**Description:** This program allows a portion of the new state and local taxes created by a redevelopment project to be diverted to fund eligible public infrastructure projects, along with related costs for a period of 25 years. The purpose of the program is to facilitate the redevelopment of downtown areas and the creation of jobs by providing essential public infrastructure. An appropriation is needed to be able to capture the net new taxes generated because of the redevelopment project and be diverted to pay the debt service on bonds issued to fund the project.

This request is needed to increase the GR Transfer to accompany Missouri One Start's request for additional program funds to assist companies with their recruitment and training needs. Historically, training requests have far exceeded the annual appropriation for the Missouri One Start Job Development Fund. With the purpose of creating and retaining jobs in Missouri, a significant portion of these additional funds will assist both new and existing companies in recruiting the right workforce.													
The Missouri One Start Job Development Fund requires a GR transfer; the accompanying New Decision Item can also be found in the Department request. House did not recommend additional funds via the transfer of GR.

**Description:** The Missouri One Start Job Retention Training Program offers an incentive for the retention of existing jobs by providing education and training to existing industries. The program targets companies with plans to move outside the state to find skilled labor by providing assistance for workers to increase their skill level. The training is financed through the sale of bonds based on the number of jobs created and their respective wage rates. The debt is then retired by diverting a portion of the employer's withholding tax on the newly created jobs. DED must have this appropriation authority to disseminate money to the trustees to retire the bonds.

The evaluation will: (1) evaluate the effectiveness of DED's programs; (2) identify opportunities for improvement; and (3) examine the relative competitiveness and effectiveness of DED's workforce programs as economic development tools. Second, in 2018, the DED undertook the Best in the Midwest initiative which evaluated DED's effectiveness and efficiency and compared to other Midwestern states and economic development agencies. The second research project would provide an update on the original Best in Midwest analysis, to examine the Department's progress since its transformation. OTH funds are Economic Development Advancement Fund.
