

SECOND REGULAR SESSION

[P E R F E C T E D]

SENATE BILL NO. 535

89TH GENERAL ASSEMBLY

INTRODUCED BY SENATOR CASKEY.

Pre-filed December 1, 1997, and 1,000 copies ordered printed.

Read 2nd time January 12, 1998, and referred to the Committee on Ways and Means.

Reported from the Committee February 2, 1998, with recommendation that the bill do pass and be placed on the Consent Calendar.

Taken up February 12, 1998. Read 3rd time and placed upon its final passage; bill passed.

TERRY L. SPIELER, Secretary.

S2035.01P

AN ACT

To repeal section 163.011, RSMo Supp. 1997, relating to determining equivalent sales ratios used in equalizing assessed valuations, and to enact in lieu thereof one new section relating to the same subject.

Be it enacted by the General Assembly of the State of Missouri, as follows:

Section A. Section 163.011, RSMo Supp. 1997, is repealed and one new section enacted in lieu thereof, to be known as section 163.011, to read as follows:

163.011. As used in this chapter unless the context requires otherwise:

(1) "Adjusted gross income":

(a) "District adjusted gross income per return" shall be the total Missouri individual adjusted gross income in a school district divided by the total number of Missouri income tax returns filed from the school district as reported by the state department of revenue for the second preceding year;

(b) "State adjusted gross income per return" shall be the total Missouri individual adjusted gross income divided by the total number of Missouri individual income tax returns, of those returns designating school districts, as reported by the state department of revenue for the second preceding year;

(c) "District income factor" shall be one plus thirty percent of the difference of the district income ratio minus one, except that the district income factor applied to the portion of the assessed

EXPLANATION--Matter enclosed in bold-faced brackets [thus] in this bill is not enacted and is intended to be omitted in the law.

valuation corresponding to any increase in assessed valuation above the assessed valuation of a district as of December 31, 1994, shall not exceed a value of one;

(d) "District income ratio" shall be the ratio of the district adjusted gross income per return divided by the state adjusted gross income per return;

(2) "Average daily attendance" means the quotient or the sum of the quotients obtained by dividing the total number of hours attended in a term by resident pupils between the ages of five and twenty-one by the actual number of hours school was in session in that term. To the average daily attendance of the school term shall be added the full-time equivalent average daily attendance of summer school students. "Full-time equivalent average daily attendance of summer school students" shall be computed by dividing the total number of hours attended by all summer school pupils by the number of hours required in section 160.011, RSMo, in the school term. For purposes of determining average daily attendance under this subdivision, the term "resident pupil" shall include all children between the ages of five and twenty-one who are residents of the school district and who are attending kindergarten through grade twelve in such district. If a child is attending school in a district other than the district of residence and the child's parent is teaching in the school district or is a regular employee of the school district which the child is attending, then such child shall be considered a resident pupil of the school district which the child is attending for such period of time when the district of residence is not otherwise liable for tuition. Average daily attendance for students below the age of five years for which a school district may receive state aid based on such attendance shall be computed as regular school term attendance unless otherwise provided by law;

(3) "District's tax rate ceiling", the highest tax rate ceiling in effect subsequent to the 1980 tax year or any subsequent year. Such tax rate ceiling shall not contain any tax levy for debt service;

(4) "Eligible pupils" shall be the sum of the average daily attendance of the school term plus the product of two times the average daily attendance for summer school;

(5) "Equalized assessed valuation of the property of a school district" shall be determined by multiplying the assessed valuation of the real property subclasses specified in section 137.115, RSMo, times the percent of true value as adjusted by the department of elementary and secondary education to an equivalent sales ratio of thirty-three and one-third percent and dividing by either the percent of true value as determined by the state tax commission on or before March fifteenth preceding the fiscal year in which the valuation will be effective as adjusted by the department of elementary and secondary education to an equivalent sales ratio of thirty-three and one-third percent or the average percent of true value for the highest three of the last four years as determined and certified by the state tax commission, whichever is greater. To the equalized locally assessed valuation of each district shall be added the assessed valuation of tangible personal property. The assessed valuation of property which has previously been excluded from

the tax rolls, which is being contested as not being taxable and which increases the total assessed valuation of the school district by fifty percent or more, shall not be included in the calculation of equalized assessed valuation under this subdivision;

(6) "Free and reduced lunch eligible pupil count", the number of pupils eligible for free and reduced lunch on the last Wednesday in January for the preceding school year who were enrolled as students of the district, as approved by the department in accordance with applicable federal regulations;

(7) "Guaranteed tax base" means the amount of equalized assessed valuation per eligible pupil guaranteed each school district by the state in the computation of state aid. To compute the guaranteed tax base, school districts shall be ranked annually from lowest to highest according to the amount of equalized assessed valuation per pupil. The guaranteed tax base shall be based upon the amount of equalized assessed valuation per pupil of the school district in which the ninety-fifth percentile of the state aggregate number of pupils falls during the third preceding year and shall be equal to the state average equalized assessed valuation per eligible pupil for the third preceding year times two and one hundred and sixty-seven thousandths. The average equalized assessed valuation per pupil shall be the quotient of the total equalized assessed valuation of the state divided by the number of eligible pupils;

(8) "Membership" shall be the average of (1) the number of resident full-time students and the full-time equivalent number of part-time students who were enrolled in the public schools of the district on the last Wednesday in September of the previous year and who were in attendance one day or more during the preceding ten school days and (2) the number of resident full-time students and the full-time equivalent number of part-time students who were enrolled in the public schools of the district on the last Wednesday in January of the previous year and who were in attendance one day or more during the preceding ten school days, plus the full-time equivalent number of summer school pupils. "Full-time equivalent number of part-time students" is determined by dividing the total number of hours for which all part-time students are enrolled by the number of hours in the school term. "Full-time equivalent number of summer school pupils" is determined by dividing the total number of hours for which all summer school pupils were enrolled by the number of hours required pursuant to section 160.011, RSMo, in the school term. Only students eligible to be counted for average daily attendance shall be counted for membership;

(9) "Operating levy for school purposes" means the sum of tax rates levied for teachers and incidental funds in the payment year and shall be, after all adjustments and equalization of the operating levy, no less than the minimum value required in section 163.021 for eligibility for increases in state aid as calculated pursuant to section 163.031 and no greater than a maximum value of four dollars and sixty cents per one hundred dollars assessed valuation. To equalize the operating levy, multiply the aggregate tax rates for teachers, incidental, and building funds by

either the percent of true value, as determined by the state tax commission on or before March fifteenth preceding the fiscal year in which the evaluation will be effective as adjusted by the department of elementary and secondary education to an equivalent sales ratio of thirty-three and one-third percent, or the average percent of true value for the highest three of the last four years as determined and certified by the state tax commission, whichever is greater, and divide by the percent of true value as adjusted by the department of elementary and secondary education to an equivalent sales ratio of thirty-three and one-third percent, provided that for any district for which the equivalent sales ratio is equal to or greater than thirty-three and one-third percent, the equalized operating levy shall be the adjusted operating levy. For any county in which the equivalent sales ratio is less than thirty-one and two-thirds percent, the state tax commission shall conduct a second study in that county and shall use a sample [at least twice as large as the one originally used] **consisting of the parcels used as a sample in the original study combined with an equal number of newly selected parcels.** If the new ratio is higher than the original ratio provided by this subdivision, the new ratio shall be used for the purposes of this subdivision and for determining equalized assessed valuation pursuant to subdivision (5) of this section. For the purposes of calculating state aid pursuant to section 163.031, for any district which has not enacted a voluntary tax rate rollback nor increased the amount of a voluntary tax rate rollback from the previous year's amount, the tax rate used to determine a district's entitlement shall be adjusted so that any decrease in the entitlement due to a decrease in the tax rate resulting from the reassessment shall equal the decrease in the deduction for the assessed valuation of the district as a result of the change in the tax rate due to reassessment. The tax rate adjustments required under this subdivision due to reassessment shall be cumulative and shall be applied each year to determine the tax rate used to calculate the entitlement; except that whenever the actual current operating levy exceeds the tax rate calculated pursuant to this subdivision for the purpose of determining the district's entitlement, then the prior tax rate adjustments required under this subdivision due to reassessment shall be eliminated and shall not be applied in determining the tax rate used to calculate the district entitlement;

(10) "School purposes" pertains to teachers and incidental funds;

(11) "Teacher" means any teacher, teacher-secretary, substitute teacher, supervisor, principal, supervising principal, superintendent or assistant superintendent, school nurse, social worker, counselor or librarian who shall, regularly, teach or be employed for no higher than grade twelve more than one-half time in the public schools and who is certified under the laws governing the certification of teachers in Missouri;

(12) "Adjusted operating levy", the sum of tax rates for the current year for teachers and incidental funds for a school district as reported to the proper officer of each county pursuant to section 164.011, RSMo;

(13) "Current operating costs", all expenditures for instruction and support services

excluding capital outlay and debt service expenditures less the revenue from federal categorical sources, food service, student activities and payments from other districts.
