14 2. Any kindergarten or grade one pupil beginning the school term and any
15 pupil beginning summer school prior to a kindergarten school term in an urban
16 school district in this state containing the greater part of the population of a city
17 which has more than three hundred thousand inhabitants and subsequently
18 transferring to another school district in this state in which the child's birth date
19 would preclude such child's eligibility for entrance shall be deemed eligible for
20 attendance and shall not be required to meet the minimum age

22 notwithstanding the provisions of section 160.051.

23 3. Any child who completes the kindergarten year in an urban school

163.011. As used in this chapter unless the context requires otherwise:

2 (1) "Adjusted operating levy", the sum of tax rates for the current year for
3 teachers' and incidental funds for a school district as reported to the proper
4 officer of each county pursuant to section 164.011;

5 (2) "Average daily attendance", the quotient or the sum of the quotients
6 obtained by dividing the total number of hours attended in a term by resident
7 pupils between the ages of five and twenty-one by the actual number of hours
8 school was in session in that term. To the average daily attendance of the
9 following school term shall be added the full-time equivalent average daily
10 attendance of summer school students. "Full-time equivalent average daily
11 attendance of summer school students" shall be computed by dividing the total
12 number of hours, except for physical education hours that do not count as credit
13 toward graduation for students in grades nine, ten, eleven, and twelve, attended
14 by all summer school pupils by the number of hours required in section 160.011
15 in the school term. For purposes of determining average daily attendance under
16 this subdivision, the term "resident pupil" shall include all children between the
17 ages of five and twenty-one who are residents of the school district and who are
18 attending kindergarten through grade twelve in such district. If a child is
19 attending school in a district other than the district of residence and the child's
20 parent is teaching in the school district or is a regular employee of the school
21 district which the child is attending, then such child shall be considered a
22 resident pupil of the school district which the child is attending for such period
23 of time when the district of residence is not otherwise liable for tuition. Average
24 daily attendance for students below the age of five years for which a school
25 district may receive state aid based on such attendance shall be computed as
26 regular school term attendance unless otherwise provided by law;

27 (3) "Current operating expenditures":

28 (a) For the fiscal year 2007 calculation, "current operating expenditures"
29 shall be calculated using data from fiscal year 2004 and shall be calculated as all
30 expenditures for instruction and support services except capital outlay and debt
31 service expenditures minus the revenue from federal categorical sources; food
32 service; student activities; categorical payments for transportation costs pursuant
33 to section 163.161; state reimbursements for early childhood special education;
34 the career ladder entitlement for the district, as provided for in sections 168.500
35 to 168.515; the vocational education entitlement for the district, as provided for
36 in section 167.332; and payments from other districts;

37 (b) In every fiscal year subsequent to fiscal year 2007, current operating

38 expenditures shall be the amount in paragraph (a) of this subdivision plus any
39 increases in state funding pursuant to sections 163.031 and 163.043 subsequent
40 to fiscal year 2005, not to exceed five percent, per recalculation, of the state
41 revenue received by a district in the 2004-05 school year from the foundation
42 formula, line 14, gifted, remedial reading, exceptional pupil aid, fair share, and
43 free textbook payments for any district from the first preceding calculation of the
44 state adequacy target. Beginning on July 1, 2010, current operating expenditures
45 shall be the amount in paragraph (a) of this subdivision plus any increases in
46 state funding pursuant to sections 163.031 and 163.043 subsequent to fiscal year
47 2005 received by a district in the 2004-05 school year from the foundation
48 formula, line 14, gifted, remedial reading, exceptional pupil aid, fair share, and
49 free textbook payments for any district from the first preceding calculation of the
50 state adequacy target;

51 (4) "District's tax rate ceiling", the highest tax rate ceiling in effect
52 subsequent to the 1980 tax year or any subsequent year. Such tax rate ceiling
53 shall not contain any tax levy for debt service;

54 (5) "Dollar-value modifier", an index of the relative purchasing power of
55 a dollar, calculated as one plus fifteen percent of the difference of the regional
56 wage ratio minus one, provided that the dollar value modifier shall not be applied
57 at a rate less than 1.0:

58 (a) "County wage per job", the total county wage and salary disbursements
59 divided by the total county wage and salary employment for each county and the
60 city of St. Louis as reported by the Bureau of Economic Analysis of the United
61 States Department of Commerce for the fourth year preceding the payment year;

62 (b) "Regional wage per job":

63 a. The total Missouri wage and salary disbursements of the metropolitan
64 area as defined by the Office of Management and Budget divided by the total
65 Missouri metropolitan wage and salary employment for the metropolitan area for
66 the county signified in the school district number or the city of St. Louis, as
67 reported by the Bureau of Economic Analysis of the United States Department
68 of Commerce for the fourth year preceding the payment year and recalculated
69 upon every decennial census to incorporate counties that are newly added to the
70 description of metropolitan areas; or if no such metropolitan area is established,
71 then:

72 b. The total Missouri wage and salary disbursements of the micropolitan
73 area as defined by the Office of Management and Budget divided by the total

74 Missouri micropolitan wage and salary employment for the micropolitan area for
75 the county signified in the school district number, as reported by the Bureau of
76 Economic Analysis of the United States Department of Commerce for the fourth
77 year preceding the payment year, if a micropolitan area for such county has been
78 established and recalculated upon every decennial census to incorporate counties
79 that are newly added to the description of micropolitan areas; or

80 c. If a county is not part of a metropolitan or micropolitan area as
81 established by the Office of Management and Budget, then the county wage per
82 job, as defined in paragraph (a) of this subdivision, shall be used for the school
83 district, as signified by the school district number;

84 (c) "Regional wage ratio", the ratio of the regional wage per job divided by
85 the state median wage per job;

86 (d) "State median wage per job", the fifty-eighth highest county wage per
87 job;

88 (6) "Free and reduced lunch pupil count", **for school districts not**
89 **eligible for and those that do not choose the USDA Community**
90 **Eligibility Option**, the number of pupils eligible for free and reduced lunch on
91 the last Wednesday in January for the preceding school year who were enrolled
92 as students of the district, as approved by the department in accordance with
93 applicable federal regulations. **For eligible school districts that choose the**
94 **USDA Community Eligibility Option, the free and reduced lunch pupil**
95 **count shall be the percentage of free and reduced lunch students**
96 **calculated as eligible on the last Wednesday in January of the most**
97 **recent school year that included household applications to determine**
98 **free and reduced lunch count multiplied by the district's average daily**
99 **attendance figure;**

100 (7) "Free and reduced lunch threshold" shall be calculated by dividing the
101 total free and reduced lunch pupil count of every performance district that falls
102 entirely above the bottom five percent and entirely below the top five percent of
103 average daily attendance, when such districts are rank-ordered based on their
104 current operating expenditures per average daily attendance, by the total average
105 daily attendance of all included performance districts;

106 (8) "Limited English proficiency pupil count", the number in the preceding
107 school year of pupils aged three through twenty-one enrolled or preparing to
108 enroll in an elementary school or secondary school who were not born in the
109 United States or whose native language is a language other than English or are

110 Native American or Alaskan native, or a native resident of the outlying areas,
111 and come from an environment where a language other than English has had a
112 significant impact on such individuals' level of English language proficiency, or
113 are migratory, whose native language is a language other than English, and who
114 come from an environment where a language other than English is dominant; and
115 have difficulties in speaking, reading, writing, or understanding the English
116 language sufficient to deny such individuals the ability to meet the state's
117 proficient level of achievement on state assessments described in Public Law
118 107-10, the ability to achieve successfully in classrooms where the language of
119 instruction is English, or the opportunity to participate fully in society;

120 (9) "Limited English proficiency threshold" shall be calculated by dividing
121 the total limited English proficiency pupil count of every performance district that
122 falls entirely above the bottom five percent and entirely below the top five percent
123 of average daily attendance, when such districts are rank-ordered based on their
124 current operating expenditures per average daily attendance, by the total average
125 daily attendance of all included performance districts;

126 (10) "Local effort":

127 (a) For the fiscal year 2007 calculation, "local effort" shall be computed as
128 the equalized assessed valuation of the property of a school district in calendar
129 year 2004 divided by one hundred and multiplied by the performance levy less the
130 percentage retained by the county assessor and collector plus one hundred
131 percent of the amount received in fiscal year 2005 for school purposes from
132 intangible taxes, fines, escheats, payments in lieu of taxes and receipts from
133 state-assessed railroad and utility tax, one hundred percent of the amount
134 received for school purposes pursuant to the merchants' and manufacturers' taxes
135 under sections 150.010 to 150.370, one hundred percent of the amounts received
136 for school purposes from federal properties under sections 12.070 and 12.080
137 except when such amounts are used in the calculation of federal impact aid
138 pursuant to P.L. 81-874, fifty percent of Proposition C revenues received for
139 school purposes from the school district trust fund under section 163.087, and one
140 hundred percent of any local earnings or income taxes received by the district for
141 school purposes. Under this paragraph, for a special district established under
142 sections 162.815 to 162.940 in a county with a charter form of government and
143 with more than one million inhabitants, a tax levy of zero shall be utilized in lieu
144 of the performance levy for the special school district;

145 (b) In every year subsequent to fiscal year 2007, "local effort" shall be the

146 amount calculated under paragraph (a) of this subdivision plus any increase in
147 the amount received for school purposes from fines. If a district's assessed
148 valuation has decreased subsequent to the calculation outlined in paragraph (a)
149 of this subdivision, the district's local effort shall be calculated using the district's
150 current assessed valuation in lieu of the assessed valuation utilized in the
151 calculation outlined in paragraph (a) of this subdivision. **When a change in a**
152 **school district's boundary lines occurs because of a boundary line**
153 **change, annexation, attachment, consolidation, reorganization, or**
154 **dissolution under section 162.071, 162.081, sections 162.171 to 162.201,**
155 **section 162.221, 162.223, 162.431, 162.441, or 162.451, or in the event that**
156 **a school district assumes any territory from a district that ceases to**
157 **exist for any reason, the department of elementary and secondary**
158 **education shall make a proper adjustment to each affected district's**
159 **local effort, so that each district's local effort figure conforms to the**
160 **new boundary lines of the district. The department shall compute the**
161 **local effort figure by applying the calendar year 2004 assessed**
162 **valuation data to the new land areas resulting from the boundary line**
163 **change, annexation, attachment, consolidation, reorganization, or**
164 **dissolution and otherwise follow the procedures described in this**
165 **subdivision;**

166 (11) "Membership" shall be the average of:

167 (a) The number of resident full-time students and the full-time equivalent
168 number of part-time students who were enrolled in the public schools of the
169 district on the last Wednesday in September of the previous year and who were
170 in attendance one day or more during the preceding ten school days; and

171 (b) The number of resident full-time students and the full-time equivalent
172 number of part-time students who were enrolled in the public schools of the
173 district on the last Wednesday in January of the previous year and who were in
174 attendance one day or more during the preceding ten school days, plus the
175 full-time equivalent number of summer school pupils. "Full-time equivalent
176 number of part-time students" is determined by dividing the total number of
177 hours for which all part-time students are enrolled by the number of hours in the
178 school term. "Full-time equivalent number of summer school pupils" is
179 determined by dividing the total number of hours for which all summer school
180 pupils were enrolled by the number of hours required pursuant to section 160.011
181 in the school term. Only students eligible to be counted for average daily

182 attendance shall be counted for membership;

183 (12) "Operating levy for school purposes", the sum of tax rates levied for
184 teachers' and incidental funds plus the operating levy or sales tax equivalent
185 pursuant to section 162.1100 of any transitional school district containing the
186 school district, in the payment year, not including any equalized operating levy
187 for school purposes levied by a special school district in which the district is
188 located;

189 (13) "Performance district", any district that has met [all] performance
190 standards and indicators as established by the department of elementary and
191 secondary education for purposes of accreditation under section 161.092 and as
192 reported on the final annual performance report for that district each year; **for**
193 **calculations to be utilized for payments in fiscal years subsequent to**
194 **fiscal year 2018, the number of performance districts shall not exceed**
195 **twenty-five percent of all public school districts;**

196 (14) "Performance levy", three dollars and forty-three cents;

197 (15) "School purposes" pertains to teachers' and incidental funds;

198 (16) "Special education pupil count", the number of public school students
199 with a current individualized education program or services plan and receiving
200 services from the resident district as of December first of the preceding school
201 year, except for special education services provided through a school district
202 established under sections 162.815 to 162.940 in a county with a charter form of
203 government and with more than one million inhabitants, in which case the sum
204 of the students in each district within the county exceeding the special education
205 threshold of each respective district within the county shall be counted within the
206 special district and not in the district of residence for purposes of distributing the
207 state aid derived from the special education pupil count;

208 (17) "Special education threshold" shall be calculated by dividing the total
209 special education pupil count of every performance district that falls entirely
210 above the bottom five percent and entirely below the top five percent of average
211 daily attendance, when such districts are rank-ordered based on their current
212 operating expenditures per average daily attendance, by the total average daily
213 attendance of all included performance districts;

214 (18) "State adequacy target", the sum of the current operating
215 expenditures of every performance district that falls entirely above the bottom
216 five percent and entirely below the top five percent of average daily attendance,
217 when such districts are rank-ordered based on their current operating

218 expenditures per average daily attendance, divided by the total average daily
219 attendance of all included performance districts. The department of elementary
220 and secondary education shall first calculate the state adequacy target for fiscal
221 year 2007 and recalculate the state adequacy target every two years using the
222 most current available data. The recalculation shall never result in a decrease
223 from the previous state adequacy target amount. Should a recalculation result
224 in an increase in the state adequacy target amount, fifty percent of that increase
225 shall be included in the state adequacy target amount in the year of recalculation,
226 and fifty percent of that increase shall be included in the state adequacy target
227 amount in the subsequent year. The state adequacy target may be adjusted to
228 accommodate available appropriations **as provided in subsection 8 of section**
229 **163.031**;

230 (19) "Teacher", any teacher, teacher-secretary, substitute teacher,
231 supervisor, principal, supervising principal, superintendent or assistant
232 superintendent, school nurse, social worker, counselor or librarian who shall,
233 regularly, teach or be employed for no higher than grade twelve more than
234 one-half time in the public schools and who is certified under the laws governing
235 the certification of teachers in Missouri;

236 (20) "Weighted average daily attendance", the average daily attendance
237 plus the product of twenty-five hundredths multiplied by the free and reduced
238 lunch pupil count that exceeds the free and reduced lunch threshold, plus the
239 product of seventy-five hundredths multiplied by the number of special education
240 pupil count that exceeds the special education threshold, plus the product of
241 six-tenths multiplied by the number of limited English proficiency pupil count
242 that exceeds the limited English proficiency threshold. For special districts
243 established under sections 162.815 to 162.940 in a county with a charter form of
244 government and with more than one million inhabitants, weighted average daily
245 attendance shall be the average daily attendance plus the product of twenty-five
246 hundredths multiplied by the free and reduced lunch pupil count that exceeds the
247 free and reduced lunch threshold, plus the product of seventy-five hundredths
248 multiplied by the sum of the special education pupil count that exceeds the
249 threshold for each county district, plus the product of six-tenths multiplied by the
250 limited English proficiency pupil count that exceeds the limited English
251 proficiency threshold. None of the districts comprising a special district
252 established under sections 162.815 to 162.940 in a county with a charter form of
253 government and with more than one million inhabitants, shall use any special

254 education pupil count in calculating their weighted average daily attendance.

163.018. 1. Notwithstanding the definition of "average daily
2 attendance" in subdivision (2) of section 163.011 to the contrary, pupils
3 between the ages of three and five who are eligible for free and
4 reduced lunch and attend an early childhood education program that
5 is operated by and in a district or by a charter school that has declared
6 itself as a local educational agency providing full-day kindergarten and
7 that meets standards established by the state board of education, shall
8 be included in the district's or charter school's calculation of average
9 daily attendance. The total number of such pupils included in the
10 district's or charter school's calculation of average daily attendance
11 shall not exceed four percent of the total number of pupils who are
12 eligible for free and reduced lunch between the ages of three and
13 eighteen who are included in the district's or charter school's
14 calculation of average daily attendance.

15 2. (1) For any district that has been declared unaccredited by
16 the state board of education and remains unaccredited as of July 1,
17 2015, the provisions of subsection 1 of this section shall become
18 applicable during the 2015-2016 school year;

19 (2) For any district that is declared unaccredited by the state
20 board of education after July 1, 2015, the provisions of subsection 1 of
21 this section shall become applicable immediately upon such
22 declaration;

23 (3) For any district that has been declared provisionally
24 accredited by the state board of education and remains provisionally
25 accredited as of July 1, 2016, the provisions of subsection 1 of this
26 section shall become applicable beginning in the 2016-2017 school year;

27 (4) For any district that is declared provisionally accredited by
28 the state board of education after July 1, 2016, the provisions of this
29 section shall become applicable beginning in the 2016-2017 school year
30 or immediately upon such declaration, whichever is later;

31 (5) For all other districts, the provisions of subsection 1 of this
32 section shall become effective in any school year subsequent to a school
33 year in which the amount appropriated for subsections 1 and 2 of
34 section 163.031 is equal to or exceeds the amount necessary to fund the
35 entire entitlement calculation determined by subsections 1 and 2 of
36 section 163.031, and shall remain effective in all school years

37 **thereafter, irrespective of the amount appropriated for subsections 1**
38 **and 2 of section 163.031 in any succeeding year.**

39 **3. This section shall not require school attendance beyond that**
40 **mandated under section 167.031 and shall not change or amend the**
41 **provisions of sections 160.051, 160.053, 160.054, and 160.055 relating to**
42 **kindergarten attendance.**

163.031. 1. The department of elementary and secondary education shall
2 calculate and distribute to each school district qualified to receive state aid under
3 section 163.021 an amount determined by multiplying the district's weighted
4 average daily attendance by the state adequacy target, multiplying this product
5 by the dollar value modifier for the district, and subtracting from this product the
6 district's local effort and, in years not governed under subsection 4 of this section,
7 subtracting payments from the classroom trust fund under section 163.043.

8 2. Other provisions of law to the contrary notwithstanding:

9 (1) For districts with an average daily attendance of more than three
10 hundred fifty in the school year preceding the payment year:

11 (a) For the 2006-07 school year, the state revenue per weighted average
12 daily attendance received by a district from the state aid calculation under
13 subsections 1 and 4 of this section, as applicable, and the classroom trust fund
