(2) Flooding or other inclement weather as defined in subsection 1 of section 171.033 prevents students from attending the public school facility.

Such reduction shall not extend beyond two calendar years in duration.”; and

Further amend said bill, page 17, section 170.370, line 28, by inserting after all of said line the following:

“171.031. 1. Each school board shall prepare annually a calendar for the school term, specifying the opening date, days of planned attendance, and providing a minimum term of at least one hundred seventy-four days [for schools with] **and** a five-day school week [or one hundred forty-two days for schools with a four-day school week], and one thousand forty-four hours of actual pupil attendance. [In school year 2019-20 and subsequent years, one thousand forty-four hours of actual pupil attendance shall be required for the school term with no minimum number of school days.] In addition, such calendar shall include six make-up days for possible loss of attendance due to inclement weather as defined in subsection 1 of section 171.033. [In school year 2019-20 and subsequent years, such calendar shall include thirty-six

make-up hours for possible loss of attendance due to inclement weather, as defined in subsection 1 of section 171.033, with no minimum number of make-up days.]

2. Each local school district may set its opening date each year, which date shall be no earlier than fourteen calendar days prior to the first Monday in September. No public school district shall select an earlier start date unless, for calendars for school years before school year 2020-21, the district follows the procedure set forth in subsection 3 of this section. The procedure set forth in subsection 3 of this section shall be unavailable to school districts in preparing their calendars for school year 2020-21 and for subsequent years.

3. For calendars for school years before school year 2020-21, a district may set an opening date that is more than fourteen calendar days prior to the first Monday in September only if the local school board first gives public notice of a public meeting to discuss the proposal of opening school on a date more than fourteen days prior to the first Monday in September, and the local school board holds said meeting and, at the same public meeting, a majority of the board votes to allow an earlier opening date. If all of the previous conditions are met, the district may set its opening date more than fourteen calendar days prior to the first Monday in September. The condition provided in this subsection must be satisfied by the local school board each year that the board proposes an opening date more than fourteen days before the first Monday in September.

4. If any local district violates the provisions of this section, the department of elementary and secondary education shall withhold an amount equal to one quarter of the state funding the district generated under section 163.031 for each date the district was in violation of this section.

5. The provisions of subsections 2 to 4 of this section shall not apply to school districts in which school is in session for twelve months of each calendar year.

6. The state board of education may grant an exemption from this section to a school district that demonstrates highly unusual and extenuating circumstances justifying exemption from the provisions of subsections 2 to 4 of this section. Any exemption granted by the state board of education shall be valid for one academic year only.

171.033. 1. "Inclement weather", for purposes of this section, shall be defined as ice, snow, extreme cold, excessive heat, flooding, or a tornado.

2. [(1)] A district shall be required to make up the first six days of school lost or cancelled due to inclement weather and half the number of days lost or cancelled in excess of six days if the makeup of the days is necessary to ensure that the district's students will attend a minimum of one hundred forty-two days and a minimum of one thousand forty-four hours for the school year except as otherwise provided in this section. [Schools with a four-day school week may schedule such make-up days on Fridays.]

[(2)] Notwithstanding subdivision (1) of this subsection, in school year 2019-20 and subsequent years, a district shall be required to make up the first thirty-six hours of school lost or cancelled due to inclement weather and half the number of hours lost or cancelled in excess of thirty-six if the makeup of the hours is necessary to ensure that the district's students attend a minimum of one thousand forty-four hours for the school year, except as otherwise provided under subsections 3 and 4 of this section.]

3. (1) In the 2009-10 school year and subsequent years, a school district may be exempt from the requirement to make up days of school lost or cancelled due to inclement weather in the school district when the school district has made up the six days required under subsection 2 of this section and half the number of additional lost or cancelled days up to eight days, resulting in no more than ten total make-up days required by this section.

(2) In school year 2019-20 and subsequent years, a school district may be exempt from the requirement to make up school lost or cancelled due to inclement weather in the school district when the school district has made up the thirty-six hours required under subsection 2 of this section and half the number of additional lost or cancelled hours up to forty-eight, resulting in no more than sixty total make-up hours required by this section.

4. The commissioner of education may provide, for any school district that cannot meet the minimum school calendar requirement of at least one hundred seventy-four days [for schools with a five-day school week or one hundred forty-two days for schools with a four-day school week] and one thousand forty-four hours of actual pupil attendance [or, in school year 2019-20 and subsequent years, one thousand forty-four hours of actual pupil attendance], upon request, a waiver to be excused from such requirement. This waiver shall be requested from the commissioner of education and may be granted if the school was closed due to circumstances beyond school district control, including inclement weather or fire.

5. (1) Except as otherwise provided in this subsection, in school year 2020-21 and subsequent years, a district shall not be required to make up any hours of school lost or cancelled due to exceptional or emergency circumstances during a school year if the district has an alternative methods of instruction plan approved by the department of elementary and secondary education for such school year. Exceptional or emergency circumstances shall include, but not be limited to, inclement weather, a utility outage, or an outbreak of a contagious disease. The department of elementary and secondary education shall not approve any such plan unless the district demonstrates that the plan will not negatively impact teaching and learning in the district.

(2) If school is closed due to exceptional or emergency circumstances and the district has an approved alternative methods of instruction plan, the district shall notify students and parents on each day of the closure whether the alternative methods of instruction plan is to be implemented for that day. If the plan is to be implemented on any day of the closure, the district shall ensure that each student receives assignments for that day in hard copy form or receives instruction through virtual learning or another method of instruction.

(3) A district with an approved alternative methods of instruction plan shall not use alternative methods of instruction as provided for in the plan for more than thirty-six hours during a school year. A district that has used such alternative methods of instruction for thirty-six hours during a school year shall be required, notwithstanding subsections 2 and 3 of this section, to make up any subsequent hours of school lost or cancelled due to exceptional or emergency circumstances during such school year.

(4) The department of elementary and secondary education shall give districts with approved alternative methods of instruction plans credit for the hours in which they use alternative methods of instruction by considering such hours as hours in which school was actually in session.

(5) Any district wishing to use alternative methods of instruction under this subsection shall submit an application to the department of elementary and secondary education. The application shall describe:

(a) The manner in which the district intends to strengthen and reinforce instructional content while supporting student learning outside the classroom environment;

(b) The process the district intends to use to communicate to students and parents the decision to implement alternative methods of instruction on any day of a closure;

(c) The manner in which the district intends to communicate the purpose and expectations for a day in which alternative methods of instruction will be implemented to students and parents;

(d) The assignments and materials to be used within the district for days in which alternative methods of instruction will be implemented to effectively facilitate teaching and support learning for the benefit of the students;

(e) The manner in which student attendance will be determined for a day in which alternative methods of instruction will be implemented. The method chosen shall be linked to completion of lessons and activities;

(f) The instructional methods, which shall include instruction through electronic means and instruction through other means for students who have no access to internet services or a computer;

(g) Instructional plans for students with individualized education programs; and

(h) The role and responsibility of certified personnel to be available to communicate with students.

6. In the 2022-23 school year and subsequent years, a school district's one-half-day education programs shall be subject to the following provisions in proportions appropriate for a one-half-day education program, as applicable:

(1) Requirements in subsection 2 of this section to make up days or hours of school lost or cancelled because of inclement weather;

(2) Exemptions in subsection 3 of this section;

(3) Waiver provisions in subsection 4 of this section; and
