Section 4.490 – Multimodal Operations – Transit Assistance

Book 2, Page 493

This program provides operating assistance to 34 public transportation providers. Passenger fares cover less than 20 percent of the direct operating cost to provide transit mobility services. Actual allocation amounts will be dependent on the total number of grant applications received as well as any new qualified applicants that might enter the program for the first time in fiscal year 2019. The funding helps maintain some level of assistance to the public transportation providers in Missouri.
