

FISCAL YEAR 2014

**TRULY AGREED AND FINALLY PASSED
(AFTER VETO)**

DEPARTMENT OF NATURAL RESOURCES

HOUSE BILL 6

VETOES: *None*

**97th General Assembly
First Regular Session**

Prepared by Senate Appropriations Committee Staff

DEPARTMENT OF NATURAL RESOURCES

Department Operations - Section 6.200

Page 3

This section contains the Director's Office, Ombudsman Program, Communication, Policy, Legal and Administrative Support functions. Created in the FY 2006 reorganization, the Department Operations Division also coordinates with the Environmental Improvement and Energy Resources Authority and Petroleum Storage Tank Insurance Fund Board. Administrative Support functions include contract audits, budget development, financial resources allocations, internal audits, accounting, human resources, procurement, grants management and general services. The Department Operations Division also coordinates with the Missouri Department of Transportation in reviewing highway environmental impact statements. Finally, this section provides funding for river association dues to the Upper Mississippi River Basin Association and Missouri River Basin States Association.

Legal Base: State Statute 640.010 RSMo
Funding Source: General Revenue; Federal –Various; Other – Cost Allocation Fund, State Park Earnings, DNR Revolving Services, Solid Waste Management, NRP-Air Pollution Permit Fee, Soil & Water Sales Tax, Water & Wastewater Load Fund, Hazardous Waste Fund
FY 2013 GR W/H: \$0

CORE ADJUSTMENTS

DEPARTMENT:

Core Reallocation In: \$60,000 GR EE reallocated in from the Division of Geology and Land Survey (Reverses budget action in FY 2013)
Core Reallocation Within: ±\$97,182 OTHER PS & 1.00 FTE reallocated to Federal funds within section to more closely align the budget with planned expenditures

GOVERNOR:

Same as Department – no additional changes

HOUSE:

Core Reallocation Out: (\$60,000) GR EE reallocated to Division of Geology and Land Survey for corner restoration projects

SENATE:

Core Reallocation In: \$60,000 GR EE reallocated back from DGLS – reversed House action
Core Reduction: (\$33,054) OTHER EE core reduction - In/Out State travel was cut to the FY 2012 amount if less than FY 2014 Department request

CONFERENCE:

Same as Senate – no additional changes

DEPARTMENT OF NATURAL RESOURCES
Water Resources Program - Section 6.210

Page 34

The Water Resources Program provides information for Missouri's comprehensive water needs by examining surface and groundwater resource use and availability. The program provides technical support in interstate water concerns, monitors drought and floods, inventories wetlands and water resources, and records the major users of water in the state. Water Resources administers provisions of Missouri's Dam and Reservoir Safety Law, regulating all nonfederal, nonagricultural dams 35 feet or higher. Water Resources also investigate water supply issues, collect and distribute groundwater-level data from a statewide network of observation wells, evaluate all public water supply bedrock wells, and complete regional water assessments that evaluate water problems, needs and opportunities.

Legal Base: State Statutes Chapter 236.400-236.500 Dam, Mills & Electric Power; 256.060 Survey of water resources; 256.200 Commission to collect and coordinate water data; 256.400-256.430 Water Usage Law; 256.435 Multipurpose Water Resources Program; 640.400-640.430 Negotiation of interstate compacts, surface and groundwater monitoring, state water resources plan and special water protection areas; Chapter 257 Water Conservancy Districts

Funding Source: General Revenue, Federal – Reimbursement of Support Services (Various), Other – Cost Allocation Fund

DEPARTMENT OF NATURAL RESOURCES
Soil and Water Conservation Program - Section 6.225

Page 61

The Soil and Water Conservation program receives its funding through ½ of the 1/10¢ Parks and Soils Sales Tax. The program's primary mission remains soil erosion and conservation. The program maintains a presence in each Missouri County through the 114 Soil & Water Conservation districts and commissions, and operates under the overall direction of the Soil & Water Conservation Commission. Staff processes between eight to ten thousand soil and water conservation project applications totaling approximately \$30 million annually. Additionally, staff conducts soil surveying, mapping, and interpretation for hundreds of thousands of acres across the state annually.

Legal Base: Article IV, Section 47a MO Constitution (Sales Tax), State Statute 278.080

DEPARTMENT OF NATURAL RESOURCES
Soil & Water Conservation Program PSD Core - Section 6.225

Page 61

Demonstration Projects: Federal funds used for soil conservation demonstration projects. **Cost Share Grants:** Provides up to 75% of the cost to install conservation measures or purchase conservation equipment. **Loan Interest Share Program:** Refunds the indirect costs of interest on loan used for soil conservation, including projects not eligible for cost share. **Special Area Land Treatment (SALT):** Since 1986, the SALT Program has focused on Missouri's soil erosion problems on a watershed basis. Working locally through soil and water conservation districts (SWCDs), landowners that farm in a targeted watershed can take advantage of the resources available through the program. Before FY 2000, SALT projects focused mainly on reducing only one aspect of non-point source water pollution – sedimentation resulting from soil erosion off agricultural land. During FY 2000, a new type of SALT project has evolved which focuses more intensely on improving water quality in specific watersheds by reducing all forms of agricultural non-point source (Ag NPS) pollution - including sedimentation. Goals of the new AgNPS SALT projects include, but are not limited to, reducing pesticide and nutrient runoff from cropland, improving pasture management, reducing sedimentation from agricultural land, improving animal waste management, protecting and enhancing riparian corridors, and raising awareness of agricultural non-point source water pollution issues. **Grants to Districts:** Provides funds to the 114 Soil and Water Conservation Districts to hire management, technical and clerical personnel and for other costs associated with each office (health & retirement benefits were added to the appropriation in FY 2001). **Research Grants:** Provides grants to colleges and universities for research on soil conservation.

DEPARTMENT OF NATURAL RESOURCES
Division of Environmental Quality – Water Protection Program - Section 6.230

Page 88

The Water Protection Program combined the former Water Pollution Program and Public Drinking Water Program in FY 2006 and further combines the Wellhead Protection Program in FY 2007. To ensure safe drinking water, the Program provides financial and technical assistance to public drinking water supplies, sets standards for safety and testing, issues permits and conducts necessary enforcement actions. Wellhead protection activities include overseeing the proper construction of all wells, including water, oil, gas, exploration, heat pump and monitoring, in order to better protect groundwater resources. To ensure clean water, the Program classifies water bodies, issues permits to wastewater treatment discharges, provides technical and financial assistance, permits Concentrated Animal Feeding Operations (CAFOs), and trains and certifies operators at Missouri's water supply and water treatment plants.

Legal Base: Missouri Constitution Article III, Section 37 (c,e,g,h); State Statute 256.600-256.640 Well Drillers; 640.100-640.140, 644.006 – 644.096, 644.125- 644.150, 640.700-640.758, 644.101-644.124, 644.500–644.564; Title 42, Chapter 6A, Subchapter XII, Part B&300(g)
Funding Source: General Revenue; Federal – Environmental Protection Agency; Other – Safe Drinking Water, Protection – Water Pollution, Water and Wastewater Loan Fund, Protection – Damages, Groundwater Protection
FY 2013 GR W/H: \$0

DEPARTMENT OF NATURAL RESOURCES
Water, Wastewater, & Storm water Infrastructure PSDs - Section 6.230

Page 88

Wastewater Facility Grants: State's share of construction grants for wastewater treatment facilities. **Wastewater Treatment Facility Loans:** Wastewater State Revolving Fund providing loan assistance to cities, counties, or public sewer district. The Department raises matching funds through the issuance of general obligation water pollution control bonds; must provide \$.20 match to each federal dollar. **Rural Sewer and Water Grants & Loans:** Provides grants for up to \$1,400 per connection or up to 50% of the cost of water/sewer system construction, and Amendment 7 (1998) provided \$100 million for this program and provides for loans. **Storm water Control Grants & Loans:** Amendment 7 (1998) provided \$200 million for storm water 50% grants/50% loans to counties of first class, Kansas City, St. Louis City, and St. Louis County and cities of 25,000 population located in those counties. **Drinking Water Systems Loans:** Drinking Water State Revolving Fund requires a \$.20 match for each federal dollar and provides low-interest loans to Missouri communities for the upgrade of public water systems.

Legal Base: State Statutes 644.101 – 644.124 (Water Pollution Grants, Loans or Revolving Fund) RSMo
Funding Source: Other – Water Pollution Control, Water and Wastewater Loan Fund, Water and Wastewater Loan Revolving, Storm water Control Fund

DEPARTMENT OF NATURAL RESOURCES
Water Quality Study Contracts & Grants - Section 6.230

Page 88

Water Quality Studies: – Grants or contracts are provided to develop management programs that will identify best management practices to reduce pollution of Missouri’s streams, lakes, and rivers from non-point sources. In general, nonpoint source projects provide information, education, training, technical assistance, demonstration, project-specific monitoring and water quality restoration. Funds are also awarded for projects that demonstrate or promote a watershed approach in National Pollutant Discharge Elimination System (NPDES) permit program activities. **Drinking Water Analysis:**– This section provides for the testing of water samples taken from Missouri’s 1,450 water systems and 1,300 other public water supplies. Samples are tested by the DNR lab or through contractual agreement with an outside lab. Testing for the presence or absence of contamination is necessary to comply with the federal drinking water regulations.

Legal Base: State Statutes 640.400 – 640.620 (Water Resource Law) RSMo
Funding Source: Federal; Other – Natural Resource Protection-Water Pollution Permit Fee Subaccount, Safe Drinking Water Fund

DEPARTMENT OF NATURAL RESOURCES
Division of Environmental Quality – Air Pollution Control - Section 6.230

Page 122

The Air Pollution Control Program, under the overall direction of the Air Conservation Commission, is responsible for the state's air quality and compliance with the Federal Clean Air Act. The program conducts the following implementation strategies:

1. Conduct annual emission inventory surveys, perform emission verification, emissions inventory questionnaire (EIQ) audits, training and assistance.
2. Issue construction permits and federally enforceable state operating permits, issue preconstruction permits, conduct ambient air quality monitoring.
3. Conduct ambient air monitoring in the non-attainment area (St. Louis metro) and attainment areas, conduct inspections of polluting facilities.
4. Implement emission banking program, permit training and application assistance to small and large businesses, promote use of Env. Mgmt Systems.

Legal Base: Federal Clean Air Act (1990), State Statute 643.010-643.210 Prevention, abatement, and control of air pollution, 643.225-643.265 Asbestos Abatement, 307.366 Basic vehicle emission inspection program

Funding Source: Federal – Environmental Protection Agency, Other – NRP Air Pollution Asbestos Fee, NRP Air Pollution Permit Fee, Natural Resource Protection

FY 2013 GR W/H: N/A

DEPARTMENT OF NATURAL RESOURCES
Air Pollution Control Grants - Section 6.230

Page 122

This section provides funds to four local governments to operate air pollution control programs and to enforce the Missouri Air Conservation Law. The local governments are Springfield-Greene County, St. Louis City, St. Louis County and Kansas City. Local governments are required to provide a match in local resources. Grants are also given to other entities (e.g.: East-West Gateway Coordinating Council & American Lung Association) to carry out activities that will reduce air pollution. This section also provides funding for asbestos grants to local air pollution control agencies.

Legal Base: Chapter 643 Prevention, Abatement, and Control of Air Pollution; 643.225-643.265 Asbestos Abatement
Funding Source: Federal – Environmental Protection Agency (Air Pollution); Other – Natural Resource Protection (Air Pollution Permit Fee Subaccount, Air Pollution Asbestos Fee Subaccount)
FY 2013 W/H: \$0

DEPARTMENT OF NATURAL RESOURCES
Solid Waste Management Loans & Grants - Section 6.230

Page 206

Solid Waste Management District Grants return a portion of the fees collected to fund local solid waste management plans. The districts distribute 40 percent of these grants to implement projects they have identified in their solid waste management plans, with the remaining 60 percent used to help fund city and county waste management projects. Waste Reduction and Recycling Projects provide financial assistance through a competitive application process. Anyone involved in solid waste reduction and recycling in Missouri may apply for financial assistance. The program is beginning a transition from the current grant program to a targeted grants and loan program, focusing more on statewide issues and target areas and materials where there is evidence of a specific need. Waste Tire Playground Cover and Surfacing Grants are available for the cost and delivery of waste tire material for playgrounds, running tracks, walking trails, or other surfacing projects approved by the department.

Legal Base: State Statutes 260.250 – 260.345, 260.432 RSMo
Funding Source: Other – Solid Waste Management (Scrap Tire Subaccount), Solid Waste Management (funded by tipping fee)
FY 2013 GR W/H: N/A

DEPARTMENT OF NATURAL RESOURCES
Division of Environmental Quality – Land Reclamation - Section 6.230

Page 234

The Land Reclamation Program, under the guidance of the Land Reclamation Commission, administers the law that provides for proper mining and allows for reclamation of lands affected by mining. The program is divided into the Mining Section and Reclamation Section and performs permitting, liability releases, inspections, bond forfeitures, complaint investigations, plan reviews, and other land reclamation activities.

Legal Base: Public Law 95-87 Surface Mining Control and Reclamation Act of 1977; State Statute 444.010-444.330 & 444.400-444.755 & 444.800-444.970 Coal and Industrial Mineral Permitting, Inspection, and Enforcement; 444.350-444.380 Metallic Mineral Permitting, Inspection and Enforcement; 444.760-444.790 Land Reclamation

Funding Source: Federal; Other – Metallic Minerals Waste Management, Coal Mine Land Reclamation, Mined Land Reclamation

DEPARTMENT OF NATURAL RESOURCES
Land Reclamation Program P.S.D. Core - Section 6.230

Page 234

Coal Mined Land Reclamation Projects: This section provides funding to complete the reclamation of sites where coal-mining permits have been revoked and the bonds forfeited are insufficient to cover the cost of reclaiming the property. Funding for this section comes from a tonnage assessment on current coal production of \$.45 per ton on the first 50,000 tons and \$.30 per ton for the second 50,000 tons in each calendar year at each coal mine.

Land Reclamation Bond Forfeitures: This section provides funds to allow the Land Reclamation Commission to spend receipts from bond forfeitures on the reclamation of sites where the surface mining permits have been revoked.

Abandoned Mined Lands Reclamation: This section provides federal funding to allow the Land Reclamation Commission to design and reclaim abandoned mine lands left unclaimed before the passage of Public Law 95-87 in 1977. Funding for this section comes from the federal Abandoned Mine Reclamation Trust Fund, which is supported by a \$.35 per ton fee on surface coal and a \$.15 per ton fee on underground coal.

Small Operator Assistance Program: This section provides grants to small coal operators (<300,000 tons/year). There are 3 active coal operators in Missouri that qualify for this assistance. This appropriation would enable the Land Reclamation Program to assist one small operator should the company decide to expand operations and require an additional permit.

Legal Base: State Statutes 444.140, 444.368, 444.570, 444.775, 444.778 (Bonds); 444.960 – 444.965 (Fees for Coal Mine Land Reclamation Fund); 444.760 – 444.790 (Land Reclamation) RSMo

Funding Source: Federal; Other – Coal Mine Land Reclamation, Mined Land Reclamation

DEPARTMENT OF NATURAL RESOURCES

Division of Environmental Quality – Environmental Services Program - Section 6.230

Page 264

The Environmental Services Program (ESP) provides field support and monitoring functions throughout Missouri. ESP is home to the state’s environmental laboratory. The lab performs chemical analysis of public drinking water supplies throughout the state. The lab also analyzes air, water, and soil samples. ESP is also home to the Environmental Emergency Response Section which maintains a 24 hour/day, 7 day/week support and response capability that encompasses hazardous substance releases, radiological incidents, homeland security events, weapons of mass destruction, and natural disasters.

DEPARTMENT OF NATURAL RESOURCES
Division of Geology and Land Survey - Section 6.260

Page 324

Headquartered in Rolla, MO, DGLS investigates the states geology and provides geologic and hydrologic information and expertise to assist with economic and environmental decisions relating to site remediation, containment migration, subsurface investigations and geologic hazards. The division also determines the character and availability of the state's water, energy and mineral resources. Prior to reorganization in FY 2007, the division also contained Water Resources and Wellhead Protection Programs.

DEPARTMENT OF NATURAL RESOURCES
Petroleum Storage Tank Insurance Board Administration - Section 6.280

Page 306

This section provides funding for the general administration of the Petroleum Storage Tank Insurance Fund. This section also provides for payment of valid claims and contractual services related to the processing of claims for the Petroleum Storage Tank Insurance program. Revenues from the fund are derived from two sources. First, the Board of Trustees sets a surcharge on petroleum products capped at no more than sixty (changed in 2001 legislative session) dollars per transport load. Second, the Board sets an annual fee from each participant in the program of at least one hundred dollars per year but not more than three hundred dollars per year. The Department of Natural Resources is authorized to provide staff support to the insurance program.

Legal Base: State Statutes 319.100 – 319.139, 319.129 (Petroleum Storage Tank Insurance Fund), 319.132 (Surcharge on Transport Load), 319.133 (Tank Fee) RSMo
Funding Source: Other – Petroleum Storage Tank Insurance Fund

DEPARTMENT OF NATURAL RESOURCES
Division of State Parks – Operations - Section 6.285

Page 355

This section provides general management and planning for Missouri's State Parks and Historic Sites. State Parks and Historic Sites are supported by the Park Sales Tax, a one-tenth of a cent sales tax which has been adopted by the voters of Missouri three times. One-half of the sales tax proceeds support Missouri's State Parks and Historic Sites. Park Sales Tax funds are limited to expenditures on "the acquisition, development, maintenance and operation of state parks and state historic sites in accordance with Chapter 253, RSMo, and for the administration of the laws pertaining thereto." The most recent 1996 election enacted the sales tax effective November 8, 1998 through November 8, 2008.

Legal Base: State Statute 253.010 – 253.205 (General), 253.210 – 253.280 (Revenue Bonds), 253.350 – 253.385 (Memorial Parks), 253.500 – 253.540 (Meramac Park Lake Project) RSMo, Article IV, Section 47 (a)(b)(c) MO Constitution

Funding Source: Federal – Federal Highway Administration (ISTEA Trail Program), Department of Justice (COPS Hiring Program); Department of Interior (Outdoor Recreation & Assistance) Other – Park Sales Tax, State Parks Earning, Historic Preservation Revolving, Cost Allocation, Facilities Maint, Babler, Meramac

DEPARTMENT OF NATURAL RESOURCES
Division of State Parks - Historic Preservation Office - Section 6.290

Page 381

The State Historic Preservation Office (SHPO) works with citizens and groups throughout the state to identify, evaluate, and protect Missouri's diverse range of historic architectural and archaeological resources. This office also submits properties for inclusion on the National Register of Historic Places, handles Section 106 reviews determining state and federal income tax credit eligibility, and responds to unmarked burials.

Legal Base: National Historic Preservation Act; RSMo 194.400-194.410, 253.022, 253.408-253.412, 253.400-253.407, 253.415, 253.420, 253.545-253.561
Funding Source: Federal, Historic Preservation Revolving Fund
FY 2013 GR W/H: N/A

The state's environmental restoration activities are expanding due to large settlements in southeast and southwest Missouri. It is expected that the state and federal trustees will pursue additional Natural Resource Damages (NRD) settlements in several areas across the state. This increase is requested to more accurately reflect anticipated spending from the Natural Resources Protection Fund.

DEPARTMENT OF NATURAL RESOURCES
Natural Resource Revolving Services Fund - Section 6.310

Page 479

This section provides funding for printing and reprinting maps; publications or other documents for resale; paying shipping charges; laboratory service fees and core library fees; and costs associated with workshops; conferences and inter divisional cooperative agreements. The Department is required to submit quarterly financial statements of the fund to the House Budget Committee Chair and Senate Appropriations Committee Chair. House Bill 988 (1999) changed the amount of fund balance from \$100,000 to \$1 million before any balance reverts to General Revenue.

Legal Base: State Statutes 60.595 RSMo
Funding Source: Other – Revolving Service Fund

Division of State Environmental Improvement & Energy Resources Authority (EIERA) - Section 6.340

Page 528

The EIERA is an independent self-supporting quasi-governmental agency (body corporate and politic), which conducts environmental and energy research and development and offers financial assistance to any individual or business for qualifying environmental and energy projects. The authority provides the financial assistance through the issuance of tax-exempt bonds. This request is for funds to inform the legislature of the authority's activities and budget approach and to allow the EIERA employees to participate in the State Retirement System.
