FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Insurance, Financial Institutions, and Professional Registration** and **Missouri Department of Conservation** assume the proposal will have no fiscal impact on their organization.

Officials from the **Department of Public Safety (DPS) - Director's Office** defer to the Missouri Consolidated Health Care Plan for response regarding the potential fiscal impact of this proposal on their organization.

Officials from the **DPS - Missouri State Highway Patrol** defer to the Missouri Department of Transportation for response regarding the potential fiscal impact of the proposed legislation on their organization.

Officials from the **Missouri Department of Transportation (DOT)** state the DOT/MHP medical plan already has in place performance measures in its contract with its claims administrator regarding time limits for paying claims. On their face, these limits are shorter than the proposed forty-five day time limits in the bill. As a result, the DOT assumes any fiscal impact arising from this proposal would be minor.

Officials from the **Missouri Consolidated Health Care Plan (HCP)** state the HCP may incur additional unknown costs that would be passed directly to the health plans. At this time, there is no way to determine the costs. If the HCP were to incur any costs as a direct result of this proposal, it would charge its vendors a penalty in order to recoup any and all incurred costs. In future years, the vendors would add the cost into the contract and charge HCP more for this service over time.

Based on HCP's response, **Oversight** assumes the penalties charged by HCP against its vendors would equal and offset any additional costs incurred as a result of the forty-five day claims processing time. **Oversight** also assumes that, over time, vendors would strive to process claims within the forty-five day processing window rather than pay penalties

Officials from the **Department of Social Services (DOS) - MO HealthNet Division (MHD)** state this legislation revises Chapter 376 which does not affect the claims paid by the MO HealthNet fee-for-service program. This legislation will apply to the MO HealthNet Managed Care program because it contracts with health maintenance organizations for the purpose of providing health care services through capitated rates. However, there will be no fiscal impact to MHD.

ASSUMPTION (continued)

This legislation also imposes a penalty on the health carriers when a claim is paid beyond the forty-fifth processing day. This change will increase the commercial health insurance recoveries received by the third party liability program within the MHD, but the amount is unknown. Even though the amount of the penalty is reduced, the fiscal impact to the MHD is an unknown savings of less than \$100,000 annually.

FISCAL IMPACT - Small Business

The proposal may impact small business healthcare providers if they receive payment for claims more quickly or receive interest and penalties as a result of the carrier not processing a claim within the specified time.

FISCAL DESCRIPTION

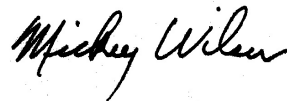

The proposal modifies the interest and penalty provision for failing to promptly pay a claim. Under the proposal, if the health carrier has not paid the claimant on or before the 45th processing day from the date of the receipt of the claim, the carrier must pay the claimant 1% interest per month (current law) and a penalty in an amount equal to one percent of the claim per day. A health carrier may combine interest payments and make payment once the aggregate amount reaches \$100 (current law is \$5).

The proposal has an effective date of January 1, 2011.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
