AN ACT

Be it enacted by the General Assembly of the state of Missouri, as follows:

160.545.  1. There is hereby established within the department of elementary and secondary education the "A+ Schools Program" to be administered by the commissioner of education. The program shall consist of grant awards made to public secondary schools that demonstrate a commitment to ensure that:

(1) All students be graduated from school;

(2) All students complete a selection of high school studies that is challenging and for which there are identified learning expectations; and

EXPLANATION — Matter enclosed in bold-faced brackets [thus] in the above bill is not enacted and is intended to be omitted from the law. Matter in bold-face type in the above bill is proposed language.
All students proceed from high school graduation to a college or postsecondary vocational or technical school or high-wage job with workplace skill development opportunities.

2. The state board of education shall promulgate rules and regulations for the approval of grants made under the program to schools that:

   (1) Establish measurable districtwide performance standards for the goals of the program outlined in subsection 1 of this section; and

   (2) Specify the knowledge, skills and competencies, in measurable terms, that students must demonstrate to successfully complete any individual course offered by the school, and any course of studies which will qualify a student for graduation from the school; and

   (3) Do not offer a general track of courses that, upon completion, can lead to a high school diploma; and

   (4) Require rigorous coursework with standards of competency in basic academic subjects for students pursuing vocational and technical education as prescribed by rule and regulation of the state board of education; and

   (5) Have a partnership plan developed in cooperation and with the advice of local business persons, labor leaders, parents, and representatives of college and postsecondary vocational and technical school representatives, with the plan then approved by the local board of education. The plan shall specify a mechanism to receive information on an annual basis from those who developed the plan in addition to senior citizens, community leaders, and teachers to update the plan in order to best meet the goals of the program as provided in subsection 1 of this section. Further, the plan shall detail the procedures used in the school to identify students that may drop out of school and the intervention services to be used to meet the needs of such students. The plan shall outline counseling and mentoring services provided to students who will enter the workforce upon graduation from high school, address apprenticeship and intern programs, and shall contain procedures for the recruitment of volunteers from the community of the school to serve in schools receiving program grants.

3. Any nonpublic school in this state may apply to the state board of education for certification that it meets the requirements of this section subject to the same criteria as public high schools. Every nonpublic school that applies and has met the requirements of this section shall have its students eligible for reimbursement of postsecondary education under subsection 8 of this section on an equal basis to students who graduate from public schools that meet the requirements of this section. Any nonpublic school that applies shall not be eligible for any grants under this section. Students of certified nonpublic schools shall be eligible for reimbursement of postsecondary education under subsection 8 of this section so long as they meet the other requirements of such subsection. For purposes of subdivision (5) of subsection 2 of this section, the nonpublic school shall be included in the partnership plan developed by the
public school district in which the nonpublic school is located. For purposes of subdivision (1) of subsection 2 of this section, the nonpublic school shall establish measurable performance standards for the goals of the program for every school and grade level over which the nonpublic school maintains control.

4. A school district may participate in the program irrespective of its accreditation classification by the state board of education, provided it meets all other requirements.

5. By rule and regulation, the state board of education may determine a local school district variable fund match requirement in order for a school or schools in the district to receive a grant under the program. However, no school in any district shall receive a grant under the program unless the district designates a salaried employee to serve as the program coordinator, with the district assuming a minimum of one-half the cost of the salary and other benefits provided to the coordinator. Further, no school in any district shall receive a grant under the program unless the district makes available facilities and services for adult literacy training as specified by rule of the state board of education.

6. For any school that meets the requirements for the approval of the grants authorized by this section and specified in subsection 2 of this section for three successive school years, by August first following the third such school year, the commissioner of education shall present a plan to the superintendent of the school district in which such school is located for the waiver of rules and regulations to promote flexibility in the operations of the school and to enhance and encourage efficiency in the delivery of instructional services in the school. The provisions of other law to the contrary notwithstanding, the plan presented to the superintendent shall provide a summary waiver, with no conditions, for the pupil testing requirements pursuant to section 160.257 in the school. Further, the provisions of other law to the contrary notwithstanding, the plan shall detail a means for the waiver of requirements otherwise imposed on the school related to the authority of the state board of education to classify school districts pursuant to subdivision (9) of section 161.092 and such other rules and regulations as determined by the commissioner of education, except such waivers shall be confined to the school and not other schools in the school district unless such other schools meet the requirements of this subsection. However, any waiver provided to any school as outlined in this subsection shall be void on June thirtieth of any school year in which the school fails to meet the requirements for the approval of the grants authorized by this section as specified in subsection 2 of this section.

7. For any school year, grants authorized by subsections 1, 2, and 5 of this section shall be funded with the amount appropriated for this program, less those funds necessary to reimburse eligible students pursuant to subsection 8 of this section.

8. The department of higher education shall, by rule, establish a procedure for the reimbursement of the cost of tuition, books and fees to any public community college or
vocational or technical school or within the limits established in subsection 10 of this section for any two-year private vocational or technical school for any student:

(1) Who has attended a high school in the state for at least three years immediately prior to graduation that meets the requirements of subsection 2 of this section and who has graduated from such a school; except that, students who are active duty military dependents, and students who are dependants of retired military who relocate to Missouri within one year of the date of the parent's retirement from active duty, who, in the school year immediately preceding graduation, meet all other requirements of this subsection and are attending a school that meets the requirements of subsection 2 of this section shall be exempt from the three-year attendance requirement of this subdivision; and

(2) Who has made a good faith effort to first secure all available federal sources of funding that could be applied to the reimbursement described in this subsection; and

(3) Who has earned a minimal grade average while in high school as determined by rule of the department of higher education, and other requirements for the reimbursement authorized by this subsection as determined by rule and regulation of the department; and

(4) Who is a citizen or permanent resident of the United States.

9. The commissioner of education shall develop a procedure for evaluating the effectiveness of the program described in this section. Such evaluation shall be conducted annually with the results of the evaluation provided to the governor, speaker of the house, and president pro tempore of the senate.

10. For a two-year private vocational or technical school to obtain reimbursements under subsection 8 of this section, the following requirements shall be satisfied:

(1) Such two-year private vocational or technical school shall be a member of the North Central Association and be accredited by the Higher Learning Commission as of July 1, 2008, and maintain such accreditation;

(2) Such two-year private vocational or technical school shall be designated as a 501(c)(3) nonprofit organization under the Internal Revenue Code of 1986, as amended;

(3) No two-year private vocational or technical school shall receive tuition reimbursements in excess of the tuition rate charged by a public community college for course work offered by the private vocational or technical school within the service area of such college; and

(4) The reimbursements provided to any two-year private vocational or technical school shall not violate the provisions of Article IX, Section 8, or Article I, Section 7, of the Missouri Constitution or the first amendment of the United States Constitution.

162.441. 1. If any school district desires to be attached to a community college district organized under sections 178.770 to 178.890 or to one or more adjacent seven-director school
districts for school purposes, upon the receipt of a petition setting forth such fact, signed either by voters of the district equal in number to ten percent of those voting in the last school election at which school board members were elected or by a majority of the voters of the district, whichever is the lesser, the school board of the district desiring to be so attached shall submit the question to the voters.

2. As an alternative to the procedure in subsection 1 of this section, a seven-director district may, by a majority vote of its board of education, propose a plan to the voters of the district to attach the district to one or more adjacent seven-director districts and call an election upon the question of such plan.

3. As an alternative to the procedures in subsection 1 or 2 of this section, a community college district organized under sections 178.770 to 178.890 may, by a majority vote of its board of trustees, propose a plan to the voters of the school district to attach the school district to the community college district, levy the tax rate applicable to the community college district at the time of the vote of the board of trustees, and call an election upon the question of such plan. The tax rate applicable to the community college district shall not be levied as to the school district until the proposal by the board of trustees of the community college district has been approved by a majority vote of the voters of the school district at the election called for that purpose. The community college district shall be responsible for the costs associated with the election.

4. A plat of the proposed changes to all affected districts shall be published and posted with the notice of election.

5. The question shall be submitted in substantially the following form:

   Shall the _____ school district be annexed to the _____ school districts effective the _____ day of _____, _____?

6. If a majority of the votes cast in the district proposing annexation favor annexation, the secretary shall certify the fact, with a copy of the record, to the board of the district and to the boards of the districts to which annexation is proposed; whereupon the boards of the seven-director districts to which annexation is proposed shall meet to consider the advisability of receiving the district or a portion thereof, and if a majority of all the members of each board favor annexation, the boundary lines of the seven-director school districts from the effective date shall be changed to include the district, and the board shall immediately notify the secretary of the district which has been annexed of its action.

7. Upon the effective date of the annexation, all indebtedness, property and money on hand belonging thereto shall immediately pass to the seven-director school district. If the district is annexed to more than one district, the provisions of sections 162.031 and 162.041 shall apply.
163.191. 1. As used in this section, the following terms shall mean:

(1) "Community college", an institution of higher education deriving financial resources from local, state, and federal sources, and providing postsecondary education primarily for persons above the twelfth grade age level, including courses in:

(a) Liberal arts and sciences, including general education;
(b) Occupational, vocational-technical; and
(c) A variety of educational community services.

Community college course offerings shall generally lead to the granting of certificates, diplomas, or associate degrees, but do not and may include baccalaureate degrees only when authorized by the coordinating board for higher education in circumstances where the level of education required in a field for accreditation or licensure increases to the baccalaureate degree level or, in the case of applied bachelor's degrees, the level of education required for employment in a field increases to that level, and when doing so would not unnecessarily duplicate an existing program, collaboration with a university is not feasible or the approach is not a viable means of meeting the needs of students and employers, and the institution has the academic and financial capacity to offer the program in a high-quality manner. Quality for such baccalaureate degree programs shall be evaluated at least in part by the delivery of upper-level coursework or competencies, and defined by accreditation or compliance with the Higher Learning Commission standards for bachelor's degrees;

(2) "Operating costs", all costs attributable to current operations, including all direct costs of instruction, instructors' and counselors' compensation, administrative costs, all normal operating costs and all similar noncapital expenditures during any year, excluding costs of construction of facilities and the purchase of equipment, furniture, and other capital items authorized and funded in accordance with subsection 6 of this section. Operating costs shall be computed in accordance with accounting methods and procedures to be specified by the department of higher education;

(3) "Year", from July first to June thirtieth of the following year.

2. Each year public community colleges in the aggregate shall be eligible to receive from state funds, if state funds are available and appropriated, an amount up to but not more than fifty percent of the state community colleges' planned operating costs as determined by the department of higher education. The department of higher education shall review all institutional budget requests and prepare appropriation recommendations annually for the community colleges under the supervision of the department. The department's budget request shall include a recommended level of funding.
3. (1) Except as provided in subdivision (2) of this subsection, distribution of appropriated funds to community college districts shall be in accordance with the community college resource allocation model. This model shall be developed and revised as appropriate cooperatively by the community colleges and the department of higher education. The department of higher education shall recommend the model to the coordinating board for higher education for their approval. The core funding level for each community college shall initially be established at an amount agreed upon by the community colleges and the department of higher education. This amount will be adjusted annually for inflation, limited growth, and program improvements in accordance with the resource allocation model starting with fiscal year 1993.

(2) Unless the general assembly chooses to otherwise appropriate state funding, beginning in fiscal year 2016, at least ninety percent of any increase in core funding over the appropriated amount for the previous fiscal year shall be distributed in accordance with the achievement of performance-funding measures under section 173.1006.

4. The department of higher education shall be responsible for evaluating the effectiveness of the resource allocation model and shall submit a report to the governor, the joint committee on education, the speaker of the house of representatives and president pro tempore of the senate by October 31, 2019, and every four years thereafter.

5. The department of higher education shall request new and separate state aid funds for any new community college district for its first six years of operation. The request for the new district shall be based upon the same level of funding being provided to the existing districts, and should be sufficient to provide for the growth required to reach a mature enrollment level.

6. In addition to state funds received for operating purposes, each community college district shall be eligible to receive an annual appropriation, exclusive of any capital appropriations, for the cost of maintenance and repair of facilities and grounds, including surface parking areas, and purchases of equipment and furniture. Such funds shall not exceed in any year an amount equal to ten percent of the state appropriations, exclusive of any capital appropriations, to community college districts for operating purposes during the most recently completed fiscal year. The department of higher education may include in its annual appropriations request the necessary funds to implement the provisions of this subsection and when appropriated shall distribute the funds to each community college district as appropriated. The department of higher education appropriations request shall be for specific maintenance, repair, and equipment projects at specific community college districts, shall be in an amount of fifty percent of the cost of a given project as determined by the coordinating board and shall be only for projects which have been approved by the coordinating board through a process of application, evaluation, and approval as established by the coordinating board. The coordinating board, as part of its process of application, evaluation, and approval, shall require the community
73 college district to provide proof that the fifty-percent share of funding to be defrayed by the
district is either on hand or committed for maintenance, repair, and equipment projects. Only
75 salaries or portions of salaries paid which are directly related to approved projects may be used
76 as a part of the fifty-percent share of funding.

7. School districts offering two-year college courses pursuant to section 178.370 on
October 31, 1961, shall receive state aid pursuant to subsection 2, subdivision (1) of subsection
3, and subsection 6 of this section if all scholastic standards established pursuant to sections
178.770 to 178.890 are met.

8. In order to make postsecondary educational opportunities available to Missouri
residents who do not reside in an existing community college district, community colleges
organized pursuant to section 178.370 or sections 178.770 to 178.890 shall be authorized
pursuant to the funding provisions of this section to offer courses and programs outside the
community college district with prior approval by the coordinating board for higher education.
The classes conducted outside the district shall be self-sustaining except that the coordinating
board shall promulgate rules to reimburse selected out-of-district instruction only where prior
need has been established in geographical areas designated by the coordinating board for higher
education. Funding for such off-campus instruction shall be included in the appropriation
recommendations, shall be determined by the general assembly and shall continue, within the
amounts appropriated therefor, unless the general assembly disapproves the action by concurrent
resolution.

9. When distributing state aid authorized for community colleges, the state treasurer may,
in any year if requested by a community college, disregard the provision in section 30.180
requiring the state treasurer to convert the warrant requesting payment into a check or draft and
wire transfer the amount to be distributed to the community college directly to the community
college's designated deposit for credit to the community college's account.

170.013. 1. Any student entering a public institution of higher education for the
first time after July 2019 who is pursuing an associate's or bachelor's degree from such
institution shall successfully pass an examination on the provisions and principles of
American civics with a score of seventy percent or greater as a condition of graduation
from such institution. The examination shall be known as the "Missouri Higher Education
Civics Achievement Examination".

2. The examination required under this section shall consist of at least fifty
questions, but shall not exceed one hundred questions, and shall be similar to the one
hundred questions administered to applicants for United States citizenship by the United
States Citizenship and Immigration Services division of the Department of Homeland
Security. Subject matter on the examination shall include the United States Constitution,
the United States Bill of Rights, governmental institutions, historical manifestations of federalism, and history of constitutional interpretation and amendments.

3. The examination required under this section may be included within any other examination that is administered on the provisions and principles of the Constitution of the United States and the Constitution of the state of Missouri, and in American history and American institutions, as required in subsection 3 of section 170.011.

4. Institutions of higher education may use online testing to comply with the provisions of this section.

172.280. The curators shall have the authority to confer, by diploma, under their common seal, on any person whom they may judge worthy thereof, such degrees as are known to and usually granted by any college or university. The University of Missouri is the state's only public research university and the exclusive grantor of research doctorates. As such, except as provided in section 175.040, the University of Missouri shall be the only state college or university that may offer doctor of philosophy degrees or first-professional degrees, including chiropractic, dentistry, law, medicine, optometry, osteopathic medicine, pharmacy, podiatry, and veterinary medicine.

173.005. 1. There is hereby created a "Department of Higher Education", and the division of higher education of the department of education is abolished and all its powers, duties, functions, personnel and property are transferred as provided by the Reorganization Act of 1974, Appendix B, RSMo.

2. The commission on higher education is abolished and all its powers, duties, personnel and property are transferred by type I transfer to the "Coordinating Board for Higher Education", which is hereby created, and the coordinating board shall be the head of the department. The coordinating board shall consist of nine members appointed by the governor with the advice and consent of the senate, and not more than five of its members shall be of the same political party. None of the members shall be engaged professionally as an educator or educational administrator with a public or private institution of higher education at the time appointed or during his term. Moreover, no person shall be appointed to the coordinating board who shall not be a citizen of the United States, and who shall not have been a resident of the state of Missouri two years next prior to appointment, and at least one but not more than two persons shall be appointed to said board from each congressional district. The term of service of a member of the coordinating board shall be six years and said members, while attending the meetings of the board, shall be reimbursed for their actual expenses. Notwithstanding any provision of law to the contrary, nothing in this section relating to a change in the composition and configuration of congressional districts in this state shall prohibit a member who is serving a term on August 28, 2011, from completing his or her term. The coordinating board may, in order to carry out the duties...
prescribed for it in subsections 1, 2, 3, 7, and 8 of this section, employ such professional, clerical
and research personnel as may be necessary to assist it in performing those duties, but this staff
shall not, in any fiscal year, exceed twenty-five full-time equivalent employees regardless of the
source of funding. In addition to all other powers, duties and functions transferred to it, the
coordinating board for higher education shall have the following duties and responsibilities:

(1) The coordinating board for higher education [shall have approval of] may approve,
not approve, or provisionally approve proposed new degree programs to be offered by the
state institutions of higher education. The coordinating board may authorize a degree
program outside an institution's coordinating board-approved mission only when the
coordinating board has received clear evidence that the institution proposing to offer the
program:

(a) Made a good-faith effort to explore the feasibility of offering the program in
collaboration with an institution the mission of which includes offering the program;
(b) Is contributing substantially to the goals in the coordinating board's
coordinated plan for higher education;
(c) Has the existing capacity to ensure the program is delivered in a high-quality
manner;
(d) Has demonstrated that the proposed program is needed;
(e) Has a clear plan to meet the articulated workforce need; and
(f) Such other factors deemed relevant by the coordinating board;

(2) The governing board of each public institution of higher education in the state
shall have the power and authority to confer degrees in chiropractic, osteopathic medicine,
and podiatry only in collaboration with the University of Missouri, provided that such
collaborative agreements are approved by the governing board of each institution and that
in these instances the University of Missouri will be the degree-granting institution. Should
the University of Missouri decline to collaborate in the offering of such programs, any of
these institutions may seek approval of the program through the coordinating board for
higher education's comprehensive review process when doing so would not unnecessarily
duplicate an existing program, collaboration is not feasible or a viable means of meeting
the needs of students and employers, and the institution has the academic and financial
capacity to offer the program in a high-quality manner.

(3) The coordinating board for higher education may promote and encourage the
development of cooperative agreements between Missouri public four-year institutions of higher
education which do not offer graduate degrees and Missouri public four-year institutions of
higher education which do offer graduate degrees for the purpose of offering graduate degree
programs on campuses of those public four-year institutions of higher education which do not
otherwise offer graduate degrees. Such agreements shall identify the obligations and duties of the parties, including assignment of administrative responsibility. Any diploma awarded for graduate degrees under such a cooperative agreement shall include the names of both institutions inscribed thereon. Any cooperative agreement in place as of August 28, 2003, shall require no further approval from the coordinating board for higher education. Any costs incurred with respect to the administrative provisions of this subdivision may be paid from state funds allocated to the institution assigned the administrative authority for the program. The provisions of this subdivision shall not be construed to invalidate the provisions of subdivision (1) of this subsection;

[(3)] (4) In consultation with the heads of the institutions of higher education affected and against a background of carefully collected data on enrollment, physical facilities, manpower needs, and institutional missions, the coordinating board for higher education shall establish guidelines for appropriation requests by those institutions of higher education; however, other provisions of the Reorganization Act of 1974 notwithstanding, all funds shall be appropriated by the general assembly to the governing board of each public four-year institution of higher education which shall prepare expenditure budgets for the institution;

[(4)] (5) No new state-supported senior colleges or residence centers shall be established except as provided by law and with approval of the coordinating board for higher education;

[(5)] (6) The coordinating board for higher education shall establish admission guidelines consistent with institutional missions;

[(6)] (7) The coordinating board for higher education shall require all public two-year and four-year higher education institutions to replicate best practices in remediation identified by the coordinating board and institutions from research undertaken by regional educational laboratories, higher education research organizations, and similar organizations with expertise in the subject, and identify and reduce methods that have been found to be ineffective in preparing or retaining students or that delay students from enrollment in college-level courses;

[(7)] (8) The coordinating board shall establish policies and procedures for institutional decisions relating to the residence status of students;

[(8)] (9) The coordinating board shall establish guidelines to promote and facilitate the transfer of students between institutions of higher education within the state and, with the assistance of the committee on transfer and articulation, shall require all public two-year and four-year higher education institutions to create by July 1, 2014, a statewide core transfer library of at least twenty-five lower division courses across all institutions that are transferable among all public higher education institutions. The coordinating board shall establish policies and procedures to ensure such courses are accepted in transfer among public institutions and treated as equivalent to similar courses at the receiving institutions. The coordinating board shall
develop a policy to foster reverse transfer for any student who has accumulated enough hours in combination with at least one public higher education institution in Missouri that offers an associate degree and one public four-year higher education institution in the prescribed courses sufficient to meet the public higher education institution's requirements to be awarded an associate degree. The department of elementary and secondary education shall maintain the alignment of the assessments found in section 160.518 and successor assessments with the competencies previously established under this subdivision for entry-level collegiate courses in English, mathematics, foreign language, sciences, and social sciences associated with an institution's general education core;

[(9)] (10) The coordinating board shall collect the necessary information and develop comparable data for all institutions of higher education in the state. The coordinating board shall use this information to delineate the areas of competence of each of these institutions and for any other purposes deemed appropriate by the coordinating board;

[(10)] (11) Compliance with requests from the coordinating board for institutional information and the other powers, duties and responsibilities, herein assigned to the coordinating board, shall be a prerequisite to the receipt of any funds which the coordinating board is responsible for administering;

[(11)] (12) If any institution of higher education in this state, public or private, willfully fails or refuses to follow any lawful guideline, policy or procedure established or prescribed by the coordinating board, or knowingly deviates from any such guideline, or knowingly acts without coordinating board approval where such approval is required, or willfully fails to comply with any other lawful order of the coordinating board, the coordinating board may, after a public hearing, withhold or direct to be withheld from that institution any funds the disbursement of which is subject to the control of the coordinating board, or may remove the approval of the institution as an approved institution within the meaning of section 173.1102. If any such public institution willfully disregards board policy, the commissioner of higher education may order such institution to remit a fine in an amount not to exceed one percent of the institution's current fiscal year state operating appropriation to the board. The board shall hold such funds until such time that the institution, as determined by the commissioner of higher education, corrects the violation, at which time the board shall refund such amount to the institution. If the commissioner determines that the institution has not redressed the violation within one year, the fine amount shall be deposited into the general revenue fund, unless the institution appeals such decision to the full coordinating board, which shall have the authority to make a binding and final decision, by means of a majority vote, regarding the matter. However, nothing in this section shall prevent any institution of higher education in this state from presenting additional
budget requests or from explaining or further clarifying its budget requests to the governor or the
general assembly;

(13) In recognition of institutions that meet the requirements of subdivision (2),
(3), or (4) of subsection 1 of section 173.616, are established by name as an educational
institution in Missouri, and are authorized to operate programs beyond secondary education for
purposes of authorization under 34 CFR 600.9, the coordinating board for higher education shall
maintain and publish on its website a list of such postsecondary educational institutions; and

(14) (a) As used in this subdivision, the term "out-of-state public institution of
higher education" shall mean an education institution located outside of Missouri that:
a. Is controlled or administered directly by a public agency or political subdivision or is
classified as a public institution by the state;
b. Receives appropriations for operating expenses directly or indirectly from a state other
than Missouri;
c. Provides a postsecondary course of instruction at least six months in length leading
to or directly creditable toward a degree or certificate;
d. Meets the standards for accreditation by an accrediting body recognized by the United
States Department of Education or any successor agency; and
e. Permits faculty members to select textbooks without influence or pressure by any
religious or sectarian source.

(b) No later than July 1, 2008, the coordinating board shall promulgate rules regarding:
a. The board's approval process of proposed new degree programs and course offerings
by any out-of-state public institution of higher education seeking to offer degree programs or
course work within the state of Missouri; and
b. The board's approval process of degree programs and courses offered by any
out-of-state public institutions of higher education that, prior to July 1, 2008, were approved by
the board to operate a school in compliance with the provisions of sections 173.600 to 173.618.
The rules shall ensure that, as of July 1, 2008, all out-of-state public institutions seeking to offer
degrees and courses within the state of Missouri are evaluated in a manner similar to Missouri
public higher education institutions. Such out-of-state public institutions shall be held to
standards no lower than the standards established by the coordinating board for program approval
and the policy guidelines of the coordinating board for data collection, cooperation, and
resolution of disputes between Missouri institutions of higher education under this section. Any
such out-of-state public institutions of higher education wishing to continue operating within this
state must be approved by the board under the rules promulgated under this subdivision. The
coordinating board may charge and collect fees from out-of-state public institutions to cover the
costs of reviewing and assuring the quality of programs offered by out-of-state public
institutions. Any rule or portion of a rule, as that term is defined in section 536.010, that is
created under the authority delegated in this section shall become effective only if it complies
with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028.
This section and chapter 536 are nonseverable and if any of the powers vested with the general
assembly under chapter 536 to review, to delay the effective date, or to disapprove and annul a
rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule
proposed or adopted after August 28, 2007, shall be invalid and void.

(c) Nothing in this subdivision or in section 173.616 shall be construed or interpreted
so that students attending an out-of-state public institution are considered to be attending a
Missouri public institution of higher education for purposes of obtaining student financial
assistance.

3. The coordinating board shall meet at least four times annually with an advisory
committee who shall be notified in advance of such meetings. The coordinating board shall have
exclusive voting privileges. The advisory committee shall consist of thirty-two members, who
shall be the president or other chief administrative officer of the University of Missouri; the
chancellor of each campus of the University of Missouri; the president of each state-supported
four-year college or university, including Harris-Stowe State University, Missouri Southern State
University, Missouri Western State University, and Lincoln University; the president of State
Technical College of Missouri; the president or chancellor of each public community college
district; and representatives of each of five accredited private institutions selected biennially,
under the supervision of the coordinating board, by the presidents of all of the state's privately
supported institutions; but always to include at least one representative from one privately
supported community college, one privately supported four-year college, and one privately
supported university. The conferences shall enable the committee to advise the coordinating
board of the views of the institutions on matters within the purview of the coordinating board.

4. The University of Missouri, Lincoln University, and all other state-governed colleges
and universities, chapters 172, 174, 175, and others, are transferred by type III transfers to the
department of higher education subject to the provisions of subsection 2 of this section.

5. The state historical society, chapter 183, is transferred by type III transfer to the
University of Missouri.

6. The state anatomical board, chapter 194, is transferred by type II transfer to the
department of higher education.

7. All the powers, duties and functions vested in the division of public schools and state
board of education relating to community college state aid and the supervision, formation of
districts and all matters otherwise related to the state's relations with community college districts
and matters pertaining to community colleges in public school districts, chapters 163, 178, and
others, are transferred to the coordinating board for higher education by type I transfer. 6. An eligible child or spouse who is a recipient of a grant may transfer from one approved public or private institution of postsecondary education to another without losing his entitlement under this section. The board shall make necessary adjustments in the amount of the grant. If a grant recipient at anytime withdraws from the institution of postsecondary education so that under the rules and regulations of that institution he is entitled to a refund of any tuition, fees, or other charges, the institution shall pay the portion of the refund to which he is entitled attributable to the grant for that semester or similar grading period to the board.

7. If an eligible child or spouse is granted financial assistance under any other student aid program, public or private, the full amount of such aid shall be reported to the board by the institution and the eligible child or spouse.
8. Nothing in this section shall be construed as a promise or guarantee that a person will be admitted to an institution of postsecondary education or to a particular institution of postsecondary education, will be allowed to continue to attend an institution of postsecondary education after having been admitted, or will be graduated from an institution of postsecondary education.

173.1003. 1. Beginning with the 2008-09 academic year, each approved public institution, as such term is defined in section 173.1102, shall submit its percentage change in the amount of tuition from the current academic year compared to the upcoming academic year to the coordinating board for higher education by July first preceding such academic year.

2. For institutions whose tuition is greater than the average tuition, the percentage change in tuition shall not exceed the percentage change of the consumer price index [or zero, whichever is greater] plus a percentage that would produce an increase in net tuition revenue no greater than the dollar amount by which the state operating support was reduced for the prior fiscal year, if applicable.

3. For institutions whose tuition is less than the average tuition, the dollar increase in tuition shall not exceed the product of [zero or] the percentage change of the consumer price index[, whichever is greater,] times the average tuition, plus a percentage that would produce an increase in net tuition revenue no greater than the dollar amount by which the state operating support was reduced for the prior fiscal year, if applicable.

4. If a tuition increase exceeds the limits set forth in subsections 2 or 3 of this section, then the institution shall be subject to the provisions of subsection 5 of this section.

5. Any institution that exceeds the limits set forth in subsections 2 or 3 of this section shall remit to the board an amount equal to five percent of its current year state operating [appropriation] support amount which shall be deposited into the general revenue fund unless the institution appeals, within thirty days of such notice, to the commissioner of higher education for a waiver of this provision. The commissioner, after meeting with appropriate representatives of the institution, shall determine whether the institution's waiver request is sufficiently warranted, in which case no fund remission shall occur. In making this determination, the factors considered by the commissioner shall include but not be limited to the relationship between state appropriations and the consumer price index and any extraordinary circumstances. If the commissioner determines that an institution's tuition percent increase is not sufficiently
warranted and declines the waiver request, the commissioner shall recommend to the full
coordinating board that the institution shall remit an amount up to five percent of its current year
state operating appropriation to the board, which shall deposit the amount into the general
revenue fund. The coordinating board shall have the authority to make a binding and final
decision, by means of a majority vote, regarding the matter.

6. The provisions of subsections 2 to 5 of this section shall not apply to any community
college unless any such community college's tuition for any Missouri resident is greater than or
equal to the average tuition. If the provisions of subsections 2 to 5 of this section apply to a
community college, subsections 2 to 5 of this section shall only apply to out-of-district Missouri
resident tuition.

7. For purposes of this section, the term "average tuition" shall be the sum of the tuition
amounts for the previous academic year for each approved public institution that is not excluded
under subsection 6 of this section, divided by the number of such institutions. The term
"consumer price index" shall mean the Consumer Price Index for All Urban Consumers (CPI-U),
1982-1984 = 100, not seasonally adjusted, as defined and officially recorded by the United States
Department of Labor, or its successor agency, from January first of the current year compared
to January first of the preceding year. The term "state appropriation" shall mean the state
operating appropriation for the prior year per full-time equivalent student for the prior year
compared to state operating appropriation for the current year per full-time equivalent student
for the prior year. The term "tuition" shall mean the amount of tuition and required fees,
excluding any fee established by the student body of the institution, charged to a Missouri
resident undergraduate enrolled in fifteen credit hours at the institution. The term "state
operating support" shall mean the funding actually disbursed from state operating
appropriations to approved public institutions and shall not include appropriations or
disbursement for special initiatives or specific program additions or expansions. The term
"net tuition revenue" shall mean the net amount of resident undergraduate tuition and
required fees reduced by institutional aid only. "Institutional aid" includes all aid
awarded to the student by the student's institution of higher education only from such
institutions's funds. "Institutional aid" does not include the following: Pell Grants; state
awards such as the Missouri higher education academic scholarship program, the A+
schools program, and the access Missouri financial aid program; foundation scholarships;
third party scholarships; employee and dependent fee waivers; and student loans.

8. Nothing in this section shall be construed to usurp or preclude the ability of the
governing board of an institution of higher education to establish tuition or required fee rates.

173.1101. The financial assistance program established under sections 173.1101 to
173.1107 shall be hereafter known as the "Access Missouri Financial Assistance Program". The
coordinating board and all approved private, [and] public, and virtual institutions in this state shall refer to the financial assistance program established under sections 173.1101 to 173.1107 as the access Missouri student financial assistance program in their scholarship literature, provided that no institution shall be required to revise or amend any such literature to comply with this section prior to the date such literature would otherwise be revised, amended, reprinted or replaced in the ordinary course of such institution's business.

173.1102. 1. As used in sections 173.1101 to 173.1107, unless the context requires otherwise, the following terms mean:

   (1) "Academic year", the period from July first of any year through June thirtieth of the following year;

   (2) "Approved private institution", a nonprofit institution, dedicated to educational purposes, located in Missouri which:

      (a) Is directly controlled or administered by a public agency or political subdivision;

      (b) Receives appropriations directly or indirectly from the general assembly for operating expenses;

      (c) Provides a postsecondary course of instruction at least six months in length leading to or directly creditable toward a degree or certificate;

does not discriminate in the hiring of administrators, faculty and staff or in the admission of students on the basis of race, color, religion, sex, or national origin and is otherwise in compliance with the Federal Civil Rights Acts of 1964 and 1968 and executive orders issued pursuant thereto;

(7) "Financial assistance", an amount of money paid by the state of Missouri to a qualified applicant under sections 173.1101 to 173.1107;

(8) "Full-time student", an individual who is enrolled in and is carrying a sufficient number of credit hours or their equivalent at an approved private, public, or virtual...
2. The failure of an approved virtual institution to continuously maintain all of the requirements in subdivision (4) of subsection 1 of this section shall preclude such institution's students or applicants from being eligible for assistance under sections 173.1104 and 173.1105.

173.1104. 1. An applicant shall be eligible for initial or renewed financial assistance only if, at the time of application and throughout the period during which the applicant is receiving such assistance, the applicant:
   (1) Is a citizen or a permanent resident of the United States;
   (2) Is a resident of the state of Missouri, as determined by reference to standards promulgated by the coordinating board;
   (3) Is enrolled, or has been accepted for enrollment, as a full-time undergraduate student in an approved private, [or] public, or virtual institution; and
   (4) Is not enrolled or does not intend to use the award to enroll in a course of study leading to a degree in theology or divinity.

2. If an applicant is found guilty of or pleads guilty to any criminal offense during the period of time in which the applicant is receiving financial assistance, such applicant shall not be eligible for renewal of such assistance, provided such offense would disqualify the applicant from receiving federal student aid under Title IV of the Higher Education Act of 1965, as amended.

3. Financial assistance shall be allotted for one academic year, but a recipient shall be eligible for renewed assistance until he or she has obtained a baccalaureate degree, provided such financial assistance shall not exceed a total of ten semesters or fifteen quarters or their equivalent. Standards of eligibility for renewed assistance shall be the same as for an initial award of financial assistance, except that for renewal, an applicant shall demonstrate a grade-point average of two and five-tenths on a four-point scale, or the equivalent on another scale. This subsection shall be construed as the successor to section 173.215 for purposes of eligibility requirements of other financial assistance programs that refer to section 173.215.

173.1105. 1. An applicant who is an undergraduate postsecondary student at an approved private, [or] public, or virtual institution and who meets the other eligibility criteria shall be eligible for financial assistance, with a minimum and maximum award amount as follows:
(1) For academic years 2010-11, 2011-12, 2012-13, and 2013-14:
   (a) One thousand dollars maximum and three hundred dollars minimum for students
       attending institutions classified as part of the public two-year sector;
   (b) Two thousand one hundred fifty dollars maximum and one thousand dollars
       minimum for students attending institutions classified as part of the public four-year sector,
       including State Technical College of Missouri; and
   (c) Four thousand six hundred dollars maximum and two thousand dollars minimum for
       students attending approved private institutions;

(2) For the 2014-15 academic year and subsequent years:
   (a) One thousand three hundred dollars maximum and three hundred dollars minimum
       for students attending institutions classified as part of the public two-year sector; and
   (b) Two thousand eight hundred fifty dollars maximum and one thousand five hundred
       dollars minimum for students attending institutions classified as part of the public four-year
       sector, including State Technical College of Missouri, or approved virtual institutions.

2. All students with an expected family contribution of twelve thousand dollars or less
   shall receive at least the minimum award amount for his or her institution. Maximum award
   amounts for an eligible student with an expected family contribution above seven thousand
   dollars shall be reduced by ten percent of the maximum expected family contribution for his or
   her increment group. Any award amount shall be reduced by the amount of a student's payment
   from the A+ schools program or any successor program to it. For purposes of this subsection,
   the term "increment group" shall mean a group organized by expected family contribution in five
   hundred dollar increments into which all eligible students shall be placed.

3. If appropriated funds are insufficient to fund the program as described, the maximum
   award shall be reduced across all sectors by the percentage of the shortfall. If appropriated funds
   exceed the amount necessary to fund the program, the additional funds shall be used to increase
   the number of recipients by raising the cutoff for the expected family contribution rather than by
   increasing the size of the award.

4. Every three years, beginning with academic year 2009-10, the award amount may be
   adjusted to increase no more than the Consumer Price Index for All Urban Consumers (CPI-U),
   1982-1984 = 100, not seasonally adjusted, as defined and officially recorded by the United States
   Department of Labor, or its successor agency, for the previous academic year. The coordinating
   board shall prepare a report prior to the legislative session for use of the general assembly and
   the governor in determining budget requests which shall include the amount of funds necessary
   to maintain full funding of the program based on the baseline established for the program upon
   the effective date of sections 173.1101 to 173.1107. Any increase in the award amount shall not
become effective unless an increase in the amount of money appropriated to the program necessary to cover the increase in award amount is passed by the general assembly.

173.1107. A recipient of financial assistance may transfer from one approved public, private, or virtual institution to another without losing eligibility for assistance under sections 173.1101 to 173.1107, but the coordinating board shall make any necessary adjustments in the amount of the award. If a recipient of financial assistance at any time is entitled to a refund of any tuition, fees, or other charges under the rules and regulations of the institution in which he or she is enrolled, the institution shall pay the portion of the refund which may be attributed to the state grant to the coordinating board. The coordinating board will use these refunds to make additional awards under the provisions of sections 173.1101 to 173.1107.

173.1450. 1. The provisions of this section shall be known and may be referred to as the "College Credit Disclosure Act".

2. Except as provided in subsection 4 of this section, institutions of higher education located within the state that grant college-level credit but are not accredited by a regional accrediting body recognized by the United States Department of Education shall disclose during the admission application process, in writing, that the institution has not achieved regional accreditation recognized by the department.

3. The disclosure required in subsection 2 of this section shall be provided to an enrolling student prior to registering for any class granting credit, and the student shall sign the disclosure, either in writing or electronically, acknowledging receipt of such disclosure. The disclosure provided shall contain the following wording, in no less than fourteen-point font:

"College level credits earned at (Institution name) may not be transferrable to other higher learning/postsecondary learning institutions, including, but not limited to, universities, colleges, junior colleges, community colleges, or trade schools accredited by a regional accrediting body recognized by the United States Department of Higher Education.

Contact the institution receiving the transferred credit(s) for more information."

4. Notwithstanding any provision of this section or any other law, institutions of higher education affiliated with religious organizations that are accredited by a national faith-related accrediting organization recognized by the United States Department of Education shall be exempt from the disclosure requirements of this section.

174.160. The board of regents of each state college and each state teachers college shall have power and authority to confer upon students, by diploma under the common seal, such degrees as are usually granted by such colleges, and additional degrees only when authorized by the coordinating board for higher education in circumstances in which offering such
degree would not unnecessarily duplicate an existing program, collaboration is not feasible or a viable means of meeting the needs of students and employers, and the institution has the academic and financial capacity to offer the program in a high-quality manner. In the case of nonresearch doctoral degrees in allied health professions, an institution may be authorized to offer such degree independently if offering it in collaboration with another institution would not increase the quality of the program or allow it to be delivered more efficiently. Such boards shall have the power and authority to confer degrees in engineering only in collaboration with the University of Missouri, provided that such collaborative agreements are approved by the governing board of each institution and that in these instances the University of Missouri will be the degree-granting institution. Should the University of Missouri decline to collaborate in the offering of such programs, one of these institutions may seek approval of the program through the coordinating board for higher education's comprehensive review process when doing so would not unnecessarily duplicate an existing program, collaboration is not feasible or a viable means of meeting the needs of students and employers, and the institution has the academic and financial capacity to offer the program in a high-quality manner.

174.225. [Missouri State University] No state college or university shall [not] seek the land grant designation held by Lincoln University and the University of Missouri [nor shall Missouri State University seek] or the research designation currently held by the University of Missouri. [Missouri State University shall offer engineering programs and doctoral programs only in cooperation with the University of Missouri; provided that such cooperative agreements are approved by the governing boards of each institution and that in these instances the University of Missouri shall be the degree-granting institution. Should the University of Missouri decline to cooperate in the offering of such programs within one year of the formal approval of the coordinating board, Missouri State University may cooperate with another educational institution, or directly offer the degree. In all cases, the offering of such degree programs shall be subject to the approval of the coordinating board for higher education, or any other higher education governing authority that may replace it. Missouri State University may offer doctoral programs in audiology and physical therapy. Missouri State University shall neither offer nor duplicate the professional programs at the University of Missouri including, without limitation, those that train medical doctors, pharmacists, dentists, veterinarians, optometrists, lawyers, and architects. The alteration of the name of Southwest Missouri State University to Missouri State University shall not entitle Missouri State University to any additional state funding.]

174.231. 1. On and after August 28, 2005, the institution formerly known as Missouri Southern State College located in Joplin, Jasper County, shall be known as "Missouri Southern
State University". Missouri Southern State University is hereby designated and shall hereafter be operated as a statewide institution of international or global education. The Missouri Southern State University is hereby designated a moderately selective institution which shall provide associate degree programs except as provided in subsection 2 of this section, baccalaureate degree programs, and graduate degree programs pursuant to subdivisions (1) and (2) of subsection 2 of section 173.005. The institution shall develop such academic support programs and public service activities it deems necessary and appropriate to establish international or global education as a distinctive theme of its mission. [Consistent with the provisions of section 174.324, Missouri Southern State University is authorized to offer master's level degree programs in accountancy, subject to the approval of the coordinating board for higher education as provided in subdivision (1) of subsection 2 of section 173.005.]

2. As of July 1, 2008, Missouri Southern State University shall discontinue any and all associate degree programs unless the continuation of such associate degree programs is approved by the coordinating board for higher education pursuant to subdivision (1) of subsection 2 of section 173.005.

174.251. 1. On and after August 28, 2005, the institution formerly known as Missouri Western State College at St. Joseph, Buchanan County, shall hereafter be known as the "Missouri Western State University". Missouri Western State University is hereby designated and shall hereafter be operated as a statewide institution of applied learning. The Missouri Western State University is hereby designated an open enrollment institution which shall provide associate degree programs except as provided in subsection 2 of this section, baccalaureate degree programs, and graduate degree programs pursuant to subdivisions (1) and (2) of subsection 2 of section 173.005. The institution shall develop such academic support programs as it deems necessary and appropriate to an open enrollment institution with a statewide mission of applied learning. [Consistent with the provisions of section 174.324, Missouri Western State University is authorized to offer master's level degree programs in accountancy, subject to the approval of the coordinating board for higher education as provided in subdivision (1) of subsection 2 of section 173.005.]

2. As of July 1, 2010, Missouri Western State University shall discontinue any and all associate degree programs unless the continuation of such associate degree program is approved by the coordinating board for higher education pursuant to subdivision subsection 2 of section 173.005.

174.500. 1. The board of governors of Missouri State University is authorized to continue the program of higher education at West Plains, Missouri, which was begun in 1963 and which shall be known as the "West Plains Campus of Missouri State University". Missouri
4 State University may include an appropriation request for the branch facility at West Plains in its operating budget.

2. The West Plains campus of Missouri State University may offer baccalaureate degrees only when authorized by the coordinating board for higher education in circumstances where the level of education required in a field for accreditation or licensure increases to the baccalaureate degree level or, in the case of applied bachelor's degrees, the level of education required for employment in a field increases to that level, and when doing so would not unnecessarily duplicate an existing program, collaboration with a university is not feasible or the approach is not a viable means of meeting the needs of students and employers, and the institution has the academic and financial capacity to offer the program in a high-quality manner. Quality for such baccalaureate degree programs shall be evaluated at least in part by delivery of upper-level coursework or competencies, and defined by accreditation or compliance with the Higher Learning Commission standards for bachelor's degrees.

178.636. 1. State Technical College of Missouri shall be a special purpose institution that shall make available to students from all areas of the state exceptional educational opportunities through highly specialized and advanced technical education and training at the certificate and associate degree level in both emerging and traditional technologies with particular emphasis on technical and vocational programs not commonly offered by community colleges or area vocational technical schools. Primary consideration shall be placed on the industrial and technological manpower needs of the state. In addition, State Technical College of Missouri is authorized to assist the state in economic development initiatives and to facilitate the transfer of technology to Missouri business and industry directly through the graduation of technicians in advanced and emerging disciplines and through technical assistance provided to business and industry. State Technical College of Missouri is authorized to provide technical assistance to area vocational technical schools and community colleges through supplemental on-site instruction and distance learning as such area vocational technical schools and community colleges deem appropriate.

granting of certificates, diplomas, and applied science associate degrees, or a combination thereof[...but not including]. Quality for such baccalaureate degree programs shall be evaluated at least in part by delivery of upper-level coursework or competencies, and defined by accreditation or compliance with the Higher Learning Commission standards for bachelor's degrees. State Technical College of Missouri shall also continue its role as a recognized area vocational technical school as provided by policies and procedures of the state board of education.

436.218. As used in sections 436.215 to 436.272, the following terms mean:

(1) "Agency contract", an agreement in which a student athlete authorizes a person to negotiate or solicit on behalf of the student athlete a professional sports services contract or an endorsement contract;
