

**COMMITTEE ON LEGISLATIVE RESEARCH
OVERSIGHT DIVISION**

FISCAL NOTE

L.R. No.: 1562-01
Bill No.: SB 620
Subject: Tax Credits; Taxation and Revenue - Income; Taxation and Revenue - General;
Economic Development Department; Business and Commerce.
Type: Original
Date: March 11, 2003

FISCAL SUMMARY

ESTIMATED NET EFFECT ON GENERAL REVENUE FUND			
FUND AFFECTED	FY 2004	FY 2005	FY 2006
General Revenue *	\$0	\$0 or (Unknown - Greater than \$1,000,000)	\$0 or (Unknown - Greater than \$1,000,000)
Total Estimated Net Effect on General Revenue Fund *	\$0	\$0 or (UNKNOWN - GREATER THAN \$1,000,000)	\$0 or (UNKNOWN - GREATER THAN \$1,000,000)

* The (Unknown - Greater than \$1,000,000) fiscal impact assumes the taxpayer in Hazelwood accepts and meets all of the criteria outlined in the proposal.

ESTIMATED NET EFFECT ON OTHER STATE FUNDS			
FUND AFFECTED	FY 2004	FY 2005	FY 2006
None			
Total Estimated Net Effect on Other State Funds	\$0	\$0	\$0

Numbers within parentheses: () indicate costs or losses.

This fiscal note contains 8 pages.

ESTIMATED NET EFFECT ON FEDERAL FUNDS			
FUND AFFECTED	FY 2004	FY 2005	FY 2006
None			
Total Estimated Net Effect on <u>All</u> Federal Funds	\$0	\$0	\$0

ESTIMATED NET EFFECT ON LOCAL FUNDS			
FUND AFFECTED	FY 2004	FY 2005	FY 2006
Local Government	\$0	\$0	\$0

FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Revenue (DOR)** assume that the provisions in this legislation will be administered by the Department of Economic Development. DOR does not anticipate there will be significant number of new credits claimed and will therefore not request additional FTE.

Officials from the **Office of Administration - Budget and Planning (BAP)** had the following comments regarding the fiscal impact of the proposal.

Section 100.710. Revises the definition of eligible industry and new job. This section also adds the definition of essential industry and targeted industry to the state statute used to administer the BUILD program. This change may have a negative impact on Total State Revenue.

Section 135.277. Establishes language that would allow one-half of the Missouri taxable income attributed to an approved retained business facility be exempt from taxation. This will have a negative impact on Total State Revenue.

ASSUMPTION (continued)

RAS:LR:OD (12/02)

Section 135.279. 1. Allows any taxpayer that operates an approved retained business facility in an enterprise zone numerous ways to receive a tax credit through the enterprise zone program. First it allows a tax credit for each retained business facility employee in an amount equal to \$400, and \$500 credit for each additional job over 2,000. Next this subsection allows a \$400 credit for each retained business facility employee that is a resident of an enterprise zone. It also allows an approved retained business facility to receive credits for training expenses for each trainee who is a resident of an enterprise zone. The business may also receive a credit for qualifying investments. This will have a negative impact on Total State Revenue.

Section 135.281. Allows an income tax refund to any taxpayer operating an approved retained business facility in an enterprise zone, if the amount of tax credits certified for the taxpayer exceeds the company's total Missouri tax on taxable income by an amount equal to at least one million dollars. The maximum refund amount may not exceed \$2 million per year for five successive years. This will have a negative impact on Total State Revenue

Section 178.892. Adds the definition of an essential industry and existing job to the state statute used to administer the Community College New Jobs Training. This may have a negative impact on Total State Revenue.

Officials from the **Department of Economic Development (DED)** state this proposal amends the "BUILD" (Business Use Incentives for Large Scale Development) Program to authorize its use for retention projects so long as the project is to retain an "essential industry." Essential industry is one that is critical to the state and a targeted industry, with at least 2,000 jobs, will make at least a \$500 million new investment at the project, is located in a geographic area that currently is Hazelwood, and will retain 2,000+ jobs at the project for the life of the BUILD certificates (10-15 years). The nearly exhausted cumulative bond cap will be replaced with an annual tax credit cap of \$11 million.

DED states the proposal also adds new sections to Enterprise Zone law to allow tax credits, tax exemption and refunds to "essential industries" upon an agreement with the DED. Again, essential industry is one critical to the state and a targeted industry, with at least 2,000 jobs, will make at least a \$500 million new investment at the project, is located in an enterprise zone that includes a geographic area that currently is Hazelwood, and will retain 2,000+ jobs at the project for 10 years. Jobs must pay better than average wage of county.

ASSUMPTION (continued)

RAS:LR:OD (12/02)

DED states that local incentives must be provided and the company must be considering another state for the project. Tax credit otherwise for new jobs under EZ is for retained jobs. Credits for investment are only for new investment. Refund mechanism allows a \$2 million per year refund for 5 consecutive years.

DED states the proposal also amends the Community College New Jobs Training Program to authorize its use for retention projects so long as the project is to retain an "essential industry". Again, essential industry is one critical to the state and a targeted industry, with at least 2,000 jobs, is located in a geographic area that currently is Hazelwood, and will retain 2,000+ jobs at the project for the life of the CCNJT certificates (8 years). Jobs must pay better than average wage of county.

The provisions of the bill will expire unless a project has been approved by DED by December 31, 2005. If a project is so approved, provisions will expire January 1, 2020 - gives a full 15 years for a BUILD bond issuance.

It is estimated by DED that agreements entered into with the taxpayer under the provisions of this bill would result in \$3 to \$3.5 million per year in incentives each year over a period of ten years, beginning no sooner than FY2005.

DED states that it is notable that the taxpayer has already announced its intention to close the Hazelwood facility in 2005 and the loss of the jobs at the plant would result in a very large negative impact on the state. Without an incentive agreement to keep the Hazelwood plant open, Total State Revenues (TSR) would decline due to the loss of jobs, supported jobs, etc. DED has not factored this into their estimated costs.

DED assumes no new staff will be needed as a result of the bill. DED assumes tax incentives will first affect TSR during FY2005, although it could begin in a later fiscal year. DED assumes the amount will be \$3 million in FY05 and \$3.5 million per year thereafter for the remainder of approximately 10 years. DED assumes this will be offset by some positive but indeterminable economic benefits to the state, which are not projected in this fiscal note.

Officials from the **City of Hazelwood** and **St. Louis County** did not respond to our request for fiscal impact.

ASSUMPTION (continued)

RAS:LR:OD (12/02)

According to Subsection 135.279.4, the taxpayer in Hazelwood must choose between the tax benefits they are already receiving under Sections 135.220, 135.225, 135.235, 135.245 or 135.110 and the benefits described in the new sections of the proposal (135.276 through 135.283). **Oversight** does not know what benefits the taxpayer is already receiving under current law, so determining how much more of an impact the enterprise zone benefits in this proposal will have is not possible.

Oversight was unable to determine, from the information provided, how DED arrived at their estimated cost of \$3.5 million per year. Therefore, based upon the lack of information available and the upon the significance of the three programs that were adjusted to include the taxpayer in Hazelwood, Oversight assumes the fiscal impact to the state would be unknown loss of state revenue in excess of \$1 million per year for fifteen years. This loss is dependent upon the taxpayer accepting the terms of the legislation, which include retaining employment for 2,000 employees for at least five years, the average wage of the employees exceeding the average wage paid within St. Louis County, and the taxpayer investing a minimum of \$500 million in the economic development project by the end of the third year.

Oversight will range the fiscal impact of the proposal from \$0 (if the taxpayer does not accept the terms of the proposal and since the taxpayer has until January 1, 2006 to act upon the proposal) to (Unknown - Greater than \$1 million). Oversight has not shown the potential positive fiscal impact that may result from these economic development incentives. Oversight assumes the fiscal impact would not be realized before FY 2005. Oversight also assumes the City of Hazelwood and St. Louis County may also include incentives for this taxpayer but has not reflected them on the fiscal note.

This proposal may impact Total State Revenues.

<u>FISCAL IMPACT - State Government</u>	FY 2004 (10 Mo.)	FY 2005	FY 2006

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

This proposal implements various economic development incentives concerning targeted industries, enterprise zones and job training programs at community colleges. The major provisions of the proposal are as follows:

Missouri Business Use Incentives for Large-Scale Development Act (BUILD) (Sections 100.710, 100.840, 100.850, RSMo)

Essential and targeted industries definitions are modified to allow for retention projects in "essential industries". The proposal adds to the purview of "eligible industries" those that meet the following requirements: - Must be a "targeted industry", i.e. one that is critical to state's economic security and growth as determined by the Department of Economic Development (DED) and affirmed by the Joint Committee on Economic Development Policy & Planning; - Must be located in a city meeting certain population parameters in a county meeting certain parameters (Hazelwood is only city that currently qualifies); - Must have had at least 2,000 jobs at the project site for each of the five preceding years; - Must retain the number of jobs (actual number of jobs not the 2,000 minimum) for the duration of the BUILD certificates (10 15 years); and - Must invest at least \$500 million (new investment) in the project.

RAS:LR:OD (12/02)

The proposal also eliminates the cumulative cap and replaces it with an annual tax credit cap of \$11 million.

DESCRIPTION (continued)

Enterprise Zone Program: (new Sections 135.276, 135.277, 135.279, 135.281, 135.283, RSMo):

This part of the proposal contains new provisions that build on existing enterprise zone law. The proposal follows the pattern of existing enterprise zones except as follows: - Must be an "essential industry" to be eligible to apply for the retention program: - Must be a "targeted industry" one that is critical to state's economic security and growth as determined by DED and affirmed by the Joint Committee on Economic Development Policy & Planning; -Enterprise zone must include all or part of a city meeting certain population parameters in a county meeting certain parameters (Hazelwood is only city that currently qualifies) - Must have had at least 2,000 jobs at the project site for the five preceding years; - Must retain the jobs for 10 years (actual number of jobs not the 2,000 minimum); - Must invest at least \$500 million (new investment) in the project over 2 year period within first 5 years of project; - DED must consider soundness of project; - Local incentives must be provided; - Wages must exceed average wage of county; - The incentive must be needed to make a project remain in Missouri; and - Company must be considering another state for the project.

The proposal offers a refund mechanism: - Eligible to apply if tax credits exceed taxable income for facility by \$1 million; - No more than \$2 million refund in any year; - Cannot receive refund for more than five consecutive years; - If tax credits exceed taxable income by more than 2 million, those credits can be carried forward for refund purposes.

Community College New Jobs Training Program (Section 178.892, RSMo)

Modified to allow for retention projects in "essential industries": - Must be a "targeted industry" one that is critical to state's economic security and growth as determined by DED and affirmed by the Joint Committee on Economic Development Policy & Planning; - Must be located in a city meeting certain population parameters in a county meeting certain parameters (Hazelwood is only city that currently qualifies); - Must have had at least 2,000 jobs at the project site for the five preceding years; - Must retain the jobs (actual number of jobs not the 2,000 minimum) for the duration of the CCNJT certificates (8 years); - Wages must exceed average wage of county.

The proposal will terminate January 1, 2006 if a project has not been approved by DED by

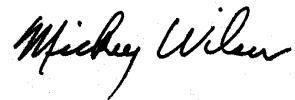

December 31, 2005. If a project has been so approved, proposal will terminate on January 1, 2020.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
