

SENATE COMMITTEE SUBSTITUTE

FOR

SENATE BILL NO. 480

AN ACT

To repeal section 192.067, RSMo, and to enact in lieu thereof two new sections relating to pregnancy-associated mortality, with an existing penalty provision.

---

---

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF MISSOURI,  
AS FOLLOWS:

Section A. Section 192.067, RSMo, is repealed and two new sections enacted in lieu thereof, to be known as sections 192.067 and 192.990, to read as follows:

192.067. 1. The department of health and senior services, for purposes of conducting epidemiological studies to be used in promoting and safeguarding the health of the citizens of Missouri under the authority of this chapter is authorized to receive information from patient medical records. The provisions of this section shall also apply to the collection, analysis, and disclosure of nosocomial infection data from patient records collected pursuant to section 192.667 and to the collection of data under section 192.990.

2. The department shall maintain the confidentiality of all medical record information abstracted by or reported to the department. Medical information secured pursuant to the provisions of subsection 1 of this section may be released by the department only in a statistical aggregate form that precludes and prevents the identification of patient, physician, or medical

facility except that medical information may be shared with other public health authorities and coinvestigators of a health study if they abide by the same confidentiality restrictions required of the department of health and senior services and except as otherwise authorized by the provisions of sections 192.665 to 192.667, or section 192.990. The department of health and senior services, public health authorities and coinvestigators shall use the information collected only for the purposes provided for in this section ~~[and]~~, section 192.667, or section 192.990.

3. No individual or organization providing information to the department in accordance with this section shall be deemed to be or be held liable, either civilly or criminally, for divulging confidential information unless such individual organization acted in bad faith or with malicious purpose.

4. The department of health and senior services is authorized to reimburse medical care facilities, within the limits of appropriations made for that purpose, for the costs associated with abstracting data for special studies.

5. Any department of health and senior services employee, public health authority or coinvestigator of a study who knowingly releases information which violates the provisions of this section shall be guilty of a class A misdemeanor and, upon conviction, shall be punished as provided by law.

192.990. 1. There is hereby established within the department of health and senior services the "Pregnancy-Associated Mortality Review Board" to improve data collection and reporting with respect to maternal deaths. The department may collaborate with localities and with other states to meet the

goals of the initiative.

2. For purposes of this section, the following terms shall mean:

(1) "Department", the Missouri department of health and senior services;

(2) "Maternal death", the death of a woman while pregnant or during the one-year period following the date of the end of pregnancy, regardless of the cause of death and regardless of whether a delivery, miscarriage, or death occurs inside or outside of a hospital.

3. The board shall be composed of no more than eighteen members, with a chair elected from among its membership. The board shall meet at least twice per year and shall approve the strategic priorities, funding allocations, work processes, and products of the board. Members of the board shall be appointed by the director of the department. Members shall serve four-year terms, except that the initial terms shall be staggered so that approximately one-third serve three, four, and five-year terms.

4. The board shall have a multidisciplinary and diverse membership that represents a variety of medical and nursing specialties, including, but not limited to, obstetrics and maternal-fetal care, as well as state or local public health officials, epidemiologists, statisticians, community organizations, geographic regions, and other individuals or organizations that are most affected by maternal deaths and lack of access to maternal health care services.

5. The duties of the board shall include, but not be limited to:

- (1) Conducting ongoing comprehensive, multidisciplinary reviews of all maternal deaths;
- (2) Identifying factors associated with maternal deaths;
- (3) Reviewing medical records and other relevant data, which shall include, to the extent available:
  - (a) A description of the maternal deaths determined by matching each death record of a maternal death to a birth certificate of an infant or fetal death record, as applicable, and an indication of whether the delivery, miscarriage, or death occurred inside or outside of a hospital;
  - (b) Data collected from medical examiner and coroner reports, as appropriate; and
  - (c) Using other appropriate methods or information to identify maternal deaths, including deaths from pregnancy outcomes not identified under paragraph (a) of this subdivision;
- (4) Consulting with relevant experts, as needed;
- (5) Analyzing cases to produce recommendations for reducing maternal mortality;
- (6) Disseminating recommendations to policy makers, health care providers and facilities, and the general public;
- (7) Recommending and promoting preventative strategies and making recommendations for systems changes;
- (8) Protecting the confidentiality of the hospitals and individuals involved in any maternal deaths;
- (9) Examining racial and social disparities in maternal deaths;
- (10) Subject to appropriation, providing for voluntary and confidential case reporting of maternal deaths to the appropriate

state health agency by family members of the deceased, and other appropriate individuals, for purposes of review by the board;

(11) Making publicly available the contact information of the board for use in such reporting;

(12) Conducting outreach to local professional organizations, community organizations, and social services agencies regarding the availability of the review board; and

(13) Ensuring that data collected under this section is made available, as appropriate and practicable, for research purposes, in a manner that protects individually identifiable or potentially identifiable information and that is consistent with state and federal privacy laws.

6. The board may contract with other entities consistent with the duties of the board.

7. (1) Before June 30, 2020, and annually thereafter, the board shall submit to the Director of the Centers for Disease Control and Prevention, the director of the department, the governor, and the general assembly a report on maternal mortality in the state based on data collected through ongoing comprehensive, multidisciplinary reviews of all maternal deaths, and any other projects or efforts funded by the board. The data shall be collected using best practices to reliably determine and include all maternal deaths, regardless of the outcome of the pregnancy and shall include data, findings, and recommendations of the committee, and, as applicable, information on the implementation during such year of any recommendations submitted by the board in a previous year.

(2) The report shall be made available to the public on the

department's website and the director shall disseminate the report to all health care providers and facilities that provide women's health services in the state.

8. The director of the department, or his or her designee, shall provide the board with the copy of the death certificate and any linked birth or fetal death certificate for any maternal death occurring within the state.

9. Upon request by the department, health care providers, health care facilities, clinics, laboratories, medical examiners, coroners, law enforcement agencies, driver's license bureaus, other state agencies, and facilities licensed by the department shall provide to the department data related to maternal deaths from sources such as medical records, autopsy reports, medical examiner's reports, coroner's reports, law enforcement reports, motor vehicle records, social services records, and other sources as appropriate. Such data requests shall be limited to maternal deaths which have occurred within the previous twenty-four months. No entity shall be held liable for civil damages or be subject to any criminal or disciplinary action when complying in good faith with a request from the department for information under the provisions of this subsection.

10. (1) The board shall protect the privacy and confidentiality of all patients, decedents, providers, hospitals, or any other participants involved in any maternal deaths. In no case shall any individually identifiable health information be provided to the public or submitted to an information clearinghouse.

(2) Nothing in this subsection shall prohibit the board or

department from publishing statistical compilations and research reports that:

(a) Are based on confidential information relating to mortality reviews under this section; and

(b) Do not contain identifying information or any other information that could be used to ultimately identify the individuals concerned.

(3) Information, records, reports, statements, notes, memoranda, or other data collected under this section shall not be admissible as evidence in any action of any kind in any court or before any other tribunal, board, agency, or person. Such information, records, reports, notes, memoranda, data obtained by the department or any other person, statements, notes, memoranda, or other data shall not be exhibited nor their contents disclosed in any way, in whole or in part, by any officer or representative of the department or any other person. No person participating in such review shall disclose, in any manner, the information so obtained except in strict conformity with such review project. Such information shall not be subject to disclosure under chapter 610.

(4) All information, records of interviews, written reports, statements, notes, memoranda, or other data obtained by the department, the board, and other persons, agencies, or organizations so authorized by the department under this section shall be confidential.

(5) All proceedings and activities of the board, opinions of members of such board formed as a result of such proceedings and activities, and records obtained, created, or maintained

under this section, including records of interviews, written reports, statements, notes, memoranda, or other data obtained by the department or any other person, agency, or organization acting jointly or under contract with the department in connection with the requirements of this section, shall be confidential and shall not be subject to subpoena, discovery, or introduction into evidence in any civil or criminal proceeding; provided, however, that nothing in this section shall be construed to limit or restrict the right to discover or use in any civil or criminal proceeding anything that is available from another source and entirely independent of the board's proceedings.

(6) Members of the board shall not be questioned in any civil or criminal proceeding regarding the information presented in or opinions formed as a result of a meeting or communication of the board; provided, however, that nothing in this section shall be construed to prevent a member of the board from testifying to information obtained independently of the board or which is public information.

11. The department may use grant program funds to support the efforts of the board and may apply for additional federal government and private foundation grants as needed. The department may also accept private, foundation, city, county, or federal moneys to implement the provisions of this section.
