386.915. 1. An electrical corporation may apply to the commission for a financing order. In the application, an electrical corporation may request approval to issue MO-EBRA bonds in one or more series; impose, charge, and collect MO-EBRA charges; and create MO-EBRA property related to the retirement of an electric generating facility in Missouri that has previously been approved by the commission. The commission shall take final action to approve, deny, or modify any application for a financing order as described in subsection 2 of this section in a final order issued in accordance with the commission’s rules for addressing applications.

2. In addition to any other information required by the commission, an application for a financing order shall include the following information:

(2) A proposed methodology for allocating MO-EBRA charges among customer classes;

(3) A description of the non-bypassable MO-EBRA charges required to be paid by customers within the electrical corporation’s certificated service territory for recovery of MO-EBRA costs;

(4) An estimate of the net present value of electrical corporation customer savings expected to result if the financing order is issued as determined by a net present value comparison between the costs to customers that are expected to result from the financing with MO-EBRA bonds and the costs that would result from the application of traditional electrical corporation financing mechanisms for

the same purposes; and

(5) One or more alternative financing scenarios in addition to the preferred scenario contained in the application.

386.920. 1. Following notice and a hearing on an application for a financing order as required by the commission's rules, practices, and procedures, the commission may issue a financing order if the commission finds that:

(1) The MO-EBRA costs described in the application are reasonable;

(2) The proposed issuance of MO-EBRA bonds and the imposition and collection of MO-EBRA charges:

(a) Are just and reasonable;

(b) Are consistent with the public interest; and

(c) Constitute a prudent and reasonable mechanism for the financing MO-EBRA costs described in the financing order application; and

(3) The proposed structuring, marketing, and pricing of the MO-EBRA bonds are reasonably expected to:

(a) Lower net present value costs to customers or mitigate rate impacts to customers relative to traditional methods of financing; and

(b) Achieve the maximum net present value customer savings over the specified amortization of MO-EBRA bonds, as determined by the commission in a financing order, consistent with market conditions at the time of sale and the terms of the financing order.

2. The financing order shall:

(1) Determine the maximum amount of MO-EBRA costs that may be financed from proceeds of MO-EBRA bonds authorized to be issued by the financing order;

(2) To the extent an application requests financing as a result of the retirement of an electric generating facility located in the state provide that an amount of MO-EBRA bond proceeds, up to fifteen percent of the net present value of electrical corporation customer savings estimated be provided by the electrical corporation to which the financing order applies, shall be used for providing any reasonable and necessary administrative and operating costs;

(3) Describe the proposed customer billing mechanism for MO-EBRA charges and include a finding that the mechanism is just and reasonable;

(4) Describe the financing costs that may be recovered through MO-EBRA charges and the period over which the costs may be recovered, which shall end no earlier than the date of final legal maturity of the MO-EBRA bonds;

(5) Describe the MO-EBRA property that is created and that may be used to pay, and secure the payment of, the MO-EBRA bonds and financing costs authorized in the financing order;

(6) Authorize the electrical corporation to finance MO-EBRA costs through the issuance of one

or more series of MO-EBRA bonds, provided that an electrical corporation shall not be required to secure a separate financing order for each issuance of MO-EBRA bonds or for each scheduled phase of the previously approved retirement of electric generating facilities approved in the financing order;

(7) Include a mechanism for making expeditious periodic adjustments in the MO-EBRA charges that customers are required to pay under the financing order and for making any adjustments that are necessary to correct for any over- or under-collection of the MO-EBRA charges in past periods, or otherwise to guarantee the timely payment of MO-EBRA bonds and financing costs and other required amounts and charges payable in connection with MO-EBRA bonds;

(8) Include any additional findings or conclusions deemed appropriate by the commission, including those deemed appropriate to achieve the lowest cost objective;

(9) Specify the degree of flexibility afforded to the electrical corporation in establishing the terms and conditions of the MO-EBRA bonds including, but not limited to, repayment schedules, expected interest rates, and other financing costs; provided that the scheduled final maturity of the MO-EBRA bonds shall be the earlier of:

(a) Thirty years from the issue date of the MO-EBRA bonds; or

(b) As late as possible, consistent with obtaining triple A ratings on the MO-EBRA bonds while concurrently ensuring that the lowest cost objective is achieved for the MO-EBRA bonds;

(10) Specify the timing of actions required by the order so that:

(a) The MO-EBRA bonds are issued as soon as feasible following the issuance of the financing order, independent of the schedule of closing and decommissioning of any electric generating facility;

(b) Any energy assistance funds are made available as soon as feasible; and

(c) The electrical corporation files to adjust its rates as required in subsection 4 of this section simultaneously with the inception of the MO-EBRA charges and independently of the schedule of closing and decommissioning of any electric generating facility; and

(11) Specify a future ratemaking process to reconcile any difference between the projected pretax costs included in the amount financed by MO-EBRA bonds and the final actual MO-EBRA costs approved by the financing order. The reconciliation may affect the electrical corporation's base rates or any rider adopted under subsection 4 of this section but shall not affect the amount of the MO-EBRA bonds or the associated MO-EBRA charges to be paid by customers.

3. A financing order shall permit, and may require, the creation of an electrical corporation's MO-EBRA property under subdivision (5) of subsection 2 of this section to be conditioned upon, and simultaneous with, the sale or other transfer of the MO-EBRA property to an assignee and the pledge of the MO-EBRA property to secure MO-EBRA bonds.

4. A financing order shall require the electrical corporation, simultaneously with the imposition of MO-EBRA charges, to reduce its rates through a reduction in base rates or by a negative rider on customer bills in an amount equal to the revenue requirement associated with the electrical corporation's assets being financed by MO-EBRA bonds.

386.925. 1. A financing order shall remain in effect until the MO-EBRA bonds issued, as authorized by the financing order, have been paid in full and all financing costs relating to the MO-

EBRA bonds have been paid in full. A financing order shall also remain in effect and unabated notwithstanding the bankruptcy, reorganization, or insolvency of the electrical corporation to which the financing order applies or any affiliate of the electrical corporation or successor or assignee. A financing order shall be irrevocable, and the commission shall not reduce, impair, postpone, or terminate MO-EBRA charges approved in a financing order or impair MO-EBRA property or the collection or recovery of MO-EBRA revenue.

2. Notwithstanding subsection 1 of this section, upon its own motion or at the request of an electrical corporation or any other person, the commission may commence a proceeding and issue a subsequent financing order that provides for refinancing, retiring, or refunding MO-EBRA bonds issued under the original financing order if:

(1) The commission determines that the subsequent financing order meets the same criteria as specified in the original financing order under subsection 2 of section 386.920; and

(2) The modification provided for in the subsequent financing order does not impair in any way the covenants and terms of the MO-EBRA bonds to be refinanced, retired, or refunded.

386.930. 1. Except as otherwise provided in subsection 2 of this section, if the commission, in exercising its powers and carrying out its duties, issues a financing order to an electrical corporation the commission shall not:

(1) Consider the MO-EBRA bonds issued under the financing order to be debt of the electrical corporation, other than for income tax purposes, unless it is necessary to consider the MO-EBRA bonds to be such debt to achieve consistency with prevailing utility debt rating methodologies;

(2) Consider the MO-EBRA charges paid under the financing order to be revenue of the electrical corporation;

(3) Consider the MO-EBRA costs or financing costs specified in the financing order to be the regulated costs or assets of the electrical corporation; or

(4) Determine any prudent action taken by an electrical corporation that is consistent with the financing order to be unjust or unreasonable.

2. Nothing in subsection 1 of this section shall:

(1) Affect the authority of the commission to apply or modify any billing mechanism designed to recover MO-EBRA charges;

(2) Prevent or preclude the commission from investigating the compliance of an electrical corporation with the terms and conditions of a financing order and requiring compliance with the financing order; or

(3) Prevent or preclude the commission from imposing regulatory sanctions against an electrical corporation for failure to comply with the terms and conditions of a financing order or the requirements of sections 386.900 to 386.980.

3. The commission shall not refuse to allow the recovery of any costs associated with the retirement of electric generating facilities by an electrical corporation solely because the electrical corporation has elected to finance those activities through a financing mechanism other than MO-EBRA bonds.

386.935. 1. In addition to any other power and duties of the commission:

(1) The commission shall have the duty to perform, and authority required to perform, comprehensive due diligence in its evaluation of an application for a financing order and shall have the duty and authority to oversee the process used to structure, market, and price MO-EBRA bonds;

(2) The commission may attach such conditions to the approval of a financing order as the commission deems appropriate to maximize the financial benefits or minimize the financial risks of the transaction to customers and to directly-impacted Missouri communities;

(3) The commission may specify details of the process used to structure, market, and price MO-EBRA bonds, including the selection of the underwriter or underwriters;

(4) The commission shall review and determine the reasonableness of all proposed up-front and ongoing financing costs; and

(5) The commission shall ensure that the structuring, marketing, and pricing of MO-EBRA bonds maximizes net present value customer savings, consistent with market conditions and the terms of the financing order.

2. Within one hundred twenty days after the issuance of MO-EBRA bonds, the applicant electrical corporation shall file with the commission information regarding the actual up-front and ongoing financing costs of the MO-EBRA bonds. The commission shall review the prudence of the electrical corporation's action to determine whether the financing costs resulted in the lowest overall costs that were reasonably consistent with both market conditions at the time of the sale of the MO-EBRA bonds and the terms of the financing order. If the commission determines that the electrical corporation's actions were not prudent, were not designed to result in the lowest overall costs that were reasonably consistent with both market conditions at the time of the sale of the MO-EBRA bonds and the terms of the financing order, or were inconsistent with the financing order, the commission may apply any remedies that are available to it; except that the commission shall not apply any remedy that has the effect, directly or indirectly, of impairing the security for the MO-EBRA bonds.

3. In performing its responsibilities under this section, the commission shall engage outside financial advisors, counsel, and other consultants with substantial experience representing regulatory bodies in securitized investor-owned electrical corporation ratepayer-backed bond financing similar to MO-EBRA bonds. The expenses associated with such engagement shall be included as financing costs and included in MO-EBRA charges, shall not be an obligation of the state, and shall be assigned solely to the transaction. In addition, expenses incurred by the commission to hire and compensate additional temporary staff needed to perform such responsibilities shall be included as financing costs and included in MO-EBRA charges.

4. If an electrical corporation's application for a financing order is denied or withdrawn, or for any reason MO-EBRA bonds are not issued, the commission's costs of retaining expert consultants and counsel, as authorized by subsection 3 of this section, shall be paid by the electrical corporation and shall be considered by the commission as a prudent deferred expense for recovery in the electrical corporation's future rates.

386.940. A financing order is a final order of the commission. Notwithstanding the provisions of

any other section of law specifying proper venue for petition filings, a party aggrieved by the issuance of a financing order may petition for suspension and review of the financing order only in the court of appeals with jurisdiction coextensive to the commission's location.

386.945. 1. The electric bills of customers of an electrical corporation that has obtained a financing order and issued MO-EBRA bonds shall:

(1) Explicitly reflect that a portion of the charges on the bill represents MO-EBRA charges approved in a financing order issued to the electrical corporation and, if the MO-EBRA property has been transferred to an assignee or successor, shall include a statement that the assignee or successor is the owner of the rights to MO-EBRA charges and that the electrical corporation or other entity, if applicable, is acting as a collection agent or servicer for the assignee or successor;

(2) Include the MO-EBRA charges on each customer's bill as a separate line item titled "energy bill reduction assistance charge" and may include both the rate and the amount of the charge on each bill; however, the failure of an electrical corporation to comply with this requirement shall not invalidate, impair, or affect any financing order, MO-EBRA property, MO-EBRA charges, or MO-EBRA bonds, but shall subject the electrical corporation to penalties under applicable commission rules; and

(3) Explain to customers, in an annual filing with the commission, the rate impact that financing the retirement of electric generating facilities and making capital investment for facilities and services, including least-cost electric generating facilities and other supply-side and demand-side resources, has had on customer rates.

2. An electrical corporation that has obtained a financing order and caused MO-EBRA bonds to be issued shall demonstrate in an annual filing with the commission that MO-EBRA revenues have been applied solely to the repayment of MO-EBRA bonds and other financing costs.

386.950. 1. MO-EBRA property that is described in a financing order shall constitute an existing present property right or interest even though the imposition and collection of MO-EBRA charges depends on the electrical corporation to which the financing order is issued performing its servicing functions relating to the collection of MO-EBRA charges and on future electricity consumption. The property right or interest exists regardless of whether the revenues or proceeds arising from the MO-EBRA property have been billed, have accrued, or have been collected and notwithstanding the fact that the value or amount of the property right or interest is dependent on the future provision of service to customers by the electrical corporation or a successor or assignee of the electrical corporation.

2. MO-EBRA property described in a financing order shall exist until all MO-EBRA bonds issued under the financing order are paid in full and all financing costs and other costs of the MO-EBRA bonds have been recovered in full.

3. All or any portion of MO-EBRA property described in a financing order issued to an electrical corporation may be transferred, sold, conveyed, or assigned to a successor or assignee that is wholly owned, directly or indirectly, by the electrical corporation and is created for the limited purpose of acquiring, owning, or administering MO-EBRA property or issuing MO-EBRA bonds as authorized by the financing order. All or any portion of MO-EBRA property may be pledged to secure MO-EBRA bonds issued under a financing order, amounts payable to financing parties and to

counterparties under any ancillary agreements, and other financing costs. Each transfer, sale, conveyance, assignment, or pledge by an electrical corporation, or an affiliate of an electrical corporation, is a transaction in the ordinary course of business.

4. If an electrical corporation defaults on any required remittance of charges arising from MO-EBRA property described in a financing order, a court, upon application by an interested party and without limiting any other remedies available to the applying party, shall order the sequestration and payment of the revenues arising from the MO-EBRA property to the financing parties. Any financing order shall remain in full force and effect notwithstanding any reorganization, bankruptcy, or other insolvency proceedings with respect to the electrical corporation or its successors or assignees.

5. The interest of a transferee, purchaser, acquirer, assignee, or pledgee in MO-EBRA property specified in a financing order issued to an electrical corporation, and in the revenue and collections arising from that property, is not subject to setoff, counterclaim, surcharge, or defense by the electrical corporation or any other person or in connection with the reorganization, bankruptcy, or other insolvency of the electrical corporation or any other entity.

6. A successor to an electrical corporation, whether pursuant to any reorganization, bankruptcy, or other insolvency proceeding or whether pursuant to any merger or acquisition, sale, other business combination, or transfer by operation of law, as a result of electrical corporation restructuring or otherwise, shall perform and satisfy all obligations of, and have the same duties and rights under a financing order as, the electrical corporation to which the financing order applies, and shall perform the duties and exercise the rights in the same manner and to the same extent as the electrical corporation, including collecting and paying to any person entitled to receive the revenues, collections, payments, or proceeds of MO-EBRA property described in the financing order.

386.955. 1. Banks, trust companies, savings and loan associations, insurance companies, executors, administrators, guardians, trustees, and other fiduciaries may legally invest any moneys within their control in MO-EBRA bonds. Political subdivisions may invest public funds in MO-EBRA bonds. Within the maturity parameters established for the investment of state funds by the state treasurer's office, MO-EBRA bonds are eligible for investment of state moneys.

2. MO-EBRA bonds issued under a financing order are not debt of, or a pledge of, the faith and credit or taxing power of the state; any agency of the state; or any county, municipality, or other political subdivision of the state. Holders of MO-EBRA bonds have no right to have taxes levied by the state or by any county, municipality, or other political subdivision of the state for the payment of the principal or interest on MO-EBRA bonds. The issuance of MO-EBRA bonds shall not directly, indirectly, or contingently obligate the state, or a political subdivision of the state, to levy any tax or make any appropriation for payment of principal or interest on the MO-EBRA bonds.

3. The state, or any political subdivision thereof, shall not:

(1) Take or permit any action that impairs the value of MO-EBRA property; or

(2) Reduce, alter, or impair MO-EBRA charges that are imposed, collected, and remitted for the benefit of holders of MO-EBRA bonds, any assignee or successor, and any financing parties, until any principal, interest, and redemption premium payable on MO-EBRA bonds, all financing costs, and all amounts to be paid to an assignee, a successor, or financing party under an ancillary agreement are paid in full.

4. There shall be no local or state taxes imposed on interest income earned by holders of MO-EBRA bonds.

386.960. An assignee or financing party that is not regulated by the commission shall not become subject to commission regulation solely as a result of engaging in any transaction authorized by or described in sections 386.900 to 386.985.

386.965. 1. If any provision of sections 386.900 to 386.985 conflicts with any other law regarding the attachment, assignment, perfection, effect of perfection, or priority of any security interest in or transfer of MO-EBRA property, sections 386.900 to 386.985 shall govern.

2. Effective on the date that MO-EBRA bonds are first issued, if any provision of sections 386.900 to 386.985 is held to be invalid or is invalidated, such invalidation shall not affect any action allowed under sections 386.900 to 386.985 that was lawfully taken by the commission, an electrical corporation, an assignee, a collection agent, a financing party, a bondholder, or a party to an ancillary agreement before the occurrence, and any such action remains in full force and effect.

3. Nothing in sections 386.900 to 386.985 precludes an electrical corporation for which the commission has initially issued a financing order from applying to the commission for:

(1) A subsequent financing order amending an existing financing order; or

(2) An order approving the issuance of MO-EBRA bonds to refund all or a portion of an outstanding series of MO-EBRA bonds.

386.970. All of the following apply to any security interest in a MO-EBRA property to secure the repayment of the principal and interest on MO-EBRA bonds, amounts payable under any ancillary agreement, and other financing costs:

(1) The description or indication of MO-EBRA property in a transfer or security agreement and a financing statement is sufficient only if the description or indication refers to sections 386.900 to 386.985 and the financing order creating the MO-EBRA property;

(2) A security interest in MO-EBRA property is created, valid, and binding as soon as all of the following events have occurred:

(a) The financing order that describes the MO-EBRA property is issued;

(b) A security agreement is executed and delivered; and

(c) Value is received for the MO-EBRA bonds;

(3) Once a security interest in MO-EBRA property is created under subdivision (2) of this subsection, the security interest attaches without any physical delivery of collateral or any other act. The lien of the security interest is valid, binding, and perfected against all parties having claims of any kind in tort, contract, or otherwise against the person granting the security interest, regardless of whether such parties have notice of the lien, but only upon the filing of a financing statement with the commission. The commission shall maintain a financing statement filed under this subdivision;

(4) A security interest in MO-EBRA property is a continuously perfected security interest and shall have priority over any other lien, created by operation of law or otherwise, which may subsequently attach to the MO-EBRA property unless the holder of the security interest has agreed

in writing otherwise;

(5) An electrical corporation shall separate MO-EBRA property or revenue from other incoming moneys as soon as practicable. The electrical corporation shall avoid commingling of MO-EBRA and non-MO-EBRA moneys if possible. The priority of a security interest in MO-EBRA property shall not be affected by the commingling of MO-EBRA property or MO-EBRA revenue with other moneys. An assignee, bondholder, or financing party shall have a perfected security interest in the amount of all MO-EBRA property or MO-EBRA revenue that is pledged for the payment of MO-EBRA bonds, even if the MO-EBRA property or MO-EBRA revenue is deposited in a cash or deposit account of the electrical corporation in which the MO-EBRA revenue is commingled with other moneys, and any other security interest that applies to the other moneys does not apply to the MO-EBRA revenue; and

(6) Neither a subsequent order of the commission amending a financing order nor application of an adjustment mechanism shall affect the validity, perfection, or priority of a security interest in or transfer of MO-EBRA property.

386.975. 1. A sale, assignment, or transfer of MO-EBRA property is an absolute transfer and true sale of, and not a pledge of or secured transaction relating to, the seller's right, title, and interest in, to, and under the MO-EBRA property if the documents governing the transaction expressly state that the transaction is a sale or other absolute transfer. A transfer of an interest in MO-EBRA property may be created only when all of the following have occurred:

- (1) The financing order creating and describing the MO-EBRA property has become effective;**
- (2) The documents evidencing the transfer of the MO-EBRA property have been executed and delivered to the assignee; and**
- (3) Value has been received.**

2. Upon the filing of a financing statement with the commission, a transfer of an interest in MO-EBRA property is perfected against all third persons, including any judicial lien or other lien creditors, or any claims of the seller or creditors of the seller, other than creditors holding a prior security interest, ownership interest, or assignment in the MO-EBRA property previously perfected.

3. The characterization of a sale, assignment, or transfer as an absolute transfer and true sale and the corresponding characterization of the property interest of the assignee shall not be affected or impaired by the existence or occurrence of any of the following:

- (1) Commingling of MO-EBRA revenue with other moneys;**
- (2) The retention by the seller of a partial or residual interest, including an equity interest, in the MO-EBRA property, whether direct or indirect, or whether subordinate or otherwise; or the right to recover costs associated with taxes, franchise fees, or license fees imposed on the collection of MO-EBRA revenue;**
- (3) Any indemnification rights, obligations, or repurchase rights made or provided by the seller;**
- (4) An obligation of the seller to collect MO-EBRA revenues on behalf of an assignee;**
- (5) The treatment of the sale, assignment, or transfer for tax, financial reporting, or other purposes;**

(6) Any subsequent financing order amending a financing order; or

(7) Any application of an adjustment mechanism as authorized by subdivision (7) of subsection 2 of section 386.920.

386.980. 1. Subject to commission approval of an application under subsection 2 of this section, as provided in a financing order, an electrical corporation may expend or invest MO-EBRA bond proceeds in a manner that demonstrably benefits ratepayer interests as follows:

(1) To purchase power to replace electricity generated by the electric generating facilities that were retired if the commission determines that the purchased power is a least-cost generation resource and is consistent with the electrical corporation's approved integrated resource plan;

(2) To build and own generation facilities that are least-cost generation resources, the addition of which is not inconsistent with the electrical corporation's approved integrated resource plan;

(3) To build, own, or purchase electricity storage capacity to the extent that such investment is either required by law or rule or is needed to increase the amount of least-cost generation resources in the general portfolio of the electrical corporation;

(4) To help customers invest in energy efficiency, including financing assistance;

(5) To invest in network modernization to the extent that the modernization is necessary to increase the amount of least-cost generation resources able to be added to the electrical corporation's system; except that proceeds shall not be used for new transmission facilities; and

(6) To refinance any outstanding debt at a lower true interest cost in such a way that lowers customer rates.

2. In considering any application for approval of the use of MO-EBRA bond proceeds under subsection 1 of this section, the commission shall use its regular process for consideration of applications.

386.985. The commission shall have the authority to promulgate rules to implement the provisions of sections 386.900 to 386.980. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2021, shall be invalid and void.”; and

3. The commission shall meet at least quarterly in accordance with its rules. In addition, special meetings may be called by the chair or any two members of the commission upon twenty-four-hour written notice to each member. No action of the commission shall be binding unless taken at a meeting at which at least three of the five members are present and shall vote in favor thereof.

4. The commission shall perform all duties and have all the powers and responsibilities conferred and imposed upon it relating to excursion gambling boats and, after June 30, 1994, the lawful operation of the game of bingo under this chapter. 5. On April 29, 1993, all the authority, powers, duties, functions, records, personnel, property, matters pending and all other pertinent vestiges of the state tourism commission relating to the regulation of excursion gambling boats and, after June 30, 1994, of the department of revenue relating to the regulation of the game of bingo shall be transferred to the Missouri gaming commission.

Any person who knowingly violates the provisions of this subsection is guilty of a class E felony. Any such member, officer or employee who personally and knowingly violates the provisions of this subsection, in addition to the foregoing penalty, shall, upon conviction, immediately and thereupon forfeit his office or employment. For purposes of this subsection, "appointed official" shall mean any official of this state or of any city or county authorized under subsection 10 of section 313.812 appointed to a position which has discretionary powers over the operations of any licensee or applicant for licensure by the commission. This shall only apply if the appointed official has a direct ownership interest in an excursion gambling boat licensed by the commission or which has applied for a license to the commission to be docked within the jurisdiction of his or her appointment. No elected or appointed official, his or her spouse or dependent child shall, while in such office or within two years after termination of his or her office or position, be employed by an applicant for an excursion gambling boat license or an excursion gambling boat licensed by the commission. Any other person related to an elected or appointed official within the second degree of consanguinity or affinity employed by an applicant for an excursion gambling boat license or excursion gambling boat licensed by the commission shall disclose this relationship to the commission. Such disclosure shall be in writing and shall include who is employing such individual, that person's relationship to the elected or appointed official, and a job description for which the person is being employed. The commission may require additional information as it may determine necessary.

11. The commission may enter into contracts with any private entity the commission deems necessary

to carry out the duties of the commission, other than criminal law enforcement, provision of legal counsel before the courts and other agencies of this state, and the enforcement of liquor laws. The commission may require provisions for special auditing requirements, investigations and restrictions on the employees of any private entity with which a contract is entered into by the commission.

12. Notwithstanding the provisions of chapter 610 to the contrary, all criminal justice records shall be available to any agency or commission responsible for licensing or investigating applicants or licensees applying to any gaming commission of this state.”; and

Further amend said bill and section, page 18, line 519, by inserting after all of said line the following:

“208.153. 1. Pursuant to and not inconsistent with the provisions of sections 208.151 and 208.152, the MO HealthNet division shall by rule and regulation define the reasonable costs, manner, extent, quantity, quality, charges and fees of MO HealthNet benefits herein provided. The benefits available under these sections shall not replace those provided under other federal or state law or under other contractual or legal entitlements of the persons receiving them, and all persons shall be required to apply for and utilize all benefits available to them and to pursue all causes of action to which they are entitled. Any person entitled to MO HealthNet benefits may obtain it from any provider of services with which an agreement is in effect under this section and which undertakes to provide the services, as authorized by the MO HealthNet division, **provided, said provider shall not include any abortion facility, as defined in section 188.015, or any affiliate or associate thereof.** At the discretion of the director of the MO HealthNet division and

with the approval of the governor, the MO HealthNet division is authorized to provide medical benefits for participants receiving public assistance by expending funds for the payment of federal medical insurance premiums, coinsurance and deductibles pursuant to the provisions of Title XVIII B and XIX, Public Law 89-97, 1965 amendments to the federal Social Security Act (42 U.S.C. 301, et seq.), as amended.

2. MO HealthNet shall include benefit payments on behalf of qualified Medicare beneficiaries as defined in 42 U.S.C. Section 1396d(p). The family support division shall by rule and regulation establish which qualified Medicare beneficiaries are eligible. The MO HealthNet division shall define the premiums, deductible and coinsurance provided for in 42 U.S.C. Section 1396d(p) to be provided on behalf of the qualified Medicare beneficiaries.

3. MO HealthNet shall include benefit payments for Medicare Part A cost sharing as defined in clause (p)(3)(A)(i) of 42 U.S.C. 1396d on behalf of qualified disabled and working individuals as defined in subsection (s) of Section 42 U.S.C. 1396d as required by subsection (d) of Section 6408 of P.L. 101-239 (Omnibus Budget Reconciliation Act of 1989). The MO HealthNet division may impose a premium for such benefit payments as authorized by paragraph (d)(3) of Section 6408 of P.L. 101-239.

4. MO HealthNet shall include benefit payments for Medicare Part B cost sharing described in 42 U.S.C. Section 1396(d)(p)(3)(A)(ii) for individuals described in subsection 2 of this section, but for the fact that their income exceeds the income level established by the state under 42 U.S.C. Section 1396(d)(p)(2) but is less than one hundred and ten percent beginning January 1, 1993, and less than one hundred and twenty percent beginning January 1, 1995, of the official poverty line for a family of the size involved.

5. For an individual eligible for MO HealthNet under Title XIX of the Social Security Act, MO HealthNet shall include payment of enrollee premiums in a group health plan and all deductibles, coinsurance and other cost-sharing for items and services otherwise covered under the state Title XIX plan under Section 1906 of the federal Social Security Act and regulations established under the authority of Section 1906, as may be amended. Enrollment in a group health plan must be cost effective, as established by the Secretary of Health and Human Services, before enrollment in the group health plan is required. If all members of a family are not eligible for MO HealthNet and enrollment of the Title XIX eligible members in a group health plan is not possible unless all family members are enrolled, all premiums for noneligible members shall be treated as payment for MO HealthNet of eligible family members. Payment for noneligible family members must be cost effective, taking into account payment of all such premiums. Non-Title XIX eligible family members shall pay all deductible, coinsurance and other cost-sharing obligations. Each individual as a condition of eligibility for MO HealthNet benefits shall apply for enrollment in the group health plan.

6. Any Social Security cost-of-living increase at the beginning of any year shall be disregarded until the federal poverty level for such year is implemented.

7. If a MO HealthNet participant has paid the requested spenddown in cash for any month and subsequently pays an out-of-pocket valid medical expense for such month, such expense shall be allowed as a deduction to future required spenddown for up to three months from the date of such expense.”; and

Further amend said bill, page 25, Section B, lines 1-5, by striking all of said lines and inserting in lieu thereof the following:

“Section B. Notwithstanding the provisions of section 1.140 to the contrary, the provisions of this act shall be nonseverable, and if any provision is for any reason held to be invalid, such decision shall invalidate

all of the remaining provisions of this act.”; and
