SECOND REGULAR SESSION
SENATE COMMITTEE SUBSTITUTE FOR
HOUSE COMMITTEE SUBSTITUTE FOR

HOUSE BILL NO. 1552

101ST GENERAL ASSEMBLY

3565S.06C

ADRIANE D. CROUSE, Secretary

AN ACT

To repeal section 160.415, RSMo, and to enact in lieu thereof one new section relating to funding for charter schools.

Be it enacted by the General Assembly of the State of Missouri, as follows:

Section A. Section 160.415, RSMo, is repealed and one new section enacted in lieu thereof, to be known as section 160.415, to read as follows:

160.415. 1. This section shall be known and may be cited as the "Charter School Funding Act."

2. For the purposes of calculation and distribution of state school aid under section 163.031, pupils enrolled in a charter school shall be included in the pupil enrollment of the school district within which each pupil resides. Each charter school shall report the [names, addresses, and] eligibility for free and reduced price lunch, special education, or limited English proficiency status, as well as eligibility for categorical aid, of pupils resident in a school district who are enrolled in the charter school to the school district in which those pupils reside. The charter school shall report the average daily attendance data, free and reduced price lunch count, special education pupil count, and limited English proficiency pupil count to the state department of elementary and secondary education.

EXPLANATION-Matter enclosed in bold-faced brackets [thus] in this bill is not enacted and is intended to be omitted in the law.
Each charter school shall promptly notify the state department of elementary and secondary education and the pupil's school district when a pupil discontinues enrollment at a charter school.

[2.] 3. This subsection shall apply in all school districts, except metropolitan school districts, for all school years ending before July 1, 2023. This subsection shall apply in all metropolitan school districts for all school years ending before July 1, 2028. Except as provided in subsections 3 and 4 of this section, the aid payments for charter schools shall be as described in this subsection.

(1) A school district having one or more resident pupils attending a charter school shall pay to the charter school an annual amount equal to the product of the charter school's weighted average daily attendance and the state adequacy target, multiplied by the dollar value modifier for the district, plus local tax revenues per weighted average daily attendance from the incidental and teachers' funds in excess of the performance levy as defined in section 163.011 plus all other state aid attributable to such pupils.

(2) The district of residence of a pupil attending a charter school shall also pay to the charter school any other federal or state aid that the district receives on account of such pupil.

(3) If the department overpays or underpays the amount due to the charter school, such overpayment or underpayment shall be repaid by the charter school or credited to the charter school in twelve equal payments in the next fiscal year.

(4) The amounts provided pursuant to this subsection shall be prorated for partial year enrollment for a pupil.
A school district shall pay the amounts due pursuant to this subsection as the disbursal agent and no later than twenty days following the receipt of any such funds. The department of elementary and secondary education shall pay the amounts due when it acts as the disbursal agent within five days of the required due date.

[3.] 4. This subsection shall apply in all school districts, except metropolitan school districts, for all school years ending before July 1, 2023. This subsection shall apply in all metropolitan school districts for all school years ending before July 1, 2028. A workplace charter school shall receive payment for each eligible pupil as provided under subsection 2 of this section, except that if the [student] pupil is not a resident of the district and is participating in a voluntary interdistrict transfer program, the payment for such pupils shall be the same as provided under section 162.1060.

[4.] 5. This subsection shall apply in all school districts, except metropolitan school districts, for all school years ending before July 1, 2023. This subsection shall apply in all metropolitan school districts for all school years ending before July 1, 2028. A charter school that has declared itself as a local educational agency shall receive from the department of elementary and secondary education an annual amount equal to the product of the charter school's weighted average daily attendance and the state adequacy target, multiplied by the dollar value modifier for the district, plus local tax revenues per weighted average daily attendance from the incidental and teachers funds in excess of the performance levy as defined in section 163.011 plus all other state aid attributable to such pupils. If a charter school declares itself as a local
educational agency, the department of elementary and secondary education shall, upon notice of the declaration, reduce the payment made to the school district by the amount specified in this subsection and pay directly to the charter school the annual amount reduced from the school district's payment.

[5.] 6. This subsection shall apply in all school districts, except metropolitan school districts, for all school years ending before July 1, 2023. This subsection shall apply in all metropolitan school districts for all school years ending before July 1, 2028. If a school district fails to make timely payments of any amount for which it is the disbursal agent, the state department of elementary and secondary education shall authorize payment to the charter school of the amount due pursuant to subsection 2 of this section and shall deduct the same amount from the next state school aid apportionment to the owing school district. If a charter school is paid more or less than the amounts due pursuant to this section, the amount of overpayment or underpayment shall be adjusted equally in the next twelve payments by the school district or the department of elementary and secondary education, as appropriate. Any dispute between the school district and a charter school as to the amount owing to the charter school shall be resolved by the department of elementary and secondary education, and the department's decision shall be the final administrative action for the purposes of review pursuant to chapter 536. During the period of dispute, the department of elementary and secondary education shall make every administrative and statutory effort to allow the continued education of [children] students in their current [public] charter school setting.
The charter school and a local school board may agree by contract for services to be provided by the school district to the charter school. The charter school may contract with any other entity for services. Such services may include but are not limited to food service, custodial service, maintenance, management assistance, curriculum assistance, media services and libraries and shall be subject to negotiation between the charter school and the local school board or other entity. Documented actual costs of such services shall be paid for by the charter school.

In the case of a proposed charter school that intends to contract with an education service provider for substantial educational services or management services, the request for proposals shall additionally require the charter school applicant to:

1. Provide evidence of the education service provider's success in serving student populations similar to the targeted population, including demonstrated academic achievement as well as successful management of nonacademic school functions, if applicable;

2. Provide a term sheet setting forth the proposed duration of the service contract; roles and responsibilities of the governing board, the school staff, and the service provider; scope of services and resources to be provided by the service provider; performance evaluation measures and time lines; compensation structure, including clear identification of all fees to be paid to the service provider; methods of contract oversight and enforcement; investment disclosure; and conditions for renewal and termination of the contract;
(3) Disclose any known conflicts of interest between
the school governing board and proposed service provider or
any affiliated business entities;

(4) Disclose and explain any termination or nonrenewal
of contracts for equivalent services for any other charter
school in the United States within the past five years;

(5) Ensure that the legal counsel for the charter
school shall report directly to the charter school's
governing board; and

(6) Provide a process to ensure that the expenditures
that the education service provider intends to bill to the
charter school shall receive prior approval of the governing
board or its designee.

[8.][9.] 9. A charter school may enter into contracts with
community partnerships and state agencies acting in
collaboration with such partnerships that provide services
to [children] students and their families linked to the
school.

[9.][10.] 10. A charter school shall be eligible for
transportation state aid pursuant to section 163.161 and
shall be free to contract with the local district, or any
other entity, for the provision of transportation to the
students of the charter school.

[10.][11.] 11. (1) The proportionate share of state and
federal resources generated by students with disabilities or
staff serving them shall be paid in full to charter schools
enrolling those students by their school district where such
enrollment is through a contract for services described in
this section. The proportionate share of money generated
under other federal or state categorical aid programs shall
be directed to charter schools serving such students
eligible for that aid.
(2) A charter school shall provide the special services provided pursuant to section 162.705 and may provide the special services pursuant to a contract with a school district or any provider of such services.

[11.] 12. A charter school shall not charge tuition or impose fees that a school district is prohibited from charging or imposing, except that a charter school may receive tuition payments from districts in the same or an adjoining county for nonresident students who transfer to an approved charter school, as defined in section 167.895, from an unaccredited district.

[12.] 13. A charter school is authorized to incur debt in anticipation of receipt of funds. A charter school may also borrow to finance facilities and other capital items. A school district may incur bonded indebtedness or take other measures to provide for physical facilities and other capital items for charter schools that it sponsors or contracts with. Except as otherwise specifically provided in sections 160.400 to 160.425, upon the dissolution of a charter school, any liabilities of the corporation will be satisfied through the procedures of chapter 355. A charter school shall satisfy all its financial obligations within twelve months of notice from the sponsor of the charter school's closure under subsection 8 of section 160.405. After satisfaction of all its financial obligations, a charter school shall return any remaining state and federal funds to the department of elementary and secondary education for disposition as stated in subdivision (17) of subsection 1 of section 160.405. The department of elementary and secondary education may withhold funding at a level the department determines to be adequate during a school's last year of operation until the department
determines that school records, liabilities, and reporting
requirements, including a full audit, are satisfied.

[14.] 14. Charter schools shall not have the power to
acquire property by eminent domain.

[15.] 15. The governing [body] board of a charter
school is authorized to accept grants, gifts or donations of
any kind and to expend or use such grants, gifts or
donations. A grant, gift or donation [may] shall not be
accepted by the governing [body] board if it is subject to
any condition contrary to law applicable to the charter
school or other public schools, or contrary to the terms of
the charter.

16. (1) As used in this section, the following terms
mean:

(a) "Department", the department of elementary and
secondary education;

(b) "Local aid", all local and county revenue received
by the school district and charter schools within the school
district. The term "local aid":
a. Includes, but is not limited to, the following:
(i) Property taxes and delinquent taxes;
(ii) Merchants' and manufacturers' tax revenues,
except that an urban school district containing most or all
of a city with more than four hundred thousand inhabitants
and located in more than one county may annually withhold
merchants' and manufacturers' tax revenues required for
repayment of Series 2009, Series 2010, Series 2015, and
Series 2016 bonds. Such school district shall not withhold
merchants' and manufacturers' tax revenues after the fiscal
year ending June 30, 2036;
(iii) Financial institutions' tax revenues;
(iv) City sales tax revenue, including city sales tax collected in any city not within a county, but excludes city sales tax revenue collected but withheld by any metropolitan school district pursuant to a court mandated desegregation settlement agreement if a federal court issues a final decision finding the city sales tax may only be used by the metropolitan school district;

(v) Payments in lieu of taxes;

(vi) Revenues from state-assessed railroad and utilities tax; or

(vii) Any future aid; and

b. Shall not be construed to include:

(i) Charitable contributions, gifts, and grants made to school districts and charter schools;

(ii) Interest earnings of school districts and charter schools;

(iii) Student fees paid to school districts and charter schools;

(iv) Debt service authorized by a public vote for the purpose of making payments on a bond issuance of a school district;

(v) Proposition C revenues received for school purposes from the school district trust fund under section 163.087;

(vi) Any funding solely intended for any special school district providing services to students in any county with more than one million inhabitants; or

(vii) Any other funding solely intended for a particular school district or charter school and its respective employees, schools, foundations, or organizations.

(2) Notwithstanding any other provision of law to the contrary, the calculation in this subsection shall be used
to calculate state and local aid for charter schools
operated only:
    (a) In a metropolitan school district;
    (b) In an urban school district containing most or all
        of a city with a population greater than three hundred fifty
        thousand inhabitants;
    (c) In a school district that has been classified as
        unaccredited by the state board of education;
    (d) In a school district that has been classified as
        provisionally accredited by the state board of education and
        has received scores on its annual performance report
        consistent with a classification of provisionally accredited
        or unaccredited for three consecutive school years beginning
        with the 2012-2013 accreditation year under the conditions
        described in paragraphs (a) and (b) of subdivision (4) of
        subsection 2 of section 160.400; or
    (e) In a school district that has been accredited
        without provisions, sponsored only by the local school board
        under the conditions described in subdivision (5) of
        subsection 2 of section 160.400.
(3) Each charter school and each school district
responsible for distributing local aid to charter schools
under this subsection shall include as part of its annual
independent audit an audit of pupil residency, enrollment,
and attendance in order to verify pupil residency in the
school district or local educational agency.
(4) A school district having one or more resident
pupils attending a charter school shall pay to the charter
school an annual amount equal to the product of the charter
school's weighted average daily attendance and the state
adequacy target, multiplied by the dollar value modifier for
the district, less the charter school's share of local
effort as defined in section 163.011 plus all other state
aid attributable to such pupils plus local aid received by
the school district divided by the total weighted average
daily attendance of the school district and all charter
schools within the school district per weighted average
daily attendance of the charter school.

(5) A charter school that has declared itself a local
educational agency shall receive all state aid calculated
under this subsection from the department and all local aid
calculated under this subsection from the school district
within which the charter school is operating. A charter
school shall receive an annual amount equal to the product
of the charter school's weighted average daily attendance
and the state adequacy target, multiplied by the dollar
value modifier for the district, less the charter school's
share of local effort as defined in section 163.011 plus all
other state aid attributable to such pupils plus local aid
received by the school district divided by the total
weighted average daily attendance of the school district and
all charter schools within the school district per weighted
average daily attendance of the charter school.

(6) (a) The school district with charter schools
operating within the district shall withhold, from the
January local effort payment received by the school
district, an annual administrative fee for the purpose of
supporting administrative costs the school district incurs
for charter schools operating within the school district.
In all school districts except a metropolitan school
district, the administrative fee shall be equal to one-
fourth of one percent of the sum of the prior year's state
aid received by the school district, the prior year's state
aid received by the charter school within the school
district, and the prior year's local aid received by the
school district and the charter schools within the school
district. The administrative fee in a metropolitan school
district shall be equal to two percent of the sum of the
prior year's state aid received by the school district, the
prior year's state aid received by the charter school within
the school district, and the prior year's local aid received
by the school district and the charter schools within the
school district. As used in this paragraph, "state aid"
means the product of the school district or charter school's
weighted average daily attendance and the state adequacy
target, multiplied by the dollar value modifier for the
district, less the school district or charter school's share
of local effort as defined in section 163.011.

(b) On or before December thirty-first of each year,
any school district that has charter schools operating
within the district shall transmit to the department the
total annual local aid calculation described in subdivision
(7) of this subsection. If the school district fails to
transmit the annual local aid calculation to the department,
the school district shall not withhold the administrative
fee.

(c) The department shall calculate the administrative
fee under the formula in this subdivision using data from
the previous school year. On or before January fifteenth of
the following year, the department shall transmit to any
school district that has charter schools operating within
the district the calculation of the administrative fee and
make such calculation publicly available on the department's
website.

(7) Each month any school district that has charter
schools operating within the district shall calculate the
amount of local aid received by the school district that is
owed to the charter schools by the school district under
this subsection. The school district shall pay to the
charter school the amount of local aid owed to the charter
school, as calculated by the school district using the
previous month's weighted average daily attendance of the
charter school. If any payment of local aid is due, the
school district shall make monthly payments on the twenty-
first day of each month or upon the closest business day,
beginning in July of each year.

(a) If the school district fails to make timely
payment, the department shall impose any penalty the
department deems appropriate.

(b) The school district shall, as part of its annual
audit as required under section 165.111, include a report
converting the local aid received by the district from an
accrual basis to a cash basis. Such report shall be made
publicly available on its district website in a searchable
format or as a downloadable and searchable document.

(8) The department shall conduct an annual review of
any payments made in the previous fiscal year under
subdivision (7) of this subsection to determine if there has
been any underpayment or overpayment. The annual review, to
be conducted in January of each year, shall include a
calculation of the amount of local aid owed to charter
schools using the first preceding year's annual audit
required under section 165.111. A school district shall pay
to a charter school operating in the district the amount of
local aid owed to the charter school as calculated by the
department. In the event of an underpayment, the school
district shall remit the underpayment amount to the charter
school. In the event of an overpayment, the charter school shall remit the overpayment amount to the school district.

(a) If the school district fails to remit any underpayment amount to the charter school within thirty days of notification of the underpayment amount, the department shall impose any penalty the department deems appropriate.

(b) If the charter school fails to remit any overpayment amount owed to the school district within thirty days of notification of the overpayment amount, the department shall impose any penalty the department deems appropriate.

(9) If a prior year correction of the amount of local aid is necessary, the school district shall recalculate the amount owed to a charter school and either remit any underpayment amount to the charter school or provide a bill to the charter school for any overpayment amount. Any underpayment or overpayment amount shall be remitted under the schedules in paragraphs (a) and (b) of subdivision (8) of this subsection.

(10) (a) For the purposes of this subdivision, net cost for providing special educational services for the school district with charter schools operating within the school district and each charter school within the school district shall be calculated as the total special educational services costs minus the total special educational services funding.

(b) For the purposes of this subdivision, total special educational services costs shall be calculated as the sum of the total cost of the following as reported on the annual secretary of the board report for the school district with charter schools operating within the district and each charter school within the school district:
a. Department-defined special education instruction;
b. Tuition for special education programs;
c. Health services;
d. Psychology services;
e. Speech and language services;
f. Audiology services;
g. Occupational therapy;
h. Physical therapy;
i. Visually impaired services;
j. Special education transportation services; and
k. Tuition to other districts within the state that fulfill requirements of the voluntary interdistrict coordinating council program.

(c) For the purposes of this subdivision, total special educational services funding shall be calculated as the sum of the state aid and local effort per weighted average daily attendance for the school district and the sum of the state aid and local aid per weighted average daily attendance for the charter schools within the school district multiplied by the total number of students with an individualized educational plan as reported in December of each year to the department, plus any funds received under section 162.974, plus any funds received under the federal Individuals with Disabilities Education Act (IDEA) (20 U.S.C. Section 1400 et seq.), as amended, plus any additional weighted state aid funds received as a result of serving a percentage of special education students that exceeds the special educational threshold as defined in section 163.011.

(d) Each school district that has charter schools operating within the school district and each charter school shall, as part of the annual audit provided to the
department, report the number of students with an individualized educational plan, the costs incurred for providing special educational services as described in paragraph (b) of this subdivision, the amount of funds drawn down under section 162.974, and the amount of funds drawn down under the federal Individuals with Disabilities Education Act (IDEA) (20 U.S.C. Section 1400 et seq.), as amended.

(e) On or before February fourteenth of each year, the department shall calculate for each school district that has charter schools operating within the school district and each charter school the net cost for providing special educational services. The department shall transmit such calculations to the school district or charter school and make such calculations publicly available on the department's website.

(f) The February local aid payment to charter schools within the school district shall be paid from the total local aid funds received in January by the school district. The February local aid payment per weighted average daily attendance to charter schools within the school district shall be calculated as follows:

a. The school district shall withhold the administrative fee described in paragraph (a) of subdivision (6) of this subsection from the total local aid funds received in January by the school district;

b. After withholding the administrative fee, the school district shall withhold from the remaining local aid funds an amount equal to the school district's prior year positive net cost for providing special educational services only if the school district is determined to have a positive
net cost by the department under paragraph (e) of this subdivision;

c. After withholding the administrative fee, the school district shall withhold from the remaining local aid funds an amount equal to the sum of the prior year positive net cost for providing special educational services for charter schools within the school district determined to have a positive net cost by the department under paragraph (e) of this subdivision. Before March first of each year, the school district shall distribute such funds to each charter school determined to have a positive net cost an amount equal to each charter school's positive net cost as calculated under paragraph (e) of this subdivision;

d. After withholding the administrative fee and special education funds under subparagraphs a., b., and c. of this paragraph, the school district shall divide the remaining local aid funds by the sum of the current year estimated weighted average daily attendance for January of the school district plus the sum of the current year estimated weighted average daily attendance for January of all charter schools within the school district; and

e. To determine the amount of the February local aid payment to each charter school within the school district, the school district shall multiply the value calculated under subparagraph d. of this paragraph by the current year estimated weighted average daily attendance for January for each charter school within the school district. The school district shall distribute the February local aid payment to each charter school within the school district before March first.

(g) The department shall adjust the net cost for providing special educational services for each charter
school and each school district that has charter schools operating within the school district based on the report required in paragraph (d) of this subdivision for reasons including, but not limited to, underreporting or overreporting the number of students with an individualized educational plan or the cost to provide services to students with an individualized educational plan, failure to draw down or accrue for within the applicable fiscal year all funds to which the charter school or school district is entitled under the federal Individuals with Disabilities Education Act (IDEA) (20 U.S.C. Section 1400 et seq.), as amended, and costs determined by the department to be excessive relative to the special educational services provided.

(h) Any funds received by the school district or charter school under this subdivision shall not be considered when calculating a withhold or payment under paragraph (f) of this subdivision in the following year.

(i) This subdivision shall apply beginning February 1, 2025.

(11) This subsection shall apply in all school districts listed in subdivision (2) of this section, except metropolitan school districts, for all school years beginning on or after July 1, 2023. This subsection shall apply in all metropolitan school districts for all school years beginning on or after July 1, 2028.

17. The department may promulgate rules for the annual review of payments and any penalties to be assessed under subsection 15 of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to
all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2022, shall be invalid and void.

18. Notwithstanding the provisions of section 1.140 to the contrary, the provisions of this act shall be nonseverable, and if any provision is for any reason held to be invalid, such decision shall invalidate all of the remaining provisions of this act.
