FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Transportation** and the **Department of Public Safety – Missouri State Highway Patrol** assume the proposed legislation would have no fiscal impact on their agencies.

Officials from the **Office of State Courts Administrator** assume the proposed legislation would have no fiscal impact on the courts.

Officials from the **Office of Prosecution Services** assume prosecutors could absorb the costs of the proposed legislation within existing resources.

Officials from the **Office of State Public Defender** assume existing staff could provide representation for those cases arising where indigent persons were charged with property damage in the first degree for damaging a motor vehicle while stealing it. However, passage of more than one bill increasing penalties on existing crimes or creating new crimes would require the State Public Defender System to request increased appropriations to cover the cumulative cost of representing indigent persons accused in the now more serious cases or in the new additional cases.

ASSUMPTION (continued)

Officials from the **Department of Corrections (DOC)** assume they cannot predict the number of new commitments which may result from the creation of the offense(s) outlined in this proposal. An increase in commitments depends on the utilization by prosecutors and the actual sentences imposed by the court.

If additional persons are sentenced to the custody of the DOC due to the provisions of this legislation, the DOC will incur a corresponding increase in operational cost either through incarceration (FY02 average of \$35.52 per inmate per day, or an annual cost of \$12,965 per inmate) or through supervision provided by the Board of Probation and Parole (FY01 average of \$3.10 per offender per day, or an annual cost of \$1,132 per offender).

The DOC is unable to determine the number of additional inmate beds that may be required as a consequence of passage of this proposal. Estimated construction cost for one new medium to maximum-security inmate bed is \$55,000. Utilizing this per-bed cost provides for a conservative estimate by the DOC, as facility start-up costs are not included and entire facilities and/or housing units would have to be constructed to cover the cost of housing new commitments resulting from the cumulative effect of various new legislation, if adopted as statute.

In summary, supervision by the DOC through probation or incarceration would result in additional unknown costs to the department. Eight (8) persons would have to be incarcerated per fiscal year to exceed \$100,000 annually. Due to the narrow scope of this new crime, it is assumed the impact would be less than \$100,000 per year for the DOC.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

The proposed legislation would expand the crime of first degree property damage to include knowingly damaging a motor vehicle while breaking into the vehicle for the purpose of stealing therein, or if the damage occurs during the stealing. Such actions would constitute a class C felony unless it is the second or subsequent such offense, in which case it would be a class B felony.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
