not to be used in the project.

5. No contractor or material supplier shall, upon audit, be required to pay tax on tangible personal property and materials incorporated into or consumed in the construction of the project, due to the failure of the exempt entity to revise the certificate expiration date as necessary to complete any work required by the contract. If it is determined that tax is owed on such property and materials due to the failure of the exempt entity to revise such certificate expiration date, the exempt entity shall be liable for the tax owed.

**6. If an entity issues exemption certificates for the purchase of tangible personal property and materials which are incorporated into or consumed in the construction of its project and such entity is found not to have had the authority granted by this section to issue such exemption certificates, then such entity shall be liable for the tax owed on such personal property and materials. In addition, if an entity which does have the authority granted by this section to issue exemption certificates issues such certificates for the purchase of tangible personal property and materials which are incorporated into or consumed in the construction of a project, or part of a project, which is found not to be related to such entity's exempt functions and activities, then such entity shall be liable for the tax owed on such personal property and materials.**
