Medicaid Payment Related to State Operated ICF/MR Upper Payment Limit Claim Payments - Section 10.060

Book 1, Pg. 282

Description: This authority is needed for Medicaid payments related to state-operated Intermediate Care Facilities for the Mentally Retarded (ICF/MR) Upper Payment Limit (UPL) claim payments. Federal regulations permit a Medicaid claim based on an estimated maximum calculation using Medicare rules. The maximum amount that could be paid is called the Upper Payment Limit (UPL). This authority provides the mechanism to allow the Department of Mental Health to capture additional federal funds from the UPL for state-operated ICF/MR facilities. UPL was established in 1981 to set a maximum ceiling on payments to facilities, allow states flexibility to pay providers differently accounting for higher costs, set reasonable rates reflecting the volume and cost of Medicaid services and ensure that safety net services would be sufficiently funded.

Office of the Director – IGT DMH Medicaid Transfer to GR- Section 10.075

Book 1, Pg. 297

Description: Allows for the transfer of Medicaid earnings generated from state-operated programs to reimburse General Revenue. Federal Medicaid regulation requires state and local governmental units to transfer funds to the Department of Social Services as the non-federal share of Medicaid payments in order to draw federal participation. These transfers are called intergovernmental transfers. This funding maximizes eligible costs for federal Medicaid funds, utilizing current state and local funding sources as match for services. This core allows DMH to deposit state match received from DSS into DMH Federal Funds and then transfer these funds into GR to reflect a non-count from DSS to GR.

The Department of Mental Health (DMH) has applied for the Youth Suicide Prevention and Early Intervention Grant. This is a five year grant for a total award of \$3,680,000. DMH has previously been awarded three federal youth suicide prevention grants from the Substance Abuse and Mental Health Services Administration (SAMHSA). These three-year grants, awarded in 2005, 2008 and 2011, have funded the majority of suicide prevention training and activities across the state over the past nine years. In 2014, SAMHSA has increased the grant awards to a total of \$736,000 per year for five years, which will allow DMH to continue and expand the current suicide prevention program.

In 2014, the Substance Abuse and Mental Health Services Administration (SAMHSA) introduced a new grant program to support states in implementing the 2012 National Strategy for Suicide Prevention (NSSP) goals and objectives focused on preventing suicide attempts among working-age adults 25-64 years old.

<u>Division of Comprehensive Psychiatric Services – Facility Support 10.205</u>

Book 2, Pg. 24

Description: This section was created in FY11 to assist CPS facilities. It establishes a single section to administer several allocations to facilities that have historically come from Adult Community Programs, NGRI, and PRN Nursing Pool sections and establishes a mechanism to allow the allocation of Medicare earnings to the facilities to assist them in coping with over census issues. The PRN Nurse Pool section provides funding for a nurse and direct care staff funding pool across all Psychiatric Services facilities. These funds may be used to provide higher pay to a pool of nurses and direct care staff, and provide only limited fringe benefits. Funds were brought in from throughout Psychiatric facilities and from the OA fringe benefit budget. The NGRI portion of this section is used to pay the Medicare Part B premiums necessary to maintain Medicare coverage for those individuals found not guilty by reason of mental disease or defect and committed to the custody of the department.

Both private and state-operated hospitals provide inpatient treatment services to Medicaid Waiver eligible individuals with co-occurring psychiatric disorders and developmental disabilities (MI/DD) served by the Department of Mental Health. When Medicaid Waiver eligible individuals are ready to be discharged from the hospital, their discharge can be delayed because no Medicaid Waiver community services are available to meet the needs of these dually diagnosed individuals. This item requests funding to the establishment of 6 placement slots that will provide the specialized residential setting necessary to serve these individuals.

<u>CPS – Civil Detention Legal Fees and Payments to Counties - Section 10.215</u>

Book 2, Pg. 71

Description: Statue mandates that certain fees and costs for involuntary civil detention proceedings for an individual who presents a likelihood of harm due to a mental illness or substance use disorder by paid by the State (Sections 56.700, 57.280, 488.435, 630.130, 632.415 RSMo). It is required that reasonable attorney fees and costs be paid in involuntary civil detention hearings when the court has determined that the individual is unable to pay. Likewise, reasonable attorney fees and costs are paid for involuntary electroconvulsive therapy court proceedings when the court has determined the individual is unable to pay. Sheriff mileage fees for executing a court warrant for civil involuntary detention proceedings are considered court costs and are reimbursed at the rate set by the IRS. Statute also allows payment for prosecuting attorneys in certain counties to employ an assistant attorney and investigative or clerical staff to carry out the duties relating to mental health and mental health facilities located within their jurisdictions. Counties receiving payment are Buchanan, Callaway, Jackson St. Francois, and St. Louis City.

In July 2015, state habilitation centers will begin to deposit room and board funds for residents of hab centers into a new fund called the Habilitation Center Room and Board Fund. This core contains \$3.4 million in appropriation authority for these receipts. After funds are received and deposited, hab centers will spend the funds on E&E purchases to support residents of habilitation centers.

This item provides funding for the second phase of a multi-year attempt to rebase DD long-term contract provider rates. DD establishes contract provider rates based on the actual cost of the support services when the original contract is developed. Provider rates are adjusted based on additional appropriations during the annual budget process if appropriated. Because each consumer's plan of care is cost based and established at the point of entry into the system, long-term contract provider rates for a consumer who entered the system in the years past can be significantly less than a new provider rate for a consumer currently entering the system if adequate cost of living adjustments have not been occurring on an annual basis. Rates will be rebased by the Department of Mental Health with input of providers and SB 40 Boards.

DD - Autism Regional Projects - Section 10.410

Book 2, Pg. 350

Description: The Division of Developmental Disabilities established the Missouri Autism Project in 1991 as a pilot in Central Missouri. Motivation for the program came from families of children who have autism and who live in rural areas and lacked access to support services. Working with the DMH, those families designed a system in which providers, chosen by an advisory committee comprised of family members of individuals who have autism, deliver support services in homes. Since 1991, similar consumer-driven autism projects have been developed throughout the state.

(FY 2009 language in BRASS for Specialized Autism Services to convey legislative intent for \$1 million of the GR funding recommended by the Governor to be used for autism services is allocated to the regional autism projects (5 sites @ \$200,000 each).)

DD – ICF/MR Provider Tax - Section 10.425

Book 2, Pg. 380

Description: The Division of DD worked with the MO HealthNet Division to implement a new Federal funding stream authorized in SB 1081. The legislation allows the state to implement a provider tax on all ICF/MRs. The legislation will allow the state to impose a 5.49% provider tax on operating revenues of both private and state operated ICF/MR facilities. The Division of DD projects the ICF/MR provider tax on state operated facilities will generate in excess of \$2.6 million in federal funding annually. This section is a transfer section from the ICF/MR Reimbursement Allowance Fund to DMH Federal Funds to allow for the use of Federal funds generated by the ICF/MRs to support the Federal authority and FTEs redirected from the Regional Offices in FY2009 to Community Support Staff.

DD - ICF/MR Provider Tax (GR to ICF/MR Transfer) - Section 10.425

Book 2, Pg. 383

Description: The Division of DD worked with the MO HealthNet Division to implement a new Federal funding stream authorized in SB 1081. The legislation allows the state to implement a provider tax on all ICF/MRs. The legislation will allow the state to impose a 5.49% provider tax on operating revenues of both private and state operated ICF/MR facilities. The Division of DD projects the ICF/MR provider tax on state operated facilities will generate approximately \$2.7 million in federal funding annually. This item allows for the payment of GR to the ICF/MR Reimbursement Allowance Fund for the ability to draw down FFP related to the provider tax. This transfer allows for General Revenue to be reimbursed for the private ICF/MR provider tax. This is a non-count section.

DD - Albany Regional Center - Section 10.500

Book 2, Pg. 399

Description: This section provides funding to support the operation of the Albany Regional Center. In FY15 administrative functions at six regional offices (Albany, Hannibal, Joplin, Kirksville, Poplar Bluff, and Rolla) were consolidated effective December 15, 2014. These offices became satellite offices of the remaining regional offices (Columbia, Kansas City, Sikeston, Springfield, and St. Louis), with all client services at each location remaining intact. The consolidations resulted in funding reductions to PS and E&E in the FY15 budget for half year savings, with remaining reductions in the FY16 budget. Regional offices located throughout the state provide an entry point to an array of community services for persons with developmental disabilities. Individuals determined eligible for services are assigned a case manager who, in partnership with the individual and his or her family, work to identify the needed services and supports.

DD - Kirksville Regional Center - Section 10.505

Book 2 Pg. 411

Description: This section provides funding to support the operation of the Kirksville Regional Center. In FY15 administrative functions at six regional offices (Albany, Hannibal, Joplin, Kirksville, Poplar Bluff, and Rolla) were consolidated effective December 15, 2014. These offices became satellite offices of the remaining regional offices (Columbia, Kansas City, Sikeston, Springfield, and St. Louis), with all client services at each location remaining intact. The consolidations resulted in funding reductions to PS and E&E in the FY15 budget for half year savings, with remaining reductions in the FY16 budget. Regional offices located throughout the state provide an entry point to an array of community services for persons with developmental disabilities. Individuals determined eligible for services are assigned a case manager who, in partnership with the individual and his or her family, work to identify the needed services and supports.

DD - St. Louis Regional Center - Section 10.520

Book 2, Pg. 423

Description: This section provides funding to support the operation of the St. Louis Regional Center. In FY15 administrative functions at six regional offices (Albany, Hannibal, Joplin, Kirksville, Poplar Bluff, and Rolla) were consolidated effective December 15, 2014. These offices became satellite offices of the remaining regional offices (Columbia, Kansas City, Sikeston, Springfield, and St. Louis), with all client services at each location remaining intact. The consolidations resulted in funding reductions to PS and E&E in the FY15 budget for half year savings, with remaining reductions in the FY16 budget. Regional offices located throughout the state provide an entry point to an array of community services for persons with developmental disabilities. Individuals determined eligible for services are assigned a case manager who, in partnership with the individual and his or her family, work to identify the needed services and supports.

DD - Bellefontaine Habilitation Center - Section 10.525

Book 2, Pg. 466

Description: This section provides funding for the Bellefontaine Habilitation Center. The department operates habilitation centers providing Intermediate Care Facilities for the Developmentally Disabled (ICF/DD). The Habilitation Centers (Bellefontaine, Higginsville, Marshall, St. Louis Developmental Disabilities Treatment Center, and Southeast MO Residential Services) continue to provide ICF/DD level care for 430 consumers on their campuses. These facilities provide active treatment for individuals who often demand intensive seven-days-a-week care under close professional supervision in an environment conducive to each individual's development. The Division also operates MO Health Net Waiver ISL's (Independent Supported Living) and group homes to support approximately 208 people. ISL's and group homes have been used to effectively transition individuals from a facility in to community settings. Habilitation centers also provided statewide crisis beds to help support individuals in need of short term crisis/evaluation services which for most people last from 30-60 days.

DD - Higginsville Habilitation Center - Section 10.530

Book 2, Pg. 464

Description: This section provides funding for the Higginsville Habilitation Center. The department operates habilitation centers providing Intermediate Care Facilities for the Developmentally Disabled (ICF/DD). The Habilitation Centers (Bellefontaine, Higginsville, Marshall, St. Louis Developmental Disabilities Treatment Center, and Southeast MO Residential Services) continue to provide ICF/DD level care for 430 consumers on their campuses. These facilities provide active treatment for individuals who often demand intensive seven-days-a-week care under close professional supervision in an environment conducive to each individual's development. The Division also operates MO Health Net Waiver ISL's (Independent Supported Living) and group homes to support approximately 208 people. ISL's and group homes have been used to effectively transition individuals from a facility in to community settings. Habilitation centers also provided statewide crisis beds to help support individuals in need of short term crisis/evaluation services which for most people last from 30-60 days.

DD - St. Louis Developmental Disabilities Treatment Center - Section 10.545

Book 2, Pg. 481

Description: This section provides funding for the St. Louis Developmental Disabilities Treatment Center. The department operates habilitation centers providing Intermediate Care Facilities for the Developmentally Disabled (ICF/DD). The Habilitation Centers (Bellefontaine, Higginsville, Marshall, St. Louis Developmental Disabilities Treatment Center, and Southeast MO Residential Services) continue to provide ICF/DD level care for 430 consumers on their campuses. These facilities provide active treatment for individuals who often demand intensive seven-days-a-week care under close professional supervision in an environment conducive to each individual's development. The Division also operates MO Health Net Waiver ISL's (Independent Supported Living) and group homes to support approximately 208 people. ISL's and group homes have been used to effectively transition individuals from a facility in to community settings. Habilitation centers also provided statewide crisis beds to help support individuals in need of short term crisis/evaluation services which for most people last from 30-60 days.
