

Journal of the Senate

FIRST REGULAR SESSION

SIXTY-FIFTH DAY—THURSDAY, MAY 9, 2019

The Senate met pursuant to adjournment.

President Kehoe in the Chair.

Reverend Carl Gauck offered the following prayer:

“Two are better than one, because they have a good reward for their toil.” (Ecclesiastes 4:9)

O Lord, in our attempt to get things right we know that having others help us we can see more clearly what is good and what is amidst in what we want to accomplish. Let us always be open to the varied relationships among us and the benefits that such relationships add to our lives and can bring to theirs. May we see the balance and harmony others add in our work and daily living, O God. And may we seek the stability that comes from friendship and partnerships. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

“479.020. 1. Any city, town or village, including those operating under a constitutional or special charter, may, and cities with a population of four hundred thousand or more shall, provide by ordinance or charter for the selection, tenure and compensation of a municipal judge or judges consistent with the provisions of this chapter who shall have original jurisdiction to hear and determine all violations against the ordinances of the municipality. The method of selection of municipal judges shall be provided by charter or ordinance. Each municipal judge shall be selected for a term of not less than two years as provided by charter or ordinance.

2. Except where prohibited by charter or ordinance, the municipal judge may be a part-time judge and may serve as municipal judge in more than one municipality.

3. No person shall serve as a municipal judge of any municipality with a population of seven thousand five hundred or more or of any municipality in a county of the first class with a charter form of government unless the person is licensed to practice law in this state unless, prior to January 2, 1979, such person has served as municipal judge of that same municipality for at least two years.

4. Notwithstanding any other statute, a municipal judge need not be a resident of the municipality or of the circuit in which the municipal judge serves except where ordinance or charter provides otherwise. Municipal judges shall be residents of Missouri.

5. Judges selected under the provisions of this section shall be municipal judges of the circuit court and shall be divisions of the circuit court of the circuit in which the municipality, or major geographical portion thereof, is located. The judges of these municipal divisions shall be subject to the rules of the circuit court which are not inconsistent with the rules of the supreme court. The presiding judge of the circuit shall have general administrative authority over the judges and court personnel of the municipal divisions within the circuit.

6. No municipal judge shall hold any other office in the municipality which the municipal judge serves

as judge. The compensation of any municipal judge and other court personnel shall not be dependent in any way upon the number of cases tried, the number of guilty verdicts reached or the amount of fines imposed or collected.

7. Municipal judges shall be at least twenty-one years of age. No person shall serve as municipal judge after that person has reached that person's seventy-fifth birthday.

8. Within six months after selection for the position, each municipal judge who is not licensed to practice law in this state shall satisfactorily complete the course of instruction for municipal judges prescribed by the supreme court. The state courts administrator shall certify to the supreme court the names of those judges who satisfactorily complete the prescribed course. If a municipal judge fails to complete satisfactorily the prescribed course within six months after the municipal judge's selection as municipal judge, the municipal judge's office shall be deemed vacant and such person shall not thereafter be permitted to serve as a municipal judge, nor shall any compensation thereafter be paid to such person for serving as municipal judge.

9. No municipal judge shall serve as a municipal judge in more than five municipalities at one time. **A court that serves more than one municipality shall be treated as a single municipality for the purposes of this subsection.**

479.353. **1.** Notwithstanding any provisions to the contrary, the following conditions shall apply to minor traffic violations and municipal ordinance violations:

(1) The court shall not assess a fine, if combined with the amount of court costs, totaling in excess of:

(a) Two hundred twenty-five dollars for minor traffic violations; and

(b) For municipal ordinance violations committed within a twelve-month period beginning with the first violation: two hundred dollars for the first municipal ordinance violation, two hundred seventy-five dollars for the second municipal ordinance violation, three hundred fifty dollars for the third municipal ordinance violation, and four hundred fifty dollars for the fourth and any subsequent municipal ordinance violations;

(2) The court shall not sentence a person to confinement, except the court may sentence a person to confinement for any violation involving alcohol or controlled substances, violations endangering the health or welfare of others, or eluding or giving false information to a law enforcement officer;

(3) A person shall not be placed in confinement for failure to pay a fine unless such nonpayment violates terms of probation or unless the due process procedures mandated by Missouri supreme court rule 37.65 or its successor rule are strictly followed by the court;

(4) Court costs that apply shall be assessed against the defendant unless the court finds that the defendant is indigent based on standards set forth in determining such by the presiding judge of the circuit. Such standards shall reflect model rules and requirements to be developed by the supreme court; and

(5) No court costs shall be assessed if the defendant is found to be indigent under subdivision (4) of this section or if the case is dismissed.

2. If an individual has been held in custody on a notice to show cause or an arrest warrant for an underlying minor traffic violation, the court, on its own motion or on the motion of any interested party, may review the original fine and sentence and waive or reduce such fine or sentence if the court finds it reasonable given the circumstances of the case.

479.354. For any notice to appear, citation, or summons on a minor traffic violation, the date and time the defendant is to appear in court shall be given when such notice to appear, citation, or summons is first provided to the defendant. If said notice is not properly given, the court shall reissue the notice, citation, or summons to the defendant and shall specifically set forth the date and time for the defendant to appear.”; and

In addition to such charge, the sheriff shall be entitled to receive for each mile actually traveled in serving any summons, writ, subpoena or other order of court the rate prescribed by the Internal Revenue Service for all allowable expenses for motor vehicle use expressed as an amount per mile, provided that such mileage shall not be charged for more than one subpoena or summons or other writ served in the same cause on the same trip. All of such charges shall be received by the sheriff who is requested to perform the service. Except as otherwise provided by law, all charges made pursuant to this section shall be collected by the court clerk as court costs and are payable prior to the time the service is rendered; provided that if the amount of such charge cannot be readily determined, then the sheriff shall receive a deposit based upon the likely amount of such charge, and the balance of such charge shall be payable immediately upon ascertainment of the proper amount of said charge. A sheriff may refuse to perform any service in any action or proceeding, other than when court costs are waived as provided by law, until the charge provided by this section is paid. Failure to receive the charge shall not affect the validity of the service.

2. The sheriff shall be allowed for each mile, going and returning from the courthouse of the county in which he resides to the place where the court is held, the rate prescribed by the Internal Revenue Service for all allowable expenses for motor vehicle use expressed as an amount per mile. The provisions of this subsection shall not apply to garnishment proceeds.

3. The sheriff upon the receipt of the charge herein provided for shall pay into the treasury of the county

any and all charges received pursuant to the provisions of this section. The funds collected pursuant to this section, not to exceed fifty thousand dollars in any calendar year, shall be held in a fund established by the county treasurer, which may be expended at the discretion of the sheriff for the furtherance of the sheriff's set duties. Any such funds in excess of fifty thousand dollars in any calendar year shall be placed to the credit of the general revenue fund of the county. Moneys in the fund shall be used only for the procurement of services and equipment to support the operation of the sheriff's office. Moneys in the fund established pursuant to this subsection shall not lapse to the county general revenue fund at the end of any county budget or fiscal year.

4. Notwithstanding the provisions of subsection 3 of this section to the contrary, the sheriff, **or any other person specially appointed to serve in a county that receives funds under section 57.278**, shall receive ten dollars for service of any summons, writ, subpoena, or other order of the court included under subsection 1 of this section, in addition to the charge for such service that each sheriff receives under subsection 1 of this section. The money received by the sheriff, **or any other person specially appointed to serve in a county that receives funds under section 57.278**, under this subsection shall be paid into the county treasury and the county treasurer shall make such money payable to the state treasurer. 2. Within the limits of the amounts appropriated therefor, the coordinating board for higher education shall award annually up to twenty-five grants to survivors of qualifying military members to attend institutions of postsecondary education in this state, which shall continue to be awarded annually to eligible recipients as long as the recipient achieves and maintains a cumulative grade point average of at least two and one-half on a four-point scale, or its equivalent. (3) The actual cost of books, up to a maximum of five hundred dollars per semester.

8. A survivor who is a recipient of a grant may transfer from one approved public institution of postsecondary education to another without losing his or her entitlement under this section. The board shall make necessary adjustments in the amount of the grant. If a grant recipient at any time withdraws from the institution of postsecondary education so that under the rules and regulations of that institution he or she is entitled to a refund of any tuition, fees, room and board, books, or other charges, the institution shall pay the portion of the refund to which he or she is entitled attributable to the grant for that semester or similar grading period to the board.

9. If a survivor is granted financial assistance under any other student aid program, public or private, the full amount of such aid shall be reported to the board by the institution and the eligible survivor.

SENATE AMENDMENT NO. 1

Amend Senate Substitute for Senate Committee Substitute for House Committee Substitute for House

Bill No. 604, Page 18, Section 167.125, Line 1 of said page, by inserting immediately after said line the following:

“171.031. 1. Each school board shall prepare annually a calendar for the school term, specifying the opening date, days of planned attendance, and providing a minimum term of at least one hundred seventy-four days for schools with a five-day school week or one hundred forty-two days for schools with a four-day school week, and one thousand forty-four hours of actual pupil attendance. In school year 2019-20 and subsequent years, one thousand forty-four hours of actual pupil attendance shall be required for the school term with no minimum number of school days. In addition, such calendar shall include six make-up days for possible loss of attendance due to inclement weather as defined in subsection 1 of section 171.033. In school year 2019-20 and subsequent years, such calendar shall include thirty-six make-up hours for possible loss of attendance due to inclement weather, as defined in subsection 1 of section 171.033, with no minimum number of make-up days.

2. Each local school district may set its opening date each year, which date shall be no earlier than [ten] **fourteen** calendar days prior to the first Monday in September. No public school district shall select an earlier start date unless, **for calendars for school years before school year 2020-21**, the district follows the procedure set forth in subsection 3 of this section. **The procedure set forth in subsection 3 of this section shall be unavailable to school districts in preparing their calendars for school year 2020-21 and for subsequent years.**

3. **For calendars for school years before school year 2020-21**, a district may set an opening date that is more than [ten] **fourteen** calendar days prior to the first Monday in September only if the local school board first gives public notice of a public meeting to discuss the proposal of opening school on a date more than [ten] **fourteen** days prior to the first Monday in September, and the local school board holds said meeting and, at the same public meeting, a majority of the board votes to allow an earlier opening date. If all of the previous conditions are met, the district may set its opening date more than [ten] **fourteen** calendar days prior to the first Monday in September. The condition provided in this subsection must be satisfied by the local school board each year that the board proposes an opening date more than [ten] **fourteen** days before the first Monday in September.

4. If any local district violates the provisions of this section, the department of elementary and secondary education shall withhold an amount equal to one quarter of the state funding the district generated under section 163.031 for each date the district was in violation of this section.

5. The provisions of subsections 2 to 4 of this section shall not apply to school districts in which school is in session for twelve months of each calendar year.

6. The state board of education may grant an exemption from this section to a school district that demonstrates highly unusual and extenuating circumstances justifying exemption from the provisions of subsections 2 to 4 of this section. Any exemption granted by the state board of education shall be valid for one academic year only.

171.033. 1. “Inclement weather”, for purposes of this section, shall be defined as ice, snow, extreme cold, flooding, or a tornado, but such term shall not include excessive heat.

2. (1) A district shall be required to make up the first six days of school lost or cancelled due to inclement weather and half the number of days lost or cancelled in excess of six days if the makeup of the

days is necessary to ensure that the district's students will attend a minimum of one hundred forty-two days and a minimum of one thousand forty-four hours for the school year except as otherwise provided in this section. Schools with a four-day school week may schedule such make-up days on Fridays.

(2) Notwithstanding subdivision (1) of this subsection, in school year 2019-20 and subsequent years, a district shall be required to make up the first thirty-six hours of school lost or cancelled due to inclement weather and half the number of hours lost or cancelled in excess of thirty-six if the makeup of the hours is necessary to ensure that the district's students attend a minimum of one thousand forty-four hours for the school year, except as otherwise provided under subsections 3 and 4 of this section.

3. (1) In the 2009-10 school year and subsequent years, a school district may be exempt from the requirement to make up days of school lost or cancelled due to inclement weather in the school district when the school district has made up the six days required under subsection 2 of this section and half the number of additional lost or cancelled days up to eight days, resulting in no more than ten total make-up days required by this section.

(2) In school year 2019-20 and subsequent years, a school district may be exempt from the requirement to make up school lost or cancelled due to inclement weather in the school district when the school district has made up the thirty-six hours required under subsection 2 of this section and half the number of additional lost or cancelled hours up to forty-eight, resulting in no more than sixty total make-up hours required by this section.

4. The commissioner of education may provide, for any school district that cannot meet the minimum school calendar requirement of at least one hundred seventy-four days for schools with a five-day school week or one hundred forty-two days for schools with a four-day school week and one thousand forty-four hours of actual pupil attendance or, in school year 2019-20 and subsequent years, one thousand forty-four hours of actual pupil attendance, upon request, a waiver to be excused from such requirement. This waiver shall be requested from the commissioner of education and may be granted if the school was closed due to circumstances beyond school district control, including inclement weather or fire.

5. For the 2018-2019 school year, a district shall be exempt from the requirements of subsections 2 and 3 of this section, and only be required to make up the first six days of school lost or cancelled due to inclement weather.

Section B. Because of the high number of school days lost due to inclement weather this year, the repeal and reenactment of section 171.033 of this act is deemed necessary for the immediate preservation of the public health, welfare, peace and safety, and is hereby declared to be an emergency act within the meaning of the constitution, and the repeal and reenactment of section 171.033 of this act shall be in full force and effect upon its passage and approval.”; and

Further amend the title and enacting clause accordingly.

Senator Cunningham moved that the above amendment be adopted, which motion prevailed.

Senator Arthur offered SA 2:

SENATE AMENDMENT NO. 2

Amend Senate Substitute for Senate Committee Substitute for House Committee Substitute for House Bill No. 604, Page 1, Section A, Line 5 of said page, by inserting immediately after said line the following:

“160.545. 1. There is hereby established within the department of elementary and secondary education the “A+ Schools Program” to be administered by the commissioner of education. The program shall consist of grant awards made to public secondary schools that demonstrate a commitment to ensure that:

(1) All students be graduated from school;

(2) All students complete a selection of high school studies that is challenging and for which there are identified learning expectations; and

(3) All students:

(a) Earn credits toward any type of college degree while in high school; or

(b) Proceed from high school graduation to a college or postsecondary vocational or technical school or high-wage job with work place skill development opportunities.

2. The state board of education shall promulgate rules and regulations for the approval of grants made under the program to schools that:

(1) Establish measurable districtwide performance standards for the goals of the program outlined in subsection 1 of this section; and

(2) Specify the knowledge, skills and competencies, in measurable terms, that students must demonstrate to successfully complete any individual course offered by the school, and any course of studies which will qualify a student for graduation from the school; and

(3) Do not offer a general track of courses that, upon completion, can lead to a high school diploma; and

(4) Require rigorous coursework with standards of competency in basic academic subjects for students pursuing vocational and technical education as prescribed by rule and regulation of the state board of education; and

The plan shall specify a mechanism to receive information on an annual basis from those who developed the plan in addition to senior citizens, community leaders, and teachers to update the plan in order to best meet the goals of the program as provided in subsection 1 of this section. Further, the plan shall detail the procedures used in the school to identify students that may drop out of school and the intervention services to be used to meet the needs of such students. The plan shall outline counseling and mentoring services provided to students who will enter the work force upon graduation from high school, address apprenticeship and intern programs, and shall contain procedures for the recruitment of volunteers from the community of the school to serve in schools receiving program grants.

3. Any nonpublic school in this state may apply to the state board of education for certification that it meets the requirements of this section subject to the same criteria as public high schools. Every nonpublic school that applies and has met the requirements of this section shall have its students eligible for reimbursement of postsecondary education under subsection 8 of this section on an equal basis to students who graduate from public schools that meet the requirements of this section. Any nonpublic school that applies shall not be eligible for any grants under this section. Students of certified nonpublic schools shall be eligible for reimbursement of postsecondary education under subsection 8 of this section so long as they

meet the other requirements of such subsection. For purposes of subdivision (5) of subsection 2 of this section, the nonpublic school shall be included in the partnership plan developed by the public school district in which the nonpublic school is located. For purposes of subdivision (1) of subsection 2 of this section, the nonpublic school shall establish measurable performance standards for the goals of the program for every school and grade level over which the nonpublic school maintains control.

4. A school district may participate in the program irrespective of its accreditation classification by the state board of education, provided it meets all other requirements.

5. By rule and regulation, the state board of education may determine a local school district variable fund match requirement in order for a school or schools in the district to receive a grant under the program. However, no school in any district shall receive a grant under the program unless the district designates a salaried employee to serve as the program coordinator, with the district assuming a minimum of one-half the cost of the salary and other benefits provided to the coordinator. Further, no school in any district shall receive a grant under the program unless the district makes available facilities and services for adult literacy training as specified by rule of the state board of education.

6. For any school that meets the requirements for the approval of the grants authorized by this section and specified in subsection 2 of this section for three successive school years, by August first following the third such school year, the commissioner of education shall present a plan to the superintendent of the school district in which such school is located for the waiver of rules and regulations to promote flexibility in the operations of the school and to enhance and encourage efficiency in the delivery of instructional services in the school. The provisions of other law to the contrary notwithstanding, the plan presented to the superintendent shall provide a summary waiver, with no conditions, for the pupil testing requirements pursuant to section 160.257 in the school. Further, the provisions of other law to the contrary notwithstanding, the plan shall detail a means for the waiver of requirements otherwise imposed on the school related to the authority of the state board of education to classify school districts pursuant to subdivision (9) of section 161.092 and such other rules and regulations as determined by the commissioner of education, except such waivers shall be confined to the school and not other schools in the school district unless such other schools meet the requirements of this subsection. However, any waiver provided to any school as outlined in this subsection shall be void on June thirtieth of any school year in which the school fails to meet the requirements for the approval of the grants authorized by this section as specified in subsection 2 of this section.

7. For any school year, grants authorized by subsections 1, 2, and 5 of this section shall be funded with the amount appropriated for this program, less those funds necessary to reimburse eligible students pursuant to subsection 8 **or** 9 of this section.

8. The department of higher education shall, by rule, establish a procedure for the reimbursement of the cost of tuition, books and fees to any public community college or vocational or technical school or within the limits established in subsection [10] **11** of this section for any two-year private vocational or technical school for any student:

(1) Who has attended a high school in the state for at least [three] **two** years [prior to graduation] that meets the requirements of subsection 2 of this section and who has graduated from such a school; except that, students who are active duty military dependents, and students who are [dependants] **dependents** of retired military who relocate to Missouri within one year of the date of the parent's retirement from active

duty[,] who[, in the school year immediately preceding graduation,] meet all other requirements of this subsection and are attending a school that meets the requirements of subsection 2 of this section shall be exempt from the [three-year] **two-year** attendance requirement of this subdivision; and

(2) Who has made a good faith effort to first secure all available federal sources of funding that could be applied to the reimbursement described in this subsection; and

(3) Who has earned a minimal grade average while in high school **or through the semester immediately before taking the course for which reimbursement is sought** as determined by rule of the department of higher education, and other requirements for the reimbursement authorized by this subsection as determined by rule and regulation of the department; and

(4) Who is a citizen or permanent resident of the United States.

9. The department of higher education shall, by rule, establish a procedure for the reimbursement of the cost of tuition, and fees for any dual-credit or dual-enrollment course offered to a student in high school in association with an institution of higher education or vocational or technical school, subject to the requirements of subsection 11 of this section, for any student who meets the requirements established in subsection 8 of this section immediately before taking the course for which reimbursement is sought.

10. The commissioner of education shall develop a procedure for evaluating the effectiveness of the program described in this section. Such evaluation shall be conducted annually with the results of the evaluation provided to the governor, speaker of the house, and president pro tempore of the senate.

[10.] **11.** For a two-year private vocational or technical school to obtain reimbursements under subsection 8 **or 9** of this section, the following requirements shall be satisfied:

(3) No two-year private vocational or technical school shall receive tuition reimbursements in excess of the tuition rate charged by a public community college for course work offered by the private vocational or technical school within the service area of such college; and

(4) The reimbursements provided to any two-year private vocational or technical school shall not violate the provisions of Article IX, Section 8, or Article I, Section 7, of the Missouri Constitution or the first amendment of the United States Constitution.

12. The department of higher education shall distribute reimbursements in the following manner:

(1) To community college or vocational or technical school students;

(2) After all students from subdivision (1) of this subsection have been reimbursed, to any dual-credit or dual-enrollment student on the basis of financial need.”; and

Further amend the title and enacting clause accordingly.

Senator Arthur moved that the above amendment be adopted, which motion prevailed.

SENATE AMENDMENT NO. 4

Amend Senate Substitute for Senate Committee Substitute for House Committee Substitute for House Bill No. 604, Page 15, Section 161.1130, Line 1 by inserting after all of said line the following:

“163.031. 1. The department of elementary and secondary education shall calculate and distribute to each school district qualified to receive state aid under section 163.021 an amount determined by multiplying the district’s weighted average daily attendance by the state adequacy target, multiplying this product by the dollar value modifier for the district, and subtracting from this product the district’s local effort and subtracting payments from the classroom trust fund under section 163.043.

2. Other provisions of law to the contrary notwithstanding:

(1) For districts with an average daily attendance of more than three hundred fifty in the school year preceding the payment year:

(a) For the 2008-09 school year, the state revenue per weighted average daily attendance received by a district from the state aid calculation under subsections 1 and 4 of this section, as applicable, and the classroom trust fund under section 163.043 shall not be less than the state revenue received by a district in the 2005-06 school year from the foundation formula, line 14, gifted, remedial reading, exceptional pupil aid, fair share, and free textbook payment amounts multiplied by the dollar value modifier, and dividing this

product by the weighted average daily attendance computed for the 2005-06 school year;

(b) For each year subsequent to the 2008-09 school year, the amount shall be no less than that computed in paragraph (a) of this subdivision, multiplied by the weighted average daily attendance pursuant to section 163.036, less any increase in revenue received from the classroom trust fund under section 163.043;

(2) For districts with an average daily attendance of three hundred fifty or less in the school year preceding the payment year:

(a) For the 2008-09 school year, the state revenue received by a district from the state aid calculation under subsections 1 and 4 of this section, as applicable, and the classroom trust fund under section 163.043 shall not be less than the greater of state revenue received by a district in the 2004-05 or 2005-06 school year from the foundation formula, line 14, gifted, remedial reading, exceptional pupil aid, fair share, and free textbook payment amounts multiplied by the dollar value modifier;

(b) For each year subsequent to the 2008-09 school year, the amount shall be no less than that computed in paragraph (a) of this subdivision;

(3) The department of elementary and secondary education shall make an addition in the payment amount specified in subsection 1 of this section to assure compliance with the provisions contained in this subsection.

3. School districts that meet the requirements of section 163.021 shall receive categorical add-on revenue as provided in this subsection. The categorical add-on for the district shall be the sum of: seventy-five percent of the district allowable transportation costs under section 163.161; the career ladder entitlement for the district, as provided for in sections 168.500 to 168.515; the vocational education entitlement for the district, as provided for in section 167.332; and the district educational and screening program entitlements as provided for in sections 178.691 to 178.699. The categorical add-on revenue amounts may be adjusted to accommodate available appropriations.

4. For any school district meeting the eligibility criteria for state aid as established in section 163.021, but which is considered an option district under section 163.042 and therefore receives no state aid, the commissioner of education shall present a plan to the superintendent of the school district for the waiver of rules and the duration of said waivers, in order to promote flexibility in the operations of the district and to enhance and encourage efficiency in the delivery of instructional services as provided in section 163.042.

5. (1) No less than seventy-five percent of the state revenue received under the provisions of subsections 1 and 2 of this section shall be placed in the teachers' fund, and the remaining percent of such moneys shall be placed in the incidental fund. No less than seventy-five percent of one-half of the funds received from the school district trust fund distributed under section 163.087 shall be placed in the teachers' fund. One hundred percent of revenue received under the provisions of section 163.161 shall be placed in the incidental fund. One hundred percent of revenue received under the provisions of sections 168.500 to 168.515 shall be placed in the teachers' fund.

(2) A school district shall spend for certificated compensation and tuition expenditures each year:

(a) An amount equal to at least seventy-five percent of the state revenue received under the provisions of subsections 1 and 2 of this section;

(b) An amount equal to at least seventy-five percent of one-half of the funds received from the school

district trust fund distributed under section 163.087 during the preceding school year; and

(c) Beginning in fiscal year 2008, as much as was spent per the second preceding year's weighted average daily attendance for certificated compensation and tuition expenditures the previous year from revenue produced by local and county tax sources in the teachers' fund, plus the amount of the incidental fund to teachers' fund transfer calculated to be local and county tax sources by dividing local and county tax sources in the incidental fund by total revenue in the incidental fund.

In the event a district fails to comply with this provision, the amount by which the district fails to spend funds as provided herein shall be deducted from the district's state revenue received under the provisions of subsections 1 and 2 of this section for the following year, provided that the state board of education may exempt a school district from this provision if the state board of education determines that circumstances warrant such exemption.

6. (1) If a school district's annual audit discloses that students were inappropriately identified as eligible for free and reduced price lunch, special education, or limited English proficiency and the district does not resolve the audit finding, the department of elementary and secondary education shall require that the amount of aid paid pursuant to the weighting for free and reduced price lunch, special education, or limited English proficiency in the weighted average daily attendance on the inappropriately identified pupils be repaid by the district in the next school year and shall additionally impose a penalty of one hundred percent of such aid paid on such pupils, which penalty shall also be paid within the next school year. Such amounts may be repaid by the district through the withholding of the amount of state aid.

(2) In the 2017-18 school year and in each subsequent school year, if a district experiences a decrease in its gifted program enrollment of twenty percent or more from the previous school year, an amount equal to the product of the difference between the number of students enrolled in the gifted program in the current school year and the number of students enrolled in the gifted program in the previous school year multiplied by six hundred eighty dollars shall be subtracted from the district's current year payment amount. The provisions of this subdivision shall apply to districts entitled to receive state aid payments under both subsections 1 and 2 of this section but shall not apply to any school district with an average daily attendance of three hundred fifty or less.

7. Notwithstanding any provision of law to the contrary, in any fiscal year during which the total formula appropriation is insufficient to fully fund the entitlement calculation of this section, the department of elementary and secondary education shall adjust the state adequacy target in order to accommodate the appropriation level for the given fiscal year. In no manner shall any payment modification be rendered for any district qualified to receive payments under subsection 2 of this section based on insufficient appropriations.

8. Notwithstanding any provision of law to the contrary, school districts that receive revenue from the tax authorized under sections 148.030, 148.140, 148.620, and 148.720 shall, beginning January 1, 2020, and every January first thereafter, report the amount of said revenue received by the district to the department. The department shall, based on the data submitted by the district, determine the total amount of revenue the district would have received from the tax authorized under sections 148.030, 148.140, 148.620, and 148.720 absent the provisions of section 148.720, and remit the following amount to each applicable district not less than thirty days after the conclusion of each calendar year. The amount remitted to each district shall be the total of the revenue received by the

district from the tax authorized under sections 148.030, 148.140, 148.620, and 148.720 during the applicable calendar year times one and five thousand six hundred and twenty-five ten thousandths minus the total of the revenue received by the district from the tax authorized under sections 148.030, 148.140, 148.620, and 148.720 during the same calendar year. This payment shall be in addition to payments authorized under subsections 1, 2, and 7 of this section and shall be made from the annual appropriation to fund this section.”; and

(7) “New business facility income”, the Missouri taxable income, as defined in chapter 143, derived by the taxpayer from the operation of the new business facility. For the purpose of apportionment as prescribed in this subdivision, the term “Missouri taxable income” means, in the case of insurance companies, direct premiums as defined in chapter 148. If a taxpayer has income derived from the operation of a new business facility as well as from other activities conducted within this state, the Missouri taxable income derived by the taxpayer from the operation of the new business facility shall be determined by multiplying the taxpayer’s Missouri taxable income, computed in accordance with chapter 143, or in the case of an insurance company, computed in accordance with chapter 148, by a fraction, the numerator of which is the property factor, as defined in paragraph (a) of this subdivision, plus the payroll factor, as defined in paragraph (b) of this subdivision, and the denominator of which is two:

(a) The property factor is a fraction, the numerator of which is the new business facility investment certified for the tax period, and the denominator of which is the average value of all the taxpayer's real and depreciable tangible personal property owned or rented and used in this state during the tax period. The average value of all such property shall be determined as provided in chapter 32;

(b) The payroll factor is a fraction, the numerator of which is the total amount paid during the tax period by the taxpayer for compensation to persons qualifying as new business facility employees, as determined by subsection 4 of section 135.110, at the new business facility, and the denominator of which is the total amount paid in this state during the tax period by the taxpayer for compensation. The compensation paid in this state shall be determined as provided in chapter 32. For the purpose of this subdivision, "other activities conducted within this state" shall include activities previously conducted at the expanded, acquired or replaced facility at any time during the tax period immediately prior to the tax period in which commencement of commercial operations occurred;

(8) "New business facility investment", the value of [real and depreciable tangible personal] property, acquired by the taxpayer as part of the new business facility, which is used by the taxpayer in the operation of the new business facility, during the [taxable] **tax** year for which the credit allowed by section 135.110 is claimed, except that trucks, truck-trailers, truck semitrailers, rail vehicles, barge vehicles, aircraft, and other rolling stock for hire, track, switches, barges, bridges, tunnels, and rail yards and spurs shall not constitute new business facility investments. **For the purposes of sections 135.100 to 135.150, property may be acquired by the taxpayer by purchase, lease, or license, including the right to use software and hardware via on-demand network access to a shared pool of configurable computing resources as long as the rights are used at the new business facility.** The total value of such property during such [taxable] **tax** year shall be:

(a) Its original cost if owned by the taxpayer; or

(b) Eight times the net annual rental rate **or license**, if leased **or licensed** by the taxpayer. The net annual rental **or license** rate shall be the annual rental **or license** rate paid by the taxpayer less any annual rental **or license** rate received by the taxpayer from subrentals **or sublicenses**. The new business facility investment shall be determined by dividing by twelve the sum of the total value of such property on the last business day of each calendar month of the [taxable] **tax** year. If the new business facility is in operation for less than an entire [taxable] **tax** year, the new business facility investment shall be determined by dividing the sum of the total value of such property on the last business day of each full calendar month during the portion of such [taxable] **tax** year during which the new business facility was in operation by the number of full calendar months during such period;

(9) "Office", a regional, national, or international headquarters, a telemarketing operation, a computer operation, an insurance company, a passenger transportation ticket/reservation system, or a credit card billing and processing center. For the purposes of this subdivision, "headquarters" means the administrative management of at least four integrated facilities operated by the taxpayer or related taxpayer. An office, as defined in this subdivision, when established must create and maintain positions for a minimum number of twenty-five new business facility employees as defined in subdivision (6) of this section;

(10) "Related taxpayer" shall mean:

(a) A corporation, partnership, trust, or association controlled by the taxpayer;

(b) An individual, corporation, partnership, trust, or association in control of the taxpayer; or

(c) A corporation, partnership, trust, or association controlled by an individual, corporation, partnership, trust, or association in control of the taxpayer. For the purposes of sections 135.100 to 135.150, “control of a corporation” shall mean ownership, directly or indirectly, of stock possessing at least fifty percent of the total combined voting power of all classes of stock entitled to vote; “control of a partnership or association” shall mean ownership of at least fifty percent of the capital or profits interest in such partnership or association; and “control of a trust” shall mean ownership, directly or indirectly, of at least fifty percent of the beneficial interest in the principal or income of such trust; ownership shall be determined as provided in Section 318 of the U.S. Internal Revenue Code;

(11) “Replacement business facility”, a facility otherwise described in subdivision (3) of this section, hereafter referred to in this subdivision as “new facility”, which replaces another facility, hereafter referred to in this subdivision as “old facility”, located within the state, which the taxpayer or a related taxpayer previously operated but discontinued operating on or before the close of the first [taxable] tax year in which the credit allowed by this section is claimed. A new facility shall be deemed to replace an old facility if the following conditions are met:

(a) The old facility was operated by the taxpayer or a related taxpayer during the taxpayer’s or related taxpayer’s [taxable] tax period immediately preceding the [taxable] tax year in which commencement of commercial operations occurs at the new facility; and

(b) The old facility was employed by the taxpayer or a related taxpayer in the operation of a revenue-producing enterprise and the taxpayer continues the operation of the same or substantially similar revenue-producing enterprise at the new facility.

Notwithstanding the preceding provisions of this subdivision, a facility shall not be considered a replacement business facility if the taxpayer’s new business facility investment, as computed in subsection 5 of section 135.110, in the new facility during the tax period in which the credits allowed in sections 135.110, 135.225, and 135.235 and the exemption allowed in section 135.220 are claimed exceed one million dollars or, if less, two hundred percent of the investment in the old facility by the taxpayer or related taxpayer, and if the total number of employees at the new facility exceeds the total number of employees at the old facility by at least two except that the total number of employees at the new facility exceeds the total number of employees at the old facility by at least twenty-five if an office as defined in subdivision (9) of this section is established by a revenue-producing enterprise other than a revenue-producing enterprise defined in paragraphs (a) to (g) and (i) to (l) of subdivision (12) of this section;

(12) “Revenue-producing enterprise” means:

(a) Manufacturing activities classified as NAICS 31-33;

(b) Agricultural activities classified as NAICS 11;

(c) Rail transportation terminal activities classified as NAICS 482;

(d) Motor freight transportation terminal activities classified as NAICS 484 and NAICS 4884;

- (h) Wholesale trade activities classified as NAICS 42;
- (i) Insurance carriers activities classified as NAICS 524;
- (j) Research and development activities classified as NAICS 5417;
- (k) Farm implement dealer activities classified as NAICS 42382;

(l) Interexchange telecommunications services as defined in subdivision (20) of section 386.020 or training activities conducted by an interexchange telecommunications company as defined in subdivision (19) of section 386.020;

(m) Recycling activities classified as NAICS 42393;

(n) Office activities as defined in subdivision (9) of this section, notwithstanding NAICS classification;

(o) Mining activities classified as NAICS 21;

(p) Computer programming, data processing, and other computer-related activities classified as NAICS 5415;

(q) The administrative management of any of the foregoing activities; or

(r) Any combination of any of the foregoing activities;

(13) “Same or substantially similar revenue-producing enterprise”, a revenue-producing enterprise in which the nature of the products produced or sold, or activities conducted, are similar in character and use or are produced, sold, performed, or conducted in the same or similar manner as in another revenue-producing enterprise;

(14) “Taxpayer”, an individual proprietorship, corporation described in section 143.441 or 143.471, and partnership or an insurance company subject to the tax imposed by chapter 148, or in the case of an insurance company exempt from the thirty-percent employee requirement of section 135.230, to any obligation imposed [pursuant to] **under** section 375.916.”; and
