FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Economic Development - Office of Public Counsel** state this proposal does not have a significant fiscal impact on their agency.

Officials from the **Department of Economic Development - Public Service Commission** state that their agency is proceeding with rulemaking collaborative meetings to implement the provision of 386.266 that this bill proposes to delete. This proposed legislation would eliminate the ability for gas utilities to request this type of cost recovery mechanism.

DESCRIPTION

Current law provides certain utilities the opportunity to apply for alternate rate schedules under a variety of circumstances. This proposed legislation removes the section that affords such an option to gas corporations seeking changes based on variations in weather and conservation.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
