

SECOND REGULAR SESSION

SENATE BILL NO. 587

97TH GENERAL ASSEMBLY

INTRODUCED BY SENATOR KRAUS.

Pre-filed December 3, 2013, and ordered printed.

TERRY L. SPIELER, Secretary.

4450S.01I

AN ACT

To amend chapter 304, RSMo, by adding thereto one new section relating to automated traffic enforcement systems.

Be it enacted by the General Assembly of the State of Missouri, as follows:

Section A. Chapter 304, RSMo, is amended by adding thereto one new
2 section, to be known as section 304.850, to read as follows:

**304.850. 1. In jurisdictions utilizing automated traffic
2 enforcement systems, any fine imposed for a violation detected through
3 the use of an automatic traffic enforcement system shall be transferred
4 to the local school district where the violation occurred to be used for
5 transportation purposes. The portion of the fine distributed to the
6 local school district shall not be included in such district's "local effort"
7 figure, as such term is defined in section 163.011.**

8 **2. For purposes of this section, an "automated traffic
9 enforcement system" means a camera, optical device, electronic system
10 or other surveillance system designed to record and produce
11 photographic images, video, or other digital data of a motor vehicle, a
12 motor vehicle's operator, or both, violating a traffic control signal,
13 speed restriction, or other traffic law, ordinance, or regulation. A
14 "surveillance system" means a system designed to determine the
15 ownership of a motor vehicle or the identity of a motor vehicle's
16 occupants on the highways of the state or its political subdivisions
17 through the use of a camera or other imaging device or any other
18 device, including but not limited to a transponder, cellular telephone,
19 global positioning satellite, or radio frequency identification device,
20 that by itself or in conjunction with other devices or information can
21 be used to determine the ownership of a motor vehicle or the identity**

22 of a motor vehicle's occupants. Automated traffic enforcement systems
23 shall also include automated speed enforcement systems. The term
24 "automated speed enforcement system" means a device with one or
25 more motor vehicle sensors, including, but not limited to, photographic
26 devices, radar devices, laser devices, or other electrical or mechanical
27 devices, designed to record the speed of a motor vehicle and to obtain
28 a clear photograph or other recorded image of the motor vehicle and
29 the motor vehicle's license plate, which automatically produces one or
30 more photographs, one or more microphotographs, a videotape, or
31 other recorded image of a motor vehicle at the time it is used or
32 operated in violation of the posted speed limit.
