(4) Except as provided in [subsection 2 of this] section **115.160**, no officer, agency, or organization shall collect or submit a voter registration application with an electronic signature to an election authority without first obtaining approval of the data and signature format from the local election authority and the approval of the voter to collect and store the signature and data; and

(5) Local election authorities who maintain a voter registration application system shall direct voter

registration applicants from other jurisdictions to the system used by the local election authority for that jurisdiction to accept voter registration applications electronically.

2. [A system maintained by the secretary of state's office shall be used to accept voter registration applications electronically subsequent to approval from the committee formed as set forth in this subsection:

(1) Within thirty days of, but in no event prior to January 1, 2017, the president of the Missouri Association of County Clerks and Election Authorities shall appoint fourteen of its members to serve on a committee to approve and develop uniform standards, systems, and modifications that shall be used by the secretary of state in any electronic voter registration application system offered by that office. The committee may also make recommendations regarding the purchase, maintenance, integration, and operation of electronic databases, software, and hardware used by local election authorities and the secretary of state's office including, but not limited to, systems used for military and overseas voting and for building and conducting election operations. In addition, one representative appointed by the secretary of state's office shall serve on the committee;

(2) The committee shall immediately meet to approve electronic signature formats and a minimum set of data collection standards for use in a voter registration application system maintained by the secretary of state;

(3) Once the format and data collection standards are approved by the committee and implemented for the system maintained by the secretary of state, local election authorities shall accept the transmission of voter registration applications submitted to the approved system under the provisions of sections 432.200 to 432.295;

(4) The secretary of state's office shall direct eligible voters to a local election authority's system to accept voter registration applications electronically if the local election authority has a system in place as of August 28, 2016, or implements a system that meets the same standards and format that has been approved by the committee for the secretary of state's system;

(5) The committee shall meet not less than semiannually through June 30, 2019, to recommend and approve changes and enhancements proposed by the secretary of state or election authorities to the electronic voter registration application system. Vacancies that occur on the committee shall be filled by the president of the Missouri Association of County Clerks and Election Authorities at the time of the vacancy;

(6) To improve the accuracy of voter registration application data and reduce costs for local election authorities, the system maintained by the secretary of state shall, as soon as is practical, provide a method where the data entered by the voter registration applicant does not have to be re-entered by the election authority to the state voter registration database.

3.] Each applicant who registers using an approved electronic voter registration application system shall be deemed to be registered as of the date the signed application is submitted to the system, if such application is accepted and not rejected by the election authority and the verification notice required under section 115.155 is not returned as undeliverable by the postal service.

[7. Notwithstanding the provisions of section 432.230] **6. Except as provided under sections 115.160 and 432.230**, nothing in this section shall require the election authority to accept voter registration records or signatures created, generated, sent, communicated, received, stored, or otherwise processed, or used by electronic means or in electronic form from any officer, agency, or organization [not authorized under subsection 2 of this section] without prior approval from the election authority. **Election authorities shall accept and process voter registration records, including electronic images of applicant signatures, transmitted electronically by the division of motor vehicle and drivers licensing of the department of revenue under section 115.160.** Except as provided in [subsection 2 of this section] **section 115.160**, no officer, agency, or organization shall give the voter the opportunity to submit a voter registration application with an electronic signature without first obtaining the approval of the local election authority.

[8.] **7.** An election authority that agrees to conduct a transaction by electronic means may refuse to conduct other transactions by electronic means.

[9.] **8.** No election authority or the secretary of state shall furnish to any member of the public any data collected under a voter registration application system except as authorized in subsections 1 to 5 of section 115.157.
