

# Journal of the Senate

SECOND REGULAR SESSION

---

FIFTY-SEVENTH DAY—THURSDAY, APRIL 24, 2014

---

The Senate met pursuant to adjournment.

President Kinder in the Chair.

Reverend Carl Gauck offered the following prayer:

“A man who governs his passions is master of the world. We must either command them, or be enslaved by them. It is better to be a hammer than an anvil.” (St. Dominic)

Merciful Father, You know we are tired and at this time of the year our patience gets thin and our frustrations increase. So help us govern our passions so what we say is kind and conveys the meaning of what we are attempting to do here. May we deal fairly and openly with one another and work the work You would have us complete. May that be even more true as we arrive home and be with loved ones. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

The Journal of the previous day was read and approved.

The following Senators were present during the day’s proceedings:

Present—Senators

The Lieutenant Governor was present.

**RESOLUTIONS**

Senator Romine offered Senate Resolution No. 1922, regarding Linda Pinkston, which was adopted.

Senator Romine offered Senate Resolution No. 1923, regarding Frances Aubushon, which was adopted.

Senator Romine offered Senate Resolution No. 1924, regarding Susan Heuer, which was adopted.

Senator Romine offered Senate Resolution No. 1925, regarding Terry Joyner, which was adopted.

**CONCURRENT RESOLUTIONS**

Senator Sater offered the following concurrent resolution:

**SENATE CONCURRENT RESOLUTION NO. 43**

Whereas, on August 7, 1964, the United States Congress passed the Gulf of Tonkin Resolution authorizing the President to take any measures necessary to defend United States forces and promote the maintenance of international peace and security in Southeast Asia; and

Whereas, between 1965 and 1969 American troops strength in Vietnam rose from 60,000 to over 543,000, with approximately a total of 2,700,000 American men and women serving in Vietnam by the end of the war; and

Whereas, the United States suffered casualties of over 58,000 men and women, with 1,410 of those soldiers killed being Missouri citizens who sacrificed their lives in some of the most horrific conditions in the history of warfare; and

Whereas, the people of Missouri wish to properly honor and thank Vietnam War Veterans and their families for their sacrifice and bravery; and

Whereas, war memorials are important reminders that freedom is not free and the soon to be constructed Vietnam Veterans Memorial located on the College of the Ozarks Campus will be dedicated to perpetuate the appreciation and legacy of Vietnam War Veterans present and past; and

Whereas, Branson, Missouri is known by many as the "Veterans Capital of the Nation" hosting America's largest Veterans Day celebration every year, as well as the Vietnam Veterans "Welcome Home Celebration," and Branson is home to the Veterans Memorial Museum; and

Whereas, the College of the Ozarks, located only a few miles from Branson, has pledged to fully fund the construction of the Vietnam Veterans Memorial designed by the College's Graphic Design Class; and

Whereas, it is appropriate to honor the Vietnam War Veterans from the state of Missouri by recognizing the Vietnam Veterans Memorial, which is to be constructed on the College of the Ozarks Campus, as the official Vietnam War Memorial of the state of Missouri:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-seventh General Assembly, Second Regular Session, the House of Representatives concurring therein, hereby recognize the Vietnam Veterans Memorial which is to be constructed on the College of the Ozarks Campus in Point Lookout, Missouri as the official Vietnam War Memorial of Missouri; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to prepare properly inscribed copies of this resolution for the President of the College of the Ozarks and the Vietnam Veterans Chapter 913 in Branson, Missouri.

**REPORTS OF STANDING COMMITTEES**

On behalf of Senator Richard, Chairman of the Committee on Rules, Joint Rules, Resolutions and Ethics, Senator Kehoe submitted the following reports:

Mr. President: Your Committee on Rules, Joint Rules, Resolutions and Ethics, to which were referred **SS** for **SB 866** and **SB 964**, begs leave to report that it has examined the same and finds that the bills have been truly perfected and that the printed copies furnished the Senators are correct.

**MESSAGES FROM THE HOUSE**

The following message was received from the House of Representatives through its Chief Clerk:

Mr. President: I am instructed by the House of Representatives to inform the Senate that the House has taken up and adopted **HCR 30**.

HOUSE CONCURRENT RESOLUTION NO. 30

WHEREAS, domestically produced coal has been and continues to be used as a fuel to produce over 80% of the electricity generated by the state's investor-owned electric utilities, municipally owned utilities, and rural electric cooperatives; and

WHEREAS, the state's heavy reliance on coal as a fuel source for Missouri's base-load electric generation is due primarily to coal being abundant, available, reliable, and comparatively much less expensive than virtually all other available fuels; and

WHEREAS, on June 25, 2013, the President of the United States issued a memorandum to the Administrator of the United States Environmental Protection Agency directing the EPA to:

(1) Move forward with a new proposal to implement national standards for carbon dioxide (CO<sub>2</sub>) emissions from the new fossil fuel-fired electric power plants by issuing a proposed rule no later than September 20, 2013;

(2) Use the EPA's authority under Sections 111(b) and 111(d) of the federal Clean Air Act to issue no later than June 1, 2014, standards, regulations, or guidelines that address carbon pollution from modified, reconstructed, and existing power plants; and

WHEREAS, the EPA already has issued its proposed rules and regulations for new fossil fuel-fired electric power plants and is expected to issue its proposed rules and regulations for existing fossil fuel-fired power plants by June 1, 2014, with implementation by June 2015; and

WHEREAS, the EPA's proposed regulations for new power plants would require all new coal-fired electric power plants to utilize carbon capture and storage (CCS) technology, otherwise known as "sequestration", to capture and store CO<sub>2</sub> underground in order to meet the EPA's new stringent emission limits, even though such sequestration technology is not yet economical or even widely commercially available; and

WHEREAS, according to the Congressional Budget Office, engineers have estimated this sequestration technology would increase the cost of producing electricity from new coal-fired electric power plants by 75%; and

WHEREAS, a significant amount of additional electricity, estimated to be approximately 30% or more and known in the industry as "parasite load", would have to be generated by the power plant solely for the purpose of operating such new sequestration technology, making such additional power unavailable for use but still paid for by Missouri's electric consumers; and

WHEREAS, even the EPA admits that "today's CCS technologies would add around 80% to the cost of electricity for a new pulverized coal (PC) plant"; and

WHEREAS, these regulations in practical effect will make it economically impossible to build new coal-fired electric power plants in the future in order to meet the future electric generation needs of Missourians; and

WHEREAS, these regulations will in effect completely remove coal as a domestic, abundant, reliable, and affordable fuel source for electric generation in the future; and

WHEREAS, a reliable, affordable energy supply is vital to the nation's future economic growth, security, and quality of life; and

WHEREAS, it should be clear public policy of the United States to pursue an "all of the above" approach by promoting, and not discouraging or eliminating, any one or more domestic potential fuel source for electric generation by new or existing power plants; and

WHEREAS, the EPA's proposed regulations for existing power plants, while not yet made public, can reasonably be expected to follow the approach taken by the EPA in its proposed rules for new plants, and in any event, certainly will be designed to drastically reduce CO<sub>2</sub> emissions from existing coal-fired electric power plants; and

WHEREAS, stricter emission standards imposed by the EPA on Missouri's existing coal-fired electric power plants necessarily will translate into higher electric costs that necessarily must be paid for by all Missouri consumers, either directly in higher electric rates, or indirectly through higher costs for other goods and services; and

WHEREAS, higher electric rates translate into an economic competitive disadvantage for Missouri and added economic stress in an already struggling state economy; and

WHEREAS, electric rate increases in recent years continue to be a heavy burden for customers served by the state's investor-owned and municipally-owned electric utilities, especially low-income residential customers, small businesses, and large manufacturers who are struggling to survive in an increasingly competitive world market; and

WHEREAS, increasing costs for electricity will hit especially hard residential electric users living in rural Missouri who are served by Missouri's electric cooperatives where 50% of electric cooperative members are over 55 years old, 37% are retired or on a fixed income, 40% have gross household incomes of less than \$50,000 per year, and 16% make less than \$25,000 per year; and

WHEREAS, approximately 40 million American families nationally earn less than \$30,000 per year and spend almost 20% of their budgets on energy costs; and

WHEREAS, Missouri currently enjoys some of the lowest electric rates in the nation due to its reliance on coal-fired electric generation while other states that do not rely on coal have some of the highest electric rates; and

WHEREAS, many states have implemented mandatory or voluntary renewable portfolio/energy standards, implemented energy efficient or peak load reduction programs, experienced significant retirements of coal-based generating plants, or mandated emission reduction programs - all of which have already contributed to a reduction in greenhouse gas emissions; and

WHEREAS, each state has different needs and should be permitted to primarily rely on its own state utility and environmental regulators to craft and implement emission performance systems that reflect the policies, energy needs, fuel resource mix, and unique economic considerations of each state and region:

NOW, THEREFORE, BE IT RESOLVED that the members of the House of Representatives of the Ninety-seventh General Assembly, Second Regular Session, the Senate concurring therein, hereby strongly urge the Environmental Protection Agency to use some basic common sense and reject any federal fossil fuel emission rules or regulations that would have the practical effect of removing coal as a viable fuel option for both new and existing electric generation in the State of Missouri and elsewhere, and to adopt only such rules and regulations that allow state utility and environmental regulators maximum flexibility and discretion in implementing the same; and

BE IT FURTHER RESOLVED that the Chief Clerk of the Missouri House of Representatives be instructed to prepare properly inscribed copies of this resolution for Gina McCarthy, Administrator of the Environmental Protection Agency, and each member of the Missouri Congressional delegation.
