenses are directly attributable to its work with each type of PSC-regulated public utility (i.e., electric, gas, water, heating, telephone, and sewer) as well as the amount of expenses that are not directly attributable to one specific type of utility. Costs for telephone companies may not exceed 3% of the total directly attributable costs. Costs not directly attributable to one specific type of utility must be proportionately attributed to each utility type based on each utility type's percentage of total gross intrastate operating revenues across all utilities.

The PSC must levy an assessment to each regulated public utility to cover its share of the OPC's costs. The total amount levied to all utilities must not exceed 400ths of 1% of the total gross intrastate operating revenues of all regulated utilities. The PSC must issue a statement of the assessment amount to each utility by July 1st of each year, which the utility may pay in full by July 15th or in 4 equal quarterly installments.

The payments are to be deposited in the Public Counsel Fund, created in the act, and may only be used to pay the expenses of the OPC. Any balance remaining in the fund at the end of the fiscal year must be proportionately credited to the next year's assessments.

The act does not grant authority to the PSC to determine how the OPC estimates its expenses or how the OPC will spend the assessments collected from the utilities.

By March 31st of each year, each regulated utility must file a statement with the PSC of its gross intrastate operating revenues for the preceding calendar year.

This section is similar to provisions in SB 869 (2012), SS/SCS/HB 462 (2011), and SB 406 (2011).

SECTION 393.150 - TEMPORARY RATE ADJUSTMENTS

The act requires the PSC to authorize temporary rate adjustments in any order it issues after concluding a rate case. The temporary rate adjustment covers the time period between when the utility's rates are trued-up in the rate case and the date the PSC's new rates as determined in the order go into effect. The temporary rates must be implemented over a one-year period. If the effect of the PSC's order is to lower the utility's rates, then the temporary rate adjustment will reflect an overcollection from the utility's customers during that time period. If the effect of the PSC's order is to raise the utility's rates, the temporary rate adjustment will reflect an undercollection from the customers during that timeframe.

SB 903 - A law enforcement officer performing a lawful seizure because of a dog fighting violation, under the authority of a warrant, shall be given a disposition hearing within 30 days of filing the request in order to grant immediate disposition of the impounded dog. The person seizing the dog shall place it in the care of a veterinarian, animal shelter, or animal control authority. If such people are not available, the dog shall not be impounded unless diseased or disabled. The dog shall be humanely killed if a veterinarian determines the dog is diseased or disabled beyond recovery. No person who lawfully seizes a dog shall be liable for necessary property damage.

Owners of an impounded dog may prevent disposition of the dog by posting bond in an amount sufficient to cover the dog's care for 30 days. The custodian of the dog may dispose of the dog at the end of such time unless there is a court order prohibiting it. The court order shall provide for a bond or other security in an amount to cover the cost of care, keeping, or disposal of the dog.

The owner of a dog humanely killed under this act shall not be entitled to recover damages for the value of the dog if it was found by a veterinarian to be diseased or disabled or if the owner failed to post bond for its care and disposition after being notified of the impoundment.

This act is substantially similar to SB 201 (2009).

SB 908 - Under current law, a person does not commit the Class B misdemeanor of first degree trespassing by entering or remaining on property that is not fenced, enclosed, or posted, or if the person has not received actual notice that he or she is trespassing. Current law also provides that anyone who unlawfully enters the property of another regardless of the person's mental intent, the physical characteristics of the property, or any other aspect of the trespass is guilty of the infraction of second degree trespassing.

Under this act, anyone who knowingly and unlawfully enters or remains in or on the property of another is guilty of the Class B misdemeanor of trespassing regardless of whether he or she was given notice or whether the property was posted, enclosed, or fenced. Second degree trespassing is repealed entirely.

6112S.011

SENATE SPONSOR: Cunningham

SB 909 - This act modifies provisions relating to the business records exception to hearsay in evidence law. This evidence rule is renamed The Records of Regularly Conducted Activity. The definition of business is expanded to include institutions and associations.

Currently, a record is admissible at the court's discretion if the custodian or other qualified witness testifies to the identity and preparation of the record and that it was made in the regular course of business at or near the time of the act described. This act further requires that the record be made by someone with knowledge or from information transmitted by a person with knowledge. It must also be a regular practice of that business to make such a record.

The record of regularly conducted activity exception is to be interpreted so that it has a similar effect as the rules in other states for third-party business records hearsay exception. If the record is domestic, the certification by the custodian that the requirements have been met must contain a written declaration under oath subject to perjury. If a foreign record, the evidence must have a written declaration that if made falsely would subject the maker to criminal penalty under the laws of such country.

SJR 34 - Upon voter approval, this proposed constitutional amendment repeals the corporate income, corporate franchise, and bank franchise, effective January 1, 2013, and repeals the state sales and use taxes effective June 30, 2013. For each tax year beginning January 1, 2013, the tax rates for the state individual income tax will be reduced by twenty percent from the previous year's rate until all such rates are zero. Effective January 1, 2018, state taxes upon income will be prohibited. Beginning July 1, 2013, a new state tax on taxable purchases and services will be imposed at a rate not to exceed seven percent. The General Assembly must provide for annual rate adjustments to ensure revenue neutrality during the phase out of the individual income tax.

Component parts or ingredients of a new tangible personal property to be sold at retail, intangible property, previously taxed property, motor fuel, insurance premiums and fees paid on insurance products, donations to and purchases by charitable organizations, federal government purchases, tuition paid for educational services, and business-to-business transactions including agriculture will be exempt from the new tax while all other exemptions and tax credits will be eliminated. The enactment of any new exemptions will require a two-thirds affirmative vote by the General Assembly and approval by the Governor. The conservation sales tax, the soil and parks sales tax, and local sales taxes will be recalculated to produce substantially the same amount of revenue. The General Assembly must provide a method to calculate and provide sales tax rebates or prebates to exempt a portion of taxable purchases made by Missouri residents.

This act is similar to SS#2/SCS/SJR 29 (2010).

SENATE SPONSOR: Ridgeway

SJR 35 - This constitutional amendment, upon the approval of the voters, eventually repeals the individual income tax and certain state and local sales and use taxes and authorizes the imposition of different sales and use taxes that are capped at certain tax rates.

INCOME AND EARNINGS TAXES

This amendment caps the individual income tax rate at three percent for each tax year between January 1, 2014 and January 1, 2016. After January 1, 2016, the individual income tax is repealed.

Currently, senior citizens and the disabled receive an income tax credit that provides relief from property taxes. Because the income tax will no longer exist after January 1, 2016, the General Assembly is required to pass a law that provides senior citizens and the disabled with a continuation of relief from property taxes.

The General Assembly is prohibited from authorizing any political subdivision to tax individual earnings, except for a city that has a tax on individual earnings before January 1, 2013.

SALES AND USE TAXES

Effective January 1, 2014, state sales and use tax laws and exemptions are repealed, except for taxes on alcohol, aviation fuel, insurance products, tobacco, the conservation sales tax, the soil and parks sales tax, and the motor vehicle fuel tax. Between January 1, 2014 and January 1, 2016, a new state tax on sales and services will be imposed at a rate not to exceed five percent, except the rate of tax on food is prohibited from

exceeding four percent. Beginning January 1, 2016, the tax rate on sales and services combined with the conservation sales tax rate, and the soil and parks sales tax rate cannot exceed seven percent and the tax rate on the sale of food combined with the conservation sales tax rate and the soil and parks sales tax rate cannot exceed five and one-half percent. All revenues from the new tax on sales and services are required to go to the state general revenue fund, except that the School District Fund is required to receive at least the average amount of revenue it received in fiscal years 2008 to 2012.

Previously taxed property, sales for resale, certain professional services, real estate sales and commissions, utility sales, certain pharmaceutical sales and medical services, child care services, assisted living services, tuition paid for educational services, employee services, component parts of a product or service, construction, warehousing, computer system, software design, employment, call center, and payroll processing services, sales of financial instruments, sales of insurance, sales of railroad rolling stock, sales of barges, property purchased by carriers engaged in air transportation, gaming sales, government purchases, purchases by charitable organizations, food stamp purchases, and purchases made under the supplemental feeding for women, infants, and children program will be exempt from the new tax and from the conservation sales tax and the soil and parks sales tax. The enactment of any new exemption will require a two-thirds vote by each house of the General Assembly and approval by the Governor.

The conservation sales tax and the soil and parks sales tax, will be recalculated to produce substantially the same amount of revenue for fiscal year 2015 as was received on average annually in fiscal years 2008 to 2012. These rates may be readjusted one time after January 1, 2014 and before January 1, 2016 to produce substantially the same amount of revenue as was received on average annually in fiscal years 2008 to 2012.

Effective January 1, 2014 all local sales taxes and exemptions, except those expressly approved by local voters and in effect on January 1, 2013 will be void. The Department of Revenue is required to calculate a new rate for the counties and other taxing to produce substantially the same amount of revenue as was produced on average in the five years before January 1, 2014.

Beginning January 1, 2016 all combined state and local sales taxes cannot exceed ten percent, unless the rate established by the Department of Revenue to produce the same amount of revenue to the local taxing jurisdiction results in a rate above ten percent, or the voters in the taxing district approve a new tax by fourth-sevenths of the voters at certain elections and two-thirds of the voters at all other elections.

PROPERTY TAX

If a person who owns real estate has an increase in their property tax liability by more than a certain percentage, and the person is sixty-five or older, with an income of less than 75,000 dollars, and a home that is appraised at 400,000 dollars or less, the person is entitled to receive a property tax credit. The state is required to reimburse local governments for seventy-five percent of the amount of this credit.

HCS HB 1030

4140L.03P

SENATE SPONSOR: Richard

HOUSE HANDLER: Flanigan

HCS/HB 1030 - This act modifies laws regarding the collection of moneys owed to the state.

The act authorizes the Director of Revenue to choose to send certain documents by first class mail, if the director sent at least one notice of deficiency or assessment by certified mail to the last known address.

The Director of the Department of Revenue is authorized to retain one percent of the amount of any local sales or use taxes collected by the department for the cost of collection.

Beginning January 1, 2013, a statement of no tax due will be required for the issuance or renewal of all city and county occupation licenses as well as all state licenses required to conduct business. Such statement must be dated not more than ninety days from the date of application for license to be valid. Instead of requiring the statement of no tax due, the Director of Revenue is required to enter into an agreement with any state agency responsible for issuing any state license requiring the agency to provide the department with the name and tax identification number of each applicant for licensure within one month of the date the application is filed or at least one month prior to the anticipated license renewal. If an applicant is delinquent on any taxes, the department director must send a notice to the licensing agency and the applicant. An applicant's license must be suspended within 90 days after the notice unless: the taxes are paid; an arrangement has been made with the department to pay the taxes; the taxes were paid under protest; or the tax liability is found to be reasonably disputed.

The act provides taxpayers with amnesty from the assessment or payment of all penalties, additions to tax, and interest on delinquencies of unpaid taxes administered by the department which occurred on or prior

to December 31, 2011. To receive amnesty under the act, a taxpayer must: apply for amnesty; file a tax return for each tax period for which amnesty is requested; pay the unpaid taxes in full from August 1, 2012, to October 31, 2012; and agree to comply with state tax laws for the next eight years from the date of the agreement. All new revenues resulting from the tax amnesty program will be deposited into the General Revenue Fund unless otherwise earmarked by the Missouri Constitution or by state statute.

The Director of the Department of Revenue and the Commissioner of the Office of Administration may enter into a reciprocal agreement with the federal government or any other state to offset vendor and contractor payments for any type of debt owed to the state. Currently, the department has a reciprocal agreement with the United States Treasury to offset income tax overpayments.

State agencies, community college districts, and state and municipal courts may refer any debt owed to them to the Department of Revenue for collection. The department and the referring state agency may exchange necessary information but must comply with federal and state laws regarding the confidentiality of information and records. The department may compromise any referred state debt and use all general remedies afforded creditors of Missouri, remedies specific to the referring state agency, and remedies afforded the state in general.

The department can employ staff, attorneys, prosecuting attorneys, and private collection agencies to aid in the collection of debt. The department must add 10% to the amount of debt to be collected for the cost of collection which may be waived under certain conditions. Collections costs shall be deposited in state general revenue.

Anyone making a claim or having a judgment under the provisions of the State Legal Expense Fund must have a no-tax due statement from the department before any moneys can be expended from the fund for the settlement of any liability claim. The act allows an offset from the State Legal Expense Fund to satisfy any delinquent tax debt owed before payment is made to the person. Payments of \$10,000 or less from the fund for property damage claims are not required to have a no-tax due statement.

The director of revenue may issue an administrative garnishment once he or she has filed a certificate of lien in the circuit court for delinquent income or sales or use taxes. Any person receiving this order must turn over any of the taxpayer's assets in his or her possession and any assets that are to become due the taxpayer including wages, salaries, commissions, bonuses, workers' compensation benefits, disability benefits, pension or retirement payments, and interest less a fee to cover costs of no more than \$6 per month. The taxpayer may obtain relief from the garnishment by paying the total amount owed.

This act also modifies the procedures for seeking a refund of sales taxes, penalties, or interest collected or computed in error or illegally. The Director of Revenue is required to hold a refund claim unprocessed at a taxpayer's request pending the outcome of legal proceedings on the same or similar grounds or transactions. A purchaser is allowed to submit a claim for a refund of the sales tax directly to the Director of Revenue. The purchaser is allowed to appeal the decision to deny a refund within sixty days of the date the notice of denial is mailed. A decision of the director to deny a refund claim based solely on the issue of the exemption of the electronic transmission or delivery of computer software that occurred on or after January 1, 2007 will be appealable by the purchaser, if the purchaser appealed by September 28, 2012.

The provision regarding tax amnesty has an emergency clause.

Provisions of this act are similar to provisions of HB 116 (2011) and HCS/SB 117 (2011).

HOUSE HANDLER: Sater

HCS/HB 1072 - This act establishes the Volunteer Health Services Act which allows a licensed health care provider to provide volunteer professional health care services for a sponsoring organization. Any person with a suspended or revoked license or who provides services outside the scope of his or her license is not eligible to provide services under the act.

Before a health care professional can provide volunteer services, the sponsoring organization shall register with the Department of Health and Senior Services and pay a \$50 fee. A sponsoring organization shall file a quarterly voluntary services report with the department, keep its records of health care provider volunteers up to date, and maintain the records for five years following the service rendered by the health care provider volunteer.

Any health care provider volunteering his or her services shall not be liable for any civil damages for any act or omission resulting from his or her service unless there was gross negligence or willful misconduct. A volunteer cannot receive any form of direct or indirect compensation, benefits, or consideration for his or her health care services. The volunteer shall perform acts within the scope of his or her professional license and in compliance with all applicable health care regulations. Any volunteer crisis response team member who participates in a crisis intervention shall not be liable in tort for any personal injuries or emotional distress of any participant to the intervention that is caused by the act or omission of the team member during an intervention with certain specified exceptions.

This act is substantially similar to HB 29 (2011).

*** HB 1104 ***

4521L.02P

HOUSE HANDLER: Schoeller

HB 1104 - The act establishes identification requirements for voting. Voters shall produce a nonexpired Missouri driver's license; a nonexpired or nonexpiring Missouri nondriver's license; any identification containing a photograph issued by the Missouri National Guard, the United States armed forces, or the United States Department of Veterans Affairs; or a document issued by the United States or the state of Missouri containing the name of the voter which substantially conforms to the most recent signature in the individual's voter registration records, a photograph, and an expiration date or if expired, the expiration is after the date of the most recent general election.

Those appearing without identification who are unable to obtain one because of a physical or mental disability, an inability to pay for a document necessary to obtain the required identification, a religious belief against forms of identification or the voter was born before January 1, 1941, shall be allowed to vote a provisional ballot, provided the election authority can verify the identity of the individual by comparing the individual's signature to the signature on file with the election authority.

All voters whose identity cannot be established are allowed to cast a provisional ballot which shall not be counted unless the voter returns to the election authority within 3 days after the election and provides proper identification.

All costs incurred by the election authority associated with implementing the new identification requirements shall be reimbursed from the general revenue upon appropriation.

The Secretary of State shall provide advance notice of the identification requirements to be included in

the election authorities elections notices.

The state shall provide at least one form of identification required to vote at no cost to the voter.

This act is contingent on the passage of a constitutional amendment establishing advance voting and voter photo identification for elections.

This act is similar to SB 1014 (2006), SB 523 (2009), HB 1966 (2010), SB 3 (2011), SB 442 (2012).

HOUSE HANDLER: Dugger

HCS/HB 1106 - This act establishes minimum qualifications for the offices county collector in non-charter counties and county treasurer-collector. A candidate for either office must be at least 21 years of age, a resident of the state and the county in which the candidate will serve for one year prior to filing for office, and a registered voter. In addition, candidates must be current in the payment of state and local taxes and must provide proof of ability to meet bond requirements.

County collector-treasurers are given the sole authority to appoint their deputies and must remain in office until a successor is elected.

Once elected, collectors and collector-treasurers must reside in the county for the duration of their terms.

*** HB 1112 ***

4764L.01P

HOUSE HANDLER: Gosen

HB 1112 - This act amends Section 376.010 to allow life insurers licensed in Missouri to write limited amounts of non-life business outside of the United States, subject to specified limitations. Primarily, a Missouri domestic life insurance company may only write or assume such business if it is written outside of the United States. Additionally, such exposure may only be written or assumed as a rider attached to a base life insurance policy. Finally, the domestic insurance company's exposure to such business is capped based upon the insurance company's annual premium, which shall be not more than 3% of the prior year's capital and surplus (Section 376.010).

The act also permits a Missouri-domiciled insurance company to write or assume involuntary unemployment insurance in connection with group life insurance business as well as credit insurance business, but only to the extent that such business is written or assumed outside of the United States (Section 376.015). The act also "cleans-up" an insurance investment statute by inserting a number of commas in Section 376.307 which were inadvertently omitted in a bill passed in 2007 (Section 376.307).

This act is identical to SB 620 (2012).

*** HB 1123 ***

HCS HB 1123

4849L.02P

HOUSE HANDLER: Frederick

HCS/HB 1123 - This act requires the Department of Health and Senior Services to review and revise its regulations governing hospital licensure and enforcement to promote efficiency and eliminate duplicate regulations and inspections by or on behalf of the state and federal agencies.

The department is also required to adopt regulations that require among other things: (1) Specific findings of deficiencies to refer to the specific written and publicly available standard that is the basis of the finding; (2) Consistency with the federal Centers for Medicare and Medicaid Services' (CMS) Conditions of Participation; (3) A process and standards to determine if a complaint warrants an onsite investigation; (4) Limits to a complaint investigation performed by the department to the specific regulatory standard raised by the complaint, unless there is a documented immediate and serious threat, as defined directly and through interpretive guidelines included in hospital licensure regulations; and (5) A process to provide a hospital with a report of all complaints made against it.

The department shall also designate adequate and sufficient consultation and staffing resources to facilitate the required annual inspection of hospitals for licensure. The department shall also accept a hospital inspection report from the CMS-approved organizations in lieu of the department's or other governmental organization's annual inspection report and also shall accept such hospital inspection report for licensure purposes if the accreditation inspection was conducted within three years, rather than one year, of the most recent license renewal. This act also limits the scope of a good cause departmental inspection to the specific regulatory standard raised by the complaint.

A hospital and its staff shall have the opportunity to participate at least annually in training sessions provided to state licensure surveyors and in the training of surveyors assigned to the inspection of hospitals to the fullest extent possible.

This act also establishes specific timelines identical to those in CMS's State Operations Manual for state hospital officials to respond to a hospital regarding the status and outcome of pending investigations and possible regulatory action.

These provisions are substantially similar to SS/SCS/SB 621 and substantially similar to HCS/HB 579 (2011).

HB 1128 - This act authorizes the Adjutant General to present a Missouri National Guard Overseas Training Ribbon to members of the Missouri National Guard who have participated in training outside the United States for 10 or more cumulative days. The Adjutant General is also authorized to present a Missouri National Guard State Partnership Program Ribbon to a member of the Missouri National Guard who has participated in a state partnership program mission to a country with which Missouri has a federally recognized partnership.

The Governor, upon the recommendation of the Adjutant General, is authorized to present the Order of the Minuteman Award to a military or civilian individual who has distinguished himself or herself by exceptionally meritorious service or achievement to the state or to the Missouri National Guard. No more than one award can be presented to any person and no more than five awards can be issued in a year. In the event of the death of an individual who is entitled to the award, it may be presented to his or her next of kin.

*** HB 1135 ***

4770L.01P

SENATE SPONSOR: Dixon

HOUSE HANDLER: Smith

HB 1135 - This act modifies provisions regarding the updating and review of administrative rules. The Secretary of State is given the authority to make non-substantive changes to the Code of State Regulations to update state agency information, such as name or address changes.

This act provides that every state administrative rule that is filed by any state agency after August 28, 2012, shall automatically sunset ten years after their effective date. The act creates a schedule for the expiration of currently enacted rules. If an agency wants to continue the effectiveness of the rule beyond ten years, the agency shall repromulgate the rule at least once every ten years after its sunset.

For each rule filed, amended or repromulgated under this act, the agency shall review the rule to determine whether the rule: continues to be necessary or is obsolete; duplicates, overlaps or conflicts with other state, federal or local rules; needs changes or should be rescinded in order to reduce regulatory burdens on businesses, individuals or political subdivisions, or to eliminate unnecessary paperwork; and whether a less restrictive, more narrowly tailored rule could adequately protect the public or accomplish the same statutory purpose.

Within sixty days after receipt by an agency of a petition filed by an individual requesting an agency to adopt, amend or repeal a rule, the act requires an agency to submit a written response to the petitioner, the Joint Committee on Administrative Rules, and the Commissioner of Administration containing its determination, along with the basis for its determination.

The Joint Committee on Administrative Rules shall provide a semi-annual report to state departments and the Secretary of State on rules that are scheduled to expire, however, the state agencies retain ultimate responsibility for monitoring the effectiveness of their rules.

This act is identical to SB 469 (2012) and is similar to SB 350 (2011) and HCS/HB 697 (2011).

*** HB 1139 ***

HCS HB 1139

4093H.06P

SENATE SPONSOR: Kehoe

HOUSE HANDLER: Gatschenberger

HCS/HB 1139 - This act establishes the 2012 State Employee Retirement Incentive Program. This program applies to employees covered under the Missouri State Employees' Retirement System (MOSERS), who have not been a retiree of the system, that are eligible to receive a normal or life annuity, that terminate employment on or after December 1, 2012, whose annuity commences between January 1, 2013, and March 1, 2013, and have ten years of creditable service. These employees will be eligible to receive a years of service incentive benefit. Any employee terminated for cause will not be eligible to receive this incentive benefit.

The incentive benefit will be an amount equal to \$1,000 for each year of creditable service up to a maximum of 20 years. The state, through the Office of Administration, must pay the benefit to the retiree or the retiree's beneficiary in five equal installments beginning in March 2013, and each March thereafter until all five installments have been paid. An employee electing to take this retirement incentive is prohibited from any future full-time or part-time employment with a state department.

The state may only fill positions vacated under this program using up to fifty percent of the funds from the vacated positions, unless the position is federally funded.

Certain state higher education institutions, the Missouri Department of Transportation, the Missouri State Highway Patrol, and the Department of Conservation may elect to provide their employees with similar benefits provided by this program.

MOSERS must submit a report to the Commissioner of the Office of Administration by July 31, 2013, regarding the number of state employees eligible to retire and the actual number of retirements utilizing this program. The commissioner must then report this information to the Governor and General Assembly by August 31, 2013, along with a cost and savings analysis, the payroll reduction amount, and the number of positions that are core cut as a result of these retirements. The Commissioner must also submit an annual update concerning the program for the next four years beginning August 31, 2014.

HOUSE HANDLER: Gatschenberger

HB 1141 - This act modifies the laws regarding the "Don't Tread on Me" special license plate. The act requires a person applying for the plate to pay a \$15 fee in addition to the regular registration fees and to present any documents required by law. The act further specifies that no additional fee can be charged for the personalization of the special license plates. The act also specifies the detailed design of the plate by going into a painstaking description of what the Gadsden snake must look like and a description of the grass of which it sits.

*** HB 1174 ***

HCS HB 1174

4621L.02P

HOUSE HANDLER: Lair

HCS/HB 1174 – This act removes the two-year waiting period that exists between the classification of a school district as unaccredited and the lapse of the district's corporate organization. Instead, when the State Board of Education classifies a district as unaccredited, it must review the governance of the district to establish the conditions under which the existing school board will continue to govern. The State Board must also determine the date on which the district will lapse and must determine an alternative governing structure for the district.

This act changes the timing and purpose of the hearing that the Department of Elementary and Secondary Education must conduct. When a district is classified as unaccredited, the hearing must be regarding the accreditation status of the district. Also, the hearing must provide an opportunity to convene community resources that may be useful or necessary to support the school district as it attempts to return to accredited status.

When it classifies a district as unaccredited, the State Board of Education may allow continued governance by the existing local board of education under specific terms and conditions. If the State Board appoints a special administrative board to oversee the district, it may determine the number of members and specify the board's duties. If the State Board determines an alternative governing structure, it must provide a rationale for its decision and review and recertify the alternative form of governance every three years. In addition, the State Board must create a public comment method, establish expectations for academic progress by creating a time line for full accreditation, and provide annual reports to the General Assembly and Governor on the district's progress, as described in the act.

A special administrative board appointed under this act will retain the authority granted to a school board under the laws of the state in effect at the time of the district's lapse.

This act repeals the requirement that provisionally accredited and unaccredited districts develop a plan to divide up the district if the district cannot regain accreditation within three years of the loss of accreditation.

No action of the State Board of Education under this section will be construed to supersede the right of a student residing in an unaccredited school district, under section 167.131, to transfer to an accredited district in the same or an adjoining county and have his or her tuition paid by the school district of residence.

This act contains an emergency clause.

This act is identical to SCS/SB 677 (2012).

HCS/HB 1193 - LIMITATION ON QUANTITY AND OUT-OF-STATE PRESCRIPTIONS

A pharmacist, in good faith, may sell and dispense controlled substances to any person upon a prescription of a practitioner located in another state, provided that:

- (1) The prescription was issued according to and in compliance with the applicable laws of that state and the United States; and
- (2) The quantity limitations in this state apply to patients located in this state. SECTION 195.060

Currently, the quantity of Schedule III, IV or V controlled substances dispensed at any one time is limited to a 90-day supply with the ability to increase the amount up to 3 months under certain circumstances. This act provides that such supply limitations shall not apply if the prescription is issued by a practitioner located in another state according to and in compliance with the applicable laws of that state and the United States and dispensed to a patient located or residing in another state. SECTION 195.080

PRESCRIPTION DRUG MONITORING ACT

This act establishes the Prescription Drug Monitoring Act. The Department of Health and Senior Services is required to establish and maintain a program to monitor the prescribing and dispensing of all Schedule II through Schedule IV controlled substances by all licensed professionals who prescribe or dispense these substances in Missouri. The provisions of this act shall be funded with federal or private moneys.

A dispenser shall electronically submit to the department information for each prescription and specify the frequency of the submissions. The department may issue a waiver to a dispenser who is unable to submit

the required information electronically. If a waiver is obtained, a dispenser can submit the required information in paper format or by other approved means. The department shall reimburse each dispenser for the fees and other direct costs of transmitting the information required by this act.

All submitted prescription information shall be kept confidential with specified exceptions. This act authorizes the release of non-personal, general information for statistical, educational, and research purposes. The department shall review the dispensation information and, if there is reasonable cause to believe a violation of law or breach of professional standards may have occurred, the department shall notify the appropriate law enforcement or professional regulatory entity and provide dispensation information required for an investigation. The department shall also maintain a registry of persons who the department has reasonable cause to believe may have violated the law or been in breach of professional standards.

Dispensers who knowingly fail to submit the required information or who knowingly submit incorrect dispensation information shall be subject to a \$1,000 administrative penalty per violation. Any persons authorized to have dispensation information who knowingly disclose such information or who use it in a manner and for a purpose in violation of the act shall be guilty of a Class A misdemeanor.

The department shall implement an educational course regarding the provisions of this act and, when appropriate, shall work with associations for impaired professionals to ensure the intervention, treatment, and ongoing monitoring of patients who have been identified as being addicted to substances monitored by the act.

The Bureau of Narcotics and Dangerous drugs within the department shall establish, beginning January 1, 2014, a two -year statewide pilot project for the reporting of fraudulently obtained prescription controlled substances. The bureau shall submit on or before February 1, 2014, a report to the General Assembly detailing the specified information regarding the pilot project.

The provisions of the act regarding the pilot project shall expire three years from the effective date and the other provisions of the act shall expire six years from the effective date of this act. SECTIONS 195.450 TO 195.480

PHYSICIAN ASSISTANT PRESCRIPTIONS

Under current law, physician assistants who are authorized to prescribe controlled substances shall register with the federal Drug Enforcement Administration and the State Bureau of Narcotics and Dangerous Drugs and shall include such registration numbers on prescriptions for controlled substances. This amendment requires the physician assistants to only include the registration number from the Drug Enforcement Administration on the prescriptions. SECTION 334.747

This act is substantially similar to SS/SCS/SB 710 (2012).

HCS/HB 1212 - Under current law, the total gross weight of a vehicle or combination of vehicles hauling livestock on U. S. Highway 36 from St. Joseph to U. S. Highway 65 and on U. S. Highway 65 from the Iowa state line to U. S. Highway 36 cannot exceed 85,500 pounds. This act removes the references to the specified highways and expands the weight limitation to agricultural products so that any vehicle or combination of vehicles hauling livestock or agricultural products (excluding local log trucks) may have a total gross weight not to exceed 85,500 pounds on any highway of this state. The expanded gross weight limits shall not apply to vehicles operated on the interstates. Any vehicle hauling greater than 80,000 pounds must apply annually for a permit from the Department of Transportation and pay a \$25 fee. Upon renewal, the applicant must submit a list of roads traveled and the number of miles traveled on each road during the year. The act also allows a vehicle weighing 85,500 pounds or less to haul milk from a farm to a processing facility on highways other than the interstate highway system.

*** HB 1219 ***

5103L.01T

SENATE SPONSOR: Lager

HOUSE HANDLER: Elmer

HB 1219 - Currently, under the Missouri Human Rights Act (MHRA), a practice is unlawful when the protected trait is a contributing factor in the decision to discriminate. This act changes that standard to a motivating factor standard except in adverse impact cases. In those cases, states shall follow federal anti-discrimination law.

Currently, persons acting in the interest of employers are considered employers under the MHRA and are liable for discriminatory practices. This act modifies the definition of employer to exclude those individuals. The act similarly excludes individuals employed by employers, and tax exempt private membership clubs (that are not labor organizations) from the definition.

Parties to a discrimination case under the MHRA may demand a jury trial.

The court may award the plaintiff actual and punitive damages, and court costs and attorneys fees to the prevailing party. Damages may include future pecuniary losses, emotional pain, suffering, inconvenience, mental anguish, loss of enjoyment of life and other nonpecuniary losses.

Damages awarded for employment cases under the MHRA and whistleblower actions shall not exceed back pay, interest on back pay, other equitable relief, court costs, and fees of \$50,000 and \$50,000 for employers with between 5 and 100 employees, \$100,000 for employers with between 100 and 200 employees, \$200,000 for employers with between 200 and 500 employees, or \$300,000 for employers with more than 500 employees. Punitive damages shall not be awarded against the state of Missouri or political subdivisions in MHRA cases except for in discriminatory housing practices cases. The damage caps shall not apply in housing cases.

The act abrogates all Missouri case law relating to the public policy exceptions to the employment at-will doctrine. Employers

are barred from discharging the following persons:

- a person who reports an unlawful act of the employer or its agent to governmental or law enforcement agencies, officer, or the employee's human resources representative employed by the employer;
- a person who reports serious misconduct of the employer or its agent that violates a clear mandate of public policy as articulated in a constitutional provision, statute, regulation promulgated pursuant to statute, or a rule created by a governmental body;
- a person who refuses to carry out a directive issued by an employer or its agent that, if completed, would be a violation of the law;
- or a person who engages in conduct otherwise protected by statute or regulation.

This act is similar to HB 1456 (2006), SB 168 (2007), SB 1046 (2008), HB 799 (2009), HB 227 (2009), SB 374 (2009), HB 1488 (2010), and SB 852 (2010), SB 188 (2011), and SB 592 (2012).

HCS HB 1220

5026L.02P

HOUSE HANDLER: Hubbard

HCS/HB 1220 - This act establishes a two-year pilot project to encourage visitation between mothers in prison and their children.

The program requires a collaboration between the Department of Corrections and the Children's Division of the Department of Social Services to provide transportation for visits to the mother once a month, with a focus on children who live 50 or more miles away from the prison where their mother is located.

The Corrections Department and the Social Services Department may promulgate rules to implement the program.

The project is to be funded by existing appropriations or moneys appropriated for the project.

The departments of corrections and social services must report to the Governor and General Assembly by February 1, 2016, on the program.

SENATE SPONSOR: Pearce

HOUSE HANDLER: Brattin

HB 1269 - This act modifies provisions relating to the "CASS COUNTY - THE BURNT DISTRICT" special license plate. Under current law, 80% of the \$25 annual contribution fee is distributed to the Cass County public safety and 20% of the fee is distributed to the Cass County parks and recreation department. Under the terms of the act, the distribution of the annual contribution fee is modified so that 70% of the fee is distributed to public safety, 15% is distributed to the Cass County Historical Society, and 15% is distributed to the Cass County parks and recreation department.

The act further specifies that prior to the issuance of the specialty personalized plate, the Department of Revenue must be in receipt of an application as prescribed by the department director and be accompanied by a list of at least 200 potential applicants, the proposed art design for the specialty plate, and an application fee not to exceed \$5,000. The act provides that the special license plate shall be redesigned unless the organization pays the department director in advance for all redesigned plate fees.

HCS HB 1311

5033H.03P

HOUSE HANDLER: Silvey

HCS/HB 1311 - This act allows the governing body of any municipality to enter into loan agreements, or sell, lease, or mortgage municipal property to private entities for the development of a technology business facility project. Transactions involving the lease or rental of such properties will be exempt from state and local sales taxes and any leasehold interests on such properties will not be subject to property taxes. The act allows municipalities to sell or otherwise dispose of municipal property to private entities for technology business facility projects provided that the terms and methods utilized reasonably protect the economic well being of the municipality. Any private entity which transfers property to the municipality for purposes of a technology business facility project will reserve the right to request that the municipality transfer such property back to the entity at no cost.

This act provides state and local sales and use tax exemptions for all machinery, equipment, computers, electrical energy, gas, water and other utilities, including telecommunication and internet services, used in new data storage center facilities. The act also provides a state and local sales and use tax exemption for purchases of tangible personal property for the construction of a new data storage center facility. In order to receive the sales tax exemption provided for new data storage center facilities, an application must be made to the Department of Economic Development for certification. Such application must show that the project will result in at least thirty-seven million dollars of new facility investment and create at least thirty new jobs with wages of at least 150 percent of the county average wage over a three year period.

The act also creates a state and local sales and use tax exemption for existing data storage center facilities for all machinery, equipment, computers, electrical energy, gas, water and other utilities, including telecommunication and Internet services. The exemption will only apply to the increase in expenditures for utilities over the previous year's expenditures. The exemptions for tangible property will be available only on the increase in expenditures over the average of the previous three years expenditures. In order to receive the sales tax exemption provided for existing data storage center facilities, an application must be made to the Department of Economic Development for certification. Such application must show that the project will result in at least five million dollars of new facility investment over a one year period and create at least five new jobs with wages of at least 150 percent of the county average wage over a two year period.

The Department of Economic Development and the Department of Revenue are authorized to conduct random audits to ensure compliance with the requirements for state and local sales and use tax exemptions authorized under the act.

This act is similar to Senate Bill 584 (2012), a provision of Senate Bill 8 (1st Ex. Session), Senate Bill 217 (2011), and Senate Bill 868 (2010).

*** HB 1329 ***

HCS HB 1329

5214L.02P

SENATE SPONSOR: Parson

HOUSE HANDLER: Silvey

HCS/HB 1329 - This act modifies various provisions related to the registration of motor vehicles.

TEMPORARY PERMIT TAGS - This act modifies the process for issuing temporary permits to motor vehicle owners. Under the terms of the act, the director of revenue is authorized to allow others to produce new temporary permits that allow buyers of motor vehicle or trailers to operate such vehicles for a 30 day period.

The price paid by a registered dealer for a temporary permit shall not exceed \$5.00 per permit (current law sets the amount at \$7.50). Under the act, amounts received by the director for temporary permits constitute state revenue while amounts received by authorized producers shall not constitute state revenue. Amounts received by dealers for temporary permits purchased from authorized producers shall not constitute state revenue. The act specifically provides that general revenue funds or other state funds shall not be used to compensate motor vehicle dealers and other producers for their role in producing temporary permits. Dealers may not charge more than \$5.00 for each permit it issues (down from \$7.50). The act allows the director to reissue and extend the use of a temporary permit during the time period a title and registration are being obtained (Section 301.140).

BIENNIAL REGISTRATION OPTION FOR LARGER VEHICLES - This act expands the number of commercial motor vehicle owners who will have the option of biennially registering their commercial motor vehicle. Under current law, the director may provide owners of motor vehicles, other than commercial motor vehicles licensed in excess of 12,000 pounds gross weight, the option of biennially registering motor vehicles. This act provides this option to owners of motor vehicles, other than commercial motor vehicles licensed in excess of 54,000 pounds (Section 301.147). This provision is similar to the one contained in the truly agreed to version of HB 430 (2011).

STAGGERING OF DEALER LICENSES -DEALER BIENNIAL REGISTRATIONS - This act authorizes the director to issue a dealer's license valid for a period of up to two years and to stagger the license periods for administrative efficiency and equalization of workload. This provision is similar to the one contained in the truly agreed to version of HB 430 (2011) (Section 301.559).

I'M PET FRIENDLY SPECIAL LICENSE PLATES - Under current law, a person who wants to obtain I'M PET FRIENDLY special license plates must pay a \$25 emblem-use authorization fee to the Missouri State Humane Association and submit to the director an application along with an emblem-use authorization statement issued by the association. This act allows a person to pay the \$25 emblem-use fee directly to the director at the time of registration for deposit into the Missouri Pet Spay-Neuter Funds (Section 301.3087).

*** HB 1441 ***

5000L.01P

SENATE SPONSOR: Pearce

HOUSE HANDLER: Fisher

HB 1441 - This act modifies various workers' compensation and unemployment compensation provisions.

WORKERS' COMPENSATION

The Division of Workers' Compensation is allowed to determine the manner in which an application is made for hearings on compensation disputes.

The act allows documents relating to the outcome of hearings and notices to be sent by electronic means to the parties in dispute and the employer's insurer when the employee has representation.

UNEMPLOYMENT COMPENSATION

Currently, during periods of retraining, unemployment claimants are required to submit a written certification with each claim certifying that they are in a retraining. This act requires that the certification be submitted quarterly.

A provision requiring an employer's contribution rate to include a temporary debt indebtedness.

Currently, employers may be assessed a credit instrument and financing agreement repayment surcharge when the unemployment compensation fund uses moneys from the proceeds of such credit instruments or moneys advanced under financial agreements. This act requires over-collected amounts to be deposited into the unemployment insurance trust fund and credited to the employer's experience account.

The act requires employers with 50 or more workers to report wage information to the division in an electronic format instead of on magnetic tape or diskette.

The division is required to give notice to employers of estimated payments and delinquent contributions by registered or certified mail to the last known address of the employer. Personal service to the last known principal place of business address is repealed.

The act allows the division to file a lien on delinquent payments to attach to the employer's real or personal property.

Currently, state and federal officials and agencies may receive disclosures of otherwise confidential material to the extent required by federal law. This act allows disclosures to the extent needed to fulfill its official duties.

HCS HB 1442

5150L.05P

HOUSE HANDLER: Smith

HCS/HB 1442 - Currently, when a vacancy occurs in the office of United States Senator and other statewide elected officials, other than Governor and Lieutenant Governor, the vacancy shall be filled by appointment by the Governor. This act provides that when there is a vacancy in the office of United States Senator, Lieutenant Governor, Attorney General, Secretary of State, State Auditor, or State Treasurer, the Governor shall appoint an acting officer until a successor is elected at the next scheduled election for that office or at a special election as described in the act.

No person appointed by the Governor to fill the vacancy is eligible to be a candidate for the office to which the person was appointed in the immediately following election for the office but may be a candidate for that office after one intervening election has been held. In the case of an impeachment trial for these offices, the acting officer will supervise these offices until the impeached officer is reinstated after acquittal, or, if such impeached officer is convicted, for the remainder of the term or until a special election winner takes office.

This act contains a referendum clause.

HCS HB 1457

5413L.02P

HOUSE HANDLER: Crawford

HCS/HB 1457 - This act exempts any county with a charter form of government from a provision requiring certain qualifications for candidates for county treasurer. The provision that charter counties are exempted from under this act also prohibits county sheriffs, marshals, clerks, collectors, or a deputy of any of these officials from becoming a candidate for county treasurer and requires elected treasurers to remain a resident of the county during the term of office.

This act creates a new requirement that any treasurer candidate in a non-charter county provide a signed affidavit from a surety company indicating that the candidate meets the bond requirements for office.

HCS HB 1495

5377L.02P

HOUSE HANDLER: Nance

HCS/HB 1495 - Current Missouri law allows insurers and others to share information related to insurance fraud investigations without being subject to civil liability for libel. This act expands the immunity afforded to insurers and others for filing reports and furnishing other information related to an insurance fraud investigation so that the insurer will not be subject to civil liability of any kind, including libel and slander.

Additionally, the act provides that no civil cause of action of any nature shall arise against a person for furnishing or receiving information related to suspected or anticipated fraudulent insurance acts to or from:

- 1) Law enforcement officials, agents and employees;
- 2) Persons subject to Section 375.991;
- 3) Federal and state agencies, the NAIC, the National Insurance Crime Bureau, or any other organization established to detect and prevent fraudulent insurance acts.

In addition to expanding the current immunity afforded to insurers for providing information related to fraudulent insurance acts, the act also allows insurers that have been injured from a person committing a fraudulent insurance act to recover:

- 1) Any profits, benefits, compensation, or payment received by the person committing the fraudulent insurance act;
- 2) Reasonable attorneys' fees and other related legal expenses; and
- 3) All other economic damages directly resulting from the violation.

If the insurer can show by clear and convincing evidence that the violation was committed knowingly with an intent to defraud, it shall be entitled to recover treble damages for its economic damages.

Under the act, the insurer must bring the action to recover damages within 5 years of the commission of the acts constituting such violation, or within 2 years of the time the insurer discovered, or with reasonable diligence could have discovered such acts, whichever is later (Section 375.993).

This act is similar to SB 697 (2012).

*** HB 1525 ***

HCS HB 1525

5562L.07P

HOUSE HANDLER: Fuhr

HCS/HB 1525 - This act modifies provisions relating to probation, parole and conditional release.

EARNED COMPLIANCE CREDITS

Under this act, the Division of Probation and Parole must award earned compliance credits to offenders placed on probation, parole, or conditional release beginning October 1, 2012. The credits are equal to thirty days of time served for every calendar month the offender remains in compliance with the terms of probation, parole, or conditional release. The credits reduce the duration of the term, but may be suspended or rescinded if the offender violates probation or parole. The offender must serve at least two years of the sentence on probation or parole. Only nonviolent offenders of Class C and D felonies or drug crimes who are not on lifetime supervision may earn the credits. In addition, the court may limit eligibility for offenders of certain Class C or D felonies.

ADMINISTRATIVE JAIL SANCTIONS

This act also allows the division of probation and parole to place offenders in jail for short periods of time when a probation and parole officer believes an offender has violated a condition of release unless the offender's order of release includes detention as a condition of the probation or parole. The first period of detention may be no longer than 48 hours and the offender may only spend up to 360 hours in jail in a calendar year.

The department must reimburse counties at a rate determined by the department, but no less than \$30 per day per offender, for the period of detention. The department must certify to the counties before imposing a period of detention that there are enough funds to cover the cost of reimbursement. If there is not enough funding to cover the reimbursement or the jail does not have enough space, then the jail may refuse to accept offenders for detention. Once released from the period of detention, the offender can continue the probation or parole term unless new or additional information is brought forward that the offender was involved in the commission of a crime.

MANDATORY PLACEMENT IN 120-DAY PROGRAM FOR FIRST REVOCATION

Under this act, the court must order the department of corrections to place certain offenders in one of the department's 120-day programs before revoking the offender's probation upon a determination by the court that the offender committed a violation of the terms of release.

Offenders who are on probation or parole for Class C or D felony offenses or a drug offense, have not been placed in a 120 day program during the same sentence, and whose probation or parole violation does not fall within certain specified types of offenses are eligible for placement in one of the alternative programs. The court may also limit eligibility for offenders of certain Class C and D felonies.

Once the offender has completed the program, the court must continue the term of probation, parole, or conditional release without modifying, enlarging, or extending the term based on the same violation.

Time served in the alternative program is to be credited against the offender's sentence.

SENTENCING AND CORRECTIONS OVERSIGHT COMMISSION

This act creates a 13-member commission to oversee the implementation, and to calculate the effects, of this act. The duties of the commission also include determining ways to reinvest any cost savings realized from the passage of this act to pay for evidence-based practices to reduce recidivism and examining how restitution is collected for crime victims.

The Governor and Missouri Supreme Court chief justice have the authority to appoint certain members to the commission, which serve staggered four-year terms. In addition, this act requires the chairs and ranking minority members of the Senate Judiciary Committee and the House Appropriations - Public Safety Committee, the directors of the Missouri State Public Defender System, Missouri Office of Prosecution Services, Missouri Department of Corrections, and the Board of Probation and Parole to serve as voting, ex officio members on the commission. The Judiciary chair and the Appropriations chair shall serve as co-chairs of the commission.

This act requires the commission to issue a report on December 31, 2012, and each year thereafter, to the Speaker of the House, Senate President Pro Tem, Missouri Supreme Court Chief Justice, and the Governor.

The commission's first meeting must occur before February 28, 2013, and the members must meet at

least twice a year, only receiving compensation for their actual and necessary expenses. Staff and consultants may be employed by the commission.

The provisions establishing the commission will expire on August 28, 2018.

This act is similar to SS/SCS/SB 699(2012).

*** HB 1659 ***

HCS HB 1659 & 1116

5709H.03P

HOUSE HANDLER: Torpey

HCS/HBs 1659 & 1116 - The act authorizes the establishment of a land bank agency in Kansas City. This act also modifies provisions of law that apply to the sale of tax-delinquent property in certain first class counties and that govern land trusts in certain counties to provide for how these provisions will interact with land bank agency powers and operations.

The act allows the collector to send notices of tax sales and tax judgments in certain first class counties by first class mail.

The act authorizes Kansas City to create a land bank agency by adopting an ordinance or resolution. The board of commissioners of the land bank agency will have five or seven members, one member

appointed by the county, one member appointed by the school district with the largest population in the county, and the remaining members appointed by Kansas City. Board members may only be reimbursed for expenses.

All property held by a land trust that is within Kansas City is required to be transferred to the land bank, within a year after the city adopts the ordinance or resolution creating the land bank agency. Land bank property and income are exempt from state and local taxes.

The land bank has the power to borrow money, issue bonds, contract, invest money, and acquire, develop, demolish, rehabilitate, lease, sell, or otherwise dispose of real estate. The land bank does not have the power of eminent domain. To carry out its functions the land bank may hire staff, and contract with political subdivisions for staffing services.

The land bank is authorized to acquire property by gift, transfer, exchange, foreclosure, or purchase. The land bank is prohibited from owning real estate outside the boundaries of Kansas City, but may accept transfers of real estate from political subdivisions.

If a land bank bids at a tax foreclosure sale in amount that equals the amount of the tax liens, plus interest and costs, the land bank shall be sold the property. If property inside Kansas City has been offered for sale at three different tax sales and has not sold, it is automatically transferred to the land bank.

After the land bank transfers property, for the next three years, the taxes on the real estate go to the land bank agency to fund its operations. The act also specifies how money from the sale of land bank property is distributed.

The land bank is subject to Missouri open meetings and open records laws.

Members of the board of the land bank and its employees are prohibited from having any interest in the land bank property, or from profiting from land bank operations.

The a land trust and the land bank agency are authorized to file a court complaint to quiet title to several parcels of property in one complaint. The act requires the court to hold a hearing within ninety days of filing the complaint and issue its final judgment within one hundred twenty days.

This act is similar to SB 795 (2012).

*** HCR 8 ***

5020L.011

HOUSE HANDLER: Guernsey

HCR 8 - This resolution disapproves the regulation filed by the State Tax Commission on December 23, 2011, that establishes new values for certain agricultural and horticultural property based on the land's productive capability. The State Tax Commission is required to set the value for each of the eight grades of agricultural land based upon productive capability for use by county assessors to determine property tax liabilities.

Section 137.021, RSMo, authorizes the General Assembly to disapprove any regulation containing new agricultural land values by a concurrent resolution adopted within the first sixty calendar days of the session following promulgation of such regulation.

This resolution also recommends the State Tax Commission review the current procedure for determining and establishing agricultural values.

This resolution is similar to SCR 19 (2012).

*** HJR 41 *** HCS HJR 41

4478L.02P

HOUSE HANDLER: Nasheed

HCS/HJR 41 - This proposed constitutional amendment, if approved by voters, would increase term limits from eight years to sixteen years total in any one house of the General Assembly. A person is still limited to sixteen years total in the General Assembly, but such person may split service between the House of Representatives and the Senate in any proportion as long as the individual serves no more than sixteen total years.

This amendment is identical to SJR 43 (2012), the perfected version of SJR 12 (2011) and HJR 70 (2010), and similar to SJR 15 (2007) and SJR 46 (2008).

EFFECTIVE: upon voter approval

*** HJR 43 *** HCS HJR 43

4953H.04P

HOUSE HANDLER: Burlison

HCS/HJR 43 - This constitutional amendment, if approved by voters, would limit state general revenue appropriations to the amount of appropriations made in the previous fiscal year increased by a growth factor, if the amount of appropriations made in the previous fiscal year is greater than the amount of appropriations made in fiscal year 2008. The growth factor for increasing appropriations is a sum of the rate of inflation, the annual percentage change in state population, and one and one-half percent of the previous fiscal year total state general revenue collections. In any fiscal year where net general revenue collections exceed total state

general revenue appropriations by more than one and a half percent of total general revenue appropriations, the excess over one and a half percent and up to two and one-half percent will be appropriated for reduction of state general obligation debt. In any fiscal year where net general revenue collections exceed total state general revenue appropriations by more than two and one-half percent, the excess over two and one-half percent will be transferred partially to the newly created cash operating reserve fund and partially to the newly created taxpayer protection stabilization fund. Funds will remain in the taxpayer protection stabilization fund until the commissioner of administration determines that the fund has a sufficient amount to reduce all state individual income tax rates by one quarter of one percent. The general assembly may appropriate funds from the taxpayer protection stabilization fund in any fiscal year in which the commission of administration determines that state general revenue appropriations will exceed projected net general revenue. The amendment provides procedures for appropriating revenues in excess of the appropriation limitation and restoring certain expenditures of the state or any of its agencies when no other funds are available in cases of emergency and allows the appropriation of revenues in excess of the appropriation limitation to fully fund the school foundation formula as established by statute.

The amendment makes the provisions of this constitutional amendment subject to the state sunset statutes, so that the General Assembly is required to reauthorize this constitutional amendment by five years after the date the voters approve this amendment.

This proposed constitutional amendment is similar to SJR 46 (2012), SJR 20 (2011), SJR 35 (2010), SJR 13 (2009), and SJR 50 (2008).
