“304.015. 1. All vehicles not in motion shall be placed with their right side as near the right-hand side of the highway as practicable, except on streets of municipalities where vehicles are obliged to move in one direction only or parking of motor vehicles is regulated by ordinance.

2. Upon all public roads or highways of sufficient width a vehicle shall be driven upon the right half of the roadway, except as follows:

(1) When overtaking and passing another vehicle proceeding in the same direction pursuant to the rules governing such movement;

(2) When placing a vehicle in position for and when such vehicle is lawfully making a left turn in compliance with the provisions of sections 304.014 to 304.025 or traffic regulations thereunder or of municipalities;

(3) When the right half of a roadway is closed to traffic while under construction or repair;

(4) Upon a roadway designated by local ordinance as a one-way street and marked or signed for one-way traffic; **and**

(5) Motorcycles and motortricycles may operate on the shoulder of state limited access highways and interstate highways when traffic has slowed to below thirty miles per hour. Motorcycles and motortricycles operated on a shoulder shall not exceed the lesser of thirty-five miles per hour or ten miles per hour in excess of the flow of traffic. This subdivision shall not be construed to permit operation of a motor vehicle in excess of a posted speed limit.

3. It is unlawful to drive any vehicle upon any highway or road which has been divided into two or more roadways by means of a physical barrier or by means of a dividing section or delineated by curbs, lines or other markings on the roadway, except to the right of such barrier or dividing section, or to make any left turn or semicircular or U-turn on any such divided highway, except at an intersection or interchange or at any signed location designated by the state highways and transportation commission or the department of transportation. The provisions of this subsection shall not apply to emergency vehicles, law enforcement vehicles or to vehicles owned by the commission or the department.

4. The authorities in charge of any highway or the state highway patrol may erect signs temporarily designating lanes to be used by traffic moving in a particular direction, regardless of the center line of the highway, and all members of the Missouri highway patrol and other peace officers may direct traffic in conformance with such signs. When authorized signs have been erected designating off-center traffic lanes, no person shall disobey the instructions given by such signs.

5. Whenever any roadway has been divided into three or more clearly marked lanes for traffic, the following rules in addition to all others consistent herewith shall apply:

(1) A vehicle shall be driven as nearly as practicable entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety;

(2) Upon a roadway which is divided into three lanes a vehicle shall not be driven in the center lane, except when overtaking and passing another vehicle where the roadway ahead is clearly visible and such center lane is clear of traffic within a safe distance, or in preparation for a left turn or where such center lane is at the time allocated exclusively to traffic moving in the direction the vehicle is proceeding and is sign-posted to give notice of such allocation;

(3) Upon all highways any vehicle proceeding at less than the normal speed of traffic thereon shall be driven in the right-hand lane for traffic or as close as practicable to the right-hand edge or curb, except as otherwise provided in sections 304.014 to 304.025;

(4) Official signs may be erected by the highways and transportation commission or the highway patrol may place temporary signs directing slow-moving traffic to use a designated lane or allocating specified

lanes to traffic moving in the same direction and drivers of vehicles shall obey the directions of every such sign;

(5) Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and except when a roadway has been divided into traffic lanes, each driver shall give to the other at least one-half of the main traveled portion of the roadway whenever possible.

6. All vehicles in motion upon a highway having two or more lanes of traffic proceeding in the same direction shall be driven in the right-hand lane except when overtaking and passing another vehicle or when preparing to make a proper left turn or when otherwise directed by traffic markings, signs or signals.

7. All trucks registered for a gross weight of more than forty-eight thousand pounds shall not be driven in the far left-hand lane upon all interstate highways, freeways, or expressways within urbanized areas of the state having three or more lanes of traffic proceeding in the same direction. This restriction shall not apply when:

(1) It is necessary for the operator of the truck to follow traffic control devices that direct use of a lane other than the right lane; or

(2) The right half of a roadway is closed to traffic while under construction or repair.

8. As used in subsection 7 of this section, “truck” means any vehicle, machine, tractor, trailer, or semitrailer, or any combination thereof, propelled or drawn by mechanical power and designed for or used in the transportation of property upon the highways. The term “truck” also includes a commercial motor vehicle as defined in section 301.010.

9. Violation of this section shall be deemed a class C misdemeanor unless such violation causes an immediate threat of an accident, in which case such violation shall be deemed a class B misdemeanor, or unless an accident results from such violation, in which case such violation shall be deemed a class A misdemeanor.”; and

Further amend said bill and section, page 10, line 13, by inserting after all of said line the following:

“167.735. 1. Notwithstanding the provisions of section 167.450 to the contrary, beginning July 1, 2019, every public school in the metropolitan school district or in any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county, including charter schools, shall incorporate a response-to-intervention tiered approach to reading instruction to focus resources on students who are determined by their school to need additional or changed instruction to make progress as readers. At a minimum, the reading levels of students in kindergarten through tenth grade shall be assessed at the beginning and middle of the school year, and students who score below district benchmarks shall be provided with intensive, systematic reading instruction.

2. Beginning January 1, 2019, and every January first thereafter, every public school in the metropolitan school district or in any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county, including charter schools, shall prepare a personalized learning plan for any kindergarten or first grade student whose most recent school-wide reading assessment result shows the student is working below grade level unless the student has been determined by other means in the current school year to be working at grade level or above. The provisions of this section shall not apply to students otherwise served under an individualized education program, to students receiving services through a plan prepared under Section 504 of the Rehabilitation Act of 1973 that includes an element addressing reading below grade level, or to students determined to have limited English proficiency.

3. For any student in a metropolitan school district or in any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county that is required by this section to have a personalized learning plan, the student’s main teacher shall consult with the student’s parent or guardian during the preparation of the plan and shall consult, as appropriate, any district personnel or department of elementary and secondary education personnel with necessary expertise to develop such a plan. The school shall require the written consent of the parent or guardian to implement the plan; however, if the school is unsuccessful in contacting the parent or guardian by January fifteenth, the school may send a letter by certified mail to the student’s last known address stating its intention to implement the plan by February first.

4. After implementing the personalized learning plan through the end of the student’s first grade year, the school shall refer any student who still performs below grade level for assessment to determine if an individualized education program is necessary for the student. A student who is assessed as not needing an individualized education program but who is reading below grade level

at the end of the first grade shall continue to be required to have a personalized learning plan until the student is reading at grade level.

5. Notwithstanding any provision of law to the contrary, any student in a metropolitan or in any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county who is not reading at second-grade level by the end of second grade may be promoted to the third grade only under one of the following circumstances:

(1) The school provides additional reading instruction during the summer and demonstrates the student has the abilities and the knowledge to successfully learn in third grade at the end of the summer school;

(2) The school provides a combined classroom in which the student continues with the same teacher, sometimes referred to as “looping”. If the student in such a classroom is not reading at third-grade level by the end of third grade, the student shall be retained in third grade; or

(3) The student’s parents or guardians have signed a notice that they prefer to have their student promoted although the student is reading below grade level. The school shall have the final determination on the issue of retention.

6. The metropolitan school district, any urban school district containing most or all of a home rule city with more than four hundred thousand inhabitants and located in more than one county, and each charter school located in such districts shall provide in its annual report card under section 160.522 the numbers and percentages by grade from first grade to tenth grade in each school of any students at any grade level who have been promoted who have been determined as reading below grade level, except that no reporting shall permit the identification of an individual student.

7. School districts and charter schools under this section may provide for a student promotion and retention program and a reading instruction program that are equivalent to those which are described in this section with the oversight and approval of the department of elementary and secondary education.”; and
