NOTICE REQUIRED FOR UTILITY CUTOFFS

During the winter heating season, Missouri gas and electric utilities regulated by the Missouri Public Service Commission must give customers at least 10 days written notice before service may be disconnected and additional written or personal contact at least 96 hours prior to disconnection. Additionally, no disconnections may occur on any day in which the temperature is forecast to be below 30 degrees. These rules, which are in effect between Nov. 1 and March 31, also require customers whose service is about to be cut off to be told they might qualify for financial aid to help pay their utility bills. Elderly or disabled customers who register with utilities in advance are given even greater protection. Customers can get more information on these regulations by calling the **Missouri Public Service Commission** at 800-392-4211.
