

Journal of the Senate

FIRST REGULAR SESSION

FORTY-FIRST DAY - WEDNESDAY, MARCH 26, 2025

The Senate met pursuant to adjournment.

President Wasinger in the Chair.

The Reverend Stephen George offered the following prayer:

“Do nothing out of selfish ambition or vain conceit, but in humility consider others better than yourselves. Each of you should look not only to your own interests, but also to the interests of others.” (Philippians 2:3-4 NIV)

Heavenly Father, we come before You today with gratitude for the privilege of serving our state and its people. Your word instructs us to do nothing out of selfish ambition, but in humility to look out for the interests of others. Lord, let that truth guide our decisions today. Help us to lead not for personal gain or political advantage but for the good of those who have entrusted us with this responsibility. Grant us wisdom, clarity, and discernment as we debate policies that will shape the future of our communities. Bless this assembly, and may our efforts honor You and uplift those we serve. We ask this in Jesus’ name, Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

“135.621. 1. As used in this section, the following terms mean:

(1) “Contribution”, a donation of cash, stock, bonds, other marketable securities, or real property;

(2) “Department”, the department of social services;

(3) “Diaper bank”, **a national diaper bank or** a nonprofit entity located in this state established and operating primarily for the purpose of collecting or purchasing disposable diapers or other hygiene products for infants, children, or incontinent adults and that regularly distributes such diapers or other hygiene products through two or more schools, health care facilities, governmental agencies, or other nonprofit entities for eventual distribution to individuals free of charge;

(4) **“National diaper bank”, a nonprofit entity located in this state that meets the following criteria:**

(a) Collects, purchases, warehouses, and manages a community inventory of disposable diapers or other hygiene products for infants, children, or incontinent adults;

(b) Regularly distributes a consistent and reliable supply of such diapers or other hygiene products through two or more schools, health care facilities, governmental agencies, or other nonprofit entities for eventual distribution to individuals free of charge, with the intention of reducing diaper need; and

(c) Is a member of a national network organization serving all fifty states through which certification demonstrates nonprofit best practices, data-driven program design, and equitable distribution focused on best serving infants, children, and incontinent adults;

(5) “Tax credit”, a credit against the tax otherwise due under chapter 143, excluding withholding tax imposed under sections 143.191 to 143.265, or otherwise due under chapter 148 or 153;

[(5)] (6) “Taxpayer”, a person, firm, partner in a firm, corporation, or shareholder in an S corporation doing business in the state of Missouri and subject to the state income tax imposed under chapter 143; an insurance company paying an annual tax on its gross premium receipts in this state; any other financial institution paying taxes to the state of Missouri or any political subdivision of this state under chapter 148; an express company that pays an annual tax on its gross receipts in this state under chapter 153; an individual subject to the state income tax under chapter 143; or any charitable organization that is exempt from federal income tax and whose Missouri unrelated business taxable income, if any, would be subject to the state income tax imposed under chapter 143.

2. For all fiscal years beginning on or after July 1, 2019, a taxpayer shall be allowed to claim a tax credit against the taxpayer's state tax liability in an amount equal to fifty percent of the amount of such taxpayer's contributions to a diaper bank.

3. The amount of the tax credit claimed shall not exceed the amount of the taxpayer's state tax liability for the tax year for which the credit is claimed, and such taxpayer shall not be allowed to claim a tax credit in excess of fifty thousand dollars per tax year. However, any tax credit that cannot be claimed in the tax year the contribution was made may be carried over only to the next subsequent tax year. No tax credit issued under this section shall be assigned, transferred, or sold.

4. Except for any excess credit that is carried over under subsection 3 of this section, no taxpayer shall be allowed to claim a tax credit unless the taxpayer contributes at least one hundred dollars to one or more diaper banks during the tax year for which the credit is claimed.

5. The department shall determine, at least annually, which entities in this state qualify as diaper banks. 6. The department shall establish a procedure by which a taxpayer can determine if an entity has been classified as a diaper bank.

7. Diaper banks may decline a contribution from a taxpayer.

8. The cumulative amount of tax credits that may be claimed by all the taxpayers contributing to diaper banks in any one fiscal year shall not exceed five hundred thousand dollars. Tax credits shall be issued in the order contributions are received. If the amount of tax credits redeemed in a tax year is less than five hundred thousand dollars, the difference shall be added to the cumulative limit created under this subsection for the next fiscal year and carried over to subsequent fiscal years until claimed.

9. The department shall establish a procedure by which, from the beginning of the fiscal year until some point in time later in the fiscal year to be determined by the department, the cumulative amount of tax credits are equally apportioned among all entities classified as diaper banks. If a diaper bank fails to use all, or some percentage to be determined by the department, of its apportioned tax credits during this predetermined period of time, the department may reapportion such unused tax credits to diaper banks that have used all, or some percentage to be determined by the department, of their apportioned tax credits during this predetermined period of time. The department may establish multiple periods each fiscal year and reapportion accordingly. To the maximum extent possible, the department shall establish the procedure described under this subsection in such a manner as to ensure that taxpayers can claim as many of the tax credits as possible, up to the cumulative limit created under subsection 8 of this section.

10. Each diaper bank shall provide information to the department concerning the identity of each taxpayer making a contribution and the amount of the contribution. The department shall provide the information to the department of revenue. (3) This section shall terminate on September first of the calendar year immediately following the calendar year in which the program authorized under this section is sunset; and

(4) The provisions of this subsection shall not be construed to limit or in any way impair the department's ability to issue tax credits authorized on or before the date the program authorized under this section expires or a taxpayer's ability to redeem such tax credits.”; and

[The regional EMS advisory committees shall serve as a resource for the identification of potential members of the state advisory council on emergency medical services.]

[4.] 5. The state EMS medical director, as described under section 190.103, shall serve as an ex officio member of the council.

[5.] 6. The members of the council and subcommittees shall serve without compensation except that members of the council shall, subject to appropriations, be reimbursed for reasonable travel expenses and meeting expenses related to the functions of the council.

[6.] 7. The purpose of the council is to make recommendations to the governor, the general assembly, and the department on policies, plans, procedures and proposed regulations on how to improve the

statewide emergency medical services system. The council shall advise the governor, the general assembly, and the department on all aspects of the emergency medical services system.

[7.] 8. (1) There is hereby established a standing subcommittee of the council to monitor the implementation of the recognition of the EMS personnel licensure interstate compact under sections 190.900 to 190.939, the interstate commission for EMS personnel practice, and the involvement of the state of Missouri. The subcommittee shall meet at least biannually and receive reports from the Missouri delegate to the interstate commission for EMS personnel practice. The subcommittee shall consist of at least seven members appointed by the chair of the council, to include at least two members as recommended by the Missouri state council of firefighters and one member as recommended by the Missouri Association of Fire Chiefs. The subcommittee may submit reports and recommendations to the council, the department of health and senior services, the general assembly, and the governor regarding the participation of Missouri with the recognition of the EMS personnel licensure interstate compact.

(2) The subcommittee shall formally request a public hearing for any rule proposed by the interstate commission for EMS personnel practice in accordance with subsection 7 of section 190.930. The hearing request shall include the request that the hearing be presented live through the internet. The Missouri delegate to the interstate commission for EMS personnel practice shall be responsible for ensuring that all hearings, notices of, and related rulemaking communications as required by the compact be communicated to the council and emergency medical services personnel under the provisions of subsections 4, 5, 6, and 8 of section 190.930.

(3) The department of health and senior services shall not establish or increase fees for Missouri emergency medical services personnel licensure in accordance with this chapter for the purpose of creating the funds necessary for payment of an annual assessment under subdivision (3) of subsection 5 of section 190.924.

[8.] 9. The council shall consult with the time-critical diagnosis advisory committee, as described under section 190.257, regarding time-critical diagnosis.

190.109. 1. The department shall, within a reasonable time after receipt of an application, cause such investigation as the department deems necessary to be made of the applicant for a ground ambulance license.

2. Any person that owned and operated a licensed ambulance on December 31, 1997, shall receive an ambulance service license from the department, unless suspended, revoked or terminated, for that ambulance service area which was, on December 31, 1997, described and filed with the department as the primary service area for its licensed ambulances on August 28, 1998, provided that the person makes application and adheres to the rules and regulations promulgated by the department pursuant to sections 190.001 to 190.245.

3. The department shall issue a new ground ambulance service license to an ambulance service that is not currently licensed by the department, or is currently licensed by the department and is seeking to expand its ambulance service area, except as provided in subsection 4 of this section, to be valid for a period of five years, unless suspended, revoked or terminated, when the director finds that the applicant meets the requirements of ambulance service licensure established pursuant to sections 190.100 to 190.245 and the rules adopted by the department pursuant to sections 190.001 to 190.245. In order to be considered

for a new ambulance service license, an ambulance service shall submit to the department a letter of endorsement from each ambulance district or fire protection district that is authorized to provide ambulance service, or from each municipality not within an ambulance district or fire protection district that is authorized to provide ambulance service, in which the ambulance service proposes to operate. If an ambulance service proposes to operate in unincorporated portions of a county not within an ambulance district or fire protection district that is authorized to provide ambulance service, in order to be considered for a new ambulance service license, the ambulance service shall submit to the department a letter of endorsement from the county. Any letter of endorsement required pursuant to this section shall verify that the political subdivision has conducted a public hearing regarding the endorsement and that the governing body of the political subdivision has adopted a resolution approving the endorsement. The letter of endorsement shall affirmatively state that the proposed ambulance service:

- (1) Will provide a benefit to public health that outweighs the associated costs;
- (2) Will maintain or enhance the public's access to ambulance services;
- (3) Will maintain or improve the public health and promote the continued development of the regional emergency medical service system;
- (4) Has demonstrated the appropriate expertise in the operation of ambulance services; and
- (5) Has demonstrated the financial resources necessary for the operation of the proposed ambulance service.

4. A contract between a political subdivision and a licensed ambulance service for the provision of ambulance services for that political subdivision shall expand, without further action by the department, the ambulance service area of the licensed ambulance service to include the jurisdictional boundaries of the political subdivision. The termination of the aforementioned contract shall result in a reduction of the licensed ambulance service's ambulance service area by removing the geographic area of the political subdivision from its ambulance service area, except that licensed ambulance service providers may provide ambulance services as are needed at and around the state fair grounds for protection of attendees at the state fair.

5. The department shall renew a ground ambulance service license if the applicant meets the requirements established pursuant to sections 190.001 to 190.245, and the rules adopted by the department pursuant to sections 190.001 to 190.245.

6. The department shall promulgate rules relating to the requirements for a ground ambulance service license including, but not limited to:

- (1) Vehicle design, specification, operation and maintenance standards;
- (2) Equipment requirements;
- (3) Staffing requirements;
- (4) Five-year license renewal;
- (5) Records and forms;

- (6) Medical control plans;
- (7) Medical director qualifications;
- (8) Standards for medical communications;
- (9) Memorandums of understanding with emergency medical response agencies that provide advanced life support;
- (10) Quality improvement committees; [and]
- (11) Response time, patient care and transportation standards;
- (12) Participation with regional EMS advisory committees; and**
- (13) Ambulance service administrator qualifications.**

7. Application for a ground ambulance service license shall be made upon such forms as prescribed by the department in rules adopted pursuant to sections 190.001 to 190.245. The application form shall contain such information as the department deems necessary to make a determination as to whether the ground ambulance service meets all the requirements of sections 190.001 to 190.245 and rules promulgated pursuant to sections 190.001 to 190.245.

190.112. 1. Each ambulance service licensed under this chapter shall identify to the department an individual as the ambulance service administrator, who shall be responsible for the operations and staffing of the ambulance service.

2. Any individual identified as the ambulance service administrator under subsection 1 of this section shall be required to have achieved basic training of at least forty hours regarding the operations of an ambulance service and to complete two hours of annual continuing education to maintain the individual's status as the ambulance service administrator.

3. The training required under this section shall be offered by a statewide association organized for the benefit of ambulance districts or be approved by the state advisory council on emergency medical services. Such training shall include information on:

- (1) Basic principles of accounting and economics;**
- (2) State and federal laws applicable to ambulance services;**
- (3) Regulatory requirements applicable to ambulance services;**
- (4) Human resources management and laws;**
- (5) Grant writing, contracts, and fundraising;**
- (6) The state sunshine law requirements under chapter 610 and state ethics laws; and**
- (7) Volunteer and community involvement.**

4. Any individual serving as an ambulance service administrator as of August 28, 2025, shall have until January 1, 2027, to demonstrate compliance with the provisions of this section.

190.166. 1. In addition to the provisions of section 190.165, the department of health and senior services may refuse to issue, deny renewal of, or suspend a license required under section 190.109, or take other corrective actions as described in this section, based on the following considerations:

(1) The license holder is determined to be financially insolvent;

(2) The ambulance service has inadequate personnel to operate the ambulance service to provide basic emergency operations. The ambulance service shall not be deemed to have such inadequate personnel as long as the ambulance service is staffed to meet the needs of its emergency call volume. Each ambulance service shall have the ability to staff a minimum of one ambulance unit twenty-four hours each day, seven days each week, with at least two licensed emergency medical technicians. Any ambulance service operating only one ambulance unit shall have a reasonable plan and schedule for the services of a second ambulance unit;

(3) The ambulance service requires an inordinate amount of mutual aid from neighboring services, such as more than ten percent of the total runs in the service area in any given month or more than would be considered prudent, and thus cannot provide an appropriate level of emergency response for the service area as would be considered prudent by the typical ground ambulance services operator;

(4) The principal manager, board members, or other executives are determined to be criminally liable for actions related to the license or service provided;

(5) The license holder or principal manager, board members, or other executives are determined by the Centers for Medicare and Medicaid Services to be ineligible for participation in Medicare;

(6) The license holder or principal manager, board members, or other executives are determined by the MO HealthNet division to be ineligible for participation in MO HealthNet;

(7) The ambulance service administrator has failed to meet the required qualifications or failed to complete the training required under section 190.112; or

(8) If the ambulance service is an ambulance district, three or more board members have failed to complete required training under section 190.053.

2. If the department makes a determination of insolvency or insufficiency of operations of a license holder under subsection 1 of this section, the department may require the license holder to submit a corrective plan within fifteen days and require implementation of the corrective plan within thirty days.

3. The department shall be required to provide notice of any determination by the department of insolvency or insufficiency of operations of a license holder to other license holders operating in the license holder's vicinity, members of the general assembly who represent the license holder's service area, the governing officials of any county or municipal entity in the license holder's service area, the appropriate regional emergency medical services advisory committee, and the state advisory council on emergency medical services.

4. The department shall immediately engage with other license holders in the area to determine the extent to which ground ambulance service may be provided to the affected service area during the time in which the license holder is unable to provide adequate services, including any long-term service arrangements. The nature of the agreement between the license holder and other license holders providing services to the affected area may include an agreement to provide services, a joint powers agreement, formal consideration, or some payment for services rendered.

5. Any license holder who provides assistance in the service area of another license holder whose license has been suspended under this section shall have the right to seek reasonable compensation from the license holder whose license to operate has been suspended for all calls, stand-by time, and responses to medical emergencies during such time as the license remains suspended. The reasonable compensation shall not be limited to those expenses incurred in actual responses but may also include reasonable expenses to maintain ambulance service including, but not limited to, the daily operation costs of maintaining the service, personnel wages and benefits, equipment purchases and maintenance, and other costs incurred in the operation of a ground ambulance service. The license holder providing assistance shall be entitled to an award of costs and reasonable attorney's fees in any action to enforce the provisions of this subsection.”; and

Further amend the title and enacting clause accordingly.
