The Soil and Water Conservation program receives its funding through ½ of the one-tenth-of-one-percent Parks, Soils and Water Sales Tax. The program’s primary mission is the control and reduction of soil erosion on agricultural land and protection of water resources. The program maintains a presence in each Missouri County through the 114 Soil & Water Conservation Districts (SWCDs), and operates under the overall direction of the Soil & Water Districts Commission. Staff processes contracts and payments providing financial assistance for the installation of soil and water conservation practices and to support the operation of each of the 114 local SWCDs; provides direct assistance in training, information/education, accounting/auditing, information technology and public administration; and supports the Commission in coordinating activities with stakeholders and partners on the local, state and national level. The Nonpoint Source (NPS) Management Program provides federal Clean Water Act Section 319 implementation grants to accomplish significant results in the control and mitigation of NPS pollution

Page 197

The regional offices are located throughout the state of Missouri and work in partnership with the environmental programs in order to protect the state’s air, land and water resources, which are important to the state’s citizens and economy. The program provides consistent, efficient delivery of services closest to where Missourians live and work. This is accomplished through timely compliance assistance, inspection, on-site visits to permitted facilities, wastewater and air burn permit issuance, and investigating reported environmental concerns.

**Water Quality Studies:** – Grants or contracts are provided to regularly monitor approximately 10% of the state’s classified waters. Data collected through these monitoring efforts is used to assess, protect and restore the quality of Missouri Waters. Additionally, the department funds studies to evaluate a public water supply system for the purpose of developing an engineering report that will make recommendations for updating and upgrading the system’s infrastructure; and to determine the most appropriate course of action for a small public water supply system to take to protect and maintain the quality of the source of its water and to ensure the citizens are consistently provided with clean water that is safe to drink. **Drinking Water Analysis:** – This section provides for the testing of water samples taken from Missouri’s 1,425 community and 1,304 non-community water systems. Samples are tested by the DNR lab or through contractual agreement with an outside lab. Testing for the presence or absence of contamination is necessary to comply with the federal drinking water regulations.

Page 221

The Department coordinates state, federal and local efforts during an environmental emergency, including the coordination of controlled substances cleanup (i.e.: meth labs) and ensures that the emergency is brought to a safe and environmentally sound conclusion. Many incidents require on-scene response and may require a contractor to be called in to eliminate threat to public health and the environment if a responsible party cannot be located or fails to take timely action. Emergency response encompasses hazardous substance releases, radiological incidents, homeland security events, weapons of mass destruction, and natural disasters.

Page 253

<p>The Missouri Geological Survey (MGS), headquartered in Rolla, MO, includes the Geological Survey Program, Land Reclamation Program and Water Resources Center. The Geological Survey Program provides geologic and hydrologic information and expertise to assist with decisions relating to economic development, site remediation, containment migration, subsurface investigations and geologic hazards, determines the character and availability of the state’s energy and mineral resources and implements the Water Well Drillers' Act. The Land Reclamation Program issues permits, conducts inspections and enforces mining laws for industrial minerals, metallic minerals and coal resources. The program also oversees the reclamation of abandoned mine sites in Missouri. Water Resources Center staff provide information for Missouri's comprehensive water needs by examining both surface and groundwater use and availability. They administer the provisions of the Missouri Dam and Reservoir Safety Law; regulating all nonfederal, nonagricultural dams 35 feet and higher through inspections, registration and issuance of construction permits. Staff also investigate water supply issues; maintain and update Missouri's Public Water Supply database for groundwater wells; collect, analyze and distribute groundwater-level data from a statewide network of observation wells; evaluate public water supply wells; and provide casing and total depth specifications. Water Resources Center staff continue to provide guidance and technical expertise for planning and development of regional water supply projects throughout Missouri, as well as defend the state's vital water resources interests, including those related to river transport, before numerous interstate and interagency river basin associations.</p>

Expanded budget authority will expedite the process of evaluating identified dams and the permitting of those that meet state regulatory thresholds. It will also allow more dam safety law compliance assistance especially for the increasing number of aging dams. House rec changed the purpose of funding to be used for a statewide dam inspector performing inspections of non-agricultural dams.

This section provides for the transfer of General Revenue to the Multipurpose Water Resource Program Fund, Multipurpose Water Resource Program, and State Water Plan. The Multipurpose Water Resource Program fund is intended to support development of public water supply, flood control storage, and treatment and transmission facilities. The Multipurpose Water Resource Act (Sections 256.435 - 256.445, RSMo) authorizes the Department to administer moneys appropriated to the fund through provision of grants or other financial assistance and allows for the state to participate with a sponsor in the development, construction, or renovation of a water resource project providing a long-term solution to water supply needs. This appropriation is also used for professional services to implement the State Water Plan and advance the Department's efforts and responsibilities to ensure that the availability of water resources supports Missouri's current and future beneficial uses and is not a limiting factor in economic growth. The primary areas of this effort include water supply availability, drought response and watershed feasibility studies, and addressing interstate water needs.

Page 269

The Land Reclamation Program, under the direction of the Missouri Mining Commission, oversees the reclamation of abandoned mine sites in Missouri. This includes sites abandoned prior to 1977 and sites where permits were revoked and reclamation bonds were collected. For coal sites abandoned prior to 1977, the program utilizes federal funds from the Office of Surface Mining, US Department of Interior to directly contract for the reclamation activities at these sites. This program is known as the Abandoned Mine Land (AML) program. Where bonds have been forfeited on permit-revoked mine sites, the Mined Land Reclamation Fund (MLRF) PSD provides appropriation authority for reclamation of these bond forfeited sites. Reclamation involves work to restore mined lands to productive uses such as agriculture, wildlife or development. The program may collect the reclamation bonds and directly contract for the reclamation activities or the program may allow the surety bond holder to perform the reclamation in the place of the original permit holder. Federal funding also allows for grants to small coal operators (<300,000 tons/year). There is one active coal operator in Missouri that qualifies for this assistance should the company decide to expand operations and require an additional permit.

**Legal Basis:** Surface Mining Control and Reclamation Act of 1977, Public Law 95-87 (30 CFR Part 700.01-955.17); State Statutes 444.140, 444.368, 444.778 (Bonds); 444.960 – 444.965 (Fees for Coal Mine Land Reclamation Fund); 444.760 – 444.790 (Land Reclamation Act); 444.800-444.970 Surface Coal Mining Law

This section provides for expenditures of forfeited surety bonds for improperly abandoned oil and gas wells. Some of these wells have the potential to impact surface and groundwater resources. If a producer fails to properly close the wells at the conclusion of operations, the state has the ability to claim the bond and use the funds to properly plug the wells. Revenues of the fund are also used to handle emergency situations as they arise, such as a leaking gas well.

**Section 6.355 – Missouri State Parks – Operations**

Page 377

This section provides general management and planning for Missouri's 88 State Parks and Historic Sites plus the Roger Pryor Pioneer Backcountry. These state parks and historic sites are scattered throughout the state, each containing unique and diverse natural and cultural resources. The park system also includes five district offices and five support programs. In addition, the division provides law enforcement services and protection to park visitors, their property and the cultural and natural resources of the division. The mission of the division is to preserve and interpret the state's most outstanding natural features, to preserve and interpret the state's most outstanding cultural landmarks; and to provide compatible recreational opportunities in these areas.

This core also includes pass through appropriation authority for Missouri State Parks: Bruce R Watkins, Payment in Lieu of Taxes, Gifts to State Parks, State Parks Resale, Concession Default, State Park Grants, and Outdoor Recreation Grants.

State Parks and Historic Sites are supported by the Park Sales Tax, a one-tenth of a cent sales tax which has been adopted by the voters of Missouri five times. One-half of the sales tax proceeds support Missouri's State Parks and Historic Sites. Park Sales Tax funds are limited to expenditures on "the acquisition, development, maintenance and operation of state parks and state historic sites in accordance with Chapter 253, RSMo, and for the administration of the laws pertaining thereto." The most recent 2016 election reauthorized the sales tax until a general election is held in 2026 or at a special election to be called by the governor for that purpose...

**Section 6.360 – Missouri State Parks - Historic Preservation Office**

Page 403

The State Historic Preservation Office (SHPO) works with citizens and groups throughout the state to identify, evaluate, and protect Missouri’s diverse range of historic architectural and archaeological resources. This office also coordinates nominations to the National Register of Historic Places, handles Section 106 reviews, reviews rehabilitation projects for state and federal income tax credits, and responds to archaeological issues such as unmarked human burials.

Historic Preservation Grants provide authority to pass federal funds through for historic preservation grants and contracts. This appropriation also provides authority to pass Historic Preservation Revolving funds through for financial assistance to aid in the preservation of historically-significant publicly owned properties, such as county courthouses, city halls, or educational facilities, through the Missouri Heritage Properties Program.

Page 551

This appropriation authorizes investigations, adjudications and payments of claims for clean-up and third party damages. In addition, this appropriation authorizes payment of premium refunds when necessary. Revenues of the fund are derived from three sources. First, the Board of Trustees sets a surcharge on petroleum products capped at no more than sixty dollars per transport load. Beginning September 1, 2008, the Board reduced the transport load fee from \$40/load to \$20/load. Second, the Board sets a one-time fee of one hundred dollars per tank from each participant who wished to obtain insurance from PSTIF for the first time. Third, the Board sets an annual fee from each participant in the program of at least one hundred dollars per year but not more than five hundred dollars per year.
