LEAN EFFICIENCY AND COST REDUCTION PROGRAM

Section 5.051

Page 325

This funding is being requested to launch a program to train a team of best-in-class practitioners in business process redesign. Such a continuous improvement capability does not exist in the state government; it is, however, critical to driving efficiencies and eliminating waste at scale. This program will build a core team with personnel drawn from all 16 executive state departments. The team will be trained in private sector best practices such as Lean and its variant, Lean Six Sigma. These methodologies rely upon team efforts to identify and design solutions to strip waste out of processes while maximizing customer/citizen experience. The team's efforts will be focused on priority projects identified by the Chief Operating Officer, Commissioner of Administration, and the leaders of the executive departments.

PERFORMANCE COMPENSATION STUDY
Section 5.052

Page 325

Transforming how the state workforce is incentivized and rewarded is central to the broader reform of the State Government and adoption of proven best practices from the private sector and other governments. Pay or Reward-for-Performance is a system of employee recognition and reward that links compensation to measures of work quality or goals. This common-sense approach has been proven success in the private sector and some other governments. Missouri's past effort with the PERforM system did not deliver the intended results. To achieve its goal of implementing a best-in-nation approach, Missouri will require world-class expertise and support.

This request provides the mechanism to transfer funds from the Budget Reserve Fund into general revenue or any other state fund for short-term loans pursuant to Section 27(a), Article IV, Constitution of Missouri. CENTRAL SERVICES COST ALLOCATION

Section 5.265

Page 730

An accepted accounting practice, allocations recover costs for services provided to other entities. For instance, the federal government allows the State of Missouri to recover overhead costs for federal programs through a Statewide Cost Allocation Plan (SWCAP). Using standard accepted accounting methods, the Central Services Cost Allocation Plan (CSCAP) recovers the costs of providing services to various state funds including those provided by the Office of Administration, the Department of Revenue, the Governor's Office, the Lieutenant Governor's Office, the Secretary of State's Office, the State Auditor's Office, the Attorney General's Office, the General Assembly, and the Capitol Police. To determine a fund's participation eligibility, the Office of Administration systematically analyzes relevant constitutional provisions, statutory language, fund revenue sources, and other appropriate considerations.

REFUND –FLOOD CONTROL AND NATIONAL FOREST RESERVE

Section 5.275 & 5.280

Page 754 & 759

Flood Control Program: The Department of Defense/US Army Corps of Engineers disburses 75% of funds received from lands acquired for Flood Control, Navigation, and Allied Purposes to compensate local taxing units for the loss of taxes from federally acquired lands. Counties receiving the funds expend the money for the benefit of public schools and public roads in the county.	
National Forest Reserve Program: This program distributes funding to counties in which National Forests are located. Revenue is received by the federal government for mineral leases, rentals, concessions, and timber from National Forest lands. A quarter of the revenue is returned to the states. The Office of Administration acts as a 'pass-through' agent, distributing the revenue to the counties according to a schedule provided by the U.S. Departments of Agriculture and Interior. Counties receiving the funds expend the money for the benefit of public schools and public roads in the county.
