We understand we must meet each challenge as it comes before us with the diligence and perseverance it requires. So, we ask Lord, that we might know Your guiding presence and Your prompting spirit to get each challenge met and successfully completed for we must be responsible for why we were elected. In Your Holy name we pray. Amen.

CONCURRENT RESOLUTIONS

SENATE CONCURRENT RESOLUTION NO. 10

Whereas, American farmers and ranchers raise the best meat in the world; and

Whereas, Americans should have the right to knowingly buy made-in-America products; and

Whereas, American farmers, ranchers, workers, and consumers benefit from transparency on the origins of their food; and

Whereas, consumers have repeatedly and overwhelmingly expressed their support for country of origin labeling of food products in the United States; and

Whereas, in 2008, the United States Congress overwhelmingly passed mandatory country of origin labeling for muscle cuts and ground meat sold at retail, requiring meat produced from imported livestock or imported boxed meat to bear a different label from meat produced from United States born, raised, and slaughtered livestock; and

Whereas, trade groups and the organizations representing multinational meat packers worked predominantly with Canada, as well as Mexico, to bring a World Trade Organization case against the United States for the removal of the country of origin labeling requirements; and

Whereas, in 2015, the United States Congress repealed the country of origin labeling law for beef and pork, reducing the competitive advantage of products born, raised, and slaughtered in the United States; and

Whereas, the United States has the highest food safety standards in the world, while other countries place less emphasis on food safety; and

Whereas, foreign commodities like beef and pork are misleadingly labeled “Product of the USA” if they are processed or packed in the United States; and

Whereas, country of origin labeling gives producers and consumers the ability to distinguish true American products from foreign imported meat; and

Whereas, technological advancements make it possible to accurately and efficiently identify the origins of beef and pork without costly separation of imported and domestic commodities; and

Whereas, country of origin labeling is good for farmers, ranchers, workers, and meat packers because it allows them to identify their products as born, raised, and slaughtered in the United States; and

Whereas, the Missouri General Assembly supports American products, and consumers deserve the right to know the origins of their food;

Now Therefore Be It Resolved that the members of the Missouri Senate, One Hundred First General Assembly, First Regular Session, the House of Representatives concurring therein, hereby support the right of consumers to know the origins of their food, support the use of country of origin labels, and urge the United States Congress to reinstate mandatory country of origin labeling; and

Be It Further Resolved that the Secretary of the Senate be instructed to prepare properly inscribed copies of this resolution for each member of Missouri’s Congressional delegation.

Senator Brattin offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 11

Whereas, hydrocephalus is a serious neurological condition, characterized by the abnormal build up of cerebrospinal fluids in the ventricles of the brain; and

Whereas, there is no known cure for hydrocephalus, which affects an estimated one million Americans; and

Whereas, one or two in every one thousand babies are born with hydrocephalus; and

Whereas, over 375,000 older Americans have hydrocephalus which often goes undetected or misdiagnosed as dementia, Alzheimer’s disease, or Parkinson’s disease; and

Whereas, with appropriate diagnosis and treatment, people with hydrocephalus are able to live full and productive lives; and

Whereas, the standard treatment for hydrocephalus was developed in 1953 and carries multiple risks, including shunt failure, infection, and over drainage; and

Whereas, there are fewer than ten centers in the United States specializing in the treatment of adults with normal pressure hydrocephalus; and

Whereas, each year the people of the United States spend in excess of one million dollars to treat hydrocephalus; and

Whereas, the Hydrocephalus Association is one of the nation’s oldest and largest patient and research advocacy and support network for individuals suffering from hydrocephalus; and

Whereas, further research into the epidemiology, pathology, disease burden, and improved treatment of hydrocephalus should be conducted

and supported; and

Whereas, public awareness and professional education regarding hydrocephalus should increase through partnership between the local, state, and federal governments and patient advocacy organizations, such as the Hydrocephalus Association:

Now Therefore Be It Resolved that the members of the Missouri Senate, One Hundred First General Assembly, First Regular Session, the House of Representatives concurring therein, hereby recognize the month of October 2021 as “Hydrocephalus Awareness Month” in Missouri so that Missourians can become more familiar with hydrocephalus and the individuals dedicated to finding its cure; and

Be it further resolved that the Missouri General Assembly urges the federal government to collect comprehensive statistics and data regarding the seriousness of hydrocephalus and its impact on American families.

Senator Roberts offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 12

Whereas, section 173.030 of the Revised Statutes of Missouri describes the process for public colleges and universities to follow when seeking a statewide mission designation; and

Whereas, a college or university must provide the Coordinating Board for Higher Education with particular evidence of the institution’s capacity to discharge a statewide mission successfully; and

Whereas, Harris-Stowe State University provided the Coordinating Board with the necessary evidence that it can successfully discharge a statewide mission in science, technology, engineering, and mathematics (STEM) for underrepresented and underresourced students; and

Whereas, the Coordinating Board voted to approve the request for such designation on December 11, 2019:

Now Therefore Be It Resolved that the members of the Missouri Senate, One Hundred First General Assembly, First Regular Session, the House of Representatives concurring therein, hereby approve of the statewide mission designation in STEM approved by the Coordinating Board for Higher Education for Harris-Stowe State University; and

Be It Further Resolved that the Secretary of the Senate be instructed to prepare properly inscribed copies of this resolution for the Commissioner of Higher Education and the President of Harris-Stowe State University.
