

Journal of the Senate

FIRST REGULAR SESSION

THIRTY-SIXTH DAY—THURSDAY, MARCH 14, 2013

The Senate met pursuant to adjournment.

President Kinder in the Chair.

Reverend Carl Gauck offered the following prayer:

“God has called us to share in his creative power and our desire is an element in the creation of the world of tomorrow.” (J.H. Oldham)

We praise You, O God, that as we finish our work this day we will have time to be in the creative power of recreation. May it be a time of rejuvenation of mind, body and spirit spending time with our family and with You, our God. And may we truly enjoy the gift of life and love as You have given it to us. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

The Journal of the previous day was read and approved.

MESSAGES FROM THE GOVERNOR

The following message was received from the Governor, reading of which was waived:

GOVERNOR OF MISSOURI
JEFFERSON CITY
65102

March 13, 2013

To the Senate of the 97th General Assembly of the State of Missouri:

The following addendum should be made to the appointment of Robert E. George as a member of the Public Defender Commission, submitted to you on March 13, 2013. Lines 3 and 4 should be amended to read:

March 11, 2019, and until his successor is duly appointed and qualified; vice, Miller M. Leonard, term expired.

Respectfully submitted,
Jeremiah W. (Jay) Nixon
Governor

President Pro Tem Dempsey referred the above addendum to the Committee on Gubernatorial Appointments.

MESSAGES FROM THE HOUSE

The following messages were received from the House of Representatives through its Chief Clerk:

Mr. President: I am instructed by the House of Representatives to inform the Senate that the House has taken up and adopted **HCR 16**.

HOUSE CONCURRENT RESOLUTION NO. 16

WHEREAS, women have served honorably and with courage in all of America's wars and conflicts since the American Revolution; and

WHEREAS, the United States military has evolved from a predominantly male force to a force of over 14% women who are currently serving on active duty, and nearly 17% serving in the Reserves and National Guard; and

WHEREAS, the population of women veterans is increasing exponentially from 1.1 million in 1980 to a projection of nearly 2 million by 2020, and will comprise more than 10% of the veteran population; and

WHEREAS, the projected population of male veterans is expected to continue to decline; and

WHEREAS, given that an unprecedented number of women are serving in the military and participating in Operation Enduring Freedom and Operation Iraqi Freedom, the United States Department of Veterans Affairs (VA) is working to provide consistent, comprehensive, and quality health care and benefits to women veterans of all eras; and

WHEREAS, the number of women veterans has increased over the last decade because there is an increasing number and proportion of women who are entering and leaving the military, and women are living longer than men and have a younger age distribution compared to male veterans; and

WHEREAS, even though the VA has been at the forefront of health care and lifestyle solutions affecting an aging male population, there is now a growing need to improve health care services for women veterans, ensure clinicians are properly trained to provide primary care and gender specific care to women of all ages, and identify innovative courses of treatment and solutions to obstacles that are unique to women veterans; and

WHEREAS, with a rapidly increasing number of women serving in the military today and returning from deployments as seasoned veterans, and some with exposure to combat, VA facilities and veterans service organizations are working to ensure that the post-deployment mental and physical health needs unique to women veterans are also met; and

WHEREAS, even though the roles of women in the military have changed over time and will continue to change, they deserve to be acknowledge for their military service and treated with equal respect:

NOW, THEREFORE, BE IT RESOLVED that we, the members of the Missouri House of Representatives, Ninety-seventh General Assembly, First Regular Session, the Senate concurring therein, hereby encourages the Missouri Veterans Commission and its women veterans state coordinator to work in conjunction with the National Foundation for Women Legislators and the Center for Women Veterans at the United States Department of Veterans Affairs to reach out to all women veterans within the State of Missouri to encourage them to bring their specific needs and concerns to the attention of agency officials so that state legislators and agency officials may work together to identify unique issues impacting women veterans and consider policy solutions that will improve the quality of life for women veterans within this state; and

BE IT FURTHER RESOLVED that the Missouri General Assembly formally honors all of the women in this state who have heroically answered their call to duty and recognizes the important role women have played in shaping this great nation; and

BE IT FURTHER RESOLVED that the Chief Clerk of the Missouri House of Representatives be instructed to prepare a properly inscribed

copy of this resolution for the Missouri Veterans Commission.

In which the concurrence of the Senate is respectfully requested.

Also,

Mr. President: I am instructed by the House of Representatives to inform the Senate that the House has taken up and adopted **HCR 19**.

HOUSE CONCURRENT RESOLUTION NO. 19

WHEREAS, the United States relies - and will continue to rely for many years - on gasoline, diesel, and jet fuel, as well as renewable and alternative sources of energy; and

WHEREAS, in order to fuel our economy, the United States will need more oil and natural gas while also requiring additional alternative energy sources; and

WHEREAS, the United States accounts for 20% of world energy consumption and is the world's largest petroleum consumer. The United States consumes more than 15 million barrels of oil each day, with forecast suggesting that this will not change for decades; and

WHEREAS, even with new technology, oil discoveries, alternative fuels, and conservation efforts, the United States will remain dependent on imported energy for decades to come. A secure supply of crude oil is not only needed for Americans to continue to heat their homes, cook their food, and drive their vehicles, but to allow the United States economy to thrive and grow free from the potential threats and disruptions of crude oil supply from less secure parts of the world; and

WHEREAS, the growing production of conflict-free oil from Canada's oil sands and the Bakken formation in Saskatchewan, Montana, North Dakota, and South Dakota can replace crude imported from countries that do not share American values, but additional pipeline capacity to refineries in the United States Midwest and Gulf Coast is required; and

WHEREAS, increasing energy imports from Canada makes sense for the United States. Canada is a trusted neighbor with a stable democratic government, strong environmental standards equal to that of the United States, and some of the most stringent human rights and worker protection laws in the world; and

WHEREAS, improvements in production technology have reduced the carbon footprint of Canadian oil sands development by 26% on a per barrel basis since 1990. Oil sands production accounts for 6.9% of Canada's greenhouse gas (GHG) emissions and 0.1% (1/100th) of global GHG emissions. Total emissions from Canada's oil sands sector was 48 megatons in 2010, equivalent to 0.5% of United States GHG emissions. Oil sands crude has similar CO₂ emissions to other heavy oils and is 6% more carbon-intensive than the average crude refined in the United States on a wells-to-wheels basis; and

WHEREAS, the 57 refineries in the Gulf Coast region provide a total refining capacity of approximately 8.7 million barrels per day (bpd), or half of United States refining capacity. In 2011, these refineries imported approximately 5 million bpd of crude oil from more than 30 countries, with the top four suppliers being Mexico (22%), Saudi Arabia (17%), Venezuela (16%), and Nigeria (9%). Imports from Mexico and Venezuela are declining as production from those countries decreases and supply contracts expire. Once completed, TransCanada's Keystone XL Pipeline and Gulf Coast Expansion projects could displace roughly 40% of the oil the United States currently imports from the Persian Gulf and Venezuela; and

WHEREAS, the Keystone XL Pipeline project has been subject to the most thorough public consultation process of any proposed United States pipeline, and the subject of multiple environmental impacts statements and several United States Department of State studies which have concluded that it poses the least impact to the environment and is much safer than other modes of transporting crude oil; and

WHEREAS, the original Keystone Pipeline, which spans across the northern part of Missouri, supplies over 500,000 barrels of North American crude oil to American refiners in the Midwest. When completed, the Keystone XL Pipeline will carry 830,000 barrels of North American crude oil to American refineries in the Gulf Coast region which will make its way back to Missouri in the form of gasoline, diesel, and jet fuel; and

WHEREAS, the Keystone XL Pipeline project will create approximately 9,000 construction jobs. The Gulf Coast Expansion project is a \$2.3 billion project that has created approximately 4,000 construction jobs. Combined, these projects support yet another 7,000 manufacturing jobs. 75% of the pipe used to build the Keystone XL Pipeline in the United States will come from North American mills, including half made by United States workers. Goods for the pipeline valued at approximately \$800 million have already been sourced from United States

manufacturers:

NOW, THEREFORE, BE IT RESOLVED that the members of the House of Representatives of the Ninety-seventh General Assembly, First Regular Session, the Senate concurring therein, hereby strongly:

- (1) Support continued and increased development and delivery of oil derived from North American oil reserves to United States refineries;
- (2) Urge the United States Congress to support continued and increased development and delivery of oil from Canada to the United States;
- (3) Urge the President of the United States to support the continued and increased importation of oil derived from the Bakken formation in Montana, North Dakota, and South Dakota, as well as Canadian oil sands;
- (4) Urge the United States Secretary of State to approve the newly routed pipeline application from TransCanada to reduce dependence on unstable governments, create new jobs, improve our national security, and strengthen ties with an important ally; and

BE IT FURTHER RESOLVED that the Chief Clerk of the Missouri House of Representatives be instructed to prepare properly inscribed copies of this resolution for the President of the United States, the President Pro Tem of the United States Senate, the Speaker of the United States House of Representatives, and each member of the Missouri Congressional delegation.

In which the concurrence of the Senate is respectfully requested.

Also,

Mr. President: I am instructed by the House of Representatives to inform the Senate that the House has taken up and passed **HB 85**, entitled:

An Act to repeal section 304.180, RSMo, and to enact in lieu thereof one new section relating to emergency utility response permits.

In which the concurrence of the Senate is respectfully requested.
