This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 1999, shall be invalid and void.”; and

Further amend said bill, page 119, section 345.050, line 30, by inserting after all of said line the following:

SENATE AMENDMENT NO. 1

Amend Senate Substitute for Senate Committee Substitute for Senate Bills Nos. 1410 and 853, Page 38, Section 137.490, Line 60, by inserting after all of said line the following:

“137.1050. 1. For the purposes of this section, the following terms shall mean:

(1) “Eligible credit amount”, the difference between an eligible taxpayer's real property tax liability on such taxpayer's homestead for a given tax year, minus the real property tax liability on such homestead in the eligible taxpayer's initial credit year;

(2) “Eligible taxpayer”, a Missouri resident who:

(a) Is sixty-two years of age or older;

(b) Is an owner of record of a homestead or has a legal or equitable interest in such property as evidenced by a written instrument; and

(c) Is liable for the payment of real property taxes on such homestead;

(3) "Homestead", real property actually occupied by an eligible taxpayer as the primary residence. An eligible taxpayer shall not claim more than one primary residence;

(4) "Initial credit year":

(a) In the case of a taxpayer that meets all requirements of subdivision (2) of this subsection prior to the year in which a credit is authorized pursuant to subsection 2 of this section, the year in which such credit is authorized;

(b) For all other taxpayers, the year in which the taxpayer meets all requirements of subdivision (2) of this subsection.

If in any tax year subsequent to the eligible taxpayer's initial credit year the eligible taxpayer's real property tax liability is lower than such liability in the initial credit year, such tax year shall be considered the eligible taxpayer's initial credit year for all subsequent tax years. This provision shall not apply if an eligible taxpayer's real property tax liability is lower than such liability in the taxpayer's initial credit year solely due to a reduction in a property tax levy made pursuant to section 321.554.

2. (1) Any county authorized to impose a property tax may grant a property tax credit to eligible taxpayers residing in such county in an amount equal to the taxpayer's eligible credit amount, provided that:

(a) Such county adopts an ordinance authorizing such credit; or

(b) a. A petition in support of a referendum on such a credit is signed by at least five percent of the registered voters of such county voting in the last gubernatorial election and the petition is delivered to the governing body of the county, which shall subsequently hold a referendum on such credit.

b. The ballot of submission for the question submitted to the voters pursuant to paragraph (b) of this subdivision shall be in substantially the following form:

Shall the County of \_\_\_\_\_ exempt senior citizens aged 62 and older from increases in the property tax liability due on such senior citizens' primary residence?

YES

NO

If a majority of the votes cast on the proposal by the qualified voters voting thereon are in favor of the proposal, then the credit shall be in effect.

(2) An ordinance adopted pursuant to paragraph (a) of subdivision (1) of this subsection shall not preclude such ordinance from being amended or superseded by a petition subsequently adopted pursuant to paragraph (b) of subdivision (1) of this subsection.

3. (1) A county granting credit pursuant to this section shall apply such credit when calculating the eligible taxpayer's property tax liability for the tax year. The amount of the credit shall be noted on the statement of tax due sent to the eligible taxpayer by the county collector. The county governing body may adopt reasonable procedures in order to carry out the purposes and intent of this section, provided that the

county shall not adopt any procedure that limits the definition or scope of eligible credit amount or eligible taxpayer as defined in this section.

(2) If an eligible taxpayer makes new construction and improvements to such eligible taxpayer's homestead, the real property tax liability for the taxpayer's initial credit year shall be increased to reflect the real property tax liability attributable to such new construction and improvements.

(3) If an eligible taxpayer's homestead is annexed into a taxing jurisdiction to which such eligible taxpayer did not owe real property tax in the eligible taxpayer's initial credit year, then the real property tax liability for the taxpayer's initial credit year shall be increased to reflect the real property tax liability owed to the annexing taxing jurisdiction.

4. For the purposes of calculating property tax levies pursuant to section 137.073, the total amount of credits authorized by a county pursuant to this section shall be considered tax revenue, as such term is defined in section 137.073, actually received.

5. A county granting a tax credit pursuant to this section shall notify each political subdivision within such county of the total credit amount applicable to such political subdivision by no later than November thirtieth of each year.

**6. For all tax years beginning on or after the effective date of this section, an eligible taxpayer applying for the tax credit authorized under the provisions of this section shall not be required to reapply annually. Upon initial qualification under the provisions of this section and any additional provisions adopted by the county governing body, the eligible taxpayer shall maintain such eligibility without a requirement to reapply for qualification each year. The tax credit shall continue to be automatically applied to the eligible taxpayer's homestead until the tax year in which the eligible taxpayer relocates to another homestead or upon the death of the eligible taxpayer, which shall be certified with a copy of the death certificate or notification of the relocation within ninety days of the date of either such event. If a credit is granted in error due to the failure of the taxpayer to notify the county collector of relocation or death, the governing body of the county may remedy the error.”; and**

Further amend said bill, page 42, section 164.151, line 25, by inserting after all of said line the following:

**“Section 1. Notwithstanding any provision of law to the contrary, the county assessor, township assessor, or other county designee responsible for the administration of assessment lists, personal property declarations, homestead verification forms, or other assessment-related filings may allow a grace period not to exceed ten days following the statutory deadline for submission of such forms when such forms are transmitted through the United States Postal Service and postmarked on or before the applicable due date but received after such due date due to postal delay. Any such form received within the authorized grace period shall be deemed timely filed and shall not result in penalty, estimated assessment, or disqualification from any property tax credit or relief program solely due to delayed receipt. The assessor or county designee may establish reasonable procedures to verify postmark dates and ensure uniform and consistent application of such grace period in accordance with state law.”; and**

Further amend the title and enacting clause accordingly.

Senator Hudson moved that the above amendment be adopted, which motion prevailed.

The commission shall establish, by rule, a methodology for determining the relative fiscal capacity of each school district to provide local resources for academic facilities projects and the respective state and local shares of eligible project costs for districts that receive state financial participation. 8. Notwithstanding any provision of this section to the contrary, a school district may apply to the commission for state financial participation in an academic facilities project only if:

(1) The district has adopted and submitted to the commission a long range facilities plan in a form approved by the commission;

(2) The proposed project is consistent with that plan and with applicable facility standards established by the commission; and

(3) The district's current operating levy for school purposes is at or above the performance levy, or the district's operating levy for school purposes was at or above the performance levy at any point during the preceding four fiscal years but was reduced below such levy amount due to a constitutionally mandated rollback.

9. In each funding cycle, the commission shall award state financial participation in accordance with the following priorities:

(1) First order priority shall be given to projects that address substantial and imminent dangers to health or safety, serious deficiencies in structural integrity or major building systems, or urgent compliance with building, fire, or accessibility codes in academic facilities, including immediate repair projects;

(2) Second order priority shall be given to projects that create substantial and demonstrable efficiencies in the ongoing costs of operation of a school district, including but not limited to projects that reduce utility or maintenance costs, improve energy efficiency, or modernize facilities in connection with voluntary consolidation, annexation, or cooperative reorganization of districts or attendance centers;

**(3) Third order priority shall be given to projects that remedy significant facility condition deficiencies, extend the useful life of academic facilities, or replace facilities whose facility condition index exceeds a threshold established by the commission; and**

**(4) Fourth order priority shall be given to projects that provide additional capacity or reconfigured space necessary to accommodate enrollment growth, eliminate excessive reliance on temporary classrooms, or support educationally required programmatic changes.**

**10. Within and among the priority categories established in subsection 9 of this section, the commission shall further prioritize projects by considering at least the following factors, in such manner and relative weight as the commission shall establish by rule:**

**(1) The severity of the facility need and the educational impact of the project, including facility condition, educational adequacy, and enrollment pressures;**

**(2) The school district's fiscal capacity, so that districts with lower fiscal capacity receive higher effective state support;**

**(3) The school district's operating levy, so that districts with higher levies receive higher effective state support to lower or mitigate increases in the amount of property taxes residents must pay than districts with lower operating levies;**

**(4) The extent to which the district is already relying on local funding effort, prioritizing districts that receive less than half of their total revenue from state sources, including:**

**(a) Existing debt service millage or equivalent local levy for capital purposes; and**

**(b) The proportion of total operating and capital revenues derived from local sources;**

**(5) The availability, or lack, of additional local bonding capacity for facilities purposes, including districts that are at, or within a threshold established by the commission of, the maximum bonded indebtedness level permitted by law or commission policy, or that can otherwise demonstrate insufficient remaining bonding capacity to address critical facility needs without state participation;**

**(6) The degree of local matching commitment associated with the project, including:**

**(a) Local cash or in kind contributions, including proceeds of bonds or levies, dedicated deposits to a capital and maintenance reserve fund, or other local capital sources; and**

**(b) Local actions that provide property tax relief to district residents in connection with the project, such as:**

**a. Reducing existing or planned debt service levies due to state participation; or**

**b. Avoiding or reducing the need for new or higher debt service levies that would otherwise be required to complete the project; and**

**(7) The prudent and resourceful expenditure of state funds, including consideration of life cycle cost, energy efficiency, and the extent to which state dollars leverage or replace local borrowing in a manner that reduces long term tax burdens while addressing facility needs.**

**11. The commission shall publish, at least annually, the statewide prioritized list of projects recommended for funding and shall identify, for each project, the category and principal factors supporting the commission's recommended priority.**

**12. No project shall receive state financial participation under this section unless the district demonstrates a good faith local matching commitment, as determined by the commission.**

**13. In awarding state financial participation, the commission shall give favorable consideration to projects that are accompanied by a plan, approved by the district's governing board, that uses state participation to offset or reduce the amount of new local debt that would otherwise be required for the project or allows for a reduction in future debt service levies or avoidance of levy increases that would otherwise be needed.**

**14. The commission shall not require a district eligible to apply for state financial participation under subsection 8 of this section to increase local tax rates as a condition of receiving state financial participation. The commission shall ensure that state funds are allocated in a manner that reasonably balances:**

**(1) Preference for districts demonstrating strong local effort;**

**(2) Consideration for districts with limited remaining bonding capacity; and**

**(3) The goal of mitigating, where practicable, the long term property tax burden associated with necessary facility improvements.**

**15. A district receiving state financial participation shall comply with all applicable procurement, construction, and reporting requirements and shall complete the project substantially as described in such district's approved application, unless otherwise authorized by the commission.**

**16. The commission may withhold, suspend, or require repayment of state funds if the commission finds that a district has materially violated the requirements of this section, rules promulgated under this section, or the terms of such district's approved project.**

**17. The commission shall promulgate rules to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2026, shall be invalid and void.”; and**

Further amend the title and enacting clause accordingly.

Senator Beck moved that the above amendment be adopted, which motion prevailed.

(1) “Residential property”[,]:

(a) All real property improved by a structure which is used or intended to be used for residential living by human occupants[,];

(b) Vacant land in connection with an airport[,];

**(g) Any single family home owned by an individual or business that is leased for a term of less than thirty consecutive days, in whole or in part, subject to sales tax under subdivision (6) of subsection 1 of section 144.020, provided that the provisions of this paragraph may not apply to such properties in excess of fifteen such properties owned by the same individual or business. For the purposes of this paragraph, the term “business” shall mean a sole proprietor, partnership, or limited liability company. For the purposes of this paragraph for determining the number of single family homes leased for a term of less than thirty consecutive days, in whole or in part, subject to sales tax under subdivision (6) of subsection 1 of section 144.020 owned by an individual or business, all single family homes that are such properties owned by the individual or business, or owned by any business entity in which such individual or business holds any ownership, membership, or beneficial interest, direct or indirect, shall be counted. The provisions of this paragraph shall not be construed to authorize the classification of any real property owned by a corporation as residential property;**

Residential property shall not include other similar facilities used primarily for transient housing. For the purposes of this section, “transient housing” means all rooms available for rent or lease for which the receipts from the rent or lease of such rooms are subject to state sales tax pursuant to subdivision (6) of subsection 1 of section 144.020; **the leasing of a single family home, in whole or in part, for a term of less than thirty consecutive days does not, in itself, constitute “transient housing”;**

(2) “Agricultural and horticultural property”, all real property used for agricultural purposes and devoted primarily to the raising and harvesting of crops; to the feeding, breeding and management of livestock which shall include breeding, showing, and boarding of horses; to dairying, or to any other combination thereof; and buildings and structures customarily associated with farming, agricultural, and

horticultural uses. Agricultural and horticultural property shall also include land devoted to and qualifying for payments or other compensation under a soil conservation or agricultural assistance program under an agreement with an agency of the federal government. Agricultural and horticultural property shall further include any reliever airport. Real property classified as forest croplands shall not be agricultural or horticultural property so long as it is classified as forest croplands and shall be taxed in accordance with the laws enacted to implement Section 7 of Article X of the Missouri Constitution. Agricultural and horticultural property shall also include any sawmill or planing mill defined in the U.S. Department of Labor's Standard Industrial Classification (SIC) Manual under Industry Group 242 with the SIC number 2421. Agricultural and horticultural property shall also include urban and community gardens. For the purposes of this section, "urban and community gardens" shall include real property cultivated by residents of a neighborhood or community for the purposes of providing agricultural products, as defined in section 262.900, for the use of residents of the neighborhood or community, and shall not include a garden intended for individual or personal use;

(3) "Utility, industrial, commercial, railroad and other real property", all real property used directly or indirectly for any commercial, mining, industrial, manufacturing, trade, professional, business, or similar purpose, including all property centrally assessed by the state tax commission but shall not include floating docks, portions of which are separately owned and the remainder of which is designated for common ownership and in which no one person or business entity owns more than five individual units. All other real property not included in the property listed in subclasses (1) and (2) of Section 4(b) of Article X of the Missouri Constitution, as such property is defined in this section, shall be deemed to be included in the term "utility, industrial, commercial, railroad and other real property".

2. Pursuant to Article X of the state Constitution, any taxing district may adjust its operating levy to recoup any loss of property tax revenue, except revenues from the surtax imposed pursuant to Article X, Subsection 2 of Section 6 of the Constitution, as the result of changing the classification of structures intended to be used for residential living by human occupants which contain five or more dwelling units if such adjustment of the levy does not exceed the highest tax rate in effect subsequent to the 1980 tax year. For purposes of this section, loss in revenue shall include the difference between the revenue that would have been collected on such property under its classification prior to enactment of this section and the amount to be collected under its classification under this section. The county assessor of each county or city not within a county shall provide information to each taxing district within its boundaries regarding the difference in assessed valuation of such property as the result of such change in classification.

3. All reclassification of property as the result of changing the classification of structures intended to be used for residential living by human occupants which contain five or more dwelling units shall apply to assessments made after December 31, 1994.

4. Where real property is used or held for use for more than one purpose and such uses result in different classifications, the county assessor shall allocate to each classification the percentage of the true value in money of the property devoted to each use; except that, where agricultural and horticultural property, as defined in this section, also contains a dwelling unit or units, the farm dwelling, appurtenant residential-related structures and up to five acres immediately surrounding such farm dwelling shall be residential property, as defined in this section, provided that the portion of property used or held for use as an urban and community garden shall not be residential property. This subsection shall not apply to any reliever airport.

5. All real property which is vacant, unused, or held for future use; which is used for a private club, a not-for-profit or other nonexempt lodge, club, business, trade, service organization, or similar entity; or for which a determination as to its classification cannot be made under the definitions set out in subsection 1 of this section, shall be classified according to its immediate most suitable economic use, which use shall be determined after consideration of:

(1) Immediate prior use, if any, of such property;

(2) Location of such property;

(3) Zoning classification of such property; except that, such zoning classification shall not be considered conclusive if, upon consideration of all factors, it is determined that such zoning classification does not reflect the immediate most suitable economic use of the property;

(4) Other legal restrictions on the use of such property;

(5) Availability of water, electricity, gas, sewers, street lighting, and other public services for such property;

(6) Size of such property;

(7) Access of such property to public thoroughfares; and

(8) Any other factors relevant to a determination of the immediate most suitable economic use of such property.

6. All lands classified as forest croplands shall not, for taxation purposes, be classified as subclass (1), subclass (2), or subclass (3) real property, as such classes are prescribed in Section 4(b) of Article X of the Missouri Constitution and defined in this section, but shall be taxed in accordance with the laws enacted to implement Section 7 of Article X of the Missouri Constitution.

**7. An assessor shall not reclassify any real property from one subclass of real property to another subclass of real property without first providing written notice to the owner of record of such property and offering an opportunity for an in-person consultation with the owner of record.”;** and

Further amend the title and enacting clause accordingly.

Senator Brown (26) moved that the above amendment be adopted, which motion prevailed.

2. By no later than the municipal election in April 2026, a county shall place on the ballot a question of whether to grant a property tax credit pursuant to this section to eligible taxpayers residing in such county in an amount equal to the taxpayer's eligible credit amount. If a majority of the votes cast on the proposal by the qualified voters voting thereon are in favor of the proposal, then the credit shall be in effect and the county shall grant such property tax credit to eligible taxpayers residing in such county in an amount equal to the taxpayer's eligible credit amount.

3. (1) A county granting a credit pursuant to this section shall apply such credit when calculating the eligible taxpayer's property tax liability for the tax year. The amount of the credit shall be noted on the statement of tax due sent to the eligible taxpayer by the county collector. The county governing body may adopt reasonable procedures in order to carry out the purposes and intent of this section, provided that the county shall not adopt any procedure that limits the definition or scope of eligible credit amount or eligible taxpayer as defined in this section.

(2) If an eligible taxpayer makes new construction and improvements to such eligible taxpayer's homestead, the real property tax liability for the taxpayer's initial credit year shall be increased to reflect the real property tax liability attributable to such new construction and improvements.

(3) If an eligible taxpayer's homestead is annexed into a taxing jurisdiction to which such eligible taxpayer did not owe real property tax in the eligible taxpayer's initial credit year, then the real property tax liability for the taxpayer's initial credit year shall be increased to reflect the real property tax liability owed to the annexing taxing jurisdiction.

4. For the purposes of calculating property tax levies pursuant to section 137.073, the total amount of credits authorized by a county pursuant to this section shall be considered tax revenue, as such term is defined in section 137.073, actually received.

5. A county granting a tax credit pursuant to this section shall notify each political subdivision within such county of the total credit amount applicable to such political subdivision by no later than November thirtieth of each year.
