CONCURRENT RESOLUTIONS

Senator Curls offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 60

Whereas, twenty-eight million United States citizens have cognitive disabilities such as intellectual disability; severe, persistent mental illness; brain injury; stroke; and neurodegenerative disorders such as Alzheimer's disease; and

Whereas, people with cognitive disabilities are entitled to inclusion in our democratic society under federal laws such as the Americans with Disabilities Act, the Developmental Disabilities Assistance and Bill of Rights Act, the Individuals with Disabilities Act, Section 504 of the Rehabilitation Act, and under state and local laws; and

Whereas, the disruptive convergence of computing and communication technologies has substantially altered how people acquire, utilize, and disseminate knowledge and information; and

Whereas, access to comprehensible information and usable communication technologies is necessary for all people in our society, particularly for people with cognitive disabilities, to promote self-determination and to engage meaningfully in major aspects of life such as education, health promotion, employment, recreation, and civic participation; and

Whereas, the vast majority of people with cognitive disabilities have limited or no access to comprehensible information and usable communication technologies; and

Whereas, people with cognitive disabilities must have access to commercially available devices and software that incorporate principles of universal design such as flexibility and ease of use for all; and

Whereas, technology and information access by people with cognitive disabilities must be guided by standards and best-practices, such as personalization and compatibility across devices and platforms, and through the application of innovations including automated and predictive technologies; and

Whereas, security and privacy must be assured and managed to protect civil rights and personal dignity of people with cognitive disabilities; and

Whereas, enhanced public and private funding is urgently required to allow people with cognitive disabilities to utilize technology and access information as a natural consequence of their rights to inclusion in our society; and

Whereas, ensuring access to technology and information for the 28 million people with cognitive disabilities in the United States will create new markets and employment opportunities; decrease dependency on public services; reduce health care costs; and improve the independence, productivity, and quality of life of people with cognitive disabilities:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-eighth General Assembly, Second Regular Session, the House of Representatives concurring therein, hereby urge a commitment to equal rights for people with cognitive disabilities to technology and information access and call for implementation of such rights with deliberate speed.

Senator Parson offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 61

Relating to an application to Congress for the calling of an Article V convention of states to propose an amendment to the United States Constitution regarding term limits for members of Congress.

Whereas, Article V of the Constitution of the United States requires a Convention to be called by the Congress of the United States for the purpose of proposing an amendment to the Constitution upon application of two-thirds of the Legislatures of the several states; and

Whereas, the Legislature of the State of Missouri favors a proposal and ratification of an amendment to said Constitution which shall set a limit on the number of terms that a person may be elected as a member of the United States House of Representatives and as a member of the United States Senate:

Now Therefore Be It Resolved that the members of the Missouri Senate, Ninety-eighth General Assembly, Second Regular Session, the House of Representatives concurring therein, hereby make an application to Congress, as provided by Article V of the Constitution of the United States of America, to call a convention limited to proposing an amendment to the Constitution of the United States of America to set a limit on the number of terms that a person may be elected as a member of the United States House of Representatives and to set a limit on the number of terms that a person may be elected as a member of the United States Senate; and

Be It Further Resolved that this application shall be considered as covering the same subject matter as the applications from other states to Congress to call a convention to set a limit on the number of terms that a person may be elected to the House of Representatives of the Congress of the United States and the Senate of the United States; and this application shall be aggregated with same for the purpose of attaining the two-thirds of states necessary to require Congress to call a limited convention on this subject, but shall not be aggregated with any other applications on any other subject; and

Be It Further Resolved that this application constitutes a continuing application in accordance with Article V of the Constitution of the United States of America until the legislatures of at least two-thirds of the several states have made applications on the same subject; and

Be It Further Resolved that the Secretary of the Missouri Senate be instructed to prepare properly inscribed copies of this resolution for the President and Secretary of the Senate of the United States and to the Speaker, Clerk and Judiciary Committee Chairman of the House of Representatives of the Congress of the United States, and copies to each member of the Missouri Congressional delegation, and the presiding officers of each of the legislative houses in the several states, requesting their cooperation.
